**BSCU is granted name change**

By Maureen McGuire
Assistant Assignment Editor

The SGA legislature voted to approve the bill changing BSCU's name to the Organization of Students for African Unity (OSAU) in a nearly unanimous vote Wednesday night. The vote was 35-0 with two abstaining.

The original bill simply changes the organization's name. However, amendments were added last Friday in a meeting with the SGA Constitutional Review Committee. The first amendment states that OSAU must write an open letter in *The Montclarion* to explain why the organization changed its name and state that it is open to all MSC students.

Also, OSAU will rename its minority student affairs committee to "African Awareness Committee," which will organize and conduct an educational forum each semester. According to Tom Czemiecki, SGA vice president, the forum is intended as an opportunity for students in general to find out about the African and African-American civilization.

During the two and a half hour debate of the name change at the SGA meeting, James Harris, dean of students, gave the history of BSCU since its beginnings in 1969. He said that the organization was originally started after the assassination of Dr. Martin Luther King, Jr.

This was a time, he said, "when students all over the country demanded more African-American organizations, more African-American studies and more African-American students. MSC's students responded and formed the Black Organization for Success and Society (B.O.S.S.)."

Dean Harris also said that now the press refers to blacks as African-Americans because it is a reflexion of things in time. His presentation was followed by several comments from the BSCU executive board, general members and two faculty advisors.

President Adrienne Woods said, "Let's end this perception cont. on p. 5"
Students still displaced by Clove Road fire

By Ken Saviet
Correspondent

Twenty-eight students assigned to the Clove Rd. Apts. will remain displaced until next semester due to an Aug. 23 fire, according to Douglas Cooper, Residence Life assistant director, who manages all MSC residence buildings.

Cooper called the fire a “catastrophe”, saying he “feels deeply” for anyone deprived of Clove Road accommodations. Three of them arranged to “triple” in other Clove Rd. units and 25 now live in residence halls on campus.

Cooper said repairs to the Clove Road apartments have progressed rapidly over the past few weeks following the fire caused by a faulty exhaust fan. The buildings were deserted during the blaze but extensive damage did occur in 15 apartments.

Six units gutted by fire, Apts. 102 and 103 A, B and C, remain to be fixed. Cooper said he awaits settlement figures from Aetna Insurance Co.

Six units gutted by fire, Apts. 102 and 103 A, B and C, remain to be fixed. Cooper said he awaits settlement figures from Aetna Insurance Co.

Selection of a bid from two Montclair construction companies to make repairs should begin by the end of the week. “Repairs could start any day,” he said.

Repairs will include replacing the roof over apartments 102 and 103. There is also severe water damage to the walls of the apartments. According to Cooper, the latest estimates place the damage to the building at $130,000.

Cooper added that steps were being taken to reduce the risk of future fires in both Clove Road and the other dorm buildings. “In Clove Road all of the exhaust fans in the apartments are being inspected and many replaced.”

Cooper said the ovens in Freeman, Blanton and Bohn Halls should be replaced with microwave ovens. “At least three times last semester we had people leaving food burning on those (electric) burners. ... 30 to 40 people using an oven” creates a fire hazard, he said.

The department spent $131,000 last year on fire alarm upgrades alone, and the fire came one week before installation at Clove Rd. was completed.

Campus Police Report:
Off-duty officer accosted after frat party

By Maureen P. McGuire
Assistant Assignment Editor

An off-duty officer from the Passaic County sheriff’s office was accosted by 10-15 males before someone stole his gun Saturday night, after attending a Zeta Phi Beta party in the Rathskeller.

At midnight, campus police were advised that the Rat party had reached capacity and that there were 100-150 people waiting outside to get in. The crowd dispersed but then moved in small groups to parking lots 13, 14 and 17 near the Student Center and the Quad area between Blanton and Bohn Halls.

At 1:20 a.m. campus police responded to a report of a fight in progress in the Quad. While en route to the scene, the police noticed a white car in Lot 17 with broken windows and an open door. When they arrived at the Quad, the crowd dispersed.

However, a man was found lying on one of the benches and he identified himself as a police officer.

The man said 10-15 males had attacked him with bats and had damaged his car in Lot 17. He said they had also stolen his police ID and nine millimeter gun.

He described two of his assailants and gave police the first name of a third. He was then taken to Mountainside Hospital.

After his release, police questioned him again. They have some leads and the investigation is still underway.

Montclair and Little Falls Police Departments were contacted and also responded to the call because of the involvement of the gun.

An unrelated incident was reported on Oct. 1, when a fight occurred outside a Clove Road apartment. The by the time police arrived on the scene, the crowd had quieted down. No charges were filed.

Also on Oct. 1, a Bohn Hall security officer called campus police for help in controlling two drunk and disorderly males. Both males, who claimed they were underage, were arrested and brought to police headquarters. Later, one of the males admitted that he was 18, so he will be charged as an adult in Little Falls court on Oct. 20.

Later that night, two males were arrested when a fight broke out in lot 27, near Clove Road. The males who were arrested were not MSC students. Further charges are pending.

In other police news, someone attempted to enter a 1986 Dodge on Sept. 29. The car had its side mirror removed and its window damaged.

Sometime between Sept. 27 and Sept. 29, a 1985 Ford Wagon had its driver’s side window smashed. The car was parked in lot 21.

A Clove Road resident reported that someone was cutting down trees behind the apartment complex on Sept. 30. The Little Falls police department responded to the report and found a makeshift lean-to that had apparently been built by area youths. The youths were advised that they were trespassing.

Sometime between Sept. 30 and Oct. 1, a Clove Road resident reported that someone had stolen her purse. The resident said that between 30 to 40 people had been in her apartment around the time it was stolen.

On Oct. 1, a 1989 Jeep Wrangler had several parts stolen from it. The car was parked in lot 19.

On Oct. 2, a 1983 Chevrolet Camaro was stolen from lot 25. The theft occurred sometime between 7:30 and 8:45 p.m.

A fire extinguisher was discovered discharged in a Chapin Hall stairwell at 7:45 a.m. on Oct. 2.

We Need Your Help In Naming

The New
On Campus Convenience Store

Fill out the form below and drop it off at convenience store located next to The College Store, Lower Level Student Center Bldg. Contest is open to all Students, Faculty and Staff of MSC.

The contest will end on Oct. 13th. The name, and winner, will be announced in the Montclarion.

Submit as many names as you wish. If the name you submit is chosen by our committee, you will win $50.00. Ties, for the same name, will be broken by a random drawing.*

Name
Phone
I suggest you call the store

*The committee reserves the right not to choose any of the names submitted.

Conservation Club and students observe whales on annual trip

By John P. Navarro
Managing Editor

Twelve members of the Conservation Club and 25 MSC students traveled six hours to Gloucester, Mass. last weekend to observe whales in their natural habitat.

The annual trip, which was originally planned for Sept. 23, was postponed to Saturday, Sept. 30, to avoid hurricane Hugo.

Chris Muzz, vice president of the Conservation Club, said the trip was a success. “Despite this year’s postponement... people’s attitudes towards the trip were great,” he said.

According to Muzz, many students were afraid that the six hour drive up to Mass. would not be worthwhile because at this time of year most whales have migrated to the Caribbean for winter. “Had we gone up in mid-September, we could have possibly seen 20 to 30 whales,” he said.

What the 37 MSC students did see was a 25-foot male humpback whale. The humpback whale’s population worldwide is estimated at between 10,000 and 15,000. They are known for their distinctive hump in front of their dorsal (uppermost) fin and are easily recognized by the long pectoral (side) fins that extend one-third the length of their body.

“The whale was not as active as (humpbacks typically are), but for people who have never been on a whale watch, it was truly a unique experience,” Muzz said.

An advantage to going on this particular trip was that the boat came complete with a Gloucester naturalist, who supplied many interesting facts about whales and marine life in general. The whale surfaced several times, exposing both its entire body and tail fin. The also saw the whale feeding on a mass schooling fish.

The Conservation Club is hoping that with this year’s success and enthusiasm, they make next year’s watch two days long, avoiding the twelve hours of driving in one day.

MSC Students and a limited number of non-students have an opportunity to visit Hong Kong, Tahiti, New Zealand and Australia on a tour arranged by Ellen Mohammed of the fine arts department. This tour is a study of art, architecture and sculpture, for which students can earn three graduate or undergraduate credits.

The trip is from December 26 to January 13, 1990. Mohammed will guide participants through Hong Kong, Tahiti, New Zealand and Australia on a trip arranged by Ellen Mohammed of the fine arts department.

Further information is available from Ellen Mohammed at (201)893-7283, 893-4307, or (718)778-9417 or at her office in Calcota Room 217.

**Computer training workshops**

A fall series of one- and two-day computer training workshops will be held at Data Quest Systems' Computer Training Center in Fairfield, NJ, in conjunction with MSC's Center for Continuing Education. Some courses have already begun and others will start soon and continue through December.

The series of "hands-on" workshops includes a repeat of the most popular computer courses offered through the Center, such as "PC Fundamentals." It introduces instruction on such state-of-the-art software programs as "WordPerfect 5.0" and "dBase III—IV." Among the many workshops offered are: "Using Lotus 1-2-3," "Freelance Plus," "Microsoft Word," "The Power of Paradox," and "Harvard Graphics."

Through the wide offering of courses, participants will learn how the latest generation of computer software can make word processing, information storage, retrieval, and spreadsheet calculations fast and efficient procedures.

Cost is $150 for one workshop or $285 for two. Discounts are offered for two or more participants from the same agency or institution.

Participants also will receive certificates for 0.6 Continuing Education Units per workshop. The CEU is a nationally recognized measure of successful completion of a non-credit course.

More information on CEUs is available from Dr. Richard Taubald at MSC's Center for Continuing Education, at (201)893-5154.

Registration information is available from Data Quest at (800) 359-2065.

**BSCU name change**

cont. from p. 1

that this organization excludes non-Afro-Americans. Changing our name will free other students to join.

"BSCU is one of the most active members of the SGA," said Professor Leslie Wilson of the history department, one of the organization's advisors. "It's a shame it has to appeal for a name change."

Coach John Blanton, another advisor said he could describe how serious the organization was in three words: all, here, now. "We want all of the name change, here is the place we want it, we're not talking about some other school, and we want it now, we won't wait another year," he said.

Two students who are originally from African nations said that the new name would sound more inviting and open than a name with the word 'black' in it.

After the name change, President Mary Jane Linnehan gave a final overview of the issue before the vote was taken.

Legislator Rothman made a motion to vote by secret ballot but it failed.

After the victory for OSAU, Woods said, "We're happy that it's finally over and now we can get back to real business. One of our goals this year will be to address the issue of racial issues on campus. The name change is just the first step in doing that. We personally invite every single student to any OSAU meetings. We'll see how many actually come."

"I'm pleased with the decision in the change of name and I'd like to commend Tom and Mary Jane for their efforts to make this possible," said Professor Wilson. "However, I am thoroughly disapp"
A mascot by any other name...
MSC reacts to the Red-Tailed Hawk

By Jeanine Rybeck
Correspondent

What's red and white at MSC? Depending on whom you talk to, one of two things come to mind.

The nickname representing MSC athletics was changed slightly over two months ago by the Intercollegiate Athletics Committee at the college after American Indians on the east coast found Montclair Indians offensive.

Yet an initial question is still at hand — was the switch from the Indians to the Red-Tailed Hawks really necessary?

Although most students at MSC have been receptive of the new mascot, they do not see any reason for abandoning the old one.

"I think it's a good change," said Russel Blackwell, captain of the cheerleading squad, who is part Indian himself. "Even though I did not find the previous name offensive, I've noticed an increased amount of interest in the athletic program since the publicity about the new mascot."

Blackwell said, "Most had no problem with it, but felt it was unnecessary."

When asked about the general attitude of the cheerleading squad toward the name change, the general consensus seems to agree. One student described a school mascot as "not some-thing one thinks about enough to consider offensive."

"Indians is just the name of a team. If everyone thought the same as the members of the Intercollegiate Athletics Committee, there would be no Washington Redskins, Cleveland Indians, or even Dallas Cowboys. Think about how ridiculous that is."

While some students are still having mixed feelings about the change, college president Irvin Reid continues to support it wholeheartedly. "I definitely feel the nickname Indians is offensive. It represents a stereotyped image that the American Indians do not want themselves associated with. The change was a foresight of the campus — a display of fortitude, of strength," he said.

Reid also described the Red-Tailed Hawk as a "unifying theme, an emblem that can be identified with by all and is not offensive to anyone."

Reid added that he hadn't witnessed any evidence of excessive racial tension on campus that might have prompted the mascot change. However, he allowed for opposing viewpoints.

"Where there are people of different backgrounds, race, or class, there is bound to be a difference of opinion," he said. "College is a forum where these differences can be reduced and problems can be solved."

Was our former nickname a problem? Was it offensive? Opinions range far and wide, but students can get their first look at the new mascot this Saturday during the homecoming parade. Maybe once the Hawk has made an entrance as Grand Marshall of the parade and appears on the field, the idea will really take off.

Just a reminder...

The MSC homecoming parade through the streets of Montclair begins at 2:00 p.m. this Saturday, Oct 7, followed by the game against Kean at 8:00 p.m. at Sprague Field.

Fall Fest '89

Have you ever wanted to give the gift of life? How about win $100?

Since 1966, Alpha Phi Omega has sponsored a semi-annual blood drive. This Tuesday and Wednesday, Oct. 10 and 11, they will aid the American Red Cross and the North Jersey Blood Center once again in the Student Center Ballrooms from 10:00 a.m. to 4:00 p.m.

Members of APO note that less than 2% of the college population gives blood, even though the Red Cross has stated that AIDS and other diseases cannot be transmitted by donating blood. All donors must only be between 18 and 65 and in good health, over 110 lbs, and not under any medication.

This year, APO adds to the human aspect of donating blood by integrating a Blood Drive Competition. Cash prizes of $100, $75, and $50 will be awarded by the office of student activities to the top three donating groups, whether Class I to Class IV organizations, floors, wings, or entire residence halls. First place will also receive the honor of a trophy and their picture printed in The Montclarion.

In addition, every individual who donates blood will be entered in a raffle to win an entertainment book with nearly $1,000 worth of coupons for the local area.

Maybe where charity doesn't prevail, the spirit of competition will. Look for an article in next week's Montclarion.

Save the whales
They are being slaughtered to extinction by
Japanese and Soviet Whalers.

boycott Japanese and Russian products

Every 15 minutes another great whale dies. A grenade-tipped harpoon explodes into its back, bringing prolonged, agonizing death.

These intelligent, gentle animals are being ruthlessly hunted to extinction by Japanese and Soviet whalers. Their vast whaling fleets use airplanes, helicopters, sonar and high-speed to chase down terror stricken whales in the farthest corners of the seven seas.

YOU CAN HELP SAVE THE WHALES BY REFUSING TO PURCHASE ANY JAPANESE OR RUSSIAN PRODUCTS UNTIL JAPAN AND THE SOVIET UNION AGREE TO STOP WHALING.

Music for all tastes?

Do you know what kind of music WMSC is playing right now? OK, I'll tell you. Right now, they are playing a song called "Thin White Line" by a group called The Avengers.

Just to be fair, we took a quick, very unofficial survey around the office to see if anyone had ever heard of the song before. Nobody had. Someone asked us if The Avengers were comic strip characters. Is this the reaction you have to the type of music presented on WMSC?

WMSC offers "alternative" music to the type presented on commercial radio stations. Typically, this alter. She faces up to $81 million for violation of securities laws, conspiracy and other unspecified crimes.

Mr. Bilzerian's involvement was uncovered through the Ivan Boesky investigation. Boesky named Boyd L. Jeffries as a guilty party. Jeffries pleaded guilty to violating securities laws and agreed to cooperate with the Government. He then implicated Bilzerian for illegal stock parking.

Mr. Jeffries, former head of Jeffries & Company, held secret accounts for Mr. Bilzerian. Bilzerian held stock ownership in several companies and, after the price had risen, Bilzerian would sell the stocks and make millions.

Mr. Jeffries, former head of Jeffries & Company, held secret accounts for Mr. Bilzerian. Bilzerian held stock ownership in several companies and, after the price had risen, Bilzerian would sell the stocks and make millions.

The punishments that Bilzerian, Milken (if found guilty), and Helmsley face hardly suit the crime. If Mr. Bilzerian is fined $1.5 million and is worth $81 million, who has seen justice prevail?

Bilzerian will be sent to a very accommodating prison for four years and will return upon release to $80 million and 250 hours of community service.

According to Government documents presented at the trial, Bilzerian's net worth totals $81 million; this figure could rise since he never filed taxes between 1982-84, because he was "unaware that failing to file was illegal."

Michael Milken, the junk bond genius from Drexel Burnham Lambert, is to go on trial in early 1990 for a 98 count indictment for similar securities fraud and conspiracy.

Normally, I do not make it a habit to harass the elderly, but in the case of Leona Helmsley, I'll make an exception.

Mrs. Helmsley has already been found guilty of tax fraud totalling $1.2 million; her sentencing will take place in November. She faces up to $8.1 million in fines and five years in prison.

It does not take a genius to figure out that the fines handed out are petty cash to these people, and that the time served is just part of doing business.

The punishments that Bilzerian, Milken (if found guilty), and Helmsley face hardly suit the crime. If Mr. Bilzerian is fined $1.5 million and is worth $81 million, who has seen justice prevail?

Bilzerian will be sent to a very accommodating prison for four years and will return upon release to $80 million and 250 hours of community service.

Andy Rooney:

Don't Blame Teachers

There has been a great deal of breast-beating recently about how bad our schools are in America. The conclusion of all the studies and reports on education seems to be that our big city grade schools and high schools are poor, but that our colleges are pretty good. Higher education gets better marks than lower education, if that's a phrase.

When Mr. Bush opened his conference on education last Thursday in Virginia, the talk was all about how to improve our nation's ailing schools. Is it the schools that are ailing or could it possibly be the children?

We spend more on education than any country in the world, and yet we have children who can't read. Crime and drugs are rampant, and homelessness prevalent and a working class non-existent. The people in it are not only uneducated, they may be uneducable.

A recent report in The New York Times suggested the United States is in for a big trouble in the future because we won't have anyone who can do the semi-skilled work that needs to be done.

"If we continue to let children who are born in poverty fail to get the kind of education that will allow them to participate in our economy and our society productively," said Brad Butler, the author of the report, "we cannot avoid the consequences. They find it just often enough to keep them from quitting schools look bad. Don't blame it on the teachers. They make colleges with the best brains and the most ambition. They make colleges.

Of school. The ones that are left, go to college. They're the ones who get to be college age, the least competent half have dropped out and why our grade schools are bad. By the time a million babies touch. Political leaders can't even suggest a genetic solution because the same potential to succeed. I think you could assign 10 teachers and make half of your school population productive, and they would find a way to get an education if they never had a teacher.

The problem is too tough to face. The issue too sensitive to touch. Political leaders can't even suggest a genetic solution because it resurrects the specter of Adolf Hitler. As a result, officials blame the schools and the teachers and our educational system, just as though what they get to work with didn't make any difference.

And there's no mystery about why our colleges are pretty good and why our grade schools are bad. By the time a million babies get to be college age, the least competent half have dropped out of school. The ones that are left, go to college. They're the ones with the best brains and the most ambition. They make colleges look good for the same reason natural-born dropouts make grade schools look bad. Don't blame it on the teachers.

Fortunately for all of us, teachers have a better attitude towards the kids they get to teach than I do. They know that somewhere in that mass of ignorance, there is some genius buried in unlikely places and, in spite of repeated disappointments, they keep looking for it. They find it just often enough to keep them from quitting in disgust.

To the Editor:

Recently, there has been quite a bit of controversy involving the name change for the Black Student Cooperative Union. It is a topic about which many people have mixed emotions.

However, the articles, ads and comments published in the Montclair tended to be one-sided. There seems to be some confusion about the intentions of the SGA and the reasons behind their actions.

First of all, it should be made clear that the SGA is not against a name change for BSCU.

Both organizations agree that the current name seems to be a deterrent to any non-black students that may either want to attend or support the organization to any of its activities.

The only concern of the SGA was the interpretation of the new name, "Organization of Students for African Unity", by non-black students and whether the name was more inviting.

Many of the members of the SGA had mixed feelings concerning the name change. The legislators had their reasons for being for or against it, just as the members of BSCU had their arguments for the change.

Many legislators wanted to research the matter by attending the BSCU meetings, speaking to members of the organization and getting the opinions of the students.

That was the reason why the Constitutional Review committee decided to table the bill. Not because we were waiting for things to "cool down", but because we felt that by keeping it in committee, we could become more knowledgeable, explore different aspects, and hopefully iron out any differences within the committee.

Then, when the bill reaches the legislative floor, there would be some sort of common agreement or compromise reached by both organizations.

To students not involved in the show, and not attending, this figure could be quite alarming. Before becoming too alarmed however, remember that the figure was a mere estimate.

The official amount was not announced. It is somewhat disheartening to think that after all the work put into the show by the members of Class One and Concerts and after the success of the show itself—that the only thing to be stuck in mind is the unofficial figure of an $18,000 loss.

Though the loss was unfortunate there are many possible factors that could have been attributed to it. After one production however, many things are learned that can be implemented in the next show.

When dealing with large entertainment companies and agents, the process becomes detailed and must be handled accurately and completely. It is felt by many that Big Audio Dynamite was not a successful show for any reason, then join CIC and offer our input for improvement. It is the students who put on the productions, the more student input, the better.

Mary Jane Says...

Student Input is Key

Have you ever thought of what goes into the planning, production, and evaluation of a large campus event? It is not a simple task, by any means.

As students here at MSC however, you have the uncomparable opportunity to experience all the aspects of planning and programming. Through the experience you will learn to counter the realities of production including a possible loss of revenue.

When trying to target the entire campus population, it is difficult to satisfy every preference. However, many efforts are made to please students, and meet their entertainment needs.

The students involved in the organizations of the SGA volunteer their time and efforts, and dedicate a great deal of time in working to serve the entire campus.

A recent example of student programming was Class One Concerts' production of Big Audio Dynamite. Those who worked with the concert, saw just how enormous the job was.

Those who attended the show, saw that through the work of the students, the show was extremely well run and successful. Last week, the Montclarion printed that the show lost about to $18,000.

To students not involved in the show, and not attending, this figure could be quite alarming. Before becoming too alarmed however, remember that the figure was a mere estimate.

The official amount was not announced. It is somewhat disheartening to think that after all the work put into the show by the members of Class One and Concerts and after the success of the show itself—that the only thing to be stuck in mind is the unofficial figure of an $18,000 loss.

SGA Defends Its Position

In no way did the SGA try to impose on the BSCU to do something they did not want to do. Any suggestions that were made for a different name were merely that, suggestions.

And at no time did we consider this issue to be a power struggle over who has the right to change the name.

And under no circumstances should this matter be deemed racist.

Our main concern as the SGA is to benefit the students of MSC. Any decisions we have made, or any steps we may have followed were solely for the purpose of making the right decisions for the entire student body.

That is something that we will continue to do.

Sports Editor reviews B.A.D.

To the Editor:

I am writing this letter in response to the review of Big Audio Dynamite’s September 23rd performance which appeared in last week’s edition of the Montclarion.

I was annoyed by the poor review (“poor” being used here as a modifier for “review” not as a critique of the band’s performance) written by Michael Walmsley.

I would like to point out some of the oversights I noticed in the article. First of all, the very term “new-wave” is old and ebbing. The people who listened to that music are now called “yuppies”, and the “second generation new wavers” as we have been so presumptuously pegged are listening to music so culturally diverse that it defies categorization.

Face it: The Cure, Erasure, R.E.M., Tracy Chapman, U2, Kate Bush, and Ziggy Marley can hardly be put into one category.

Which brings up the second point. While it is true that Big Audio Dynamite fuses a variety of musical styles to form a unique brand of dance music, this was not the only Mick Jones band to have a “link to the N.Y. disco scene.”

It is apparent that Mr. Walmsley did not like B.A.D. even before attending the concert. If what the reviewer wanted to hear were Clash tunes, then he should have stayed home listening to old records.

And wouldn’t it be safe to assume that if the crowd “seemed to be loving it” as Mr. Walmsley put it, then maybe they actually did enjoy the show?

This is not the first time I have read reviews in this paper written by people with preconceived notions of their subject. It’s time you assigned reviewers with objectivity and integrity to cover such musical and theatrical events.

I am in no way implying that writers sugarcoat the facts or praise every performance, but criticism should be constructive and well-founded...and as objective as humanly possible.

In closing, I offer one piece of advice: just because the event takes place in a gymnasium, doesn’t mean the sports editor is the ideal person to cover it.

**Record Rap:**

In 1968 the Poco legacy was born: a folk rock band that would inspire more musical history in one year than any single band ever. Their first album *Pickin Up the Pieces* debuted in 1968. They showcased a softer form of Rockabilly that did justice to folk music with a soft rock sound thrown in by a traditional rock & roll edge.

So, what does that mean? Well, today we know this sound very well. Other bands such as The Byrds and The Outlaws have made improvements on the sound. However, the basic idea is all Poco, so basically it's just new wave country music.

The name "Poco" somehow suggests a teeny bopper image. The name itself was originally "Pogo". But, Walt Kelly, creator of the cartoon strip "Pogo", didn't chuckle and instigated legal proceedings. In March 1969, before the case reached court, the group changed their name to Poco.

However, the name's image doesn't reflect on what the band represents. This band was spawned from such greatness as Buffalo Springfield and Boz Scaggs, and features members of the original band, including Jim Messina, Richie Furay, George Grantham, Rusty Young & Randy Meisner. Meisner alone went on to play with The Eagles. So forget about the name and listen to the album... You might find yourself in the record store buying Poco's new album "Legacy."

Although there has been many different forms of Poco throughout the years, featuring one or more of the original members, the new album, "Legacy", brings back the original sound like no other that Poco has put out in the past twenty years. So, I'll admit that I hate the name "Poco"... but the mixture of classic rock and country & western music makes me say... "What's in a name?"

---

**Art Forum: John L. Moore**

Paintings of Life

By Virginia Delgado

Correspondent

When the lights went out, the screen filled with deep, dusky colors that formed shapes vaguely resembling oceans, buildings, and landscapes from everyday life.

On Sep. 28, the students gathered at the Calcia fine arts building auditorium for a lecture by artist John L. Moore. Moore, a well recognized painter in the art community, spoke of his life experiences and factors that contributed to the way he perceives and creates his own art. Moore commented, "My paintings are about the way I reflect on life." This comment, along with his remarks about his own life, helps the viewer to better understand the intentions of the artist as reflected in his work.

His multilayered paintings are an expression of the many aspects ("layers") of life. Moore has experienced life from many different perspectives before he decided that art was the only way for him.

After high school, he went into the military and later worked odd jobs until landing a position with General Motors making parts for 11 years. He's been married, had children and divorced. He went to college to study art and later taught at a university until he was offered a position with General Motors. He remained there for many years.

Finally, Moore decided that art was what he wanted to do and he moved to New York to dedicate himself full time to his work. He said he was finally doing "What I think I ought to be doing."

Moore's abstract paintings have no definite forms or identifiable shapes, nothing is portrayed as it appears in reality. In his earlier works, he dealt with multiple, flat shapes with deep, dark colors often shades of blue and grey that give the feeling of melancholy and mystery. He tends to mix straight lines with flowing curves and superimposes them to give the effect of a collage.

As his paintings progressed, his colors lightened and involved more reds and earth tones, although the dominant colors are still the deeper shades. Moore stated, "I'm not always in this dark mood... a painting just happens, it dictates itself."

In his more recent works, the shapes are relaxed and there is a freer, more flexible image created as opposed to the previous solidity of his shapes. He uses water in many of his paintings and uses it forcefully.

Although he does not think of himself as a landscape artist, he admits that his paintings are often inspired by the environment and images of nature in its entirety. In explaining that he sees the entire picture and not the specifics, he commented, "I don't know a flower, I don't know one tree from another."

Moore's paintings have a very specific and therefore easily identifiable style. His colors are deep and dark and his abstract shapes often resemble landscapes. He uses short strokes of paint throughout many of his paintings giving an impression of movement amidst the solid shapes, the most obvious characteristic in all his paintings is their moodiness.

When asked if he had any advice for art students, Moore explained that art is something that one really has to want to do. He remarked that becoming an artist means taking a risk and being able to deal with the results whatever they may be; success or no recognition. Moore warned that as an artist, a student will mostly be an individual. John Moore best described being an artist as wanting it so much that "you have no other choice."

**Poco creates a Legacy...**

By Jon Max Green

The name of Poco...but the mixture of classic rock and country & western music makes me say... "What's in a name?"
Couch Potato Update, c/o Couch Potato Update, Rm. 113 Student Center Annex, Upper Montclair, NJ 07043. The latest tidbits will be printed, if we haven’t already printed them! "Sowing The Seeds of Love," the leadoff single looks like it may be a tad bit difficult. A moody “Woman in Chains” starts the album off, followed by a rockier “Badman’s Song.” The current single follows. It is after this that the album gets a little murky.

"Advice For The Young At Heart" sounds remarkably like "I Believe" from Big Chair. The next song "Standing on the Corner" is one of the more confusing tracks, the Adaptors rely heavily on ensemble acting. "They are out there (onstage) working as a group rather than being out there for themselves," Margolis explains. The group is aware of the social and political implications of Autobahn and work as one. "This is similar," Margolis continues, "as the (nine) horses in Equus. They breathed together, moved together, and worked together to create one horse."

The Adaptors’ technique as known today stems from the training of Etienne DeCroux. For four years, Margolis and Brown studied his theory of corporal movement. They came to the U.S. in 1982; Autobahn is their signature piece and the first in their repertoire of four. They now have a school in Downtown Brooklyn that is the training ground for their work. As far as what to expect in Autobahn, Margolis encourages the audience to “feel free to bring your partner and share in the creative experience.” She describes Autobahn as "theatrical but not linear, it is much more abstract. Autobahn is a jigsaw puzzle. Each scene is a piece of the puzzle but there is no pattern.” You put it together until it works for you.

Margolis also asserts that Autobahn means what you think it means. There is no right or wrong answer. It does not go beyond what you have perceived it to be.

Expect to be thrust into the physical and visual world of the Adaptors.
Full Nelson

By Sharon Lane
Correspondent

Memorial auditorium was filled with laughter Tuesday night as Bob Nelson and a few of his friends entertained a full house at MSC. The event was sponsored by CLUB as part of the ongoing Homecoming activities. The show began at approximately 8:30 p.m. with two MSC seniors performing an original MSC Rap. Brad Lowery started the show with his energetic and fast paced comedy. Lowery and Nelson met about four years ago when Nelson attended Lowery's first comedy performance and enjoyed his silly antics, which resembled some of Nelson's older material, and the two have been working together ever since.

Lowery made his television debut on "Showtime at the Apollo" and will be performing at Rascals Comedy Club on Oct. 13 at 8 p.m. His break came while working at a job that required much telephone work. He accidentally called Richard M. Dixon, owner of a comedy club near Nelson's home. Dixon had a habit of turning phone calls into a comedy routine for his office by using different types of voices to see what reaction he could get from the person on the line. Dixon was impressed with Nelson's humor and informed him of an upcoming "Open Mike Night" at his club and encouraged Nelson to share with the public his talent for creating comic characters.

Due to ribbing from fellow club comedian Bob Woods, Nelson proved his talent surpassed his friends' loyalties and was good enough to stand for itself. Woods insisted Nelson's career would end once his friends stopped coming to the club to support him. Nelson turned this opinion into a personal challenge, and today, Nelson admits he "owes his beginning to Bob Woods," for within his discouraging words, Nelson's humor has pursued a career in comedy.

Aside from his talent for creating a range of humorous characters, Nelson is also a conscientious individual. In a time when trash comedy and vulgar profanity is extremely popular, Nelson strives to prove that clean humor is still funny and entertaining. The soldout crowd at MSC also proves Nelson's brand of comedy is in demand. When asked to describe himself, Nelson responded he would like to be seen as a role model who can be respected for his work and not as the "bad boy" so many other contemporaries choose to be.

Nelson said he feels this country needs to clean up, and he seems to be on the right track. In an upcoming HBO children's special, Nelson's "Eppy Epperman," a nerdy type of guy, will be featured. When producers suggested Eppy smoke a pipe, Nelson refused because he did not feel it was something his character should promote and that his integrity should not be compromised. Nelson makes a conscious effort to prevent Eppy from using profanity in his dialogue, and relies upon his wife and friends to help him keep his language under control throughout his act.

Bob Nelson not only provided MSC with a night of laughter and fun, but continued to carve his place in comedy history. Look for Bob Nelson in the future on HBO!

SPORTS

MSC Spotlight

by Anthony DiPasquale

Paul Cioffi, last year's Pizza Hut and Kodak All American, defensive player of the year, and sophomore athlete of the year, has returned to dominance for the Hawks this season.

In Cioffi's first game of the season at Central Connecticut (a second division school), he accumulated 17 tackles (10 solo) and a sack. He was awarded the NJAC player of the week and The Eastern Conference honor roll.

After the Hawks' second game against East Stroudsburg (another division II team), Cioffi was again awarded NJAC and ECAC player of the week and Don Hanson's national defensive player for division III. Cioffi only played part of the first quarter in the Hawks' dismantling of Upsala, but still managed 7 tackles and 2 sacks. In this week's win over Ramapo, Cioffi again led the Hawk defense with 12 tackles, 2 sacks, and a fumble recovery.

Cioffi was quoted as being the Lawrence Taylor of college football by the Jersey City State coach in the Asbury Park Press. "All the hype from newspapers, TV, and friends is hard to get used to at first, fun at times, but also has its drawbacks. I don't care what people say or write about me, I just know I come to play every game," said Cioffi. Hawks' head coach Giancola believes that Cioffi is a leader by performance. "Paul's high number of stats does a lot to boost the team. He makes everyone try to play better."

Coach Giancola feels the entire Hawks team is feeling confident and determined. "We are disappointed in losing our first game, but the team has been practicing hard and has their sights set on winning the rest of our games so we can bring the conference championship back to MSC." Cioffi feels that MSC has the team that's destined for good results. Hopefully the results will bring an NJAC championship to MSC.

"The team that is going to win is the team that wants it the most and plays with everything for 60 minutes and that's the kind of team we are!" Cioffi said.

FIRE PREVENTION WEEK

The Bottom Line

by Matt Wintern

Saturday night was not a night of celebration in Baltimore. The Baltimore Orioles were eliminated from the AL East pennant race with a 4-3 loss to the Toronto Blue Jays in Toronto. The Orioles hung tough until the 16th game of the season when, revamped Blue Jays team under manager Cito Gaston, proved to be the best in the AL East.

Even though the Orioles will have to watch the ALCS on television like the rest of us, you still have to give strong consideration to Orioles’ manager Frank Robinson for American League manager of the year. Robinson took over the reigns in Baltimore after an 0-17 start in 1988. The ’88 Oriole squad went on to lose 21 straight games to start the season and the squad went on to lose 21 straight games to start the season. The Orioles manager Frank Robinson should win Manager of the Year by more than just a slim margin.

The Meadowlands will be the site for Monday Night Football as the New York Jets battle the Los Angeles Raiders. Both teams have a 1-3 record and are currently at the bottom of their divisions. The betting line has the Jets favored by 3½ points over the Raiders. It might be such a bad move to take the Raiders and the points. After all, the Raiders did play a tough game against the Seahawks losing to their division rivals by a score of 24-20.

As for the Jets, they are also coming off a 17-10 loss at the hands of the Indianapolis Colts. When you look at the spread you have to take the Raiders for several reasons. First of all, the Jets shouldn’t be favored over anybody in the NFL, let alone the Raiders who have the best Monday Night record in NFL history. Second, the Jets prevent offense has surfaced once again and the Jets inability to score points looks like a problem that will not go away soon.

The final reason not to take the Jets is because a name change to Bo will see some playing time for the Raiders which could mean a long night for the Jets, even if Jacks had only had a week of training camp. Raiders 23, Jets 13.

The pre-season is a time for learning and evaluating. But the time for learning and evaluation is over. The real season is upon us and the Devils open up the regular season in Philadelphia this Friday night. With the start of the season comes season predictions. My predictions for the final standings in the Patrick Division is in order of listing below.

1. PITTSBURGH PENGUINS

The penguins have a very explosive offensive team. They were 3rd in the league last season in both goals and power-play percentage. Defeat has to improve and will with an added year of experience.

KEY PLAYERS: Mario Lemieux, Paul Coffey, Rob Brown, Tom Barraso, Zarley Zalapski.

STRENGTHS: offense, power-play.

NOTES: Only one of 11 teams in the history of the league to have three players register 100 points or more each in the same season. (89-88). They were Lemieux, Brown, and Coffey. More experience and a lot of offense, puts them on top.

2. NEW JERSEY DEVILS

A lot of new faces on this Devils team. And the change was needed after last year’s disappointing 66 point season. The Devils will be a more offensively explosive team. If they can combine that with the hard working philosophy of Devils teams in the past, the Devils will be powerful. Look for power-play to be one of the best in the league. The off-season acquisitions of Fetisov, Ruotsalainen, and Walt Poddubny give powerplay instant recognition.

KEY PLAYERS: Sean Burke, Viacheslav Fetisov, Patrick Sundstrom, Brendan Shanahan, John Maclean, Kirk Muller, Walt Poddubny, Sylvain Turgeon.

STRENGTHS: powerplay, goaltending.

NOTES: Rookie goaltender, Chris Terreri, looked good in pre-season. If Burke returns to play-off form, goaltending becomes a strong asset.

3. WASHINGTON CAPITALS

Caps are defending Patrick Division champions, but choked in play-offs again. How long will they keep coach Bryan Murray in his job before they bring in a new coach? Murray has the best hockey in the regular season so I pick them to be near the top.

Defense is the story here.

KEY PLAYERS: Dino Ciccarelli, Geoff Courtnall, Mike Ridley, Scott Stevens, Kevin Hatcher, Kelly Miller.

STRENGTHS: Defense.

NOTES: Will miss Bengt Gustafsson who returned to Sweden.

4. NEW YORK RANGERS

The Rangers had a fine season last year and that means 40 goals plus.

The Rangers come off an emotionally draining year and off-season. The circus has been at Madison Square Garden for the last few years, and I haven’t seen any elephants or clowns. But behind this wall of business bull there is a team with some good talent. The Rangers had a fine season last year. They were close to the top for most of the regular season. And this fact seems to be hidden behind the distractions of managerial affairs and GM and coachbrawling. Ortlieb must be patient with Neil Smith and Roger Neilson. The Rangers have to grow not rebuild.

KEY PLAYERS: John Vanbiesbrouck, Brian Leetch, Carey Wilson, Tony Granato, Tomas Sandstrom, Kelly Kisio, James Patrick.

STRENGTHS: goaltending, defense.

NOTES: Ulf Danlen needs to consistently produce for the powerplay to work. Rangers need leadership and direction and they have a good base with Smith and Neilson. Both are good hockey people.

5. PHILADELPHIA FLYERS

The Flyers made admirable run up for cup last year. But lost to the Canadiens in Conference Final. In that Final, Ron Hextall was how a player he is. We all appreciate an athlete who plays with intensity, but who plays intensely with class. Hextall is disturbing the organization must be patient with this guy. He is. We all appreciate an athlete who plays with intensity, but who plays intensely with class.

NOTES: Will miss Bengt Gustafsson who returned to Sweden. Ciccarelli is here for entire year and that means 40 goals plus.

New York Rangers

The Rangers come off an emotionally draining year and off-season. The circus has been at Madison Square Garden for the last few years, and I haven’t seen any elephants or clowns. But behind this wall of business bull there is a team with some good talent. The Rangers had a fine season last year. They were close to the top for most of the regular season. And this fact seems to be hidden behind the distractions of managerial affairs and GM and coachbrawling. Ortlieb must be patient with Neil Smith and Roger Neilson. The Rangers have to grow not rebuild.

KEY PLAYERS: John Vanbiesbrouck, Brian Leetch, Carey Wilson, Tony Granato, Tomas Sandstrom, Kelly Kisio, James Patrick.

STRENGTHS: goaltending, defense.

NOTES: Ulf Danlen needs to consistently produce for the powerplay to work. Rangers need leadership and direction and they have a good base with Smith and Neilson. Both are good hockey people.

6. NEW YORK ISLANDERS

Last year was a year of transition for the Islanders. They committed to youth, and are a fun team to watch grow. Powerplay was (4th) in N.H.L. last year and coach Arbour will help this team mature. Islanders will surprised some teams this year.

KEY PLAYERS: Pat LaFontaine, Brent Sutter, Dave Volek, Don Maloney, Bryan Trottier, Gary Unger.

STRENGTHS: youth, coach.

NOTES: You’ve got to go through hell before you get to heaven.
Hawks eat Birds

By Mike Cohen
Staff Writer

All talk and no action are the words best used to describe the Ramapo College Roadrunners effort Saturday night as the Red Hawks crushed Ramapo 30-14. Ramapo taunted MSC after every play in the 1st half in an effort to break the Red Hawks' concentration on the game.

Despite all the taunting that the Roadrunners were doing, MSC was still able to take a 10-7 halftime lead.

Running back Dan Walsh (221 yards on 46 carries and 3 TD's) scored from 1 yard out early in the second quarter to open the scoring and give MSC a 7-0 lead. Mike Attardi then hit a 27 yard field goal as the Red Hawks took a 10-0 lead. It was Attardi's first field goal of the season in 4 attempts.

Ramapo drew to within 3 when fullback Donald Crump threw a 12 yard touchdown pass to wide receiver Chris Womack making the score MSC 10 and Ramapo 7.

During halftime, Red Hawks' coach Rick Giancola, stressed to his team that they should concentrate more on the game and less on Ramapo's taunting. He was angry that his team "got caught up in an emotional battle and had lost their poise someday." Coach Giancola also wanted to move the ball downfield more with play action passes.

MSC played inspired football in the second half and when Dan Walsh scored from 9 yards out it took the heart out of Ramapo. Walsh scored again, this time from one yard out on MSC's next possession to give the Red Hawks a 24-7 lead.

Ramapo's offense was frustrated all night by MSC's defense. The Roadrunners were only able to manage 115 yards of total offense. Defensive end Paul Cioffi lead MSC with 12 tackles and 2 quarterback sacks. MSC's last score came when Ed Baffise hit wide receiver Amod Field with a 43 yard touchdown. The Roadrunners then closed out the scoring when Mike Saglia caught a two yard pass from James Grant to make the final score MSC 38 Ramapo College 14.

Dan Walsh's 46 carries sets an MSC record for most carries in a game. The record was held by Bob Vanney in 1981 and Leroy Harris in 1986. Walsh said it "felt great setting a record," but was quick to give praise to his offensive line, complimenting them on the gaping holes they opened up for him.

Saturday's victory was Coach Rick Giancola's 53rd as MSC making him the winningest coach in MSC's history. Giancola surpassed Fred Hill who coached the Red Hawks to 52 victories from 1976-1982.

Saturday night was a very special night for Coach Rick Giancola in more ways than one. He not only set a MSC Football coaching record for most victories, but Saturday was also his parents' 45th wedding anniversary. Both were on hand to share the special moment with him. Following the victory Coach Giancola said he was "grateful" he could share this moment with both his parents and wife Judy. Giancola's record speaks for itself, 53 wins, 14 losses, and 1 tie. His teams have won 4 New Jersey Athletic Conference Championships and two NCAA playoff berths. MSC has never finished lower than second, in their division, during his 6 years as head coach at MSC.

A 1966 graduate of Glassboro State College, Giancola played both football and baseball for the Profs. In addition to football, Giancola also serves as an assistant baseball coach.
