Union settles; MSC faculty unsettled

By Richard E. Buckley Jr. and R. A. Campos

A tentative agreement was reached between the New Jersey Federation of Teachers and the state on Thursday, March 1. The Montclair State Federation of College Teachers (MSFCT) called an emergency meeting the following day to discuss the ratification of the new contract. For an outline of the agreement see chart.

Voting to pass or reject the new contract will begin next Wednesday for MSC faculty and most of the other eight state colleges, said Dr. Richard Franke, Vice President of Internal Affairs for the MSFCT. Union members throughout the state are to ratify or reject the new state offer. Results of the vote will not be available until next Friday; union representatives for Jersey State, Glassboro and Ramapo have said their local unions support the contract and will vote in favor of it.

MSC Faculty are not pleased with the offer. “It’s an insult,” said Dr. Lawrence Schwartz addressing the union in the S.C. Ballrooms. “When the state is prosperous we get nothing, when the state is broke we get nothing. It’s better to not have a contract than accept this.”

If the state does ratify the agreement, MSC will go along with the new contract, said President of the MSFCT, Dr. Catherine Becker.

“That’s the way democracy works,” said Becker.

The MSFCT, however, has control over 1/6 of the votes due to its size, Becker also added.

Glassboro and the others confirmed (the offer) out of fear, said Becker. “Push came to shove and the union collapsed. Other campuses did not prepare like MSC,” said Becker.

Becker said that she plans to vote no on the contract. “Can you see yourselves in three years? This 4½% increase does not even measure up to the rate of inflation,” she said.

Another modification to the contract is the addition of two more steps to the existing nine step plan. A tenth and eleventh step were added to the salary scale for professors.

After a professor is hired by a college, the professor is promoted up a step after a year of service at the school. His salary is increased with every promotion.

The annual promotions are implemented for the first 9 steps. Once at the 9th step a professor must remain there for 18 months before moving to the tenth. The same 18 month period is used for moving from step ten to eleven.

In the event the contract is not ratified, the union and state will resume negotiations.

African American leaders must address a number of issues

By Carl Chase
News Editor

African-American leaders must address racism, economic status, high numbers of single parent homes, and the issue of African-American students and teacher safety, Irvin Reid, MSC president, said in his closing speech for African-American Heritage Month.

Meanwhile, he said, present leadership faces a crisis of unfocused power.

"According to Reid, causes of this crisis include:"

- Rapidly changing times have made finding an effective leader that generates sufficient passion to influence the national leaders difficult.
- Personal success has diverted many African Americans from the basic needs of the population. Individual achievement dominates the agendas of many African-American organizations, at the expense of the traditional issues of the once-more-powerful black church.

- The neglect of the Reagan administration has "effectively nullified the agenda, issues, and the federal programs" that once provided the power base of many community leaders.

- "That has certainly been one of the most significant things in the crisis," he said.

- In higher education, he said, he is not encouraged by the numbers of black faculty that are stagnant or declining.

("Colleges have tried very hard but it's difficult to attract African-Americans when the supply is diminishing. In all of the United States two years ago, only four Ph.D.'s in mathematics were awarded to blacks. We have 3,000 colleges and universities...it's an extraordinarily uphill battle," he said.

- "Whereas MSC may have a black librarian, a black president, and a black dean, that, I can assure you, is not the kind of representation (that exists) throughout the country.

- "So racism is sometimes there for the students, but they (don't have) very much leadership to help them to address it. The result is that, in many cases, there is no leadership for that matter, to give them moral support.

- "We have to do a better job"

The I.D. office in room 423 of the Student Center wants you to pick up your student I.D. if you have not already done so.

- The Organization of Students for African Unity will meet every Tuesday evening at 7:30 p.m. in the Student Center Cafe C. All are welcome to attend the general membership meetings.

- During the week of March 12, the bookstore will begin to return unsold textbooks to the publisher. Students are advised to purchase the textbooks that they still need.

- The Center for Continuing Education is offering seminars in health care administration and delivery. The seminars are scheduled for Wednesday from 9:30-4:00, beginning March 14. Anyone interested should call 893-4353.

- The Medieval Society will be meeting on Tuesday March 13 at 6:30 p.m. in room 112 of the Student Center Annex. All are encouraged to attend.

- L.A.S.O is sponsoring a concert: The New York Band will appear in the Student Center Ballrooms on March 10 at 8:00 p.m. Call 893-4440 for ticket information.

- Phi Alpha Delta, Law Fraternity, is sponsoring a Pre-LAW/LSAT seminar on Wednesday March 14 from 5-6 p.m. in room 416 of the Student Center.

- March 5-9 is International Week, sponsored by the International Student Organization. All students and faculty are invited to experience and enjoy this celebration with ISO.

- On March 11 to March 15, the SGA and Alumni Association will sponsor its First Annual Parent Phon-A-Thon. All students are urged to come out and participate. The money pledged towards the foundation is used to benefit students and offset tuition increases. To sign up call 893-4202 or 893-2558.

- Students Towards A New Direction S.T.A.N.D., a social awareness organization, meets every Thursday at 5:30 p.m. in room 112 of the Student Center.

- Madeline Weinstein will be visiting MSC during the week of March 11. Weinstein is visiting on behalf of The New Jersey Visiting Fellows program. Weinstein will be visiting various classes and emphasizing the importance of a liberal arts education in the business world.

- The Paths and Pitfalls to Corporate Success is a panel discussion planned for Wednesday, March 14 at 9:30 a.m. in Russ Hall Kops Lounge. The panel will consist of women who have achieved success in the corporate world.

- The Sixth Annual Sheldon Pollack Lecture will be on Monday, March 12 at 8 p.m. in Memorial Auditorium. The lecturer will be Dr. Richard Sennett, whose speech "The City of Difference" will explore the cultures within an urban setting. For more info, call David Dodd at 893-7228.

- Mary Emily Call of Linguistics and Nancy Tumposky of Curriculum and Teaching will present a free workshop: "Foreign Languages and Cooperative Learning: Trying Out a New Methodology," on Thursday, March 15, from 3:30 to 5:30 p.m. The workshop will be held in Student Center room 417.

- Campus Recreation announces that the swimming pool is now available to students, faculty and staff with valid I.D. cards on Sundays from 4 to 6 p.m. For more info. call Campus Recreation at 893-7494.

- The International Studies Program is seeking volunteers to provide two nights of lodging for a group of 11 students and three faculty/staff members from Egypt, who will visit the U.S. from April 18-20. If interested call the International Studies office at 893-7374.
Open House planned for Weekend College

By Tracy Williams
Staff Writer

After spring break, the ban of styrofoam on campus will take effect. This change was brought about by Helen Ar-chontos, secretary of the SGA, and the Conservation Club. There will be a 5-cent price increase on all beverages as a result.

An open house is planned for March 31 to inform Weekend College students about the services available at MSC, Astrid Chicha, president of the Weekend College Association (WCA), said to the SGA legislature March 7.

"The majority of weekend students don't know where or what SGA is; they don't even know it exists," said Chicha.

There are presently 245 members of the WCA who represent students, mostly hispanic, who attend MSC only on Fridays, Saturdays, and Sundays.

A bill proposing a waiting period for charters of new fraternities, at least 14 months, was rescinded at the meeting. Legislator Timothy Nee, chairperson of the organization is strong enough to get off the ground, he said.

"We have survival of the fittest on one hand and moderation on the other," said Nee.

The first bill passed was submitted by Michele Constantz. It was to make the Biology club class II chartered.

"Members of the club are more enthusiastic this year than they have been in the past," said Constantz.

The second bill was Theta Xi's class IV charter. Theta Xi's national cause is multiple sclerosis. David Blackner and Jonathan Jaffe, two SGA legislators, represented Theta Xi.

"As a fraternity, we will all work together as a group at MSC," said Jaffe.

Lastly, a bill was passed stating that if an SGA committee has work overload, a co-chairperson can be elected by the individual committee, but will only be appointed after a proposal to the SGA legislature has been approved.

Medieval Society

The Medieval Society will hold meetings on every Tuesday at 6:30 p.m. in the Student Center Room 112. The society focuses on medieval topics and will include trips to appropriate places, presentations, and festivals.

"We have survival of the fittest on one hand and moderation on the other," said the individual committee, but will only be appointed after a proposal to the SGA legislature has been approved.

All Around The Campus

What do you think it would take to once again make the Rat a success here on campus?

by Peter S. Rebovich Jr.

"It would be more interesting to have live bands, along with alcohol for those over 21. Having alcohol available daily would create a more relaxed atmosphere in contrast to the 'crazy Thursdays' of the past."

Craig Sackett
sophomore/English

"Make it a bar. It should be open on weekdays after 5 p.m. and also on weekends. This would alleviate drinking and driving for students on campus."

Jennifer Hoffmann
junior/management

"It needs to be remodeled; it's a large room that they could use much more efficiently. The Rat a modern look — this is the 90s."

John Wilkerson
junior/business admin.

"Extend meal card hours so it can be a meeting place not only in the afternoon, but in the evenings as well. The return of alcohol on Thursday nights would also be a plus."

Lisa Mullane
junior/English

"Since the Rat is for the students, the administration should give us what we want. If alcohol will make the difference, then guidelines should be set for the proper distribution of it."

Cherese Pegram
senior/accounting
Thank You

Members and officers of the faculty and professional staff are grateful to the many students and campus workers who expressed support for us in our recent contract struggle.

LOCAL 1904
MONTCLAIR STATE FEDERATION OF COLLEGE TEACHERS
Affiliated with N. J. State Federation of Teachers,
American Federation of Teachers, AFL-CIO
Of attracting and retaining more African-American students," he said.

African-American faculty members are needed to serve as role models and mentors, and to bring plurality to higher education, he said.

"No matter what community you are drawn from, you have to provide something back to the community. While large numbers of us have gone through, and benefited from, a great deal of development in the 1960s, 70s, and 80s, perhaps the amount of contributions that have been made back is really not up to the same level that has been received by these developments," he said.

Overall, the issues are becoming more global even as constiuencies of African-American politicians become more urban and regional, he said.

DEADLINE EXTENDED TO MARCH 23, 1990
Reid declares March women’s history month

By Belinda Diaz Staff Writer

March was declared as Women’s History Month at MSC by President Irvin Reid at the Board of Trustees’ March 1 meeting.

The Women’s Center, newly opened after being closed for a semester, is planning special events throughout this month, according to Reid. The center offers many services to the campus community, including a reference library concerning women’s issues, a support group which meets Wednesdays at noon, and a counseling service in conjunction with psychological services.

A new Bachelor of Sciences degree in molecular biology was approved by the board. Also approved was a revised resolution for a facsimile signature of Thomas Auch, vice president for administration and finance, to be filed by National Westminster Bank, a depository of MSC funds.

Campus Police Report

Student forges for finances

By Seth Liebowitz Staff Writer

Sometime between March 1 at 10:45 p.m. and March 4 at 11:00 p.m. a 1980 Buick Regal parked in lot 21 was stolen.

On March 1, at 4:00 p.m., a student forged an authorizing signature on a financial aid form in order to receive a check. This individual is being charged with forgery and theft.

On March 1, at 8:40 p.m., a 1985 Mazda RX-7 parked in lot 22 was stolen. While the car was being stolen by a male, the owner was walking toward his car.

On March 2, between 12:30 and 1:15 p.m., someone entered a locked room in the Panzer Gym men’s locker room and stole two wallets. Both wallets were recovered in the gym’s parking lot. The cash was missing from the wallets along with a credit card which the thief attempted to use at a store in Willowbrook Mall. Police are investigating.

On March 3, between 11:15 p.m. and 10:00 a.m. a 1984 Volkswagen Scirocco parked in lot 23 was stolen. Nothing was stolen from the car.

On March 3, between 1:15 p.m. and 8:45 p.m., a 1985 Mazda RX-7 was broken into. Nothing was stolen from the car.

On March 4, at 6:15 p.m., seven unidentified college-age males were reported acting disorderly. They were kicking and banging vending machines. When campus police arrived, the individuals fled. The vending machines were not damaged, but they were moved out of place.

On March 6, at 2:00 a.m., a bomb threat was received at Bohn Hall. The building was not evacuated due to the vagueness of the call.

On March 6, between 5:00 and 7:00 p.m., a 1980 Oldsmobile Cutlass parked in lot 21 was stolen.

On March 6, between 4:30 and 9:40 p.m., someone attempted to steal a C.B. from a 1988 Jeep Wrangler parked in lot 30.

On March 6, at 11:30 a.m., an unidentified male stole a wallet and a Walkman from the pocket of a jacket on the third floor of the Student Center.

On March 5, between 7:30 and 11:45 p.m., there was an attempted theft when a 1988 Chevy Wagon parked in lot 21 was broken into.

Libraries and IRS

Most local libraries provide audio tapes to take you step-by-step through completion of your tax return, a reference set of the IRS free publication series, and reproducible tax forms.

Earth Day 1990: What's it all about?

By Audrey Regan

Editor's note: This is the first in a three-part series.

Earth Day Week is coming. What is Earth Day? Actually, every day is an "Earth Day," because we live on the Earth every day. Yet April 16-20 will be the designated Earth Day Week here at MSC, as well as 999 other campuses and locations across the nation to remind all that the Earth, which literally means "dirt," needn't be treated like dirt.

This year's demonstration marks the 20th anniversary of the first Earth Day, held on April 22, 1970. Although the first Earth Day, which spun off such legislation as the Clean Air Act and the Environmental Protection Agency, was a massive event in this country, this year's might outdo it and involve other nations such as India, China and the Soviet Union. Earth Day 1990 might even stretch to Earth decade.

Why this year? Is it because the results of environmental abuse suddenly seem to have hit us on a personal level? Earth Day five years ago wasn't a hot issue, but five years ago there also weren't dirty needles in the oceans, closed beaches, cleanups after oil spills, or increased rates of skin, lung or any other type of cancer.

If you ask "Do these little things really make a difference?" Linda Hackmann, President of MSC's Conservation Club, thinks they do.

"We are all so caught up with things that are convenient for us. We need to get away from that and change our habits. Don't whine. We can have an impact," she said.

Hackmann's view is precisely the point of the Earth Day Week celebration. If not only to create awareness, organizers hope to show how a small change in our daily lives can help save the Earth.

This year, organizers hope the event won't be just a demonstration of good intentions. Railies, movies, speakers and singalongs are planned, as well as some surprise changes in store for the college.

Next week: Environmental facts, figures, and claims—what do they really mean?

The walk of life? Models audition at MSC

By Chris Rogers

Each girl walked across the room to music, attempting to express the poise and grace that fashion models seem to possess. They were MSC students, with a shot at a spotlight "under the sea."

Tuesday night, MSC's and the New Jersey Institute of Technology's chapters of Lambda Tau Omega held model auditions for an upcoming fashion show entitled Fashion Under the Sea, sponsored by the sorority and deriving its name from the sorority's mascot, a mermaid.

The show will be held on April 6th at the New Jersey Institute of Technology, although all practices and auditions will be held at MSC.

Besides the fashion show, the program is scheduled to have both a comedian and singing auditions will be held at MSC.

Actions, not thoughts, are best in self-defense

By Jeanine Rybeck

Suddenly, she was grabbed from behind. She should have been frightened. She could have screamed, but she didn't.

She was in a room with, among others, a trained martial arts specialist, and she knew exactly what to do.

On Wednesday, February 28, the Department of Speech and Theatre presented its second self-defense seminar designed to teach students how to protect themselves in a rape or attack situation.

The workshop was taught by T. J. Glenn, a visiting specialist in martial arts. He is a martial arts expert and also a professional stuntman.

Glenn opened the seminar by describing the human body as "badly put together." He emphasized the strength and power of the mind, and explained that thinking is the key element in defending oneself and overcoming the panic reaction of being attacked.

After a brief talk about self-defense, Glenn and his assistants went on to demonstrate means of escape from several hypothetical attack situations. Participants had been asked to wear comfortable clothes and a loose-fitting sweatshirt or jacket, and for the next hour and a half, they received hands-on defensive training.

Life Hall's room 125 was overcome with students grouped in pairs, repeating different approaches an attacker might use and their escapes for each one.

"You can't just stand there," Glenn said, advising that once you've decided what you are going to do to defend yourself, you have to follow through with it completely—you have to act.

"...once you've decided what you are going to do to defend yourself, you have to follow through with it completely—you have to act."

On a personal level, Glenn proved to be fascinating and remarkably well-rounded. A resident of New York City, Glenn studied under many teachers, one of them being one of Errol Flynn's stunt doubles.

cont. on p. 10
Models take a walk on the “sea” side
cont. from p. 9

The idea is not to flaunt the examine all aspects of the outfit.

Models take a walk

incisive on how to move.
The main concern seemed to be that models must take their time as they move across the stage, giving the audience a chance to see the clothes and examine all aspects of the outfit. The idea is not to flaunt the bodies of the models, but rather the clothes that they are wearing.

Although the turnout for the auditions was impressive on the female side of the scale, very few men even peeked in the door. The few gentlemen that did show up seemed apprehensive about even entering the room after seeing the lack of a more male presence.

“We need more men,” Rosa said. “Everybody, bring your boyfriends, brothers, fathers — anybody.”

The sisters seemed disappointed with the lack of a more balanced turnout, and extended the deadline for auditions until more male models join the group. They asked that any men who are interested in a modeling experience should contact a sister of Lambda Tau Omega as soon as possible to set up an audition.

Those who did show up for the auditions expressed excitement about the project and their confidence in themselves and their ability to pull off their first modeling job. They also seemed very pleased with the relaxed manner in which the sorority was handling both the auditions and preparations for the show.

If anyone has any questions about the show or wishes to contribute to the program in any way, they are encouraged to contact the members of Lambda Tau Omega as soon as possible.

Defending yourself
cont. from p. 9

Glenn is also an expert in weapon combat besides martial arts and judo. In addition to teaching here at MSC, Glenn also teaches privately in NYC.

Glenn explained that his initial stage interest was acting. He has been an actor for fifteen years, and currently does a lot of work on CBS’ Guiding Light. He found that being able to incorporate stunt talents into his acting has landed him more roles.

Glenn graduated from the Parsons’ School of Design as an illustrator, and is the artist on the Action Master comic book. He also writes and dances.

His interest in stage combat and the martial arts seems to follow his advice for self-defense. He smiled, shrugged, and simply said, “I see something, I like it, I do it.”

T. J. Glenn’s workshop turned out to be extremely fun and informative, and hopefully MSC will have the privilege of presenting another one in the near future.

Little feats
This “featured” information might give you a step in the right direction.

Be in Paris when it sizzles

Attention! This summer, why not do something a little different, like see the Eiffel Tower and storm the Bastille?

You can tour the Louvre Museum, climb Notre Dame Cathedral, and taste the finest French cuisine at the Marche Rungis, the Poulin Chocolate Factory, and the world famous cooking school Le Cordon Bleu, all while earning academic or continuing education credits.

MSC’s home economics department is planning a study tour to be conducted from May 31 to June 11. The cost of $1,538 includes round trip airfare, accommodations in a centrally located three star hotel with private bath and double occupancy, daily continental breakfast, special guides and admissions fees, and all city and value added taxes. Several activities are planned for students so can enjoy some of Paris’s most famous sights, while getting an education, too.

For more information, contact Dr. Carol Byrd-Bredbenner at 933-7409 (Monday, Wednesday, and Thursday, 12 p.m. to 1 p.m.) or 764-6640 (evenings).

Join The Montclarion

Sperm Banking Donor Program

Biogenetics Corporation, a national center for sperm banking, is looking for healthy individuals, aged 18-40, to join its anonymous donor program.

Qualified donors can earn $450 plus per month. Initial screening and subsequent periodic testing are performed on all donors. Complete confidentiality is assured through contractual agreement.

For information, call the Program Director at

1 (800) 942-4646

Thank you for your consideration.
Announcing new lower prices on the Macintosh SE and Macintosh Plus.

If you'd like to enhance your education and your budget, take note. We just lowered prices on two powerful members of our Macintosh family, the Macintosh SE and the Macintosh Plus.

They'll put a world of possibilities at your fingertips. Like graphing the economic impact of Japanese expansionism. Analyzing Freud. Or just organizing that stack of notes. Better yet, once you've mastered one application you can use them all, because all Macintosh software works the same way. And since every Macintosh runs the same software and is expandable, it can grow with you as your needs change.

Considering all this, you should have no doubts about which course to take. Give a Macintosh a try, and save.

The power to be your best.

To legalize or not to legalize

Anyone who advocates the legalization of drugs is sure to be met with a few raised eyebrows. This idea seems ludicrous, increasing the availability of drugs will not combat the problem. The war on drugs is not being won by any measures, perhaps increasing the availability of drugs will not combat the problem.

The United States invaded Panama and vows to bring Noriega down. Drugs were brought into this country before Noriega and the Bismarck Reich hardly show Germany to be a consistently “fanatical” country. Patriotic, maybe — but no more patriotic than America.

Germany as a nation “wreaked havoc” in Europe three times in 70 years, 1870-1940. Even though Germany played an important part in history during this time, one could hardly say the nation “wreaked havoc” again and again. We all know about World War II, but World War I and the Bismark Reich hardly show Germany to be a consistently “fanatical” country. Patriotic, maybe — but no more patriotic than America.

What topped all the misrepresentations of facts and ideas in that article was the mentioning that the extreme right-wing conservative party in both the East and West are expected to make substantial gains in upcoming elections. Even if this were true these parties have practically no chance to meet the required five percent of the vote to be allowed into the parliament. There are many more members of organized Nazi-parties in the U.S., in terms of percentage, I have never seen as many swastikas in the U.S. than anywhere else: take an MSC bathroom stall — the graffiti is mostly fanatical and racist.

The past of course is a threat — and particularly every German must not forget it. Dilligence, precision, and hard-working standards are a noticeable part of the German mentality; it is easy to make connections still between Germans nowadays and the Nazis. By putting the turmoil into perspective we will only find a nation that wants to be unified again; a nation that has been torn apart and has lived with nightmares and complexes for almost half a century. Whatever it was that the previous generations did, I am convinced that the majority of Germans have at least learned about the dangerous potential of every human.

The last paragraph of the article I am tearing apart here mentions a large swastika on the Berlin wall that went unnoticed. Maybe we should worry about the unnoticed swastikas in the U.S. before we take upon ourselves the task of worrying about another country’s problems — especially when one has no clue about that mentality, let alone the facts.

Editors Note: The “article” in question was a Student Voice column, which is an opinion column run weekly in The Montclarion. The opinions expressed in any pieces on the editorial pages, except for the main editorial, are neither “articles” nor do they necessarily represent the opinion of The Montclarion. It is not The Montclarion’s responsibility to check the facts of any opinion pieces and all opinions, including the one above, are printed in full regardless of content, unless they must be shortened for space or are libellous. This is a common practice in any newspaper, and is not a custom particular to The Montclarion.

Legalize Drugs! Legalize Drugs! And Just How Am I Gonna Pay My Tuition If They Legalize Drugs... Slapping Burgers and Nuggets?
**Event sponsorship**

To The Editor:

Students serving students. That's what SGA chartered organizations are trying to be. How does college community gauge what their Class One organizations are doing with student activity fees? By their weekly assessment of programming through the college newspaper. This would seem the simple solution.

However, there seems to be an oversight on the actual sponsorship of various programed events on campus. This letter is in response to the numerous occasions in which the Montclarion has failed to inform the students as to which organizations are responsible for the events which they, the students, ultimately paid for most recently, the review of “A Dry White Season” co-sponsored by O.S.A.U. & C.L.U.B.

In our limited journalistic experience we've learned the first questions answered within any news article, (or feature article for that matter) are "who, what, when, where, why, and how?" It seems all the questions are answered by the Montclarion, excluding the "How?".

"How?" answers the question, "How was this event brought to the college community?". Perhaps this question will be answered more frequently in the future.

To The Editor,

I have recently read about the copyright debate between the SGA and William E. Cogan. The 1990 edition of La Campaña should have been copied under either the yearbook title, La Campaña, or the SGA. Let me explain at how I arrive at this conclusion.

First of all, La Campaña has no set author, despite who has done "all the work," as yearbook photo editor John Navar- ro stated. Rather, it is a compilation of various persons' works, and if Mr. Cogan's name is on the copyright, then ALL the people who had something to do with its production should also be listed under the copyright. However, since this is a student fee funded organization, and a subsidiary of the Student Government Association, this does not apply.

Instead, La Campaña should have been copyrighted under the SGA as a "work for hire" rather than some student. While it is true that because Mr. Cogan pays SGA fees, he can have a shot at the copyright, but does that make any student, who also pays SGA fees, eligible to say something should be copyrighted under their name? Even if they had absolutely nothing to do with its creation?

As owner of several copyrights, I am very aware of current copyright procedures, although I am not familiar with Copyright Act. I do not wish to point my finger at anyone, screaming that they are guilty of "illegal copyrights." The best thing to do is to change ownership of the copyright from Mr. Cogan to the SGA, Inc. This will alleviate any headaches, be painless for both parties, and the issue will be closed.

Swim team recognition

To The Editor:

Yet another swim season has come to an end. What swim season? We have a swim team at Montclarion. Do we notice or realize we have a swim team by the lack of attention or recognition by the Montclarion.

At any sporting event you are likely to see a member of the swim team cheering on MSC. Win or lose we are proud of our athletes in every sport.

Although the swim team has not had its best season, we should recognize the hard-working and dedicated coaches and athletes. I'm sure the students and parents who have supported the swim team share my disappointment with the Montclarion for their lack of attention.

By no means am I asking for the Montclarion to cut out articles on basketball, baseball, or football. All sports should be recognized by the Montclarion, including the swimming and diving team.

Granted, a lack of sports writers may be the reason for the Montclarion's lack of attention. I am not asking that an entire back page be dedicated to the team, just a few lines or an occasional picture reporting the swim meet and the results of all the other sports not normally recognized.

Unfortunately (for the team) many of the swimmers are graduating. For them this request is too late. Hopefully next season the swim team and coaches will receive the recognition they deserve.

Biased picture selection?

To the Editor:

In the four years that I attended MSC, I observed the photographers of the yearbook snap away at all the memories we alumni will reflect on for a lifetime. Except year after year, the yearbook has the same pictures selected. Unmistakably, not the same people but the same snapshots of friends of those on the commit-tee.

In the 1989 edition of "No Time Like the Present", I see nothing has changed. The elegant creation of the yearbook is full of very familiar faces over and over again. Yet, many faces were missing from our memo- ries. Pictures of some class II and III organizations, pictures of significant events and faces of very special people, had no room in our memories of 1989.

In a decade of governmental corruption, nepotism, favorit-ism, and a revival of racism, La Campaña should change its policy of how it selects its pictures for the yearbook of the future. In a new era of decon- centralization, La Campaña should give a fair reflection of our memories through pictures, by using a non-biased method of selection.

I am an alumnus of MSC, Weekend College Student Or- ganization. I would have appreciated at least one picture of our 3,000 plus students faces in the yearbook. Afterall, we did pose for plenty of snapshots. Furthermore, I'm sure other small organizations who have loved to receive the same consider- ation of the selection for the yearbook.

Hector F. Marcano
Class of 1989

Mary Jane Says...

International awareness

A taste of Spanish Delicacy, French Theatre, Arabian Music, foreign artifacts—these events and others are part of this week's International Week, designated to promote "International Awareness" of different countries and cultures.

Currently, at MSC there are students representing about 50 different nations. The students at MSC are fortunate to have the opportunity to interact and form lasting friendships with students of very diversified ethnic backgrounds. The International Student Organization, a Class II of SGA is an organization which reaches out to international American students, with the goal of educating our campus on the many peoples and cultures of our world.

Other cultural groups involved in this week are the Arab Club and the French Club. Jointly these organizations have coordinated International Week to further broaden the edge of MSC students - on different countries, cultural customs, food, and costume - and while doing all of this, show how we are all actually very similar.

As students in college, it should really be our responsibility to be informed of cultures outside our own. Global awareness, with an understanding of different people is a key element if we expect improved relations between cultures and nations. As future leaders, we should all consider this.

The Organization of Students for African Unity just completed an entire month of African American Heritage Awareness, which was deemed outstanding on a national level. The Latin American Student Organization does similar events in November for Latin Month.

These organizations' basic functions are to increase awareness and integrate students into the African American and Latin cultures. I urge all students to check into these different groups and events. If everyone were to become slightly more educated on one culture, it could be a first step to the journey of bridging the gaps between boundaries of various individuals.

Mary Jane Linnhean
SGA President

Say it in The Montclarion

The Letters Policy

The Montclarion offers the unique opportunity for all MSC students to have a voice on campus. We encourage all students to express their viewpoints in the Letters page.

All letters must be:

- typewritten and double spaced
- addressed to the editor
- submitted by 4 PM on the Monday before the Thursday issue
- include student ID number, year, major, and telephone number for confirmation.

Letters must be signed, but names will be withheld upon request. These guidelines must be met or the letter will not be printed.

The Montclarion reserves the right to edit all letters for length, style and beauty.

The Hunt is Over

By George Olschewski
Staff Writer

Forget the reviewers who keep preaching how we're into glasnost, that the Soviets aren't the bad guys. Forget that the movie is set in 1984 when Chernenko ran the Big Red Machine.

Just strap yourselves in, munch your popcorn and Sno-Caps, and enjoy the best submarine movie to come along since 'Das Boot.'

While the TV ads and movie previews may intrigue you, they in no way prepare you for the motion picture "The Hunt for Red October." The commanding presence radiating from Soviet captain Marco Ramius, played magnificently by Sean Connery, makes one wonder if it is just another role for the former 007, or can he really command a boat?

So, what does he do? On the anniversary of his wife's death, he and his senior officers decide to bolt to the States and defect. However, Moscow doesn't like the idea of its new toy up and running to the West, so they attack with virtually the entire Soviet navy to sink her.

The final battle between Red October, the American sub S.S.N. Dallas, and another Soviet sub has excitement, an unlikely team-up, and some damn-near insane strategies that will have the audience holding their breath.

I've seen sub battles before, in movies and television, and I've even commanded a Los Angeles class submarine (seen in "Hunt" as the S.S.N. Dallas) in simulations, and I must say, I am impressed. Giving this movie less than a four-star rating is inconceivable. It may not replace classic war movie battles like "Das Boot..." but it sure as hell comes close.
Sunrise at MSC

By Chris Rohloff
Staff Writer

How did the rhino get his skin? What happened to the elephant’s child on the banks of the great, grey-green grassy Limpopo River and how did the camel get his hump?

The Sunrise Players tackle these questions and many more of their kind in an imaginative adaptation of “The Just So Stories” by Rudyard Kipling.

The Sunrise Players are a student acting troupe from the Department of Speech and Theatre. Touring Bergen, Essex and Passaic Countties, this troupe’s primary objective is to bring educational, yet entertaining theatre to grade school children in kindergarten through the sixth grade.

According to Nicole Demarest, director of the Sunrise Players, “The Just So Stories” adaptation is a vehicle that stimulates children to ask questions about science, animals and geography. Following the performance, the actors conduct a ten minute question and answer period with the children.

The success of this program can be seen in the smiles on the children’s faces...

Nicole Demarest, a twenty year veteran to children’s theatre, brought the concept of children’s theatre to MSC last spring.

Presently, she is directing her second Sunrise Players Production, “Just So” by Jan Silverman. This adaptation of “The Just So Stories” by Rudyard Kipling, according to Demarest, is a vehicle that stimulates children to ask questions about material about the show including Kipling’s biography, a paragraph about each animal in the show written by the individual actor/actress portraying that animal, and finally, a word search defining those words used in the show that may be unfamiliar to the children.

The success of this program can be seen in the smiles on the children’s faces, and by the Department of Speech and Theatre who have urged Demarest to expand her performances into the Fall semester as well as the Spring semester.

For those students interested in becoming a member of the troupe for Fall 1990, look for auditions to be held in early May, and for those interested in seeing “The Just So Stories,” they will be performed in Memorial Auditorium on Friday, March 16, at 10 a.m. and 12:30 p.m., and in Room A-125 of Life Hall, on April 21 and 28, at 10 a.m. and 1 p.m. Tickets are $2 and reservations can be made by calling 893-5112.

Sunrise Players

Red Hawk wrestling proves successful

By Anthony Di Pasquale
Staff Writer

MSC athletes continue to prove they are a prominent factor among division 3 athletics, as three wrestlers were named All-American after the Nationals this weekend.

All-American Scott Vega advanced to the final match of the 190-lb. weight class and despite an injured ankle, became the second best division 3 wrestler in the country.

Armondo Nardone also finished well in the 126-lb. weight class, and Ken Hoff was named a double All-American in both the 150-lb. weight class as well as an Academic All-American honor.

MSC salutes the courage and determination of all its All-American athletes, and looks forward to the continued success of our athletic program during the spring semester.

Scott Vega in a familiar position, pinning teammate in preparation for the nationals. Vega became the second best division 3 wrestler in the nation.

Roadway Package System
WANTS YOU!!!

* Part time hours
* Starting pay: 7.50/hr - After 90 days: 9.00/hr
* Immediate openings for package handlers

The Bottom Line
by Matt Winter

Scholarships give student-athletes an opportunity to pursue an avenue that may not have been available to them had they not had a special gift. Unfortunately, not every athlete comes from financially stable families as the NCAA would like everyone to believe. Although a scholarship does pay for tuition plus room and board, athletes who come from poorer economic backgrounds have little money to survive in college. Being that the NCAA does not allow a scholarship-athlete to make money illegally during the off-season, it makes it tougher to make money while making money illegally through ticket scalping, signing with agents, or point shaving, all the more appealing.

Point shaving is the biggest no-no for the NCAA shuhder as it becomes a case for the FBI to handle. This may be the case with former N.C. State player Charles Shackelford. Shackelford, now playing with the New Jersey Nets, was allegedly involved, with up to four other teammates, in shaving points in two games during the 198-88 college season. At a press conference Saturday, Shackelford denied any involvement with point shaving, but did admit to taking money from an agent. Shackelford said he made a mistake taking the money but said he was poor and it was the only way out. When asked about Shackelford shaved points remains to be proven. What this scandal plus the other two point shaving scandals have proven (Boston College 1979, Tulane 1986), is that college athletes in need of money can be easily lured to money generated through illegal gambling.

Pay athletes to play. It sounds crazy, but if it is structured properly it can work and possibly deter athletes from committing NCAA rules infraction. The payments of players would not mean outright bidding of top recruits. It cannot work if the blue chip recruit goes to the school with the highest offer. That would kill many smaller Division I programs while turning 18 year olds into professional athletes.

Should college athletes be paid to play Division I football and basketball? Absolutely. Even though Division I athletics get a full scholarship to play, it is not enough in the world of college sports, which is measured more in dollars and cents, than wins and losses. The NCAA needs to structure an allowance policy in which every Division I basketball and football player coming from a financially unsound background can apply for athletic financial aid. The athlete can fill out a form which would disclose information about the number of dependents in the family and annual family income. The form must then be signed by the athlete, his parents, and his school's athletic director. By getting those forementioned to sign the form, the chances of doctoring or tampering with the form would be cut down significantly. Then the NCAA can make a determination as to how much of an allowance the athlete can get. The maximum allowance should be about $100 a week. Considering that college sports has turned into a multi-million dollar business, an allowance program would be more pocket change for the NCAA and the schools it governs. Of the $100, 2/3 should be paid by the NCAA while the remainder would be paid by the student's institution. This policy of a 2/3-1/3 split would allow the lower Division programs to survive, while giving poorer athletes money in a fashion that would deter any NCAA rules violations.

If you are wondering where the NCAA would get the money to pay over 1,000 athletes, just look at the numbers CBS sports is paying for the NCAA tournament and how much money is generated through televised college football and other money generated through merchandising. If the revenues are invested properly, athletes could be paid and the NCAA would still have money for themselves.

If in the event an athlete on student-athlete financial aid gets caught in NCAA rules infractions of any kind, his allowance check should be pulled pending an investigation. If the accusations against a player for rules violation are proven a second time, his scholarship should be pulled, and if the infractions are of a criminal nature (point shaving, etc.) any penalties must be taken should be taken plus he should be bounced out of school.

Indoor track shows promise

By Richard T. Green
Correspondent

The MSC men's and women's indoor track seasons comes to an end this weekend with five people qualifying for the Nationals, which are a must. Although 5 people qualified for the Nationals only 3 people will be competing.

Aisha Agee suffered a knee injury prior to the championships and will not be participating this weekend. Another runner who will not be participating at the Nationals, is Anthony Williams, who suffered a head injury in a car accident.

From each event only the top 11 people in the country are selected to compete at the Nationals, so it's truly an honor to even qualify.

The Nationals are Friday, but the team will be leaving Thursday so they can be fully rested and prepared for the races on Friday. I think we speak for everyone at MSC when I say that we wish them luck and success this coming weekend.

Women's hoop season ends in 70-49 loss
But finish successful year at 23-6
By Michael Frasco
Sports Editor

The women's basketball team traveled to compete in the Atlantic Region Tournament last Friday in Tiffin, Ohio. MSC defeated Kean College 57-49 in the semi-final round however, lost to tough Heidelberg, Ohio, 70-49 in the final. Against Kean, a familiar foe for MSC, the Red Hawks were out to stop Kean's potent offensive attack by using the nation's No. 1 defense. This was just the case, as MSC was led by its two senior co-captains, Jackie Martinez and Carolyn Savio. With MSC ahead by 11 points in the second half, Kean went on a 14-4 run to cut the lead to 50-49. The defense then went to work and MSC hit 7 of 8 foul shots in the final minutes, including four straight by Martinez, to capture a 57-49 win. Carolyn Savio's 20 points and 18 rebounds, combined with Martinez' clutch foul shooting in the final minutes, ensured MSC to gain a place in the finals. Head coach Jill Jeffrey said of her co-captains, "They played the games of their careers, propelling us into the championship game." Coach Jeffrey also said the victory was a true team effort.

With one win under its wings, the Red Hawks went to the Atlantic Region final, but wound up a 70-49 loser to No.1 seeded Heidelberg, Ohio on Saturday.

"Heidelberg led 23-30 at the half, and MSC stayed close early in the 2nd half until Heidelberg erupted for 12 straight points to put the game out of reach for MSC. Heidelberg shot an unbelieveable 73% from the floor in the 2nd half, hitting 22-30 shots. As good a defense that MSC has, this will tell you Heidelberg was for real. A 23-6 record and a seventh national ranking holds proof to that. So MSC finally met its match, but Coach Jeffrey, saying "losing in the finals of the Atlantic Region is nothing to be ashamed of. Heidelberg is a quality team. Reaching the finals and being one of the final 16 teams in the country is a major accomplishment." Speaking of accomplishments, MSC had plenty of those this year, most notably a 23-6 record and being ranked 16th in the final division 3 poll. "As a head coach, this season has been a dream season. This team has been an absolute pleasure to coach. I can't express how proud I am of this team's accomplishment."

Individually, MSC had numerous records as well. Carolyn Savio finished her career with 1,077 rebounds, breaking the record held by Pat Colarusso in 1978. Most consecutive games with 10 or more rebounds 44 and counting. Kim Wilson had the most game-winning shot in one season: 15. Those are just several of the many records which fell this past season, but what can be said about this team's overall performance this year was summed up by Coach Jeffrey. "Our 23-6 record is a result of the commitment and dedication of the individual athlete and the coaching staff. Their receptiveness to the coaching staff enabled the team to surpass everyone's expectations."

The MSC women's basketball team had a great season due to excellent coaching and commitment of the players. It enhanced a sports program everyone should be proud of at MSC.

Men's and women's ski team close out season
By Lore Swadba
Correspondent

Once again the Men's MSC ski team, for the fourth straight year, has ended its season in victory by qualifying for the 1990 Mid-Atlantic Regional Championships.

Also, of considerable mention is junior Red Hawk Harvey Bierman's acceptance of the Scholar Athletic Award for scholastic and athletic achievement. The award is given to the athlete whose excellence in athletics coincides with his achievement in the classroom.

"Being that it was my last race, for I'll be transferring next semester, I felt good because it was a culmination of my collegiate skiing career at MSC." said Harvey.

Bierman finished fourth overall in the slalom race and Conover had a good showing placing 14th. Unfortunately, the MSC Ski Team wasn't as successful as its leading individual performers; finishing the championship in a tie for 12th overall.

"I am very happy with my performance considering this is only my second year racing, and in my next two years I know there's room for improvement," said Conover.

The men of MSC finished out the New Jersey Ski Association, with 16th place finish. Women's team members included: graduating seniors Amy Rakowski and Danette Piperi, Maureen Harrington, Lore Swadba, Maria Colegro, Michelle Somers, and Tonya Troch.

Harrington led the women's team and finished fourth overall in the NJSA. She made it individually to the Mid-Atlantic Regional Championships as well.

Both teams look good for next year. Although the men will be losing Bierman and the women, Rakowski, other strong finishers such as Conover and Harrington will pull through.

"I hope that we are supported more in the future so skiers aren't deterred from ski racing due to lack of funding," said Harrington.
