Blanton Resident denied speech
by Glenn Steinberg

On September 17, a Blanton Hall resident signed away her constitutional right to speak her native tongue, Spanish, in her own room.

Eva Santiago in a dispute with her roommate, Jennifer Drenchen, signed a room contract that stated she would only speak Spanish to her parents.

"When I heard this I was outraged," said Shelly Jackson, director of Blanton Hall.

The incident started when Santiago told Drenchen that she did not want her male friends to visit late at night due to the fact that she could not sleep. Santiago said this started constant bickering between the roommates and resulted in the intervention of Resident Assistant Cynthia Wroblewski. They discussed the problems they had with each other to Wroblewski and together they drew up a Roommate Contract.

Santiago said she was hesitant to sign the contract but felt pressured into signing and said Wroblewski said, "The faster you decide, whether or not to sign the contract the faster we can leave."

Jackson was surprised that the situation had been included about speaking Spanish and wondered why Santiago agreed to it if she did not have to.

Assistant Manager, Rachelle St. Louis, pulled Santiago aside and told her that this clause was wrong, but she signed it anyway, said Jackson.

Jackson would like to make it clear that the rumors spreading around that this in

College freezes hiring due to state budget cuts
by Greg MacSweeney

Due to cuts over the past few years in MSC's budget, a hiring freeze has been set in every department except for faculty, said Dr. Thomas Aucinch president of finance.

According to Auchen, approximately 140 jobs have been frozen so far, and none of them are due to layoffs.

"There are no layoffs," said Auchen, "All of the jobs that have been frozen are due to relocations or resignations."

"The main problem is the budget," says Dr. Richard Lynde, vice president of academic affairs. "With a $57 million reduction in the budget by fiscal year '94 all departments must reorganize. All the staff is being reduced except for the faculty."

Approximately fifty percent of the jobs that have been frozen will remain frozen permanently. The other half will either be reopened or reorganized when the budget permits.

Although the classrooms will not be affected, campus life may become slightly more difficult due to decreased manpower in both security and police along with possible delays in maintenance productivity due to lack of staff.

Bohn fire system on the blink
by Jennifer Prentice

The Bohn Hall fire alarm system has been repeatedly malfunctioning since Sept. 23. The 10-year-old deteriorating fire alarm system was scheduled to be replaced over winter break, but did not make it until then, said Sherri Cantrell, director of Bohn Hall.

"It's safe enough to live here," Cantrell said. There has been no danger to the approximately 547 students living in Bohn and the Residence Life Staff have been enacting emergency fire procedures for the past 10 days.

The E.P. Reid alarm company was brought in on Sept. 28 to begin repairs on the system which were completed Oct. 2. During a fire drill on Oct. 4 it was detected that the alarms were not working in all zones, said Marjorie Coleman-Carter, Director of Residence Life.

Bohn Hall houses approximately 500 residents

Masturbator arrested
by Jean Paternoster

A Montclair man has been charged with lewdness after allegedly exposing himself to two female students at the Clove Road apartments last week. Campus Police said.

Michael A. Primamore, 24, of Valley Road, was arrested on a disorderly persons offense after one of the women filed a complaint against him.

The complaintant, a 21-year-old senior psychology major, said that while entering her vehicle at 9:10 p.m. on Sept. 27 the suspect pulled alongside her and asked for directions to Bloomfield Avenue.

While giving directions, she saw him masturbating but ignored his act because, "It's important not to react. By reacting you encourage him," she said.

She then observed the suspect as he drove 100 feet away and repeated the offense to a second woman. Taking down the license plate number, she instructed the second woman to call the police while she pursued him in her vehicle. She lost the suspect by Route 46 and went directly to police.

"I turned him in because I think he needs help," the complainant said. "This type of offense, they're really cowards."

While Primamore would not comment his mother said that this is the first time this has happened. "Michael is presently under psychiatric care and we'll do whatever it takes to get him well," she said. "The family is doing all we can to help him and support him."

Primamore is scheduled to appear before Little Falls municipal court's Judge John Gavenda on Oct. 28. He faces a possible maximum penalty of six months in jail and up to a $1,000 fine, plus a mandatory $50 violent crimes compensation penalty.

Walker sets rushing record

Senior tailback John Walker became MSC's all-time leading rusher with a 151-yard effort in the Red Hawks 27-7 win against Ramapo College on Saturday's 14th Annual Pride Bowl Game.

Walker broke the old mark of 2,942 yards set by Leroy Horn in 1982. He currently has 3,109 yards rushing, with six games left in the season. (See stories pages 22 and 24.)
In News Briefs this week, there is a speech on AIDS in the Student Center in room 417. Refreshments will be served as Professor Ruth Bayard Smith talks about the Arthur Ashe story and the ethics of the situation. It takes place October 19 at 1 p.m.

Personal Growth workshops will be held this month. Some of the workshops are: Adult Children of Alcoholics, Overcoming Stress, and Survivors of Destructive or Abusive families. For more information about these intriguing topics and the whens and whers, contact the Psychological Services at ext. 5211.

Ron Hollander, our wonderful and enlightening advisor has been honored as CMA Honor Roll Advisor. Congratulations, Ron!!!

It’s open mic on Monday October 12!!! At 7:30 come to the Student Center Annex to perform for all your friends!!! Come out and show your school spirit.

There is a Journalism meeting open to students and faculty on October 19 at 1 p.m. in room 417 in the Student Center. Find out more about the Journalism minor that is offered at MSC and tell them if it is fitting your needs.

---

**INTERNATIONAL**

President Bush in comments aimed at Hispanic voters promised in a second term he would increase U.S. pressure on Cuba to abandon Communism. Bush said, “He’s still denying human rights there, he is still putting the arms on to own people, and crushing them down, and he can’t go on.”

President Ion Iliescu and his main opponent in last weeks election have been forced into a runoff election. Iliescu only mustered 47% to the 31% for second place. Emil Constantinescu of the Democratic Convention. Iliescu is expected to win a four year term on Sunday, he is a former Communist.

The Red Cross yesterday suspended food air lifts to the town of Belet Huen after gunned down a kitchen and threatened aid workers. The looters killed one person and took 460 pounds of rice, beans, and vegetables.

Over 25,000 people rallied against the new wave of Nazi attacks in several German cities. Many refugee camps and immigrants have faced usually young rightist reactionaries who have attacked them for taking German jobs and burdening their economy.

The hole in the ozone layer over Antarctica has returned and it’s bigger and badder than ever according to scientists. It has grown by 15% and it now has a friend to play with. It’s cousin in the Northern Hemisphere which slipped as far South as New England and possibly over our area during March of 92.

---

**NATIONAL**

Car jacking was made a federal offense by Congress just before session ended. It now carries a sentence of 15 years to life. The law is in response to the wave of car thefts undertaken in order to ram into police cars in our nation’s cities.

Congress overrode President Bush’s veto of the Cable Bill. This is the first veto congress has beaten Bush on. The house voted 308-114 and the Senate 74-25 both accepting the needed two-thirds majority to override a veto. The Bill renews government regulation of the cable TV industry.

Ross Perot spent his first weekend as an official candidate for President under wraps working on campaign strategy. According to new polls, Perot lags in a third place spot. Clinton leads with 53%, Bush 36%, and Perot only 9%. Perot spoke on national television on Tuesday night in his first nationwide commercial. A massive storm spanned tornadoes and dumped torrential rain in the southeast.Parts of southern Georgia were flooded under 10 inches of rain. Pinellas Park Florida had three deaths and crushing them down, and he can’t go on."

---

**LOCAL**

Paterson police are upset with the most recent flare up of anti-cop sentiment in Patterson. It started to increase with the L.A. riots but has grown in occurrence since the 20% pay increase awarded to Patterson’s “finest” in July. Many of the comments hurled at police accuse them of being abusive and lazy. The police say they are understaffed. One resident of Auburn St. said, “It’s like we have no rights. I think we would respect the police more if they treated us like human beings instead of like dogs.”

A religious leader in Newark is accusing police of covering up and causing the death of a 14 year old. The boy stole a car and was pursued by police. The police claim the boy crashed and died when he failed to make the turn. A reverend said police were ramming his car and forced him into a pole.

Forty two Chapters of the state N.A.A.C.P. voted unanimously to oppose a bill that would allow municipalities to impose or enforce a 10 p.m. curfew for people under 16. They are also saying they would oppose celebrations of Columbus’s voyage and discovery of our continent. Keith Jones, the organization’s conference president, said the bill has too many negative implications. In a 5-2 ruling the New Jersey Supreme Court canceled an emergency court order that prevented the state from laying off 1,500 workers and reassigning 4,000 people. The cuts are related to shrinking budgets.

SGA approves $26,000 for revamping of WMSC

by Steve Gateward

The SGA unanimously approved Wednesday night the appropriation of $25,967 for WMSC to purchase new broadcasting equipment.

The money will go to purchase an audio arts board that controls how the music is heard over the air and audio arts furniture that holds the board secure. A Panasonic DAT (Digital Audio Tape) player that is capable of recording sound with CD quality. They also plan to get a Genter telephone hybrid which allows the station to talk to callers on the air. Along with the other equipment they plan to buy a Burk transmitter remote, which will allow WMSC to turn on and off their transmitter by remote control.

Additional equipment set to be purchased is a Radix distribution amplifier, and Broadcast electronics FM exciters, which makes broadcasts in stereo, and a Technics turntable.

"This equipment will replace old and broken equipment and move WMSC into the '90s," said Marco Espinoza, station production director.

WMSC has been working since last semester on research to find the best equipment at the lowest prices. The general staff of WMSC praised Stuart Weissman, general manager of the station, for the enormous amount of work he has done. In his research Weissman contacted many top rated college stations to see what equipment they use.

The entire executive staff was on hand when Weissman made his presentation to the SGA, and gave him their full support. "His presentation was highly professional," he thoroughly explained the need for every piece of equipment. There was no need to question his reasons," said SGA legislator Moses Sackowitz. His presentation lasted well over an hour and incorporated the use of an overhead projector.

Thesetoplanes to dedicate the new studio equipment to former WMSC DJ Jonathan Blazar and hope to have a plaque and a ceremony.

Hazard problems throughout New Jersey campuses

by Mike Cappadona

Hazing among campus organizations is a problem that plagues colleges and universities throughout New Jersey.

Several institutions have taken action against organizations that were found guilty of violating campus policies as well as local laws. Trenton State College had an incident last year where a national fraternity was charged with having an illegal little sisters group, said Marguerite Weissman, member of the Greek affairs board.

The sister group was accused of hazings its members by making them wear inappropriate clothing.

"Little sister groups were suspended from the institution for three years and by their national office for five years. This is the only major incident that has occurred atSeton Hall," said Mikalauskas.

Rutgers University of New Brunswick has faced more serious problems with hazing. Lambda Chi Alpha Fraternity was suspended for two years for violation of hazings at Trenton State. The little sister group consisted of female students who served as a support group for the fraternity. The female group was not a Greek organization, but did have a pledge class and paid membership dues.

The sister group was accused of hazings its members by making them wear inappropriate clothing.

Advising residents to call front staff and students. The system is still working so there was no need to fix it since it was scheduled to be replaced.

The system did meet all criteria of state fire codes and was acceptable by MSC Fire Marshall Dominick DiSimone. The system was installed by FCA, and safety of students is paramount importance, "said Desiderioci. She continued by saying if students feel they are not being taken care of they can speak with her and she will address the problem.

After the initial system failed, a new system was held and emergency guidelines were given to all students and loud air horns were given to Residence Life staff members.

Students were given written evacuation and emergency procedures from Carter's office which state:

- Evacuation procedures will be distributed to staff and students.
- Air horns and fire extinguishers will be distributed to staff and an extinguisher usage class will be given to all students.
- Creation, distribution, and installation of signs declaring the status of this systems and advising residents to call front desk and police if a fire is detected.
- Extra exit signs and battery operated smoke detectors will be temporarily installed in common areas.

Business education and legal department merge
by Mike Cappadona
A proposal to join existing programs of the Department of Business Education and Office Systems Administration (BBO/A) and the Department of Legal Studies was passed last Monday, said Dr. Steven Cyrus, Chairman of BBO/A. According to Cyrus, the college has a Paralegal minor consisting of 24 credits. The Legal Department felt that, to enhance preparation for employment, additional courses in Office Systems Administration (OSA) would help graduates find better jobs.
OSA majors in business can also add 24 credits of free electives in Paralegal studies. Thus, the student can have a major in OSA and a minor in Paralegal studies. The student would be issued a certificate from both departments.

"There has been a tremendous response by the students about joining the programs," said Cyrus. If interested, students should contact Dr. Cyrus or Dr. Marilyn Taylor of the Legal Studies department.

A similar program exists for OSA majors in Health Profession studies. OSA majors can take a 15 credit specialization in Health Professions. The student can then utilize their credit accumulation to apply for opportunities in a Health Administration environment.

CAMPUS LIFE

Oh look, a parking space! Not!
by Nicole Florlt

After twenty minutes of searching for a parking space and maneuvering through the illegally parked cars, it is time for a fifteen minute hike to class. The climb begins after stripping on a twenty-pound bookbag and saying goodbye to your car for what could be the last time.
The complaints can be heard all over campus as freezing students stumble to their classes. Parking is horrible. There aren't enough spaces. The los are too far as from the buildings. Traffic is blocked by illegal parkers. It takes forever to get out of the campus because the traffic is so bad. One senior said, "Although the buses are bigger, they don't come as frequently as she thinks they should."

All of these complaints are true, but what can be done about them? One freshman suggested a parking garage. Designated spots was a suggestion from another freshman.

There are all good suggestions but would cause some kind of problem. The parking garage would cost a lot of money to build. Therefore, it would cause tuition and parking fees to rise. Along with more money would be more construction. Where the garage would be located is also a problem. If it were to be where the parking lots are now, they would have to be closed. This would, in turn, make parking worse than ever. If the garage did take the place of parking lots, it would not improve the distance to the classes.
Designated spots would ensure each student a spot. However, who would decide which students got what spots? Some students would still end up with a long walk. Another problem would be keeping track of who is supposed to park in each spot. This problem would pose the need for more security guards. As a result, the tuition would again be raised.

There does not seem to be a practical solution to the parking problem without spending money, raising tuition and other fees.

Women's center offers various programs for MSC students
by Rita Guerra

Blending the new with the traditional, the Women's Center at MSC has a wide variety of programs on its 1992-93 calendar. Under director Dr. Joan C. Ficke, new programs will have a special focus on women's health issues. However, the traditionally scheduled "Wednesday at Noon" programs will continue. The first Wednesday program, October 14, will honor the Center's past directors. The guest of honor will be Dr. Constance Waller, who opened the Center's doors in 1972.

Since that first year, 20 years ago, the Women's Center has provided a place to enlarge awareness about the status of women both on campus and in the larger society. Its programs, referral services, lending library, career pamphlets and other material have made it a vital part of campus life.
For example, the topic at noon on October 21 is "Women and Alcohol." On October 28 "Sexual Harassment - The Things We Do To One Another" will be the topic. In November, participants will be able to have individual health risk appraisals, and to hear a presentation on job health and safety.
In addition, a special half-day program on "Women and Heart Disease: A New Awareness," co-sponsored by the Eastern Heart Institute of the General Hospital Center at Passaic, has been scheduled for February 3. Additional special programs will be announced as plans and dates are confirmed.
The Center is opened for all students at Montclair, including undergraduate and graduate students, faculty and staff. It is located in Rooms 420-21-22 of the Student Center, and is open Monday through Thursday from 9 a.m. to 5 p.m. This year's staff, under Dr. Ficke's direction, include Student Assistant Valerie Sprott.

The women's center '92 calendar

Wednesday at Noon Programs

Oct. 14- Come Meet Us
The staff of the Women's Center, the Women's Studies Faculty, and our special guests: Dr. Constance Waller, our first Director, and her successors. Light refreshments will be served in the Student Center, Rooms 420-22 and 417 from noon to 1 p.m.

Oct. 21- Women and Alcohol
Presented as part of Alcohol Awareness Week by Dr. Joan Ficke, Director, and Margie Colby of Residence Life. Student Center Room 417 from noon to 1 p.m.

Oct. 28- Sexual Harassment- The Things We Do to One Another
Presented by Prof. Huey Alcaro, Dept. of Home Economics; Ms. Jill Greenbaum, Director of the Bergen County Rape Crisis Center; and Dr. Susan Herman, Director of Psychological Services, MSC. Please note: This program will run from 11 a.m. to 1 p.m., Student Center Room 417.

Nov. 4- Individual Health Risk Appraisals
Conducted by Dr. Joan Ficke and Ms. Karen Isleib, R.N., Coordinator of Cardiac Patient Education, The General Hospital Center at Passaic. Student Center Room 422 from noon to 1 p.m.

Nov. 11- Individual Health Risk Appraisals- continued
Nov. 18- Worker Friendly Jobs: Health and Safety Issues
Conducted by Ms. Rita Guerra, former OSHA consultant, currently Graduate Assistant for the Women's Center; and Dr. Joan Ficke. Please note: Kops Lounge, Russ Hall from noon to 1 p.m.

Dec. 2- Holiday Stress
Speaker to be announced.
Student Center Room 417 from noon to 1 p.m.

Dec. 9- Seasonal Affective Disorders and Winter Blues
Conducted by Dr. Robert Goggins, Psychological Services, MSC. Please note: Kops Lounge, Russ Hall from noon to 1 p.m.
Phi Beta Sigma donates money to Red Cross

by Steve Gateward

Phi Beta Sigma Fraternity Inc. Kappa Epsilon chapter, in their continuous service to the community has recently donated $300.00 to the Red Cross to help the hurricane Andrew relief efforts.

The brothers presented a check to caseworker Gloria Walcott on September 18 to the Red Cross Essex County Chapter in East Orange.

"It's a shame that such a terrible thing had to happen. We just wanted to do something, even though it is a small gesture compared to the total amount of damages," said President Regan Edwards.

They hope to meet with Campus administration to ask for a date, to give a function, in the hopes of raising more money to donate to Red Cross' disaster relief effort.

The reason why the fraternity wants to donate the money to the Red Cross' Disaster Relief Fund and not just to victims of Hurricane Andrew, is that when we spoke to Ms. Walcott she said, "The relief fund was depleted even before this unfortunate disaster."

The Chapter also help Shiloh Baptist Church with its Feed the Homeless program. The project is done on every Saturday and Sunday at Penn Station in Newark where the Chapter and members of the church hand out lunches.

Kappa Epsilon plans on getting other campus organizations to help with their efforts with the Red Cross and Shiloh Baptist Church.

"These are causes that the entire campus community should try and be involved with because we never know when we (as a group or individually) may need help," said James Stradford, member of Kappa Epsilon.

Members of Phi Beta Sigma making a donation to Gloria Walcott of Red Cross.

Retail Management Opportunities

SUCCESS TAKES ALL KINDS OF LEADERS

All great names in literature. All leaders with the ambition, vision and creativity to succeed. Now you can have the chance to make your name. With over 1,000 stores nationwide, Barnes & Noble, one of the most exciting retailers is pushing ahead with tremendous excitement and even greater opportunities. We're looking for professionals who are as literate as they are likeable to lead us into the future.

When you join Barnes & Noble Inc., you'll be part of one great success story that includes such great names as:

• Barnes & Noble
• Bookstar
• Bookstop
• B. Dalton Bookseller
• Scribner's Bookstore
• Doubleday Book Shops
• Software Etc.

Right now, we have many opportunities for hard working, customer-oriented entrepreneurial individuals with a real desire to achieve.

In exchange for your time and talents, Barnes & Noble Inc. offers dynamic growth potential, management training, competitive starting salaries, medical/dental insurance, tuition reimbursement and a 401k savings plan.

We will be on campus for interviews Thursday, November 5th

If you have what it takes to work with the best, please contact the Career Services Office by Thursday, October 15th.

Montclair State: a college or a prison?

by Robert Allen

As I weave in and out between giant tractor trailers in my tiny Toyota traveling west on Route 46 she begins to reveal herself to me on the edge of Garrett Mountain. Rising above the trees like an inviting hotel, I begin to spy Bohl Hall while preparing myself for the final maneuver which will get us off the highway. I am now beginning another day, among the many other days in this four year odyssey, that will surely leave me a changed man.

MSC is the quintessential New Jersey institution. Everything about it is New Jersey. From the high tension electrical wires, that drape across the sky above the college, to nightmarish traffic conditions, MSC embodies everything that is wrong in New Jersey. MSC is a microcosm of the entire state of New Jersey. We have it all here. We’ve got railroad tracks, never ending expansion and construction, congestion like no other part of the country, non stop noise, muggings, shootings, rape, illegal dumping, and last but not least girls who wear their hair in stereo. And there is nowhere to hide for a particular crime. Being sentenced to prison he or she can take on projects which only more seasoned people would get in larger organizations. The atmosphere is more casual and employees may be on a first name basis with the officers of the company. This casualality has its advantages and disadvantages. It allows the new worker to be recognized for superior work and promoted faster into the managerial ranks as the company prospers. The downside is that everyone knows everyone and those who crave a structured learning environment may find the experience too random. Salaries usually are lower and job titles will not be exotic, but the new workers can learn more in a year about an industry or field by being a generalist in a small company than he or she might as a specialist in a large organization.

Before you do your job hunt, do some research about the trends in society which will influence the growth of our economy. There will be expansion in areas relating to protection of the environment, health and personal services for a growing population, and information management. Find out about the new companies which are offering these services and products and consider them as places to begin your professional career. It’s a good idea to read business magazines like Inc. and Fortune, found in the Careers Service Library, where there will be articles about fast growing companies. Who know which fledging organization will become the next blockbuster video or Apple Computer.

Lesser Known Companies Provide Career Opportunities

by Robert Allen

There have been countless stories in the newspapers and in business magazines about the "downsizing" or "right-sizing" of corporate America. These new terms describe the reshaping of giant organizations into more profitable entities by eliminating jobs and layers of management. Only recently it was reported that Microsoft fired 35,000 workers and "downsized" the business. IBM fired 35,000 from their payroll; General Motors reduced staff by the thousands. Despite these frightening reports, there are women who want to begin their careers with these name brand companies. Until the downturn in the economy is a given, the answer is no.

After all, these organizations provided structured training programs to new employees, clear defined career paths and gave opportunity for future professional growth and advancement. But circumstances have changed and probably never be the same again. Companies that have survived the restructuring of the economy have learned that they can maintain profits only by remaining lean. So where should new graduates direct their job hunt efforts?

Economic forecasters predict that job market growth in the nineties will occur in the smaller and independent kinds of companies. Yet it is very difficult to convince students to consider the "unknowns." In fact, there are many advantages to starting a career in smaller, more flexible and dynamic organizations. Usually in these companies, new employees have broader work assignments and sometimes even take on projects which only more seasoned people would get in larger organizations. The atmosphere is more casual and employees may be on a first name basis with the officers of the company. This casualality has its advantages and disadvantages. It allows the new worker to be recognized for superior work and promoted faster into the managerial ranks as the company prospers. The downside is that everyone knows everyone and there is nowhere to hide for a non-producer. Training in small companies is very much on the job and dynamic organizations. There are virtually no corridors, no layers of management. Most small companies must be expansion in areas relating to health and personal services for our aging population, and information management. Find out about the new companies which are offering these services and products and consider them as places to begin your professional career. It’s a good idea to read business magazines like Inc. and Fortune, found in the Careers Service Library, where there will be articles about fast growing companies. Who know which fledging organization will become the next blockbuster video or Apple Computer.

In one respect MSC is most certainly a prison. As I weave in and out between giant tractor trailers in my tiny Toyota traveling west on Route 46 she begins to reveal herself to me on the edge of Garrett Mountain. Rising above the trees like an inviting hotel, I begin to spy Bohl Hall while preparing myself for the final maneuver which will get us off the highway. I am now beginning another day, among the many other days in this four year odyssey, that will surely leave me a changed man.

MSC is the quintessential New Jersey institution. Everything about it is New Jersey. From the high tension electrical wires, that drape across the sky above the college, to nightmarish traffic conditions, MSC embodies everything that is wrong in New Jersey. MSC is a microcosm of the entire state of New Jersey. We have it all here. We’ve got railroad tracks, never ending expansion and construction, congestion like no other part of the country, non stop noise, muggings, shootings, rape, illegal dumping, and last but not least girls who wear their hair in stereo. And there is nowhere to hide for a particular crime. Being sentenced to prison he or she can take on projects which only more seasoned people would get in larger organizations. In one respect MSC is actually worse than prison. At least in prison there is always the possibility to get some peace and quiet. At least in prison one can have themselves placed in solitary confinement. In prison this is considered punishment for some dirty deed. Here at MSC, one should only be fortunate enough to find such a sanctuary. Trying to study in the library here at MSC is like studying during a prison break. Men and women are screaming, shouting about something, smashing and breaking through some imaginary wall. Curse words become staple words up and down. I think it would be more comforting that I receive a fifty dollar bill, a clean suit and a letter of recommendation from the warden. 

It is useless to go through all the cliches about the cafeteria food here at MSC. The quality of the food is at least that of some of the finer prisons in this state while the prices are that of some of the best restaurants in the country. The food alone is not what makes me think of being in jail, one just has to take a look at the cafeteria help to get that prison feeling. They look like some of the wardens’ favorite inmates who through their conning and back stabbing, have been able to avoid hard labor and have a "culinary" job in the kitchen. Another aspect that makes MSC so Jerseyish, is the fact it has been built on an abandoned rock quarry. You can almost hear the original MSC students swinging their picks and hammers making little rocks out of big rocks. Who knows if the toxic elements are creeping up out of the ground to poison the campus. Who knows what is in the millions of tons of fill? Is the潜力 of the material used as fill has been buried beneath this campus for many years, much of it was put there well before there were any agencies to regulate this activity.

In one respect MSC is actually worse than prison. At least in prison there is always the possibility to get some peace and quiet. At least in prison one can have themselves placed in solitary confinement. In prison this is considered punishment for some dirty deed. Here at MSC, one should only be fortunate enough to find such a sanctuary. Trying to study in the library here at MSC is like studying during a prison break. Men and women are screaming, shouting about something, smashing and breaking through some imaginary wall. Curse words become staple words up and down. I think it would be more comforting that I receive a fifty dollar bill, a clean suit and a letter of recommendation from the warden. 

Woody Allen has been quoted as saying 90% of life is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up. If this is so, then 90% of graduating MSC is just showing up.
If you are looking for an opportunity to apply your education in a corporate environment, this could be your chance to get a foot in the door on your future...and become a part of the Atlantic Mutual team.

As part of our internal management consulting department, you will be involved with:

- analyzing work flow
- preparing reports
- statistical analyses using Lotus and DBase

Qualified students must be able to meet the following criteria:

- be able to work 20-36 hours per week, Monday - Friday
- be at least a Junior
- currently studying business or engineering
- possess excellent communication skills
- have a working knowledge of word processing

We offer an excellent salary and benefits program, including medical and dental, and an on-site health and fitness center.

To apply, please call Lori Cottin, Employment Supervisor at (201) 408-6063 or send your resume to Atlantic Mutual, Human Resources Dept., Three Gerald Farms, Madison, NJ 07940.

**Permanent Part-time Package Handlers**

Our tuition reimbursement package is one of the most important packages UPS delivers.

United Parcel Service knows how difficult it is these days to get through school, academically and financially. While we can't help you get better grades, we can help you by offering one of the most generous tuition-reimbursement packages around.

By working 5-5 hours a day, 5 days a week on selected shifts, you can be eligible for educational loans of up to $25,000 a year and tuition reimbursement of up to $2,000 a semester. You'll also get paid holidays and vacations, receive company benefits and be eligible for promotions.

UPS also knows that free-time is important. As a part-time package handler, you'll get weekends off! That's plenty of time to study or recharge.

No wonder we say UPS delivers more than a great job...UPS Delivers Education.

To learn more about this great opportunity, please visit the Student Center on Wednesday, October 14th & Wednesday, October 21st, from 11am-3pm, or Thursday, October 22nd from 4pm-8pm, or Wednesday, October 28th from 11am-3pm. Or apply in person during our regular interview hours:

Speak American damnit!

No habla Espanol. Not if an over-anxious Resident Assistant should deem it necessary to settle your roommate woes in Blanton Hall that is.

Just ask Eva Santiago. She had her constitutional right to speak in her native tongue contractually revoked on September 17. Incredibly, Resident Assistant Cynthia Wrobleswski had the audacity to include such a Pat Buchanan Republican Convention Address-esque stipulation in a “Roommate Contract” she drew up between the Spanish-speaking Santiago and her uni-lingual roommate, Jennifer Dreschen.

Shelley Jackson, the director of Blanton Hall expressed outrage over the incident - an outrage echoed by The Montclarion. But she seemed to attempt to lessen the guilt of Residence Life by explaining that the Assistant Manager of Blanton Hall, Rachelle St. Louis, pulled Santiago aside and told her the clause banning Spanish was wrong.

If the clause was wrong, why was it allowed to remain in the contract? Why were no disciplinary actions taken against the RA who so brazenly attempted to include it in the contract in the first place?

Connie Ford, Assistant Director of Residence Life, said it was a “shame that she [Santiago] signed it [the contract].”

Residence Life, while simultaneously proclaiming outrage and shrugging their shoulders, seems to be misplacing the “shame.” Regardless of her signature, Santiago has been mistreated by Residence Life. A signature scribbled, allegedly under duress, on the bottom of a racist, ridiculous contract in no way alleviates these college officials of their responsibilities.

The administration would be wise to offer Santiago an official apology.

On second thought...

We at The Montclarion feel it is necessary to include a footnote to last week’s editorial that sympathized with our beloved president Irvin Reid. We had originally defended our president’s habit of cheerfully zipping about, while flipping through important, presidential-quality memos, in a vehicle dutifully driven by an MSC law enforcement official.

After reviewing the situation carefully, observing the weekly Campus Police Report swell to the point at which it threatens to flow over into the Campus Life section (page 5), noting the fact that the current budget crunch will decrease the manpower of the already anemic MSC police and security squad (page 1), considering the theft of computer equipment from Partridge Hall (page 3) and factoring in the sad state of the campus’ facilities; with Bobb Hall’s on-again/off-again fire alarm system and Tuesday’s aqua (we don’t live in Blanton Hall) shutdown, however, we have reached the conclusion that, perhaps, our gracious president might consider giving up his presidential perk.

As this transition towards self-sufficient transportation is not one that will be painlessly accomplished, we ask the student body to support our president in any way they can. Whether it be sending Parkway tokens or bus schedules to College Hall, or simply flashing the old thumbs-up sign to our prez, we should remember that we’re all in this together.

“’It’s important not to react. By reacting, you encourage him.’
-An unnamed victim of masturbator, pg. 1

Quote of the Week
Men are clueless when it comes to women's problems

BY TRISH BARKER

Oh, oh, here it comes. I swore I wouldn't bring up a controversial issue that's been beaten to death in debate that many pro-lifers, particularly the male ones, don't seem to understand. This, of course, is the issue of women's health. Most people agree that you have to be a total cretin to think that delivering a child is a simple, painless process, but there's much more to it than that.

I read a letter to the editor in my local newspaper, from a man who insisted that all men knew what it was like to be pregnant. His reasoning was that men gain weight, have cramps, bloating, nausea and depression just like women do. Hence, this means men know what it's like to be pregnant, right? Ha! Not by a long shot! If men have the erroneous impression that weight gain and physical discomfort are the only things pregnancy brings to women, they should think again. Yes, even in our wonder-filled age of modern medicine, women still die from pregnancy complications. Of the majority who survive, many have problems that will stay with them forever, such as diabetes and thyroid problems.

In addition to all this, there are many other problems women can develop during a pregnancy. Here are a few of them: plebitis (inflammation of the veins, which can result in blood clot), tonnalla (the presence of toxic, potentially fatal substances in the blood), high blood pressure and hemorrhaging during childbirth, not to mention postnatal depression, which has affected a few of them.

Yes, when a woman carries a pregnancy to term, she can be taking a serious health risk, and is also wholly responsible for the health of the child. What man can say that he's experienced this?

And of course, if there's anything wrong with the baby, guess who didn't nourish herself properly? Yes, when a woman carries a pregnancy to term, she can be taking a serious health risk, and is also wholly responsible for the health of the child.
Director of Greek Life addresses MSC

After viewing last week's article regarding the allegations made toward Tau Kappa Epsilon, I feel it is my duty, as Director of Greek Life, to clear up misconceptions readers may have had toward this situation or Greek life as a whole.

First of all, I would like to commend the writers of the article on their objective reporting. The problem did not lay with the material they put forth, but rather with the way some people viewed it. After being approached and questioned several times, by both Greek and non-Greek students, it was obvious that many people had just looked at the pictures and had not taken the time to read the article.

These kinds of misconceptions are what build negative images of Greek life. Of course, we can't expect the philanthropy projects and school spirit activities that Greeks actively participate in and organize to be front page news. However, this does not mean that they should be overlooked or, more importantly, overshadowed by controversy.

It is important for all students to understand and appreciate Greek life as the strong, active force that it is on our campus. To glance at a few pictures and make a quick assumption about a particular organization of Greek organizations overall is a crime within itself.

In addition, hazing is prohibited by the Greek Council. It is an ignorant decision to think that hazing is the basis of Greek life. As a matter of fact, just to be sure that organizations do not violate hazing policies, prospective members are given a copy of the policies by the Greek Council and are asked to sign them.

In closing, the fierce pride in sisterhood and brotherhood is one thing that all Greeks hold sacred. It is also something that is eagerly shared and displayed throughout the college community. If anyone has any questions about Greek life, please contact me through the SGA office. Thank you for your time.

Joan Petrotti
Director of Greek Life
SGA

Elvis gives birth to two-headed, lesbian baby...

As proud and successful graduates of MSC and avid readers of The Montclarion and Alumni News, we are shocked and appalled that you have reduced our school newspaper to the low level of a supermarket tabloid.

The President is chauffeured by our Campus Police. Get a car, damn it! We know you got a raise last year. Why the hell can't you find transportation?

Mike Davis, our cartoonist, did a great job. There was nothing racist about it. A few though, still were not satisfied. They felt the word "Lebanese" was racist. Sorry to say this, but aren't you being racist? Aren't you saying that Blacks would be heard saying such a 'slang' word? And to their surprise, the cartoonist was Black.

But really got me irritated this week was the Administration's opinion of the cartoon depicting President Reid. Some people stopped by the office of The Montclarion to exclain their concern that the picture was racist. How was it racist? Because President Reid is Black?

But if you don't think it's racist after all. You could find the big

Innovative, interactive and entertaining

by Sandra Cammillieri

The Friday Afternoon Performance Hours of Montclair State's Theater Series opened its '92-'93 season with an innovative performance titled "Thank You. Next!" Conceived by theater students, Frank DiCocco and Jodi Schults, "Thank You. Next!" placed the audience experience in front of a live audience who cast the performers in the character roles for a hypothetical production of "The Glass Menagerie." In an interview, director Jodi Schults discussed the purpose of "Thank You. Next!" stating: "The reason we did this was so that people could get a sense of the actor's audition." Director Frank DiCocco further added: "It was structured as "A Chorus Line, but presented in a softer light."

The cast featured Matthew Horohoe, John Henry Reew III, Stephanie Koempel, Florence Lapicca, Denise-Michelle Goff, Nancy Pawelek, and Joshua Gurenberg. Each of these cast members presented brief monologues and acted out scenes from "The Glass Menagerie." Audience members then voted on which performers were best suited for the roles of Amanda Wingfield (mother), Laura Wingfield (daughter), Tom Wingfield (son and play's narrator), and Jim O'Connor (gentleman caller). During the intermissions when ballots were tabulated, the cast rendered improvisational sketches based on the audience's suggestions of acting as superheroes' children.

Conceptually, the idea of a performance such as "Thank You. Next!" was very good. However, more creative staging was needed. The performance lacked exposition structure. A dramatic opening and a climactic ending were two overlooked elements in this show. Also, the inclusion of improvisations, though comedic, had a "non sequitur" effect. Perhaps, the improvisations should have been structured with the cast assuming character portrayals from "The Glass Menagerie" in an off-setting set or a comical situation.

Despite these incongruities, "Thank You. Next!" contained some excellent acting! Particularly notable were Florence Lapicca, Matthew Horohoe, and John Henry Reew III.

Florence Lapicca truly took on the presence of a domineering, yet loving mother in her audition role of Amanda. Her voice and mannerisms exemplified both authority and concern as she reprimanded the character of Tom Wingfield. John Henry Reew cleverly assumed the quality personality of an obsessive hairdresser in his audition monologue; and Matthew Horohoe highlighted his character portrayal of Jim O'Connor with a spirited concurrence of an obsessive hairdresser.

As a whole, "Thank You. Next!" offered an impressive and entertaining experience for the cast and the audience. Although the performance was deemed innovative, interactive and entertaining, it did not fulfill the intention of the creation of an innovative evening. The purpose of the show was to seek out an answer for you by the following issue:

• Yes, there will be a The Ren And Stimpy Show.

Welcome loyal readers, one and all, to another thrill-packed installment of PROPRIET BIGG! At last, I encourage you to drop me a line at The Montclarion office in the Student Center Annex about any previous Propriet column or about any question you may have about the entertainment industry. Letters received will get immediate attention and I'll attempt to seek out an answer for you by the following issue. And now it's time to gaze again into the mystical unknown of T.V., Movies and Music.

As you may or may not know, Howard Stern recently lost his television show which appeared on WWOR Channel 9. Stern, wanting to show that he does, in fact, belong on T.V., has sold a new show, The Adventures of Farman /Jo begin airing soon. It is based on a superhero character Stern created, named Farman, with a farting superpower. It will be live-action with Stern as the fluminating superman. I further see this show lasting for a very, very short time. There is also a rumor of a movie, but T.V. or movie, the results will be the same.

• Yes, there will be a Basic Instinct II. And yes it will star a mostly undressed Sharon Stone who reportedly will be outdoing her performance in the first film. Unfortunately, Stone has been so far offered $3 million for the effort. I think she should hold out on a superhero character Stern created, named Farman, with a farting superpower. It will be live-action with Stern as the fluminating superman. I further see this show lasting for a very, very short time. There is also a rumor of a movie, but T.V. or movie, the results will be the same.

Let's have Mike Myers try and carry Wayne's World II by himself and have Mr. Carvey do Church Lady: The Motion Picture and we'll see who does better. My money would be on the man whose characters don't depend on somebody else's. Geez!

This week, a new remake of the classic story, Of Mice And Men, opened in selected theaters around the country. This latest rendition of the story stars Gary Sinise as George and John Malkovich as Lenny. Wait a minute. That can't be right, can it? John Malkovich as a large, mentally disabled man. Malkovich? I know where the budget of this film went. To really big elevator shoes and body padding! I can't buy this one, folks.

Well, I like The Ren And Stimpy Show like most people. But it's been two months since the preview of the new season on the show and we have only gotten 4 new cartoons! Why? In addition, a source told me that the creator of the brave new era of cartoons, John Kurckefalsi, who also happens to be the voice of Ren, was canned for not having a college education or a deep voice. If you want to rip up someone's picture, how about David Duke, Saddam or somebody that has actually hurt somebody. Tell the world to fight them. Don't get me wrong, I don't believe in restriction of one's personal beliefs, but the man is nice, kind and generally respected. Please lay off the old man, huh.

Dear Sinead,

I was never to impressed with your "singing talent." In fact, I'm sure there are a lot more jobs out there to which you are better suited; in the custodial or food service industries perhaps. I also don't think the shaved look is anything more than a gimmick on your part to push the lackluster music along.

Just a note on this Sinead O'Connor thing: I think you've lost it. If you want to rip up someone's picture, how about the voice of one of the two main characters. I wonder how long we'll wait now. The lesson: Never sell out your show to anybody, even the seemingly friendly Nickelodeon.

Carvey do Church Lady: The Motion Picture and we'll see who does better. My money would be on the man whose characters don't depend on somebody else's. Geez!

Love, Prophet Bigg

P.S. I hope someday soon the Pope goes on national T.V. and rip a picture of you up. We'll see how you like that gimmick to boost his career!
College Life Union Board is proud to present:

"BREATHTAKING!®
TWO ENTHUSIASTIC THUMBS UP.®
This is Disney's crowning achievement and probably the greatest animated film of all time.®

★★★★★
On a scale of 1 to 10, it's an 11!®"

Thursday, October 15th, 1992
2 SHOWINGS!!
7:00pm and 9:00pm
in the Student Center Ballrooms
FREE ADMISSION!!

C.L.U.B is a Class One Organization of the S.G.A.
I decided to check out the little presentations that Creation was giving. Being the avid Trek fan and always on the hunt for new stuff for my column, I went to see the show about the upcoming Star Trek- Deep Space Nine. It was nice, I got to see what the new cast looks like, but no new information, except one thing. On Star Trek- The Next Generation last season, there was a show where a guy was the host body for a "leech" type being. It was a symbiotic relationship which made things complicated for Dr. Crusher, who had a fling for the guy. The guy was dying, and a new host body was sent- only it was a girl. Crusher fixed him/her up, and everything was cool, except no one showed interest. Anyway, this new ST-D99 character is the same idea, with a complicated love interest. It'll take too long to explain- you'll just have to trust me until the new series debuts in early 1993.

I am a Trek connoisseur from the '70s. It was so damn hokey, the audience couldn't help but to laugh. After that, James Doohan (pronounced DOO-an, not DOO-han), better known as Scotty, came on stage. He stayed on for about an hour, talking about old Trek, his appearance on ST-TNG this week, his upcoming movie, The Last Falcon, and all the things that he likes and dislikes (usual fan questions). Thank God there wasn't the real die-hard Trekker that watches every episode a few thousand times and asks questions like, "Remember the episode when Scotty did a few things and then he had to open a safe on Planet X? What was the combination?" Afterwards, I had a brief chat with him- nothing profound, just shooting the breeze. He's really cool, kind of like the nice grandpa you always wanted.

I was hoping to come back with some really juicy info, but I guess all I came away with was a good time, an autographed picture of Jimmy Doohan, and a desire to go to a better convention. Maybe the next time.

Oh, I did get a rumor that has yet to be substantiated by anyone- at Paramount. Star Trek 7 is in the works, at least the script is. I wonder what trouble Fleet Admiral Kirk is going to get into? Hmmm...
When you choose, choose wisely.

HELP WANTED

 Theta Kappa Chi Xi Class-Good luck! Stick with it. I've have strength in pledging strength in sisterhood. Love, Laura #72
Ivet, I'm glad we met in history class. We should do lunch more often and probably go out sometime. Love, Casanot.
Thank you all for being so concered, the bra was found!

Shannon-Don't tirp! Because this is Junior High! Your "Yo Brooklyn" buddy! (Lois)

For the female who wrote the WANTED ad for the guy in last week's personals, you haven't met nothing until you meet me. Casanot

Peraza-Sigma, Duck, da dude, dude, dude, dude you _ . Love, Palme

Kristen (phi Sigma Pi pledge)-

I'm so glad you're pledging. Don't worry, you can handle it. I'll always be here for you. Lots of luck! Love, your roomie and future brother, Sharon

Andrea K. (Sigma pledge)- You're doing great! Keep up the good work! Love, Your secret sister Lizzard, I'm glad I signed you up too. You're the greatest. Love, Prima

Scotty-You're the best, feel better. Love you, Prima

D-Belle E #1. I love you guys.

Ariel- Acquaintances come and go, but best friends are forever! Love you, Flounder

For the Frivolous female Geraldine-
Thank you so much for your presence today. 10/79? True Confessions? Kev and I have just missed your smiling face. You made our Yom Kippur...

Celia-Did you find your social notebook?Considered-Dan Front Desk.

To Lois- Miss you at the Student Center. Stop by and visit. PLEASE, PLEASE, PLEASE, Dan

To "The Plumber" (A.K.A. #3) I treasure you. Love your future wife... Joe R.M. 210Freeman I am passing on Japan! At least you're still with us... Love, Your little Little #100

To Theta Kappa Chi Xi pledge class-Good luck girls. Strength in Sisterhood rules! Love, #79

To all Senators who were present at the Sigma House on 10/392- I'd like to take this opportunity to give you all a warm thank you for not setting our house on fire and for coming through with the beer. It wasn't that out of control. The Live-ins

Delta Xi Delta #9- You were right that Tuesday. I should have just called him a scumbag and never, never let him talk!! Your support means the world to me. Love and sisterhood Delta Xi Delta #6

Casaenot and Bleeker- The two guys with the sexiest butts. We hope you keep them looking good till the Spring Semester so we can key our eyes on them. Love you, Sexy Brenda, Tanya and Kim

The scratched one- If a certain kitten still knows how to scratch isn't getting wet kisses, then I guess you haven't been scratched enough! Meow

Theta Kappa Chi Xi pledge class- Of course you are a virgin. How do you explain the ten guys in the closet? Love Your little Little AH #100

Lori S. I am really sorry, there is no excuse and it won't ever happen again! Iloza

Katrina, Heather and Liz (AIX)- I was thinking about the present and then I said, "Hey, it's in the past now!" Carrie

AIX-Carm and Rachel- Sorry I was belting out "It Must Have Been Love" the other day. From Sigma Pi. Love, Pat Kelly

Kelly (SDT)- Thanks for not brushing your teeth! Love, Neen

AIX-Jim- I'm so glad we're becoming so close! I love you. Melissa (AIX)

Good luck to the Omicron pledge class of AIX! You can do it! Love. Melissa- Assistant Dean

LAURIE BAR/AN for Homecoming- Love, Jockey

Dana, I'm glad you're back! Love, Your Little Little AH #100

Stacey D-XI-D, Please don't fail this Thursday!!! Love, Piedad D-XI-D

??, Did you ever get that bra back??

Brian (ZBT)- You look cute as a Mexican! You can make me margaritas anytime! I love you!!! Tina

Amazon R.A. in Freeman Go find another jungle to swing in. Signed, no fan of yours.

Tomato- Good luck with the Greek Goddess

Hey Baby doll, Iloves ya. You did good handling the Bean. Can't wait for the Hokoben weekend.

Tiff- How much really is 8 ounces of milk? The witch

To the Frivilous girls
Jared...too much for your present day. 10/79? True Confessions? Kev and I have just missed your smiling face. You made our Yom Kippur...

To the sisters of Sigma Delta Phi who attended the Mixer. Thanks. We had a great time. To the others: "Kopabushahhll" This means "Pin off" in Yiddish Senate

Smoosh, You scum sucking battle ?????. But really you know that I love you. Love, #7

Tricia (AIX) #119- Go drunk driving on Friday night! Love, Mel (AIX) #115

Jim M. (ZBT)- I hope to hang out again soon. Love, Mel

Tina (D-Belle E)- You're the best Big! Good luck with everything. Love your Little, AH #100

To Randi- Your eyelashes are so long and so cool too. Love, Lois

Janice it's very big of you to be my Big! I am your Little Lois. To the Best Littles ever- Nia and Lisa (AD)- I love you guys! Love, Your Big Melissa #115

Good Luck Iota class of D-Belle E. You guys are awesome. AH #2

To Chrtissy, Nice Skirt, I'll try not to lift it up as much, Kevin

The next time he tries to slit your throat. I'll try to help him. Love you, Prima

Thanx so much for your present. Love You, Flounder

Amy (phi Sig pledge)- I am so happy that you are my little! Can't wait till Thursday night! Welcome to the family! Love, Your Big Sister "L"

Chris- Life is a Highway...It's an adventure being your roomie. Love, Steph

Tommy T. (D-Chi)- Congratulations on Japan! At least you're already used to short people (i.e. me). Love, Jockey

Theta Pledge- Keep up the good work and stick together.

Jeff S. (D Chi)- I had an awesome time Saturday. Let's go garbage picking again soon.

Home Depot- The place to be.

Jeff S. (D-Chi)- Where have you been? I miss you and your buns.

J.T. (Theta)- You are whipped. HA HA.

by Michael Frasco

With his ability to run, catch and block with equal effectiveness, MSC tailback John Walker possesses a combination of skills that have made him a truly special football player over the last three seasons on the MSC soccer field. Currently, Walker is an All-American candidate on this year's 7-3 squad. Walker is a major reason for the Red Hawks' success this year. Not only is he talented, but he's also modest. He feels that he is just a part of the team. Others might say otherwise.

Walker sets rushing mark and is thankful for chance

Volleyball looks to salvage season with late charge

by Nicole Festa

MSC volleyball fans were hoping that the NJAC matchup with William Paterson might ignite a long awaited winning spark for the winless Red Hawks. However, their hopes were diminished when the Red Hawks dropped yet another game to add to their accumulating loss column. Although they played an inspirational first match, just getting nipped by the score of 16-14, their zest seemed to disappear in the last two. They were dominated by William Paterson in both matches, and lost both of them by a disappointing score of 15-3.

The bright outlook of a successful volleyball season seems to have become dimmer each week for the Red Hawks. Although there has been tremendous improvement throughout the season, it is not enough of a consolation to Walker. He has without his offensive line-up, the ability to play professional football, he would take it, but it's not something I'm counting on.
Where have you gone Joe DiMaggio?

Another painful season has gone by for Yankee fans. For the fourth season in a row, the Bronx Bombers had a losing season.

The New York Yankees have the richest tradition in baseball. That tradition includes 20 members of the Hall of Fame, 29 American League Championships, and 19 World Championships. In addition, some of the game’s greatest legends have been Yankees. Attendance at Yankee Stadium and overall fan interest are down. The fans are frustrated. Are the days of winning divisions, pennants, and World Series just a distant memory? Probably not. Although the Bombers had a losing season, they made strides in the right direction in 1992.

Signing Buck Showalter to a three-year contract over the summer was definitely a wise move. Showalter is a player’s manager. He deals with his players on a personal level. He lets players know what their roles are. If you think these aren’t important qualities in a manager, go check the unemployment line, and I’m sure you’ll find Stump Merrill. The Stump wasn’t a bad ball, but he was definitely not a communicator.

While Showalter is a positive for ’93, pitching is not. For nearly 10 seasons, starting pitching has been a Yankee sore spot. That should change during the off-season.

General Manager Gene Michael seems to have his heart set on trading for California left-hander Jim Abbot. However, how much is Abbot going to cost the Yankees?

Also, the Yankees will probably test the free agent market for pitching. Did somebody say David Cone? Aside from Cone, there are several attractive pitchers on the market, including: Greg Maddux, Greg Swindell, John Smiley, and Doug Drabek. However, the Yankees might already have a nameplate for Cone’s locker in the clubhouse.

The starting pitching may not be as far from formidable as some think. Melido Perez had an excellent season, although you can’t tell from his record. Rookie right-handers Sam Milililo and Bob Wickman also showed promise during the second half of the season.

Closer Steve Farr again quietly had another impressive year. The addition of one or possibly two big-name starters would make the Yankees’ staff one of baseball’s best.

Offensively, the Yankees are very solid. They have a productive lineup, but it looks like it is going to be tampered with in the off-season. Danny Tartabull figures to be left unprotected in the November expansion draft and Mel Hall isn’t in the team’s plans for ’93 either. The Yanks could get stung if either Florida or Colorado decides to expansion and sign possibly the best.

Thus, Plan B. Lose Tartabull to expansion and sign possibly the game’s best player, Pittsburgh outfelder Barry Bonds. The word is that Bonds wants to play in San Diego, but George is coming back. That means money will not be an object. Money talks, you know the rest of the saying.

Roberto Kelly may not be part of the team’s plans for ’93 either. After a disappointing ’92 campaign, Kelly is more likely to be for pitching. The rest of the team figures to remain the same, other than expansion draft losses.

With changes in personnel and some luck, maybe the Yankees will be contenders again in ’93. Hey, they might even win the division. They might even win the league championship. Then, they could win the World Series. Hold on, I’m rambling, aren’t I? It is fun to dream though, and I don’t even need a dollar to do it.

Calling the shots ...

Should Magic Johnson play basketball in the NBA this season? Why shouldn’t he? He proved in the Olympics that he can still play at the level he always has. He’s up to playing weight and he wants to play. If anyone in the league doesn’t want to play with him because he is HIV positive, then that player should either read a pamphlet or find another job. Otherwise play ball and be quiet....! Hope Net fans aren’t too distraught about the loss of forward Terry Mills to the Pis­cosa. First of all, Mills was only going to get backup minutes behind starters Derrick Coleman and Chris Morris. Secondly, Mills was reportedly 30 pounds overweight and had abandoned train­ing in the off-season. Finally, and most importantly, he didn’t want to play for the Nets, even for $1.9 million per year. Willis Reed and Co. should be happy that they didn’t have to pay Mills. Now that they have the extra money, they can sign players to fill other holes....

This one deviates from the sports world, but I have to get it off my chest. Does anyone else agree that Sinead O’Connor is going straight to hell? The thing that really gets me is that she will get tons of publicity out of this. Gee, I wonder if that was her plan. The little bald-headed no-talent had one hit song, and she didn’t even write it. Before ripping up the picture of Pope John Paul II, she didn’t want the national anthem to be played before a concert at the Garden State Arts Center. Then she wouldn’t be on Saturday Night Live because Andrew “Drew” Clay was the host. Enough is enough already. Send her back to Ireland to grow potatoes or whatever they do there....

Oh, there are now three things in life that you have to do. Pay taxes, die and watch Seinfeld (Wednesday, 9 p.m. on Channel 4).

N.F.L. Picks: Week 6

George Calle, Managing Editor:

1. x-N.Y. Giants -7 over Phoenix. Two in a row?
2. N.Y. Jets -2 1/2 over x-Inidanapolis. I know, I know. Bettin’ the Jets.
4. x-Miami -7 over Atlanta. Must you ask?
5. Pittsburgh -2 1/2 over x-Cleveland. Had to pick a fifth game.

Rob Campos, Editor-In-Chief of the Anarchist Syndicate:

1. x-New York Giants -7 over Phoenix. I hope, again.
2. N.Y. Jets -2 1/2 over x-Inidanapolis. Why the hell not?
3. Atlanta over x-Miami. I don’t care what the Dolphins did to Buffalo.
5. x-Dallas -15 1/2 over Seattle. Cowboys have the cheerleader advantage.

Keith A. Ide, Sports Editor:

1. Phoenix +7 over x-N.Y. Giants. Are the Cards for real after beating the Redskins. No, but take the points.
2. N.Y. Jets -2 1/2 over x-Inidanapolis. Nagle and Co. should overcome and improvel Colt “D.”
3. Philadelphia over x-Kansas City in a pick ’em. Even on the road, the Eagles are too tough on both sides of the ball.
4. x-Miami -7 over Atlanta. Lethal offense and solid “D” keeps Dolphins’ loss column empty.
5. Pittsburgh -2 1/2 over x-Cleveland. Browns’ quarterbucker situation is an ugly one.

Kevin Schwoebel, Prophet Bigg:

1. x-N.Y. Giants -7 over Phoenix. I have no shame.
2. x-Inidanapolis +2 1/2 over N.Y. Jets. One win does not make a season.
3. x-Dallas -15 1/2 over x-Dallas. Kevin really sucks to be a Seahawks.
4. x-Kansas City over Philadelphia in a pick ’em. A close call, but Eagles are due for a loss.
5. Denver +9 over x-Washington. Because I said so, that’s why.

Bob Wintermute, Managing Editor of the Anarchist Syndicate:

1. Phoenix +7 over x-N.Y. Giants. The Giants continue their slow slide into mediocrity.
2. N.Y. Jets -2 1/2 over x-Inidanapolis. Clem, can they beat the Coats, can’t they?
3. x-Dallas -15 1/2 over x-Dallas. Kevin really sucks to be a Seahawks.
4. Pittsburgh -2 1/2 over x-Cleveland. The Steelers will win the AFC Central.
5. x-Miami -7 over Atlanta. Marino and Shula are both due for a title shot.

x-denotes home team

M.S.C. Sports Schedule

Thursday, Oct. 8:

Women’s soccer (away) vs. Macbannville, 4 p.m.

Friday, Oct. 9:

Field hockey (away) vs. Lock Haven, 4 p.m.
Men’s soccer (home) vs. King’s Point, 8 p.m.

Saturday, Oct. 10:

Field hockey (away) vs. Cortland, 1 p.m.
Football (away) vs. Navy, 4 p.m.
Volleyball (home), Husier Tournament, 9 a.m.
Women’s soccer (away), Catholic, 1:30 p.m.
Women’s tennis (away) vs. Rowan, 12 p.m.

Tuesday, Oct. 13:

Field hockey (home) vs. William Patterson, 8 p.m.
Volleyball (home) vs. Rutgers Newark, 7 p.m.
Women’s tennis (away) vs. NYU, 3 p.m.

Wednesday, Oct. 14:

Men’s soccer (home) vs. Stockton, 6 p.m.
Women’s tennis (away) vs. FDU-Teaneck, 3 p.m.

Red Hawks regain their "pride," beat Ramapo 27-7

by Michael Frasco

MSC rediscovered its winning ways in record-breaking fashion Saturday night, defeating Ramapo College 27-7, in the 14th Annual Pride Bowl.

An MSC record home crowd of 6,941 witnessed the Red Hawks average last year's come-from-behind 23-17 victory, by Ramapo, to gain its first Pride Bowl victory in four years.

Highlighting the Red Hawk victory was senior tailback John Walker, who became MSC's all-time leading rusher with a 151 yard effort on 32 carries. Walker, named the Pride Bowl Offensive MVP, now has 5,105 yards rushing in his career, which tops the old record of 2,942 set by Leroy Horn in 1987.

(See Walker story on page 26)

MSC sealed the victory in the fourth quarter when Larry Thompson forced a fumble by Ramapo quarterback, Greg Marco, at the Ramapo eight and John Chidy of MSC recovered at the six. In the next play, Walker took it in for the score with 11:01 left. Scott Rubiniotti made the PAT to put the Red Hawks up 17-7.

Rubiniotti, a freshman, got into the record books when he kicked a 50-yard field goal to stretch the MSC lead to 20-7, with 8:44 left. The field goal was the longest in Pride Bowl history, surpassing Wagner's Walter Lopez, who had hit for 43 yards. The kick also tied the MSC record for longest conversion, tying the record held by Anthony Colasurdo who hit for the same distance against William Paterson in 1988.

MSC would score once more on a Neil Ruiz one yard plunge, with 15 seconds left, to close out the 27-7 victory.

The margin could have even been bigger for MSC, but Jerry Matterson's 100-yard kickoff return in the second quarter was negated by a clipping penalty.

The Red Hawks struck first in the game when defensive end Fred Kaes blocked a punt, giving MSC the ball at the Roadrunners' 23. Six plays later, Rubiniotti nailed a 41-yard field goal, at 8:43 of the first quarter, to give MSC a 3-0 lead.

Ramapo put together a drive in its next possession, getting to the MSC 12-yard line. During the drive, quarterback Jim Jugan injured the pinky on his throwing hand, on a six yard keeper. After a time out, freshman Greg Marco replaced Jugan.

However, two plays later, Marco was sacked by Kaes for an 11-yard loss. After a delay-of-game penalty against Ramapo, Marco was dropped again, this time by noseguard Larry Thompson for an eight-yard loss to close out the first quarter.

The Red Hawks made it 10-0 late in the first half, on a 36-yard touchdown strike from quarterback Steve Banas to wide receiver Tyrone Rolls. Walker ran six consecutive times for 44-yards in the drive, with the seventh play resulting in the score, capping off the 80-yard drive.

Ramapo's lone score was set up on the ensuing kickoff, when Deon Candida raced 86-yards by the MSC one. It was the longest runback in Pride Bowl History. On the following play, Marco scored on a keeper. Pedro Bordi's kick cut the Red Hawk lead to 10-7 with 6:08 left in the half.

The MSC defense, led by Thompson's seven tackles and three sacks, along with inside line­backer DaVone Grade's 11 tackles, played its best game of the season. After giving up an average of over 500 total yards in the Cortland and Ithaca games, the Red Hawks held Ramapo to just 128 total yards, only 14 rushing.

Head coach Rick Giancola was pleased with his team's performance. He said, "We accomplished a major goal by playing well in the second half."

Giancola attributed this turn-around to the concentration and discipline displayed by his players during the two weeks of practice MSC had to prepare for this game. "The team's next goal by trying to do that for two games in a row," Walker had a similar view on the team's current outlook. He said, "We know we're a good team. We feel that if we take one game at a time, step by step, we will win each of the next six games."

Red Hawk Notes...Walker earned NJAC Co-Player of the Week honors along with William Paterson tailback Al White...Thompson and Grade were named Co-Defensive play­ers of the game...Walker also made it to the ECAC honor roll...The attendance record of 6,491 surpassed the old mark of 6,435 in 1998 against William Paterson...

MSC travels to Kean College this Saturday with a 2:00 p.m. start.

Men's soccer continues turnaround with four game winning streak

by Craig Berorsch

"The difference between a successful team and others is not a lack of talent, not a lack of knowledge, but rather a lack of will."

These words are those of legendary coach Vince Lombardi. They are written on the wall of the MSC soccer team's locker room as a reminder of the kind of effort head coach Rob Chesney desires from his players. It was the strong effort on 32 carries that带动ed the Red Hawks to the win.

After a number of frustrating near-missed opportunities, MSC was awarded a penalty kick when Carlos Hanzé was taken down in the box. Dominick Bucci converted with 18:22 left in the game to break a scoreless tie. The goal was Bucci's team - leading seventh of the season.

That was all the scoring MSC would need because the willful defense consisting of Bucci, Mario Ballati, T.C. Degetour and Hugo Munoz allowed the visitors only five shots and even fewer actual scoring chances. "Our defense played a real solid game for the full 90 minutes," said Chesney. MSC

MSC goalkeeper Mark Williams mans the Red Hawks net.

goalkeeper Mark Williams recorded his second shutout of the season.

On Wednesday, Sept. 30, the

Red Hawks travelled to Rutgers Newark for an inter-conference match-up. Eric Novobit scored the game winner, his sixth of the season, 1-44 into the second half, as MSC out-classed Rutgers 4-2. Other goal scorers included Bucci, Battili (third of the season), and Julio Cangale who got his first of the season. The win moved Montclair's NJAC record to 3-1.

The two wins last week made it four in a row for the Red Hawks and raised their record to 7-3. After an up and down start, coach Chesney has his young team playing winning soccer. "We are getting better and healthier every day, every game," said Chesney.

The Red Hawks play three consecutive home games starting Friday night against highly-ranked Kings Point at Sprague Field, beginning at 8 p.m., in what should be another tightly battled contest. The homestand continues with MSC battles with Stockton State on Wednesday, Oct. 14 at 8 p.m. and Trenton State, on Friday, Oct. 16, also at 8 p.m.

Cross country's Dennis stars in N.J. College Championships

by Mark Alan Belnay

This past week, the MSC Cross Country team was at the New Jersey College Championships and both the men's and women's teams turned in solid performances. The men's team, led by Wayne Dennis, superb performance, finished sixth in a field that was headed by perennial powerhouse Seton Hall University. Sharon Linds, who finished 21st in a field of nearly 130 competitors, led the women's team to a strong eighth place finish with Princeton University setting the pace with their first place finish.

Linds, with a personal best on the course of 21.56, led a women's team that performed solidly in all phases of the meet. Rhonda Westbrook ran a strong 22:20 to finish in 35th place, giving MSC a powerful one-two punch for the season. Carla Roberts, third for the MSC team with a time of 23:55. Sherrie Tilton, Maria Tchinchinian, and Kari Rantsbarger rounded out the field for MSC in the women's division.

With a personal course best of 27.08, All-American Wayne Dennis led the men's team to a superb overall performance and was named Second and Third New Jersey Cross Country Team, the first such selection since Coach Blanton has headed the team. Led by Wayne Dennis, superb performance, finished sixth in a field that was headed by perennial powerhouse Seton Hall University.

Overall, the team is running well there is a natural disaster or an act of God that would cause the schedule makers to wake up. Overall, the team is running well for the MSC team to round out the team's all-around excellent performance.

The team has this week off. MSC then plays host to the Red Hawk Invitational on Oct. 17, with the team's lone appearance at home this season, unless there is a natural disaster or an act of God that would cause the schedule makers to wake up. Overall, the team is running well and a marked improvement is noticeable in both the technical and mental aspects of the athletes. With everyone healthy, this weekend will serve as a preparation for the upcoming weeks of...
