Water pipe bursts leaving campus dry

By R.A. Campos
News Editor

Bathrooms were closed and the water was shut off for three and a half hours all over campus, between 10:30 a.m. and 2 p.m., on Tuesday, Feb. 19, after a main water pipe broke late Monday afternoon.

"It's hard to determine what caused the damage," James Brighton, assistant manager of engineering said.

Because of the location of the break in the pipe, right next to a parking lot between Life and McEachern Halls, Brighton said it could have been caused by pressure put on the pipe from a heavy truck in the parking lot.

"It was ridiculous," Ginger Cox, a senior who commutes, said. "I had to drive all the way home to use the bathroom. I missed two classes."

Residents were without water even longer because when the water was turned back on, it was brown.

"When the water came back on, it was gross," Heather Castelli, a resident of Bohn Hall, said. "We couldn't use the water for more than three hours after they turned it on. We were without water from 10:30 to after 6. It was disgusting."

Another resident of Bohn Hall, Lesley Brooke, said, "It was really inconvenient. They told us the water would be off for only a couple of hours. We couldn't take showers or use the water even after it was turned on because it was brown."

A resident of Freeman Hall said that an announcement was made at about 4 p.m. telling residents not to use the water until it cleared up.

Maintenance announced that the water on campus would be shut down between 10:30 a.m. and 2 p.m. on Tuesday for three and a half hours while they repaired the pipe.

Panel discussion on war to be televised

By Trinace Webb
Correspondent

A round table discussion on the Persian Gulf War took place in the Speech Building on Feb. 19. The discussion was filmed by the MSC film department and will air on CTN, the Cable T.V. Network, in March.

Dr. Doris Bianchi of the Speech and Theater department mediated the discussion. The panel included faculty members Dr. Michael Kogan of Philosophy and Religion department, Dr. Amy Srebnick of the History department, Dr. Joanne Englebert of the Spanish and Italian department, Professor Arnold Krotokin and student representative Laura West.

Krotokin expressed concern for the families of service members saying, "The government should provide more support for the families of the troops serving in the Gulf."

During the two-hour discussion, audience members posed questions to the panel that ranged from President Bush's ethics to the consequences if Israel retaliates against Iraq.

The majority of the panel members seemed to be against the war but supportive of the troops. Of the troops, Englebert said, "Minorities will unnecessarily suffer much deprivation as a result of the war," while West said, "Young people were coerced into joining the military."

Discussions like these are important because, "It is the people's obligation to speak out against the war," said Srebnick.

The discussion is scheduled to air on CTN on March 4 and 11 at 4 p.m., March 6 at 11 a.m. and March 13 at 11:30 a.m.
GULF UPDATE

-Iraq is willing to unconditionally surrender, according to Iraqi Foreign Minister Ali Akbar Velayati. Velayati spoke of meetings between Iranian heads of state and Iraqi Foreign Minister Tariq Aziz, in which Aziz said that Iraq was willing to comply with United Nations Security Council Resolution 660, which requires Iraqi withdrawal from Kuwait.

-As the Amphibious Assault Carrier Princeton promises to address Middle East issues, the coalition has responded that it will not be destroyed, despite its military significance.

-Syria measured their recognition of Israel's right to exist in an effort to bring about peace in the region for the future. Syria also recognized the Palestinian national determination, which is a predominant factor in much of the Arab-Israeli enmity.

INTERNATIONAL

-The IRA claimed responsibility for bombings in London railroad stations, killing one and wounding 40. A bomb exploded in Paddington Station damaging the building with none injured, and the second explosion three hours later at 7:40 a.m. went off in Victoria Station resulting in all the casualties.

-The Kremlin issued a plan which would raise all consumer goods by at least 60% in the U.S.S.R. Medicine, fuel and vodka would not be increased, and the government promised compensation through wages and pensions. This is an attempt by the government to more strictly control prices and revive the ailing Soviet economy.

-North Korea scrapped its next level of diplomatic talks with South Korea, blaming the U.S./S. Korean military exercises. U.S. officials claim the war games to be defensive in nature, and North Korean officials claimed they to be a rehearsal for the invasion of North Korea.

THE MONTCLAIRION / Thursday, February 21, 1991

WEATHER

By T.S. Lawton

Thursday

Generally Sunny, Bit Breezy, Warm.  
High - upper 40's to lower 50's  
Low - upper 20's to low 30's

Friday

Partly cloudy to sunny, somewhat warmer.  
Maybe sprinkles late.  
High - low to mid 50's  
Low - low to mid 30's

Saturday

Cloudy very early, breezy and cooler.  
Otherwise, partly sunny.  
High - 35 to 41 degrees F  
Low - low to mid 20's

Sunday

A bit warmer and, of course, still borkingly sunny. Clouding up late with a chance of rain.  
High - 40 to 46 degrees F  
Low - 28 to 34 degrees F

Monday

Wow! It won't be sunny!  
Cloudy with Showers.  
High - 36 to 42 degrees F  
Low - 29 to 34 degrees F

Out on a limb, long-distance forecast (which was pretty accurate last week):

Tuesday

Cooling off. Getting windy.  
Clear early, but increasing clouds.  
Chance of snow late.  
High - low to mid 30's  
Low - 22 to 28 degrees F

Wednesday

Snow, could be heavy,  
High - 10 to 20's  
Low - mid to upper teens

SGA News

Bill on Forums Passed

By Kerri Raftery
Staff Writer

A bill was passed, after a lengthy discussion, stating that weekly tolerant and impartially run forums, teach-ins, open mikes, and/or discussions during the Persian Gulf Crisis to inform the campus community will be held.

This bill has also stopped all bills supporting or opposing the war. They are to be suspended for one month until a definite opinion can be formed. An ad-hoc committee was set up to follow up on these events.

Helen Archontou, chairman of the senior committee, gave the dates for all upcoming senior events. These are as follows:
April 19 - Party Cruise
April 29 - Senior night at Patio's
April 30 - Dive-in movie (watching a movie from a pool)
May 1 - Senior day/Senior bar night
May 2 - Senior Swing at Westmont Country Club
May 4 - Clove block party or park picnic
May 29 - 10 a.m. breakfast for graduating seniors

Other ad-hoc committees include investigating the alcohol policy and renovations on the Rat. Paul Marino, chairman of the Rat committee, and Tony Susko discussed the renovations in the Rat. Although it seemed to go well, there are conflicting views between students and administration. If you have an opinion on how the Rathskeller should be run, go to the meetings at 12 noon on Monday in room 112 of the Student Center.

Greek Council News

New treasurer elected

By Anthony Pagliaroli
Correspondent

Maryann Kosciolek, the president of Alpha Iota Chi, was elected as Greek Council Treasurer at Tuesday's meeting. As her first order of business, she requested all Greek organizations to pay their dues of three dollars per active member promptly. Kosciolek also requested a membership roster with the checks. The money shall be added to the balance of $1,875.25, and will go towards Greek Week.

President James Roach appointed other positions. Randy Jiminez of Lambda Sigma Upsilon, and Elaine McCarroll of Alpha Iota Chi, were appointed chairpersons of the Membership Committee. This committee is designed to keep all organizations informed of various pledging rules, as well as various forms of pledging. The committee will meet with all Pledge Masters/Mistresses on Thursday, May 21 at 7:00.

Roach read a letter to the Council concerning Lambda Theta Phi, a non-chartered fraternity. The letter accuses the group of pledging underground, without their charter. The letter was signed: "a concerned Greek."

Vice-president of the SGA, Maggie Kurdyla, commented on the fact that there is no policy within either the SGA or Greek Council to deal with this matter. Dean Harris also received this letter, and assured the Council that the administration is aware of the situation, and has launched independent investigations concerning the matter. The topic will be discussed further next week, with a possible policy for a goal.

Two interest groups came to the council seeking approval to go up for chartering with the SGA. Sigma Tau Nu, a local fraternity, has not yet shown involvement in student organizations or legislation. Kappa Sigma, another local fraternity, has no policy within either the SGA or Greek Council that the administration is aware of the situation. The alcohol policy and investigations concerning the matter. The topic will be discussed further next week, with a possible policy for a goal.

The Greek Council is made up of one voting member from each Greek-letter organization, and is not required to meet the minimum 30% member requirement to function as a council. This council will be the only one to be filled because of a lack of funds.

Board of Trustees Meeting

Budget cuts may have serious implications

By Jim Aquaviva
Correspondent

Budget cuts and their implications on MSC were discussed at the Board of Trustees meeting Thursday, Feb. 14.

Dr. Joan Ficke of the Health Professions department and Vice President of the American Federation of Teachers expressed the union's concern that major programs could be cut as a result of faculty reductions and that many students could then be forced into five year programs. Additionally, Paul Prior, non-voting student trustee, later said that there are presently 18 faculty positions which have yet to be filled because of a lack of funds.

A resolution was passed ratifying the purchase of the Beckman House on Normal Avenue with money donated by the Faculty Student Co-op. MSC's Space Allocation Committee recommended the best use for the space.

Dr. Max Sobel of the Mathematics department voiced his strong support for the Re-keying of Bohn Hall residents' offices following the burglary of those rooms, although the work is nearly completed.

Concentrations in economics and business economics in the business administration program were approved.

SGA will award ten scholarships

The SGA will be awarding ten $400 scholarships in conjunction with the Art Carved Ring Company to current sophomores and juniors for the 1990-91 academic year.

The scholarships are available to all sophomores and juniors, and students may pick up applications for them in the SGA office. To qualify for the scholarship, you must meet the following requirements:
1. A grade point average of 2.7 or better.
3. Current sophomore or junior status.
4. Shown leadership and involvement in SGA chartered organizations or legislative CLAS.
5. Shown involvement in student concerns.

The deadline for applications is March 11 and the scholarships will be awarded in late March.

MSC still not MSU

By Justine Gianandrea
Staff Writer

MSC is still attempting to achieve university status, although the college has yet applied for it according to President Irvin Reid.

The term "university" will "accurately reflect in name what the school is in fact," Dr. Jesse Rosenblum, vice president of Institutional Advancement, said.

Traditionally, in order for a school to achieve university status, it must provide two doctoral programs in two different fields. Although MSC does not meet this condition, it fulfills the new requirements proposed in The New Jersey Register.

During the Spring of 1990, Rider and Monmouth Colleges intended to become universities. Unhappy with the present requirements to achieve this, both colleges petitioned the Board of Higher Education and implored them to revise the criteria. The Board of Higher Education did reevaluate the requirements and proposed a new set of criteria, one that would have excluded all other colleges from becoming universities except for MSC. According to Dr. Rosenblum, "Rider and Monmouth objected to the new standards which would rule MSC out. The Board to revise the requirements again.

Although the new standards have not yet been approved, MSC again meets the proposed criteria. According to the New Jersey Register, in order for a college to become a university it must offer a certain amount of programs for undergraduate and graduate studies as well as maintain a certain percentage of students enrolled in its post-baccalaureate degree programs.

"In my opinion, the change will not be happening soon but we will continue to pursue the issue and I believe we will eventually prevail," Rosenblum said.

If MSC does become a university, it will then be able to compete with other schools of the same caliber in and out of state in sports as well as scholastically. The new status will probably not affect the standards for admission but will attract more applications. The same school as a greater selectivity to choose from, Rosenblum believes. It may also attract more faculty. Also, no great changes in cost are expected (if the change occurs). "University status will not change cost but the state of the economy might," he said.

Even though the transition may not be in the immediate future, the new logo is already being used- Montclair State printed in heavy, black ink underscored with a solid red bar where the word university may one day be printed in white. The new logo has been printed on MSC's letterhead.

Is there water in the house? Campus copes with broken pipe

By Valerie Kallfus
Outlook Editor

Even though the campus couldn't get a drop of running water for three and a half hours on Tuesday because of a broken water main by McClearchem, there was still a flood of inconvenience and complaints.

Yet like the person caught in an unexpected downpour, people on campus found a way to cope—they were "steamed," sure, but they coped.

In fact, a few Freeman Hall residents joked that on Tuesday, you could easily tell Outlook Editor_______________________

she said.

no running water after dancing for four hours.

English major Tom Dickey.

the commuting students from the residents; the commuters smelled better.

"I couldn't take a shower," said Bohn Hall resident Yoon Lee.

"I didn't take a shower all day," said English major Tom Dickey.

Dance major Wendy Forbes came back to no running water after dancing for four hours.

"I just sat and put up with it like every time," she said.

Those who had showered before the 10:30 a.m. water cut-off had problems later in the day. Water service didn't resume until after 2:00 p.m., but the water ran brown because of dirt that had gotten into the broken pipe. In the interim, no restrooms on campus were available; those in the Student Center were sealed off with masking tape, while others on campus were locked.

Commuters with time between classes talked of driving home just to use the bathroom.

"I had to pee for three hours and I had to drive 20 minutes home just to go to the bathroom," said Freeman Hall dining services manager Brian Luciano.

"I couldn't flush toilets anywhere. I came over to Blanton to use the bathroom and it wouldn't work. Then later I couldn't brush my teeth because the water was brown for an hour." (h

Home economics major Lisa Hattenberg said that she heard people in the campus bookstore talking about the inconvenience.

"People who work in the Student Center were talking about going from building to building to find a bathroom, and they were all locked," she said.

For the dining staff, the water cut-off presented a unique problem—preparation of food plus ample water supply to ensure all employees kept their hands clean. Tom Bove, Director of Board Operations at Blanton Hall, took immediate action once he was contacted, although he said he would have liked more advance notice.

"I had taken a shower in the morning," said mathematics major Rob Kreck.

"It's ridiculous," he said. "First there's a problem with security and now with the water. All this money we're spending should go to water, not brown," added fine arts major Denise DeLongis.

"There was not nearly enough time to get everything ready," he said. "Kevin Rakowsky (Associate Director of Residence Life) called around 10:00, and we called down to Freeman Hall.

"Eighty percent of the food was prepared beforehand, and we still had steam kettles, so we just boiled water. There was still enough water in the lines, anyway, because it didn't go out (at Blanton) until 12:00," he said.

Blanton had only milk and coffee machines plus pre-made juice as beverages for lunch (the soda machines run on water pressure). The entrees, both at Blanton and Freeman, were served on paper plates with plastic utensils.

"It was a pretty aggravating morning," said Freeman Hall dining services manager Brian Luciano. "We had very little time to prepare. The first thing I did was to fill up all our kettles with water. We did have steam, so we could boil all the water we used during the day."

"The only beverages we had were milk, which upset a lot of people. By dinner time, the water was back on, though, so there were no more paper products," he said.

Yet even with the water back on, there were still problems (brown water, for example). Residents in some dorms were told not to shower or wash clothing until the water turned clear again. Some parts of Freeman Hall couldn't get any cold water, only hot, until late in the evening, and some toilets in the building wouldn't stop flushing (repairs were made after 11:00 p.m.).

Nevertheless, while the water on campus is once again running hot, cold, and clear, people on campus are still hot over the issue.

"It doesn't really affect me because I don't take showers. But seriously, it's just another thing that we've got to put up with living in the dorms. I realize things happen, but I think maintenance should give us what we pay for," said mathematics major Rob Kreck.

"It's not the first time this has happened on campus. I was inconvenienced; I couldn't shower or use the toilet. Maintenance needs to be improved on campus," said Denise DeLongis.

Some, like Bohn resident Melissa Zimmerman, would have liked more advance notice. "They didn't even tell us five minutes before they were going to turn the water off," she said.

Political science major Mary Roberts agreed. "They gave us no notice. I'm pretty sure they knew about this more ahead of time," she said.

While most understand that the pipe break was nothing that could have been predicted, they are still disappointed with the amount of time it took to fix the problem (Director of Facilities Doug Cooper could not be reached by deadline).

"We're paying all this money for housing, and the whole school gets shut off because of water?" said mathematics major Rob Kreck.

"What are we paying for?" Accounting major Michael Katz asked.

"It's ridiculous," he said. "First there's a problem with security and now with the water. All this money we're spending should go towards some comfort."

"It's one thing you should expect—clean water, not brown," added fine arts major Denise DeLongis.

Hopefully, it's also something that 'll keep on running.

All Around the Campus: The Community Speaks

Compiled by William Palm

How did Tuesday's water shortage affect your day?

"Someone used the bathroom two minutes before the water was supposed to come back on, but then it didn't. It affected my room, suite, and the hall. It was a bad day."

"I had to pee for three hours and I had to drive 20 minutes home just to go to the bathroom."

"It's not the first time this has happened on campus. I was inconvenienced; I couldn't shower or use the toilet. Maintenance needs to be improved on campus."

The College Tutorial Center Located
in Building E, is posting its hours
for the Spring '91.

The Center is open from 9am-4:30pm
Mondays through Fridays.
Evening hours are also available.

Sign-up for tutoring services will
continue through April 5. Faculty and
professional staff are encouraged
to refer students to the Center
before this date.

Further information may be
obtained by calling the Tutorial Center
at 893-4364.
Need a vacation? "Extra" holidays don't fit MSC's schedule

By Beth Belof
Staff Writer

This past Monday looked like a typical day at MSC, except it was President's Day, a day set aside to commemorate the birthdays of George Washington and Abraham Lincoln. It was also one of fifteen days designated as a national holiday, and while most Americans (and some state college students) enjoyed the day off, classes here were still in session.

Many of the college's offices were closed for the holiday, however.

...Some private schools have "pacing breaks" where students are given three or four days off every three weeks to "get a breather."

"It's unconstitutional," said Frank Basile, a senior physical education major. "None of the secretaries were working. If they had off, so should we."

Glassboro, William Paterson, and Kean College are a few state schools that cancelled classes on Monday. Dean of Students Edward Martin explained that because these schools do not offer a winter session like MSC, they are able to start the spring semester earlier and take off a few days in between.

Our own schedule, he added, is decided every couple of years by a committee of administrators, faculty, and personnel appointed by various vice presidents; the current MSC schedule will probably remain the same next year.

Students like freshman Joe Miloscia, however, disagreed with planning for a specific amount of material to be covered.

"Students are going to learn at their own rate anyway," he said.

Miloscia was one student who was inconvenienced by Monday's holiday. "If the offices are closed, they should cancel classes," he said. "I needed to speak to a chairperson, and his office was closed."

Yet not all employees that did work on President's Day seemed to mind.

"It's all right if you get paid," said Eliza­beth Pinkey, a cafeteria employee. Also, not all students thought that classes should have been cancelled.

"I didn't mind," said senior finance major Thomas Gilkos. "I wouldn't want to miss class anyway."

The Greek Weekly

What goes here?

The Rush, Social, Philanthropic and any other events of your Greek organization.

Why isn't anything here?

Contact us! Tell us about your organizational events so that the rest of the campus and other Greeks can know about them, too.

Write your event on a piece of paper and either drop it in the envelope on the door of the Treasurer's Office at The Montclarion (Rm. 113 of the Student Center Annex) or hand it to Kerry Raftery at the Greek Council meetings Tuesdays at 5:00 p.m. (Fourth floor of the Student Center).

Thanks!

BRANTL MEMORIAL LECTURES

The Philosophy and Religion Department and the School of Humanities and Social Sciences are pleased to announce the Brantl Memorial Lectures in religion for Spring, 1991. The lecture series is named in honor of George Brantl (1922-1978), Founder and first Chairman of the Montclair State College Department of Philosophy and Religion.

LECTURE SERIES: "MYSTICISM, EAST & WEST"

FIRST LECTURE:
Wednesday, February 27, 1991
Kops Lounge, Russ Hall, Montclair State College, 8:00 p.m.

TOPIC: "The Spiritual Paths of Knowledge and Love: Christian Mysticism"

SPEAKER: DR. EWERT COUSINS, Professor of Theology, Fordham University; Visiting Professor, Columbia University.

Author: Global Spirituality: Toward The Meeting Of Mystical Paths;
General Editor: World Spirituality: An Encyclopedic History

SECOND LECTURE:
Wednesday, March 20, 1991
Kops Lounge, Russ Hall, Montclair State College, 8:00 p.m.

TOPIC: "The Hindu Mystical Tradition"

SPEAKER: DR. K.R. SUNDARARAJAN, Professor of Theology and Chairman, Department of Theology, St. Bonaventure University.

Contributing Author: Hinduism, Religions of Man, Death and Eastern Thought, etc.

THIRD LECTURE:
Wednesday, April 24, 1991
Kops Lounge, Russ Hall, Montclair State College, 8:00 p.m.

TOPIC: "Sufism: Mystical Dimension of Islam"

SPEAKER: DR. SEYYED HOSSEIN NASR, University Professor of Islamic Studies, George Washington University.

Formerly, Dean and Vice-Chancellor, Tehran University.

Author: Ideals and Realities of Islam, Islam and the Plight of Modern Man, Knowledge and Sacred, etc.
What does it take for classes to be cancelled?

On Tuesday the administration once again showed the students of this campus it takes little less than a nuclear war for class to be cancelled for a day. A water main break caused the water to be shut off in every building for at least three hours while repairs were being initiated, but school was supposed to continue as if nothing was different. Not having access to a working bathroom seems to be justification for the cancelling of classes for at least half a day. The Montclarion has been witness for years to the administration’s indifference to the plight of students, both commuter and resident, when it comes to the question of cancelling classes for emergencies. Things such as residence halls being denied water and power are not significant to grant those students living there a day off. The administration should think about the situation students are in when they are denied the basic necessities of living. What happened on Tuesday, where students had to skip class just so they could find somewhere to go to the bathroom, won’t happen again. Students need to be given ample warning when they are going to be inconvenienced so the proper preparations can be made.

Fraternity sponsors pen pals for the Persian Gulf

During Alpha Phi Omega’s February 6th project of sending Valentines to the troops, many MSC faculty and students demonstrated a strong interest in corresponding with the troops as pen pals. However, the U.S. Military and Postal Service have advised us that letters to the troops be addressed to specific servicemen as pen pals. A list of mailing addresses of servicemen to make such correspondence more readily possible. We need your help! If anyone knows of any students, friends, or relatives who are currently serving in the Gulf please give us their names and mailing address as soon as possible.

Thank You,
Brittney Dews
Alpha Phi Omega
Treasurer

Letters must be typewritten, accompanied by a name, year, and major, and be submitted by Monday at 3 p.m.

The Montclarion reserves the right to edit all editorial letters for spelling, grammar, and brevity.
Stopping the aggression of a military madman

Months ago when the Bush administration called Saddam Hussein another Hitler, many said that was empty rhetoric. Others agreed that the Iraqi dictator was a "petty-Hitler." Saddam Hussein is far worse, a potential aspiring "Hitler." Saddam Hussein the monkey wrench in the Middle East peace process, is a demagogue who has initiated two wars in the past decade for purposes of self-aggrandizement. He was fortunate that the Iranians have not yet fired even on-one conversation Y e t I am against the war. Why then don’t I agree with the so called right-wing types, such as Bob Grant and Charlton Heston and support our troops? The two men mentioned pervert the right-wing. These blood thirsty war mongers are more in akin with the hard line Soviet Stalinist. True conservatives like former President Richard M. Nixon and columnist Patrick Buchanan would really like to support our troops, contact the Army and Navy relief services (any local recruiter can give you the address) and donate time or money. Many families with loved ones in Saudi Arabia are suffering financially. If you support our boys over there, as columnist Charles Reese says, close your mouth and provide some real assistance. Secondly contact the Veterans Administration and arrange to be a volunteer. The V.A. still needs help from past wars. Thirdly contact your state legislators and make sure there are laws on the books to protect the jobs of men and women called to active duty, it would be a shame for them to come home and have no job.

In conclusion, think and question what President George “read my lips” Bush says. There is nothing “patriotic” about what he is trying to do. He is using ill-informed, well-meaning, naive young Americans who have propagated into believing that they are nobly defending their country. Nothing could be further from the truth. We are intruding into their territory and affairs and not the other way around. These young Americans are to be used as cannon-fodder by sinister, secret forces that few ordinary, uninformed people understand. President Bush and the others who are willing to sacrifice tens of thousands of American lives for the sole benefit of Israel and International Business should be impeached and tried for treason.

Richard Evers Hrazamek
Senior/religion

What it really means to be a patriotic American

I would like to respond to the left-winged students who oppose the war in the Gulf, as well as to the so called right-winged conservatives who support the war. Let me preface my statement by saying I have friends and family in the military and that I am not against warfare. Unfortunately war is necessary sometimes. However I am totally opposed to this war.

Before all the Budweiser Patriots with their newly bought American Flag paraphernalia accuse me of being a communist, let me tell you more about myself. I am a practicing Roman Catholic and an ardent anti-communist. The last couple of years I have tried my own way to stamp out communism in this area, mostly through one-on-one conversation. Yet, I am against the war.

Why don’t I agree and march with the left-winged student organizations who oppose the war? Simply because on every other issue I disagree with them and their atheistic/ecnumenical doctrines that do much to undermine this nation. I want no part of them.

Why then don’t I agree with the so called right-wing types, such as Bob Grant and Charlton Heston and support our troops? The two men mentioned pervert the right-wing. These blood thirsty war mongers are more in akin with the hard line Soviet Stalinist. True conservatives like former President Richard M. Nixon and columnist Patrick Buchanan would really like to support our troops, contact the Army and Navy relief services (any local recruiter can give you the address) and donate time or money. Many families with loved ones in Saudi Arabia are suffering financially. If you support our boys over there, as columnist Charles Reese says, close your mouth and provide some real assistance. Secondly contact the Veterans Administration and arrange to be a volunteer. The V.A. still needs help from past wars. Thirdly contact your state legislators and make sure there are laws on the books to protect the jobs of men and women called to active duty, it would be a shame for them to come home and have no job.

In conclusion, think and question what President George “read my lips” Bush says. There is nothing “patriotic” about what he is trying to do. He is using ill-informed, well-meaning, naive young Americans who have propagated into believing that they are nobly defending their country. Nothing could be further from the truth. We are intruding into their territory and affairs and not the other way around. These young Americans are to be used as cannon-fodder by sinister, secret forces that few ordinary, uninformed people understand. President Bush and the others who are willing to sacrifice tens of thousands of American lives for the sole benefit of Israel and International Business should be impeached and tried for treason.

Sometimes you have to fight for peace

I would like to respond to the editorial by Amy A. Glavasich in February 14 issue of the Montclarion.

"Stop fighting," you would want your sister to get into a fight with the lunatic, but if she does, you most certainly would back your sister. You would not just stand there and say, "Stop fighting," you would want your sister to beat the hell out of the lunatic until the lunatic is subdued. We, the United States, cannot stop fighting until Saddam Hussein is beaten.

About the alleged "Teach-in." Surely if the S.T.A.N.D. forum was meant to educate the students about the war, it would have educated us from both sides of the river, not only the anti-war side.

If, as Miss Glavasich states, the war is not in the best interest of anyone, then I suppose the people of Kuwait would be better off if the United States ignored the situation and let Saddam Hussein waltz all over Kuwait, and kill all of the people.

Miss Glavasich claims that "...war is not justifiable under any circumstance." Would she have supported World War II when Japan attacked Pearl Harbor had she been born sixty years earlier? If the Soviet Union stormed the shores of the United States with millions of troops tomorrow, would she defend our country? Well, probably not, because according to Miss Glavasich, "...war is not justifiable under any circumstance."

In reference to Miss Glavasich’s remark that war cannot be used as a strategy to create peace, may I analogize? If you had a child and he broke the windshield of your new car with a rock after you told him not to throw rocks, would you spank him? Most likely. Will your child stop throwing rocks? Probably, and the reason he would do so is because he is afraid of getting a spanking. This is what we must do with Saddam Hussein. Kick his ass so he will not raid defenseless countries just because he feels like it. The United States is involved, and we cannot leave until Saddam Hussein is defeated.

Rush’s World by Roger C. Long

Yes, the Peace Piper is back! The voice of the radical ‘60s that snapped a generation

WE LOVE YOU PEACE PIPER! Keep up the good work!

On College campuses across the nation, Marxist professors and their protégés say...

WE LOVE YOU PEACE PIPER!

In the protest marches, those that are stuck in the ‘60s say…

S.T.A.N.D.

I love you PEACE PIPER! 1964

S.T.A.N.D.

U.S. OUT OF VIETNAM

THE GIRL
That's why the U.S. government and the biased mass media try to hide it from us.

2. But isn't U.S. censorship good? Doesn't it keep the Iraqis from learning military operations?

No! We are the people U.S. propaganda is aimed at. The purpose of U.S. censorship is to fill our heads — the American people’s — heads with lies, so we will not oppose U.S. government policy. Why? Because during the Vietnam War tens of millions of Americans came to realize “our” government was lying to us. Tens of thousands of American soldiers were being killed and aimed at.

3. Is this a war to stop aggression?

No! The U.S. government supports aggression (by Israel, South Africa, Indonesia, for example). The U.S. COMMITTED aggression, too, as in Panama, Grenada, Nicaragua, Reagan and Bush supported IRAQI aggression against Iran in 1981.

4. What is the war about, then?

Oil! Bush keeps denying it’s about oil because he knows we, the working people, do not want to fight for oil company profits.

5. Won’t we get cheaper oil and gas if Iraq is defeated?

No. The U.S. government secretly told Saddam Hussein on July 28 that Bush wanted a price above $25 a barrel — higher than Saddam himself wanted. Why? Because oil companies benefit from high prices, though working people are hurt. Our soldiers are being killed to make oil more expensive, among other reasons.

6. Are you saying that U.S. working people will be better off if the U.S. withdraws from the Mid-East?

Exactly. We’ll be better off in every way. The war is costing billions — and every expert admits U.S. taxpayers will pay for most of it. But if the U.S. wins, our soldiers will be stationed there for years longer — a huge expense. There will be thousands more U.S. soldiers killed in further Mid-East wars. Like in Vietnam, the U.S. is supported by the oppressive governments of the region, but is hated by the masses of the people.

7. Why are we hated?

We are not hated — the U.S. government is hated. This is because of U.S. imperialism. U.S. oil companies have invested in the Mid-East for 50 years because of the phenomenal profits they have made there. They have kept corrupt rulers in power who support U.S. oil companies instead of using oil revenues to serve the needs of their own peoples. All these pro-U.S. states are run by brutal, fascist regimes. Therefore, the working people in these countries understand the U.S. government is their enemy.

But we do not understand that the U.S. government is our enemy too! We are worse off when oil company profits are high. That’s why there has been no investment in other sources of energy; Big Oil doesn’t want us to switch.

Cheap labor anywhere in the world is against our interest, because big business can then send jobs and investment abroad. But the fascist Mid-East regimes like Kuwait and Saudi Arabia support their working classes to keep labor cheap. This hurts U.S. workers, too — but it helps U.S. bosses.

8. Why do you say the war is racist?

The basic way that capitalists try to keep some workers paid less than others is through racism. This benefits them, and harms us, in three related ways.

First: Non-white workers, subject to special oppression, have lower wages and fewer benefits. This means their employers make higher profits.

Second: Employers can and do threaten to fire white workers and replace them by non-white workers. This acts as a restraint upon demands for higher wages by white workers. In other words, white workers are paid less because of racism than they would be if there were no groups of super-exploited workers — that is, if there were no racism.

Third: Racist ideas are used by employers to keep white and non-white workers divided against one another. Workers can only win strikes against employers if they are united. Racism weakens this unity or prevents it altogether.

Obviously, U.S. workers are hurt by the existence of cheap labor abroad or at home. Therefore, the main way this war is racist — and the main way it hurts U.S. working people — is that it is a war to keep fascist, anti-worker regimes in power, so U.S. companies can continue to make high profits from the very cheap labor of these super-exploited workers.

In addition, the war is racist because U.S. combat troops are more heavily non-white than the U.S. population as a whole. So non-white troops will bear the greater burden of sacrifice.

9. What about patriotism?

Patriotism is a noose around our neck. To be “patriotic” means to fight whatever wars the government tells us, and no questions asked. A “patriotic” person is a slave to the big corporations that run the government. If you notice it is the gas stations and the car dealers that fly the biggest flags.

10. Why should we “support our soldiers” by getting them to come home as soon as possible?

They have a big job to do: to fight the big corporations and the U.S. government for higher wages, lower taxes, better schools, better health care, an end to racism, right here at home. That is a war worth fighting and if need be, dying for.

11. What can I do?

Come to S.T.A.N.D. meetings, Wednesdays at 3 p.m., Student Center Room 112. S.T.A.N.D., a Class 13 organization, is open to all who oppose the war for whatever reasons.

Join the International Committee Against Racism (INCAR). INCAR has members in factories, high schools, colleges, neighborhoods, and in the military, fighting against racism and for multi-racial unity. We have members in other countries, too. Call me at 373-2743.

S.T.A.N.D.

PLEASE FILL OUT AND DROP OFF AT SGA OFFICE 102 IN THE STUDENT CENTER (Last day for poll is Monday)

1. Do you support the war? (Y, N)
2. Do you support the use of nuclear weapons in defeating Hussein? (Y, N)
3. Do you think there will be a draft? (Y, N)
4. If drafted, would you go to the Middle East? (Y, N)
5. Do you think the war will take longer than six months? (Y, N)
6. Do you believe we are fighting this war for oil? (Y, N)
7. Do you think the alliance will hold? (Y, N)
8. Do you support a peace keeping force after the war? (Y, N)
**ARTS & ENTERTAINMENT**

**WMSC: A Reasonable Alternative**

By John Tibbitts and Eric Kibbles
Staff Writers

Among the many interesting organizations that the SGA has to offer, there is one that is particularly interesting. No, it's not the Montclarion, or even the Medieval Society. It's WMSC - an alternative yet traditional college radio station. What's so interesting about it? And just what is all this "alternative" mumbo jumbo we keep hearing about?

The term "alternative" is hard to define. According to Brian O'Boyle, Public Relations Director of WMSC, the word "alternative" in relation to music can have a variety of meanings. Nowadays it has the meaning of what New Wave used to mean, new music that hasn't become popular as of yet, music attempting to create new musical directions. This includes some older music as well, older songs that haven't been recognized. Saturdays at 4 p.m. one could tune in and listen to a two hour show of punk music before 1983, back when punk was still hot.

So what else do they play? And how come there aren't more listeners? Why don't they play Vanilla Ice, and no free tickets for M.C. Hammer? According to Vin Toscano, Production and Engineering Director, the goal of WMSC is not only to give any student here a chance to get involved in live radio shows, but to give small and unknown bands a chance to make it big. Traditionally, college radio has been quite successful: bands like the Talking Heads, the Police, the B-52's, Depeche Mode, Replacements, Dogzilla, and even Metallica would most likely not have gotten recognized by major record companies had it not been for college radio. In fact, record companies call up Amy Rosen, Music Director, frequently to inquire about what has been popular recently.

There are quite a few DJ's, and more are always needed. This, plus the fact that almost all requests get played (including the most local of local bands), makes this already diverse station truly diverse. Local bands! Where is a demo tape of, say, the McEarly Brothers?

Besides music, WMSC also has hourly news updates which they receive through an Associated Press Wire. Sunday nights at 8 cont. on 17

**An Anecdotic Review**

By Eric Erb
Arts Editor

Theatrical experiences come in all shapes and sizes, and this particular experience was a rather oblong polygonal sort of shape.

When I think 'Musical!' I think big. I've done a spot of theater myself, in houses from 60 to 600. Most of the work done in smaller houses is not musical, so this small cast, small audience house caught me off guard. But surprises like these make theater an art. Performances like this Players production can allow the unprofessional observer to experience the art of theater (which this production of Pippin is rich in), without a heavy strain (a mere $2) on the already tattered collegiate wallet.

The house is a rather unusual space, deep in the bowels of the student center annex, and completely unsuited for a performance of something such as "Pippin." The shape is peculiar, there is no natural division between house and stage, there are several concrete columns, and the acoustics are absolutely abominable. The band, which was wedged into a corner, sounded tinier than they were, and even those with the best voices had to work hard to merely be heard in that God forsaken room.

Granted there were many flaws. This is a college production, and this is to be expected. Some of the singers became inaudible toward the edges of their range, the choreography is designed for folks who are actors first and dancers second (although some scenes were very good). There were brief moments when I saw the actor and not the character portrayed, but in other instances the ham-ness enhanced the show.

The creative ways in which the difficulties of the room are overcome, including an oblique audience and two stage areas, are worthy of merit. The closeness of the players to the audience makes for a more involved spectator, which is what Roger Hanson seemed to have in mind when he penned "Pippin."

The play itself is wonderfully funny, and one of my personal favorites. If you have never seen it, you should have by now. It portrays the soul searching of a young man just out of college in the 780's Europe. It's the sort of thing people like you should be able to relate to. See it twice, or three times.

Opening night is tonight, February 21, until Saturday, the 23. The show starts at 8, but get there early to sit in the front. If you're not into nights, there will be a showing on Friday at 2:15. The audience is flat and it is difficult to see over the heads of fellow view­ers.

Players has had to deal with some moun­tainous odds in getting this production off the ground, and it is a shame that the tyrannical theater department won't let them use Memorial Auditorium, because they would have put many Departmental-sponsored works to shame.

**Lambs give silent thrill**

By Oren Silverstein
Staff Writer

In Jonathan Demme's new suspense thriller, "The Silence of the Lambs," unspeakable horrors occur both on screen and off. They are found in the form of Buffalo Bill, a serial killer who slaughters and skins his victims. They are described in the past actions of Dr. Hannibal "The Cannibal" Lecter, a brilliant but twisted psychiatrist, who would treat the emotional distresses of his patients' minds, then consume their bodies. The horror can be perceived as well in the form of the personal demons that plague the film's protagonist, the young F.B.I. trainee, Clarice Starling.

Clarice, played by Jodie Foster, is acti­vated for duty by her supervisor, Jack Crawford (Scott Glenn). Her task is to interview the imprisoned Dr. Lecter and ask for his help in drawing up a psychological profile of the new killer. She will have to use a friend to catch a friend.

The subsequent meetings between Star­ling and Lecter become the dramatic and emotional center of the film. Lecter, being a pervasively curious man by both nature and profession, agrees to help Clarice on one condition; for every piece of information he gives her on Buffalo Bill, she in turn must provide him with information about herself.

Orphaned at an early age, Clarice can almost identify with Hannibal as a father figure. His cut­ting remarks and brutally frank observations give her a better insight to who she is and the motivations behind her actions. Lecter finds that she can tell the madman Lecter thought that she cannot confide to her other parental figure, Bureau Director Crawford.

As Clarice Starling, Jodie Foster re­af­firms her place as one of America's best actresses. In her first role since her Oscar­winning performance in "The Accused," Foster gives us a stellar performance as a woman determined to escape the memories and pain of her small town past. Her determi­nation.

**Academy Awards Nominations Unpredictable**

By Tony Bavaro
Correspondent

"Dances With Wolves," the three hour long Western epic from first time director Kevin Costner walked off with an enviable twelve Academy Award Nominations as the Academy announced its award nominees last Wednesday. Dubbed impossible to make and market by the Hollywood community, the film's nominations included nods for Best Picture, Best Director, Best Actor for Costner who also stars as the film's hero, Actor for Graham Greene (not, not the British novelist, but a Canadian born native North American making his first appearance in a major film), and Best Supporting Actress for Mary McDonnell.

Amidst a haze of speculation and doubt about its box office fate, "Dances With Wolves" opened to very favorable reviews during the Christmas season (perhaps the most prestigious release time for any film), and to date has grossed over one hundred million dollars. The film's box office suc­cess helped carry it in the nominating process to be sure. Last year's biggest grossing film, "Ghost," also received a nomination for Best Picture, even though the film seems out of place in the top five list. Commercial success can, however, sway voters, particularly in the nominations. Witness the very undeserved Best Picture nod given to "Fatal Attraction," an implausible and ridiculous thriller, three years ago. "Ghost" also re­ceived recognition for Best Original Screen­play and Best Supporting Actress for Whoopi Goldberg, the one nomination the film truly deserved.

Also nominated in the Best Picture cat­egory was "Awakenings," a sometimes too sentimental film about a man's recovery from a twenty year trance; "Goodfellas," Martin Scorcese's visually stunning film about neighborhood mobsters; and, hard as it may seem to believe, Francis Coppola's "The Godfather Part III," a truly awful film which only seems to believe, Francis Coppola's "The God­father Part III," a truly awful film which only recently helped carry it in the nominating process.

Hollow men, Solid music

By Neal Dougherty
Correspondent

"Cresta" is the name of the new cassette from the Hollow Men. Up front I am going to tell you that I like it, it is up front in the article, and I do like it so there you go, and now you know, I am an up-front kind of guy that likes this recording. Bingo! Case closed. Go out and buy it.

However, maybe you're not easily swayed or as truly transparent as I am. Maybe you would like to know more about the release? And yes, you are going to learn more about the aforementioned Hollow Men, face it, it is inevitable even if you throw this paper away without reading another word. You will hear of them and you will hear them again and again. They sound very English like, particularly due to their vocalist David Ashmore who delivers his vocals in a very inherently English pseudowhisper. Remember Donovan. Mellow Yellow, Sunshine Superman, etc.? Remember the English Invasion and sound of the sixties? If you don't, hang out in the game room and play the jukebox for a spell. I am amazed at the amounts of sixties music I hear there.

I imagine if Donovan had a kid, he would sound something like David Ashmore does. Kinda Donovan like if you can imagine Donovan doing wailing coming down off of acid, calm but inspired, psychedelic folk if you will. "Cresta" is very sixties. Flavored however, it is simultaneously enhanced with nineties technology. I wonder if Donovan had a kid how many names his kid would have? There is a one named acoustical guitarist in the band. His name is Choque. He does an amped acoustical job, my mentioning him and his single moniker serves no apparent purpose save that of firming up the Donovan correlation and my contention that they sound alike. Sometimes they sound like a tranquil INXS, again calm and sedated. However, I must stress and otherwise emphasize the currentness of "Cresta." Regardless of my identification with the sixties, this band is an example of just how music and technology can be integrated.

The Hollow Men inspired a whole plethora of thoughts, memories, recollections, and other irreverence within me at times. They are either very intuitive sculptures and paintings. Most of his sculptures are designed out of welded steel or limestone. Each one of his steel sculptures resemble several different configurations welded together to create either a familiar figure or a masterpiece of entanglement. His paintings go to extremes. They are either very vivid in color or very neutral.

For example, in one of his paintings entitled, "Dancers", one can actually envision the movements of the dancers in the painting, the way she uses and the way she paints. Their music has special meaning which can be described to contain much emotion and movement in them.

Their music has special meaning which can be integrated.
What's going on

**WMSC**

From 15 p.m. there is a talk show concerning public affairs. But the most promising reason to tune in is free tickets to concerts and clubs, as well as free albums. Recently, free INXS albums and concert tickets were given out; Cindy Lauper tickets, and free admission to the Marquee and Stone Pony are coming up soon.

Finally, one last word on the DJs: They do have about 10,000 albums to choose from, and the average show expects to be heard by people within a 15-mile radius. Dave Schablak, one of the DJs, has been doing quite a few live interviews; on one recent show he got to talk to Yuri Naumov, who now sings the blues after having defected from Russia.

**Piano Recital.** Monica Jakuc and Raphael Atlas. March 19, 8pm Mercurial Recital Hall. Free. 893-5228

**Paintings.** Onyile B. Onyile. March 5-30. Sprague Gallery, Sprague Library. Free. 893-5113

**Art Forum Lecture Series.** Varying topics. Every Thursday 3-5pm. Calcia Auditorium. Free. 893-4307

**Film Series.** Why we Fight/Why we Don’t: Images of War. Varying war-related films. Every Sunday at 7:30. Calcia Auditorium. Free. 893-7565

**Danceworks.** Montclair State students at their best. February 28, March 1 and 2 at 8pm. March 1 at 2:15. Memorial Auditorium. $3.50 for MSC students. More if you’re not. 893-5112

**Royal Coronation.** Authentic Medieval court, ceremony, music. March 1, 5pm. Kops Lounge, Russ Hall. Eric at 893-4202

**Pippin.** February 21-23 at 8pm. Feb. 22 at 2:15. Student Center Annex 126. $2. 893-5159

Dave Schablak, one of the DJs, has been doing quite a few live interviews; on one recent show he got to talk to Yuri Naumov, who now sings the blues after having defected from Russia.

**What’s going on**

From 15 p.m. there is a talk show concerning public affairs. But the most promising reason to tune in is free tickets to concerts and clubs, as well as free albums. Recently, free INXS albums and concert tickets were given out; Cindy Lauper tickets, and free admission to the Marquee and Stone Pony are coming up soon.

Finally, one last word on the DJs: They do have about 10,000 albums to choose from, and the average show expects to be heard by people within a 15-mile radius. Dave Schablak, one of the DJs, has been doing quite a few live interviews; on one recent show he got to talk to Yuri Naumov, who now sings the blues after having defected from Russia.

-Melissa - Nature shows at 4:08 am rule. Love your roommate.
-Dimps - You're the best! Al.
Now you can afford to dream in color.

Apple introduces the Macintosh LC If you thought that finding a color Macintosh® system you could afford was just a dream, then the new, affordable Macintosh LC is a dream come true.

The Macintosh LC is rich in color. Unlike many computers that can display only 16 colors at once, the Macintosh LC expands your palette to 256 colors. It also comes with a microphone and new sound-input technology that lets you personalize your work by adding voice or other sounds.

Like every Macintosh computer, the LC is easy to set up and easy to master. And it runs thousands of available applications that all work in the same, consistent way—so once you've learned one program, you're well on your way to learning them all. The Macintosh LC even lets you share information with someone who uses a different type of computer—thanks to the versatile Apple SuperDrive, which can read from and write to Macintosh, MS-DOS, OS/2, and Apple II floppy disks.

Take a look at the Macintosh LC and see what it gives you. Then pinch yourself. It's better than a dream—it's a Macintosh.

DEADLINE MARCH 11TH, 1991
Cohesion's Corner

By Glen Haerle

B.D. Posse holds top spot

Another week of competition is in the books. While some contests were close, others were major blowouts, and some teams even managed to break the 100 point mark.

Listed below is Cohesion's top 5 for this week. There are only 6 undefeated teams left. Unfortunately, only 5 can make Cohesion's Top 5. The sixth undefeated team, the Rho-PPg effects of not having scorer Julio Ramos and Galasso have been dominating under the opponent undefeated at 4-0, but have yet to play a tough opponent.

1. B.D. Posse 5-0
2. We All Dat 4-0
3. P.R.P. 4-0
4. Gamblers 6-0
5. Spyro Gyros 5-0

B.D. Posse is "pressing teams into losing big-score margins. They play smothering full court press that make it difficult for their opponents to get the ball past half-court. This team is so quick that they play tight man-to-man defense all the way up the court. The result has been an average margin of victory of 44 points. B.D.P. also has total control of the offensive boards. When their outside shooters aren't hitting, Amod Field, Will Jones and L.T. are going above the rim to grab offensive rebounds for easy layups. "We All Dat" are led by the two leading scorers of the NBA - John Clidy and IBN Muhammad. "We All Dat" has yet to play a strong opponent and has been breezing through their schedule. P.R.P. has been led by guards Bryan Gabriel and Pat Brunner and center Duke Harding. However, P.R.P. did receive a scare from winless TKE. TKE played P.R.P. tough and hung within 7 points for a good part of the game.

The Gamblers are paced with a balance of scoring. Even though they have not been scoring heavily, Troy Scott and Monte Perez have been playing their roles at power forward and point guard.

Moving into the top 5 is the Spyro-Gyros. The Spyro-Gyros have come through in the clutch during two close games. With an overtime victory over a tough Senate B team and a close victory over the Bros, this team is a gutsy team. This team has a balance of scoring. Ron Papa, Billy Fitzpatrick and John Galasso have been dominating under the boards while the backcourt of John Clarke and John Rubinetti has been dazzling.

The Zoo drops out of the top 5 with a 54-50 loss to the No-Names. The Zoo felt the effects of not having scorer Julio Ramos and lost a tough game. Frank Basile kept the Zoo in the game with his 3 point shots and ended up scoring 33 points.

Listed below are the top 5 scorers in each conference.

CBA
1. Brett Charlton Senate B 29.3
2. Bryan Gabriel PRP 20.3
3. Paul Doran Gym Rats 16.0

5. Iran Jones PRP 15.5
5. Tom Dudley No Names 14
2. Frank Basile The Zoo 19.6
3. Will Jones BDP 18
4. Tim McCarthy PRP 15.5
5. Amod Field BDP 15.5

NP
1. John Clidy We All Dat 25
2. IBN Muhammad We All Dat 16
3. Mike Weatherstone Gamblers 15.6
4. Scott Shepard Gamblers 14.6
5. Carl Buffalino Gamblers 13

---

The Bottom Line

By Matt Wintner

WLAF could break ground for NFL overseas

A game pitting the San Antonio Riders against the Barcelona Dragons at Montjuic Stadium lacks the flavor and fever that a Giants-49ers matchup has, but the World League of American Football (WLAF) is an idea whose time has come. While the vast majority of American sports fans will flip to a baseball game come springtime when that minor league football on a world stage, the WLAF will be viewed as casual internet fare, and that, combined with the backlash of the NFL, will be enough to make the league succeed.

The NFL learned from its early 80's competition and now defunct United States Football League that spring football could succeed with the proper financing and most importantly, the proper structure.

What the WLAF hopes to accomplish is to provide a minor league grooming system in which NFL teams can acquire players that were deemed as "projects" or those that "slipped through the cracks." For the players themselves it is a chance for a World League participant to earn a living (each player receives an average base of $20,000-$25,000, not including incentives which can earn a player an additional $75,000) for four months work. The salaries certainly won't provide economic stability for life, but it does give many athletes a chance to make a living after not knowing where to turn when the reality of not being NFL caliber material hits home. For some who think they are NFL caliber material, it's a chance to pick up a check, get needed exposure, and like the USFL hopefully be a stepping stone to the big time.

While the World League pay structure is low compared to what many athletes in team sports make today, this is the minor leagues of the NFL which is comparable to the pay structure in minor league baseball (AAA baseball players earn an average base of $17,500-$24,000 not including signing bonuses). The WLAF needs to adhere to such a league that "makethensilf" and doesn't "get swept up in the glory of having a nameless team." The WLAFhorserace is low compared to what many athletes in team sports make today, this is the minor leagues of the NFL which is comparable to the pay structure in minor league baseball (AAA baseball players earn an average base of $17,500-$24,000 not including signing bonuses). The WLAF needs to adhere to such a league.
Kean batters Red Hawks for season sweep

By Al Iannazzone
Staff Writer

In what may have been a preview of the NJAC Championship Game, the MSC women's basketball team lost its final regular season game to old nemesis Kean College, 56-50, last Friday in Union. It was the second time MSC lost to the Cougars this year. The Hawks finish the regular season 19-5, second in the NJAC at 14-4.

MSC played extremely well in the first half and took a 26-20 halftime lead despite having to contend with the rowdy Kean crowd. The Red Hawks played excellent defense and were able to control the boards. Cindy Poling, a 5'-4" sophomore guard, was a monster on the defensive boards, pulling down eight of her career and team high ten rebounds. She also did the job offensively as she collected six of her career high 13 points in the first half, including four during a 9-0 run helping MSC take a 22-15 lead with 2:53 remaining. Kim Wilson ended the half with eight of her team high 14 points.

The second half started off the same way. MSC went on a 10-0 run, led by Wilson and Poling's four each, opening up its biggest lead, 34-22 with 15:50 remaining. Kean Coach Rich Wilson had seen enough and decided to make wholesale substitutions, taking out his starting five and replacing them with five fresh bodies at 15:30 with the score 34-24. This move coupled with the Kean crowd becoming livelier and more obnoxious, ruffled the Red Hawk feathers as MSC watched its 12 point lead dwindle and finally disappear. Cathy Hayden, Rebecca Greer and Cindy Makowski led the onslaught for Kean. The trio combined for 20 of the Cougars next 26 points, including six each for Greer and Makowski during an 18-3 run putting Kean ahead 50-43 with 2:50 remaining. MSC attempted a late comeback as Tracy Moffet's two free throws cut it to 50-47 at 2:18. One minute later, Kim Wilson picked up her fifth foul and walked off the court as the Cougar faithful echoed "HEY! HEY! HEY! GOODBYE!" Veronica Rice scored the final six points for Kean and MSC fell to the Cougars 56-50.

Kean (21-2,17-1 NJAC) was led by Rice's game high 17 points and 12 rebounds. Makowski, Hayden, and Greer chipped in ten, nine and eight respectively. Moffet added ten for the Red Hawks while Shannon Shaffer, MSC's third leading scorer and second leading rebounder, was held scoreless and pulled down only four rebounds. Wilson, MSC's leading rebounder, had only five and just one in the second half.

MSC coach Jeffery was disappointed to say the least. "They (Kean) know how to win," she said. "We were playing not to lose and you can't win that way. It kills your confidence. In the last five minutes we were down only four rebounds. Wilson, MSC's leading rebounder, had only five and just one in the second half.

Many people are wondering what makes Kean so good, and no one seems to be able to explain how they are 21-2. Their leading scorer and rebounder, Rice, averages only 13.4 points and seven rebounds and plays only 25 minutes per game. How do they do it? It seems, as if it did this on night, Kean is very deep. This was one of the differences on Friday. Kean's bench accumulated 27 points, ten rebounds, four assists and five steals while MSC got nine points, four rebounds, seven assists and three steals from its reserves. The other difference on Friday was Kean's faithful, yet alarming fans. They go everywhere with the Cougars and could make anybody cringe. When an MSC player missed a foul shot they would bellow "DON'T THINK SO!" or "SURVEY SAYS: X-X-X!" They have posters around the gym that say "CANT TOUCH THIS!" and "RICH WILSON IS GOD!"

During Kean's 18-3 burst they were screaming "N-I-A-C-O-R-G!" to let everyone know Kean is trying for its ninth consecutive NJAC Title. If anyone defeats Kean, they most overcome a very sound, balanced team and very loud, boisterous crowd.

MSC knows this and it plans on taking one game at a time. In the first round of the NJAC playoffs MSC will face William Paterson, a team MSC beat twice this season. Jeffery said this was a tough loss but the playoffs start a second season. "We're going to work hard Monday, Tuesday and Wednesday and try to put the Kean game behind us," she said. "This is a brand new season and we're going to go back to what made us winners."

RED HAWK NOTES...MSC will host WPC tonight at 7:30 in Panzer. The winner of this contest will play the winner of the other first round game, between Trenton and Kean, for the NJAC championship on Saturday at 7:30 on the floor of the team with the better record. Let's show Kean, WPC and TSC that we have the most faithful, supportive fans as MSC strives for its first NJAC title.

Indoor track sets the pace at College Track Conference

By Paul Donefsky
Staff Writer

The MSC indoor track and field team competed in the College Track Conference Championships at Southern Connecticut University and some fine performances were seen enough and decided to make whole­ sale substitutions, taking out his starting five and replacing them with five fresh bodies at 15:30 with the score 34-24. This move coupled with the Kean crowd becoming livelier and more obnoxious, ruffled the Red Hawk feathers as MSC watched its 12 point lead dwindle and finally disappear. Cathy Hayden, Rebecca Greer and Cindy Makowski led the onslaught for Kean. The trio combined for 20 of the Cougars next 26 points, including six each for Greer and Makowski during an 18-3 run putting Kean ahead 50-43 with 2:50 remaining. MSC attempted a late comeback as Tracy Moffet's two free throws cut it to 50-47 at 2:18. One minute later, Kim Wilson picked up her fifth foul and walked off the court as the Cougar faithful echoed "HEY! HEY! HEY! GOODBYE!" Veronica Rice scored the final six points for Kean and MSC fell to the Cougars 56-50.

Kean (21-2,17-1 NJAC) was led by Rice's game high 17 points and 12 rebounds. Makowski, Hayden, and Greer chipped in ten, nine and eight respectively. Moffet added ten for the Red Hawks while Shannon Shaffer, MSC's third leading scorer and second leading rebounder, was held scoreless and pulled down only four rebounds. Wilson, MSC's leading rebounder, had only five and just one in the second half.

Indoor track sets the pace at College Track Conference

The MSC indoor track and field team competed in the College Track Conference Championships at Southern Connecticut University and some fine performances were turned in.

All season Coach Blanton had been frustrated by incohesiveness of the 1600m relay team. The highly talented freshmen Denise Drake, Carla Roberts, Yvonee Bradford and Sharon Lindo had shown they could tear it up alone but could not gel as a group. With a new change in order and the chance to qualify for the NCAA National Championship, the four runners finally put it together. They qualified for the championship and broke a school record with a sharp 4:00 minutes. As of this release that also gives them the fastest Division III time in the country.

Jaime Diaz placed second in the pole vault with a 14 footer, Yvonne Bradford placed second in the 400m dash establishing a new school record at 58.21 seconds. She also qualified for the NCAA championship and then came back to serve up the fastest 55m in the country with 7.20 seconds. Alcia Hennessy placed fifth in the 1500m, establishing a personal best with an unofficial 5:14 minute mark. Denise Drake also established a personal best in the 400m with a 59.78 second mark and qualified for the ECAC championship in Bowdoin College.

She also placed fourth in the 200m with an unofficial time of 26.4 seconds. ECAC championship qualifiers Shantay Brame and Shawny Brame ran almost identical (26.9 and 27.0 seconds respectively) scores in the 200m dash. Brian Major placed fifth in the high jump and Shawn Williams placed sixth in the 55m dash with 7.59 seconds; good enough for the freshman to get invited to the ECAC championship.

The team has one more meet before the individual qualifiers go to their respective championships. After some fine tuning at the Seton Hall Invitational, it's on to the ECAC and NCAA championships.

Women skiers off to Regionals

The 1991 MSC women's ski team has qualified for the Mid-Atlantic Regionals which will be held in Champion, PA this weekend. The team finished in the NJ College Ski Conference with a tie for first place with Columbia University. Top skier, Maureen Harrington finished 2nd place overall. Other skiers were: Michelle Williamson, Maria (Colegro), Tanya Troch, Liz Wallace, Marlene Kruger, Linda Plato, Lyke Swadba, Jodi Weinglass and Sue Sauter.

The men's team finished their 1991 season with a 5th place. Top skiers, Jeff Conover finished 3rd overall. This qualified him to compete as an individual in the regionals. Other skiers were Jeff Lunt, Tracy Kelm, Dave Vogt, Rob Caruso, Rick Bareca, Jon Moly, Scott Applegate, Dan Burns, Steve Frantz, Brent Fuller, Jack Tinari and Gerard Gomez.
