Computer glitch fouls up registration for students
by Marla DeSilva

About 600 students, 200 of them seniors scheduled to graduate in May '93, did not receive their registration notices due to "a bug" in the MAC machine, up the steps and continuing out the door by Rm. 126 in the Student Center.

The error stems from a computer program which has been used for the past four years and is designed not to send out cards to students who don't need them. Due to "a bug" in the program language many students graduating in May were also not sent their registration cards, Welsch said.

Letters were sent out informing these students to pick up a registration card at the Office of the Registrar by Friday, Oct. 9. Some students however, like Mark Panelli, received the letter late while others did not get one at all.

"It doesn't surprise me. It's expected from this school," said Panelli, 21, a math major.

Many students said the process of getting the registration cards was time consuming, like theater major Jill Appelbaum, 20, who had to wait 20 minutes on line.

"I was annoyed. They messed up big time," said Appelbaum. Assistant Registrar Denise DeBlasio said every year two ads are sent out to The Montclarion. The first one informing students that registration is coming and cards are being sent out. The second ad states that registration cards have been mailed and students should contact the Office of the Registrar if they have not received theirs.

Both ads were hand delivered by someone from the Office of the Registrar to The Montclarion, but neither of them were printed, DeBlasio said. She said editor-in-chief Kevin Coligan admitted to the error and said it would be printed this week.

"It's late but at least the underclassmen might benefit from it," said DeBlasio.

"The problem may have resulted due to the fact that the free announcement was erroneously sent to the executive board of SGA," DeBlasio said.

Bohn Hall getting $750,000 in new dorm furniture
by Glenn Steinberg

Bohn Hall residents are getting approximately $750,000 worth of new dorm furniture.

The residents will be receiving new beds, desks, chairs, wardrobes, lounge furniture, and furniture for the study cubicles.

The beds started arriving on Aug. 31 and the rest of the furniture began arriving Sept. 16.

The lobby in Blanton Hall is being used as storage space for the furniture that will be going into approximately 300 rooms which house about 600 people.

According to Sherrill Cantrell, director of Bohn Hall, the plan is to get all of the beds in the rooms before they start moving the rest of the furniture in.

The reason for all of the furniture being in Blanton Hall's lobby is because, "The furniture is being received quicker than it can be installed," said Cantrell.

It is being placed inside of Bohn Hall because there simply is not enough room inside of Bohn Hall to store all of the furniture.

Cantrell says that the beds should be completely moved in by early next week, and it is expected that it will probably not be until the end of this semester that the rooms in Bohn Hall are completely furnished.

One reason for the big delay is that there is use of only one of the elevators in the sixteen story building.

According to Cantrell, it has been between 15-20 years since Bohn Hall has received new furniture and the reason for getting new furniture is due to simple wear and tear.

Cantrell was involved in picking out the color scheme of the furniture.

An earthquake hit Northern Egypt, rocking the city of Cairo, the second most populous in the world. It registered 5.9 on the Richter scale and killed at least 350 people and injured about 3000 others.

Rebel Serbs reportedly carried out air attacks on two Bosnian cities despite a new U.N. Security Council moratorium on military flights in the former nation of Yugoslavia. New rounds of ethnic cleansing in the north also drove thousands of Muslims and Croats from their homes. With winter coming the push for food, water, and electricity has intensified in the beleaguered city of Sarajevo.

Iraqi police seized a U.S. bomb disposal expert working on the disputed Iraq-Kuwaiti border. The land which Chad Hall was working on was mandated from Iraq to Kuwait in May this year. Hall was released after subsequent threats by the American government.

A very tenuous relationship between Apartheid supporters and the Asian Group Inkatha was struck in South Africa to counter the recent deal made between the African National Conference and the white government of P.W. De Klerk to resume transition talks.

Presidential candidates Bill Clinton, Ross Perot, and President Bush squared off in a debate on Sunday Bush said, "I don't think the country is coming apart at the seams," as Bill Clinton said the opposite earlier in the campaign. The debate did not cause any radical shift in the polls. Clinton leads with about 50% to Bush's 35% and Perot holds anywhere from 7% to 15%.

Head of the Federal Reserve Board, Alan Greenspan, said election year politics will not prevent him from cutting interest rates further if it is needed to stimulate the sluggish economy.

A bill facing President Bush puts him in a very precarious position. If he signs it, taxes would go up for upper income individuals, big corporations, security brokers, owners of diesel powered recreation boats and workers who make a job related move. If he vetoes the bill, federal funds will be denied to hurricane Andrew victims, children paralyzed by polio shots, the self-employed, and workers attending night school receiving help from their employers. Let's see what he does, could be interesting.

Vice Presidential candidates Al Gore, Danforth J. Quayle the III, and Admiral Stockton squared off in a debate on Tuesday night. This debate was also slated to have little effect on the public's opinion.

The city said it will stand behind a federal court ruling that said the NJ State test for promotion was biased against minorities. Over 45% of whites passed the test that only 25% to 30% of hispanics and blacks passed. The finding ruled that many questions were more familiar to white officers than minorities.

New Jersey Governor Jim Florio and Ohio Governor George Voinovich forged an agreement to curtail trashsmugglers from dumping Jersey garbage in the mid-west state. In 1990, about 500,000 tons of our garbage were dumped in Ohio despite our state's records showing 113,714 tons being officially shipped.

An 18-year-old Peekskill, N.Y., woman heard a loud crash Friday night. When she went outside she found a hole in the trunk of her car. A 22 pound meteor had struck her vehicle. The rock made a foot-deep crater in the driveway. It was not said if her insurance would cover the damage.

The New Jersey Masterplan is bringing new hope to its cities and forests. The plan is designed to stop the spread of urban sprawl by redirecting growth back towards the cities by accepting a financial focus on the now economically declining population centers, giving people more opportunity, hoping to give them a better life where they already are.

MSC produces new publication for neighbors

by Steve Gateward

MSC office of Public Information has a new monthly publication for the surrounding community called Neighbors, said Phyllis Miller director of Public Information.

The newspaper, with a circulation of 200,000, is designed to inform the residents of Montclair, Upper Montclair, Little Falls and part of Clifton about campus events. It costs approximately $3,000 a month to print the paper. Neighbors replaces Front Row which was a calender that told about upcoming events on campus. Neighbors not only tells the surrounding community about events on campus but also stories featuring faculty and students.

"People who live down the street get no information about the great things that we do on campus," said Miller. When the paper was originally published it had a circulation of 100,000, but due to many requests the circulation was doubled.

The first issue came out in July and seven more issues are expected to come out later this year.

Along with Neighbors the office of Public Information prints Insights, a faulty and staff paper, and Carpe Diem, an alumni and parents of students paper.

Civil Rights Chief speaks on minorities and television

by Pete Quilla

"If someone came from Mars and watched a month's worth of programming, they would get a distorted view of the American population," said Charles Rivera, the public affairs chief for the U.S. Commission on civil rights.

Rivera spoke about how minorities are poorly reflected on television in a lecture held in the Kopp's Lounge, Russ Hall last night.

He continued by saying that this inadvertent distortion is due to such groups as the Writers' Guild Of America and the Washington D.C. Press Corps both of which have a 95% population of white males under age 45.

One of the functions of Riveras lecture was an attempt to explain the U.S. Commission's report on links between portrayals of minorities on TV and new racial tensions occurring throughout the nation.

The Administrative Affairs Council and the Student Affairs Council of the College Senate will hold hearings on the SGA Resolution Regarding Alcohol Services. The hearing will be held in the Student Center Ballroom C, on Friday, Oct. 16, between 9 a.m. and 12 p.m.

All Students are welcome and encouraged to attend.

Montclarion Editor assaults staff member

by Kelly J. Schab

Steve Garufi "was charged with assaulting a member of the Montclarion staff," said Dr. Edward Martin, dean of student affairs. "At the moment, he is not a student."

Garufi has been suspended from MSC indefinitely, and has been officially charged with assault.

Garufi did not care to comment on his suspension but said about the assault, "I feel really bad about it. I didn't realize my own strength." He also said, "People were coming up to me that I hardly knew and congratulating me."

The victim refused comment on the attack.

The court trial will take place on Oct. 28, 1992 in Little Falls.

rather than the advertising manager," said Colligan.

Verena DellaAsuncion, 22, a psychology major, said it was a setback, but everyone makes mistakes.

"It's the first time I've ever stood in a line this long," said DellaAsuncion, as she sat on the steps outside of the Student Center at the end of the line.

Registration, which was scheduled to end at 4 p.m. on Tuesday, ended at 4:20 p.m.

"We were only twenty minutes behind," said Welch.

Nutrition major Brian Fitzgerald, 22, said the Registration Office has no idea what they are doing. There are people with less credits - some with 80 - who are before seniors with 100 credits, he said.

Welch said despite the computer problem seniors were still registered according to the amount of credits they had. Some students did not get the classes they wanted for reasons other than the computer error.

The computer program was fixed as soon as the problem was discovered, said Del Blasio.

"It is the absence of sufficient attention by TV, generally speaking, that does damage to perceptions of minorities across America," Rivera said.

Rivera also stated that this disfigured impression is also supposedly evident in TV news as well as sitcoms. An example of this is when TV news depicts poverty it shows an African-American single mother. However, statistics show that it's mostly white women who are the victims of poverty.

At the end of the lecture, Rivera stressed that it was up to the commission to study and review institutions like the media industry in order to determine the factors that contribute to the existing view of minorities on TV.

Rivera closed by saying, "According to a survey of the Spring 1990 TV season, there were more roles for aliens than for Asians, Hispanics and Native Americans."

NOTICE TO ALL CURRENTLY ENROLLED STUDENTS WHO WILL BE RETURNING IN THE WINTER SESSION 1993 AND/OR SPRING SEMESTER 1993

Registration for the Winter Session and Spring Semester 1993 will occur simultaneously between October 13-29, 1992.

All students who are enrolled for the Fall 1992 and who are eligible to return for the Winter or Spring 1993 had a Registration Appointment Card mailed to them during the week of September 28, 1992.

Undergraduate students who are currently enrolled for 12 or more credits were assigned an in person registration appointment date and time. Undergraduate students who are currently enrolled for fewer than 12 credits and Graduate students were assigned a range of dates during which they should submit their registration form and Appointment Card to the Office of the Registrar.

Cards were not generated for students who are on the January 1993 Graduation list. Students who are graduating in January and who wish to register for Winter or Spring 1993 courses should contact the Office of the Registrar at 893-4376, for direction.

Students who did not fulfill their Basic Skills requirements, who had an outstanding financial obligation to the College, or who had an outstanding high school transcript with the Admissions Office were not sent their cards. These students must report to either the Basic Skills Office, the Business Office, or the Admissions Office to obtain their card.

You must have this card in order to register.

No one will be permitted into the registration site without a Registration Appointment Card. Registration forms submitted to the office will not be processed without the Registration Appointment Card attached.

STUDENTS WHO DID NOT RECEIVE A CARD OR WHO HAVE MISPLACED THEIR CARD SHOULD CONTACT THE OFFICE OF THE REGISTRAR IMMEDIATELY AT 893-4376.

PLEASE READ THE WINTER SESSION/SPRING SEMESTER 1993 SCHEDULE OF COURSES BOOK CAREFULLY!!

It is available in the Student Center and in the Office of the Registrar. It contains the list of Winter and Spring 1993 course offerings.

You should use the registration form that is in the Schedule of Courses book. It is for both Winter and Spring registration. The Registration Appointment Card, together with this form, will serve as your personal registration packet.

Advisement should be obtained prior to registration.

Picture MSC as a forest; home to a plethora of soaring, leafy, chipmunk-housing, squirrel-speckled, shade-producing, tasty trees. Ya' know, like the ones they toppled for the new library.

There's the large majestic redwood in the center of campus that sprouts from an awe-inspiring mound of fertilizer - that's the administration. Over yonder, there's a sickly spread of bent and twisted crab apple trees - those represent the cafeterias.

Growing in the rockiest of soil, far from the bright sunshine of the aforementioned redwood, are a few broken-down, termite-infested, dry-rotting oaks - yes, those are the dormitories and residence halls. Okay, now with all that wood, MSC needs a few peckers. That's where The Montclarion comes in.

IF YOU THOUGHT COLLEGE WAS EXPENSIVE, TRY PUTTING YOURSELF THROUGH RETIREMENT.

Think about supporting yourself for twenty-five, thirty years or longer in retirement. It might be the greatest financial test you'll ever face. Fortunately, you have one valuable asset in your favor. Time.

Time for your money to grow.

The longer you wait to begin saving, the more you'll have to set aside in order to reach your goal. For example, if you begin saving just $100 a month at 5% interest, you'll accumulate $192,539* by the time you reach age sixty-five. Wait ten years and you'd need to set aside $227 a month to reach the same goal.

Start planning your future. Call our Enrollment Hotline 1 800 842-2888.

Campus Police Report
compiled by Kelly J. Schab

Soliciting/Trespassing
10/6/92 A resident from Bohn Hall called headquarters to report two female students selling magazines. They had walked past the front desk of Bohn Hall without stopping. The officer found them on the 7th floor and they admitted to selling the magazines. They were brought in for questioning and it was determined that they had trespassed, thus, two arrests were made. They were both non-students.

10/9/92 A student reported that man was selling Bibles and other religious materials. He was stopped and was found to have had no identification, but stated to be working for Chapel Sales, Inc.

Trespassing
10/7/92 As a student was getting dressed in the Women's locker room he heard a noise. When she turned around a white male was staring at her. The man ran towards the rear of the locker room and out the door. A check was made with negative results. The door was believed to be ajar earlier. A composite could not be made.

Suspicious Vehicle
10/7/92 A non-student reported that he and his four-year-old daughter were exiting the campus by the Clove Road Bridge in his truck, a blue vehicle pulled in front of him. The man put his truck in gear and then put his arm in front of his daughter to protect her, anticipating that the blue vehicle would hit his truck. As he looked up, the person put his arm out the window, gave him the finger and drove off. The man drove down Clove Road to try to get his license plate number but when he put his truck in gear the gear broke. He tried to get someone to help him but no one came to his aid. While walking to Clove Road, another vehicle came by the two and threw a wire toward him that hit him on his head. There was a notebook thrown at him and hit him on the shoulder. It took him 45 minutes to walk home, after a tow truck picked up his truck.

Medical Assist
10/7/92 A student was in the Student Center when she complained of abdominal pain with flu symptoms. She was transported to the Health Center. At the Health Center she stated that she gets anxiety attacks. She went home after debating about going to the hospital.

Harassment
10/7/92 A female Blanton resident reported a male, who using the name Gregory had called her saying that he was in her English class. She told him that she did not know any Gregory and asked who was the English teacher. He could not give the name. He said that he would be on campus to see her tomorrow. The caller's voice is the same person that has called her before.

10/11/92 A Clove Rd. Apartment resident broke up with her another Clove Rd. resident in April of 1992. When the female returned to school in September '92, she found that the male went through her terms and took a letter that she had written to a male friend in Michigan, which then received a phone call from an unknown actor threatening to kill him. The male Clove Rd. resident admitted to calling the person from Michigan and threatening him.

Investigation Report
10/7/92 A Blanton resident called headquarters about harassing phone calls. She put the caller on hold, until one of the Officers arrived to help her, but the caller hung up.

Terroristic Threats
10/7/92 A female expressed her concerns about overhearing a Blanton Hall resident talking with his friends about how they would like to hit another resident over the head and rape her. She approached them and wanted to know who made the comment. One stated that it was not him, but one of his friends, but could not name anyone because they were fraternity brothers. One of the males walked into headquarter offices and was read his rights but refused to answer any questions or to give a statement. He was advised to consider his actions and return the next day. Individual statements from the victim and friends were taken.

Vandalism to Shuttle Bus
10/9/92 An employee of College Hall reported that someone vandalized one of the shuttle buses by spraying and emptying a fire extinguisher onto the side of the bus.

Criminal Mischief/Vandalism
10/1/92 A non-student reported returning to his vehicle, parked in Lot 29, to find his hitchback window broken and scratches on the body, hood, and doors. He also stated that on 10/9/92, he parked his vehicle in Lot 27 and the hitchback had been scratched.

Attempted Burglary of Motor Vehicle
10/9/92 An employee parked his vehicle in Lot 23. When he returned, he found that his passenger side door lock popped out. No property was taken.

Theft From Motor Vehicle
10/9/92 A student reported contents taken from his vehicle.

10/10/92 A student stated that she parked her car in Lot 30 and locked her car door but left the driver's side window partially rolled down. Upon returning to her car at 9:10 PM, she found that the driver's side door was unlocked. Missing from the backseat was her gym bag with aerobic clothing and prescription glasses.

Possession of Firearm on College Grounds/ Suspected Cruelty to Animals
10/9/92 An officer heard a loud bang as he was running on the track behind the Field House. He thought the noise was from the backyard of a car. He saw a student talking with a man and his dog on the field. After the officer left the field the man and the dog left as well. He noticed that the man was carrying a clear plastic bag with visible blood in the bottom and contained a dead groundhog. The man put the bag in his back seat and before he closed his car door he pulled out another plastic bag and removed small objects from within and put it under the seat. The officer thought the man was very inconsiderate by playing loud music, opening the window even when it was cold, and was basically making her life very uncomfortable. Her doctor was contacted about the situation and let headquarters know there was nothing to be alarmed about. The Assistant Manager of Bohn Hall was called to reassign the female's room.

Harassing Phone Calls
10/11/92 A student reported that while she and her roommates were going for the weekend she received several harassing calls from her ex-boyfriend.

10/9/92 A Blanton Hall resident had been receiving harassing phone calls from a male student who was met during the weekend.

Dispute
10/9/92 A female Desk Assistant had a dispute with an MSC football player in the Student Center game room. It was closing time and the player did not want to leave until he finished playing his video game. The male stated that she had a bad attitude with him. The manager of the game room will speak with the Desk Assistant about the incident.

Intrusion Alarm
10/13/93 Officers reported to Russ Hall in response to an alarm in Room 206. Upon arrival, the door to the room was secured but the alarm was sounding. A faculty member was advised of the situation and said that the alarm would reset itself in 10 minutes. This did occur.

Disturbed Female
10/7/92 A Blanton Hall resident was in the infirmary when Nurse Jones called headquarters for assistance. The resident was admitted to the infirmary due to psychiatric treatment and that she did not want to return to her dormitory because of roommate problems. Her roommate was very inconsiderate by playing loud music, opening the window even when it was cold, and was basically making her life very uncomfortable. Her doctor was contacted about the situation and let headquarters know there was nothing to be alarmed about. The Assistant Manager of Bohn Hall was called to reassign the female's room.

Class I organizations sing, dance and enjoy

OSAU (Organization of Students for African Unity), Players and LASO (Latin American Student Organization) will be sponsoring a free program entitled "Triple Threat" on October 19, hoping to promote campus awareness. This event is scheduled for 8:00 p.m. in the Student Center ballrooms.

These Class I organizations are joining together to provide a variety of performances. OSAU will have its choir, LASO will have its dance group and Players will have comedy acts.

Jill Appelbaum, a historian for Players, said that the event was a good idea, because it's designed to promote cultural relations and awareness.

"It will be great that these three different Class I organizations are willing to agree to bring a certain harmony to the campus. This program is the first since I've been here," said Keisha Jones, a OSAU choir member.

MSC, New Jersey and you. Let's vomit together.

New Jersey. Land of the Turnpike. Home of the big hairs. Flee radon for every landowner and brown water for every family. Life is good. Everything your heart could possibly desire! What is your address? Why it's exit 109 on the P-way. That's wonderful, I'm exit 136, pleased to meet you. Joy and rugiture! But nooooo! You're not satisfied. You're concerned about toxic hair loss, the rapist down the street and that funny glowing glow in the backyard. There must be another state in the union where you could satisfy your intellectual desires and attain self actualization, even without drugs.

There you are as a high school senior, dreaming about all the magical places you could go to college: the rolling green hills of the University of Vermont, the bustling and bustling of NYU, or the pink beaches and balmy breezes of the University of Hawaii... Uh-huh. Obviously you've dropped in a state where you could satisfy your intellectual desires and attain self actualization, even without drugs.

But chin up Chester, you're at MSC now, safely nestled between the car swiping capital of the universe and Clifton, the cultural mecca this side of the stratosphere. There's sooooo much to do here at Camp Montclair! In difficult to control your frothing anxiety to get involved. Why you could quite feasibly get so involved that you'd be asked to run for Homecoming Queen! HOMECOMING QUEEN??!! WOWEE KAZAWEE!! Dig that now, my boy! An honor anyone could lose their lunch over. Parading around in that magnificent sparkly plastic crown, why, you haven't gotten such kicks since that time at White Castle when you stole all the napkin holders. Imagine yourself, gracefully waltzing down College Ave. waving like Princess Diana to thongs of your subjects, as they scamper and climb over construction debris and bubbling puddles of muck to catch a fading glimpse of their newly crowned monarch of MSC. Your smiling face, colored with dirt from the swirling sandstorm engulfing the area, has that fluffy tear of joy flowing freely from your bloodshot eyes. This is certainly a day you'll remember for years to come, and far better than, say, a punch in the eye (Apologies to both Garnet and Campson).

But Camp Montclair isn't all about social development. Our highly diversified curricula offers campers hundreds of ways to expand their horizons. Why, all you have to do is register. Do you see that line over there? Yes, the one that stretches to the Lincoln Tunnel, that's the one. All these lovely patient people are ahead of you... isn't that grand! Let's make conversation with the people ahead of us to pass the time. "Hello, have you been waiting long?" "Leave me the hell alone." "Oh, so sorry. I was merely trying to make conversation..." "Look buddy, LEAVE ME THE HELL ALONE! I don't care if you're thefriendliest guy in the world. I haven't bathed in three days, I've had to urinate on myself for fear of losing my place in line, and if you even THINK of cutting in front of me if I doeee I SWEAR TO GOD I'LL RIP YOUR HEAD OFF AND SHOVE IT UP YOUR ANUS!!" "No, no. Dues man, DUES. For the beer, um, educational fund(Wink, wink)"

You've made the right choice coming to Camp Montclair, my fellow urchins, a wonderous place to frolic during your most mailable years. I'm sure high school seniors in Hawaii are dreaming of ways to expand their horizons. Why, all you have to do is register. Do you see that line over there? Yes, the one that stretches to the Lincoln Tunnel, that's the one. All these lovely patient people are ahead of you... isn't that grand! "My name is Appetite and I would love to be a part of your organization." "Do you like dog food?" "Come again?" "Do I matter? Do you like dog food?"

"Well, I suppose, I well..." "Can you strip down to nothing but your jock strap and vomit on command?" Very important to us that you can vomit on command. It's a ritual type of thing. Oh and money. Money is extremely important. Do you have any?" "Is this a hold up?"

"No, no. Dues man, DUES. For the beer, um, educational fund(Wink, wink)

Breaking those ol’ Greek stereotypes
by Vinny Carchietta

Who am I describing when I say, “These people are alcohol abusing, sexist who do nothing at college but get drunk, haze and buy their friends?”

I am sure that the people you think I am describing are the Greeks. If this is true, I feel sorry for you. You are passing judgement on the entire Greek system and each member of it. It seems that we all know the stereotypes that the Greeks have obtained. That’s all they are, stereotypes. I am here to break them. I am here to inform you about us.

Today, there are more individuals in the Greek system than ever before. I am sure you would be surprised to see who actually is Greek. Did you know that seven out of ten people listed in Who’s Who are Greek? Three-fourths of those people are all of this nation’s largest corporations are Greek. Forty-three of 50 of this Court Justices since 1910 have been Greeks. If this is true, I feel sorry for you. You are passing judgment on the entire Greek system and each member of it. It seems that we all know the stereotypes that the Greeks have obtained. That’s all they are, stereotypes. I am here to break them. I am here to inform you about us.

Today, there are more individuals in the Greek system than ever before. I am sure you would be surprised to see who actually is Greek. Did you know that seven out of ten people listed in Who’s Who are Greek? Three-fourths of those people are all of this nation’s largest corporations are led by Greeks. I could go on and on, but I think that you are getting my point.

The Greeks are all over this campus. If you take a walk from College Hall to Blanton Hall during a school day, I am sure that you will see a Greek. Greeks are politically aware and active. Just look at the SGA, a good percentage of your representatives are Greek. Also, look at the Greek Council. Their accomplishments and improvements on this campus are indisputable. The Greek Council consists of 40 Greek Organizations. These Organizations are diverse and form a solid Greek Community. In this community exist National and Local Fraternities and Sororities, both Professional and Social. These are caring and determined men and women of all races, ethnic groups, and creeds who work together to provide service and community to this campus. Just two weeks ago Rich Adams, president of the Greek Council and a brother of Phi Beta Sigma Fraternity, held a Bush-Clinton debate and forum during the Greek Council Meeting. Representatives from both parties spoke and answered questions, opening our eyes to many issues that a college student is unaware of. Also, the Greek Council granted $400 of its own money to Sigma Gamma Rho Sorority, Inc., which in turn, they donated to the Hale House. This donation was voted on and unanimously passed by the Greek Organizations.

The Greek System contributes both to the campus as well as the surrounding communities. The Greek Organizations perform numerous philanthropic and community service events every semester. Thousands of dollars are raised and distributed to a large number of charities yearly. For example, in December of 1991 Delta Kappa Alpha Fraternity and Delta Phi Epsilon Sorority visited Our Lady of Hope grade school in East Orange. They had a Christmas party for the underprivileged children of the school and distributed presents to all the children.

Also, on May 14, 1992, Alpha Iota Chi Sorority and Lambda Theta Phi, CLUB and LASO (2 Greek and 2 Non-Greek Organizations) held, “Hands Across MSC,” which was held in memory of all the victims of the L.A. riots. Kappa Alpha Psi Fraternity and MSC’s Residence Life brought food and clothing to the homeless of Penn Station in New York City. This effort was combined with other New Jersey schools as well as our own Track Team and WMSC. Kappa Alpha Psi will again visit these people during the semester, maybe you can help.

Alpha Phi Omega, a Professional Co-Ed Service Fraternity has adopted the section of Route 46 closest to the campus as part of the N.J. Adopt A Highway Program to keep N.J.’s highways clean. They also hold annual blood drives and many more service projects. I could go on and on with lists and pages of the services that the Greeks at MSC and other schools have done.

The Greeks have a positive effect on this campus and the community. The terrible stereotypes should not ruin the good name of the Greek Community. Stereotypes are deadly. It’s seen daily what prejudices do to individuals of certain races, creeds, and social statuses. That is why, now more than ever, we must kill this stereotype. Remember, don’t believe everything you hear. One little incident can be blown up by rumors and exaggerations to a federal crime.

They know that no one is perfect. They don’t expect you to be and I hope you don’t expect them to be. No organization is perfect and none ever will be. I hope that I opened your eyes and please keep them open. Compare the good to the bad. You will see that the Greeks are only human and so are you.

Montclair State College will sponsor New Jersey’s statewide Law School Admissions Day Fair on November 4. Representatives from more than 30 law schools throughout the country are expected to participate. The fair will take place from 10:30 a.m. to 1:30 p.m. in the Student Center Ballrooms. A panel discussion, “Choosing a Law School”, will take place from 9:30 a.m. to 10:30 a.m. in the Student Center, room 411. The panel will include admissions officers from five schools. More information may be obtained by calling Dr. Tayler at (201) 893-4152.

On Saturday, October 17, the Art Directors Club of New Jersey will sponsor a Career Day Seminar at Rutgers University, New Brunswick, for New Jersey college students studying visual communications. The club has assembled a group of professionals in the design, advertising, illustration and computer graphics fields. These professionals will answer career questions and advise students. Students can pre-register for $15, lunch included, through the art departments of all New Jersey colleges and art schools, or pay $25 at the door. For more information, contact the Art Directors Club of New Jersey at (201) 997-1212.

Love songs, nothing but love songs

After last Sunday night’s presidential “debate,” it was quite a relief to see the second string of the presidential teams verbally slam-dance without the smug intrusion of camera-hungry, moderators.

Witty insights into Fay Vincent’s employment status aside, we at The Montclarion believe the American people would be better served if presidential contenders were allowed to actually debate, rather than recite pat answers to obvious questions at the prompting of frustrated school marm’s. Why sit through a medley of Bush’s and Clinton’s greatest speeches (interspersed with Perot’s Uncle Jesse Duke-esque homespun humor) more fit for a late-night, K-Tel, 8-track offer than for the basis of the American people’s choice for president? We’re talking about the leader of the free world, not a bubble-wrapped bonus gift accompanying your combination Garden Weasel/Tummysizer.

On Tuesday, Quayle and Gore unfortunately slipped into some silly school-boy “did so/did not” simultaneous soliloquies, but at least they showed some substance while trading barbs and attempting to draw blood. We saw two people dealing with the present, the unexpected; just as they must, should they attain the positions they seek.

Admiral Stockdale, Perot’s number two man: well, at least he didn’t have a stroke.

Hands across the Student Center

Stumbling to the SGA office to reconcile a parking ticket dispute, one might have the brief delusion they had stepped through some strange portal in time and ended up at the DMV. Lines for registration stretched beyond belief, with the one desirable side effect being on- line students snaking through the Student Center Cafe could pick up a plateful of lukewarm starch n’ sauce.

Lines for registration stretched beyond belief, with the one desirable side effect being online students snaking through the Student Center Cafe could pick up a plateful of lukewarm starch n’ sauce.

While it is understandable that some sort of computer snafu subverted the mailing of said cards, some sort of action should be undertaken to aid students who were unable to secure their classes through no fault of their own. The Montclarion also regrets that, due to the lapse in procedure, the annual gratis publication of the Registrar’s announcement was not included in a timely manner.

“People were coming up to me I hardly knew and congratulating me.”

**I'm Right!!!**

*by Matt Swartz*

It's been a while, but I'm back. Warning to all left wing liberal Clinton/Gore wanna be's, Matthew J. Swartz is back again. Right? Between reading most of *The Montclarion*, its new rag of a magazine, *The Anarchists Syndicate* and that propaganda Clinton TV booth, I can see I came back just in time. My goal, as the premier writer of commentary at *The Montclarion* is to give a more realistic and factual opinion on current events which I have noticed are not well represented by other writers. First of all, Always Right is a cheap imitation of my column last year, Tim's Thoughts go on forever like a rambling child, *Record Irrelevance* is just an irrelevant, a pot head, and even a Femi-Nazi! God, this paper needs me!

This week's article will be based on people I believe deserve a positive mention and those people who deserve a negative mention. To start off on a positive note, I want to say thank you to President Reid for his hard work on improving our campus. I can't wait to use our bigger and better library. By the way, I'm still glad we got rid of those ugly trees and annoying squirrels. What a small price to pay for a big, beautiful, steel and brick building. I also send out congratulations to Rush Limbaugh, his new TV show and awesome radio program (Dittoe Rush); Eddie Murray for being the only productive Met player this year, the Olympic basketball team for kicking some ass over in Spain and bringing home the gold; the United Nations for attempting to keep world peace, especially in Eastern Europe and attempting to feed the millions of starving Somalians. A special honorable mention is also in order for President Bush and Vice President Quayle for their family values theme, which, if listened to and followed, would deeply improve our society. A society which lacks moral values in certain aspects such as drug use, crime, rape, murder, lack of work ethics (too many people on welfare) and 1.5 million abortions. Calm down people, I'm pro-choice and I choose life. Except for cases of rape and health related reasons, abortion is wrong in my opinion. But I realize it must be kept legal for obvious reasons. If society had higher morals and better family values, abortion would not even be an issue. But until then, let the argument rage on.

The negative mentions begin with that bald headed bitch, Sinead O'Connor. The nerve of her to insult most of the free world by her ignorant actions. I'm Jewish and even I was insulted by her hate crime, rape, murder, lack of work ethics (too many people on welfare) and her singing sucks, now she's preaching hate against Catholics. What if David Duke tore up a picture of Dr. Martin Luther King Jr? Then what would you people be saying? She is a symbol of hate and her singing sucks. Now she's preaching hate against Catholics. Perhaps this is what O'Connor is thinking. I'm not sure why she is in this situation now. That's right, if he respected women, believed in monogamy and safe sex, he wouldn't have caught the AIDS virus and then started with his ego. His ego made him catch the disease and now his ego may cause him to give others the disease and possibly damage himself even more! I think...

Quivering lips, no Bush

I am writing this letter in response to the numerous anti-Bush comments I have seen on The Montclarion website. I won't go into a deluge of personal insults about Bill Clinton, or as I refer to him, the whining cheating, backstabbing draft dodging slick hustler of a bitch. I'll just give some of the facts.

Slick Willie has said that the only way to reduce the deficit is a massive tax increase and he has already called for $154 billion in higher taxes. As far as the economy goes, Arkansas ranks 44th worst in tax fairness, 48th in people living in poverty, 50th in youth employment, and has the 17th highest tax burden. As for the environment, Arkansas ranks dead last for government action to protect the environment and 48th worst in overall environmental quality. For crime, Arkansas ranks dead last in per capita spending on the juvenile justice system. Fact is, stubborn things, but there they are.

The only real candidate for this country's success is George Bush. The President’s strong economic plan calls for giving first time homebuyers a $5,000 tax credit, a cut in the capital gains tax to spur investment, keeping inflation and interest rates at an all time low, cutting red tape so small businesses of this country can grow, and continued expansion of American trade through new international agreements. The President’s plan will create long term private sector jobs, not government created jobs, like Slick Willie has proposed, which are paid for by you the taxpayer. The President’s programs offer hope and opportunity to all Americans, by employing people—not government—to make the important choices in life.

My name is Cynthia Wroblewski and I am the Resident Assistant from Blanton Hall who "contractually revoked Eva Santiago’s constitutional right to speak her native tongue." After reading the article on pages 1 and 5 and the editorial on page 12, I felt that there was a dire need for an explanation on how a room contract is established in Residence Life. To begin with, a roommate contract is implemented as a last resort for the residents that have the conflict.

When the Resident Assistant first realizes that there is a conflict, that Resident Assistant will sit down with the roommates and the three of them discuss the disagreements and try to work out some compromises. More often than not there is a lack of communication. The compromises usually produce harmony.

When, and only when, the compromises do not appear to work does the Resident Assistant call a meeting with the roommates. During the meeting the Resident Assistant has each roommate write down a list of complaints they have about the other. The Resident Assistant then reads aloud the list of complaints and then reads aloud one of the complaints. The Resident Assistant then instructs the roommates to honestly express their feelings about that one complaint. Then the Resident Assistant instructs the roommates to work out a compromise for the complaint. Once the compromise is made, the Resident Assistant writes it down. This procedure is continued until all of the conflicts are resolved. Then the Resident Assistant types up the contract, which is then re-read by the roommates. Before signing the contract the roommates agree to it. Then the roommates sign the contract.

This is a small sample of what took place on the incident that occurred in Blanton Hall. This is also to clarify that it is not the Resident Assistant who tells what the roommate is or are not allowed to do, but in fact it is the residents. Thus, you see the terms of the contract come from the residents themselves. It should be known that it was not I who took away Eva Santiago’s constitutional right to speak Spanish, but rather it was her own free choice. She gave up this right in exchange for other concessions made by her and her roommate. As far as you see, the Resident Assistant is not the author but merely the catalyst.

An explosion of originality and imagery

by Sean Carrol

On Oct. 12, Class One Concerts held their second Open Mic Night of the semester in the Student Center Ballrooms. As with previous open mic nights the acts ranged from essays and poetry readings to stand-up comedy and musical performances.

The evening began with Homer and Jon, brothers who performed the song “Franklin’s Tower” on an electrified acoustic guitar and bongos. While the lyrics were somewhat inaudible the music had a mix of folk-rock tinged with psychedelic. Mumbled lyrics aside, the piece was performed well and had several interesting points. However, the piece suffered when delivered. The stand up comedy of Eric Schmitz followed McDanold’s performance. While the solo portion of his act was somewhat stagnant, Schmitz closed well with an impression of Bill Cosby on crack.

Several musical acts followed Schmitz including a medley of instrumental covers, a three-piece unit featuring John Oakes on drums and vocals, Gerry Rentlerink on guitar and Robert Oakes Jr. on bass. They played a four-song set including a cover of Tin Machine’s “Betsy Wrong”. However, their performance of “Jam To E” best demonstrated their musical prowess and their ability to function as a cohesive musical unit. They ended their lively set with a splendid cover of Adrian Belew’s “Member of the Tribe.”

When the moon hits the sky... 

by Sandra Cammell

When the moon was full, the sky was a radiant blue. It was too long and I was found myself lost in the stars. However, I was too busy staring at the sky to notice the beauty around me. The moon was full, the sky was a deep shade of blue, and you fell in love. It won’t be too hard to conjure up amorous thoughts this month because the moon is in a romantic mood. It is a romantic time of year and is perfect for love and romance. While the moon is full, the sky is a deep shade of blue, and you fell in love. Of Mice and Men
by Mark Loughlin

High school students around America will be doing somersaults for Gary Sinise's new adaptation of the book report favorite, Of Mice And Men. Starring John Malkovich as the simple Lenny and Sinise as his watchful keeper, George, the film boasts a very capable cast that treats the material with respect and tenderness. Joe Morton, John Terry, Sherilyn Fenn, Ray Walston and Noble Willingham all turn in fine performances. But the film, like the book, belongs to Lenny. Malkovich's casting was one of those unexpected surprises that make events like the debate so compelling. If the debate is any indication I predict this to be the connecting. If the debate is any indication I predict this to be the
outstanding event in November: Clinton in the White House. The film finally got down to the nitty gritty of the issues. Hopefully, the Big Three finally got together and agreed on a battle going on. Guess who came out mumbling, "I coulda been a venderful man!"

What makes Of Mice And Men better than the average adaption of classic literature is the simplicity of its telling. It is all very straightforward, with a nice, clear script by Oscar winner Horton Foote, and even handed direction by first time director Gary Sinise. He fills the screen with beautiful images and gets good performances from his cast. If there are any real complaints, they would not be in the production itself, but in people's expectation of what it should be. Afficionados of the book may not like some of the performances for some reasons. Some people say that Malkovich is not large enough to play Lenny. Those people will soon forget that once he is on the screen. His performance is great and should come up again at Oscar time. Some people say that the last 30 seconds of the ending was sentimentalized (I won't tell what they did). I was one of the ones who enjoyed it and thought it wrapped things up nicely. These are very small grievances. For the most part it is an exemplary production. since most people already know the story, this experience will be more like a pleasant reunion with characters than the usual blind date.

The Last of the Mohicans
by Kevin Schwobel

First there was the book, written by James Fenimore Cooper. A good read. And now, director Michael Mann brings Last of the Mohicans to the screen. Mann's better known accomplishments include the creation of Miami Vice and the film Manhunter.

The film is set during The French and Indian War, a.k.a. The Seven Years War. The French were trying to gain control of the British colonies. Daniel Day Lewis (My Left Foot) stars as the quintessential hero, Hawkeye, the child of colonists raised by a Mohican father. Chingachgook (played by real-life Native American activist Russell Means). The natural son of Chingachgook is Uncas, played by Eric Schweig. The other main characters are Cora Munro (Madeline Stowe) and Magua, a vengeful Huron played to the top by Wes Studi (Dances With Wolves).

The film ran smoothly through two hours, with few slacks in the action. Mann spent the beginning of the film establishing the historical context of the film. It is important for a historical film to set up the period or else you won't get it. This film takes place during a war that very few people know anything about, so it was very necessary to explain through dramatical means the relationships between the French and English, the English and the American colonists, and the American colonists and the Native-Americans, etc. Although you have to wade through all these set ups, you eventually understand and appreciate their presence. This film's historical accuracy is excellent as is the sprawling scenery.

I was very impressed with both the sound effects and the cinematography. The tomahawks make a nice "whack!" as they enter a human chest. The scenes in which lighting was by fire or candle light looked exactly perfect: dark, shadowy, etc. I even liked the score, up until the point when a piece which is sung towards the end of the film such as this should not have lyric pieces of music in their score. In this case, the scenes would have worked just as well without the lyrics.

The romantic plots were well played. In fact, it was the underplayed and seemingly more powerful relationship between Uncas and Cora's younger sister (Jodhi May) which overshadowed the less romantic, more physical attraction between Hawkeye and Cora. The actions of both Uncas and Cora's younger sister became extremely bright, romantically.

Overall, Last of the Mohicans is a truly epic film. It should be placed up there with Glory, Plateau, Dances With Wolves, and the other greats.

In fact, it was the underplayed and seemingly more powerful relationship between Uncas and Cora's younger sister (Jodhi May) which overshadowed the less romantic, more physical attraction between Hawkeye and Cora. What the hell is this? A greatest hits album by the Red Hot Chili Peppers? What is this? Week to week coming to you? Would you expect a boxed set from the New Kids on the Block (by the way, what happened to NKOTB?) Anyway, here it is, it is the first single, "Under the Bridge." It includes some old favorites. Just to name a few, there's "Get Up and Jump" from the eponymous debut, "Cathartic School Girl's Rule" and "Hollywood" from Freaky Styley along with "Backwoods." "Fight Like a Man," and "Behind the Sun" from perhaps their greatest album, Uplink Morey Party Plan. A few of the more accessible tracks from Mother's Milk are present, including "Knock Me Down," "Taste the Pain," and Stevie Wonder's "Higher Ground." The only track from Blood Sugar Sex Magik is "Girlfriends In Funk," "Under the Bridge." From the Tribe Oriented guitar tune will be the feature that most Z-100 heads will be with this album.

Along with What Hits?! EMI has released a compilation home video of the same name. Can you say "moo money?"

Long time fans of the RHCP should stay away from this disc. There's nothing here you probably don't own already. Save your money or better yet, buy it for your younger brother or sister. It would benefit them more to listen to this as opposed to Vanilla Ice or C&C Music Factory.

Welcome again, loyal readers, to another trip into tomorrow that I like to call PROPHET BIGG. I encourage you each and every week to drop me a line at the Montclarion office in the Student Center Annex. I will attempt to answer your questions on any aspect of the entertainment industry or previous Prophet Bigg installments.

And in that spirit, I will adress a letter I received from a certain Peter Cambardella regarding a piece on The Adventures of Farman starting radio personality Howard Stern. Mr. Cambardella writes the following:

Dearest Prophet Bigg:

Your column in last week's Montclarion erroneously reported that Howard Stern has sold "The Adventures of Farman" to some television interest. That is wrong. "Farman" is the movie you referred to later in the article. It is being backed by New Line Cinema, a group whose biggest success was Nightmare on Elm St. and its sequels. There is also another TV show in the works for the spring, but there is nothing definite yet. It won't be a network show, but will be with a major syndication company, if it becomes a reality. Also, how could you possibly see another Stern TV show "lasting for a very, VERY short time" I don't think you understand television at all. I have worked for both Mr. Stern and WWWO-TV at different times, and I know how both work. Channel 9 has never been known for making good outsize decisions, in fact I can't recall one intelligent decision they made the entire time I was there. No one has ever said Stern's show failed because of low ratings. In fact, the press release announcing the show's cancellation, WWWO admitted that the show got very good ratings. The syndicator, All American Television wanted the show to keep running, even through WWWO claimed it was losing money. Why would a company want to keep something it was losing money on, if that was indeed the case? Look at these facts any way you like, Howard hasn't failed yet and there's no reason to believe he will. (What kind of prophet doesn't even know what has already happened?) In case you need any more information on Howard, he has produced a videotape due to be released around Christmas with skins such as Guest Who's The Jew, Lesbian Love Connection, But Bongo, Tribute To Vagina and a skit called Lumberjack, with Jessica Hahn and many topless women. It also contains the results of the gross video contest he held last year and video images being produced of his last two trips to Philadelphia to taunt John DeBella. Any questions? Peter J. Cambardella Broadcasting Major P.S. - The abbreviation "TV" doesn't use periods. You're a newspaper man, get it together.

Well, Mr. Cambardella, for your information The Adventures of Farman was originally presented to potential buyers as a TV show, however, since those buyers had trouble getting off the floor from laughing, the idea was re-worked into a movie format. As far as its purchase, it was purchased as part of a package deal by New Line who had no choice about taking it. They had to or they would have lost some potentially better films. As far as New Line is concerned, they have NO stated production scheduled for the '93 shooting schedule and are not sure when or if it will ever make it to the screen. So I guess you can look forward to that sometime real soon. Another TV show? Not likely. Check your facts. If Channel 9 had come out goes, exactly how many radio stations has he been fired from? Didn't he get shot at in D.C. for saying anything about Martin Luther King? Don't get me wrong. I'm a Stern Radio fan, but the man has far from a flawless record. That's what this Prophet knows! One final note. The video tape, hey, it's your hardly earned money, not mine. F.S. is the job of the editors and proofreaders to correct those mistakes, so get yourself together. You obviously don't know anything about the newspaper business, couch potato. Just a couple of quick items.

This week on Star Trek: The Next Generation a third member from the original cast will make a special appearance. James Doohan will reprise his role as that lovesome ship engineer "Scotty" in the episode. He follows DeForest Kelly ("Bones") who appeared in the series pilot and Leonard Nimoy("Spock") who appeared in a two-parter last season.

There was a special showing of a working version of Disney's Aladdin which wowed audiences. Disney says that this was only a working version and the film still needed much work.

Not wondering the rather moronic comments in this weeks letter, keep 'em coming!

Lovejoy on the Age of Electronic Media

by C.W. Sprongfield

Montclair State College is proud to present Art Form, a series of events geared toward various artists from architecture to sculpting to screenwriting. Managed by the Fine Arts Department, the Fall 1992 schedule is alive and kicking.

October 8th featured Margot Lovejoy, multi-media artist and author of Postmodern Garnet: Art and Artists in the Age of Electronic Media. "Lovejoy is based internationally, her works ranging from print-making and book art to multi-media projection installations. The intimate, theatre-like room was the backdrop for a short film and lecture on Art, Artists and Technology," crossing the lines of sculpture and photography to coincide with the cinematic. The schedule for the remainder of October is as follows:

Oct. 15: Harry Wirth, talking about the responsibilities all designers have concerning the environment.

Oct. 22: Nancy Paladino on digital and computer technology has opened the door for designers to participate in what was once a video engineering forum.

All lectures are held in Apple on Thursday at 3 p.m. They're free and open to the public, so the students enrolled in Art, Art History, Media Arts or Film Studies should attend.

Photographers!

The Arts Section will publish a photo that will be called the Picture of the Week. Anyone who has an MSC related picture that is humorous, bizarre, etc. should submit their photos to The Montclarion office, Student Center Annex room 113. Place in Arts mailbox.

The fact that you're no longer at channel 9 proves they made one intelligent decision.

Freshman Volker thrown into the fire as MSC's quarterback

When Darren Volker decided to come to MSC to play football, he didn't foresee a lot of playing time in his freshman season. That outlook has suddenly changed. When starting quarterback Steve Banas went down with a season ending knee injury against Kean on Saturday, Volker moved into the number-one spot.

Head coach Rick Giancola likes what Volker can bring to the Red Hawk offense. "Darren's a good athlete. He's got us added mobility. He can also throw on the run effectively," said Giancola.

Volker, a 6'2 220-pounder from Roseland (Seton Hall Prep), has a strong and accurate arm, but lacks game experience. Although he is in a pressure situation against William Paterson this Saturday, Giancola doesn't want to lay too much in Volker's lap because it's his first start.

"Our biggest challenge is to try not to give Darren too much too soon. He fits nicely into our offensive scheme, but I don't want him to feel that he has to carry the whole load by himself," said the Red Hawks' tenth-year head coach.

Field hockey defeats William Paterson 4-3, snaps nine game losing streak

by Keith A. Idee

The MSC field hockey team ended its nine game losing streak by defeating William Paterson 4-3 at Sprague Field in Upper Montclair.

Captain Marianne Dava's crossing pass to Jen Tracey led to Tracey's winning goal with 1:14 left in the game. The goal was Tracey's second of the contest. Dava and Nicole Darmina also scored goals for the Red Hawks. The victory improved MSC's record to 3-5 (0-3 NJAC).

Earlier in the week, the Red Hawks dropped two non-conference games on the road against top Division III opponents. The Red Hawks were defeated 9-0 by Cortland State on Saturday, Oct. 10 in Cortland, N.Y. The lone highlight of MSC's effort was the goalkeeping of Lori Ostroumoff, who stopped 27 shots on goal.

Prior to the Cortland loss, the Red Hawks were handed an 8-0 loss by Lock Haven University. The Red Hawks came into the Lock Haven game with confidence stemming from their previous game. Although they were defeated 1-0, the Red Hawks played a tough Rowan College team to a 0-0 tie until the waning moments of the NJAC battle that took place on Tuesday, Oct. 6. Although their record doesn't show it, the MSC field hockey team has really made strides this season. The team came into September both undermanned and inexperienced. The fact that they've been able to win two games is an accomplishment in itself.

The Red Hawks will play three times this week including two conference matchups. Competition begins with a non-conference game with FDU Madison on Sprague Field tonight at 8 p.m. MSC then takes on NJAC foes Kean on Saturday, Oct. 17 at 1 p.m. in Union and Trenton State on Tuesday, Oct. 20 in Ewing Township.

After this week's action, the Red Hawks have two more games on the slate before ending the season. The two games include a road game with Manhattanville on Thursday, Oct. 22, and a home game against East Stroudsburg on Saturday, Oct. 24 at 1 p.m.

N.F.L. Picks: Week 7

by Nicole Festa

The MSC volleyball team continued a rough stretch after they lost to Kean in the Hunter College Invitational Volleyball Tournament on Saturday. After losing the first match 15-6, the Red Hawks tried to rebound in the second. Although forcing Kean to score two extra points, the Red Hawks failed to capitalize on it. As a result, they dropped the second match by the close margin of 17-15. Thus, the Red Hawks were eliminated from this heat out of three tournament matches. MSC also dropped matches to Hunter College (1-15,10-15) and Scranton University (9-15,17-15) in previous tournament matches.

The three tournament losses dropped the Red Hawks' record to 2-15 (0-3 NJAC).

In action prior to the tournament, MSC dropped a conference game to Stockton State 3-1, on Tuesday, Oct. 6.

With only five games remaining, one can only hope for a win against any of the five scheduled opponents. This was not exactly the type of optimistic view the volleyball team wanted in the beginning of the season, but it also has not exactly been the type of season they wanted either. Instead, it has been a season filled with many frustrating losses, and unfulfilled expectations. However, this is not the time to throw in the towel completely. The Red Hawks still have two important games this week against Delaware Valley on Saturday, Oct. 17 at 1 p.m., in Panzer Gym. The Red Hawks then hit the road to take on conference rival Ramapo College on Tuesday, Oct. 20 in Mahwah. A win is desperately needed by the volleyball team, and hopefully they can achieve this long awaited goal this week. We'll keep our fingers crossed!!

2. L.A. Raiders -7 over x-Seattle. The Seahawks suck.
4. Atlanta -11 over x-San Francisco. The 49ers suck.
5. San Diego +2 over x-Indianapolis. The Colts suck.

Keith A. Idee, Sports Editor:

1. x-L.A. Rams +2 over x-N.Y. Giants. Although they aren't abundant in the talent department, the Rams have managed to hang around in most of their games.
2. Kansas City -4 over x-Dallas. Take the points in what should be a tight game.
3. Houston -1 over x-Denver. The Broncos once again showed that they are not as good as their record (4-2) on Monday night in Washington.
4. x-Chicago -3 over Tampa Bay. The Bears cannot afford to fall any further behind Minnesota.
5. x-Miami -14 1/2 over New England. Marino and Co. could make this one ugly by halftime.

Kevin Schwoebel, Prophet Bigg:

2. L.A. Raiders -7 over x-Seattle. My poor, poor Seahawks.
3. San Diego -1 over x-Denver. The Broncos once again showed that they are not as good as their record (4-2) on Monday night in Washington.
5. x-Chicago -5 over Tampa Bay. Ditka. Period.

Ever since then the Drop-In Center has strived to maintain the standard of excellence by which other similar centers would be judged. Every semester a handful of new trainees go through extensive training in crisis intervention, peer counseling, suicide intervention, and other skills. All the training is conducted by professionals in the counseling field who are hired or volunteer as consultants.

Despite the staff's crisis intervention skills the Drop-In Center offers quite a bit more counseling.

Transportation: Not only do we provide all sorts of bus and train schedules but our transportation expertise goes far beyond that. We will get you where you need to go, and if that means making calls all over the country and spending time hunched over a map with you...no problem.

Jets crash in the Land of Losers

Three years ago New York Jet fans were chanting "Joe must go" in hopes that if head coach Joe Walton was fired the Jets could become contenders. Well, Joe has been gone for nearly three seasons and it doesn't look as if anything has changed. After making strides in 1990 and playing 5-0 football as well as making the playoffs in 1991, the Jets have seemed to take steps backward in 1992.

The Jets had everybody sold on the concept that they would be winners in '92. They started off fine, finishing the pre-season 5-0. Then they came crashing back to reality. Losing 17-10 to Atlanta in Week 1 was unexpected, but acceptable. Then things just kept getting worse.

Pittsburgh's Barry Foster looked like Barry Sanders as the Steelers made the Jets look silly in Week 2. San Francisco made them look even worse in Week 3.

Going into Week 4, the feeling was that the Jets would win one because they were playing the troubled Los Angeles Rams. Think again. Not only did the Jets lose, but they only managed 10 points against a hurting Ram defense.

Then came New England in Week 5. Someone upstairs liked the concept that they would be winners in '92. They started off fine, finishing the pre-season 5-0. Then they came crashing back to reality. Losing 17-10 to Atlanta in Week 1 was unexpected, but acceptable. Then things just kept getting worse.

MSC defense stifles Kean 27-7, for second straight win

Quarterback Banas is lost for season with career threatening knee injury

by Michael Frasco

MSC won for the second consecutive game Saturday when it defeated Kean College 16-3 in a New Jersey Athletic Conference game before 2,124 fans at Zeidler Field in Union.

Behind the strength of its defense, which limited Kean to just 90 yards, MSC put the game out of reach in the second quarter while throwing for a 20-yard gain to Tremaine Wimberly. His right knee was hit by the helmet of nose tackle Mark Neubart. Banas, who had started 24 consecutive games, was taken to St. Joseph's Hospital in Union. It was later revealed that he tore three ligaments, and consequently would have to undergo season-ending knee surgery at the end of this week.

Damon Volker, a freshman from Seton Hall Prep took the controls, with MSC leading by 7-3 at halftime. With just a slight head and Banas gone, MSC needed a big play to all-time rushing mark with a 151-yard effort against Ramapo, added to his record by gaining 220 yards on 31 carries. For his efforts he was named to the Metro Honor Roll.

The Montclair Post carried seven consecutive times for 66 yards to the Kean 16 yard line. Volker then scrambled nine yards to the nine, and after a fourth down, Banas' 25-yard field goal to push MSC's lead to 16-3 with 3:44 left.

Before the quarter, Banas' (3-2, 1-2 NJAC) would put together his only significant drive in the second half. After moving the ball 65 yards to the Red Hawk 15, Kean stopped Banas on fourth down.

The pass was intercepted at the 5 by linebacker Duane Grade. But Grade fumbled the ball back to him, which gave Kean a second chance as it was just a 19 yard field goal was the red light.

However, the MSC defense rose to Banas' on a third-and-goal at the two, as Pomanski was sacked by linebacker Dwayne Savage for a loss of 10. Kurt Wieboldt's field goal attempt at 29 yards was then blocked by linebacker Jon Yoncovich. Banas' only points came on a 24-yard field goal by Wieboldt with 14:50 left in the second, which made him 3-3, MSC lead.

MSC first scored on a Walker run of 25 yards, which was set up by a second half kickoff to the 40-yard line pass play. This capped a two play, 37-yard drive in the first quarter, to give the Red Hawks a 7-0 lead.

Red Hawk Notes... Banas' injury is the same as the one suffered by his predeces­sor, Ed Baffling, against Union in the 1989 NCAA division III playoff that ended his career. Larry Thompson increased his team-leading tackles to 30, with 12 in the Kean victory. Thompson also forced a fumble and deflected a pass on the way to earning hono­nors at the NJAC De­fensive Player of the Week... The MSC de­fense gave up just 15 points in two losses, but has allow­ed only 10 points in its current two game winning streak.

Women's tennis places sixth in NJAC tournament

by Karen Plumstead

The MSC Women's Tennis team scored 20 points to put them in sixth place in the NJAC in the Oct. 2-3 tournament. The star of the tournament for MSC was Jen Dubrowski, who played hard and advanced to the final. Dubrowski was defeated by Koy Jones of Tren­ton State. Although Dubrowski was eliminated, her finish was good for sixth in NJAC tournament. Vort energized the court with her third place win in the singles division.

Dubrowski's seven game winning streak in the NJAC was broken by this loss. She was named to the NJAC honor roll, though, for her play. Alison Vort and Traci Grosvenor, who played first singles. She defeated her opponent 4-6, 6-2, 7-6. McLaughlin says, "Grosvenor is a true competitor, a true athlete. She gives 100% ev­ery match." On Oct. 10, the MSC girls re­ceived themselves with a 5-4 vic­tory over Rowan College. McLaughlin said, "The team wanted to win one of their three matches in the opening round. The stars of the match, though, were Tara Spor (5th singles) and Bibilla Frazda. They both came back after losing their first sets to clinch the victory. The MSC women scored three wins in the opening round and two wins in the second round.

How long has it been since MSC's Men's Soccer Team has lost a game? H. Ross Perot was not a candidate for President! The New York Jets thought they were a playoff team! You could get a cold beer at the Rathskellar! No, it has not been that long, but the Red Hawks are on a roll. Since that victory MSC has lost a game? H. Ross Perot was not a candidate for President!
