Bohn Hall residents pissed-off

New locks were put on the 21 rooms that were burglarized in Bohn Hall over Thanksgiving break on Tuesday, Dec. 4, but many students did not report for fear of "jumping on the bandwagon," a Bohn Hall resident said.

The first thing Campus Police is doing is conducting an internal investigation. Sergeant Debra Newcombe is looking inside to see if a master key somehow got into the wrong hands, but nothing was established at this point, Margaree Coleman-Carter, director of Residence Life said.

Coleman-Carter, during a meeting held for the victims last Wednesday, addressed the possibilities of changing locks throughout Bohn Hall, which would cost about $26,000, and making stricter rules restricting access to the new master keys for the building.

Access to the master key is still an issue that they are reviewing, Coleman-Carter said. Right now, the assistant managers, maintenance, director of maintenance Doug Cooper and coordinator of Bohn Hall, Sherill Cantrell, all have access to the master keys.

They are also considering hiring some "roving guards" for the larger facilities, Coleman-Carter said. She is meeting with Statewide Security tomorrow to determine the guard situation.

Many residents were unhappy with what was discussed at the meeting. "What I want to know is why did we talk about next semester and the future instead of what is going on now," said Bob Orth, who had over $1,500 worth of valuables stolen including 120 cassettes.

Among the items stolen were televisions, stereos, typewriters, compact discs, jewelry, Nintendo and games and leather jackets. Microwaves and liquor were also reported stolen, although they are against Bohn's regulations.

One resident said, "They came into our room, cooked in our microwave, ate our food, drank our liquor, watched T.V. and then left with the T.V."

An R.A. of Bohn, when hearing that residents might be fined for having a microwave, said, "If that was me I would tell them to kiss my ass! I'm the one who was burglarized and you want me to pay? They are quick to get money back, but do not give us anything."

Students all seemed to be under the impression that this was planned out well and whoever did this knew what they wanted and needed. "Everything was handpicked," one Bohn resident said.

Rob Redmon, a desk assistant at Bohn, had over $730 worth of stolen goods including only two "classic" CD's out of 60. "They had a shopping list. They knew what brands they needed and took them. They skipped over someone's coat and took someone else's," he said.

Krista Hutchinson and Janel Cohen said that they found a note from the trespassers on their bed. It said: "Hey Pal, Squeeze Club. Good luck with Desire. Hope you piece. I want your ears. I don't. Anyway, I took all your money and jewelry. See you in a couple of years."

Students start studying for exams early, while the rest of us wait for the night before to cram. Exams are held from Monday Dec. 17 to Friday Dec. 21.

Weekend Weather:
Partly cloudy throughout the weekend mid to upper 40's.

Bohn Hall: Forty residents were burglarized.

College facility bill passed

(TRENTON)—Legislation that allocates bond-issue funds for development, construction, and improvements of classroom equipment and facilities at both public and private colleges across the state was approved yesterday by the General Assembly.

Two of the measures (A-3943 and A-3944), are sponsored by Assemblymen William J. Pascrell (D-Passaic/Bergen) and Joseph A. Mecca (D-Passaic/Essex). A third (A-4077), is sponsored by Assemblyman Bernard F. Kenny (D-Hudson).

"The proper up-keep of equipment and facilities at the colleges of this state is a priority issue," said Pascrell. "Without this up-keep, the quality of education at these institutions will gradually decline. We need to insure that doesn't happen."

"In order for these schools to meet the needs of the future, facilities must be built for the many new fields that are growing by leaps and bounds," said Mecca. "Without growth in both established and newer fields, the education process stagnates. These funds will help keep higher education in New Jersey flourishing."

New Jersey's ability to stay on the cutting edge of new technology will greatly affect our state's economic well-being as we approach the 21st century," said Kenny.

All three measures appropriate funds from the Jobs, Education and Competitiveness Bond Act, which was approved by New Jersey voters in 1988, to the Department of Higher Education.

The first measure (A-3943), allocates $142,502,000 for projects at public universities and private institutions.

Pascrell said that the schools receiving aid include William Paterson College, Montclair State College, Rutgers, the State University, the University of Medicine and Dentistry of N.J., Monmouth College, Bloomfield College, Rider College, the New Jersey Institute of Technology, Stevens Institute of Technology, Caldwell College, and the Council of Higher Education in Newark.

The second measure (A-3944), allocates $22,322,000 for projects at state and county colleges.

State colleges defend Student Rights Bill

By Renee McDonnell
Staff Writer

A student rights bill that would give full control of the student government fees to the SGA’s of all N.J. state colleges and universities was introduced to the higher education committees of the N.J. State Assembly and Senate.

Other functions of the Student Rights bill would be to provide a way for student governments to raise and lower their fees, allow them to allocate funds to a state-wide student organization and give students the right to vote for non-profit corporations on the term bill in the form of a “waiveable fee.”

The bill is sponsored by Senate Majority Leader John Dalton and Assem­blyman Joseph Doria.

To help lobby the bill, the N.J. Student Rights Coalition, the statewide students organization that lobbies in Trenton on Nov. 9, sends representatives from all of the state schools to Trenton every Monday and Thursday to support the bill. On Monday, December 3, MSC was at Trenton. The entire coalition will be in Trenton on Thursday, Dec. 6. The Student Rights Coalition is hoping that the bill will be passed before February.

Opposition towards the bill has been met by college boards and administra­tors who represent the business and industry sector.

Suso said that such opposition exists because students may want to, for example, set up a public interest group conceived with environmental issues that may restrict business.

Ramapo College also opposes the bill. Susco feels this is due to a “misunder­standing” of the bill.

Suso feels that the bill is “asking for more than what students deserve…The model is the one that she has in mind, it should be the decision of the students as to how that money is spent and how much they have to spend.”

Suso also stated that the student legislators do not see any “big” flaws in the purpose of the bill but did mention that the bill can be amended anytime before it is passed.

Ex-cop says that drug legalization is essential

By Gall Pietranera
Correspondent

Murderers, thieves, pimps and drug dealers, all of whom ex-undercover police officer Kim Wozencraft had to befriend and interact with everyday. About 50 MSC students on Tuesday listened to Kim Wozencraft talk openly about her experiences as an undercover narcotics agent, a drug addict and a convict. Rust: Drugs and Undercover Cops is her first book, written in Lexington, Kentucky, where she served 13 months of her 18-month sentence.

After her lecture she was questioned by students who were particularly interested in her narcotics dealings and her time in prison. Wozencraft openly answered all questions and took a firm stance against present drug problems.

“I didn’t want to glorify drugs in my book,” she said. “The War on Drugs program is a fraud. It’s a convenient way to control people and get votes from scared parents. The only way to stop drugs is to take the profit out of it. Legalization would do this plus lessen the violence which has gotten out of control.”

Wozencraft also talked of her long struggle to put her life back together and to get over the emotional trauma and paranoia she carried with her and her father in the days on the streets. She finished her education at Columbia University and received a fellowship to do graduate work there.

“When writing has helped me to look inside myself and has helped me to distance myself from the past,” Wozencraft said. She began to write intensively in prison, and when she was released, she knew she wanted to do it for the rest of her life. “I write from the heart. I write about fear, confusion, love and terror.”

After a nine-month-long investigation which led to 200 criminal cases, Wozencraft and her partner were shot in the arms and were forced to return fire. After spending the night in a holding cell for protection, Wozencraft began writing, a favorite childhood pastime.

State colleges defend Student Rights Bill

By Donald DiFiorio
Correspondent

Promptness, confidence and pre­paredness were decided as the most important attributes to possess when tackling a job interview at the last meeting of the Administrative Management Society last Thursday at Kops Lounge in Russ Hall.

Guest speaker for the evening was Jodee Thompson, a graduate assistant for Career Services. Thompson led the group in a discussion on interviewing skills.

“To alleviate panic, you should prepare thoroughly for an interview,” Thompson said. Preparing means outlining a set of possible questions and role­playing an interview with someone.

Both being late for an interview and having too early were also considered bad moves. A job candidate should be about 10 or 15 minutes early, Thompson said.

Thompson went on to list things that employers look for. They included: intelligence, high energy level, good grades, accomplishments, personality, skills, dress and ability to work with a team.

Also in attendance were Prof. McCaul­ey and Prof. Flannagan who both offered insight into the discussion. When asked how to handle the question of salary, Flannagan said, “What am I going to be paid? Should I not be asked if it is not tactful…If you are asked that question, answer with a question, ‘What

Campus Police Report:

By William C. Hendrixson
Staff Writer

■ Stolen Cars:
- Between 4:15 p.m. on Nov. 27 and 8 a.m. on Nov. 28, a 1971 Datsun 240Z was stolen from lot 24. It was recovered on Nov. 30 in West New York.
- Between 9:45 p.m. on Dec. 2 and 11 a.m. on Dec. 4, a 1983 Pontiac Firebird was stolen from lot 21.
■ Vandalism:
- Nov. 27 between 10:45 and 11 a.m. a state van parked near the Blanton Hall loading dock had its rear window smashed.
- Between 11:10 p.m. on Nov. 29 and 2:30 p.m. on Dec. 1, a 1985 Mercury 4-door parked in lot 20 was scratched along the side and its antenna was broken.
■ Theft/Stolen Property:
- Between 9 p.m. on Dec. 2 and 7 a.m. on Dec. 3, a ground floor apartment in the Clove 100 building was broken into through the front window and two purses were stolen.
- Dec. 4 between 1-7 a.m., another ground floor apartment in the Clove 100 building was broken into while the residents were home sleeping. Nothing was taken and a VCR was taken.
- Dec. 4 around 1 p.m., a wallet was stolen from an unattended purse in the library.

Mishandling:
- Mahwah Police reported recently arresting a Montclair resident for burglary, theft and aggravated sexual contact at Ramapo College. According to Campus Police, the man is rumored to be a suspect in the recent burglaries in Bohn Hall.
- Dec. 4 at 1:30 a.m., a red 1984 Chevy Camaro was found in lot 30 still running. It is believed to be a stolen car, but if anyone has knowledge of the incident, they should contact Campus Police.
- The three Toyotas that were stolen a few weeks ago were located, two of which were found stripped in Newark. The third car was recovered. A Hillside Police Officer was investigating a rash of robberies in the area and Police surveil­lance arrested a suspect and found him to be in possession of the stolen auto.

There were 3,343 parking tickets issued during the month of November.

The Bursars Office announces that tuition bills for the Spring semester are due Dec. 21.

The English Department will be having their Annual Year-End Reception on Wednesday, Dec. 12 between 2-5 p.m. in Kops Lounge of Russ Hall. The winners of the Prizes in the Humanities writing competition will be announced at the event. A dance/drama presentation will be performed by the OSAU Drama Club, along with readings from playwright Eugene Redmond and Dr. Tess Onweume.

Anyone interested in performing volunteer work should contact the Volunteer Center of Greater Essex County at 622-3737. The center is a clearing house for volunteer organizations all over Essex County, and can match prospective volunteers' interests with organizations needing specific skills.

STAND (Students Toward a New Direction) meets every Wednesday from 1-2 p.m. in room 112 of the Student Center Annex.

The Union for Lesbian, Gay, and Bisexual Concerns meets every Monday at 3:30 p.m. in room 416 of the Student Center.

The Martial Arts Club will be holding membership meetings on Wednesdays and Fridays from 7-9 p.m. Call Ken Key at 893-5180 for more information.

The 8th Annual Shining Star Gift Drive, sponsored by the Newman Center, is going on now. For details contact the Newman Center, or call Alpha Phi Omega at 893-5154. There will also be a Mass and Tree Trimming dessert party on Thursday, Dec. 6 at 5 p.m. The Newman Community Center celebrates Mass on Sundays at 11 a.m. in Russ Hall, Kops Lounge, and at 7 p.m. in the Newman Center.

Lectures

"Designing Your First Trip to China," by Mohammad Firoz of Marketing, will take place Wednesday, Dec. 12, from 12:30 to 1:30 p.m. in room 124 of Russ Hall. Coffee and beverages will be provided. Sponsored by International Studies.

Seminars

Career Services will be sponsoring a seminar this Friday on "Interviewing" in room 417 of the Student Center.

Computer Training Workshops. There will be a wide variety of professional development courses from basic introductory level to advanced computer programs. Ongoing day and evening sessions, weekdays and Saturdays, at Data Quest in Fairfield, NJ. Fees: $150. Special rates for MSC-affiliated people. Sponsored by the Center for Continuing Education and Data Quest Systems Computer Training Center. Call Dr. Richard Taubald at 893-5154 or Data Quest at 882-8723.

Deadline for entries in the Campus Calendar is 3 p.m. every Monday in the News letter box. Events must be campus related.

POLICY ON FINAL EXAMINATIONS

1. All final examinations must be given during the regularly-scheduled examination period. The Schedule of Courses lists days and times of final examination for each class period.

2. No final examination may be given during the last week of classes before the examination period.

3. If no formal examination is scheduled, the class must meet for one hour during the scheduled final examination time for a class evaluation session. Thus, all classes are required to meet during the final examination period.

Changes in the Soviet Union and Eastern Europe

By Steve Sukala
Assignment Editor

Dr. Paul Pastor of the History Department spoke on "Changes in the Soviet Union and Eastern Europe" last Thursday afternoon in Kops Lounge of Russ Hall, sponsored by Phi Alpha Theta, the history honors fraternity.

Pastor said that when Gorbachev took control of the Soviet Union's Communist Party in 1985 after a power struggle, he realized the need for extensive changes. "Gorbachev has to destroy the party in order to bring about changes," Pastor said.

The East European countries had hoped for a new Marshall Plan from the United States and the Western European countries after the revolutionary changes in their countries, but "this year reality set in," Pastor said, citing the "inability of the West to respond to Eastern Europe's economic collapse."

"West Germans miscalculated the cost of supporting Eastern Europe," Pastor said.

He led into World War II with the devastation that fell to the Soviet Union when Hitler invaded. Pastor said that Stalin made a major miscalculation in the non-aggression pact which Germany and the Soviet Union had formed by thinking that he would not have to fight Germany.

Pastor said that the Soviet Union established communist control over the Eastern European countries for two reasons which were important to Stalin. The first was to create a defensive field around the Soviet Union so that no future wars would devastate the country like World War II had.

Second was the economic power which Stalin believed these countries would provide the Soviet Union. By 1953, after a rapid drive for industrialization, Pastor said that the labor stage of industrialization in the Soviet Union was over, and capital, which was unavailable to them, was needed.

Pastor said that with Kruschev's rise to power, demands for sovereignty in Eastern European countries were increasing. Several times in the 1950's and 60's, Soviet troops sent in to these countries to stop new governments which were straying from Soviet-style communism. Pastor cited the example of Czechoslovakia in 1968 which was invaded since a multi-party system could not be allowed in Eastern Europe.

He said that the communist system in Eastern Europe was collapsing by the end of the 1960's, and it was only saved by the oil crisis created by the Arab countries in the early 70's. He said this allowed the sale of the Soviet Union's oil resources for higher prices, which temporarily bolstered the economy.

In the 1980's, Eastern European countries had gathered a large debt due to irresponsible spending, largely on items and programs which were of temporary benefit only.

SGA News:

More Greeks denied due to restructuring

By Chris Marmo
Correspondent

A bill involving a controversial Class III charter for Sigma Tau Nu Sorority and emergency legislation dealing with a $500 donation by the SGA to the United Greek Coalition (UGC) to sponsor a party for sick children came up for debate at this week's meeting.

After an extensive debate, Sigma Tau Nu Sorority was denied a Class III charter. The Greek Council is currently being re-structured, and a bill is in legislation that would restrict the chartering of any new greek organization until the second week in Feb.

Some legislators argued on the legality of denying a charter on the basis of a bill that hasn't been passed yet. Others said that the charter was denied because it was simply a bad time to give any charters because the Greek Council is disorganized at this moment.

Sigma Tau Nu will come up for charter next semester and, according to a majority of legislators, have a good chance of it being approved.

After another long debate, the SGA passed a bill to donate $500 to the UGC to co-sponsor a party for sick children at St. Joseph Hospital in Paterson on Saturday, Dec. 15, at 10 a.m. The UGC can't handle such a financial burden on its own and the party is a little over one week away. The SGA saw it fit to make this bill into emergency legislation.

The $500 is to be used to set up the party and buy toys for the children. The party will run until 1 p.m.

A bill involving SGA legislative appropriation was also passed this week.

Welcome to our Walls!

A Class IV of SGA
Ask Mr. BUYBACK

Q. How does the College Store decide if they want my text?
A. The first question the bookstore asks is whether the book has been ordered for the next semester. If yes, then we examine how many copies are needed versus how many we have on hand. If additional copies are needed we place the title on our buyback list.

Q. Do I get more money selling my books at the College Store as opposed to Blanton Hall?
A. No, the money you receive will be exactly the same. We offer two locations to make it easier and less time consuming for you to sell your books.

Q. Will the College Store buy back workbooks, study guides and paperbacks?
A. Yes. Our list is inclusive of all types of books used on campus. There are some texts, however, that are designed for one-time use and cannot be resold.

Q. How much can I sell my textbooks for?
A. The College Store will pay 50% of the new book price on the current edition textbooks if a) we have received a book order from the faculty for your book for the upcoming semester, and b) if we need your books to meet course enrollment figures. (Most current edition textbooks NOT being used for the upcoming semester will be purchased by a wholesale company at between 14-20% of list price. These are not resold on campus).

Q. Can the books that I have highlighted be resold?
A. Generally texts which have been highlighted can be resold to the store for 50% or at wholesale, assuming they have market value. Workbooks and study guides meet different guidelines. If the store requires the book, we will be more tolerant of the amount of writing, etc. Wholesalers require this type of book be almost mark-free.

Q. How often do new editions of textbooks come out?
A. On the average new editions are released every 3 to 5 years in order to keep current with current events and information. When a new edition is released the old edition has no market value to either the bookstore or the wholesaler.

Q. Why is wholesale value so low on paperbacks?
A. First of all, the value of a book is determined based on supply and demand. Secondly, the way paperbacks are constructed places the wholesaler at greater risk that the book may be destroyed in shipping or in handling at the warehouse. Most paperbacks were made to be used by one person.

Q. How come my friend got half price on his books and I only got wholesale?
A. Unfortunately, the College Store can only pay 50% up to the quantity of books needed for the upcoming semester. Once the store has reached the quantity needed, we then pay wholesale price, if any, for additional texts. Texts purchased wholesale are sent off campus at the end of each buyback.

BUYBACK Bonus Bucks:
Every time you bring in your textbooks for sale you are eligible to earn Bonus Bucks. You will receive one bonus buck for every fifteen dollars you get for your textbooks. For example, if you sell your books for $32, you will also receive 2 Bonus Bucks.

Bonus Bucks can be used as cash to make purchases in the College Store from December 10, 1990 to December 22, 1990. (Certain restrictions apply.)
Bye."

The students feel that someone who works in the building had some part in the burglaries. "It's got to be an inside job," said Bohn resident Chris Pontrelli. "It's scary," Hutchinson said. "They have the keys to every room."

Redmon, who worked the last shift before leaving for the holiday, said at 6 p.m. everyone was out of the building or down in the lounge waiting for their ride, meanwhile the R.A.'s and assistants did a floor sweep. After this, Cantrell did a sweep at 10 p.m. When she left, Campus Police did a sweep of the entire building.

"The building was closed," Redmon said. "Why are they (maintenance) there if we are not? When doors were chained they should not have been unchained until Sunday."

The students feel that no one should be in their rooms when they are not present. "Our problems are not that important for them to come when we are not here," Orth said. "There is no reason, if they are on duty from 7 a.m. to 3:30 p.m., for them to be here when no one else is here. Besides, during those hours someone will probably be home. They just don't need a key."

Another Bohn resident said, "They shouldn't be in the building. They have free access to roam. I never thought it was right for repairmen to make repairs when we're not present. Maintenance holds on to the keys all day and they could easily make copies on their lunch break. These are not forced entries, they are key-ins."

Coleman-Carter is advising students that if they wish to be home for repairs, just request it. "In wake of everything, if students are uncomfortable with the policy, they can indicate it on their Work Order Form. However, it may cause delays in things being repaired."

Students can file what was missing on their parents Home Ownership Insurance Policy, Coleman-Carter said. However, residents are upset at the idea of their parents paying for the incident. "It aggravates me that home ownership insurance covers anything over $250, but the college says we're not getting anything back because we weren't locked up properly," Redmon said.

A Bohn resident said, "What's the purpose of an insurance policy? Our belongings should be secure. And besides, they took so much stuff that on our parents insurance policy we will only receive a percentage." Another said, "Why should we pay for it twice."

With Christmas coming, students are afraid as to what might happen. As one student put it, "Over Christmas break are they going to bring an 18-foot moving truck and just back the whole place out?" Consequently, Coleman-Carter urges students to take everything with them. "We are encouraging students to take all valuables home over Christmas break," she said.

"Reimbursement and compensation will be reviewed following the results of the investigation. We're committed to solving this and trying to ascertain what persons are responsible. It will take time," said Coleman-Carter.

If you have any information that might help, please contact campus police at 893-5222, or the office of Coleman-Carter at 893-5252.

Bill cont. from p. 1

Mecca said that the schools receiving aid under the second measure include Camden County College, Glassboro State College, Trenton State College, Salem Community College, and Mercer County Community College.

The measure sponsored by Assemblyman Kenny (A-4077), allocates $35,150,000 in bond-issue funds to the New Jersey Commission on Science and Technology to build and equip four advanced technology centers in the state.

Kenny reports that the centers to be funded are an agricultural molecular biology center at Cook College, the Agricultural Experiment Station at Centerton of Rutgers, a phototonics and opto-electronic center at Princeton University, and a Center for Surface Engineered Materials sponsored by the Consortium for Surface Processing at the Stevens Institute of Technology.

"With continued support, New Jersey's technology centers may gain the national recognition that places such as Research Triangle in North Carolina enjoy," said Kenny.

"New buildings, computer facilities, and well-kept libraries are essential elements of competitive colleges," said Pascarelli. "Without them, New Jersey colleges are put at a disadvantage."

"The bond issue was approved under the philosophy that quality education leads to quality jobs and a competitive edge for New Jersey," said Mecca. "Our legislation follows through on that idea."

The measures now move to the Senate for further consideration.

The vote for each bill was as follows: A-3943 71 to 2, A-3944 70 to 2, and A-4077 69 to 1.

The Montclarion Wants You!

For Spring 1991

Able bodies needed for the following: Treasurer, Photo Editor

Ad salesperson (Commission), Production Editor

Looking back

by Chris Panelpinto

Ten years ago this week, students heard all about messages, both subliminal and not, and while five years ago this week, teachers were sending out a message of their own...

Dec. 4, 1988

"AFT wins vote; talks resume"

The American Federation of Teachers (AFT) won the right to act as the collective bargaining agent for MSC faculty during a two-day voting session. The NJ Education Association had challenged the AFT for control, but lost miserably. Faculty felt the AFT better represented not only their needs at the bargaining table, but also offered programs, workshops, and seminars.

"Lecture reveals media tricks"

Dr. Wilson Bryan Key, a former North Western Ontario University professor and author of Subliminal Seduction, Sexploitation, and Clamplate Orgy, gave a lecture on media manipulation—inserting subliminal details into certain ads. He showed several examples, including an ad for Johnny Walker Red which consisted only of a glass filled with ice cubes; Key later pointed out the images hidden in the glass—skulls, distorted faces, and ravens—are seen by alcoholics undergoing withdrawal and appeal to a "death wish" of the subconscious.

Dec. 5, 1985

"Assessment exam is proposed alternative to 'gate-way' test"

The controversy continued as to whether undergraduates would be forced to take the so-called "gate-way" test prior to their junior year. The proposed assessment exam would evaluate teaching skills and curriculum rather than determine whether or not students could proceed into their junior year, and was apparently favored by the faculty.

2/15: MSC’s Cotillion at The Cameo

Philanthropic

12/5: Theta Kappa Chi’s sixth annual toy drive in the Student Center from 9:00-2:00 for underprivileged children. Also on 12/11 and 12/13.
Delta Chi and Sigma Delta Tau go to St. Rocco’s Child Care Center
12/8: Phi Sigma Sigma’s holiday gift wrapping in Willowbrook Mall for the Arthritis foundation
12/18: End of Sigma Delta Tau and Delta Phi Epsilon’s canned food, toy, and clothing drive

Fundraisers

-Theta Kappa Chi’s Pretty Woman/Total Recall raffle was won by Greta Sturm and Mike Soyka. All proceeds went to underprivileged children
-Phi Sigma Sigma’s Macy’s Gift Certificate raffle in January
12/5: Theta Kappa Chi’s Christmas candy cane-gram. Send a message to a friend or lover. Also on 12/11 and 12/13.
12/6: Zeta Beta Tau’s fundraiser—go to their table for details
12/10: End of Sigma Delta Tau’s $200 gift certificate raffle

Student comedian, 19, hosts CLUB’s Christmas Comedy Show

By Valerie Kalfn

Outlook Editor

Nineteen-year-old Rob Magnotti has appeared at several local comedy clubs. "Kind of like deja vu," he muses. "I mean, the person I was looking for in ’88 turns up at the college. The whole thing was really incredible. Explosive. Everything took off from there. We’ve been working with each other ever since." Magnotti is currently undeclared in his major, although he says he is "leaning towards" communications. He eventually wants to break into TV and movies, and sees comedy as his life-long career.

"I love doing it," he says. "I couldn’t take other jobs. I’ve been a busboy and a movie usher. I’ve valet-parked cars. This is what I’ve always wanted to do."

While Top Drawer Entertainment definitely knows who he is when he calls now, Magnotti still has a way to go before he’s a household name. Maybe one day, though, he’ll be billed alongside his idol.

"I realized I can’t be him," he grins. "There’s only one Eddie Murphy."
### SUMMER SESSIONS 1991

**MONTCLAIR STATE COLLEGE STUDENTS: AVOID DELAY! PICK UP YOUR SUMMER SESSION CATALOG DURING LATE MARCH. NO APPLICATION FOR ADVISORING IS REQUIRED FOR MSC STUDENTS.**

Registration opportunities available at Montclair State College for students from other regionally accredited colleges and universities:

**ADVANCED REGISTRATION FOR ALL SESSIONS**

Additional Registration Opportunities for individuals Who Do Not Register Between April 9-25

Wednesday, May 22, 2:00-6:30 PM, for Pre-Session courses in any other session that begin after May 22

Wednesday, June 5, 2:00-6:30 PM, for Eight-Week Session and Saturday courses AND for courses in any other session that begin after June 5

| Session and Saturday courses | Additional Registration Opportunities for Individuals college or university to begin their studies in the College students and Visiting Students from other institutions to start their studies. For more information contact the Office of Academic Admissions. Additional registrations are accepted until 30 days prior to the start of the session. **QTmR**4C NiTl| SI0N IS REQUIRED F0R **Montclair State College** Wednesday, July 31, 2:00-4:00 PM, for Post-Summer Session and Saturday courses AND for courses in any other session that begin after July 31

**VISITING STUDENTS DO NOT fill an application for **Admissions to **Montclair State College but DO need written permission from their respective colleges and universities to register for summer courses.**

Students accepted by a regionally accredited college or university to begin their studies in the 1991 fall semester follow Visiting Student registration procedures. Completing registration requires schedule information published in the 1991 Summer Sessions Catalog available in late March.

**MONTCLAIR STATE**
Courses meet Monday–Thursday evenings between 5/28–8/22.

Pre-Semester
Courses meet Monday–Thursday evenings between 5/28–6/1.

The Rat: MSC’s sports bar

On Monday night the New York Giants played the San Francisco 49ers, and just about every student at MSC was planted in front of their TV sets anxiously awaiting the outcome. The Student Intramural Leisure Council opened the Rathskeller so students could come and watch the game on the big screen television and eat pizza.

The event was not greatly successful because of the fact that the game was on regular TV. But what would happen if this idea was expanded, featuring sporting events only offered on cable?

If the Rathskeller purchased a sattelite dish and played all the cable sporting events, the cable starved campus community would flock to the Rat like moths to the flame.

There is no way for the many underaged students at MSC to watch local teams like the Knicks and Devils, as well as all the other sports alternatives available upon request, in Room 113 of the Student Center Annex, or by calling the business department at (901) 885-5557. The views expressed in the editorial pages, with the exception of the main editorial, do not necessarily reflect the opinion of The Montclarion.

Student Voice

Post-graduates overcharged for courses

I am writing this letter to inform MSC of an unfair policy concerning post-Baccalaureate students and tuition. I am a post B.A. student with an undergraduate degree in Business Administration (MSC, 1984).

I went back to school for teacher certification in Physical Education in January of 1989. I did not go back for a Masters degree, but for a second degree so that I become a teacher.

I presently expect to graduate in May 1991. I went back to MSC because I am honestly hoping to hear from you soon.

I hope to hear from you personally, Dr. Reid, because this affects many students at MSC. I do not want to hear that this is policy and that’s that. Why is this policy if it is unfair to post B.A. students? Why should I be penalized for seeking to become a teacher in N.J.? I have reassembled the policy in the graduate and undergraduate catalogs and received answers from the registrar, business office, and graduate advisor that this is policy.

Only you can help to change this unfair practice. Remember, if you truly believe it is hurting students and do not act, you are responsible for your non-action. Not only will I and other post B.A. students remember, but it will continue to affect students to come in the future.

I write this to you sincerely and honestly hoping to hear from you soon.
**Better buys on books**

Are you tired of constantly getting ripped off by the student Bookstore? A store that continuously sells the books at an outrageous price, and buys them back at a laughable price?

Because the students are constantly getting ripped-off, the brothers of Alpha Phi Omega, have formed a bookstore. This store is not for profit, it will sell books right away, but rather we can give you more money when we sell the books. You will get 50% of the ticked price, which is still lower than the student bookstore price. As we sell this book, you, the student, will get 50% of this price.

All a person has to do to find out if we have the book is first find the title in the Bookstore, then come upstairs to the fourth floor of th Student Center, room 406 and check to see if we have the book. The Alpha Phi Omega Office is right in front of you as you exit the elevator.

-Jessica Kane
Psychology/Senior

**Legislator replies**

In reply to the less than friendly editorial written about our SGA President, Anthony Susco:

Audit, first, to clear up a couple of points which I feel were wrongly stated: Mr. Susco was at the “gathering,” as indeed were a number of other SGA members, including myself. That much is true. Phaedra, in her letter, however, added that the numbers attending the gathering were excessive. Excessive is a relative term. I know for a fact that including myself there were no more than twelve people there. So that leaves eight guests...some party?

Second, the presence of alcohol is not illegal at Clove Road. We know that because if it were, we wouldn’t currently be trying to fix its ban-right? As Mr. Susco was driving that car, I know that he didn’t consume more than a couple of beers—three glasses at the most. Concerning the “fight”: What Phaedra Bor was mentioned was that which occurred was initiated by a complete “unknown”, i.e. not an MSC student, who barged into the apartment and deliberately started a fight. There was no offensive action taken by anyone in the room. I was there. I saw it.

Mr. Tony Susco is a student. Don’t be fooled. He’s a student just like us! He took the position of President of the SGA because he believed that he could do a good job.

Considering that he spends over 60 hours at this school each week and is constantly and energetically involved in student affairs, couldn’t we assume that he is in fact doing a good job? But, at the end of the day, he is human, a student, and he has every right to go to see some friends, relax, and have a couple of beers.

If people spent more time looking at the relevant, important aspects of someone in a position of leadership and less time delving into the MUCH less important details, we’d all be better off. If Phaedra had a problem with Tony’s action, wouldn’t it have sustained good relations between the groups involved? If she had come to him directly instead of splashing it all over the newspaper, like some trashy magazine?

First, I’d like to say that the prerequisite for SGA President is not perfection.

-Joanne Leonard
Junior/English

**Thanks for the support**

This is to all the people out there who feel that there is no good left in this world.

On October 13, Saturday, Homecoming, an accident happened.

On the Delta Chi/Iota Chi Homecoming float, a student pretending to be a director was sitting in a director’s chair. The driver popped the clutch, and he fell off, head first, onto the ground. His head was bleeding, and he lay there unconscious for 30 (plus) seconds.

Immediately (and I stress immediately) a student named Steve from Alpha Sigma Tau, and one of his brothers in Delta Chi, Ross, rushed to his aide. Steve held his head still, and Ross held his hand. To everyone’s delight, he finally regained consciousness.

Everyone was concerned. Very concerned. Cops and an ambulance came, and he was strapped to a body board, with a splint holding his head still, and carried off to a hospital. Right off the bat, the student knew of the great concern everyone had for him, even the ambulance women.

He ended up with a scratched and bruised left shoulder, a fractured cervical vertebrae, and a highly battered ego.

Very soon after, he got cards from everyone (well, almost everyone). Everyone cared, sincerely, and he knew it and appreciated it. He sat reading all the cards, and occasionally cried, but he was so overwhelmed with the feelings.

Phaedra didn’t even know were sending him cards, balloons, poems, the works.

The student was me, Gavino Siciliano.

The Montclairian/December 6, 1990 18

-Gavino Siciliano
Junior/History

**Clove residents feel harassment**

Let me tell you a little story. Spring of 1990 was a pretty tough semester. Not in the classroom, but in my very own Clove apartment.

That was last but last semester - what a coincidence! (one in a string of many) Briefly, we happened to have a problem roommate. Numerous things were stolen from us and were found in her possession. We immediately appealed to a Clove authority figure to have this problem roommate removed. Nothing was done for us. Ha, what else is new?

This problem roommate proceeded to attack me shortly after returning from a bar one leisurely evening. This attack was witnessed by the other roommates. We again appealed to the same authority figure who will remain nameless.

We were told point blank “How do I know you’re not lying just to set her up?” Regardless of the marks on my neck, thanks for the vote of confidence.

Finally, months after the original appeal, the problem roommate was removed (only after several interventions from an angry parent to more prominent MSC authority figures).

It would be a crime if I neglected to mention that the roommate was removed, not from Clove Road Apts., but merely to another apartment nearby. I consider breaking the law, by the way)

Suppose the violations she committed (all merely to another apartment nearby. I consider breaking the law, by the way)

She was not a threat to the community, nor was she! I guess not, since we were told by this same authority figure that if she had her way, the assaulted roommate and the two witnesses would be moved out, but since there were not three available spaces, she would be forced to move the poor problem roommate into the one available space. Thank you very much!

Somehow, we the innocent came out looking like the bad guys in the eyes of the Clove authorities. The assaulting roommate in the eyes of the Little Falls Court was found guilty, placed on a one-year suspended jail sentence, and slapped with a fine.

The incident I have just described strongly indicated that this authority figure was not properly doing her job.

Incident dismissed? We couldn’t be so lucky. As a result, it appears that we are disliked by a certain authority figure. Why? Merely because we pleaded to maintain what few rights we have?

Kick us while we’re down, why don’t you. Well, that’s exactly what happened. I hate to rehash old news, but it’s relevant, so please bear with me. When we returned this semester, we were less than ecstatic to find our apartment the only apartment that was unsanitary and “dangerous”, and that it was completely uninhabitable.

Another coincidence? Hmmm...while the 4 of us were crammed into one dorm room on a male wing for one solid month (at least) while virtually nothing was done, we consistently followed up on our problem, we made sure that this authority figure was fully aware of the situation of our apartment from the first week of school and several times after that.

Obviously, nothing was done about it. Aaah, just another coincidence I suppose.

It was not until an editorial was printed in the Montclarion that something was finally done. Upon our moving back into the apartment, we were promptly written up for a violation we did not commit. Consequently, my sister and I and 1 to be removed from Clove Road Apts. “pending available space” in the dorms.

It almost looks as if we’ve been set up. Government comes to mind. We have appealed twice, and have been denied via ambiguous letters which seem to contradict themselves. Coincidence?... We are aware of numerous Clove residents who have been in violation of far more serious policies and have not been sanctioned in any way similar to ours. This includes our former problem roommate. I find it amazing that someone who has endangered the property and physical well-being of other students is permitted to reside among them while others are reprimanded for simply asking to be treated in accordance with standard practice.

It is a very sad commentary on the Clove management that everything is done, and students who pay rent and are disliked by the “landlord” are denied the “favoritism” shelters those who have. It almost looks as if we’ve been set up. It almost looks as if we’ve been set up.

Concerning the “fight”: What Phaedra Bor failed to mention was that which occurred was initiated by a complete “unknown”, i.e. not an MSC student, who barged into the apartment and deliberately started a fight. There was no offensive action taken by anyone in the room. I was there. I saw it.

The student was me, Gavino Siciliano. Don’t be fooled. He’s a student just like us! He took the position of President of the SGA because he believed that he could do a good job.

Incidentally, the broken window we’ve fixed. I don’t suppose it ever will.

Life Handbook “We’re here to help you.”

To look up — fairness, honesty, and above all, a concern for others.

Favoritism shelters those who have. The relevant, important aspects of students who have done nothing wrong should also be the same for everyone, don’t you think? Naah, there’s nothing wrong with false reports, or discrimination, or personal vendetta’s affecting students who have done nothing wrong while favoritism shelters those who have. It almost looks as if we’ve been set up. It almost looks as if we’ve been set up.

Friday 8:30 - 4:30
It seems that for the last two years every band in the world has been making either a comeback or having a reunion, from the Rolling Stones and The Who to a re-energized Aerosmith. And then there are the bands that never went away. Take, oh, AC/DC for instance. These guys have been around for the better part of 15 years and still have more raw energy and talent that many bands never had and never will (ie. M.C. Hammer, Rick Astley, etc.). The lineup has changed over the years, but the constant factor has been Angus Young, the lead guitarist. He may be pushing 40, but the raw energy and excitement, you can’t top him.

AC/DC came to the Arena last month for one of THE best shows I have ever seen. They opened up the show, predictably, with “Thunderstruck,” which was preceded by some powerful-sounding thunder and lightning. As far as I was concerned, AC/DC never stopped the thunder.

With only one or two exceptions, the show was one great song after another, and while it did lack a lot of their older songs, going back to the beginning and working through their newer stuff.

Chris Slade proved to be a great addition on drums after I heard him live. Formerly of The Firm with Jimmy Page, he gives the rhythm department an added edge which may have been a little lacking when Simon Wright was on drums.

AC/DC only did three songs off the Razor's Edge, which was good because I hate that album. If I wanted to hear it, I would have just turned on my CD player.

Don’t get me wrong, I really do like the material, but the only thing like classic pre-1980 AC/DC, before Bon Scott, the former lead singer, drank himself to death. Brian Johnson may have a powerful voice and a strong stage presence, but he lacks some of the darker qualities in Scott’s voice essential to older AC/DC.

The other tracks off the new album they played were “The Razor’s Edge” and “Moneymakers,” at which point a whole bunch of paper (not money, you fool, there would have been a riot) came down on the crowd seated on the floor. AC/DC played some of their regulars like “You shook Me All Night Long,” and “Back in Black,” as well as “Hell's Bells.” During that song, a really BIG bell came down from the scaffolding above the center of the crowd, which was cool if nothing else, even though the chiming didn’t exactly coincide with the guys swinging the bell’s clapper with a rope. Oh well.

Oh, there were a few other really neat special effects at the show, but they only popped up here and there for certain songs. The stage was mostly empty, except for a circular platform, which was jacked up a couple of feet, accompanied by a mellow rhythm from the rest of the band. Suddenly, Angus appeared on the circular platform, which was locked about ten feet off the ground, and he did his usual frantic guitar solo, which was really cool even though I had heard it before.

He may not always be totally original, but he makes up for it in energy. I thought he would have had a heart attack by now at the pace he keeps.

For now the disappointments: Their live version of “The Jack” was terrible, and their hit single “She’s the One” is NOT a hit single. “While the Lotta Rosie,” “Shake Your Foundations” or “Big Balls,” some essential AC/DC songs.

Johnson also messed up the intro to “ TNT.” Some people just can’t ‘oy” properly. You’ll understand that if you’ve heard the song.

Starting with '74 Jailbreak, their first U.S. release, AC/DC has been putting out one album after another, based on a formula that is still working. They are very serious about their music in that they have one hell of a great time doing it, which shows in their live appearances. Many bands have been around a while do not put on long shows, but they performed a solid two hour set.

Anybody who knows what AC/DC is really about knows that they aren’t a trash metal band that writes about death, war, or other fun things, or a lame pop metal band that writes a lot of cute love songs about getting laid. Their favorite subjects are women, booze, and rock and roll. That’s all they write about. They aren’t poets, but it sure sounds good coming out of the radio.

The only things which really weren’t cool about the show were the asshole who was throwing firecrackers on the crowd from the upper decks, and the ambulances I saw that kept leaving one of the arena’s gates throughout the show. How about a little violence with your rock and roll.

Two Snap Up Soho

By Laurie Jeffers and Lisa Mieczkowski Staff Writers

**** Let’s drive to California with this tape only.  
**** We’d drop a date with Vince Neil for this.  
**** Mediocre.  
**** Up there with Milli Vanilli.  
**** Crap. Toss it.

Soho—"Goddess" OK! We got our love beads, our platform shoes, our tie-dyes, and we straightened our hair. We prepared ourselves for yet another version of the ever-so-popular B-52’s/Dee Lite 60’s style of music. BUT, to our suprise, it is NOT a B-52’s or Dee Lite sound at all. Also, to our surprise, we found we listened to the entire tape continuously, and not just the same one or two choice songs over and over again.

There are a couple of mellow songs on this tape, but they are mostly upbeat. You can definitely dance to this music, or at least engage in one of those romantic cheek-to-cheek jobs. It’s hard to say who Soho sounds like, because they are reminiscent of many others.

Cont. on 20

Stephen King's Miserable Movie

By Anthony Minutella Staff Writer

“Miserly” is an absolutely spellbinding suspense thriller that literally had audience members screaming in their seats. Based on Stephen King’s enormously entertaining 1987 bestseller, the film is a grueling but engrossing blend of character study, humor and Hitchcock-style suspense.

The clever and involving story centers on Paul Sheldon (James Caan), a famous romance novelist who has just completed his last novel in a series featuring the beloved and popular character Misery Chastain. To celebrate, he has his ritual smoke and glass of wine, then takes a drive to his favorite isolated lodge in the Colorado wilderness. Out of nowhere a blizzard suddenly appears and Paul gets off the deep end. Her care turns into torture as she holds Paul hostage. She forces him to bum the manuscript he has just completed and create an all-new Misery novel just for her (Misery in Annie’s heroine).

20 years later, the Travelling Ones gave it another shot. “Traveling Wilbury’s Vol. 3” was released. Some members of the Wilburys debated whether or not to continue without the voice and guitar of Lefty Orbinson, who died earlier this year. The happy, jammin’ feeling is still there, but the loss of Orbinson shows. The only way to describe the feeling is a group of people who knows that a dear friend will never be coming back. The music is still there, the fun is there, but the magic that Orbinson put into the band is no longer there.

The biggest problem we faced as a group was if we were going to replace Lefty,” said Muddy (Petty). “Later on, we decided that we wouldn’t. We’ll travel without him, but there’s no way that we could ever replace him.

Wilbury’s Vol. 3 still has the good ol’ boy feeling and the album has some really cool tunes on it. “She’s My Baby” is a great opener, and the end track, “Wilbury Twist” is a rocking song that reminds one of the oldies era. It’s not as good as Vol. 1, but it is still a nice addition to anyone’s record collection.

CAPSULATE MOVIE REVIEWS

By Amy Caradine
Staff Writer

$ the movie was poor.
$$ it was a good movie.
$$$$ it was an outrageously-incredible-must-see movie.

Three Men and a Little Lady
Starring Tom Selleck, Steve Guttenberg, Ted Danson and Nancy Travis. The sequel to Three Men and a Baby manages to keep its freshness primarily due to a superb little actress, Robin Weisman, who portrays Mary, the little lady. The five, child with mother and three fathers, have lived together happily for five years. Then, mother, Travis, decides she wants marriage. The rest of the movie deals with the impending nuptials. Guttenberg, Danson and Selleck are a bit on the overkill as the fathers. Overall, a light movie that keeps pace with its predecessor. $$$$

White Palace
Starring Susan Sarandon and James Spader. A tale of a fortyish burger waitress who picks up a twentyish businessman at a bar. A depressing movie with credible actors yet a rather mundane storyline. Realistic portrayal of a white collar man coming to terms with his feelings for a (greasy) blue collar woman. The only thing this movie has going for it is what is the center of their relationship - sex. $$

Video
Always
Starring Richard Dreyfuss, Holly Hunter and John Goodman. A pilot, Dreyfuss, dies and leaves his girl, Hunter, behind. But he can't seem to let her let him go and get on with the rest of her life. A touching love story.

Immediate Family
Starring Glen Close, James Woods and Mary Stuart Masterson. Close and Woods can't conceive and choose open adoption. Masterson is the natural mother. A sad realistic movie.

Harlem Nights
Starring Eddie Murphy and Richard Pryor. It's 1938 and Murphy and Pryor are running an "underground" nightclub. They run into some trouble with the competition. A funny movie if seen with a lot of friends (Don't see it alone, you'll be really bored!)

Loverboy
Starring Patrick Dempsey and Kate Jackson. Dempsey tries to earn money in one of the oldest professions. Jackson is his understanding and softhearted mother. A bit unexciting and predictable.

By George Olschewski

Monday night, the world was tuned into WABC for the Big One. The Game. The Giants vs. San Francisco. Titan vs. tian. Of course, we all know that the boys in blue lost. But guaranteed, the Neilsens for Monday Night Football were the highest in a long time. What's odd is that non-football fans were watching this game. People who couldn't give two shits about football in the beginning of the season were watching with interest.

I'm guilty of that. My main sports are lacrosse and baseball. When September rolls around and pre-season play begins, I couldn't care less if everything pro football fell into a fiery chasm to a gruesome death. About midway into the season, I watch a few games. Not a lot, mind you, but maybe one or two. By the time Super Bowl Sunday rolls around, I've got a brew in my hand, hot dog in my mouth, other assorted munchies in my lap, and I'm grunting and screaming into the TV like any other die-hard football fan.

This never happens in baseball, with the exception of maybe Game Six of the 1986 World Series. Basketball? What, are you kidding me? The best thing to happen to the sport was the Seton Hall/Michigan game. Hockey? Ahem... Well, let's just say I don't want to be attacked by an overzealous Devil's or Rangers fan in the pit when I go to my van (hockey fans will recognize the adage of "I went to a fight and a hockey game broke out.").

This phenomenon is only indigenous to football. Full contact chess, nude Siberian snow wrestling, over-exaggerated acting (oops, I meant pro wrestling), none of these have the same overwhelming effect that football has. Football is one of the very few sports that, in the course of a game, you have the tendency to severely injure the person sitting next to you at least 187.93 times during the game. Monday night, I regret to say, I lost my friend Tom when I threw him into the TV in an attempt to assassinate Joe Montana. Oh well. I tried, Giants fans.

Maybe we need a new sport. Football may be too... well, football. Let's recruit some of the meanest, dirtiest, nastiest NFL players and toss them into American Gladiators. Emotions run high, it's exciting, and it combines several sports- football, hockey, pro wrestling, and weightlifting. Besides, they have babes in the game, Football only has cheerleaders. Vive la difference!

Four points...four lousy points...
As was noted last week, the greatest fun is had at the expense of others. This might not seem fair, but it's just the way it is. A good-natured, but vile, practical joke is in reality the highest form of humor. And friends make the best targets. Here are some of my favorites:

1) "The old removing the mouthpiece from the telephone routine." There are still people who don't realize that you can still take apart a telephone receiver, remove some parts and have it still function— to a degree. Take advantage of them. While they are in the bathroom or setting up the VCR, do your dirty work. Pocket the mouthpiece, try not to lose it since, if it's a leased phone, it belongs to AT&T, and try to keep a straight face. With any luck, your friend will receive incoming calls while you're still there.

That's when the fun starts! Hold back those giggles when relatives phone to report a death in the family, and your friend is unable to respond. Watch their features twist as they shout even more loudly, all to no avail. See them squirm as they're forced to listen to telephone marketers run through their entire routine without being able to tell them to shove it. Watch them cry as their boyfriend/girlfriend ends their relation­ship in a furious tirade because they think they're being ignored. On your way out, casually hand the mouthpiece back (they might not realize what it is) and run like hell.

2) "The eternally full gas tank." This one might cost a few dollars, but in laughs per gallon, it more than pays for itself. For this to work, three conditions must be met. You must have access to your friend's car late at night. It must be parked in an area without nosy neighbors. And it cannot have a locking gas cap. Then, every night for about two weeks, sneak up to your friend's car late at night and top off the gas tank. It may take awhile for them to notice, but when they do, the first assumption is that the gas gauge is broken. Upon pulling into a service station, they'll discover it is not. You'll hear from them shortly after that. In fact, your entire circle of friends will probably soon be getting calls about this miracle car that burns no gas. It might be wise to confess before they go so far as calling the local newspaper. Don't try this if they're away on vacation. It just won't work.

3) "The Nintendo-master scam." This one requires a few high-priced items which your parents have probably bought for you already—a Nintendo system, a VCR and a television. The set-up is as follows: Plug the Duck Hunt cartridge into the system. Situate yourself close enough to the set that you can't possibly miss. Set the VCR to record. Play several ridiculously long games. Save the tape. The next time one of your friends is stopping over, set up the VCR, game system and television so that the taped game is in progress. Keep your remote control handy, but hidden. Pretend to be playing. Shoot with your eyes closed, behind your back with a hand mirror, between your legs, etc. Time yourself to end play with the end of that game on the tape. Subtly pause the tape, and switch over to the real thing. Pass your friend the gun, and watch him make a total fool of himself trying to mimic your outstanding ability. I don't advise letting your friend in on this particular charade, since the money making possibilities are endless.

Robert E. DelGuidice and Antoinette Mangano in Clytemnaestra.

Dance, dialogue, video, original music, a computer, masks and a Greek chorus are the elements of MSC's upcoming production of "Clytemnaestra," a theat­er, dance, and video event based upon the classic drama by Aeschylus. Perform­ances will take place in the Experimental Theatre on the MSC campus from Dec. 13 through Dec. 15. Curtain times for the performances are 8 p.m. General admission tickets are $2 and are available at the door the evening of each perfor­mance. Further information may be obtained by calling the Box Office at (201)893-5112.

Two Snaps Up

Soho

Cont. from 17

They should be complemented on their excellent use of harmony in a different way. The music itself is totally unique.

We would definitely suggest buying this tape. This music will fill all clubs because it’s fun. The single “Hippychick” doesn’t do the album justice. To fully appreciate Soho, you have to listen to the entire tape. Every song is different from the last. In some songs, the lyrics do get repetitive, but the music keeps you going.

This tape has something for everyone. “Nuthin on my mind (except my new love)”, and “Out of my mind” are perfect for those in love. For those out of love or searching, there is “Another year” and “God’s little joke” (We can think of a couple of God’s little jokes ourselves...). For those simply wanting to dance, then “Goddess” is the song for you.

This tape is innovative and different. It’s new, but has an excellent beat. The lyrics scream “Soho!” and to us Soho speaks reality. Get the tape to understand what we mean.****

Stephen King’s

Miserable Movie

Cont. from 17

What follows is an incredibly tense-jangling cat-and-mouse game in which Paul and Annie desperately try to outsmart each other. As directed by Rob (“When Harry Met Sally...”) Reiner, “Misery” captures the audience’s emotions by forcing us to relate to the characters and their struggle to settle their destinies. The ending is the familiar fight-to-the-finish, “Fatal Attraction”-style conclusion, but it still leaves you effectively exhilarated and white-knuckled.

The film version (unlike the book) has flaws, although they’re minor ones. The title “Misery” is ironic in that it not only deals with a character’s name or Paul’s primary emotion, but it also defines the underlying sadness in Annie’s life.

Her entire world consists of being alone and fantasizing a better life for herself by escaping into Paul’s novels. Unfortunately, there is only one scene in the whole movie in which we genuinely care for Annie and come to understand the emptiness in her life. Otherwise, she’s used strictly as a sinister presence (which occasionally can be menacing, funny and compassionate)—at least not until she becomes a loving woman. By the end, we not only cheer but cringe at Annie’s demise because Bates has injected warmth as well as menace to Annie. Together, Caan and Bates make “Misery” a wonderfully exciting experience.

The Posse beats up Ultra Violent

Cohesion's championship. Members of the Co-Recing champion student Trainers on the first place seeding in the upcoming championship team include Melanie Sunday to capture the Co-Rec volleyball flawless execution was instrumental in the Zoo on virtually every point, PRP's game 15-12. Despite relentless hustle by the first game and won 15-10.

Luna, Carl Buffalino, Jeff Lawton, John Dawn Reynolds, Noelle Stewart, John Dorr, Chris Cooper, JoAnne Mills, deficit, the Zoo was able to climb back as they jumped out to an early answered back to winning the second contest as they capitalized momentum continued to swing in PRP's.

In the third and decisive contest, the momentum continued to swing in PRP's favor as they jumped out to an early 9-1 lead. Despite the early eight point deficit, the Zoo was able to climb back into the contest as they capitalized several PRP mistakes to shift the momentum back to the Zoo. The Zoo got its wake up call just in time as they came from behind to capture a 15-12 triumph.

In the Monday-Wednesday League, the undefeated Posse had to defeat undefeated Ultra Violent to capture the first place seed and automatic first round playoff bye. In the game one it was the Posse that looked ultra violent as they mauled and stormed Ultra Violent 15-3.

Ultra Violent showed some character and shades of their old championship days as they came back to win the second game. Game two saw Ultra Violent put together several good bumps and sets which was instrumental in notchig a 15-7 decision.

Like the PRP-Zoo contest it would take a third game to decide who was number one in the conference. The third game belonged to the Posse as Ultra Violent never came close. The Posse was able to keep Ultra Violent off balance successfully defending UV's key spiker Jim "Zippy" McKeown. McKeown, UV's answer to Michael Jordan was set up repeatedly and was forced to fight off double blocks and perfect back row coverage in order to score points. Ultra Violent let up an early lead and was unable to come back.

Co's Comments

The men's playoffs will be played on an 8 foot high net and a 30 ft. deep court. Up until now the men have had to play on 7 foot nets and about 25 foot deep courts. These regular season courts were makeshift, but the playoff court is regulation all the way.

This court change is going to hurt the smaller teams. The smaller teams are going to have to take advantage of the eight foot net. The rest of the team has incredible quickness and will cover that 30 ft. court easily.

The Posse, who upset Ultra Violent last Monday in the playoffs have talent and height. However, this team is young and experienced and lacks the experience to upset the Posse.

In the Tuesday-Thursday League the Posse has 2 players that can dunk basketballs. These players being Dennis Hopson (not of the Chicago Bulls) and Doug Bollinger. Julio Ramos, Dan Roberts, and Chris Linder are other players that can easily touch the ten foot rim. Their vertical leaping abilities will be put to the test come crunch time.

PRP will really enjoy the advantage of the 8 foot net. Their average height is about 6 foot 3 inches and all of their players should have little if any problem spiking over the 8 foot net.

ZBT will have to rely on the spiking of Scott Shepard and Frank Garguile. Shepard is the only ZBT player over 6 foot and Garguile has great jumping abilities. ZBT is also a quick team and will have to use the the 30 foot court to their advantage.

The Gamblerettes defeated the defend­

Wrestling trio places at Coast Guard Tourney

By Keith A. Idee
Correspondent

The MSC wrestling team kicked off the 1990-91 campaign in splendid fashion defeating Western New England 37-6 in its home opener followed by a fifth place finish at the annual Coast Guard Invitational Tournament at the Coast Guard Academy in New London, Connecticut.

The tournament's sixteen-team field included Division I teams: Rutgers University, Yale University, Harvard University, Boston University and Columbia University.

Three MSC wrestlers placed in the double elimination tournament. At 177 pounds, junior Jim Sloan placed first in his weight class, winning four consecutive matches en route to capturing first place. Sloan won four matches in a row before defeating Mike Ligori of Rutgers University, avenging last year's 135-81 pounding by Kean.

Head Coach Steve Strellner was extremely pleased with his team's performance. "With hard work they can become even better and win the NCAA championships."

In their victory over Western New England, the MSC wrestlers won eight out of ten matches. The winners were Chris Gross at 118 pounds, Academic All-American Ken Hoff at 126 pounds, Scott Castiglia at 134 pounds, Will Feher at 142 pounds, Bill Templeton at 167 pounds, Jim Sloan at 177 pounds, Scott Vega at 190 pounds and Sean McLeary in the heavyweight division. Both Sloan and Vega won their matches by pinning their opponents.

This week, the Red Hawks will go on the road twice putting its No.3 national ranking in Division III up to the test. Tonight MSC battles conference rival, Trenton State followed by a Friday meeting with Hunter College (NY). The team then gets a two weeks off to prepare for the annual Coast Guard Tourney at the Coast Guard Academy.

It was one up and one down for the MSC swimming program last week, as the women's team improved its record to 2-3, while the men dropped to 1-2.

Of the women's victory, coach Brian McLaughlin said, "That was one of their most important wins in a few years."

That win came last Tuesday as MSC cruised by Kean College, 160-125 at home, avenging last year's 135-81 pounding by Kean.

Leading the way was sophomore distance freestyler, Susan Hoffman, who swam to victories in the 200, 500, and 1000 yard freestyle, with respective times of 2:26.8, 6:28.9 and 13:12.1.

Junior driver Carrie Spender won the 1 meter diving event with a 1:47.7 time which helped him close in on the school record for diving. "Sophomore breast-stroker Paul Albrect posted a brisk swim of 2:12.50, and showed he may be regaining his old form after a 1 1/2 year layoff due to his transferring from Miami of Ohio," McLaughlin said. "This swim is a glimpse of what the future may hold for him."

Overall, McLaughlin could not be more pleased with the swimming program. He says, "The attitude is very good, the swimmers realize where they fit in and they are working together."

Sophomore freestyler John Harding credits his positive attitude to teammate Andrew Mitzak, a junior, who swims the butterfly. "I'm motivated and pushed by Andrew and I think this will also help the team make out O.K.," says Harding. McLaughlin is very optimistic and happy about MSC's swimming program, as athletes such as Mitzak and his motivation can only rub off on the other swimmers. Although McLaughlin agrees, winning doesn't hurt either.

Swimmers split meets, women's Hoffman wins 3

**Men's hoops lose to GSC, but claw Rutgers-Camden**

**By Tom Reid**

Staff Writer

The MSC men's basketball team has stayed at the .500 level. After losing in the finals of the Red Dragon Classic last week, MSC came back to N.J. and was greeted by Glassboro State, which promptly handed the Hawks their second loss of the season 69-62. However, a few nights later, MSC posted a victory over conference foe Rutgers-Camden 61-52 to even the Hawks record at 2-2.

Playing at Glassboro, MSC was plagued by a problem that has been its Achilles heel all season; poor shooting. The Hawks were able to shoot only 32% for the game and Coach Olgie Gelston was not pleased with the MSC's futility from the floor. "We're missing a lot of layups," Gelston said. "We have not hit free throws, and we have not jelled as a team and our shooting and execution are poor."

The Hawks were able to shoot only 32% for the game and Coach Olgie Gelston was not pleased with the MSC's futility from the floor. "We're missing a lot of layups," Gelston said. "We have not jelled as a team and our shooting and execution are poor."

The Hawks were able to shoot only 32% for the game and Coach Olgie Gelston was not pleased with the MSC's futility from the floor. "We're missing a lot of layups," Gelston said. "We have not jelled as a team and our shooting and execution are poor."

Gelston was pleased with the effort, "Any win in the conference is a big win." MSC was led by Lewis, who had 17 points. Lamont Halsey and Ernie Harris also played well, scoring 11 and 10 points respectively. Ray Goode and Mike Tinley led with seven rebounds each.

The Hawks schedule will get tougher as their next three games are against conference foes Trenton State, William Paterson, and Jersey City State. "These games are important, but not critical," says Gelston. "These games will tell us if we can play with the best in the conference. Barring injuries and academic casualties, we will get better."

Although the Hawks are making mistakes on the court, Gelston sees a reason why. "We have a very young team. We have five returners and six new players. We must improve our shot selection however to be a consistent club."

Gelston is pleased with the performances of Lamont Halsey, who is an excellent defensive player and Gelston is also impressed with freshman Malik Jones and Lewis. "They are going to be excellent players."

But Gelston would not make any predictions as to where the Hawks will finish this year. "If we progress, we may make one of the four playoff spots. January is the key because of the break. Players' minds wander in January because it's not conducive to a regimented routine. If we can get through January, we'll be alright."

**HAWK NOTES:**

The move to get Coleman leaves Met fans wondering where this team is going. Instead of going after Coleman and paying him $3 million per year, Frank Cashen and company would have been better off going after someone with speed and punch in his bat. The name Tim Raines immediately comes to mind. "The Rock" as he is referred to, has been stuck in Montreal since 1981 with a team that has been six games out of first place for the last ten years. While Raines is not a free agent, he is very tradeable if the Mets were to come up with the right offer. Raines is about to enter his 11th season with the Expos and while his legs don't churn like they used to, they're still talking about a solid seasoned vet who is still welcome in Flushing even with Coleman. An offer of Coleman in left, McReynolds in center, and Raines in right with Darryl Boston and Mark Carreon filling in from time to time, would be more solid than most would expect in the Post-Strawberry era.

In addition to trades and free agent signings at the meetings, talks of league expansion are another big issue. Cities competing for two available franchises include Buffalo, Denver, Tampa/St. Pete, Miami, and the state of Arizona. The rumors from the meetings have been that the two Florida entries in the expansion derby will be awarded franchises. Like the other cities the Tampa/St. Pete and Miami areas are lucrative markets filled with baseball starved fans. However, the Florida areas are more appealing to Major League Baseball because of its climate, but its also hard to ignore St. Pete, especially with a 43,000 seat baseball stadium with no tenant. As for Miami, the fan support exhibited by Heat fans who travel to the Heat play in Ontario, the economically disadvantaged section of Miami, cannot be ignored.

**AUDITIONS for PIPPIN**

Book by Roger O. Hirson
Music by Stephen Schwartz

WHEN: December 11th & 12th
WHERE: Meet and sign up in Players Office Rm. 118
Student Center

PLEASE PREPARE A SONG AND BE READY TO READ FROM THE SCRIPT. BRING GOOD ATTITUDE AND YOUR IMAGINATION. DRESS FOR MOVEMENT.
Lady Hawks roll to Dial Classic title

MSC cleans up, takes 6th straight tounry

By Al Iannazzone
Staff Writer

The MSC women's basketball team cleaned up last weekend at the Dial Soo. Basketball Classic, beating Randolph-Macon and Scranton University en route to their sixth consecutive title, in front of a nearly-capacity crowd at Panzer Gymnasium. MSC was led by Kim Wilson, who earned the most valuable player award for the third straight year.

In the first game, on November 30, MSC set a school record for steals with 27, in routing Randolph-Macon, 80-48. Late in the first half MSC went on a 22-5 run to lead 40-18 lead. During that run Wilson pitched in with nine of her game high 17 points. Coach Jill Jeffrey was pleased because she got production from both her starting five as well as needed punch of the bench. In addition to her 17 points, Wilson pulled down four boards, blocked three shots and came away with five steals, all in just 24 minutes of action. Three other Lady Hawks put up double digits in the scoring department.They were: Kim Barnes (14 pts.), Shannon Shaffer (12 pts.), and Cathy Madalone (11 pts.). Shaffer's 12 points were complimented with eight boards, two blocked shots and came up with five steals.

The Randolph-Macon victory put MSC in the championship contest.

Bradford gains honors as Indoor Track and Field excels

By Michael Walmsley
Editor-In-Chief

Montclair State freshman running sensation, Yvonne Bradford, in her first ever collegiate competition, won the women's 440-yard dash this past week at the Lehigh Indoor Track and Field Invitational Meet. The victory vaulted Bradford to regional recognition as she was named The Star Ledger's Woman Athlete of the Week yesterday.

Bradford's time of 59.1 not only gave her the victory, but qualified her for the 400-meter race at the Division III National Indoor Championships to be held at Wesleyan University in Connecticut on March 8-9. The best runners in the country are expected to compete.

“I'm still shocked and kind of surprised because I didn't expect to do so well so early,” said Bradford.

“Coach Blanton believes that if I continue to practice every day, I will do well at the Division III championships in March,” said Bradford.

Yvonne is an extremely talented, aggressive, confident and just plain raw athlete, she is extremely coachable, against a sixth-ranked Scranton squad which defeated Stony Brook in their opening round contest 69-65.

In the Championship game, the potent Scranton offense was facing an MSC team that boasted the nation's best defense last season. On this day, the Lady Hawk defense proved too much for Scranton, holding them to just 27% shooting from the floor, in turn humbling the Royals, 57-39.

MSC, which never trailed, opened things up in the final 11 minutes of the first half as Wilson scored six of her game high 27 points and Marizza Martinez scored all eight of her points when the Red Hawks went on an 18-8 run to take a 28-17 halftime lead. After Scranton cut the deficit to 30-28 with 13:43 left in the game, MSC went to it's top gun, Kim Wilson. The senior standout displayed why she deserved MVP honors, scoring 14 points in the final 11:51, leading MSC to the title.

To say Jeffrey is happy with her 6-0 Red Hawks would be an underestimate. "This was a big weekend and a very successful one," Jeffrey said. "We had the opportunity to play Scranton, a nationally ranked, offensively tough team and we played an excellent defensive game. Holding a team like Scranton to 39 points is something to be proud of."

Wilson led MSC with 27 points, eight rebounds and two blocks. Bails added eight points and six assists. Shaffer scored seven points and pulled down four rebounds and Tracy Moffat contributed 10 boards and dished five assists.

During the Dial Classic, Wilson averaged 22 points, six rebounds, 2.5 blocks, and 2.5 steals while shooting 53% from the floor and 100% from the line, in being named MVP for the third consecutive year. In addition to collecting MVP honors, Wilson was named the East Coast Athletic Conference (ECAC) Player of the Week.

"Every Dial Classic she rises to the occasion," Jeffrey said of Wilson. "She has really come into her own as a complete player. She's playing great defense. Kim used to be known as just a shooter, but she worked hard and now she can drive or go one-on-one. She's a complete player, a team player and she inspires the team."

Earlier in the week, MSC used a balanced scoring attack, as five players scored in double figures, to cruise by Glassboro State, 86-59. The victory gave the Red Hawks their first conference win of the season. "I'm happy about the championship," Jeffrey said, "but I'm also happy that we're 1-0 in the conference. It's important for us to focus on the conference."

Wilson led the way agains with 27 points, eight rebounds, and four steals. Bails had 14 points, ten assists and three steals, Shaffer added 13 points and 15 rebounds, Madalone chipped in 12 points, nine rebounds, six assists and four steals and Judy Stair netted 14.

Conference play gets underway with MSC playing three NJAC rivals, starting with WPC the 8th, at Jersey City State on the 12th, and at home against Stockton on the 15th. Jeffrey and her Red Hawks have one thing on their mind and that is to take the NJAC title, which Kean has coveted for the past eight seasons. "It is important to continue to play at this level," Jeffrey said. "We must continue to play at this level and just not let down."

MSC SPORTS LINE

WOMEN'S BASKETBALL:
11/27: MSC 86, Galesburg State 59
12th annual DIAL CLASSIC
