Women should send out the proper message to achieve success in business

By Laura Lawson
Staff Writer

Why do women occupy only two percent of senior management corporate positions today? This was the question asked at the lecture, "The Paths and Pitfalls to Corporate Success" presented April 18, by Women In Business Network to a full hall of both female and male MSC students and faculty.

Carole Brand, director of Management and Organization Development, Hoffman-LaRoche, outlined factors affecting success, which were derived from a survey of women in business, studying "high potential women who were derailed.”

According to the survey, the criteria for success included: help from above, ranked as most important; a good track record, a drive to succeed, which requires putting work before family; setting priorities; the ability to manage subordinates, especially men; taking career risks and a willingness to relocate; being tough and demanding; having an impressive image; being adaptable to change; and handling the woman issue well.

Nina McLemore-Maloy, president of Liz Claiborne Accessories, suggested that both the attitudes of men and of women affect the success of women in the corporate world.

She stressed the importance for women to "send out the proper message": that their goals are "career primary" not "family primary".

"Accepting loss and failure and going on from there, which people in team sports understand, and seeing failure as just another way of learning," said McLemore-Maloy, are key factors in success.

"Women don't move nearly as quickly as men because we don't expect to. We don't think of ourselves as being as good or as able," Brand said.

"Women who succeeded didn't start off being successful. They looked at their flaws and insecurities and changed their behavior.

Each of the five panelists emphasized the need for women to prove their capability and to exhibit a desire and willingness to pay their dues.

Joanne Dixon, president, Q. Inc., pointed out that "a lot of people just want to slide along and take it as it comes." She said it's important to "do the extra mile," and that success entails a lot of sacrifice.

The participants discussed their 60-80 hour work weeks. Dixon stressed the need for women to "do your homework, do a good job and become a value to the company."

Webster Hall was one of the buildings paralyzed by Tuesday's power failure. Students were forced to evacuate the building for several hours.

Use of the Pill may be cause breast cancer

By Laura Elhilow
Correspondent

The most dangerous period for a woman who is taking the pill to develop breast cancer is between the time she first begins to menstruate and her first full-blown pregnancy, said Erica Gollub, M.P.H. of Columbia University, School of Public Health in a College Hall lecture on April 12.

During the lecture, titled "The Pill and Breast Cancer—Evidence and Public Health Policy," Gollub told a female-dominated audience of the link between breast cancer and the pill.

The theory is that a women's breast tissue is sensitive at this time and reacts to the carcinogen, estrogen, which along with progestin, formulate the oral contraceptive, said Gollub.

Gollub added that the duration a woman is on the pill is another risk factor. If a woman takes the pill for two years she might not be at risk because she hasn't had enough exposure to estrogen.

Gollub informed her audience of background information concerning breast cancer. She said that a woman whose mother has breast cancer is two times more likely to get it than a woman who does not have it in her family history. Nutrition, particularly a high-fat diet, is also linked to breast cancer.

During the question and answer period a student asked what a woman should do if she was taking the pill for medical reasons.

Gollub responded, "Doctors far over-prescribe the pill. There are reasons why women skip periods, stress being a common one. Doctors use the pill as a convenience. It should come down to our own assessment. Too many women don't know the risks of the pill."

Gollub also stated: "We've created a 'Pill Generation' of women who know nothing about their bodies. Women should be educated."

The audience appeared alarmed at the evidence of risk factors linked with birth control pills. Some individuals went as far as to blame the media for not informing the public about the risk factors due to the high profit of the pill.

The issue of AIDS was also brought up during the question and answer session. Gollub said that condom promotion could be responsible for a fading trend of using the pill.
Pre-Law frat initiated

On March 15, the MSC chapter of the Phi Alpha Delta Pre-Law Co-Ed fraternity initiated twenty-two new members in the Faculty Dining Room of the Student Center.

The fraternity, which was founded on our campus in 1987, is an international organization which caters to the needs of students interested in careers as lawyers.

It provides an undergraduate opportunity to tour law schools, to gain the most-updated information pertaining to financial aid at law schools and to gain access to the latest scholarship opportunities.

The fraternity sponsors speakers on topics ranging from advice from first year law students to women in the legal profession.

They also aid the student in preparing academically for a transition into law school by offering tutorial services and providing info on the LSAT & LSDAS information.

There are currently 35 members of Phi Alpha Delta on our campus. Meeting are 5:00 Mondays in rm. 415 of the Student Center.

“Project dinner”

The specialized food production class of the home economics department at MSC is sponsoring a “project dinner” on April 20, at Finley Hall. This project of the class is designed to give its members an opportunity to practice their management skills.

The menu consists of a choice of two full course meals:
- Rolled Breast of Chicken w/ Wild Rice
- Seafood Pasta w/ Tomatoes and Basil

Tickets for the meal were sold for $4 pre-fix. per person.

New sorority suggested

Twenty-five girls met in the Blanton Hall atrium on March 15, to discuss plans for founding a new national sorority, Alpha Chi Omega, at MSC.

The girls are awaiting acceptance from the national headquarters in Indiana to become a colony by May of this year. The members will be accepting pledges for the Fall semester if the chapter is approved.

The members at the meeting generally agreed that founding a sorority will allow them to incorporate their own ideas and traditions that differ in some ways from the other sororities on campus.

The idea for starting the sorority was initially activated by Blanton Hall residents, Kerry Raftery, Lisa Balcom and Michele Linenat.

After speaking to members of the Alpha Chi Omega chapter at Rutgers, Raftery received permission from Dr. Edward Martin, Dean of Students, and the Greek Department to carry out plans for founding the sorority.

If the national headquarters accepts the proposal for an MSC chapter, representatives from the Indiana chapter will visit the founding members this semester to advise them on the rules of governing the sorority.

Also, members will be elected for office, a budget will be settled and weekly meetings will be held.

Anyone interested in obtaining further information concerning the sorority may contact Raftery at 783-2688.

Music building should be gutted despite recent renovations

By Susan Sarlo
Staff Writer

“McEachern is almost beyond hope as a music building. The recently installed air conditioning, even had it been well maintained, is, in most cases, a case of good money after bad. Short of demolition, there is only one thing to do with the building: it should be gutted,” according to a report issued by the music department.

The report was issued to the Master Planning committee concerning the conditions of the McEachern Music building.

In the report various recommendations were made by the department to correct problems including the total transmission of sound from one room to the next and inadequate temperature and humidity controls.

According to Department Chairman Dr. Donald Mintz, the building is unsuitable for the uses to which it is put. Mintz said the building was originally built for 90 students and ten faculty members and now has over 200 students and 30 full-time faculty members.

Mintz added that two things are wrong about the building: the sound transmission and the lack of adequate temperature and humidity controls.

SGA News:

SGA Executive Board members unhappy with election procedures

By Tom Checkur
Staff Writer

SGA Executive board members ridiculed this week’s electoral procedures at the SGA meeting last night.

Vice President Matthew Souders said, “I have heard some complaints made about how the election was run.” Gubala said there certainly was a time when Mike Borgia stepped out of the bounds of the position as Attorney General.

At one point during the election, Borgia settled a dispute between the two secretarial candidates, Judy Mendez and Helen Archontos, by suspending the election to post flyers for one night after they got into a fight in front of one of the dormitories.

“He did not consult the election committee,” Gubala said. “Mike Borgia has no authority to stop posting of flyers.” Gubala felt that stopping the posting of flyers could have affected the election.

Borgia argued that he had made an attempt to contact a few people. Borgia also said that no one had a right to question his power as Attorney General.

SGA President Thomas Mergola was dissatisfied with the cancellation of a debate between the candidates. The debate, which was slated to be held on-the-air of the WMSC radio station, was cancelled by the Attorney General because of automobile problems.

“You don’t just cancel a debate,” Mergola said. “Talk about hindering the possible outcome of an election. There’s no excuse, and I don’t even want one.”

Mergola, who was not re-elected, said, “I’ve been here for three elections in the past five years, and I’ll admit this was the most shabbily run.”

The Drop-in Center’s budget was cut for next year, said SGA Treasurer Perry DelVecchio. “The freeze went into affect of Monday. No supplies, no services, will be rendered that require a fee.” DelVecchio said that the budget-freeze will continue until the center provides a report with certain requested information.

A bill designed to change the Formal Writing Assignment policy was passed unanimously. The bill recommends that all work done on a word processor be deemed acceptable. Currently, teachers do not have to accept assignments done on a word processor.

Delta Phi Epsilon, a national Sorority, was unanimously granted a Class IV charter.

Linnehan elected new SGA president

ccont. from p. 1

“Communication and compromise is a premise I intend to function under as SGA president, and I hope that the channels between student input and the successful implementation of that input will be opened,” said Linnehan.

“All the referendum questions on the ballot were voted in favor of. The first question, regarding the re-institution of a pass/fail option for General Education Requirements (GER), won by 310 votes, while the second question, concerning the renovation of Sprague library into a building for the business school, won by 255 votes. The final question, regarding the institution of a business minor, won by 706 votes.”
Campus Police Report:

Fireworks set off in Blanton Hall incident

By Jane Bech Nielsen
Assignment editor

The fireworks were thrown from the fourth floor down onto the desk area in Blanton Hall, on April 11, at 12:15 a.m. A second incident took place at 1:30 a.m. on the same night, when fireworks, placed in the 3AD study lounge in Blanton Hall, went off. There are no suspects in this incident.

Mark Litarowich, an MSC student was fined $350 for pulling a fire alarm in the Clove Road apartments. He also received a 30-day suspended jail sentence and was put on one year supervised probation.

Litarowich was required to attend an Alcohol Counseling Program. If he fails to attend this program he will have to serve his jail sentence.

On April 12, Lee Seranni was fined $155 for possessing stolen property. When arrested by Campus Police on April 1, Seranni was in the possession of an MSC traffic sign. He was put on one year supervised probation.

Sometime between 11:15 p.m. on April 11 and 3 p.m. on April 12, a 1988 Jeep Suzuki was stolen from lot 21. The car was recovered in Newark the same night.

A 1980 Oldsmobile Delta 88 was broken into on April 12, sometime between 8:30 a.m. and 5:00 p.m. When an attempt to steal the car failed, the thieves stole the radio.

Sometime between 11:00 p.m. on April 15 and 4:00 a.m. on April 16, a 1980 Chevy two-door was stolen from lot 17. The car was recovered by the Essex County Narcotics Bureau in Newark on April 16.

Attention Graduating Seniors

The Harold C. Bohn Fellowship will be awarded by Senate-Phi Alpha Psi to a student who shows promise in any academic discipline and presents a bonafide plan for graduate studies (at MSC or elsewhere).

Applications are available from Dr. Edward Martin, Dean of Students or at the student activities office located on the 4th floor of the Student Center. Deadline for applicants is May 22nd.
Interested in a job with flexible hours and convenient on-campus location which would look good on your resume?

Then look no further!

The Montclarion needs intelligent and dedicated people for the following paid positions for the academic year 1989-90:

Graphics Manager—a salaried position. Applicants must be willing to dedicate at least 15 hours a week to the creation of advertisements and the management of graphics staff.

Graphics staff—two hourly paid positions available. Must demonstrate creativity and be detail-oriented.

Stat Camera—Experience with Kenro stat camera preferred but willing to train bright individuals. Salaried position requires a minimum of six hours a week with two of those hours occurring after 8 p.m. on Wednesdays.

Clerical—a limited number of hourly paid positions available for phone coverage for busy advertising/news offices. Work between classes.

Come to The Montclarion (Student Center Annex, room 113) in person on any Wednesday, from 2:00 p.m. to 9:00 p.m. for an application or further information. You need not qualify for financial aid.

The Montclarion is an equal opportunity employer and a Class one of the SGA.
Eye on MSC

Congratulations to the cast and crew of SPEAK EASY

A job well done!

THE VETERANS ASSOCIATION ANNOUNCES ITS SUPPORT OF

TOM MERGOLA FOR SGA PRESIDENT
THOMAS CZERNIECKI FOR SGA VICE PRESIDENT
TIM NEE FOR SGA TREASURER

Our next meeting will be on April 27, 1989 at 7:30 p.m. in the Rat.

Academic Minor in Portuguese

MSC Offers An Academic Minor In Portuguese Designed To Prepare Students For Professional Work In A Variety Of Fields. Brochures Are Available In The Foreign Language Office, Partridge Hall.

To Make An Appointment With Dr. Landers, Academic Counselor For Portuguese, Call 893-4285.

See Fall Course Book For New Courses In Portuguese, Including Translating I.
Contributed by Carl T. Snipes  
Director of Academic Advising

In the past, there were long, long lines with no end in sight. Then there was uncertainty, usually resolved on a hot August afternoon in Panzer Gym. MSC students, dread no longer. The wave of the future is here.

The new on-line registration system will debut on Tuesday, April 25, as the course selection process for fall schedules begins. While the system provides for major improvements in simplifying registration, like all advancements, it also comes with its share of headaches which can be avoided if students are properly prepared.

A key feature of on-line registration is instant scheduling. It is now possible for a student to complete the registration procedure and walk away with a full schedule, all within minutes and without the early return for the August afternoon appointment in Panzer Gym.

In order to make this happen, however, students have plan to seek academic advisement prior to the registration period. They should familiarize themselves with the curriculum and arrange for advisement beforehand, or else the new instant registration will be plagued by the old frustrations.

Academic advising is an ongoing process, which involves more than pre-registration counseling, and should happen at various stages throughout the academic year. While there is an obvious connection between advisement and registration, the two need not occur only when course schedule booklets are published.

In fact, good advisement can and should take place before course schedule booklets become available. Planning your courses and knowing program requirements are areas which can be discussed with an advisor long before registration. By preparing adequate list of course alternates and having an understanding of one’s overall program, registration becomes a routine process of simply assigning a time to courses which have been previously selected in consultation with your advisor.

Seeking early advisement also ensures that your advisor has sufficient time to address all your advising needs. Faculty advisors are full-time teachers who must also meet the demands of the classroom. Instead of waiting for peak periods like registration, students should evenly distribute their advising time throughout the academic year to make things easier for all.

Academic advising involves more than just a signature on a course schedule. By setting goals, acquiring knowledge of academic policies, procedures, institutional resources, curricular requirements, programs and course offerings, the student and the advisor develop meaningful and useful educational plans which are supportive of the student’s life goals.

In addition to advising, there are other ways that students might help themselves by thoroughly reading the undergraduate college catalogue and reviewing the first section of the course schedule booklet each semester.

The Academic Advising and Tutorial Center is planning a series of materials to cater to the varying needs of the undergraduate student body. First in the series is “Frequently Asked Questions About Advising,” which provides students with some of the most important questions and answers the Center finds in the every day conduit of student advising.

Another soon-to-be-available hand-out is “Who’s My Advisor?”, which is aimed towards helping new and re-admitted students better understand how to contact their advisor and how the advising system at MSC works.

In addition to these materials, which will be available at the Center, the Academic Advising Newsletter will soon return to outline some of the demands the new system will place on students in order to maximize its potential.

If you have changed your major or are undeclared, or are a transfer or newly readmitted student, the Academic Advising and Tutorial Center invites you to call for any assistance that you might need at 893-42337, 893-4106 and 893-4146.

If you have already declared a major area of study, contact your major department to arrange for advisement.

who was very helpful in explaining several details, I completed a personal profile form which outlined my course of study, career goals, and, if any, prior work experience.

Copies of my profile were sent out to different employers, and I began interviewing for jobs shortly afterwards. Before I knew it, I had been offered a position as an editorial assistant for Bellcore (Bell Communications Research), located in Livingston, NJ.

This position has given me the opportunity to experience first-hand what it’s like to work in and be part of a professional corporate environment. Working side by side with professionals has broadened my knowledge and understanding of producing a corporate publication.

Gaining some insight into the various aspects of communications has given me a chance to explore other career opportunities as well. I strongly feel that I have been given a head start in the ‘real world’ before graduation, not to mention a feeling of self-confidence.

Any student who is seriously considering gaining the appropriate experience before graduation should take advantage of this “on-the-job” learning opportunity. Stop by the Co-op office in Room 104 of the Student Center Annex or call 893-4426 for more information or an appointment to meet with an advisor.

Earn Money from Day 1
Is MSC really free of graffiti?

By Michelle Kear
Staff Writer

Jane Gordon never wanted to go into the men's rooms in the first place.

She was searching for graffiti as a project for her final English course. Next to slang and words, to the lovelorn, however, she found more than just interesting reading.

An English major, Gordon was assigned to write about a controversy concerning her final English course. She chose campus graffiti, a topic which Sprague Library only has one study on from 1978 from a college in California.

She originally wanted to do a left-brain, right-brain analysis using only the women's facilities as a study in creativity and rationality. For example, the ladies' room in Richardson Hall is clear of graffiti while the Partridge Hall ladies room is filled with it.

Dr. Richard Franke of the anthropology department advised Gordon that she should need a control group for her study, meaning that she would have to go into both men's and women's washrooms and compare them.

"Only men go into men's rooms and only women go into women's rooms," Gordon says of her conversation with Franke, "or so we thought."

According to Gordon, Dean Cohen told her that she could "just go in" the men's rooms across campus, while she thought a pass would be more appropriate; she wanted official documentation of her study.

Gordon decided to speak to Edward Martin, dean of students, who assured her that "the janitorial staff does not run this college" and that Tom Stepnowski, assistant vice president of facilities, would give her a pass to carry out her research.

Gordon's meeting with Stepnowski, however, was less than successful.

She only got as far as his secretary, who, according to her, said she was speaking for her superior. "Mr. Stepnowski says that there is no graffiti on Montclair State's campus," Gordon recalls her as saying.

Gordon relayed her order from Martin, and then called back his office for assistance. After speaking with his secretary, with what she called considerable arguments [on my part] about my need for some kind of acknowledgement on the part of the college that I had permission to do this kind of research," Gordon arranged for an appointment with Martin for March 9.

That day, Friday, April 7, however, Gordon went into action. She picked up her pass from Cohen's office through David Stuehler, and headed for the washrooms.

"I grabbed my camera and made sure I had enough film. By six p.m. I had taken photos of every men's and women's washroom on campus with the exception of the library, which was closed by the time I got to it," she says.

Gordon found that the graffiti fascinating. Along with the expected slang and curse words, she found despairing suicides that some had written back, and in other cases anonymous correspondents offered advice to Alcoholics Anonymous or the Drop-In Center.

Sunday, Gordon says, she realized that the "cover-up" had begun. She made several copies of Dean Cohen's pass and returned with her camera to those washrooms she had missed on Friday.

"The men's washroom in the basement of the library had literally been semi-whitewashed with a painting roller. I took photos," she says.

"By Monday, April 10, both the men's and women's washrooms, primarily the men's, were being re-painted and scrubbed, and in Partridge Hall, paint remover was used to remove the graffiti."

Gordon adds that an expert photographer will be able to tell that her photos are before and after shots of the same stalls because she made sure to get identifiable toilet tissue rolls and door hinges included in the shots.

She wonders, however, why she was originally told "there is no graffiti on Montclair State's campus."

The custodians in the Student Center and in Partridge Hall told Gordon that the women's rooms were painted two to three times as much as the men's rooms. "That means that the graffiti I found in the ladies rooms is not representative of what we women are truly capable of," she says. "It was not a control group."

Gordon wonders if the constant painting of the washrooms makes Stepnowski's statement about the graffiti, or lack of it, on campus true. She also wonders if funds are appropriated specifically for this purpose.

Nevertheless, Gordon still finds the topic of campus graffiti interesting. "While researching for books and articles on this subject, the librarian [at Sprague] could only find one article—from a California college 10 years ago. Now I know why," she says.

A Positive Point About Breast Cancer.

Now we can see it before you can feel it. When it's no bigger than the dot on this page.

McEachern hears a second sour note

The McEachern Music building just had an entirely new air conditioning system installed. It would have been a good thing. However, in a report to the Master Planning committee, the Music Department proposes that the only thing to do with the Music Department Chairman Donald Mintz says that the building is a restructuring of the interior going to be sufficient to provide appropriate accommodations for the 30 full-time faculty and 200 students that the building now holds. If the McEachern Music building just had an entirely new air conditioning system installed, it would have been a good thing. However, in a report to the Master Planning committee, the Music Department proposes that the only thing to do with the building, besides having it demolished completely, is to have it gutted and start all over again. What’s wrong with this picture?

Music Department Chairman Donald Mintz says that the building was only designed to hold a fraction of the present number of students and faculty. So what would the building accomplish? If the structure was only meant for 90 students and ten faculty members, is a restructuring of the interior going to be sufficient to provide appropriate accommodations for the 30 full-time faculty and 200 students that the building now holds?

Would gutting the building mean that our tax dollars have just gone to waste installing a new air-conditioning system? The money needed to refurbish McEachern would have to come from the $1.3 million bond Montclair State received over the summer. That means that the college must provide one dollar for every two which comes from the bond. Which means—you got it—an increase in our tuition.

The question which comes to mind at this point is this: is it fair to charge students to repair a blundered administrative decision? Why did the college allow the installation of an air-conditioning system in a building which was inadequate for its means in the first place? To provide a comfortable yet functionally inadequate environment for the young musicians of our school?

And the second question is: What happened to the money received from the Challenge Grant which was supposed to go toward improving the fine and performing arts on campus? Isn’t the McEachern building part of them? It is. There are only two possible solutions. One is to build an addition onto the existing building. Another is to prepare plans to build a larger building. Either way, it is the music students who will have to be inconvenienced for another semester.
**Viewpoints/right**

**Australia’s Hawke led to temptation**

SYDNEY, Australia—When you leave Queenstown in New Zealand on such a day as this, you come close to knowing what it was like when the clouds are low enough to touch Cindrella. Leave it at that, but put it down on your wish list: a few days in that green-white valley with the endless blue lake and the poplar trees and people to match—I mean, the telephone operator hopes you will come back soon and wishes you a happy next leg on your trip.

There is, one pauses sadly to note, no way you can have a hint of a hint in Queenstown–Christchurch because the Hawker Siddleys that carry you are less comfortable than the pre-World War I train you gamboled about on yesterday, and when the stewardess tells you before landing to make your seat upright you grimly guffaw, because Cook Airlines has seats that were upright pre partu, in partu, and post partum. That is a fancy but gratifying way of saying that Mr. Cook’s airplane seats were conceived upright, delivered upright, and live upright.

There was tension, but the reasons for it were top secret. Our military leader, Gen. Pevser, whispered to me that the probability was that our Concorde would not land in Sydney, but in Brisbane. This was not a so-what alternative, since three “Firing Line” episodes had been laboriously scheduled to begin one hour after landing at Sydney, one of them featuring the feisty, ingratiating prime minister of Australia, Mr. Robert Hawke. The trouble in Sydney is an air traffic controllers’ easier-strike, which during the last few days has immobilized the airport, usually in the mornings and late afternoons. But I think you will do its calisthenics at midday. The result of landing at Brisbane instead of Sydney would do to us, given theatrical deadlines, something on the order of what landing on Saturn instead of the moon would have done to our astronomers.

And so I stood at the Concorde’s graphic public displays giving altitude, plane speed and time-to-go to destination. We had reached it at that, but put it down on your wish list: a few days in that green-white valley with the endless blue lake and the poplar trees and people to match—I mean, the telephone operator hopes you will come back soon and wishes you a happy next leg on your trip.

That action by itself, will not make abortions illegal. What would happen is that abortions would no longer be considered a Constitution right.

As Americans we enjoy many privileges, such as drinking alcohol or driving a car. Neither of these are constitutional rights, yet neither is greatly endangered. However, as privileges, the states are given the power to regulate them as they see as in the best public interest. This would be the result of overturning Roe vs. Wade.

Continuing with the paragraph, as a painfully a memory as the Nixon Era might have been, it was not the Dark Ages, but merely the early 1970s that abortion was illegal. Actually, I’m told that abortions were legal during the Dark Ages.

James M. Curran graduate student/computer science

**Resident up in arms over volleyball problem**

To the editor:

I would like to know if the only qualification for being a Residence Hall Association member is thinking like a jackass.

Last September, I returned to school to find that one of the volleyball poles in the quad was missing. I was told that a maintenance employee had stepped on it, but it would be repaired as soon as possible. A week ago (only 7 more weeks until new volleyball poles were erected; yet like everything else, the new policy is backwards.

First of all, the new net is ridiculously low to the ground. Why waste the money and effort of the professional set-up if the primary factor of height is excluded. Who was consulted about the specifications any way—pigmy?

Secondly, the new net and volleyball poles have to be signed out at the Bohn Hall front desk and returned by 5 p.m. If a maintenance employee was originally responsible for the mishap, why does the Residence Hall Association insist on babysitting the residents?

This means that for the last three and a half hours of daylight, a time when classes are over and students want to relax, the poles sit locked in a closet gage.

Finally, I was told this weekend that I wasn’t allowed to use the pole, since I didn’t have the weather and use it. What is the use of having the equipment if we can’t use it? And who determines what “nice” weather is anyway? Am I supposed to stay inside because someone else doesn’t like the cold?

In the past, there was never any problem with volleyball. I don’t understand why an organization, which we pay for, insists on making things difficult for the residents. We even went to one of their meetings to discuss our concerns, but they never showed up. What a waste of time and money.

Thomas Checkur junior/computer science

**Abortion article lacked objectivity**

To the editor:

I was rather disturbed by your article “Students march on Washington,” in your April 13 issue. Specifically, I am referring to its fourth paragraph.

In this paragraph, the author completely abandons journalistic objectivity, and begins to editorialize. While this can be forgiven, as the article was a feature, in the process, she makes statements which are recklessly inaccurate, which is inexusable in any form of reporting.

The paragraph to which I refer reads as follows:

“If this case (Row vs. Wade) is overturned, abortion would become illegal in the U.S., as it was in the Dark Ages, subjecting women to numerous medical hardships through illegal abortions and causing them to turn to illegal and possibly dangerous practices to have the right to choose what they want, to do with their own lives.”

The truth of the matter is that if Row vs. Wade is overturned, that action by itself, will not make abortions illegal. What would happen is that abortions would no longer be considered a Constitution right.

As Americans we enjoy many privileges, such as drinking alcohol or driving a car. Neither of these are constitutional rights, yet neither is greatly endangered. However, as privileges, the states are given the power to regulate them as they see as in the best public interest. This would be the result of overturning Roe vs. Wade.

Continuing with the paragraph, as a painfully a memory as the Nixon Era might have been, it was not the Dark Ages, but merely the early 1970s that abortion was illegal. Actually, I’m told that abortions were legal during the Dark Ages.

Disappointment over ball bid battle

To the editor:

We would just like to express a couple of thoughts on the “minor inconveniences” that were bestowed on us at Thursday night’s Spring Ball. We were very disappointed in the way C.L.U.B. organized the event.

My friend and I took the proper steps in buying our bids early to insure us the seats that we wanted. We carefully chose a table that was not in the flow of traffic and was away from the music. Our understanding of the purpose of bids was that it guarantees your seats in the location of your choice. We later discovered this step was of no consequence.

After taking the time to search for our table, we found that it was fully occupied. One of the occupants at the table, no less, informed us nonchalantly that we had been moved to another table because we were only a table of four and to accommodate them, we were moved elsewhere.

At that point, we went to find a waitress, who directed us to another table because we were only a table of four and to find a new table arrangement did not occur to us. Again that was the purpose of buying a bid in the first place. Apparently C.L.U.B. appears to have come up with a new definition of the word bid.

After missing the entire cocktail hour while the confusion continued, we were excited to discover that our table was now four feet from a huge speaker and right next to the dance floor. Once again, that is why bids were purchased in the first place. Unfortunately, C.L.U.B. did not think that perhaps there was a reason a table at the back of the room was chosen. One of us has a hearing problem so we chose a table in the back of the room and away from the speakers to avoid a shouting match, and enjoy an evening of fun and conversation.

As it was, the entire evening was spent screaming at one another. We ended up leaving early due to pounding headaches.

For this minor inconvenience, we would like our money refunded as well as a formal letter of apology from the organizer of the event. If this is the way C.L.U.B. will be running its future functions, we strongly suggest heavy evaluation of its policies. We feel that if this is the normal procedure of C.L.U.B. to be holding their events, people such as ourselves, will not continue to support them in any manner. We would appreciate a response.

Money alone does not change everything

To the editor:

In coverage of the SGA election debates, it was mentioned that Tom Mergola, in response to the question of how the increased SGA fees were benefiting students, said it allowed for programming of sell-out concerts like Eddie Money and Little Feat.

While I appreciate that he thought of Class One Concerts’ activities, I would like to point out that Mr. Mergola’s response was not entirely accurate. The availability of funds does make programming student activities easier, but other important factors were overlooked in Mr. Mergola’s response.

In the first place, Class One Concerts’ Executive Board worked very hard this year selecting the right bands that would appeal to the entire campus. For example, Producer Geoff Gibbs kept in contact with a variety of agents to get the best bands at the lowest prices. The rest of the executive board worked diligently as well, finding bands to make our Battle of the Bands and nights in the Rat more successful than expected.

SENIOR PORTRAITS

April 24, 25
**Children's theater performs**

By Antoinette Doherty

Staff Writer

The Sunrise Players — Montclair State College Theatre for young people will be presenting Androcles and the Lion through Thursday, April 27 from 7 p.m. to 11 a.m. and 1 p.m. This will be the third week of the show for the newly formed Sunrise Players — Montclair State College Theatre for young people will be presenting Androcles and the Lion.

The cast includes: Joe Dalo as Androcles, Anne Janoski as The Lion, Kevin "Scooter" Smith as Pantalone, Sarah Griggs as Thé Captain, Jase Hudnut as Lelio, Laura Pavlicek as Isabella, Jennifer Bidder as The Stage Manager, Carolyn Kowalski as The Prologue/Player, Michael Slattery as The Prologue/Player, and Antoinette Doherty as Isabella/Player.

Tickets are $2 general admission. For more information call 893-5163.

**Film happening**

"Film and Cultural Values," a film and lecture series exploring humanistic concerns in foreign film will conclude with the presentation of The Given Word, a modern Christian allegory directed by Anselmo Duarte.

The guest speaker will be Robert Stam, a member of the Cinema Studies Department at NYU, who has published and lectured widely on Third World Cinema.

The Given Word will be shown on Thursday, April 27 at 7 p.m. in Callicola Auditorium. Admission is free and open to all.

**Art Forum Series continues**

An unusual presentation will be given this week in Art Forum Series by TODT, "a four person collaborative whose members wish to remain anonymous." They will conduct this week’s lecture in the Callicola Fine Arts Building Auditorium.

TODT has produced work in a variety of media including painting, sculpture, photography, poetry, film and video. Their work has been reviewed by The York Times and Village Voice as well as other publications.

The lecture will take place Thursday, April 27 from 3 p.m. to 5 p.m. and admission is free.

**Little Feat rolls across campus**

By Raymond Ecke

Editorial Page Editor

Few bands can Let It Roll the way Little Feat did Monday night at Montclair. The sold-out concert, presented by Class One Concerts, gave the student body a change to witness one of the most influential bands southern music has.

With 18 years of performing as a band under their belt, Little Feat has found a certain groove that many young bands lack from a musical standpoint, they are frighteningly tight and precise.

The two-hour-plus show began with a Little Feat staple, “Fat Man in the Bathtub.” TPOH, which serves up on loa through songs off their Grammy-nominated album, Let It Roll. Songs such as “One Percent Moment” and “Business as Usual” (which was dedicated to Jim and Tammy Bakker) were played.

Little Feat came back for two very long encores which featured some of their most respected songs. The first was “Dancin’ at the Face of Boogie” which featured some rowdy guitar work by Paul Barrere and Fred Tackett. Feat ended their set with the slow paced “Willin’.”

Little Feat gave TPOH a taste of something we don’t see too much of these days- some down home southern rock. To get us yanks to shout “Yee haw!” there is no small feat.

**Pursuit of Happiness fills Green Parrot**

By Dominic Pandiscia

Staff Writer

Being a fan of rock and roll in ones twenties can be a disorienting experience, especial­ly in this decade of the eighties. Faded are the associations with such pubescent lyrics as, “You’ve got to fight for the right to party,” and “Every rose has its thorn.”

Enter Moe Berg, Berg, who is the singer songwriting and lead guitarist of The Pursuit of Happiness (TPOH) is a musician in his late twenties who was soloing the middle of the decade as opposed to falling into the same trap of most aging rockers of today by trying to write about pubescent experiences.

Berg expresses this most blatantly in the band’s first hit song “Couldn’t I Just Tell You” from Rundgren’s Somethings/Anything release. Berg, who states Rundgren as a major influence, sings with a husky voice which markedly contrasts with his appearance which is that of a frail, androgynous guy who might be more comfortable behind the keyboard. His sardonic sense of humor shines through in both his lyrics and his between song babblings.

TPOH is comprised of two women and three men who provided an interesting visual appearance when the band performs live as they did Friday, April 14 at the Green Parrot in Neptune. The tight vocal harmonies and heavy guitar sound were effortlessly reproduced as they are on their new album Love Junk.

They even catered to the scattered Todd Rundgren fans in the crowd (Rundgren pro­duced Love Junk) by playing “I Don’t Tell You” from Rundgren’s Somethings/Anything release. Berg, who states Rundgren as a major influence, sings with a husky voice which markedly contrasts with his appearance which is that of a frail, androgynous guy who might be more comfortable behind the keyboard. His sardonic sense of humor shines through in both his lyrics and his between song babblings.

Probably the single greatest asset the band has acquired since George’s departure is vocalist/guitarist Craig Fuller. This former member of the now defunct Pure Prairie League gave sweet harmonies to the songs he didn’t sing lead on.

To those he did sing the lead to, he couldn’t have been more perfect. He was particularly evident “Hangin on the Good Times” and “Listen to Your Heart.”

Little Feat came back for two very long encores which featured some of their most respected songs. The first was “Dancin’ at the Face of Boogie” which featured some rowdy guitar work by Paul Barrere and Fred Tackett. Feat ended their set with the slow paced “Willin’.”

Little Feat gave TPOH a taste of something we don’t see too much of these days- some down home southern rock. To get us yanks to shout “Yee haw!” there is no small feat.

**Nolan’s Notes**

By Jarrett Nolan

Hello and welcome to another edition of Nolan’s Notes. Madonna and Lou Reed are among Warner Brothers Records artists to include an AIDS fact sheet in their albums as a Warner precaution for statements on the recent Smith/Kinson album. Copies of Madonna’s Like A Prayer and later pre­mings of Reed’s New York include a leaflet entitled “The Facts About AIDS.” After AIDS advocates protested anti-gay statements on Kinison’s album, Warner executives met with Los Angeles-area protesters and agreed to ask artists to include statements on their album packaging. Later pressings of Kinison’s album include the flyer. A double-live set that could be considered as a greatest hits. If you’re familiar with his between song babblings, the sound is crisp and clear and hardly strays from its studio-originated sound. It’s good for those that like their music, but haven’t bought a full album.

NIGHTLY NOTES: A Rock and a Hard Place, a music-industry AIDS benefit, has been pushed back from June 8 to October. Whitney Houston was the second choice to headline the show, after the cancellation of the original headliner Bon Jovi. The sound of a Rose, were dropped over a controversial lyric about gays and AIDS...A Toronto court has guaranteed the Right to Rock tour $63 to $70 million to tour North America. To assure the interest of the MTV crowd, the Stones are considering G’N’R, INXS, and Living Colour as opening acts...Phil Collins and his wife, Jill, had their first child, a baby girl, in the middle of March..."Like A Prayer" becomes the #1 single and album this week. It’s Madonna’s fifth #1 album, breaking the record for most albums to reach #1.

NIGHTLY NOTES: B: From the figure this time out: Rolling Stone Bill Wyman, 52, will marry Mandy Smith, 19, but here’s the twist: Wyman’s son, Stephen, 28, is already married to the name of Wyman’s wife, Pamela, 32. Because people are related to other people! The answer to last week’s question: ABBA got its name from the members’ names: Agnetha, Benny, Bjorn, Anni-Frid. This week’s question: Have You Seen Me Lately is Sam Kinison’s second album. What was his first? Extra credit: Figure out the Wyman-Smith mess! Think about it...Until next week...
Are You Studying For Last Year’s LSAT?

If you’re not taking Stanley H. Kaplan to prepare for the new LSAT, you could be wasting time studying for an exam that’s already outdated. That’s because unlike most test prep companies, our research department acts on test changes before others even know they exist. And with Kaplan, you’ll benefit from our 50 years of experience, small classes and superior teaching methods. So when it comes to preparing for the new LSAT, study with the one test prep company that always does its homework.

JOIN IN THE SPRING WEEK FUN - SIGN-UP FOR OUR 5K RUN!

CELEBRATE THE THEME OF SPRING WEEK, "WELCOME TO THE JUNGLE", BY RUNNING IN THE SPRING WEEK 5K "JUNGLE RUN" ! ! ! (5K is equal to 3.1 miles)

WHEN: SATURDAY, APRIL 29, 1989
STARTING TIME: 9:30 AM

WHERE: The race starts at the Fieldhouse, located in Quarry Parking Lot # 23, circles the campus, and finishes on the track.

REGISTRATION: Interested runners and teams can register at the Fieldhouse beginning April 17, 1989. Special tables will be set up as follows:
Monday and Wednesday, April 17 and 19, 1989, 11 AM to 2 PM, Fieldhouse.
Monday and Wednesday, April 24 and 26, 1989, 11 AM to 2 PM, Student Ctr.

STUDENTS: $ 3.00
FACULTY/STAFF/ALUMNI: $ 4.00

SPECIAL TEAM ENTRIES: Teams of 3 are welcome, and special prizes will be awarded to the winning teams.

STUDENT TEAMS: $ 6.00
FACULTY/STAFF/ALUMNI TEAMS $ 9.00

POST REGISTRATION: Saturday, April 29, 1989, 8 AM to 9 AM at the Fieldhouse.

* * * RUNNERS MUST CHECK IN BY 9 AM * * *

Prizes will be awarded in the following age categories for men and women:

- 22 and under
- 23 to 29
- 30 to 40
- 41 and over

T-SHIRTS WILL BE GIVEN TO THE FIRST 125 RUNNERS, AND A SPECIAL PRIZE WILL BE AWARDED FOR THE BEST JUNGLE WEAR! For information call 893-7494.

The 1989 Spring Week 5K Jungle Run is sponsored by HONDA OF ESSEX, and is coordinated by the Department of Campus Recreation in cooperation with CLUB, a Class One Organization of the SGA.
Things that just need to be said...

By Kenny Peck

Odds and Ends  If anyone followed the Rangers and Bergeron this season, you'll probably agree with the theory that one of the big reasons Bergeron screwed the team up was because he played around with the top two lines. Granato or Wilson would 15 good games in a row, and then one bad one, and they'd be on a different line the next game. If you want to fool around and try different combinations with the fourth, or maybe even the third line, fine. But you need consistency with your top two lines. Check the teams still alive in the playoffs and you'll notice that each kept their top lines virtually intact for much of the season...Knicks are on a serious skid. I'd venture to guess that they're not the best of teams right now. Mike the Spike &Kenny Do It!

Field sets N.J. record

MSC runner breaks 400M hurdle mark with a time of 52.2

By Kenny Peck

Sports Editor

MSC's Amod Field set a school and state record at the New Jersey Athletic Championships last week with a time of 52.2 in the 400 intermediate hurdles.

Field's time broke the school record of 52.4, set in 1975 by John Keith. "Before the race, Amod asked his assistants and myself what we thought he could do," said MSC head coach John Blanton. "We told him 'About 56 (seconds),' because Amod is the type of runner who when you tell him something, he likes to prove you wrong. We knew he'd go at least 52.8 or so.'" That he did.

Blanton feels that Field is just starting now to come into his own on the race track, as "he is just starting to realize the type of runner he is, and when they feel will maximize the senior's speed."

"Amod says that the hurdles are just a race with ten slight interruptions," said Blanton. "We're just trying to get him to adjust better to those ten slight interruptions."

Trivia Time-Out

Each week, The Montclarion publishes a list of sports questions and answers to test your knowledge of sports trivia. In addition, there is a sports stumper which will be answered in the following issue.

1. What did Lew Alcindor, Elvin Hayes, Bob Lanier and Wes Unseld sit out in 1968?
2. What team did Maryland product Len Elmore play his first NBA game for?
3. How many degrees are the banks at Daytona International Speedway?-21, 31, or 41?
4. At what race track is the annual Wood Memorial run?
5. Name the first president of the Ladies Professional Golf Association.

MSC's baseball and softball teams are not able to handle the Derby distance of 1 1/4 miles, but look for him in the Preakness.

In my opinion, he is the most versatile and talented athlete that has come out of Montclair State."

"In my opinion, (Field) is the most versatile and talented athlete to come out of Montclair State."

MSC head coach John Blanton

Blanton may have a good argument. In addition to his accomplishments on the track, Field is being looked at by professional football scouts. Also, Blanton points out that Field defeated supposedly superior runners in the Vitalis meet, despite his lack of races going into the meet.

Blanton feels that with continued training, Field can do "almost anything" on the track. Right now, Blanton and his coaching staff are working on Field's "step pattern", which they feel will maximize the senior's speed.

"Amod says that the hurdles are just a race with ten slight interruptions," said Blanton. "We're just trying to get him to adjust better to those ten slight interruptions."

"Opportunity - Out"
**Lacrosse team rolls on and on**

Laxmen wreck Stockton State, improve mark to 10-0

By Kenny Peck
Sports Editor

The MSC lacrosse team keeps rolling along. This time the victim was Stockton State, who the Indians defeated by a score of 16-4 last night at Sprague Field to improve to 10-0 on the season. Is head coach Doug Alsofrom surprised by the success of this team? "Without a doubt," the second-year coach said. "But the biggest surprise to me was Billy Van Ness, who he called MSC's great success this season, beating Fairleigh-Dickinson." Alsofrom also had praise for Joe Petrone. "I expected a lot from both of them, and they both have improved their games," he said. "Their assists are way up." Alsofrom recognizes the talent on the squad, 'but we have the kind of talent that can be erratic at times,' he said, pointing to the Kutztown game as an example of the team's lack of concentration against lesser teams. "We played poorly against Kutztown, and we had to score seven goals in four minutes to pull it out," he said. "We tend to get psyched for the big games but go down for the 'smaller' games."

According to Alsofrom, depth has also played an important role for the Indians this season. "This year, we're two deep at every position, and when we've had a couple of injuries, people were able to fill in," he said. "Last year, when we had a few injuries, other teams took advantage of those positions and we got clobbered." Alsofrom expressed concern that the Indians, ranked 17th in the country, will be overlooked by the NCAA when the time comes for granting playoff bids because of the strength of their schedule. "We'll need to be ranked in the top 12 in order to be considered for a bid," he said, "but if we beat Fairfield and Kean (MSC's next two games), they'll have to take a serious look at us."

"We must go undefeated, however, to have a shot." So far, so good.

**Softball takes team three of four, gears up for Trenton State twinbill**

By Kenny Peck and Al Langer

The long-awaited doubleheader between MSC and Trenton State the number two and number one ranked teams in the Mid-Atlantic region respectively, has now become the longer awaited doubleheader because of a rain postponement.

The rescheduling of the twinbill has brought the matchup a bit more attention, as it is such an important series for each school.

For the Lions, who have defeated the Indians five out of the last six times the teams have faced each other, a sweep means an almost certain clinch of the A-Division crown of the New Jersey Athletic Conference (NJAC), depending on the results of Glassboro State's games.

A sweep for the Indians will mean that if MSC sweeps Keen Saturday in their final conference game of the season, the Indians will likely be A-Division champions.

If the teams split, Trenton, currently 4-0 in the conference compared with MSC's 2-2 mark, will have the inside track.

Surrounding the rainout, the Indians played four games and won their last three of them, largely due to the play of Donna Brooks.

All told for the week, Brooks hit .456 (10-22) with six RBI's and four home runs. This past weekend against Southern Connecticut, Brooks was five for eight with a double and a home run and four RBI's.

MSC held coach Willie Rucker had praise for both Brooks and Andrea Peters, who, according to Rucker, are the leaders of the young Indian team.

"Both Andrea and Donna are looked upon as leading hitters on the team," she said. "As freshmen, they were looked upon by the seniors as key hitters on the team."

Brooks' performance this season is especially impressive as she is coming off an injury similar to the one suffered by Johanna Tolomeo, which will keep Tolomeo on the sidelines until next year. Peters, meanwhile, leads the team with a .408 average.

Last Wednesday, the Indians traveled to Monmouth and split a doubleheader. After dropping the first game 10-6, MSC rebounded and took the nightcap by a score of 16-5 going into yesterday's game with LaSalle.

Senior righthander Wayne Masters got the Indians off to a hot start Thursday against Jersey City, as he improved to 4-0 courtesy of a 11-strikeout performance against the Goths.

Masters was subsequently named Pitcher of the Week in the New Jersey Athletic Conference (NJAC) by the Baseball Writers Association of New Jersey.

The Baseball Writers also honored Indian first baseman John Deutsch, naming the Phillipsburg native the Player of the Week in the NJAC.

---

**MSC sports stars honored**

Lacrosse star Peter Zorich and MSC softball player Andrea Peters were named the Male and Female Athletes of the Month yesterday by the MSC Athletic Department. Wrestlers Pete Gonzalez and Karl Monaco were also presented with awards for outstanding achievements.

Baseball team wins three straight

By Kenny Peck
Sports Editor

The MSC baseball team won three straight games last week, including a 7-4 win over Division I Rutgers-New Brunswick, to raise its record to 16-5 going into yesterday's game with LaSalle.

Senior righthander Wayne Masters got the Indians off on the right foot Thursday against Jersey City, as he improved to 4-0 courtesy of an 11-strikeout performance against the Goths.

Masters was subsequently named Pitcher of the Week in the New Jersey Athletic Conference (NJAC) by the Baseball Writers Association of New Jersey.

The Baseball Writers also honored Indian first baseman John Deutsch, naming the Phillipsburg native the Player of the Week in the NJAC.

---

The Indians traveled to St. Joseph's (Pa.) on Friday and pummelled the hosts, 21-6.

Drew Ryan and Paul DeSimone combined to stop Rutgers Tuesday at Pitter Field. Ryan went into the fifth inning before Desimone came on in relief and no-hit the Scarlet Knights the rest of the way.

The Indians begin a five-game homestand today as they host Ramapo at 3:30, MSC faces Rutgers-Newark tomorrow at 3:30 and host Rutgers-Camden in a doubleheader Saturday at 12:30.

MSC is then off until Upsala comes in Wednesday for a 3:30 contest.
