Crime wave hits campus

Two assailants still at large after mugging

by Sam Sheber

A resident of Blanton Hall was assaulted and robbed by two males as he was walking toward his car in parking lot 21 at 8 a.m. on Jan. 21, according to Campus Police.

The resident was approached by one male from the front and when he refused to hand over his money he was punched in the stomach and then in the back by another assailant. The two males took $50 and his American Express Card, according to Campus Police.

The first assailant was described as an African-American male in his late 20's, approximately six feet tall with a heavy build. The second was described as a Hispanic in his late 20's.

Dean of Student Affairs Edward Martin said that he is very concerned about the event and Campus Police are posting composite drawings of the suspects all over campus with hopes that the assailants will be identified.

"We are very surprised that the incident took place in daylight and there were no witnesses," Martin said.

Student arrested in book buyback scam

by Nancy Gannon

A resident of Boh Hall was arrested on three counts of theft from the Campus Bookstore on Saturday, Jan. 25, according to Campus Police.

Steven Sanders, 19, was charged with theft after he allegedly stole books from the bookstore and cashed them in at "Book Buyback" between Jan. 21 and 24.

Richard Ammerman, College Bookstore manager, said, "We first became aware of it when a number of new books were brought in by the same gentleman." Ammerman reported to Campus Police that Sanders had returned nine new books, and Campus Police arrived on the scene when questioned by Campus Police, Sanders said that he had stolen 11 books.

When questioned by Campus Police, Sanders said that he had stolen 11 books. Ammerman said that "Buyback Buyback" invites unfortunate incidents. "Buyback breeds the ability for someone to make quick money," he said.

Sanders was unavailable for comment. His hearing is set for Feb. 19 in Little Falls Court.

Dean of Student Affairs Edward Martin said that the outcome of the trial and a review of the student's behavior and academic performance will determine what will happen to him scholastically.

SPEECH WAIVER REGISTRATION

Registration for the Speech Waiver Evaluation will be on Feb. 24 and Feb. 27 from 10:00 a.m. to 5:00 p.m. and from 6:00 p.m. to 8:00 p.m. outside the Speech and Theatre Office, A126 in Life Hall. The evaluation, if passed successfully, satisfies the speech requirement. The evaluation takes place on March 25, there is a nonrefundable registration fee of $20.

WRITING LAB HOURS

The Writing Lab in Richardson Hall is open: Mondays 11a.m.-8 p.m., Tuesdays 11 a.m.-2 p.m. and 3-9 p.m., Wednesdays 11 a.m.-3 p.m. and 4-6 p.m., Thursdays 10 a.m.-2 p.m., Fridays 3-8 p.m., Saturdays and Sundays 3-10 p.m. Drop-in orientations are held: Tuesdays 11 a.m.-12:30 p.m., Fridays 10-11:30 a.m.

BOARD MEETING

The February 13 Board of Trustees meeting will include a report on the New Student Experience as well as the following action items: purchase of undergraduate majors in Communication Sciences and Disorders and Toxicology, and review of method of selection of student Board members.

INTERNATIONAL

It seems another Japanese politician has thrown a stick in the mud as the Japanese government has quickly tried to retract meaning from Prime Minister Kiichi Miyazawa's statement, "I have long thought that they (Americans) lack a work ethic...to live by the sweat of their brow." Maybe the Japanese will join America in the pit of looking at everyone else's problems but their own.

Scientists recorded the highest level of ozone depleting chemicals ever recorded over the Northern Hemisphere. The ozone could be destroyed by one to two percent a day during late winter periods with a possible destruction of 30 to 40% in total. This is the first serious threat of a hole directly over the United States and much of Europe. The ozone depleting CFC's are used in some industrial processes and refrigerants. Bromines are used in Halon fire extinguishers.

Three people were shot to death in the legal wing of the offices of the Irish Republican Army in Belfast. A leading suspect in the killings, a British anti-terrorist officer, was found dead.

Hundreds of former boat people were sent back to Haiti in the first wave of repatriation as the Supreme Court ordered the refugees to return home. The refugees say they will be in danger because coup leaders view them as supporters of the democratic government. The Supreme Court says the refugees only came to the U.S. because they were poor.

The Presidential primaries are heating up. If not for the Ms. Flowers incident this would be an almost if not completely issue oriented campaign. Several Democratic debates have yielded Arkansas Governor Bill Clinton as the leader with Paul Tsongas of Massachusetts a close second in New Hampshire. President Bush refuses to debate Pat Buchanan his only serious opponent in the Republican Primaries.

REGIONAL

N.J. has sent out 14,000 notices to people who may not have auto insurance. These are the first letters that were sent in a crack down on uninsured drivers. The Department of Motor Vehicles estimates that there are 400,000-600,000 drivers without auto insurance in New Jersey.

A substitute teacher in Irvington may have charges pressed against her after she allegedly performed a voodoo ritual on a 7th grade class and then threatened to burn down their homes. The children began itching uncontrollably and one student ran out to get the principal. Subsequently the principal returned to the class and dismissed the teacher.

Food stamp use in N.J. rose by 26.2% last year with 483,800 people using them, 126,800 of which are working poor. Since President Bush has taken office, the number of people accepting food stamps has gone from 18.77 million to 24.56 million.

The NAACP appealed to residents of Teaneck, especially African-American youths, not to react with violence if the police officer who shot Phillip Pannell, an African-American youth, is found innocent. One leader said, "We must let calm heads prevail and justice take its course."

Construction continues on schedule, completion date set at Fall 1993

by Maureen McGowan

The total cost of construction on campus will be $35.78 million, Barry Cohen, assistant president of Finance, said.

The project which is to create new buildings, the already completed access road, four additions to already existing buildings and extensions to several student parking lots, is being funded through three different outlets.

According to Cohen, $15.4 million will come through the Jobs, Education and Competitiveness Bond Act (JEC). Another $11.13 million will be borrowed from the New Jersey Educational Facility Authorization (NJEDA), and will be paid back at a 6.5% interest rate. "An extremely favorable interest rate to the college," Cohen said.

The final $9.25 million will be funded by locally generated MISC funds. Of this, $3.5 million will come from tuition increases that took effect in 1989 at one dollar per credit. The one dollar per credit increase will continue until fiscal year 1994.

Jerome Quinn, director of Facilities, said, "At long last we are going to be getting some of the facilities that a college of this size is entitled to."

Along with the new addition to Sprague Library, there will be additions to Life, McEachem and Calcia Halls. These additions total about 4000 square feet. All will be single level additions except for Calcia, which will be a double level extension.

A new Campus Police headquarters will also be built on the corner of Carlisle Road and Hearing-plant Way, Quinn said.

All construction could be complete either at the start of Fall 1993 or during that semester. At that time, there will be a number of changes on campus, Quinn said.

First, the new academic building will become the building for the School of Humanities and Social Sciences, leaving Russ and Partridge empty. Russ will become a 100 bed dormitory and Partridge Hall will hold classes for the School of Professional Studies.

Everything is right on schedule, Quinn said, and there have been no major set-backs.

Walter Rea, assistant for the construction managers, said, "Construction on Life and Calcia Halls is expected to begin in the spring.

Student reaction to this project varies. Lisa Arlotta, a Social Sciences major, said, "Almost every day a construction worker interrupts my accounting class to unplug his machinery. There should be less interference with class time from physical distractions, loud noises, etc."

Another senior, Helen Denise Chouinard, a General Humanities major, said, "Instead of destroying the campus landscape by extending Sprague outward, they should have expanded upward."

Quinn said, "Hopefully the campus will be tolerant of the disruption based on the realization that the end result will be worth it."

New traffic light to be installed on campus

by Maureen McGowan

A request for a traffic light to be placed on campus has been submitted to the New Jersey Department of Transportation by the college, Jerome Quinn, director of facilities, said.

The light would be placed at the base of the hill on Webster Road where it intersects with Carlisle Road. Webster Road will become a two-way street from Lot 14 to the light.

The change would allow faculty, staff and visitors who park in Lot 14 to exit the campus faster by avoiding unnecessary drive through the Quarry.

The approximate cost of the traffic light will be between $50,000 and $75,000, Quinn said.

"The light would be timed to favor traffic on Carlisle Road," Quinn said. It would be activated by a sensor in the ground that would detect a car stopped at the light and the signal would interfere less with the traffic trying to reach the Quarry and exits.

The plan for the traffic signal was reviewed and endorsed by the Campus Facility Master Planning Commission last year. Quinn said the next step was to send the request to the State Department of Transportation. They will assign a traffic engineer to determine whether or not the signal is necessary.

The determining factors include volume, speed and flow of traffic and the number of accidents that have occurred.

If the plan is approved he would like to have the light installed over the summer so it will be ready for next semester, Quinn said.

MONTCLAIR STATE - OFFICE OF RESIDENCE LIFE
SGA News:
President Reid addresses tuition increase to SGA

by Steven Gateward

President Irvin Reid said that the tuition increase should not exceed three dollars a credit in his address to the SGA last night.

He said that students will not have to worry about the increase due to a plan proposed by Governor Jim Florio. The new budget calls for an increase in funds given to higher education through the Tuition Stabilization Incentive Program (TSIP).

This program will have a budget of $30 million to compensate for the rise in tuition of state colleges. The TSIP will help stop increases beyond 4.5%. Of the $30 million, $1.4 million would go to MSC. With the help of this new program, Reid said that the student body of MSC should feel no increase.

Of all the state and private institutions in New Jersey only two state, MSC and Jersey City State, and two private, Monmouth and Rider, are slated for university status, Reid said.

He continued to say that when the idea originally came up to give university status to state colleges, MSC was on the list. The standards were considered by many to be strict so the Academic Affairs Committee lowered its standards. This enabled more colleges to join the list, but were still considered to be too high. They were again lowered.

Reid also said that whether MSC became a university or not would be decided by the Board of Higher Education. The final answer will be given in May or June.

Harassment:
Jan. 30- Resident of Webster Hall reported that she was being harassed by a former male student. He continually approaches her and asks her out. The matter is under investigation.

Jan. 30- Male student reported that he is being harassed by another student who was involved in a fight that he broke up at a local bar.

Bomb Threat:
Feb. 1- There were bomb threats at Freeman and Blanton Halls. The buildings were evacuated, nothing was found, and the residents were allowed back in.

Theft:
Feb. 4- A Suzuki jeep was reported stolen from Lot 22. It was recovered later that day in Irvington by Irvington P.D.
Feb. 4- A purse was stolen from Chapin Hall and later found in the women's bathroom. All the items in the purse were still there except for $25 in cash.

Criminal Mischief:
Feb. 4- A 1985 Chevy Camaro was found with its windows broken. The owner has not yet been contacted to check for stolen items.

JOHN'S BOX OFFICE TEAM

JIM'S STAGE CREW

DAVE'S SECURITY SQUAD

Sign up outside the C1C Office in the lower level of the Student Center Annex, Rm. 117, or call 893-4478 for more info. Class One Concerts is a Class I organization of the SCA
Job readiness seminar: “Job Hunting Tactics.” Free. 6:30-7:30 p.m. Student Center Annex 106.

CLEP Review Workshop: Mathematics. Three-hour review session to prepare for the College Level Examination Program. Open to new and prospective Second Careers and part-time students. Fee: $4 per session. 10 a.m.-1 p.m. College Hall 121.

Seminar: “Creating your Career Vision.” Free. 2-3:30 p.m. Student Center Annex 106.

Guest lecture: “Creative Expression: A Philosophic and Literary Approach” by Jacques Garelli, professor of philosophy at University of Amiens. Free. 3-5 p.m. Russ Hall, Kops Lounge.

Career planning seminar: “Getting into Graduate School.” Free. 2-3:30 p.m. Student Center Annex 106.

Job readiness seminar: “Interviewing.” Free. 11:30 a.m.-1 p.m. Also 6-7:30 p.m. on 2-13. Student Center 417.

Lecture: African-American Greek Forum. Free. 7 p.m. Student Center Ballrooms.

“Motion Pictures: Dances at an Exhibition.” Tickets: $2. 8 p.m. through 2-8. Studio Theatre.

Union for Lesbian, Gay and Bisexual Concerns meeting. 4-5:30 p.m. Calcia Fine Arts Building 209.

Montclarion general membership meeting. 6 p.m. Student Center Annex 113.

Chi Alpha Christian Fellowship meeting. 7:30 p.m. Student Center 411.

Calendar events are due in The Montclarion by 4 pm Tuesday. Events subject to change without notice.
The Campus Community Weekend
February 28-March 1

Tickets on Sale Weds Feb 12 - Feb 25 in the SC Box Office

"I learned so much..."

"It was incredible!"

"...Just do it!"

So what is the "Campus Community Weekend?" If you're not a new student to MSC, you've probably seen signs for "THE WEEKEND" each semester and wondered what's the big deal, or why you'd want to go, or what exactly is it. The Campus Community Weekend is a 30 year old tradition at Montclair State, sponsored by the Human Relations Organization, and open to ALL MSC students. Without notebooks, number-two pencils, or listening to boring lectures behind a desk, you'll have the opportunity to learn how to communicate more effectively, improve your leadership skills, and more effectively work within groups--with your friends, family, JOB, or even the Campus Community at Montclair State.

What you get out of the Weekend depends largely on what you put into it. It can even be an opportunity to get away from it all and relax. The cost of the Campus Community Weekend is $40 for MSC students, which includes meals, transportation and lodging at the facilities in East Stroudsburg, PA, and the professional trainers to help you learn the above-mentioned skills. Tickets will be on sale from Wednesday February 12th-Tuesday, February 25th in the Student Center Box Office (9 AM-5 PM), at the Pre-Weekend Workshop on Thursday, February 13th at 7 pm in Room 418 (Admission: FREE), or in the HRO office Room 403 (893-7348).

FINAL PAYMENT DEADLINE:
February 25th

HRO is a Class I of the SGA and is located in Room 403 of the Student Center (893-7348)
Death, destruction and disorder in the dorms

Decadence and deception. Sord of Jeffrey Dalmer meets James Bond kind of stuff. There are certain things you can do in the dorms that you can do nowhere else in the world and still get away with. Like um, say, projectile vomiting out your window, setting shaving cream bombs under the door of your neighbor, setting ablaze that mauve couch in the lounge - because maybe gives you the creeps - or walking the hallways with only a sock on your ding-dong proclaiming, "I am the Marshmallow God of the Underworld. Bow before me you pagan creeps - or walking the hallways with only a sock on your ding-dong proclaiming, "I am the Marshmallow God of the Underworld. Bow before me you pagan creeps." Things like that.

Now, for he is for me to encourage or rationalize such behavior, nor denounce it as the work of Satan. No, it's my duty to help you, my fellow surcine, avoid the wrath of certain special interest groups, namely your parental units, campus police and the residence life staff, by offering suggestions to keep yourself out of trouble.

It can be said that the ultimate solution for staying out of trouble in the dorms is to practice abstinence, that is, to become a reclusive hermit-like creature that shudders at the thought of watching an R-rated movie. But think of it this way: without mischief-minded individuals like ourselves, what exactly would be Campus Police's purpose on campus? Guarding President Red's house? Attentively checking sprinkler systems? Caring for the well-being of your neighbor, setting ablaze that mauve couch in the lounge - because maybe gives you the creeps - or walking the hallways with only a sock on your ding-dong proclaiming, "I am the Marshmallow God of the Underworld. Bow before me you pagan creeps." Things like that.

Now, for he is for me to encourage or rationalize such behavior, nor denounce it as the work of Satan. No, it's my duty to help you, my fellow surcine, avoid the wrath of certain special interest groups, namely your parental units, campus police and the residence life staff, by offering suggestions to keep yourself out of trouble.

Now, for he is for me to encourage or rationalize such behavior, nor denounce it as the work of Satan. No, it's my duty to help you, my fellow surcine, avoid the wrath of certain special interest groups, namely your parental units, campus police and the residence life staff, by offering suggestions to keep yourself out of trouble.

It can be said that the ultimate solution for staying out of trouble in the dorms is to practice abstinence, that is, to become a reclusive hermit-like creature that shudders at the thought of watching an R-rated movie. But think of it this way: without mischief-minded individuals like ourselves, what exactly would be Campus Police's purpose on campus? Guarding President Red's house? Attentively checking sprinkler systems? Caring for the well-being of your neighbor, setting ablaze that mauve couch in the lounge - because maybe gives you the creeps - or walking the hallways with only a sock on your ding-dong proclaiming, "I am the Marshmallow God of the Underworld. Bow before me you pagan creeps." Things like that.

### Rush/Pledge Events
- 2/6 Sigma Delta Tau Rush party in Student Center room 47, 7 p.m.
- 2/6 Sigma Tau Nu Rush in the Rat, 7-9 p.m.
- 2/6 Open House, Blanton Hall Atrium 5-7 p.m. Rush mixer with TKE, 8 p.m., Student Center Lobby
- 2/7 Rush mixer with AXP, 8 p.m., Student Center Lobby
- 2/8 Alpha Chi and Tau Kappa Chi Rush Mixer in the Rat, 8 p.m.
- 2/12 Pot Luck Dinner, 7:30 p.m., Student Center Formal Dining Room
- 2/13 Rush Mixer with Delta Chi, 8 p.m.
- 2/14 Bid Acceptance in Student Center Lobby 10-2 p.m.
- 2/20 Pot Sigma Phi and Sigma Psi mixer in the Rat, 8 p.m.

**Fundraising**
- 2/10/14 Sigma Delta Tau will collect donations for Make-A-Wish Foundation 2/2, 8 p.m.
- 2/10 Delta Phi Theta in the Rat, 8 p.m.

**Social**
- Reminder: NPC members may not mix or have any type of informal parties during Rush. Thank You. (M.P.C.)
- 2/6 Iota Gamma Xi mixer with Kappa Chi Fis from Caldwell College
- 2/10 Delta Chi mixer with Iota Gamma Xi, 8 p.m.
- 2/11 Alpha Phi Omega mixer in the Student Center Room 417, 8 p.m.
- 2/11 Delta Chi mixer in the Rat, 8 p.m.
- 2/12 Delta Chi and Iota Gamma Xi mixer in the Student Center, 8 p.m.
- 2/13 Delta Chi mixer in the Rat, 8 p.m.
- 2/13 Delta Chi mixer in the Rat, 8 p.m.
- 2/14 Alpha Sigma Alpha mixer in the Student Center Room 417, 8 p.m.

**Athletic**
- TKE vs. Tau Phi Beta on Feb. 23, 1992 Time TBD

**Philanthropy**
- 2/9 Alpha Omega Bowl-A-Thon for Make-A-Wish Foundation 2 p.m. - 3 p.m.

**Accounting Graduates**

**Graduate To A Higher Level of Learning**

Admit it. You’ve gotten a taste of how knowledge can open doors for you. Now meet UJB Financial. We’re a leader in the financial services industry, and have been opening doors, for customers and employees, at a very rapid pace. With a unique and a progressive outlook, we’re planning continued growth of our $13 billion in assets. Meet with our auditing experts and find out how you can be a vital part of it.

As an Auditor, you’ll be exposed to virtually every area of the company and discover unlimited opportunities. And you’ll find a spirit of collaboration, outstanding training, and a commitment to internal promotion. There are a lot of reasons for Accounting Graduates to learn from UJB Financial.

Find out all about them, when you join us on Friday, February 21.

For additional information, please contact your Career Center.

---

**RUSH TABLES**
- February 3-6, 10-13
- 10 AM - 2 PM
- Student Center Cafeteria

Come to table for Rush Party info 2/8 or call Lilie at 783-7980 for more info

Class III of the SGA
Focus on African Unity

by Karen Lee Stradtford

African-American Heritage Month recognizes African-Americans as a race, not just a color. It is celebrated in February to pay tribute to the many prestigious black people whose accomplishments paved the way for all African-Americans throughout the nation.

February was chosen in the 1920’s because of the birthdays of a few of our history’s outstanding leaders like W.E.B. Dubois, Booker T. Washington, Langston Hughes and Abraham Lincoln. “W.E.B Dubois was the man who originally came up with the concept of this month,” said Valerie Richardson, member of OSAU, (Organization of Students for African Unity).

To mark the month, many contemporary issues will be discussed from family lectures to parties, plays and movies. On Feb. 13, Dr. Mary Holley will deliver a lecture in the Student Center Ballrooms entitled, “Elderly African-Americans as Depicted in Novels 1950-1980.” Other talks include “Developments in Research on the African-American Family,” by Dr. Lorraine Mayfield-Brown and “Sexual Stereotypes in the African Diaspora,” by Dr. Gwendolyn Goldsby Grant.

Herbert Kemp, president of OSAU, hopes the events will not be forgotten come Feb. 28. “I would like everyone to take advantage of the messages which they bring, and I hope that they are not wily looked upon one month out of the year,” he said.

Richardson also hopes this month will spread knowledge about African-American culture. For instance, she explained that there are three different flags symbolizing African-American unity. The original flag, which was called “The Negro Flag,” consisted of purple with gold stars. Later, Marcus Garvey designed one with red, black and green: red representing the blood of the people, black representing the skin and the green representing the land.

Then in 1967, Melvin Charles designed a red and black flag with a gold sword which is said to represent the intellect of the people.

Although February is dedicated to African-American heritage, OSAU hopes all heritages will take the time to share in the many events that are offered to gain a better perspective about African-American culture.

For further information contact Herbert Kemp at 893-4198 or Dr. Saunders at 893-7378. For activity updates call the African-American studies hotline: 893-7827.

Above: Monday’s flagraising ceremony kicked-off a month long celebration in honor of African-American unity.

Right: Bishop Joseph Abel Francis, Chairman of the Peace and Justice Commission of the Archdiocese of Newark spoke at Martin Luther Convocation last Thursday. The event was sponsored by the Campus Ministry Council.
If last week is any indicator of crime trends on campus, then MSC students had better prepare themselves for some changes. Apparently, our college is no longer safe. We must take steps to protect ourselves. The first logical step would be taken at the College Store. Instead of that lightly travelled aisle of self-destructive pencil sharpeners and safety scissors, perhaps a personal protection center would be better-suited to meet students’ needs. The College Store could stock up on Mace, stun-guns, flak-jackets and protective headgear (preferably bat-proof).

After that, maybe President Reid could find room in the “Master Plan” construction budget to build an addition onto the fieldhouse which could serve as a shooting-range. The SGA could possibly rent handguns to students at a reasonable rate.

Students might also be persuaded to bring their dogs to school to serve as protection on trips between classes and to secluded parking lots. Perhaps a makeshift kennel could be constructed in the Student Center Quad. Entrepreneurial fraternities and sororities might even consider setting up dog-rental booths instead of selling M&M’s to raise money. Failing that, who knows? Maybe the Guardian Angels would be interested in setting up a chapter on campus.

The college might consider taking some steps as well. Lighting in parking lots, especially those remote, couldn’t get a better spot areas, could be improved. The parking lots could also use some security cameras.

Another idea would be to install emergency phones directly linked to Campus Police at regular intervals throughout the campus and parking areas. This would ensure the timely arrival of help. Campus Police have an awful lot of ground to cover, and by covering it blindly, they can do little more than fill out crime reports after the fact. Armed police is not the answer, a more effective police force is.

Of course, more Campus Police might be hired. But if that’s deemed too costly, at least their shifts might be more concentrated during evening hours.

Of course, the steps suggested to the college would come with a substantial price-tag, but there must certainly be a way to crunch numbers in order to ensure the safety of MSC students.
Men are pigs

A good friend of mine considers me to be pro-woman. He believes this because I believe in equality between the sexes and he doesn't. I don't mind if a woman, or my girlfriend, doesn't do what I tell her, if she makes more than I do or if she is better than me in any respect. My friend does. For him, women need to be put in their place and dominated by men. The day that his wife discovers him, makes more money than he does or doesn't stay home and raise his children will probably be the day when he puts her through a wall. And he is quite capable of doing this.

Due to my beliefs, I took a Women's Studies class last semester. For the first month of the course, I would come home and talk about all of the feminist issues that I was studying. My friend quickly espoused his philosophy and, of course, arguments ensued and I was almost put through a wall. But as the class went on, I found myself agreeing more and more with some of his less drastic beliefs.

The course was supposed to be focusing on the relation of women to a particular topic. What it ended up doing was lamenting the hardships faced by women in a hundred different cultures and detailing how men have always tried their hardest to suppress women. Soon it developed into a lesson on the evil of mankind and the stupidity of men in their "suppression of women." Women, I was informed, are much better at cooperation and communication than men. Therefore, they should be ruling the world in place of men. What this course seemed to miss entirely was the equality of the sexes, which I thought was integral to the feminist issue.

It also ignored the fact that women themselves are not perfect in their thoughts and actions. In my opinion, men and women are intellectual equals. Men are not smarter than women because of their sex, and likewise, women are not better than men in any area because of theirs. The two are equal. Cooperation and communication are individual qualities. I know both men and women who are stubborn and stupid. Women cannot rule just because they are women. These tasks must be shared equally. A complete reversal of our present system is not the answer to any problem.

"The evil of man" are many and diverse, or so I was informed. I agree that, throughout history, man has kept women from equality. But why? Men are physically stronger than women, therefore men fought wars and did the most demanding physical labor. Men were forced into a situation of providing for and protecting women as our species evolved. The conditions of life were the cause for these developments. The men of humanity did not get together and say, "Okay, let's keep these women under our thumbs.

If we don't, they won't let us have war or sleep with them." Men were forced by circumstances of natural progression into a position of authority. Women were oppressed. Today, however, we live in a new age. It is time for understanding and equality.

Overall, the feminist class that I took has placed me further away from the ideals of feminism. Their logic is too inconsistent and their actions do not support their ideals. If they want to be equal, then they will also have to break some of the traditions in which they are set. Bathing all males while making matters of womankind will do little to achieve equality. More than ever I see women being in their own struggle for equality. Could it be that women like to think of themselves as equal, but don't actually want the responsibility of equality? I don't know. I just know that I spent almost $300 to learn about how women are so oppressed by men and how unwilling they are to do what is needed to be done to change their situation.

America's been Bushwhacked

Of President Bush, what do we say? I remember the phrase, "If you can't say something nice, say nothing at all." I'm tempted to end my column here, but wait. He looks good for a man in his sixties, his suits fit well and he's not a mass murderer. Well, maybe I'll nix that last one.

I used to think George was a decent President. But after four years of failed promises, I think he is, at least politically, a jerk. Bush promised to be the environmental President but his record shows much the opposite. Bush has praised for oil exploration off the coasts of New Jersey, Florida, California, Oregon and Washington, all extremely fragile ecosystems. He has also called for the quest for oil to be taken to the Alaskan National Wildlife Refuge, one of the most sensitive and pristine areas of the entire world.

His administration has also permitted oil, timber, mining and paper companies to buy tracts of land in and around our national parks for such things as Domino's pizza boxes. Evidently, a very wise use of our natural resources.

George also has fallen short of his promise to plant four billion trees by, hey, guess what? Four billion trees. Mr. Bush has also decided to do nothing to prevent the depletion of the ozone layer because there is insufficient "data" on the subject. He has also tried to loosen regulations on mileage and emissions of American-made cars.

Aside from those failures, our President has sat back and watched our economy slip into oblivion. He chose to make like Herbert Hoover and not act or even admit that we are in a recession until almost a year after the fact. No, Georgey likes to come up with tax breaks that he says will cause the rich to invest and, in turn, put us back to work. Yet despite portraying this scheme as a cure-all for the little guy, it is more aptly described as a tonic for the rich. Put the poor and middle class to work so we can make some spending money, so we can buy things and increase demand which, in turn, will result in an increase in workers to meet the demand. In short, our President prefers to take the scenic route to economic recovery, a route that runs through the bank vaults of the rich.

Bush also has failed in dealing with Europe and Japan when it comes to trade. Rather than seek ways to inject impetus into research and development, he has chosen to bash and cry out about unfair trade. Talking tough, getting little concessions and, by and large, doing nothing.

About his morals all that I have to say is that he headed the C.I.A.

Watch as times get tougher and Georgey's popularity slips even further; a sudden military victory somewhere could suddenly pop up to ensure a victory in the fall. It is all too obvious that the Bush administration is reaping what it sowed.

By and large, Mr. Bush has done nothing except make and break promises. When he has done something, it has either been nothing or too late. He must take the blame for the defeat of the C.I.A.

Mr. Bush, don't do things for the sake of doing them. Get off your self-pity phase and get us out of the mess we find ourselves in. We need a leader who will do what is needed to be done to save our economy, to save our jobs and to save our natural resources.

George Bush is a Presidential candidate. He is a Presidential candidate because he has a name recognition. He is a Presidential candidate because he is a member of the most powerful family in the land. He is a Presidential candidate because he has a record of some accomplishments. And, as a Presidential candidate, he needs to be ready to face the issues that face our nation.

He needs to be ready to face the economic problems that face our nation. He needs to be ready to face the environmental problems that face our nation. He needs to be ready to face the social problems that face our nation.

If George Bush is re-elected it will probably be the beginning of the end for the United States of America, maybe even the world. Only David Duke could be worse than Waldo...oops, I mean Bush.

The hideous manner in which our government has been neglecting our nation's ails is sickening. Promises will get us nowhere; we need action. Mr. Bush is not a man of action; he is a man of words, words that his constituency wants to hear. He has flip-flopped on abortion from his pro-choice position of the late 60's early 70's. He once called Reagan's economic plan vodka economics when running against him in the 1980 Presidential primaries. Shortly after he accepted Reagan's offer to be Vice-President and supported the very same economic plan.

Is this a man we want as President? Is this a man we should have as President? No! Tough times call for a President who is decisive and not afraid to make enemies with his decisions. We need a person willing to engage and defend themes in open debate, not a public opinion puppet.

The Montclarion Thursday, February 6, 1992

OP-ED/LETTERS

LETTER...

Police at fault in fraternity fracas

A new spectator "sport" is sweeping the nation. Major networks are beginning to carry these events to our homes. In fact, I'm sure you have seen at least one of these events live and up close at one point in your life. This "sport" is not a competitive event. Actually, there isn't any sportsmanship involved. It is the negligence and brutality displayed by those whom we depend on to protect us and keep peace in our civil society, our police officers.

We have seen negligence and brutality in state, county, and city police forces. Should we be surprised to see this behavior in our own campus police? I wasn't. Relatively speaking, the job of an MSC police officer is not terribly dangerous or as complicated as other sectors of police work.

It's enough that these poor finks endanger themselves on hazardous parking ticket patrols and taking reports on incidents they don't prevent.

So why should I have been surprised to find that a true crisis situation was poorly handled by MSC's finest?

It all began on the night of Feb. 1, in the student center bellows. A social gathering was held by an MSC sorority fraternity. Five MSC police officers were employed by the sorority and fraternity in accordance with campus policy.

After determining that the gathering had exceeded capacity, the MSC police officers ordered those organizing the party to disperse all in attendance. One of the factors in their decision making was an inside door that was left unattended. The officers suspected that people hadentered through it.

Why was this door left unattended? Who's responsibil-
I drove back around Sprague Field and up past Panzer Gym, gave the little man in the brown van a salute with my little finger of fate and pulled into a teachers' lot.

Environmental Theater
Act 1; Scene 2
"The cashier writes back"

After reading the first, and hopefully the last, installment of "Environmental Theater", I felt a reply from the silent majority was necessary. Dr. Arlene King stops into the C-store and sees some plastic holders for six-packs in the garbage. So what? A couple of ducks or seagulls out of millions might die. In the midst of a recession, who really cares? I think it's the taxpayers who are really saddled with the cost of this waste. This extra expense would raise the already high prices in the store. Is everyone really willing to pay higher prices for the sake of a couple of seagulls? I hope not.

I'm sick and tired of these vegetarian, environmentalist radicals dictating to me how I should live each minute of my life. They would rather see students suffer from an insufficient library than see a dozen trees die. If they want to save trees or following rules that are as arbitrary as the polka dots one big crowd with no one in control. Why can't we hire other officers became involved, and the incident became one big crowd with no one in control. Why can't we hire other officers became involved, and the incident became...
Motion Pictures moves gracefully: multi-media production great success

by Sandra Cammilleri

Art truly lives in Motion Pictures: Dance at an Exhibition. Presented by MSC’s Experimental Theatre Society, this multi-media production combines dance, theatre, video and art to create an exhilarating spectacle.

In an exclusive preview, the show was performed on Tues. Feb 4. The story begins when a young couple visit a magic gallery and suddenly become transformed into living paintings of such masters as Botticelli, Picasso and Magritte.

Swept into a quest, the couple is metamorphosized into the warrior and the maiden where they journey into their own hearts and dreams.

Ruth Clark, a faculty member in the dance and theatre departments conceived, choreographed, directed, and wrote the script for Motion Pictures. Her original concept was inspired mainly by Joseph Campbell’s book, Power of the Myth.

This is her third dance and theatre piece for MSC. In a recent interview, she commented about the collaborative effort necessary for the success of the show. “The whole team has taken the project to heart. Every person threw themselves into it. It has become our play,” she said.

Motion Pictures elevates art. It’s a well developed and meaningful piece. The music is intense and dramatic. The dancing, which dominates throughout most of the performance, is soft and sensuous at times, and pulsating with passion in other moments. As the story is acted out in dance and dramatic form, a visual media image is simultaneously seen.

The actors’ and dancers’ movements are superimposed on the screen as the masters’ works are being rendered. The coordination of what is shown on screen with what happens live is finely crafted. There is an integral synchrony which binds the performance.

The starring roles are performed by George J. Abbeid as the warrior and Jennifer Citrà as the maiden. Co-starring in the production are Jason Groote as the fool, Kathryn Taylor as the priestess and Eric Schmitz as the magus. The dancing muses pulsating with passion in other moments. As the story is acted out in dance and dramatic form, a visual media image is simultaneously seen. The actors’ and dancers’ movements are superimposed on the screen as the masters’ works are being rendered. The coordination of what is shown on screen with what happens live is finely crafted. There is an integral synchrony which binds the performance.

The next night he’s having supper with his family. He’s sitting at the table with his mother and father, his grandfather, grandmother, and his three brothers when there’s a knock at the door.

“Regina putana! Like a fool he’d told her words, “It’s a visual and kinetic program. I must be stressed that what really makes Ellis Island Then and Now shine is not only Spencer’s colorful imagination, but her direct language, unique characters, flowing sentence structure and sequence of events, not to mention overtones in conveying emotions.

One prime example of this “Spenceresque” style can be found from lines 9-23 of a story entitled, “Pasquale” on page 34: “Regina putana! Like a fool he’d told her words, ‘It’s a visual and kinetic program. I must be stressed that what really makes Ellis Island Then and Now shine is not only Spencer’s colorful imagination, but her direct language, unique characters, flowing sentence structure and sequence of events, not to mention overtones in conveying emotions.

The next night he’s having supper with his family. He’s sitting at the table with his mother and father, his grandfather, grandmother, and his three brothers when there’s a knock at the door. In comes Don Lorenzo, the priest. On one side is Regina’s father and on the other, her older brother, that pig Giorgio.

“Pasquale leaned over and spit down his hand in.” Kari A. Schultz, a graduate student in most exciting events I’ve ever taken part in.”

Performances for Motion Pictures run on Feb. 6, 7, 8 at 8 p.m. in the Studio Theatre. For more information, call the box office: 893-5112.

A literary travel: Ellis Island Then and Now

by Tom Boud

Ellis Island Then and Now is a fictional but insightfully retrospective tribute to the vast number of immigrants who ventured from the Old World to the New World in search of a better life.

Originally published in 1988, this 68-page-long voyage takes us through the daily challenges of immigrants coping with their final hurdle to a chance at success in the United States. This work taps the vivid imagination of co-author Dennis Toner. Besides Spencer’s style, there is Toner’s

The Winter Games are always something to look forward to. The everlasting conflict between the United States and Russian hockey teams (I was fortunate to watch the 1980 upset), the ski jumps, speed skating, et cetera - will all be here Saturday. Everyone has their own favorite sport, I like the hockey games. My friend Sue is the figure skating. Some others like the hot dogging in the stands. It is 1992. Not only is it an election year (a source of television entertainment in itself) it is also an Olympic year. Next week, those five colored rings will be beamed across the world as athletes from the four corners of the globe compete for the gold medal.

Anyway, it was just after noon on that particular day. As I was about to get up from my seat to get something to drink, I heard a noise. I looked around and saw a man in a blue shirt walking towards me. He introduced himself as John Luttropp, a professor in the graphic arts department.

Luttropp: And there are a lot of great shows open to the whole college but most of the time it's just the art student that show up.

Montclarion: It seems to me there's a communication problem...

Luttropp: Yeah, I think so...

Jonathan Levine: (Alas, our protagonist speaks.) Yeah, I mean the information is only posted in this building so other people outside this building don't usually know it.

Luttropp: I think the art department sort of has a problem that we're hidden over here and a lot of people don't come through the building.

Montclarion: Let me move onto something more closely related to the theme of my story which is, of course Jonathan. Do you presently have Jonathan in one of your classes? If not, what is your relationship to him?

Levine: No. I've never had any graphics classes.

Luttropp: Jonathan was really instrumental in setting up that A.C.E. arts group however, and I've worked with him on that because I'm the advisor for that organization, which turns out to be a lot of fun. It gives me the opportunity to meet other students that I've never had in my classes. That is very important to me.

Levine: That one's called "The Hoodoo." That one's real rustic... The Hoodoo. At this point, I approached an unexpected environmental studies major, Leon Altiparmakian, who very gracefully offered to show us the exhibit.

Levine: The colors are stupendous! Definitely come by Life Hall!

Montclarion: It seems to me there's a communication problem...

Luttropp: Yes, I think so.

Levine: That one's called "The Hoodoo." It's got an expressionistic quality to it. I don't particularly care for the palette the individual used, I mean, it's got a texture to it and the theme is music...

Levine: You gotta understand y'know, how skating...a war...oh yeah, I remember: Actu-...not really...French Riviera...what did he set out to do by capturing the essence of New Orleans' Red Light District.

With its music, eroticism, superstition and nature of painting itself has a sexual quality...

Levine: Definitely an erotic quality. The nature of painting itself has a sexual quality to it.

Montclarion: I like this one over here with the religious icons...

Levine: That one's called "The Hoodoo." At this point, I approached an unexpected environmental studies major, Leon Altiparmakian, who very gracefully offered to show us the exhibit.

Levine: "The colors are stupendous! Definitely come by Life Hall!"

Montclarion: It seems to me there's a communication problem...

Luttropp: That one's called "The Hoodoo." It's got an expressionistic quality to it. I don't particularly care for the palette the individual used, I mean, it's got a texture to it and the theme is music...

by Joe Ventola

Blind Conformity of Conformity

Blind is the current release from Conformity. The best way to understand this album is to first drink a bottle of Jack Daniels and then as calmly as possible put your head in a blender. This is the only way to describe the whirlwind of metal-trashing madness that you will encounter. The sounds are dark, angry and violent. Perfect for a day of moshing, or possibly some stage diving off three-tier speaker stacks.

But do not be fooled; this is not for the pre-teen headbanger. This music with a materialistic accumulation. In support of the powerful revolutionary message. The title speaker stacks. This is the only way to describe the whirlwind of metal-trashing madness that you will encounter. The sounds are dark, angry and violent. Perfect for a day of moshing, or possibly some stage diving off three-tier speaker stacks.

But do not be fooled; this is not for the pre-teen headbanger. This is music with a materialistic accumulation. In support of the title, all the cuts on the album attempt to get listeners to overcome their own blindness and consider the problems that such conformity creates. To an even greater extent, the album tries to teach what taking a stand against this social acquiescence really means. Cuts such as "Dance of the Dead" and "Buried" expound these ideals vigorously. This music is not music for those who wish to be pacified or entertained. It is for those who want to bang their heads, both physically and mentally.

In all, few bands can trash with the likes of Pantera and Overkill, yet Conformity proves to be one of the few. The sound is aluminum siding of heavy metal. Not quite trash, not quite pop rock.

Self-professed "Suburban White Alcoholic Trash," the band claims to hate the seriousness of current rock music. In turn, they write songs to reflect this ideal. The album tries to teach what taking a stand is, "Are you hardcore enough for the album?". If you think so, buy it, and then do far worse than purchase this softcover gem. Anyone interested in buying "Ellis Island Then and Now" can contact Dr. Sharon Spencer at 893-5151.

As Ugly As They Want to Be Ugly Kid Joe
Star Dog/ Mercury

Records

As Ugly As They Want to Be is the five song EP release from Ugly Kid Joe. The EP is an attempt to reproduce the comical style of rock that Scatterbrain has had such success with. Unfortunately, it falls undeniably short. (Interestingly, Ugly Kid Joe is currently on a club tour with Scatterbrain). The sound is aluminum siding of heavy metal. Not quite trash, not quite pop rock.

Self-professed "Suburban White Alcoholic Trash," the band claims to hate the seriousness of current rock music. In turn, they write songs to reflect this ideal. The album is hardcore metal and the best question is, "Are you hardcore enough for the album?". If you think so, buy it, and then do far worse than purchase this softcover gem. Anyone interested in buying "Ellis Island Then and Now" can contact Dr. Sharon Spencer at 893-5151.

Ellis Island from page 17

music which is sprinkled throughout the book. Exclusively using black-and-white film to enhance form, he focuses on scenes of dilapidation and disrepair. The result is a "phoenix effect" where Spencer's creative ability reanimates the deadness conveyed by Toner's pictures. All in all, I loved Ellis Island Then and Now because it's an imaginatively crisp reflection of our past. For $10.95, you could do far worse than purchase this softcover gem. Anyone interested in buying "Ellis Island Then and Now" can contact Dr. Sharon Spencer at 893-5151.

MSC athletes earn NJAC honors

**SWIMMING**

John Mitakas, a junior, led the Red Hawks to an easy win over St. Francis on Feb. 1 by finishing first in the 200 individual medley and 100 freestyle. He also swam the second leg of the victorious medley relay, as MSC improved to 8-2 and set a school mark for victories.

**MEN'S BASKETBALL**

Lee Mulkins, a junior guard, averaged 17 ppg, including 19 points and 10 boards in MSC's victory over Rutgers Camden 60-55.

**WOMEN'S BASKETBALL**

Judy Stair, a sophomore forward, averaged 15.5 ppg, including 19 points in a loss to Rutgers Camden on Feb. 1. Shor 9-for-14 from floor against the Pioneers and averaged 7.5 rpg for the week.

**SPECIAL ANNOUNCEMENT**

Heather Jeffrey, assistant field hockey coach and graduate assistant in the athletic department, received the second William P. Dioguardi award at halftime of the men's basketball game vs. Ramapo on Tuesday night. The award is given to an athlete continuing education at the graduate level. Jeffrey, who graduated MSC in May of 1990, was a former two-time All-NJAC pick in field hockey.

William P. Dioguardi passed away in 1987. He was a former baseball coach and athletic director for MSC.

**Computer Science Graduates**

If You're In The Dark About An EDP Audit Career, We'll Show You The Light.

If you're a bright, aggressive, and technically skilled Computer Science Graduate, we can sum up your future in three little letters, EDP. Because EDP Auditing is a dynamic way to set your data processing talents in sync with the fast paced business world. And you won't find a company with a better career than UJB Financial.

We're coming to campus to talk with students like you about our EDP Auditing opportunities. These growth-track positions involve participation in the audit reviews of our data processing centers and ongoing development of systems, software and applications.

If you're expecting a degree in Computer Science, and preferably have taken some accounting courses, we'd like to meet with you on Friday, February 21. And find out about our commitment to internal growth.

For additional information, please contact your Career Center.

**Wrestlers grappling with mediocrity**

Supplied by Sports Information

After splitting two matches last week against TSC and Rutgers Camden, the Red Hawk wrestling team finds itself with an overall record of 8-8 and a 2-1 record in the NJAC. At home against conference-leading TSC last Thursday, MSC was pinned with a 25-15 defeat, placing the team in third place in the NJAC. The Red Hawks did, however, bounce back to crush Rutgers Camden on Saturday by a 32-11 score.

When coach Steve Sreeliner asked what goals he had set for the season, he said, "The goal set is to be NCAA Division III Champions and to defend the NJAC Championship." While these are admirable expectations, the reality is that the team is very young. The overall record of the freshman who have seen action so far is 10-22-1. Here's a look at the individual records of the 1991-92 Red Hawk wrestlers:

Basketball's Gaspar follows through on his dreams

by Michael Fracco

By coming to the United States with very little knowledge of the English language, Carlos Gaspar displayed tremendous courage. He left his family and friends in his homeland of Malaga, Spain to pursue some big dreams. Dreams so big, most would consider them to be out of reach or simply not consider them at all.

However, Gaspar's case is different. The 25-year-old, now an MSC graduate student in physical education and a member of the men's basketball team, has overcome many obstacles since enrolling at MSC in the fall of 1988.

Two of Gaspar's lifelong dreams were to obtain a degree and to play basketball at an American school. He never lost sight of those dreams. So in the summer of 1987, when Gaspar came across an ad in the newspaper for an American basketball camp to be held at MSC, he immediately knew this was his chance to make his dreams become reality. "I had a dream to come here and play basketball," Gaspar said.

Therefore, after receiving financial support from his family, Gaspar attended the camp that summer and also pursued his interest in earning a college degree despite having minimal knowledge of the English language. Fortunately, the communication barrier did not stop Gaspar. While attending the camp, he was overwhelmed with MSC's sporting facilities as they were much superior than those back in Malaga. Gaspar was also quite impressed with MSC's academic programs and, as a result, he enrolled at MSC for the fall 1988 semester.

After a brief return to his family in Malaga, where he made final arrangements for his stay in the United States, Gaspar was ready to live his long-awaited dreams. But he was now coming to a country whose language he could barely speak, let alone understand. "It was frustrating. I imagined the meaning of the sentences and sometimes I understood," Gaspar said.

Yes, probably Gaspar's biggest challenge came in the classroom. In his first semester at MSC he carried 15 credit hours. But how could he possibly comprehend what he was being taught? "I sat in front of the class and watched the teacher in total attention," Gaspar said.

To overcome the language barrier, Gaspar carried a Spanish-English dictionary to class with him, constantly looking up words to try to get some understanding of his teachers' lectures. In addition, Gaspar said he always asked for extra tutor hours and took plenty of notes as well. He received a phenomenal 3.8 GPA in his first semester.

Ever the over-achiever, Gaspar enrolled for 24 credit hours the next semester with special permission. Less than one year in the U.S. and still learning the English language, Gaspar blew the doors off College Hall, as he earned an incredible 4.0 GPA.

What's more amazing is that Gaspar was also putting forth the same amount of effort on the basketball court, as he was in the classroom.

The 5'10" 180-pound guard could often be found in Panzer Gym exhibiting his skills and discipline for his coach at the time, Ollie Gelston. It was Gelston who gave Gaspar a chance to realize his dream of playing basketball. "Coach Gelston is special to me. He gave me an opportunity to play on the team. I appreciate that, because if I didn't play basketball here, I might not have stayed here more than one year," he said.

The two developed a special relationship during the time they were player and coach and their friendship is still one of mutual respect, as Gelston openly admires. "Carlos is truly an outstanding individual and a delight to be around. I thoroughly enjoyed coaching him and I'm sure it is a friendship and a relationship that will continue for a long time," Gelston said.

Gaspar, now an MSC graduate student in physical education, has overcome many obstacles since enrolling at MSC in the fall of 1988.

As much as Gaspar values friendship, he values the game of basketball. His love for the game goes so far, that he plans to be a part of basketball in some way in the future. "Basketball is my life. My job is going to be in basketball," Gaspar said.

Gaspar is currently preparing for his future, as he is working on his master's degree in Teaching and Administration of Physical Education, which he will complete in June.

His thesis for his degree entails a goal which he hopes to achieve, at some level, in the future. At the highest level, the goal would be to organize an NCAA in Spain, as Spain has no organized competition for its college sports. Gaspar realizes this is a huge task, therefore he plans to target university presidents in his home city of Malaga first.

He feels confident he will receive good feedback. "MSC gave me a degree and in Spain they will respect me for that," said a positive Gaspar.

However, before Gaspar returns to his homeland, he admits he owes a great amount of debt to the people of MSC who helped him realize some of his dreams. "I want to thank all my teachers, friends and people in Panzer Gym for a chance to learn, play and have fun," Gaspar said.

You have got to believe, in at least a small way, that those who have been associated with Gaspar, will have also gained something positive from him.

MONTCLAIR STATE COLLEGE • SPRING 1992 • PSYCHOLOGICAL SERVICE • GILBERT HOUSE • (201) 893-5211

PERSONAL GROWTH WORKSHOPS

The Psychological Services Center will offer eight workshops designed to help students manage academic stress and develop their potential. Most will meet one hour a week for six weeks.

SELF HELP WORKSHOPS

Adult Children of Alcoholics

Participants will have the opportunity to think about how their development was different from that of others, how they can break the cycle, and how they can more effectively deal with the alcoholics in their families.

Time: Fridays at 12 noon. This group will meet each week, and you can join in at any time.

Overeaters Anonymous

This is a support group for people who need help understanding and overcoming their problem of compulsive eating.

Time: Tuesdays at 1:00 p.m. This is an open meeting that you can join any time, and it will meet each week.

Saying Goodbyes

A workshop for those who have experienced the death of a loved one or are coping with their eventual death.

Time: Tuesdays at 10:00 a.m., beginning February 25, 1992.

WORKSHOPS DIRECTED BY OUR PROFESSIONAL STAFF

Overcoming Academic Stress

This workshop will focus on students' feelings in the exploration of transitions, choices and values in their lives.

Time: Thursdays at 1:00 p.m., beginning February 27, 1992.

Parenting

This group is designed to help parents improve their child-rearing skills and to be better able to cope with the demands of parenting in contemporary society.

Time: Wednesdays at 1:30 p.m., beginning February 26, 1992.

Women's Workshops: Transitions, Challenges and Choices

This workshop will focus on women's feelings in the exploration of transitions, choices and values in their lives.

Time: Thursdays at 10:15 a.m., beginning February 27, 1992.

Survivors of Destructive or Abusive Families

A group for women and men who have experienced destructive emotional patterns and/or emotional, physical or sexual abuse in their family life. Whether your experience was mild or severe, this is an opportunity to explore how you feel your family experience has affected your life and where you want to go from here. Call Dr. Karl at Psychological Services and leave your first name and phone number to reserve a space.

Time: Thursdays at 4:00 p.m., beginning February 27, 1992.

Learning to Think Optimistically

This workshop is for people who want to make better recoveries from their disappointments and failures by examining and changing the way they think about them. It is not for those who want to fool themselves by thinking everything is rosy, but rather for those who want to change habitual patterns of negative thinking so as to behave more optimistically and feel better.

Time: Fridays at 4:00 p.m., beginning February 28, 1992.

HOW TO SIGN UP:

To reserve a place in a workshop, call Joan Morrow at the Psychological Services Center, 893-5211.
All-star should sit out the game

More than 55,000 fans believe. For the last 12 seasons I've believed. But now, I think it's time for us to stop; we must all stop believing!

On Sunday, at the 42nd annual NBA All-Star Game, the fans voted for it and, voilà, they got it. The Western Conference will be led by a very familiar face, a wizard, if you will.

Abra-cadabra, he retired and then hocus-pocus, he's playing again! Wow! It's almost mystical!

The All-Star Game is supposed to be a reward for those players who have had a great first half, or so I thought. The fans voted for a man who hasn't played a single game this season. In fact, he's retired. What's going on?

I can hear it now. In front of 16,000 screaming fans at The Orlando Arena, the PA will announce, "Playing in his 12th and final NBA All-Star Game, despite retiring after testing positive for the HIV virus, from the Los Angeles Lakers, Magic Johnson!"

"C'mon Magic, I thought you hung them up!"

On Nov. 7, when Johnson retired from basketball, I was among millions who were saddened and who applauded his courage and class, but now it's gotten old. Magic was a great player, but he retired. It's time for the young turks to get their chance.

I know Magic transcended the game and brought it to a new level in terms of popularity. But he's retired. The NBA is just throwing him a bone. Hey Magic, thanks for everything. What's going on?

Men swimmers splash into record books, while women swimmers hold their own

by Jim Kloose

When Brian McLaughlin took over the head coaching reins of MSC's swimming program three years ago, he didn't have much to start with. The women's team finished the 1988-89 season with a dismal 0-10 record while the men were just slightly better at 3-7.

Now here it is, just three years later and the fortunes of both teams have improved dramatically. Both teams posted victories at St. Francis last Saturday afternoon. The men finished with a 5-6 record, their best record in this year. The women posted a 5-6 record, their best record in BIG EAST history. The Lady Hawks also have cause for celebration. In their 113-90 victory over St. Francis, they displayed an enthusiasm which has not been seen in quite some time. Talented individuals like Sue Hoffman, Yardenya Yadin and Marianna Krvakov lead a women's team which is progressing nicely.

"We've known all along that our women swimmers were going to turn a few heads," McLaughlin said. "I think that's going to continue at the Metro Championships this weekend."

The Metro, which will be held at the United States Merchant Marine Academy facility in Long Island, will involve all the top swimming teams in the area. The women will kick off the event Feb. 6-8, and the men will follow suit two weeks later, on Feb. 21. The Lady Hawks finished in eighth place last year while the men took seventh. McLaughlin and his staff are confident both teams will fare much better this time around.

"I don't see any reason why the men won't crack the top five," he said. "And our girls have a chance at doing the same thing."

The finish times in the Metros will determine which individuals will be invited to the NCAA finals this March, in Buffalo, NY.
Women's basketball edges Ramapo 40-37
by Jim Klossek

The women's basketball team strengthened its chances for an NJAC playoff berth on Tuesday night by defeating Ramapo College 40-37 at Panzer Gym. Jeannie Mullally scored two key baskets with under one minute remaining to cap off a 23-7 run by MSC to preserve the victory. The Red Hawks trailed for most of the game, but fought back to tie the score at 30-24 at the half, thanks mainly to an aggressive defense which forced Rutgers Camden into committing 15 turnovers. However, things fell apart quickly for MSC in the second half as Rutgers Camden grabbed a 42-33 lead before the period was five minutes old. "At halftime we talked about the things we'd have to do to win this thing," De Fazio said. "Unfortunately, we came out a little flat and they jumped all over us. The only thing we can do now is to regroup and put this behind us."

MSC did pull to within four points with 7:35 remaining, only to turn the ball over two consecutive times and watch as Rutgers Camden converted those miscues into five points and a 55-46 lead. Despite its shortcomings, MSC led 27-24 at the half, thanks mainly to an aggressive defense which forced Rutgers Camden into committing 15 turnovers. However, things fell apart quickly for MSC in the second half as Rutgers Camden grabbed a 42-33 lead before the period was five minutes old.

"I don't want to take anything away from Rutgers, but we're a much better team than the one that showed up tonight," said MSC head coach Alice De Fazio. "We played very sloppily, which is very uncharacteristic for us."

Despite its shortcomings, MSC led 27-24 at the half, thanks mainly to an aggressive defense which forced Rutgers Camden into committing 15 turnovers. However, things fell apart quickly for MSC in the second half as Rutgers Camden grabbed a 42-33 lead before the period was five minutes old. "At halftime we talked about the things we'd have to do to win this thing," De Fazio said. "Unfortunately, we came out a little flat and they jumped all over us. The only thing we can do now is to regroup and put this behind us."

MSC did pull to within four points with 7:35 remaining, only to turn the ball over two consecutive times and watch as Rutgers Camden converted those miscues into five points and a 55-46 lead. Carla Robinson, who scored 27 points, netted 17 of them in the second half. Kathy Munn came off the bench to provide some additional spark to help Rutgers Camden improve its record to 15-2 overall and 11-1 in the NJAC. Judy Stair led MSC with 19 points, while Kim Barnes and Maritza Martinez each had 12.
