TKE accused of violating hazing policy

by Kevin Colligan, Nancy Gannon and Maureen McGowan

Charges that TKE National Fraternity violated MSC's hazing policy are being investigated by the Greek Council under the direction of the SGA attorney general. A hearing on the matter will be held on October 13 by the Greek Council Judicial Court.

According to Campus Police, the charges are also being investigated to determine if any criminal offenses took place.

TKE officials denied the charges.

The investigations were prompted by charges levied in an anonymous letter that TKE engaged in hazing during its last pledging cycle. Photographs allegedly supporting the charge accompanied the letter.

"What we did was done privately on a retreat. It was not hazing," said TKE president Patrick Algieri.

Edward Martin, Dean of Student Affairs, said the pictures will most likely be presented to the Judicial Court.

The letter stated that the pictures were from the last spring. Algieri countered the allegation, stating the photographs were taken at a brotherhood retreat that took place in a Glen Ridge home in the spring of 1991.

Dean Martin said, "Our concern is when the activity took place."

MSC has its own hazing guidelines set up. The college defines hazing as any action taken or situation created intentionally, to create:

a) physical or psychological discomfort
b) embarrassment
c) harassment
d) paddling in any form

New Jersey state law defines hazing as follows:

A) A person is guilty of hazing, a disorderly persons offense, if, in connection with initiation of applicants to or members of a student or fraternal organization, he knowingly or recklessly organizes, promotes, facilitates or engages in any conduct, other than competitive athletic events, which places or may place another person in danger of bodily injury.

B) A person is guilty of aggravated hazing, a crime of the fourth degree, if he commits an act prohibited in subsection (A) which results in serious bodily injury to another person.

MSC has its own hazing guidelines set up. The college defines hazing as any action taken or situation created intentionally, to create:

a) physical or psychological discomfort
b) embarrassment
c) harassment
d) paddling in any form

Total nudity at any time, paddle swats and pledges awakened time and again during the night are just a few of the examples of hazing according to MSC hazing guidelines.

Hey! Physical fitness has taken the campus by storm. Come join in the fun.

The new pool hours are as follows: Open Swim Sat-Mon.: 2-4, Tues. - Thurs.: 12-4, Mon.-Thurs.: 8:30-10. Do the doggy paddle or the backstroke. It doesn’t matter, swimming is great aerobics with no negative impacts on your body. Plus, you get to show that bathing suit you thought you couldn’t flaunt your body in ‘til next summer.

The Panzer gym is also open. Weights, machines and a track are available for your quest to new health. These new hours are: Mon.-Thurs.: 11-9pm, Fri.: 11-3pm, Sat-Sun: 2-6pm. If you are on the other side of campus, Panzer gym has hours Mon-Thurs.: 8-10pm. Aerobics is offered Mon-Thurs.: 4:45-5:45.

For the more artistically inclined, there is an exhibit of paintings done by Antoinette Terlizzi and Steve Cummings on display in a show titled, "Manscapes" in Gallery 1 from now ‘til Oct. 10. That’s a long time but don’t let it slip by. Always open your mind to new and different fields of vision!

Like the outdoors? Are you really into New Jersey back woods? Well, hold onto your hats nature lovers because do I have a treat for you. Opportunity knocks with The School of Conservation. They are offering, for the low price of $88, a weekend vacation spent hiking and experiencing the outdoors in the beautiful forests of North Jersey. Sign up now! The event begins at 6 p.m. on Friday Oct.2 ‘til Oct.4. Grab your sweetheart, your best friend, your dog if they don’t mind and take a deep, clear, stress-free breathe up in the stimulating woods of Jersey.

In International news, according to the Wall Street Journal, South Africa is starting to take steps toward democracy. They freed scores of prisoners while under orders given to them by the African National Congress. Perhaps overlooked in the masses, among the free were three ANC members accused of killing whites and an already convicted Neo-Nazi found guilty of slaying a black man.

Gorbachev refused to appear in Russia’s Constitutional Court. He felt the precedings would exploit him since the Court is determining the fate of the Communist Party, the same party he once headed.

Over the weekend in Tajikistan, hundreds were killed as Central Asia moved closer to a civil war. These actions prompted Russian troops to reinforce themselves with more fleets of troops being stationed within the country.

And in Germany, cancellations of the 50th Anniversary Celebrations for the first firing of Hitler’s V-2 rocket were felt by the entire country. This action came under the pressure and strong intervention in Germany and from Great Britain.

In National news, H. Ross Perot spoke out in the The New York Times Business section about how he would handle economics. Although never breaking down the question with an answer consisting of any numbers, Perot’s opinion is, “Reduce spending and generate more revenues...It’s that simple.” He is in favor of raising the tax bracket to 33 percent from the already 31 percent and reducing deductions off tax pamphlets to tax persons owning very expensive items such as houses, cars or property. A major tax adjustment, he proposes, is the 50 cent a gallon tax on gasoline, while fully eliminating the deduction an employer accepts providing fully paid insurance. He also states that by cutting back 10 percent on all discretionary budget items will save the country 23 billion dollars. Though he fails to list what those items would be.

In other National news, where would you guess the highest amount of women’s labor percentage would be? Well, according to the Wall Street Journal, Minnesota ranked very high with a percentage of 67 percent and Alaska coming in second with 65 percent. Alabama and Louisiana finished lowest with only a little over half, 52 percent.

In Regional News, tropical storms Danielle coupled with a strong pressure system caused strong northeast winds which ravaged the Mid-Atlantic coastline. Winds up to 35 MPH and gusts up to 45 MPH or more smashed the churning ocean over sea walls and beaches. On Fire Island, 40 feet of beach was lost the first night of the storm.

In New York City stormed City Hall despite the fact that their duty is to stop such an occurrence. Off duty police were rallying to protest a proposed Civilian Complaint Review Board. Several thousand police approached City Hall without being halted by on duty police officers.

Proposals by the N.J. Department of Environmental Protection and Energy to support two separate bills proposed by Democratic Senator, Bill Bradley, were offered before a Senate subcommittee. The bills propose to add parts of the Delaware and Great Egg Harbor rivers to our National Wild and Scenic Life system.

Temperatures were about 2.5 degrees below normal this summer in Newark. The coldest summer since 1963.

Crowds cleared trees along Rt. 20 East in order to make way for a twenty foot concrete noise barrier. The 8.4 million dollar project is proposed to be 3,000 feet long and should be done by August of 1994.
Olympic swimmer speaks to youths in Panzer

by Michael Frasco

Olympic swimmer Ron Karnaugh was the guest speaker at the Newark Boys and Girls Club/Paterson YMCA Swimming Clinic at MSC's Panzer Swimming Pool on Tuesday. Karnaugh was on hand to share his experiences from the 1992 Barcelona Olympic Games and to promote the importance of inner city swimming to 40 youngsters from both the Newark and Paterson Clubs.

The 26-year old from Maplewood, N.J., was a gold medalist at the 1991 Pan-American games and the number one qualifier at the 1992 Olympic trials in the 200 Individual Medley.

While in Barcelona, Karnaugh's father suffered a heart attack and died during the opening ceremonies. He said, "I was prepared to have the swim of my life and I experienced a very devastating tragedy."

Despite his loss, Karnaugh did compete in the 200 Individual Medley, but finished sixth. "Many people asked me, did it ever cross my mind to not swim and forfeit and go home? The answer is no, it never crossed my mind. I know deep in my heart that my father would've wanted me to compete no matter what happens to me."

Although he said he was disappointed by his sixth-place finish, Karnaugh realized a much more important lesson as a result of his tragic experience, as well as the impact it had on the world. "This made me more sensitive to the basic human needs, seeing how everyone was reaching out to try to help me and how many people were touched by what had happened to me," he said.

On Tuesday, Karnaugh reached out to give the kids some guidance and words of encouragement. He said, "I enjoyed being here today and sharing with the kids how I was able to pursue my dreams over the years."

The Olympian also told the kids that setbacks such as the one he suffered with his father's death, make the individual more determined.

Concerning his own situation, Karnaugh noted that part of what he learned from his ordeal he planned to apply to other areas of his life, such as pursuing a career as a physician. He is currently attending medical school in Newark.

His plans for the immediate future are to concentrate on his education, and he does plan on competing in the 1996 Olympics, to be held in Atlanta, Georgia. He said, "I plan on making the biggest comeback this country has ever seen. A lot of people think I'm finished, I'm going to medical school and it's all over...in 1996 I will be back."

Karnaugh will be 30 when the Atlanta Olympics take place, but he doesn't consider that to be any factor. He said, "I'll be 30, so I'll get the older generation pumped up!"

The reason that he wants to give it another shot, is his not being satisfied with his performance. However, Karnaugh, despite all the adversity, did not overlook the thrill of competing in front of the world. He said, "On the whole, swimming in the Olympics, there's nothing like it. There's a lot of pride and it's an honor to represent your country. I wanted to represent what America stands for in that we're not quitters."

Biology equipment still missing

by Anthony Floreno

An animal cage washing machine was stolen approximately two weeks ago from outside of Finley Hall said Biology department chairperson Dr. Bonnie Lustigman. The machine was used to wash the rat cages which were in the old animal rooms and it was to be placed in the new animal facilities room, said Lustigman.

The machine was believed to have been stolen during all the recent construction on campus. "The thieves could have driven a truck onto campus and nobody would think differently because of all the construction trucks," said Lustigman. "They could have come and gone without being noticed."

Lustigman added, "The machine is huge, it would take a crane to move it. We are very disappointed."

Campus Police were notified of the theft, but have had no leads as of yet.

"If you have any leads, please call Campus Police," Lustigman said.

Parking decal fee included in tuition bill

by Pam Colon

There was an addition to the tuition bills for the 1992 Fall semester which has caused mixed reaction from students. According to MSC Business Office, approximately 2,000 students say they are not driving to campus and do not need a parking decal. Graduate students and part-time students are included in this amount, and insist that they are not driving to campus.

"Some of the students live in Harlet and other distant locations, is there a shuttle bus that we are unaware of that comes from there to here? How are these students getting to class?"

"Instead of beating the system, why don't the students work with us to provide a better service for everyone?" Maristela said.

place, for what reasons, and what changes in member development have taken place since then.

"None of this happens anymore. We must comply with our National’s regulations," Algieri said, "Some of our more recent retreats have been held on campus in Partridge Hall." He added that the fraternity is under a new executive board.

Algieri said that the men pictured were not pledges, but brothers. "It could be a guy that’s been in for two years," he said, "It was a brotherhood bonding activity, we were playing games."

Najarian concurred, "They were all brothers. The event took place to release tension. It boosts everyone’s morale. After the activity, I can still turn around and say, ‘I love you, you’re my brother.’"

According to New Jersey State law, MSC hazing statutes and the constitution of TKE, however, activities defined as hazing (see hazing guidelines) are prohibited for fraternity members as well as pledges.

MSC president Irvin Reid said, "We are keeping an open mind. We are giving the students the benefit of the doubt, but will uphold the policies of MSC."

Reid said the allegations are being examined on three levels: the Administration is conducting an investigation to determine whether there has been a violation of campus policy; the SGA, according to president Gouri Sadhwani, is conducting an investigation and TKE National will conduct an investigation.

James Harris, Dean of Student Activities, said, "Clearly, to anyone who doesn’t belong, some of the activities depicted are reasons for grave concern about the practices that continue within the organizations." He added, "Since hazing is illegal, we have no intentions of condoning or tolerating such behavior at this college."

TKE member Chris Pontrelli, who said he is included among the photographs of blindfolded individuals, said he did not consider activities in which he engaged to be hazing. "I was not forced to do anything, I definitely did not eat anything foul, and I was not scared. I had total trust. I didn’t regret it at all, but there are more effective ways, [to promote brotherly trust]" he said.

Pontrelli currently holds the position of "Hypophetes" in the MSC chapter of TKE and is in charge of all rituals, retreats and academics.

Algieri said the activities portrayed in the photographs were the result of brothers losing bets based on competitions that may have ranged from "board games to athletic events."

"The blindfolds," according to Algieri, "are for the whole trust thing. We did not force them to do anything." He also said the writing of letters and phrases on individuals photographed was, "just a goof - just a fake tattoo. It could be part of the competition. You have to have something tattooed on your body with a marker for the night."

Rich Adams, President of Greek Council, commented on the allegations. "Hazing is a problem that must be stopped. But it’s been around for as long as fraternities and sororities have existed. Until people are seriously punished by the system for it, it’s not going to stop," he said.

SGA president Gouri Sadhwani said, "[The fraternity] will be judged by their peers. They can empathize with them, or hold them up to certain standards."

TKE has issued a memo to all Greek organizations, explaining their situation and asking for support against what they called, "malicious accusations."
POLICIES, from page 1

e) required/forced branding or tattooing
f) engaging in public stunts and buffoonery
g) morally degrading or humiliating games and activities
h) forced consumption of food, alcohol and/or any intoxicants
i) any activity that causes or results in public disturbance
j) any actions and/or activities that endanger the student, the university community, or the academic process
k) possession of firearms or other dangerous weapons on college property contrary to law
l) intentional damage to or destruction of college property or of property on college premises belonging to others
m) failure to comply with directions of the college officials and their authorized agents acting in the performance of their duties
n) any requirements by a member or pledge which compel another member or pledge to participate in any activity which is illegal, which is known by the compelling party to be contrary to an individual's moral or religious beliefs, or which is contrary to the rules/regulations of the college

o) conduct that is made a crime by the criminal law of the State of New Jersey or the United States of America and takes place on college property or is supervised by or in the course of a college activity.

Also, hazing with or without the consent of a student, is prohibited by the college, and a violation of that prohibition renders both the person inflicting the hazing and the person submitting to the hazing, subject to discipline.

Aside from the state law and campus guidelines, many fraternities have their own rules and guidelines against hazing. Tau Kappa Epsilon's (TKE) own hazing guidelines state:

Tau Kappa Epsilon believes that chapters, in planning their new member education programs, should use the findings of scientific research in training and discipline methods. The applicable findings should be publicized in a new member policy by each chapter.

All forms of hazing are forbidden by the Fraternity. Hazing is defined as any action taken or situation created, intentionally, on or off college or fraternity premises, to produce mental or physical discomfort, embarrassment, ridicule, or possibly cause mental or physical harm or injury.
State board votes to change university requirements

by Anthony Floreno

The New Jersey Board of Higher Education met and adopted new regulations governing the criteria for naming a university on Friday, September 25, by a 7-5 vote.

The new criteria includes a larger focus on teaching, which is divided into traditional research teaching and major focus teaching. In traditional research teaching, "the university provides a wide range of undergraduate and graduate programs in at least three professional fields, such as medicine, law, public administration, engineering, or education and operates programs of instruction leading to the doctorate or comparable terminal degree in two or more areas."

The amendment added to the ordinance is where MSC is concerned. It is based on major focus teaching. "A university whose major focus is on teaching provides a wide range of undergraduate programs and graduate studies in two or more professions fields, such as medicine, law, public administration, engineering, or education and operates programs of instruction leading to the doctorate or comparable terminal degree in two or more areas."

The amendment added to the ordinance is where MSC is concerned. It is based on major focus teaching. "A university whose major focus is on teaching provides a wide range of undergraduate programs and graduate studies in two or more areas."

The amendment added to the ordinance is where MSC is concerned. It is based on major focus teaching. "A university whose major focus is on teaching provides a wide range of undergraduate and graduate programs in at least three academic disciplines. A teaching university has a minimum of

2500 full-time equivalent (FTE) students. At least 20% of the university's total student body (headcount) are enrolled in graduate degree programs." The ordinance also states that "a significant number of the faculty in each program are associated with the institution full-time." Because MSC fulfills these basic criteria it is eligible to apply, with the approval of its governing boards, to the New Jersey Board of Higher Education for university status.

Dr. Jesse Rosenblum, Vice-President of Institutional Advancement, said, "The College Senate clearly endorses the notion of university status and is working towards that goal." After MSC applies, its petition is reviewed by an external consultant employed by the Department of Higher Education. The chancellor recommends approval to the Board based on the consultant's report.

Rosenblum added, "MSC stands the best chance of becoming a university, if and when we submit our application."

Professor's art work destroyed

by Renee McDonnell

Seventeen paintings by Prof. Leon de Leeuw were found slashed and destroyed in studios, throughout Calica Hall, on Monday Sept. 21.

According to de Leeuw, the paintings had an estimated gallery value of $32,000. He is currently in the process of bringing the paintings home and will no longer store his works in the building.

de Leeuw stated that there has never been such a problem in his 30 years at Montclair.

Campus Police and Security are currently investigating the situation.

"We are all very upset about this incident. You feel so vulnerable and there is so much more malicious than common theft because there is no monetary gain for anyone," said a J.S. Weiskaffer, chairperson of the fine arts department.

Several art students stated that they have been com-

plaining for five years for de Leeuw to remove his paintings from the small, overcrowded classrooms. Both de Leeuw and Weiskaffer deny the accusation and state the paintings were stored in the classrooms as demonstration models.

Weiskaffer did state that the studios are small and it is not common practice for teachers to store their work there.

de Leeuw said that his initial reaction was, "Damn!" and also stated, "I am baffle-

ed by the fact that some sick individual is walking around the campus."

de Leeuw and Weiskaffer did not know of any possible suspects.

de Leeuw, who hopes to continue painting, stated that he feels the construction occurring in the building has lessened the security.

Campus Police Report

THIEF:

9/23/92: Student parked his car in Lot 21 and it was stolen.

9/24/92: A fine arts professor reported that between the end of July and September, College property was stolen from Room 126. The stolen property was kept in a cage area which had a chain and a lock securing the door. He found the lock cut off. New ducts were installed over the caged area this summer. The cage area does not reach the ceiling and it is possible to climb over it.

9/24/92: A student was in the library and left her bookbag unattended while she went to the research department. When she got home she saw that her books were taken from her bag.

9/24/92: A student parked her car in Lot 25 and upon returning from class it was missing. The door of the car was locked and it had no alarm.

9/24/92: A female student parked her car in Lot 22 and upon returning her car radio and stereo was stolen.

9/24/92: A student parked her car in Lot 23 and upon returning found her car radio and tire missing.

THEFT OF A MOTOR VEHICLE:

9/24/92: A student reported the theft of his car from Lot 14. He had attended the dance at the Student Center and was on campus only from midnight until 2:15 a.m. This vehicle was recovered by Paterson PD on 9/27/92.

9/28/92: A Blanton resident reported her car had been stolen from Lot 20A. It had been parked there overnight.

THEFT FROM A MOTOR VEHICLE:

9/27/92: A Blanton resident reported theft of a car bra from his car in Lot 22 while parked overnight for two days.

9/17/92: A victim parked her car in Lot 22 and upon returning found that her passenger side door lock had been picked and her passenger seat window was broken.

9/17/92: A resident reported theft of a car from his car in Lot 22 while parked overnight for two days.

Clinton heckled by MSC students

“Whitehouse not a whorehouse”

Several MSC students made presidential hopeful Bill Clinton’s trip to New Jersey last week mighty uncomfortable when they broke out into chants of “Whitehouse not a whorehouse” and “Draft dodger tell the truth.”

The students belong to a loosely-knit organization calling themselves MSC Republicans. They caught the democrats off guard during Clinton’s speech at Merck pharmaceuticals which was supposed to be delivered to Merck employees and Clinton volunteers.

Jeffrey Ceterko, a member of the organization, said the MSC republicans obtained access to the closed speech due to the lack of Merck’s organization. Passes for volunteers were haphazardly handed out in the parking lots, according to Ceterko, and he and his fellow republicans received passes from a frazzled staffer who mistook them for Clinton volunteers.

Robert Antonek, president of the MSC republicans, concurred, “We said we were volunteers. We didn’t say if we were Republican volunteers or Democrat volunteers.”

Ceterko said the members split into three groups and waited through the speeches of various senators and Governor Jim Florio for their main target to appear. “We were scared,” Ceterko said. After several pauses in Clinton’s speech, Ceterko said, his group stood on their chairs and began to chant.

The other groups never joined the protests. “We chanted for a good minute and a half before we were asked to leave,” Ceterko said. After several pauses in Clinton’s speech, Ceterko said, his group stood on their chairs and began to chant.

“The best part,” said Ceterko, “was that the cop was a republican. He said he wanted Bush back in too.”

The story was covered in The New York Times, CNN and Z-100 FM.

Campus Construction: Is it a hassle?

by Nicole Pisano

"You're supposed to eat a bushel full of dirt in your lifetime." This is what campus construction worker Gary says to remember the next time you find yourself engulfed by a large dustball of smoke on your way to class...
The bright rays of the sun stream onto the scattered students making their way to class. A piercing steady beep can be heard in the distance along with the strained cries of a crane's motor switching gears. The beeping does not cease. The volume only increases as you move closer to the site.

"It takes long enough to find a parking space in the morning. Now, I have to leave even earlier just to walk around the detours to get to class."

Freshman Donald Jiminez said, "When I first decided to come here the construction was not this bad, now I get a cloud full of dust on my way to class... also, I am having a difficult enough time finding my way around campus let alone trying to find my way around all the fences so I can get to class."
The guard rails and barriers may look unappealing but they have been put up to provide a safer environment for the students. "They are used to block off dangerous areas or to cover up holes," said Tom Kilgallen.

For others, the construction has had no effect on them. "It doesn't affect me at all, I just park in the Quarry and take the shuttle to class," said senior Michele Pisano. Sophomore Jill Helm said, "It makes the campus undesirable to prospective students, but it does not bother me."

Some students in their senior year are disappointed about the construction on campus. "It is my last year and I know the construction is going to be very beneficial to the new incoming students by the time they graduate, but for me, I am leaving this place in May and it is not too pleasant to graduate from a school whose campus looks like it has been hit by a hurricane," said Iggy Zelaya. Jen Wolleon, also in her senior year, said, "The construction work really doesn't bother me, after all, we do get the benefits of the hooting remarks of the construction workers as we walk by." On a serious note, she said that it is a little inconvenient for us now but in the end it will better the school.

Students and workers have mixed reactions to the construction on campus. For some, it is just something ugly to look at while others are not phased by it. Yet there are still others that are not focusing on what is in front of them at the current time. They choose to focus on the future that the expansion will bring to this campus, which will aid in its growth towards becoming a university.

Comedians start a laugh riot at MSC

by Christine Tichofo

On Tuesday night, MSC held a very successful comedy show. The show consisted of three very talented and widely diversified comedians.

The first up was Andy Bowen, a curly haired, Jewish joke telling woman whose sarcastic, dry manner really wowed her material. Small size and douching highlighted her routine.

The headliner of the show, Spanish-cracking Rich Reverez, displayed a more serious comedy than the others. His previous shows were on VH1. The crowd even laughed at his older routine. He also used musical elements to bring variety and energy to his routine.

Speaking of energy, Joe Rogan was a comic that you just couldn't forget. He has appeared on Comedy Cafe as well as MTV. His routine consisted of sex oriented jokes of "Mike Tyson, parties, and a handbook of rules about women and reasons why you shouldn't become attached. I learned a new word - SNATCH! Instead of the regular slang words for the female body parts."

Do you think Perot should re-enter the presidential race?

No, because it would just cause more of a problem amongst the voters making their decisions.

Kameisha Stroughn

No, because he already quit once.

Tom Marshall
Sophomore, History

No. I think he should endorse Clinton. He's playing with the American mind by being indecisive.

Sheila Grywalski
Sophomore, Photography

No. If he didn't drop out the first time, he might of had a chance. But he let all of his supporters down, so he couldn't pull it off now.

Save your soul. Don't wig out. See Suzie Herbst.

Alcohol. Booze. Say it out loud for emphasis—B-O-O-Z-E, the succulent nectar of our youth. Stand on top of College Hall naked and scream to anyone who walks by, “ALCOHOL IS THE SUCCULENT NECTAR OF MY YOUTH!! I WAS BREAST FED BY BUDWEISER!! BOOYA!! 33!! SUCCULENT NECTAR OF MY YOUTH!! I WAS BREAST FED BY BUDWEISER!! BOOYA!! 33!!

YEAST AND HOP JUICE HAVE BECOME LEGAL SPOTS TO CONSUME MOLDY LINES OF OLD LATORBE??? I AM THE MARSHMELLOW KING OF THE STRATOSPHERE!!” People will start asking you questions.

Ever since the Rat entered the age of prohibition, the urchins that inhabit Camp Montclair have been looking for direction. They've been looking for a messiah, someone to wave a stiff nail which is, in turn, fastened to a 20 pound case of the brew ha ha. Ah yes, now you remember... Hanging precariously out the 5th floor of Bohn, head first, the blood from your feet begins to trickle down to your brain. Clenched tightly between your hands is a towel rope which is, in turn, fastened to a 20 pound case of the liquid of life. You try to signal to the guy holding your feet that you're losing your grip, and at that exact moment, he sneezes, losing HIS grip on you. The bones that popped out of your neck upon impact are a source of great wonderment to the paramedics, who sit and wait for backup as they sip on your beer... Fear for yourself, certainly, but also fear for the multitudes of innocent people who will be the brunt of your fall into madness. Let's say, just coincidentally, that your 21st birthday falls on a Thursday, and that, with equal coincidence, there's a Board of Trustees banquet roaring in the ballrooms. Hearing squeals of delight and howls of joy coming from the room, you meander over, wondering how anyone could possibly be having such a grandiose time in the student center, of all places. With your nose smashed up against the glass doors, you suddenly realize what all the hubbub is about. Multitudes of cells start crashing into one another between the thin membrane that separates your skull and your scalp. A trickle of warm blood slides out of your nostril, running parallel with the stream of drool that plunges from your lips. “THEY'VE GOT ALCOHOL IN THERE!!”, you scream, “THEY'RE SUCKING IT DOWN RIGHT IN FRONT OF MY EYES!”

You run around the halls frantically yelling, “OH THE HYPOCRACY! GET ME A TISSUE!”

HYPOCRACY! Grabbing people by their necks, you pull at least ten students towards the Ballroom uttering “We've Gotta stop them! It's illegal, and for CHRIST sake I'm 21 and I have to drive to f-ing Lyndhurst to consume the succulent nectar of my youth!!”

Now being a messiah is not all that its cracked up to be, (ask Jesus), but by general consensus, it is far more attractive than wigging out on your fellowpeons or plugging to death. Suzie Herbst, SGA-messiah type person, is looking for those who have lost their mind over MSC's draconian alcohol policy. While her committee may not be able restricting the noodles of your brain, it might be beneficial to the rest of your campus community to attend their Ad-Hoc committee meetings 1-3 every day in the SGA office. Otherwise, hey, you're over 18, and from now on, any debatchary will go on your permanent record. (Steve Garufi paid me $5 to mention his name in one of my columns. I got the dough, so here it is. There's a sucker born every second...).

Three important lectures and a conference are scheduled for October 14, 15, 28 and 30. The pain, the terror, the Holocaust
a survivor shares her past

by Gail Schansinger

An ordinary citizen, one might think. She is a survivor, a victim, a symbol of the perpetual violence that occurred in Germany between 1938-1941. The Holocaust. It unlocks memories of terror, a child completely robbed of innocence; her crime—being Jewish.

The Germans looted their house and destroyed her father's hardware store. Their possessions were thrown out of their windows. Her father was arrested and taken to a concentration camp. He died there.

In 1944, Susan's mother and sister were deported to Auschwitz. They were transported in a cattle car. They had to stand. Susan's sister had typhoid fever, one of many illnesses.

Susan was taken from her family at age 7. She was sent to Great Britain on the "Kinder Transport" alone. She arrived in England not knowing any English and lived with a foster family.

Susan's mother and sister managed to survive Auschwitz and both reunited with Susan in the United States in 1947. A tattered grey dress, letters, a small knife and stockings is what is left of a memory shattered by pain.

She brought to the U.S a feeling of new hope. She leaves the past behind and looks toward the future. I'd say a survivor indeed. She shows no bitterness, just a philosophical attitude in nature.

Hitler—a symbol himself of hatred and disdain is dead but his philosophies live on. We must fight back through education and never allow a government too much power. For Hitler can always return.

It's a hard luck life...

It is heartening to know that in the midst of MSC's budgetary crisis, our esteemed college president, Irvin Reid still has the services of a chauffeur and has not been subjected to the indignity of driving himself to whatever destination he deems desirable.

Now, that is not to say that His Eminence isn't sorely burdened with the trials and tribulations of utilizing his own motor vehicle when he awakens from a restful slumber at some ungodly hour of the night with a craving for pudding pops. Sadly, Reid must stress his wrist muscles, so tired from penning presidential quality memos for the benefit of our humble campus community, to turn the ignition key and back his Olds out onto the treacherous roadways of Upper Montclair and drive himself to the A&P. This does not even take into account the chunk of Reid's annual salary increases that is scandalously being siphoned off in car insurance expenditures.

Naysayers may point out that a Campus Police force scaled down to 23 officers from a previous numerical force of 28 officers might have some crime prevention skills that could be offered our college, but we at The Montclarion are not swayed. In fact, we do not believe the comforts of the office of college president are up to the proper standards.

The list of perks befitting the commander-in-chief of an institution of higher learning such as Montclair State College is far too lengthy to list in our meager newspaper. We have, however, come up with a patently, badly abridged list:

Everyone knows that after a trying day of scribbling over the word "college" on all MSC stationary, the president deserves to slip into a bed that is free of any type of chill. To put an end to such an abomination, a librarian from Sprague Library should be constantly on call to slip between the presidential sheets an hour or so before Reid's bedtime as to insure our president a comfortably warm resting place.

Furthermore, a construction worker on campus should be readily available for channel switching should Reid misplace his television's remote control.

And finally, an English professor (we've been kicking a few names around) should wear a pager in order to turn the pages of our president's favorite novel should our president suffer a disabling paper cut while reading.

The shame.

The truth must be found

Tau Kappa Epsilon has been accused of a very serious infraction. It is the hope of The Montclarion that the din of rumors, speculation and half-truths that typically follow such controversial matters do not interfere with the search for the truth.

If TKE is exonerated, it is our sincerest wish that the fraternity is not besmirched by the memory of baseless accusations.

If TKE is not, however, we hope that the proper procedures will ensure that an instance, such as the one alleged, never is allowed to occur.

"The word comes down from the president and I go. I'm just following orders. I'm the low man on the totem pole."
-Senior Security Officer Jim Higgins
The State Board of Education ruled on Friday, September 25, to lower the standards required to allow low colleges to call themselves universities. Seven members of the 12 member board have brought a devastating blow to the educational system in New Jersey.

Montclair State College will now have the opportunity to apply for the right to call itself Montclair State University, but the name change will take place without much change to the institution itself. President Reid should concern himself with how the college is actually functioning instead of how it looks to his peers. Why should we call ourselves a university when we are only making cosmetic changes?

To call something other than what it is, is false advertising. Anybody who went to Montclair State College, but will come to Montclair State University, does not belong here. We do not want status seekers on our campus.

It is true that times are changing and outlooks are different, but lowering our standards is not the way to go. We should work to make our college better. If we implement programs that meet our current needs of higher quality standards, then and only then, can we call ourselves a university.

Will anything be different if we change our name? Not really. Elevators will still not work. Registration will only get worse. Classes will be larger unless money is found for more staff members. We will not have a wide selection of classes to meet our needs, and the likelihood will still be that longer than it should be. MSC has trouble functioning as is.

What will the added burden of university status bring? Maybe President Reid will propose to raise tuition to "university status" to pay for our new burdens.

There is a technicality that is overlooked. Two classes of universities will be established. The lower tier will be "teaching universities." "MSC is included in this category," President Reid claims, "which will be training and research universities," which will include universities such as Rutgers and Princeton.

However, according to the Star-Ledger, the descriptive terms will probably be dropped from the formal title. This means that Montclair State Teaching University will read Montclair State University, leaving applicants confused as to whether we are a "real" university or not. This is misleading. We should not draw people to this institution believing MSC to be something that it is not.

You will be happy to know that the state will monitor institutions that call themselves universities to make sure that they are what they say they are. It is nice to see our tax dollars going to a good use. Are we to believe that this body of people will have the capabilities to check each and every university to see if they are playing by the rules? We do not need another costly bureaucracy wasting our money.

The seven spineless members of the Board of Higher Education should be replaced with people who will stand up for what is right and not succumb to unjustified pressure. Lowering university standards is much like curving test grades - everyone looks good, but you really haven't earned the grade. When we lower our standards, we are saying that it is alright to settle for less than the best. This is not the example that should be set for the students in this state. We should work towards raising standards and striving for the best, not praising mediocrity.

One of the most grotesque battle cries this election is the Republicans' stoke to "Christian Values." I am a born again Christian and by no means do I support the policies for the beliefs I hold. Professing hate, war and indifference to the poor has little to do with the ways Jesus, how can constant lies and half truths, military and social Dar­ winism further Christian ideals?

One of the best examples of half truth is the Bush claim that Clinton raised taxes 128 times in Arkansas. Technically this is true, but under the same criteria we find Bush himself raised taxes over 400 times in his presidential term.

Our government has some strange foreign policy goals. One is to contain socialist and communists groups from attaining power regardless of how they will treat or aid their constituents. Another war to play is to support those fighting for the freedom from the occupation. This due to some ill gotten notions that this would keep a balance of power, prevent Israel for a time, and affect oil prices to our favor. Both of these policies were time, and affect oil prices to our favor. This due to some ill gotten gains by said countries and favor. Welcome back to Record Irreverence. This week I have arbitrarily chosen to write about the Tom Meyer caricature prominently featured somewhere on this page. The term “somewhere” should tip off the ever observant reader to the fact that I no longer serve in an editorial capacity in the capacity for the horrorous scene at this summer's National Republican Convention, scads of yuppy-eyed Republicans chanting “four more years.” Fortunately “cause I am running out of space, this week’s column needs no musical interlude. Instead, I will let the reader speak for itself.

In 1990 President Bush won the Doubleheader Award presented by the National Council of Teachers of English. Following are some examples cited by the council: During the presidential campaign Bush reiterated his “no new taxes” pledge repeatedly. Remember the infamous read my lips pantomime? In factuality, during his State of the Union address President Bush claimed his 1991 budget contained “no new taxes.” Nevertheless his 1991 budget did propose 21.7 billion dollars in “receipts proposals” and “user fees.” Bush’s synthetic pantomime pre-dilection was not limited to taxation doublepeak. Once again during the 1988 campaign, “Read my lips, I will be the education president.” Clearly this is consistently contradictory considering the recent collegiate tuition hikes.

While a presidentially candidate, George Bush needed to assure that women do not have to worry about getting their jobs back after having a child or caring for a child during a serious illness. This is what I mean when I talk about a gentler nation.” After he was elected the White House issued this statement: President Bush vetoed the Parental and Medical Leave Bill; he “has always been opposed to the federal government mandating what every business in this country should do.” Just last week Bush vetoed the latest incarnation of the Family Leave Bill claiming it was bad for business.

George Bush has a history of inconsistent rhetoric. When asking for $7.9 billion to wage an “assault on every front” of the drug war, he implied that $7.9 billion was an enormous amount of money. Yes, $7.9 billion is an enormous amount, however it amounted to .065 percent of the federal budget. Clearly allocation of such a miniscule percentage will only beggar minuscule results.

A majority of voting Americans believed then presidential candidate Ronald Reagan, when he claimed he would balance the budget while simultaneously lowering taxes. An alarming majority also believed candidate George Bush when he repeated again and again “Read my lips, no new taxes.” 12 years later taxes are at record levels and “read my lips” proves to be nothing more than a pathetic attempt at lip service. Reduction will only perpetuate this fraud.

The editorial cartoon that accompanied last week’s “Commuters check in, but they can’t check out” was one of the most insensitive editorial decisions that The Montclarion has made this year. Hopefully in given time, the judgement of Steve Garufi, the editorial page editor, may improve, but for now we must challenge the idea that a tragic element of women’s existence can be used to humorously illustrate a problem that exists for all students on this campus, male and female alike. Malicious intent may not have been directed toward victims of rape by the caricature pertaining to these victims, nonetheless, comparing a car being vandalized and a woman being raped is completely trivializing a crisis that affects many women’s lives every year in this country. Moreover, it suggests that women have no more value in this society than an automobile—that an inanimate, feeling object might possibly share an experience as devastating as rape. This is extremely insulting, not only to survivors of rape, but to all women, everywhere. Vandalized automobiles and rape victims have one major thing in common—they are objects. Rape is not an act of love or even sex. Rape is an act of violence. Rape is the act of a man venting his anger and wielding his power over a woman who is simply a victim. The overwhelming belief that a woman “asks for” rape is simply society perpetuating its own self image of a scapegoat. Rape is society’s problem, not women’s. Similarly, students at MSC don’t ask for their cars to be vandalized when they leave them unattended to go to class. If this were the “kinder, gentler nation” that George Bush always talks about, but never provides, one would assume we could leave our cars for a few hours and return to find them in the same condition as when we left. Likewise, women should be able to walk down a street, go on a date or live in their homes without the constant fear of suffering the ultimate in physical violation. However, this is not the case. Nothing is sacred anymore, especially women’s bodies. The anti-choice movement provides a good example. Men seem determined to control our bodies in more than one way. The point of the editorial cartoon was attempting to make is a valid one. Any time one’s personal space or belongings are invaded, damaged or stolen, we as human beings feel violated. The problem here is in degree of violation. If our car windows are smashed and our stereo are stolen, then it is frustrating and certainly a nuisance, but our insurance companies help us repair the damage and life goes on. When a woman is raped, the physical, mental and emotional damage is so severe that a woman’s life is permanently altered. There is no “quick fix” for rape. First, rapists are rarely considered enough to use protection, when they attack a woman. Therefore, there is often the chance that an unwanted pregnancy will occur. Nothing could add so heavily to the devastation of rape than becoming pregnant with a rapist’s child whether the rapist was an acquaintance, friend, husband, or stranger. Secondly, with the frequent occurrence of sexually transmitted diseases among consenting partners being so serious, when a woman is raped, the physical, mental and emotional damage is so severe that a woman’s life is permanently altered. Secondly, with the frequent occurrence of sexually transmitted diseases among consenting partners being so serious.

When a woman is raped, the physical, mental and emotional damage is so severe that a woman’s life is permanently altered. Women who are raped are also greatly at risk. Many STD’s are curable, but no cure presently exists for diseases such as AIDS and herpes. Physically, there are many possibilities for permanent injury to occur as a result of rape. In addition, almost every woman, no matter how intellectually informed she was prior to being raped, always experiences the natural responses that rape is her fault, that she did something to cause it and that she could have done something to prevent it. Fortunately, there are several types of therapy that can help women overcome these feelings and recover the power that they feel a rapist strips them of. Yet, this recovery often takes years and no one can ever erase the memory of a woman’s rape from her mind. As the level of violence escalates in our society we hear less and less about rape, but it remains a serious problem that we must address. Rape does not happen only to rich women and rape does not only happen to white women. Rape happens to all of us: mothers, daughters, sisters, grandmothers, rich, poor, middle-class, Black, Hispanic, Caucasian, working women and students. Rape is a crisis, not a joke, and we should be treating it like one. Using a woman’s tragedy to provide humor for the student body is not only sexist, it is distasteful and disrespectful. Garufi, next time, please use better judgement and if you aren’t going to act like a feminist, then quit claiming to be one.

Cartoon symbolizes society's trivialization of rape
President Bush must go!

The Republican administration have brought the United States to one of its worst conditions in many years. Today, more than 35 million Americans live under the poverty line. The U.S. unemployment rate is 7.6% and will continue to go up. The deficit is around $325 billion, as a consequence of the failed Reagan economics of the 1980's. America became the biggest debtor nation in the world after being the biggest creditor. Our 1991 GNP decline was -0.4%. This was last seen in the 1930's. Interest rates are down.

Consequently, millions of Americans incomes have been affected, particularly that of the elderly. Furthermore, America has lost its competitiveness. We only invest about 14% of our GNP in research and technology. Japan invests 28%, Germany 26% and France 21%.

In regards to the environment, there is not a strong initiative to clean up our country and the earth. There is not a strong initiative to let issues such as pollution, waste, waste management, food and water safety, clean up our country and the earth.

President Bush wanted to be the education president and make American students number one in Math and Science by the year 2000, but so far he has done nothing.

We need more people like Ms. Iron Head

In the September 17 issue of The Montclarion, Christina Tischio wrote about the stupidity of prejudice. Her piece was both timely and accurate.

At a time in our country when people can not afford good health care, find jobs or have adequate housing, to let issues such as homosexuality, racism and sexism dictate our actions proves how backwards the good U.S. of A. can be. This country will never be able to solve its primary problems as long as nannies are issued to be at the forefront of our decision making.

As a white male, I have not experienced racism or sexism first hand. Homophobia is another issue. I could take the time to express why gays or lesbians are not all of those horrible things a lot of people think we are and why we deserve the same rights as everyone else in this country. But, like Ms. Tischio, I really don't care what people think. I don't have enough time to explain to people why their prejudgments are irrelevant to me. I'm here simply to live my life and that is all I have time to do.

If more people had the wisdom to think for themselves like Christina Tischio does, we would all be better off.

LETTER...

We’d rather not ask...

Upon arriving at MSC for the Fall Semester, 1987, "to lecture a bit," one of my first impressions of the college was an unwillingly "run" of graffiti appearing on the east wall of Freeman Hall. As of the writing of this letter, yes, you may have guessed, the graffiti is as fresh as it was the day of the "art" creating it. Although Mr. Lawton does not address the problem, graffiti in the basement of College Hall, which if I am not mistaken, presently houses the office of the President of the college. The wording on this receptacle reads: "Property of MSC, College Hall," sic.

american indian pow-wow

by sandi camminer!

as the nights grow colder and autumn winds herald the start of the harvest season, the great events '92 season of the sippa of montclair state heralded a harvest-like ceremony of its own.

on sunday, september 27, 1992, american indians dance theater opened the season with a regalia of american indian performers. arrayed in rich traditional costumes, that seasoned a display of dancers, musicians, and singers from tribes of the dakotas, southwest, canada, and the great plains, brought together a cultural legacy.

the costumes, consisting of a traditional ceremonial headdress and dress, were striking. each performer wore genuine attire which he/she made or acquired from a tribal member. the intricate beadwork and featherwork were an exquisite reflection of the fine craftsmanship which is still practiced among the american indians today. the costumes were made of leather, beads, native fabric, animal feathers, and fur. each costume was an original, adorned with symbolic animal designs such as the eagle. the patterns and colors of the costumes provided a vibrant visual aesthetic to the production.

the dances were all customary expressions of the social and spiritual beliefs of the various american indian subcultures. while each dance was as diverse as the costumes of the company, there was an apparent synergy which bound the production and gave it a rhythmic flow!

a common aspect of his work includes flowing and rhythmic line which is also displayed in his seven pastel drawings that are also exhibited.

northwest coast suite: a new addition to the american indian dance theatre repertore.

two of the most outstanding numbers presented were the "hoop dance," and the "fancy dance." the "hoop dance," a male dancer garbed in full attire including headdress, manipulated several red hoops. as he moved, he used both his body and the hoops to create such shapes as a flower, a butterfly and an eagle. the "fancy dance" consisted of unique fancy footwork! in this number, several dancers competed with each other as they challenged one another in a display of stamina, staminal, and physical prowess.

the music, primarily made up of drum beats and vocal chants, was fascinating in and of itself. very often, music and dance merged into one synonymous expression!

in an interview, one company member, lloyd yellowbird from the plains cree nation, commented about his relationship to american indian dance theater stating: "our culture has always been exploited. we want people to realize we're not extinct."

as a whole, american indian dance theater beautifully re-told the rich heritage of a culture of american society that has been significantly overlooked.

music department kicks off fall season

cw springfield

mcs's music department is underway in its fall 1992 schedule of events, including numerous faculty/student recitals, concerts, and field trips. the next noon recital will be tomorrow, october 2, in the student center ballrooms. dr. oscar ravina will be conducting the orchestra, who will be accompanying dr. lisa delorenzo on piano concerto no. 2 in c minor. ravina is also a violinist with the new york philharmonic. next wednesday will feature faculty member jazz superstar chris white with peggy schecter and john girt, also faculty members, in one of the many jazz concerts offered by the music department. you'll be seeing mostly just faculty playing noon recitals in the upcoming month to give their students a standard for performance requirements.

the mcs concert band, conducted by don butterfield, is heavily rehearsing for their december concert...a field trip is being planned to the metropolitan opera house, but unfortunately, the trip is only available to music majors.

don't forget to mark your calendars for these events: paly toro and andrew schulman, november 11th.

the flute choir, november 18th opera workshop recital, november 20th

every recital starts at noon, unless otherwise posted. and finally, the madrigals performing their annual christmas concert (no date has been posted yet), and a production of king david is in the works for the spring of 1992.

welcome, dear readers, to this very special edition of prophet bigg. this week, we break from our usual bill of fare so that i, the prophet, can relate to you my recent journey into the past.

it's not often that a person is able to meet one of his or her heroes. this past sunday, i had the unique opportunity to spend a day with one of mine, george mcfarland. he was bom in 1928 and started making motion pictures for hal roach when he was only three.

"no sir", "excuse me" and "thank you". somewhere along the line the people stopped doing that and as a result we have a country, right now, that's just about in the bucket.

we hear a lot about child stars of the 50's,60's and 70's and about the problems they had or are.

as the nights grow colder and autumn winds herald the start of the harvest season, the great events '92 season of the sippa of montclair state heralded a harvest-like ceremony of its own.

on sunday, september 27, 1992, american indians dance theater opened the season with a regalia of american indian performers. arrayed in rich traditional costumes, that seasoned a display of dancers, musicians, and singers from tribes of the dakotas, southwest, canada, and the great plains, brought together a cultural legacy.

the costumes, consisting of a traditional ceremonial headdress and dress, were striking. each performer wore genuine attire which he/she made or acquired from a tribal member. the intricate beadwork and featherwork were an exquisite reflection of the fine craftsmanship which is still practiced among the american indians today. the costumes were made of leather, beads, native fabric, animal feathers, and fur. each costume was an original, adorned with symbolic animal designs such as the eagle. the patterns and colors of the costumes provided a vibrant visual aesthetic to the production.

the dances were all customary expressions of the social and spiritual beliefs of the various american indian subcultures. while each dance was as diverse as the costumes of the company, there was an apparent synergy which bound the production and gave it a rhythmic flow!

a common aspect of his work includes flowing and rhythmic line which is also displayed in his seven pastel drawings that are also exhibited.

With all the press that Woody Allen has been getting lately, it seems that reviewing his film is redundant. There has been more press on this movie than Basic Instinct and Heaven's Gate combined. Tri-Star pictures, knowing an opportunity when it sees one, decided to release the film in an unheard of 800 theaters. For the normally low grossing Mr. Allen, this was a good sign.

The main point of interest is the numerous parallels between the real Woody Allen and this film. It's true that Allen in the film is also married to Mia Farrow in the film (in reality, they are not even married). He later becomes interested in a 20 year old writing student (Juliette Lewis) and tells me, "The first time, something's funny. The second, it's silly. The third, it's true."

Pat Buchannan would like us to believe it almost caused Amy Fisher, the little low to splatter the issue on nationwide TV right from Hard Copy, but it was news, and I believe it should have been told. As a certain magazine editor once said, "If they screw up, BANG! On the front page it goes." It seems like an interesting gray area, where you know it was important to show it, but it seems kind of underhanded to do it. Oh, well.

The topic of conversations

The Wizard of Oz

Husbands and Wives is more of an intense, philosophical character study than a plot oriented film. It tackles some very burning questions, like, are people meant to stay together forever, and is there such a thing as a perfect match? Where most movies of late are a nice little snack with a diverting story that you may remember the remainder of that night, Husbands and Wives is hearty, substantial brainfood that can be the basis for some real intelligent discussion. That, of course, depends on your company.

Can't afford to save for retirement?
The truth is, you can't afford not to.
Not when you realize that your retirement can last 20 to 30 years or more. You'll want to live at least as comfortably as you do now. And that takes planning.

By starting to save now, you can take advantage of tax-deferred and give your money time to compound and grow. Consider this: set aside just $200 each month beginning at age 30 and you can accumulate over $102,530 by the time you reach age 65. But wait ten years and you'll have to budget $500 each month to reach the same goal.

doe. No discourtesy, no nothing. But as far as these other child stars, I can understand where abuse would affect somebody, but most of these kids didn’t have child abuse. The only abuse their parents heaped on them was not teaching them right from wrong or letting them run helter-skelter, giving them more money than they could spend and not instilling any responsibility in them. That’s the real abuse.

P* During your years with Hal Roach Studios did you have a favorite or a least favorite co-worker?
S* No. Not really.
P* Just went in. worked and came home, huh.
S* Well, we were all friends and whether we were or not, we had to be. We worked together nine hours a day, five days a week...
P* For a very long time.
S* And we learned how to work with people that maybe you didn’t particularly like, but found some redeeming value in them that would make it bearable for you to work with him day in and day out. Otherwise, you were gonna be unhappy and everyone around you would be unhappy. I learned early in life to get along with people. You don’t have to fall in love with ’um, but you get along with ’um for the period of time you have to. When that’s over you don’t. You go your own way and they go theirs. Life is very simple. The only social graces that any person needs in this country they can learn in kindergarten.

P* So you’ve read All I needed to learn, I learned in kindergarten by Robert Fulgum.
S* I’ve been saying that a long time before Robert ever wrote it. (Laughter.)
P* How did you leave show business? Was it your choice to leave or...
S* Absolutely.
P* You decided “I’ve got to go . . .”
S* I was sixteen years old and no longer under contract to anybody and I was tired of making movies. I told my father “I’m not gonna make any more movies” and I didn’t.
P* And your father approved?
S* No. He didn’t like it.
P* He wanted you to go on then.
S* Well, he thought I still had a career out there and I didn’t care whether I had one or not. I wanted another life. I was sixteen years old and had been working for thirteen of those. I wanted a break.

P* Do you enjoy the fandom you still receive?
S* Sure. It’s an honor to me that people remember something I did a hundred years ago. (Laughter.) It’s like I told you earlier, this is what I give back.
P* You seem very concerned about what is going on in the country, . . .
S* I am. I have a granddaughter that’s seven years old who’s gonna grow up and not have a shot at the American dream like I had.
P* Do you have a prediction for the White House or does it really not matter . . .
S* Of course it matters! This is probably the single most important election in fifty years. Maybe a hundred. The system needs cleaning; needs updating. The founding fathers, in my opinion, did not intend for some senator to go in when he was 25 and still be there when he was 75!
P* What about the White House?
S* Whoever goes in there is gonna to care about reducing the deficit; they’re gonna have to care about operating on a balanced budget and stop this insane spending. . . . I wish we could set the election back another year and make these candidates go to some town meetings twice a month. And to go there and listen, not talk.
P* Your are/were a figure in the entertainment industry, and we all know that despite what the vice-president may say, the industry has some bearing on how we are culture is. What do you think?
S* Of course. Hollywood, unusual as it may be, is an art form; an ongoing, changing art form. And art has it’s effect on society. Hollywood is very liberal. Always has been, probably always will be. But I don’t agree with a majority of things that Hollywood says, does or puts out in motion pictures but it does have effects on American people. Life gets tedious. Don’t it? Remember that song?
P* What song?
S* “Life gets tedious, don’t it?”
P* I don’t think so.
S* That goes back quite a few years though. I don’t know why I thought you’d be familiar with it. You’re too young.
P* You’re not all that young ya know.
S* You’re not 40!
P* I’m almost 24.
S* Well, excuise me. (Pause.) I’ve got shorts that are 24!! (Laughter)

Volleyball continues improvement but still seeks first victory

by Nicole Festa

The wireless MSC Volleyball team was just narrowly defeated by Marywood in a squeaker of a volleyball match last week. After losing the first game by a close margin of 15-13, the Lady Red Hawks tried to rebound in the second game. Although they forced Marywood to score an extra point (for the two point mandatory margin), they fell short once again after the score of 16-14. Finally, they lost the third game by another tight score of 15-12. This might have been marked a loss in the books, but the volleyball team could consider it a possible plus. They showed tremendous improvement from their last outings, and proved that they are capable contenders.

The Red Hawks will finally end their seven game homestand with contests against Bloomfield College on Thursday, Oct. 1 at 7 p.m., and NYU on Saturday, October 3 at 12 p.m.

MSC's Davis and Culver know all about meaning of "pride"

by Michael Frasco

Don't ask Keith Davis if he was intimidated last week when the junior traveled up to Ithaca College, because their respective childhoods were filled with enough hard times for a lifetime.

Davis, the starting cornerback for the Montclair State College football team, and Culver, the starting fullback, both grew up in Newark, New Jersey, and to them, that was intimidating enough.

"I grew up in the worst section of town, in the South Ward section," said Davis, and Ali-ECAC selection at cornerback last year as a sophomore. "I was afraid because my house was constantly being vandalized by violence and car theft, and drugs were everywhere. I laugh when someone asks if I was ever scared on the football field. Those people don't know what scared me.

That is why, this coming Saturday on October 3rd, Davis and Culver will feel that there is a bit more at stake than just winning the next game in the 14th Annual Pride Bowl at Montclair State's Sprague Field. The Pride Bowl is a football game played every year in which the proceeds from ticket sales and private donations go directly to an organization called Project Pride (see back page).

Culver also remembers growing up in Newark. "It was a tough situation," he continued. "You were never 100 percent comfortable. That is why I'm so glad to play in this game. It's giving chances to kids in Newark who normally wouldn't have any. Kids need programs like Project Pride that offer to divert their attention to good things."

Davis agrees. "I saw what happened to some of my friends, what happened to the people I grew up with, and if I can do anything to help today's kids, like playing in this game, I'll play twelve Pride Bowls tomorrow."

The game, run for the last 11 years by Star Ledger columnist Jerry Izenberg, used to be played in what was the beautiful City Stadium in Newark. But neglect and poor maintenance caused the New York University Board of Education to condemn the grandstands in the stadium, forcing Project Pride to find another place to play. That turned out to be a difficult task, since City Stadium had a capacity of 14,000, and the game was on verge of selling out every year.

However, all was saved that year (1990) thanks to Irvington High School, when its board of education donated its own football field for the game, which was contested by MSC and Wagner College. Although there is still doubt as to need programs like Project Pride that offer to divert their attention to good things."

Davis agrees. "I saw what happened to some of my friends, what happened to the people I grew up with, and if I can do anything to help today's kids, like playing in this game, I'll play twelve Pride Bowls tomorrow."

The game, run for the last 11 years by Star Ledger columnist Jerry Izenberg, used to be played in what was the beautiful City Stadium in Newark. But neglect and poor maintenance caused the New York University Board of Education to condemn the grandstands in the stadium, forcing Project Pride to find another place to play. That turned out to be a difficult task, since City Stadium had a capacity of 14,000, and the game was on verge of selling out every year.

However, all was saved that year (1990) thanks to Irvington High School, when its board of education donated its own football field for the game, which was contested by MSC and Wagner College. Although there is still doubt as to...
Dear Mom,

My first day at MSC was awful! Since my **Walls** broke, I missed my 8 o'clock class. There was no hot *Literary Magazine* left in the showers. Then I tripped and fell down the stairs in front of the entire **Submission Deadline**. During Oct. 9th, I spilled my **Room 113 A** all over the front of my **Student Annex**.

Then I walked into the wrong classroom and got yelled at by some **Poetry** professor. When I finally found my **Short Stories** class, I was 15 minutes late.

The worst **Drama** of it all was waiting two hours in line in the **Drawings** store and then realizing I had left my money back in the dorm room.

By the time I reached my **Paintings**, my keys were nowhere to be found and my **Photography** had left for the weekend.

Please **Submit** beer money...

Love, **Undergrad Student**

**Cross country looks for big things from All-Americans**

by Mark Alan Belnay

This past week the MSC cross country team kicked off its season at the Monmouth Invitational with both the men’s and women’s teams showing the talent needed to be successful in the upcoming season. The men’s team is led by All-Americans Wayne Dennis, a junior transfer from Essex Community College, and first-year runner Ernest Johnson, an All-American in both Indoor and Outdoor Track and Field this past year. The women are led by the combination of All-Americans Sherine Titus, Carla Roberts, and Sharon Lindo, all of whom gained their All-American status in Track and Field last year.

Dennis and Johnson are joined by junior transfer Hector Rivera, who is coming off a serious knee injury to run cross country for the first time, senior John Brennan of JFK Memorial High School who has recuperated from a knee problem, as well as freshmen Kara Rambberger of Bridgeton High School, East Orange High’s Rhonda Westbrook, and the team’s sixth runner Maria Tchinchinian out of Dover High School. Despite finishing with an incomplete this past week at the Monmouth Invitational, the team shows promise. Head coach John Blanton who is looking forward to an improved performance this week at the New Jersey College Championships says, “Hopefully all butterflies were left on the track this past week.”

With an improved performance from the women and Brennan and Dennis improving upon their previous marks, as both did this past week at the Invitational by nearly four minutes in their 5-mile races, the MSC team should put up an impressive performance this week. The team’s sole home meet is October 17 at the Red Hawk Invitational. Following that week the team is on the road for their remaining meets that include the Drew Invitational on the 24th, the Monmouth Invitational on the sixth of November, and the NJAC Championships says, “Hopefully all butterflies were left on the track this past week.”

In addition to the three track and field All-Americans, Titus, Lindo, and Roberts, the women’s team boasts some sparkling new talent in freshmen Kara Rambberger of Bridgeton High School, East Orange High’s Rhonda Westbrook, and the team’s sixth runner Maria Tchinchinian out of Dover High School. **N.F.L. Picks: Week 5**

George Calle, Managing Editor:

1. x-L.A. Raiders -2 over N.Y. Giants. Would you want to face Coach Shell Monday morning?

4. x-Atlanta -8 1/2 over Green Bay. Neon don't fail me now...

5. x-Denver -1 1/2 over Kansas City. Chiefs overrated.

Roh Campos, Editor-In-Chief of the Anarchist Syndicate

2. New England +8 1/2 over x-N.Y. Jets. The Jets are trying for 0-16.

4. x-Atlanta -7 1/2 over Green Bay. Because Green Bay drafted someone from North Bergen.

5. x-Philadelphia -4 over Dallas. I need the 50 "points."

Michael Frasco, Sportswriter:

1. N.Y. Giants +2 over x-L.A. Raiders. Simms factor will lead the Giants.

2. N.Y. Jets -8 1/2 over New England. Can't go 0-5, can they?

3. x-Tampa Bay -9 over Indianapolis. Bucs will keep rolling.

4. x-Minnesota -4 over Chicago. Vikings too strong.

5. Kansas City +1 1/2 over x-Denver. Chiefs Elway beat up on the Broncos.

Steve Garufi, Editorial Page Editor:

4. x-Atlanta -7 1/2 over Green Bay. The Falcons are simply better.

5. x-Philadelphia -4 over Dallas.

Keith A. Idee, Sports Editor:

1. N.Y. Giants +2 over x-L.A. Raiders. Week off should help Giants to victory.

2. x-N.Y. Jets -8 1/2 over New England. 0-5? I couldn't take the ridicule from my friends.

3. x-Atlanta -7 1/2 over Green Bay. Falcons should bust out of slump in Georgia Dome.

4. Kansas City +1 1/2 over Green Bay. The Chiefs are simply better.

5. New Orleans over x-Detroit. Tough Saints "D" tames the Lions.

Kevin Schwoebel, Prophet Bigg:

1. N.Y. Giants +2 over x-L.A. Raiders. The youth of America need to wear new hats and coats.

3. Seattle + 3 1/2 over x-San Diego. I like their helmets.

4. Kansas City + 1 1/2 over x-Denver. The Chiefs are rolling.

5. x-Buffalo -11 1/2 over Miami. Buffalo's 4-0.

The Pride Bowl: More than a football game

by Michael Frasco

After losses to Cortland State and Ithaca College in its first two contests, the Red Hawk football team is in need of a victory to keep its playoff hopes alive. MSC will get that chance against NJAC rival Ramapo College this Saturday night at Sprague Field at 8 p.m. The contest marks the 14th annual Pride Bowl.

The Roadrunners will be seeking their first victory as well, after dropping a 7-0 decision to Kean this past weekend and falling to 0-3 in the process. And although this game is critical for each team, the fact that the two teams will convene, means the real winner will come off the field in the name of the kids from Project Pride.

The game is the sole fundraiser of this all-volunteer non-profit Project Pride Inc., which funds over 18 programs for 15,000 youths in the city of Newark in the areas of recreation, after-school tutoring for grammar school children and college scholarships for high school graduates.

Saturday’s game will mark MSC’s eighth appearance in this annual game, with the Red Hawks owning a 3-4 record. Last year’s contest saw Ramapo overcome a 17-7 deficit in the fourth quarter and pull out a 25-17 victory. The winning touchdown came forced out of the pocket and scrambling when he found Brad McKinney over the middle for what turned out to be an 88-yard touchdown pass with just 1:06 to play.

A standing-room only crowd is expected by Pride Bowl officials to witness the contest. The top six teams in the NJAC will compete, and one of them actually has to do with football. John Walker, MSC’s All-American candidate at tailback, needs just 84 yards to become the all-time leading rusher in MSC history, surpassing Leroy Horn who racked up 2,858 yards. Walker currently has 2,858 yards on a record 594 carries.

Men’s soccer wins pair behind Neubart

by Craig Beraho

The Red Hawks offensive attack was as relentless as the rain Friday night at Sprague Field. The men’s soccer team poured on Rutgers Camden 6-2, completing a perfect 2-0 week of play.

After a Pioneers’ goal cut the MSC lead to 2-1 in the second half, Fernando Barboto embarrassment a Pioneers defender with a brilliant misplay in the 102nd minute when MSC forward Guillermo Siles scored the game winner, his fourth goal of the season, off a pass from Barboto. Neubart forced the game into overtime by scoring with only two minutes left in regulation. MSC, who out-shot the War Hawks 29-13, struck first on Mario Zapata’s second goal of the year.

MSC sophomore forward Erik Neubart was named NJAC Co-Defender of the Week for his efforts in two men’s soccer victories last week. Neubart, a Livingston native, scored three times and added three assists to help the Red Hawks win over E. Conn. and Rutgers Camden.

Neubart currently leads the team in scoring and is fourth in the NJAC with five goals and five assists. “Erik has done a lot of hard work. His relentless effort makes him very dangerous. He creates opportunities for himself by always working and giving 110 percent,” said head coach Rob Chesney.

The Red Hawks outshot the Pioneers 34-8. Neubart scored the game’s first goal and Dennis Mancero headed in his first of the year for a 2-0 MSC lead at half-time.

The first half was controlled by the skill of MSC midfielders Alex Zapata and Barboto. “They are both creative defensive players and they organize an attack,” said assistant coach Rob Chesney.

The Red Hawks take on Vassar College (N.Y.) tomorrow night at Sprague Field at 8 p.m. The nonconference game matches the number four team in the Eastern Region, Vassar, against the sixth ranked Red Hawks. The top six teams in the region make postseason play, so make plans to catch the Red Hawks in what should be an excellent game.

Does Walker’s Road to Record Run Through Roadrunners?

There is a lot at stake this Saturday night at the 14th Annual Pride Bowl, and one of them actually has to do with football. John Walker, MSC’s All-American candidate at tailback, needs just 84 yards to become the all-time leading rusher in MSC history, surpassing Leroy Horn who racked up 2,858 yards. Women's tennis moves to 5-2 with fourth straight win

by Karen Plumstead

The MSC Women’s Tennis team has become unbeatable. The Red Hawks continued their winning streak this week with their fourth win in a row, upping their record to an impressive 5-2. The Red Hawks outstanding play put them over the edge to victory. Also, freshman Catherine Grosvenor staged a comeback in the second set, winning 7-5, after being down 5-2. Walker currently has 2,858 yards on a record 594 carries.

The tight contest also proved victorious over Upsala on Thursday, Sept. 24, 6-3. Freshman Traci Syzmanski, proved to be preparation for the contest itself. He said, “Last week, the emphasis was, let’s get back to the fundamentals and let’s try to regroup and correct some of those mistakes.”

One of the central reasons for MSC’s 0-2 record is due to the team’s overall lack of game experience. “Because of our youth, we may have tried to do too many things in terms of X’s and O’s, and maybe our inexperience is not ready to handle that yet,” Giancola said.

Looking ahead to this week’s contest, MSC and Giancola will need very little motivation, as the painful memory from last year’s loss is still strong. He said, “The sting of last year and how last year’s game ended is still there. After a win for Saturday for MSC, would certainly relieve much of the sting from last season, and more importantly, it would also alleviate much of the pressure that comes with this year’s winless campaign so far.
