State Police raids Rat

By Jane Bech Nielsen

Nine MSC students were charged with drinking while underage and the college administration suspended alcohol privileges indefinitely after the N.J. State Police raided the Rathskellar last Thursday night, according to Dean of Students Dr. Edward Martin.

The raid took place after the Clifton office of Alcoholic Beverages Commission (ABC) received complaints that the Rat was serving alcohol to minors, said Martin.

The ABC has the power to revoke MSC's liquor license, and the administration is now waiting for a decision from the commission.

According to SGA President Tommy Mergola, there is a guest policy at the Rat to prevent non-MSC students from entering. "How did these (ABC) officers, without an MSC I.D., enter the Rathskellar unhindered?" asked Mergola.

"Somebody— an administrator or a member of the Faculty Student Co-op—knew about this raid ahead of time in order for that to happen," said Martin that to the best of his knowledge, the raid was not part of a continuing investigation.

In addition to the nine underage arrests, one student was arrested for providing alcohol to a minor, and another student was charged with obstructing the state police investigation, Martin said.

The campus police, who were called in to assist the state police in their investigation, charged a 12th individual.

Confrontation between frats.
erupts in Student Center brawl

At about 11:00 p.m. on March 4, a fight broke out between two fraternities who were attending a dance held in the Student Center.

Sigma Phi Rho, who was one of the fraternities involved in the altercation, was sponsoring the event along with Delta Sigma Theta sorority.

According to Campus Police, there were no arrests made and no outside authorities had to be called in. One man had to be treated for a laceration to his eye, but no other injuries were reported.

According to the Student Center Ballrooms, where the dance was held. Later the participants went outside and a man was seen running in the Mall in front of the Student Center.

Campus Police were called in to control the incident.

Tod Kellam of Phi Beta Sigma told the SGA legislature that the cause of the incident.

Angelou read poetry by
Langston Hughes, Georgia Douglas Johnson, and others to illustrate the view African Americans have of themselves as worthy people.

She just worlded African American writers' views of their culture to the view white American writers hold of it. She pointed in particular to her experience as a producer and writer of movies and television shows. "I've known white people who have written pieces about Blacks, but have never even shaken hands with a Black person. I've been Black for a long time," she said, and "I never saw a natural Black person say, 'Dyn-a-mite!'"

Angelou said that television shows that stereotyped the African-American culture and character affected a generation of children who watched them. "Kids sat in front of the T.V. and said, 'This is Black.' Then they stepped out and did poor imitations of poor imitations of themselves," she said. "Who introduced these ideas and who benefits from them?" she asked.

Angelou told members of the overflowing audience in Memorial Auditorium that reading was the key to knowledge. "You owe yourselves the best you can think and be," she said. "You need to read, young man."

"Listen to Black American literature—I say this to all races—because it is written for you," said Angelou.

Angelou concluded the lecture by reading one of her own works which she said was written as a self-love poem for women. "I wrote this for Black women, white women, and Asian women. I wrote this for fat women who are proud of their shape and when they walk down the street, no man or woman can take his or her eyes off of them," she said, and proceeded to walk across the stage, swinging her hips. "I also wrote this for skinny women—those unlucky women."

Many members of the audience had to sit between the aisles or stand at the edges of the auditorium to listen to Angelou. "It was a very inspirational lecture," said Elaine Dwyer of Career Services.

Why the delay in Financial Aid?

By Brian Nase
Asst. Assignment Editor

Money is on deposit for MSC to use at the beginning of each fiscal year and funds are available for distribution to Financial Aid recipients, said Dr. Randall Richards III, director of Financial Aid in response to student complaints.

When asked why, if there is money currently available, there are constant delays in the distribution of financial aid awards, particularly refunds, Richards said, "I've taken a month to fill out the FAF Form (FAF) cause most delays.

Refunds include money awarded in excess of tuition and room and board. This money is primarily used to cover the expenses of books, supplies, clothing and transportation, sometimes totaling up to $1,600 per financial aid recipient per year, according to Richards.

He said if a mistake is made in filling out the FAF, the entire filing process is impeded. If the March 1 deadline is not met, delays may also occur, he added.

Richards said verification of student enrollment status must be completed in order for the FAF to be processed properly. A student who is not enrolled is not an aid recipient per year, and the financial aid office does not receive a reply, notification is discontinued, he added.

In the event that the Financial Aid office finds a mistake on a student's FAF, the notification of the error is sent to the student, Richards said.

If the student does not correspond to the original notice, two more notices are sent. After the third notice is sent, if the financial aid office does not receive a reply, notification is discontinued, he added.

Richards said recipients can generally expect a financial aid refund soon after the 50% Add/Drop registration deadline.

with disorderly conduct.

While the officers were performing the raid, no students were permitted to exit the building, Martin said. This created some tension in the crowd inside the building. "People got unhappy while the officers were sorting out the crowd and words were exchanged," he added.

Several students complained that the officers treated the offenders violently and harassed several students who were actually of age. Martin said the state police officers in charge of the arrests varied in their attitude of how they related to students.

He said that some of the officers treated the offenders violently and harassed several students who were actually of age. Martin said the state police officers in charge of the arrests varied in their attitude of how they related to students.

According to Martin, the administration will take action against the 11 students arrested after their court appearance. The students face possible probation unless the court's decision requires that more serious action is necessary.

SGA President Thomas Mergola refuted reports last night which served to reduce the importance of the fraternity altercation that broke out last weekend.

"Saturday night, I was the witness of one of the most deplorable acts I've ever seen," Mergola said. "There was a brawl; I'll call it a riot, because that's what it was. I saw vagrant uses of violence I've never seen, even in my military days."

"I was there, personally, and anybody who was there and tried to minimize the effect, and what actually happened, is lying to you. Anybody who says that it wasn't a riot, that it was just a fight or a minor altercation, that's bull." Mergola added the threat of guns was present. "I heard someone yelling, 'Take it out, take out your gun,' " Mergola said. "I was scared.

Mergola said some concerns have arisen about security, administrators being on duty there, scuffles that took place afterwards in front of Blanton Hall and the Drop-In Center, students and guests that were present.

"There was not enough security, there were two security officers," Mergola said. "There were major problems. What I request is a full investigation."

Associate Dean of Students James Harris said that he really wanted to get rid of the rumors. "Some people had thought we were lax on security," Harris said. "People were there by 8:30 p.m. They monitored people coming in. Everybody was well behaved."

Harris added there was some discussion as to whether or not weapons were in the building. No weapons were discovered.

He said the two fraternities clearly understand that some type of penalty could be imposed.

"They fully understand that we have absolutely no tolerance on this campus for violence," Harris said. "The two fraternities have assured me that as for the animosity, getting even, it's over. I'm reasonably sure that's the case."

Todd LeBonn, a member of Phi Beta Sigma, said, "It was a Sigma Phi Rho brother from another campus who initiated this." He said the two fraternities have come to an understanding.

Mergola said, "I think you'll find the two organizations are repentful."

Campus Police Report

Visit results in Lovers' quarrel

By John Friberg  
Staff Writer

A Bohn Hall resident was arrested and charged with disorderly conduct and simple assault at about 1:30 a.m. on March 2.

The resident became violent after the desk assistant on duty did not recognize him as a resident, and asked for a key tag. When police arrived, the resident remained uncooperative and assaulted the officer.

At about 4 p.m., on March 2, police responded to an altercation involving a Stone Hall resident and his former girlfriend. She had come to the dorm to return some things to him when an argument started. The argument escalated into a fight, and the resident struck her. She refused to sign a complaint and has been banned from Stone Hall for a two week "cooling off" period.

There was a hit and run accident in Lot 17 at about 1:45 a.m. on March 3. Two pedestrians were walking from their parked car, when a vehicle came up and struck one of the pedestrians. The victim sustained some injuries, but was not hospitalized. Police have a license plate number and description of the car.

On March 4, police responded to the Student Center where a fight involving some 300-400 people was in progress during a fraternity party. A scuffle broke out between members of two opposing fraternities, Sigma Phi Rho and another undisclosed fraternity.

The fight moved from the ballrooms and out into the Student Center, where fighting continued and a crowd gathered. When the crowd dispersed, several people drove across grass and curbs, causing some damage. The college administration is investigating the incident.

At about 4:55 a.m., on March 2, in the Blanton Atrium, three white males were observed tampering with the candy machine by the desk assistant. When they tried to leave the building but the D.A. would not allow them to do so. They then went up into the residence hall and hid. A police investigation revealed that the machine had been burglarized.

Sometime between 8 p.m. on March 2 and 11:45 a.m., on March 3, in Lot 17, a 1983 Chevy Monte Carlo was damaged. The windshield wiper and antenna were bent.

Sometime between 11:30 p.m. on March 3 and 3 a.m. on March 4, in Clove Rd. Lot 29, a 1987 Nissan Sentra was broken into. There was no sign of theft, although the window was broken, and the car itself was damaged.

At about 2:40 a.m., on March 6, there was an attempted burglary in the 100 building of Clove Rd. A resident was awakened by a noise at the window, and saw a black male attempting to gain entry. The burglar fled the scene but the resident has a description of the suspect.

Two MSC frats. involved in scuffle at Student Center dance

cont. from p. 1
was the fact that brothers of Sigma Phi Rho from another college campus began chanting the traditional Phi Beta Sigma chant.

According to LeBon, these chants are a highly regarded tradition of his organization and when members of another fraternity chant these songs, it is considered most disrespectful. He added that the MSC chapters of Phi Beta Sigma and Sigma Phi Rho have a mutual respect and understanding of each other's pledging traditions and wanted it made clear that MSC's chapter of Sigma Phi Rho was in no way responsible for starting the fight.

The rules of decorum in connection to pledging were not understood by the Sigma Phi Rho brothers who started to taunt with Phi Beta Sigma members, he said.

Spokesmen for both MSC fraternities said they are still on good terms with one another and have events planned for later in the semester.

SGA President Thomas Mercola was present when the fight broke out. He referred to the incident as a "riot" saying, "what I saw were the most deplorably violent acts I had ever seen, worse than what I saw in the military. I witnessed people fighting everywhere. I would not call this an altercation-it was a riot. This was no small tuition."

He told the SGA legislature that "anyone who tries to minimize this situation is lying. It was serious."

James Roach, president of MSC's chapter of Sigma Phi Rho, and Ricardo Falconer, vice president of MSC's Phi Beta Sigma both agreed that tempers flared and the situation was quite tense, but refused to call it a riot, saying that there was more verbal interaction than physical.

Both men said, sentiments between the two MSC fraternities are amiable and that there will be no retaliation from either side.

Roach said disciplinary steps will be taken by an officer from his national organization to deal with the brothers involved in the incident.

The administration is conducting an investigation of the incident. Possible penalties may include restriction of programming privileges for both organizations, Harris said.

According to Mercola, the SGA is conducting an investigation to determine the seriousness of the incident. He suggested that the legislature "question the validity of [the fraternities] charters."

He urged the Greek Council to conduct a thorough investigation into the incident and report its findings to the legislature.

The official report from Campus Police has not yet been released, pending further investigation.

New Habitat work day planned
The MSC campus chapter of Habitat for Humanity will have a work day at the Paterson Habitat for Humanity project on March 11. A bus will leave from the front of College Hall at 8:30 a.m. and return to campus about 3:30 p.m.

The next on-campus meeting will be on March 14 in the Finley Hall Construction Lab at 7:00 p.m., where Dr. Winfield Parsons will provide instruction on basic construction and safety.

Troopers suspected of being tipped off

Mergola strongly ridiculed the raid on the Rathskeller Thursday night by the State's Alcoholic Beverages Commission (ABC). Eleven students were arrested.

"The State Troopers came dressed as students," Mergola said. "If those State Troopers did not have MSC I.D.'s, how did they get into the Rat?"

Mergola said they must have received a complaint from somebody. "Somebody leaked information to somebody. ABC does not operate without a complaint. They have better things to do than to mess with a small pub like the Rat."

Mergola added that a lot of students are really upset. "I got a report, by some people, that even people with proper I.D. were not allowed to go to the bathroom for an hour and a half."

Mergola said, "They were made to wait inside the Rat."

Mergola said he doesn't expect the college to get off scot-free, and he is going to request a full-blown investigation. "Needless to say, between what happened Thursday night and Saturday night, MSC got a pretty good reputation this weekend," Mergola said.

None of the activities previously organized by SILC have been called off, but arrangements have been made with the recreation department to keep it scheduled.

SILC privileges revoked

The SGA recently froze the Student Intramural Leisure Council's (SILC) budget indefinitely due to the organization's failure to process inventory lists, contracts and monthly financial reports on time.

As of Feb. 27, SILC ceased all programming, with the exception of basketball intramurals, after SGA President Tommy Mergola failed to receive several documents from the organization.

Mergola changed the lock to SILC's office and confiscated its phones, auditions and promotional shirts. The basketball intramurals are presently being run by volunteers.

"The SGA sent three notices to SILC requesting an inventory list of their equipment," said Mergola. "Finally, the list was sent by SILC's advisor (Joe Santorine). SILC is being run by its advisors, not by the students who were elected for that purpose."

Ken Staples, president of SILC, said that he does not have time to take inventory of all SILC's equipment, which is located at the field house and Panzer Gym. "I don't feel that it is my responsibility—it is the job of SILC's advisor."

"I joined SILC to have fun and program for the campus," Staples said. "Now, it's turned into work, like a paid position."

In addition to the missing inventory list, Mergola said contracts and monthly financial reports had also not been processed for the referees that SILC hires for its activities.

Finally, the organization failed to turn in their contracts, according to Mergola. "SILC, as an organization, went defunct in December, after they failed to turn in their monthly financial reports," he said.

Former SILC treasurer CathyMcNeese, who is responsible for the monthly reports, resigned after the budget was froze.

The freeze on SILC's budget will be lifted, said Mergola, if remaining executive board members Jo-El Vaugh and Staples meet with the SGA to discuss better planning and deadline strategies. Efforts to contact Staples have failed, said Mergola.

Staples said he has made several attempts to make appointments with Mergola, but has been unsuccessful. "We're waiting for Tom (Mergola)," he said.

Both Staples and Mergola indicated that if negotiations are productive, SILC could be back to programming before the end of the semester.

RESIDENCE LIFE NEWS

GOOD NEWS FOR NON — RESIDENTS INTERESTED IN OBTAINING ON — CAMPUS HOUSING

The Residence Life Office has nearly exhausted the current waiting list for on-campus housing and there are still a limited number of vacancies available!

On-campus housing in our residence halls provides an excellent opportunity to become more involved in campus life. In addition to the convenience of living and dining on-campus, you will be able to compliment your academic pursuits with a quality living/learning experience. If you are an off-campus student interested in obtaining on-campus housing anytime between now and next fall, NOW is the time to take advantage of this opportunity. If you apply and receive housing prior to our room selection process in mid-April, you will be guaranteed on-campus housing for the 1989-90 academic year. Housing for the fall semester will be extremely limited for those who miss out on this opportunity.

Housing offers will be made on a first come, first serve basis until all vacancies are filled. Off-campus students interested in obtaining a housing application should come to the Residence Life office on the 4th floor of Bohn Hall between the hours of 8:30 a.m. and 4:30 p.m.

ROTC trains soldiers of the future

By Valerie Kafrin
Head Feature Writer

When Joyce Bryant was at center court at the Meadowlands, she wasn't there to play basketball. In fact, she wasn't even on the ground. She and eight other ROTC cadets were suspended from the catwalk below the roof by a nylon rope for the half-time show of the Nets-Lakers game. The cadets demonstrated a rappelling exercise to the 19,000 fans in attendance. Using the rope and a mountain-climbing tool called a carabiner (a ring that uses friction to control speed), she and the others descended 138 feet to the floor. "The hardest part was just getting over the edge," Bryant said. "It was pretty exciting.

In ROTC, however, excitement seems part of a day's work. Activities such as rappelling are only part of what is offered in this officer training program.

Every week, students from MSC, William Paterson, Kean College, Fairleigh Dickinson University, NJIT, and Drew University converge at Seton Hall, the headquarters of the Reserve Officers Training Corps in this area. The program is oriented towards each branch of military service. For all cadets, participating in the program has three main advantages: scholarships, commission as an officer either in active duty or reserves, and valuable leadership and management skills.

"Our students have to be a little more disciplined and a little more motivated than the average college student," says Captain Frederick R. Kienle, assistant professor of military science at Seton Hall, which deals mostly with the army. "The only negative aspect is that we fight for the student's time along with everything else. Our job is to provide leadership for tomorrow's army," he adds. "We don't go out and train people to kill each other.

They do, however, train cadets through classes and instructional courses in map reading, military history, military tactics (learning how a squad or platoon conducts combat), and national security. In the leadership lab, cadets cover nuclear-biological-chemical warfare, first-aid training, communication skills, and weapons training. Not all activities are military, however. In the past, ROTC cadets have sponsored runs for charity, held food drives, and sung carols at the Veterans Hospital in East Orange. Skills demonstrations, such as those at the Meadowlands, and clubs within the program provide much of the excitement and camaraderie.

At present, the two most active groups are the Pershing rifles, a 1987 national champion drill team, and the Ranger unit, which competes with other ROTC units in marksmanship, physical fitness, and a 10 kilometer race while carrying 40-pound ruck sacks.

MSC cadets at Seton Hall admit to being attracted by several aspects in the program. Bryant, a senior and cadet major who has been in the program for four years, was drawn mainly by the scholarship, but has since found other advantages. "It got me in shape," she laughs. "It's very physical." She praises the advantages of public speaking skills, travelling, and "having a job when I graduate," she will go on active duty in June.

As a woman in the program, she doesn't feel disadvantaged in any way. In fact, the only difference she finds between the cadets is the lower women's scale on the physical training test once a semester. "The guys tend to treat you a little," she says. "Some girls are there to show the guys to prove that I can do it as well or better, but we don't get any special treat ments," she says.

Michel Dijordjevic, another senior cadet major who has been in the program for two years, also finds the interaction beneficial. In fact, he calls ROTC the "largest fraternal organization.

"There's a lot of camaraderie," he says. "Just like with everything else, you build a lot of friendships that'll last the rest of your life."

Dijordjevic's interest was mostly familial; his godfather was in the army reserve for 21 years. I had to choose between the navy and the marines," he says. "The marines are a smaller branch and it's really tough to get promoted. The army offers more opportunities."

Dijordjevic, who will get his commission as a second lieutenant this May, praises the training itself more than anything else. "It channels you. You learn to strive for something and do it, instead of blowing it off," he says.

Other cadets are drawn by the variety the program offers. John Arendt, a sophomore who is a cadet corporal, has been involved in the program for two years and is a member of the Rangers club. "I was fundamentally bored with the idea of just plain old academics," says Arendt, an honors student. "I wanted to develop a different part of my character."

"The whole concept intrigued me. I realized that carrying rifles, putting on camouflage, and walking a distance in the woods on the weekends provided quite the change of pace."

Arendt plans on attending airborne school and receiving his commission as an infantry officer after college. "Being in the army infantry is like being a souped-up boy scout," he grins.

Karie Scoughton, a freshman, has become involved in the air force ROTC just this year, and has the rank of airman, first class. "I've always wanted to go into space," she says. "I figured the air force would help me get into the space program."

A member of the Arnold Air Society and the color guard, Scoughton plans to become a pilot in the Military Airlift Command, which transports supplies, the army, and, on occasion, the President.

She finds some differences between the male and female air force cadets, even though the program is called "non-gender.

"I have to work twice as hard as the guys to prove that I can do it as well or better, but we don't get any special treatments," she says.

"I can do almost anything that I'm qualified for and that I want to do, though. Sometimes it's easier to get places.

Warnings of suicide

Contributed by The Drop-In Center

Every year, between 25,000 to 35,000 people commit suicide. In fact, suicide is the second highest cause of death among people in the ages of fifteen and twenty four, making college students prime targets.

Mr. Peter Maramaldi, C.S.W., M.P.H., presented some general guidelines to help identify a person's suicide potential in a workshop presented on crisis intervention for the Drop-In Center Staff on Feb. 25.

Although individual cases differ, there are some basic indicators that can point towards suicide, said Maramaldi. Low self-esteem, hopelessness, a sense of loss and grief, loneliness, and apathy are characteristic of a suicidal state of mind. Change of performance in school and/or job, change in appetite and emotional and/or sleep disturbance may be additional warning signs, he said.

The actual number of suicides each year may be higher than what is reported due to some attempted suicides which are mistakenly or purposely classified as accidents, said Maramaldi. While people attempt suicide more often, men are more successful in their attempts. Age also plays a role in considering suicide—the older one gets, the greater the chances of a suicide attempt, he said.

Maramaldi stressed that help is available for people who are considering suicide. School counselors, psychiatrists, psychologists, social workers, mental health workers, clergy, and physicians usually are sources of aid and referrals, he said.

The Drop-In—located between the Student Center and Richardson Hall, can provide emergency intervention, as well as information and referrals. The Drop-In Center (a service of the SGA) is open 24 hours a day, seven days a week and the phone number is 893-5271.

“HOW I MADE $18,000 FOR COLLEGE BY WORKING WEEKENDS.”

As soon as I finished Advanced Training, the Guard gave me a cash bonus of $2,000. I’m also getting another $5,000 for tuition and books, thanks to the New GI Bill.

Not to mention my monthly Army Guard paychecks. They’ll add up to more than $11,000 over the six years I’m in the Guard.

And if I take out a college loan, the Guard will help me pay it back—up to $1,500 a year, plus interest.

It all adds up to $18,000—or more—for college just for a little of my time. And that’s a heck of a better deal than any car wash will give you.

ABC bust forces MSC to lose the Rat again

Once again there is trouble at the Rathskeller, and once again the students of MSC come out on the losing end.

The incident was the result of an investigation by state police representing the Alcoholic Beverages Commission (ABC) and the arrests of 11 MSC students. Nine were charged with underage drinking, one for providing a minor with alcohol, and one for obstructing the investigation.

In addition, a 12th student was charged with disorderly conduct by MSC campus police.

Sounds simple enough. The students were underage, they knew the risk they were taking. They have no excuse. Still, several things don't seem right.

First, why would the state police bother to investigate a small campus pub that only serves alcohol one night a week? Sounds simple enough. The students were underage, they knew the risk they were taking. They have no excuse. Still, several things don't seem right.

Publisher has obligation to Rushdie

The Rushdie-Ayatollah affair will not go away in part because Khomeini continues to attach to the publication of "The Satanic Verses" the very first priority, in part because there is genuine confusion over just how second-echelon participants in the controversy are expected to behave.

The story by correspondent Amit Roy goes: "Penguin also appears prepared to discuss other demands of the Moslem leaders, such as the inclusion of a "health warning" in the remaining unsold copies of the hardback edition. This would point out that the book is a work of fiction, a product of Rushdie's fertile imagination, and should not be treated as source material for research into Islamic history."

Now I belong to the school that believes that in order to have heroes, you absolutely need to have non-heroes, and that the former are far rarer than the latter. Most people who see danger ahead run away. That is the way the world works. A Harry Hoffman can say in his defense: Look, I am a resourceful man and I am amply well-equipped to protect myself. But as much cannot be said for my employees, and if there is in Boston or in New York or in San Francisco an unemployed Moslem terrorist who has mastered the art of making up a Molotov cocktail (there are books around that will tell you what the simple formula is) and is drawn by the divine mandate of the ayatollah to a branch of Waldenbooks, who is to stop him from carnage at Waldenbooks?

Now Penguin has a contractual obligation to Rushdie, and the honoring of this obligation is vital to its strategic commercial interests. So that Penguin has told the British Moslems that the Rushdie, and the honoring of this obligation is vital to its strategic commercial interests. So that Penguin has told the British Moslems that the Rushdie, and the honoring of this obligation is vital to its strategic commercial interests.

Secondly, the new amendment doesn't even come close to stating that an organization is not allowed to choose its own advisor. On the contrary, all organizations will be allowed to elect their own official advisor, so long as they are either a faculty member or an administra- tor of the college. 

In addition, Stubina states that he personally will not be able to advise if all the constitutions are altered. This is not true. Stubina, with all his infinite wisdom, will be allowed to perversely any concept he wishes, so long as the organizations allow it.

What needs to be made clear is that an organization feels that their advisor is restricting their programming or their creativity, that organization may remove that advisor and select another.

President responds to alumnus letter

In a letter printed in last week's Montclarion, alumnus Rodney Stubina attempted to falsely the SGA's position on the faculty/advisory committee role within an organization.

First, the SGA president never stated that an alumni may no longer advise a Class One organization. The SGA president simply feels that an advisor, in his working capacity, within the college, would result in good cooperation and harmonious feelings when student organizations work with the college.

Secondly, the new amendment doesn't even come close to stating that an organization is not allowed to choose its own advisor. On the contrary, all organizations will be allowed to elect their own official advisor, so long as they are either a faculty member or an administrator of the college.

In addition, Stubina states that he personally will not be able to advise if all the constitutions are altered. This is not true. Stubina, with all his infinite wisdom, will be allowed to perversely any concept he wishes, so long as the organizations allow it.

What needs to be made clear is that an organization feels that their advisor is restricting their programming or their creativity, that organization may remove that advisor and select another.

Just to ease Stubina's concerns, the SGA President has been working on Lot 13 closings (unlike the misinformed alumnus, who parks his car on the sidewalk obstructing pedestrians). He has also been doing something about security, as has the rest of the SGA.

If Rodney Stubina would be such a competent advisor, since he has been such a tremendous success as a former editor of the yearbook, then why was his organization thousands of dollars in the red? What organization would want an advisor that is financially irresponsible, especially the yearbook organization is doing well without his advice?

More complaints about Business Office

To the editor:

Are others out there getting impatient waiting for money from the Business Office? Now I'm sure the Business Office is swamped with work. I'm sure their aim is not to incur the wrath of poor, hungry, desperate students, but I've never had to wait this long (to their credit) and it's about to get annoying. I figure, all tolled, from the time I was "awarded" my TAG money, I've been waiting more than a year to receive it. Why?

After having been put off all last semester, I was told to come in a week after the semester was over to pick up the money. When I did, they only gave me my PELL grant. I was told then (with a chuckle) that although my TAG money was there, they wouldn't be able to process it until the following semester. Process it? Fine.

This semester I have been to the office three times. The first two I was asked to come back because no one had worked on my papers yet. The last time I was asked to come back on Friday and maybe they'd have a check for me. Maybe.

I don't enjoy complaining—more often than not, it's pointless. But I need this money! The government has established that... cont on p.18

Library gives student the run-around

To the editor:

Sprague Library has $60 of my money and I want it back! I had taken out two books and somehow during my commute to and from campus they got misplaced.

Okay, they were overdue and I owed the library some money, seventy cents. Meanwhile, the library added to my tuition bill the full cost of these books and labeled it as an outstanding balance from the previous semester.

Books in hand, I went to pay my tuition in the Business Office and was told that this outstanding balance had to be paid now and that I'd have to work it out with the library. So I foolishly paid thinking that the library staff would be, if not friendly, at least receptive to the situation.

Now, they were happy to accept the books back but a refund would be out of the question. It seems that notifying the Business Office that the books have been returned is too much trouble. This is all they have to do, I checked at the Business Office.

I was told to talk to Lou Rodriguez, head of circulation, who had no idea what to do and lacks the ability to make a decision on his own. He has to consult a Mrs. Yeh who seems to know even less than him.

They claimed that I received a letter notifying me that these charges would be added to my bill, however when I tried to explain that I never received such a letter they came up with another lame excuse as to why a refund would be impossible. At first I thought that this must be a joke, certainly the library of all places would be cooperative. Not a chance.

I've gotten such a run around from everyone with whom I spoke. No one can give me a straight answer.

I consulted an attorney who, when I asked if I had any legal rights, responded firmly "Absolutely, it's your money."

Mr. Rodriguez, Ms. Yeh, here it is in print for everyone to read, reconsider and stop trying to make an example of me. I'm involved in many organizations on campus, I pay my student fees. I'm not going to just let this go.

So, a notice to all students who may have any additional charges added to their tuition bill, don't pay! At least until the library gets its act together.

Meet the D.J.

This week The Montclarion proudly presents Meet the D.J.

This column features on WMSC, the college's radio station. It focuses on WMSC's diverse line up of new music including hard-core, heavy metal and jazz.

This week's D.J. is Delia Barrak. She is the station's program director and has a show Tuesday nights from 9 to 12 p.m. The basic format of her show is dance oriented rock featuring new releases.

"We are really on top of what's on the scene," said Delia. "We are sponsored by Dance Culture magazine and get new cuts before the other stations do."

The station, located on 101.5, is totally run by students. It also reached the Arbitron ratings last year.

"It's a great opportunity for students to learn about radio broadcasting. There is always air space for new D.J.'s," said Delia.

Witness the search within a man in motion picture True Believer

By Oren Silverstein Correspondent

Twenty years later, America is still fascinated by the Sixties. Judged by some to be the last era. The decade in fact, started with the Kennedy assassination in 1963 and ended with the Watergate scandal in 1972.

Those interim years are recalled with fondness by those who lived through those turbulent days. They are regarded with equal reverence by the children of the Eighties, a curious fact considering most were not even born during that era.

As a response to that wave of nostalgia, the media has assaulted the public with a barrage of products designed as a response to their needs. The latest entry to this genre is a new film entitled True Believer.

On the surface, True Believer may look to be one of these films like The Big Chill that say "what once worked in the Sixties, won't work today." Thankfully, the film does not take that course. Instead, it is a study of one man's rebirth.

Edward Dodd (played by James Woods) is an anachronism. A former civil rights activist and lawyer who fought for what was right and for what he believed in is now reduced to defending the constitutional rights of drug dealers. While he believes in the principles behind his actions, he still loathes himself.

The reason behind this loathing is that in order to uphold the law which he believes in, he has to put drug dealers back on the streets again.

His former passion for justice and his work is regulated to the wall of his grimy Greenwich Village office. His former triumphs that hang on the wall of his grimy Greenwich Village office. His former rebelion is gone except for the shaggy ponytail affects he and his penchant for listening to the music of Jimi Hendrix and The Doors while he gets stoned on pot.

Enter Roger Baron (played by Robert Downey, Jr.) a young, bright, eager lawyer fresh out of law school. He has turned down a variety of better paying and prestigious job offers in order to clerk for Dodd, a man whose work Roger has admired all through law school.

Dodd recognizes in Roger a talent and Roger has further scorn for himself and what he has become.

Roger acts as the analyst to bring Eddie out of his hole. A woman whose son was convicted of murder eight years ago comes to Dodd for help when her son is again accused of murder while in prison. It is Roger who convinces Dodd to take the case.

After much research, the two men realize that the wrong man has been convicted. What ensues is a funny, fast paced and exciting mystery to catch the real killer and to vindicate an innocent man.

All the players in the film are first rate. King as the wronged man (played by Yugi Okumoto) gives a fine and dignified performance. He is able to convey the emotions of a broken man with an unshakable respect for the law which he believes in, he has to stand up for his convictions because no one will do it for him.

But without question, the film belongs to James Woods. Always an intense actor, he temper his role with humor, humility and a genuine understanding of the character.

He is played not as a man who has to win because he is the "good guy," as in the case with other courtroom dramas, but rather as a man who knows he has to stand up for his convictions because no one will do it for him.

It is safe to believe in the intellectual response to music by the listener and go for the soul as a done in poetry.

The result of this philosophy is an uncompromising sound which tells of its influences, but is by no means derivative. The lyrics are both socially conscious and introspective, yet fall short of the increasing problems of preaching in socially aware bands.

As Rezzonico states, "I am not trying to sell my beliefs but rather just asking that they be acknowledged. I hope to skip the intellectual response to music by the listener and go for the soul as a done in poetry.

Part I of Bands of MSC: The Night has now arrived

By Dominic Pandiscia Staff Writer

The Night is a band made up of two MSC students. Jody Terres (drums) and Gordon Vincent Rezzonico (guitar, vocals) provide some fresh new music to the thriving New Jersey music scene. The third and final member of The Night is Chris Brickford (bass guitar) who is located in Wayne.

Stating artists such as U2, Sting and The Beatles as influences, The Night has released a demo tape of original music which is both interesting and aesthetically pleasing.

The song "demo tape exemplifies the thoughtful song writing abilities of Rezzonico who is an English major here at MSC but originally hails from Perth Amboy.

As Rezzonico states regarding his songwriting, "You can express yourself if you've got the faith in yourself where your souls and can bring it to the front in the most natural situation and leave it for the people to decide and take it for what it is."

The musicianship of The Night is very good and the songwriting inspiring, which leads to a high recommendation for checking out the band. They will be performing Thursday, March 9 at The Belmont Cafe in Haledon (passes can be obtained by calling 239-8923) and Friday, March 31 at Wayne Valley High School.

If you wish to hear some of The Night's music, you can call our own WMSC-FM for a request or contact Jody Terres at 239-8923 for a copy of their tape.

The Night is planning to go into the studio this month to record new material which, as Jody Terres states, "will show more solid and growth in musical direction." Stay tuned for more information on The Night, or you'll be sorry you didn't!

Nolan's Notes

By Jarrett Nolan

Hello and welcome to another edition of Nolan's Notes. Here is a wrap-up of the Grammys. "Don't worry, he's ecstatic" is pretty much what Bobby McFerrin was humming as he left the Grammy award ceremony on Wednesday (2/22). Of the 5 nominations he received, McFerrin copped 4 of them. Newcomer Tracy Chapman walked away with 3 of the little statuettes. Rumors arise that many disgruntled people left the show that night because instead of the lightweight pop "Don't Worry, Be Happy" taking both Record and Song of the Year, the voters expected the more socially relevant "Fast Car" to take at least one of the two top honors. I agree. George Michael's Faith took album of the year and Anita Baker received R&B Song of the Year for Giving You the Best That I Got.

MINI-NOTES: Diana Ross buys into the label that made her a household name some 20-plus years ago. Towards the end of last year Motown Records was sold to MCA and Ross' deal with the company will "fulfill a 20% minority-ownership clause" stipulated by Motown founder Berry Gordy. In anticipation of the deal, Ross is in the studio now and her new album on her old label will be released in May with a tour to follow...Madonna's "Like a Prayer" debuted last Thursday (3/2). If you missed it, you can probably turn on any radio station and you'll hear it within the hour.

MINI-NOTES II: Back to the Grammys: I have nothing against Tex-mex mariachi music, but answer me this: Why would the academy nominate 8 legitimate Tex-mex bands and Linda Ronstadt knowing damn well they'd pick her because she had the only recognizable name in the line-up? Huh?!...Did anyone catch how funny McFerrin was trying to be when he won? No one laughed. Kinda tells ya somethin', huh? Look, Bobby, we know you're happy, now go home!...The answer to last column's trivia question: The guitar riff in Tone Loc's "Wild Thing" was furnished by Van Halen. This week's question: (For fans only) What actual Van Halen song is the riff lifted from? Think about it...Until next week...

Basketball League running smoothly

By Kenny Peck

Running Silky Smooth As you probably know by now, SILC (The Student Intramural Leisure Council) had their budget frozen by the SGA. Why it happened is not relevant in this section. What is relevant is the effect it has had (and will have) on the programming SILC provided. Immediately, we can look at the five-on-five basketball league currently being run.

It's easy to go down to the gym and complain about the twenty dollar fee for the shirts, or the fact that the league is only a double elimination tournament. But reality is that the people running the show there are doing the best that they can with what they have. Games start on time, they're organized, and someone was even able to coerce some students into refereeing the games. Not an easy thing to do, considering the verbal abuse these guys have taken and are going to take.

It would have been very easy for the people in charge to dump the whole project and concentrate on organizing the next event, presumably the softball leagues. But they didn't. Keep that in mind before getting on one of the refs, or complaining of the conditions. The league is running better than it has a right to be after what has taken place.

BECKER caps off fine career with selection to All-Regional team

By Mary Carlonagno

Sue Becker, a four-year veteran of the MSC women's basketball team, was picked as a member of the All-Tournament team at this weekend's National Collegiate Athletic Association Regional Championships held in New Concord, Ohio.

"It was gratifying to be at the Regionals to begin with," said Becker, who finished the season as the team's second-leading scorer behind sophomore Kim Wijnen. "I am very honored to be a part of both teams.

Indian head coach Jill Jeffrey called Becker "a great role model who just took control when needed. She couldn't have had a better season."

The Indians, who were chosen to go to the Regional playoffs as an at-large bid, lost to number three ranked Muskingum College in the first round by a score of 88-69.

But in the consolation game, the Indians beat arch-rival Kean College, who they lost to in the final round of the New Jersey Athletic Conference playoffs just seven days earlier and who

Trivia Time-Out

Each week, The Montclarion publishes a list of sports questions and answers to test your knowledge of sports trivia. In addition, there is a sports stumper which will be answered in the following issue.

If you think you have the correct answer to the stumper, drop it off at The Montclarion office in Room 113 of the Student Center Annex. The names of those submitting the correct answer will be published in the next week's issue. Deadline for submissions is Monday at 3 p.m.

1. Who said "I guess I forgot to duck" after Gene Tunney defeated him?
2. Who gave up zero walks in 68 consecutive innings of pitching?
3. What major league outfielder ran the bases backward after hitting his 100th career home run?
4. In what city was the first Super Bowl played?
5. Name the two National League players who won the MVP award three times.

Answer to last week's stumper: How many dimples are there on a golf ball? 336.

Submitting the correct answer:
Ed "The Body" Burleigh and the Bayonne Bombers.

This week's stumper: Who was the American League home run champ in 1909 with nine round-trippers?

**Women end season on a high note**

Stopped by Muskingum College but knock off Kean behind Becker's 26 points

By Al Langer
Sports Information Director

It's all over, but the 1988-89 MSC women's basketball season will live on for many years to come.

In a year reminiscent of the powerhouse seventies, the ladies of MSC took themselves to their emotional and physical limits and accomplished what none thought they could. A 20-win season and a third place finish in the NCAA Atlantic Regional Tournament left them with the recognition of being one of the top 24 teams in the country.

The Indians played perhaps their strongest season of any team in the history of the MSC. The team won six of their eight games after the Glassboro contest, sweeping the Glassboro States and tying themselves.

But the turning point of the season, according to Jeffrey, was a 65-55 loss at Glassboro State on January 24. After that game, she says, things were looking up.

"After the Glassboro game, we decided together that we would go out and give 100% all the time. I think that was the point things turned around for us."

It certainly was. The Indians won six of their next seven games after the Glassboro contest, losing only to Kean, 57-55, in a tight game at Paranet Gym.

Over the course of the season, there were many heroes for the Indians, including leading rebounder Carolyn Savio and leading scorer Kim Wilson. But there was one player on the team who made a big difference—Sue Becker.

"Sue Becker couldn't have had a better season," Jeffrey said. "This season was a great tribute to Sue. She's an excellent role model, on and off the court. I don't think she can be replaced."

Sue Becker, a senior guard from Ocean City, NJ, was a one-woman wrecking ball Saturday night against the Cougars as she took feeds at the top of the key and drove to the basket, resulting in either layups or a trip to the foul line.

After missing three of her first four attempts from the line in the opening half, Becker nailed 13 of 14 free throws in the second stanza, including nine in the last three minutes of the game to ice it for MSC. She finished the game with 26 points, her second-highest point total of the year.

"I couldn't have asked for a better season," Becker said, "and this was the best way to end it."

"It's a feeling of satisfaction. After coming so close to beating Kean so many times and playing well and losing, it feels good to beat them."

**Gonzalez, Monaco take Div. III titles, head to Oklahoma City for Div. I Nat'l's**

By Kenny Peck
Sports Editor

Karl Monaco and Pete Gonzalez will compete for the Division I national championship in their respective weight classes after winning the Division III championships this weekend.

The Division I championships will be held in Oklahoma City, Oklahoma on March 16-18.

Gonzalez, who won the Most Valuable Player Trophy and was named the Outstanding Wrestler of the entire meet, won his second consecutive Division III title with a pin of Pete Heyek of John Carroll College, his third pin of the meet.

Monaco, MSC's 150-pounder, took home his third Division III national championship by decisioning Dave Zalez of Cortland State, 9-2.

Mike Piccozzi, the only other MSC wrestler to make it to the quarterfinals, won two bouts before falling. Other MSC wrestlers competing in the tournament were Shan Harewood, Ken Huff, Scott Vega and Armando Nardone.

"I'm feeling good and ready to do it. It's just a matter of being mentally prepared, mentally ready," Gonzalez said.

Monaco and Gonzalez are up against the odds in their fight for Division I national championships, as only two others in history (MSC's Kenny Mallory and Trenton State's Tom Marucci) have been able to accomplish that. But they have been there before, and they are determined and confident in themselves.

"We've just got to take one match at a time," said Gonzalez. "We'll leave strategy to the coaches. We've just got to wrestle."

The Division I championships features the top 34 wrestlers in the country for each weight class. Last season, Monaco finished third and Gonzalez finished second overall, good enough for Division I All-American honors.

But not good enough for Gonzalez or Monaco. This season, the two seniors are determined to take home the Division I titles, and will stop at nothing to get there.

"When I was winning and doing well in December, my brother said to me, 'This must be your month,'" Gonzalez said. "But when I came back and did well in January and December, I said, 'Nah, this is my year.'"
