Obituary: Douglas Tomlinson of the English department died of illness due to the illness. Dr. Eaton was a member of the English department also died of AIDS this past summer.

A professor of speech in the Department of Broadcasting, Speech Communication, Dance and Theatre, Eaton taught Public Speaking and Oral Interpretation of Literature until January, 1991. At that time, he took an early retirement and moved to Texas because he was too ill to teach.

Eaton came to MSC in 1967, after teaching at Iona College and the City College of New York. He received his B.A. from Ball State University in 1964, and his M.A. from Columbia University in 1967.

Eaton was active in the campus community. He served as the Program Coordinator in the speech and communication area from 1984-86, and was a member of the Speech Communication Association and Eastern Communication Association.

Also active in theatre groups on-and-off Broadway, Eaton was a member of the American Theatre Wing. consultant to Alexander Cohen. Eaton was a close friend and colleague of Professor Dannis B. Eaton, whose primary duty was to motivate students to higher standards of academic and professional achievement.

Eaton passed away on Nov. 3, 1992, in Dallas, Texas.

According to the alarm codes, the individual left the front door.

The hole in the ceiling of the Book Store where the thief is thought to have fallen through when entering the bookstore, crawled through the drop ceiling, and fell into the bookstore.

The Montclarion advisor receives award for outstanding work

by Nancy Gannon

Ron Hollander, advisor to The Montclarion, received an "Outstanding Advisor" Award at the National College Media Convention in Chicago on Oct. 31, 1992.

The award was given by College Media Advisors (CMA), an organization which serves to educate advisors, as well as to pay tribute to those who deserve recognition. Hollander was the only award recipient in the category of "Advisors with Less Than Five Years Experience at Four Year Colleges."

"Hollander certainly deserves this award," said Ron Johnson, vice president of CMA. "He has extensive professional experience which he expertly applies as advisor."

"I was really thrilled," said Hollander. "I guess being a newspaper advisor is like being a football coach your team makes you look good. It was the students who edited the paper that made me look good."

Hollander was nominated for the award in the spring of 1992. Several members of The Montclarion Editorial Board wrote letters of recommendation.

Audrey Regan, the Campus Life Editor, described Hollander as "the best advisor I've ever had."

Computer stolen from Life Hall

by Anabel Gomez

A $10,000 computer system from the Speech building is partly missing after a break-in that is thought to have taken place over the weekend, said campus police.

An IBM compatible computer was found missing, along with other components including the printer, the graphics monitor, floppy disk drives and accessories. The missing computer was purchased in 1989 for $10,081.

The missing computer system from the Speech building is located in the Speech building, approximately 7:25 a.m. on Tuesday, the alarm to the bookstore went off.

Access into the bookstore appears to have been through the drop ceiling. The break-in was thought to have occurred sometime between 8 p.m. Monday, when the cafeteria was locked up, and 5 a.m. Tuesday, when the cheat came in. The burglar(s) broke into the cafeteria and stole the safe where the day's receipts are kept, said Residence Life Manager John Linderstrom.

The burglars broke in through the ceiling and pushed the safe across the floor. The break-in is thought to have occurred sometime between 8 p.m. Monday, when the cafeteria was locked up, and 5 a.m. Tuesday, when the cheat came in. The burglar(s) broke into the cafeteria and stole the safe where the day's receipts are kept, said Residence Life Food Service Manager John Linderstrom.

The Blanton Hall cafeteria was broken into and a safe was stolen this past Tuesday morning said Campus Police.

The Union for Lesbian/Gay, Bisexual Concerns is holding a meeting on Monday Nov. 16, at 4 p.m. in Room 413 in the Student Center. All are invited.

The Dance Department at Montclair State College presents Perverse Action at Midnight on November 20, 1992 in Moorehead Hall at midnight. Free Admission.

"An Aids Awareness" Featuring Teen to Teen Theatre Company and Nancy Garcia from F.A.I.T.H. Services will be held November 17, 1992 from 12:00-4:00 p.m. in the Student Center room 419. Admission is free. This event is sponsored by LASO.

FridayAfternoon Performance Hours presents The Nuts and Bolts of Things, selected vignettes from life. It will be held on November 13, 1992 at 1:00 in the Studio Theatre / Speech building. Admission is free.

INTERNATIONAL

Israeli gunners pounded suspected Shiite Muslim guerrilla positions in Southern Lebanon. The fighting is threatening Middle East peace talks.

Rail traffic was halted for an hour on Tuesday between Bologna and Venice, Italy so experts could diffuse a one ton bomb that was left over from U.S. air attacks during World War II.

Iraqi officials announced new finds of oil in the deserts of Iraq. They claimed that the new find may mean they have more oil than the Saudis who now have the largest reserves in the world. The official said U.S. oil companies would be welcome once U.N. sanctions are lifted.

Three London businessmen were acquitted of selling arms making equipment to Iraq. A senior trade official stated during the trial that the government approved the exports in exchange for information on Iraqi nuclear capability.

European ministers agreed to seek a quick resumption of trade talks to the U.S. to overt an all out trade war. Yet the ministers also agreed to go along with France’s demand if they prepare a retaliatory sanction list of their own. Washington may tariff white wines and other European community products if the dispute over farm subsidies is not resolved soon.

**NATIONAL**

Thirty two year old Douglass Pou faked his death in 1987 when he was an Air Force Sergeant stationed in New Mexico. He pleaded guilty to charges of desertion and bigamy. His second wife figured out his real identity and he was under surveillance when arrested in June. Television producers are clamoring to get at his story.

A Detroit police supervisor who was one of seven officers suspended after the beating death of a motorist, denies he was there when the man was attacked. County prosecutors are seeking criminal warrants for the officers involved. The authorities have refused to identify the suspended officer.

Scientists are turning from Ugandan sources for drugs to fight cancer, AIDS and other diseases. Tuberculosis, staph bacteria and other infections are becoming resistant to known treatments. Doctors are nervous that they may lose some ability to fight illnesses.

New rules for food labeling went into effect on Tuesday, but a controversy between the FDA and the Agriculture Department over labeling fat content is still unresolved. The Agriculture Department opposes the idea and the detractors say the meat industry is behind it.

**LOCAL**

One million dollar bail was set for a Plainfield man who kidnapped a 35 year old woman and her four year old daughter. The suspect pleaded innocent. The child was abandoned and the mother was found in a drainage ditch stabbed repeatedly four days after she was reported missing. Prosecutors may press for the death penalty.

Officer Steven V. Smith, 25, was suspended indefinitely from the Paterson Police Force. During a fight outside a Wayne bar he threatened a patron with his gun. A grand jury indicted him on charges of official misconduct, aggravated assault, making false reports to a law enforcement officer, making a false sworn statement to an officer and making terrorist threats.

In West Milford, 10 people were rounded up in a drug raid, including a police dispatcher on sick leave. The ring dealt in marijuana and cocaine and had a cache of weapons confiscated by police. The dispatcher acted as an informant to the drug dealers.

Lawrence Taylor suffered a devastating injury during the game between the Giants and the Packers. The football linebacker ruptured his Achilles tendon and had to be carted off the field. By phone during an interview, he said he did not know if he will still retire as he had planned to do at the end of the season.

**CORRECTIONS**

In an article about the Drop-In Center printed last week, the hours for Mon-Thurs were omitted. They are 9 a.m. till 10 p.m.

Prunfello said, "It doesn’t appear to be an inside job. The burglars were very unphilosophic in their approach."

Campus police said that a student reported hearing two voices between 3:00 a.m. and 3:30 a.m. and then heard what they thought was a car rolling across the floor. An investigation is continuing.

"It's a real shock," said Prunfello. "The shock, though, was on the burglars, who only stole $140. Prunfello added, "The safe was probably more valuable than what was in it."

**THEFT,** from page 1

drive, search protector, mouse and modem, said investigative police Sgt. Debra Newcombe. Presently under investigation, the burglary is thought to have taken place between Friday, Nov. 6, at 5:30 p.m. and Monday, Nov. 9, at 9:30 a.m.

Evidence found at the scene of the crime was a black button and a sneaker print on the floor. A Rainbow computer was taken from a display case in Richardson Hall and last month another computer was taken from the office of the chairman of the Classical Department.

Newcombe said that alarms are only strongly encouraged in cases where there are more than one computer in a room and the alarm is connected to a system that immediately informs the police of an intrusion.

Once maintenance arrived to fix the damage, Lumorrow explained that the door was jammed when she first tried to open it. She said it was possible that the intruder(s) had come in through the window.

Prior incidents within the past six months have also involved missing computer equipment. A Rainbow computer was taken from a display case in Richardson Hall last month and another computer was taken from the office of the chairman of the Classical Department.

Newcombe said that alarms are only strongly encouraged in cases where there are more than one computer in a room and the alarm is connected to a system that immediately informs the police of an intrusion.

**CMA,** from page 1

Hollander's dedication to his position as advisor, "I can sum Ron up in one word: unrelenting. He is never short of advice. He is never short of ideas or energy," she said.

Hollander said of his experience as advisor, a position he volunteered for when he came to the College at the end of the 1989, "It can be very rewarding, very frustrating and always very tiring. It's the students' newspaper. It's my job to help them make it as good and professional as possible," he said.

The Monlcbrion staff was in attendance at the Convention where Hollander received the award.

"We (the staff) were proud to be there to congratulate late Ron on getting this award," said Katie McClure, editorial page editor.

Sports Editor Keith Ide said, "It was nice to see Ron awarded for his efforts at the Monlcbrion."

Hollander has also been Coordinator of the Journalism Program since 1989. He is a graduate of Brandeis University and received his Masters from Rutgers University. His news reporting experience includes work for such publications as The New York Post, Newsday and The Bergen Record. He has experience in TV production, editing and writing with CBS Morning News, "Nightwatch" and WWOR TV.

The Broadway producer, and Mrs. Henry Kassinger when she formerly taught at Rice, Nelson Rockefeller's good friend who toured South America in 1979. Eaton also participated in dramatisations of "Richard III" at the Sorbonne in 1979 and the University of Melbourne, Australia in 1981.

Private funeral services will be held for the family.

**Nominations being taken for Honorary Degrees**

by Dina LoPiccolo

The nominations for honorary degree recipients deadline is Friday, Nov. 13. Students who are concerned about who will speak at graduation this year must make their nominations now.

Each year a maximum of three honorary degrees in the form of a diploma are awarded to outstanding individuals for their contributions in a specific field. One of the individuals is chosen to speak at commencement.

"We encourage students to participate," said Alice Greene, the executive assistant to President Irvin Reid.

Greene, who is also a member of the Committee which nominates candidates to the President, said she doesn’t understand why more students don’t get involved. She said, "Last year only a few students made nominations."

Honorary degrees have been awarded since 1958. The campus community as well as members of the surrounding community are invited each year to make nominations in the form of a letter.

"The letter must include the name of the nominator as well as the name of the nominee and a brief description of those accomplishments which may qualify the candidate for nomination." Letters should be sent to Greene or dropped off by 4:30 p.m. at the President’s office in College Hall.

The criteria for nominations is: "someone who has achieved a record of major distinction at the state or national level in such areas as education, science, the arts, public service, research, humanities, business or the professions. Under circumstances approved by the Trustees, honorary awards may be awarded to persons who, though they have not achieved national or statewide recognition, have made an especially outstanding and significant contributions to the College or to higher education."

Nominations cannot be members or employees of the Board of Trustees. Members and employees of the Board of Higher Education are also ineligible during the term of their office or employment.

Letters of recommendation are reviewed by a committee, made up of faculty, staff, alumni and a student, who will then make their recommendations to President Reid. The Board of Trustees will make the final decision.

**Dr. Heiss nominated for new national award**

by Anabel Gomez

A 22 year veteran of communications sciences professor of MSC has been nominated for the first "Graduate Faculty Teaching Award" presented by the Northeastern Association of Graduate Schools (NAGS), in the spring of 1993.

Dr. Warren R. Heiss, 54, chairperson of the Department of Communication, Sciences and Disorders is the nominee to represent MSC for this new award.

Heiss, who also sits on the graduate council as chairperson overseeing all graduate curriculum policies, was nominated by Dr. Margaret Mukherjee, director of graduate studies here at Monlcbrion. Heiss said this nomination was "a surprise."

In April of 1993, this award, recognizing excellence and creativity in course and seminar teaching of graduate students by faculty of NAGS institutions, will be given to one of the nominees.

Charles Tarr, dean of the graduate school at the University of Maine and past President of NAGS said this award was started due to the importance of teaching on the graduate level and that "there is no other recognition by any other organization for this achievement."

Tarr added that a winner will be selected from the 20-25 nominees expected to participate in the northeastern area, which extends as far south and west as Maryland and Ohio, and even some Canadian provinces that are part of this region. The winner will receive a certificate in honor of recognition and an all-expense-paid trip to Boston, where the award will be presented at the annual convention.

While Heiss may only speculate as to why he was selected, Mukherjee said, "He has made important contributions to graduate studies on campus." In 1991 he was awarded for his work and received the "Outstanding Faculty Award" given by the alumni.

Mukherjee was chosen, by NAGS, to select a nominee, based on the criteria for the award. She said that his "leadership position, his highly successful record in teaching" and his "role as a graduate academic advisor" helped him meet the criteria.

The graduate directors of schools, which are members of NAGS, were invited to submit one name based on criteria such as "innovation in graduate curriculum development."

This nomination must be accompanied by letters from faculty and students, and by actual evidence to prove the candidate meets the criteria. Mukherjee must also submit a letter of testimony.

Graduate student Jean Lomarrow, 21, who has had Heiss as a professor, says, "Dr. Heiss is well deserving of this award" and hopes "that he will be the winner."
NORML holds first meeting on campus

by Pete Quilla and Joe Garrahah

The newly formed MSC chapter of N.J. National Orga­nization for the Reform of Mari­juana Laws (NORML) held its first on-campus meeting Tues. Nov. 10. The ultimate goal of the organization is the decrimi­nalization of marijuana, said President of the MSC chapter, Dan Lipper.

NORML defined de­criminalization as an effort to remove criminal and civil penal­ties for the private possession of marijuana. Possession would be strictly for adults and if de­criminalization was passed, NORML would support laws aimed towards minors that would resemble the same laws that deal with the sale and distribution of cigarettes and alcohol.

The reasons behind this action are not just for recre­ational purposes. According to an official newsletter that was handed out at the meeting, mari­juana can be very beneficial for aches, stress, depression, nau­sea, anorexia, rheumatism, ar­thritis and according to Rick Leto, a member attending the meeting, "Marijuana is the only thing that will stimulate the ap­petites of victims of AIDS and cancer, people who normally cannot handle food."

The members of NORML also discussed the environmen­tal and industrial uses of hemp, which is a by-product of the marijuana plant (Cannabis hemp) that does not contain THC, the intoxicating substance found in street pot. Hemp is useful because it can be used, and it has been used in the past, for the production of paper, rope and various building supplies.

NORML states hemp is practical because it is a soil building plant that can be har­vested up to three to six times a year. It is beneficial for crop rotation and it needs very little pesticide or fertilization, espe­cially when compared to cotton or corn.

Lipper said, "With the practicality of the hemp field, deforestation would be unnec­essary. Over a 20 year period, one acre of hemp can produce as much paper as 4.1 acres of for­est."

The newsletter also stated that, as a fuel, the methanol out­put of one acre of hemp is much more than that of corn, a cham­pioned source for alternative fuel. Also fabrics made from hemp are said to be warmer, softer, stronger, more absorbant and more durable than cotton.

In fact, according to NORML, the first pair of Levi's jeans were made out of hemp.

"We want peoples'atti­tudes to change. We don't want to be seen as a bunch of pot smoking hippie freaks," said Lipper. He said they hope to do this by holding on-campus ral­lies to demonstrate against all of the current marijuana laws.

Lipper said an example of these laws is civil forfeiture, which allows the local police, along with the state government, to seize a person's home and pos­sessions even before the charge of marijuana possession can be proven. In short, one is guilty until proven innocent.

Anyone who is interested in learning more about the MSC chapter of N.J. NORML is en­couraged to attend the next meet­ing on Tuesday, Nov. 17 at 6:30 p.m. Room 402 in the Student Center. Lipper said anyone's opinion either for or against are encouraged and welcomed.

To the Advisory Committee on Judicial Conduct
Administrative Office of the Courts
CN 037, Trenton, NJ 08625

The undersigned begs you to review the conduct of the judges and defense attorneys in the Glen Ridge rape trial case. This case has been unfairly dragged out over a three-and-one-half year period due to seemingly frivolous delays and motions which occurred during pre-trial hearings.

The undersigned is (are) also upset over the apparent weakening of the Rape Shield Laws.

Rape is an act of violence, not sex. This matter should be thoroughly investigated to protect others in the future.

Criminal Mischief

11/4/92 A female resident of Bohn Hall reported that her car was broken into while parked overnight in lot 26 and that someone attempted to steal her car.

11/5/92 A student’s car, parked in lot 30, was broken into but no theft was reported.

11/5/92 A student’s car, parked in lot 21 overnight, was broken into but no theft was reported.

11/5/92 A nurse in the Health Center discovered that, at the end of her night shift, her car windshield had three small holes in it. It appears that the holes may have been made with BB’s. The damage was done during a bomb threat evacuation.

11/6/92 A female resident of Webster Hall reported that her car while parked overnight, was broken into but nothing was reported stolen.

11/8/92 A student of Bohn Hall reported that his car, while parked overnight, was broken into on Nov. 6. No theft was reported.

11/8/92 A female student reported that her car was broken into while parked in lot 28 for six hours during the day. No theft was reported.

Theft

11/4/92 A member of the faculty reported numerous books and photographs regarding the Middle East and Iran were stolen from a conference room in Russ Hall.

11/5/92 A male resident of Stone Hall reported that his car, which was parked overnight in lot 21, was broken into and a car stereo was taken.

11/6/92 A male student reported that his locker in Panzer Gym was broken into and his wallet was stolen during football practice on 11/4/92.

Burglary/Theft

11/8/92 A male resident of Bohn Hall reported that his room was broken into via the window and that his stereo, CD, and watch were taken.

11/9/2 A student found a window open in the Fine Arts building which allowed access to computer equipment which was stolen from the building.

11/10/92 An employee of Alden Food Services, Company, arrived to work in Blanton Hall and discovered that the safe had been stolen from the office. Entry into the office had been made through the ceiling/crawl space in the men’s room in the lobby of Blanton. The investigation is continuing.

11/10/92 The intrusion alarm sounded in the Student Center Bookstore. Responding officers found that entry into the store was made through the drop ceiling. The intruders activated the motion detector once they were in the store. The investigation is continuing.

Theft from MV

11/5/92 A male resident of Bohn Hall reported that his car, while parked in lot 23 over several days, was broken into and that his car stereo was stolen.

11/5/92 A male resident of Blanton Hall reported that his car, while parked overnight in lot 24, was broken into and the stereo was stolen.

11/6/92 A male resident of Bohn Hall reported that his car, which had been parked over several days, was broken into and the stereo was stolen.

11/7/92 A male student of Freeman Hall reported that his car, while parked over several days in lot 21, had been broken into and that his car stereo had been stolen.

11/9/92 A male student reported 23 over several days, while parked in lot 20, was broken into and that his stereo had been stolen.

Theft of MV

11/8/92 A female resident of Freeman Hall reported that her car was stolen while parked in lot 21 over a week’s time.

Disorderly Conduct

11/4/92 Two female residents of Blanton Hall reported that four males, two students and two visitors, in fatigue forced their way into the females’ rooms and demanded that their table cloth be returned. Both victims were very frightened by the males’ actions and reported it to Residence Life. Shelley Jackson, director, handled the matter in house. The incident actually occurred on 10/23/92.

Terroristic Threats

11/5/92 A bomb threat was received by the Executive Guard in Blanton Hall. The building was evacuated and the residents were allowed to return 35 minutes later.

Harrassment

11/8/92 A female employee reported that she received a harassing phone call at her home. She learned that the call originated from a pay phone in the maintenance building where she has several acquaintances. Her car had been targeted back in September but she does not want to contribute any helpful details.

Property Damage

11/5/92 A female student’s car was damaged when she attempted to enter lot 17 without authorization. She had followed another car into the lot when the gate arm came down on her car.

Medical

11/5/92 The Health Center

against the juvenile involved and a former MSC student for burglary, theft, receiving stolen property, conspiracy and criminal mischief.

11/5/92 Essex County Assistant Prosecutor reported that the vehicle stolen on campus on 10/92 was recovered when Essex County Police pursued the vehicle which had run down a DWI stop in Branchbrook Park that night. Three juveniles were arrested along with one adult. None of the arrested juveniles were from MSC.

Aggravated Assault

11/2/92 The female student involved in the assault at the library came to Police Headquarters to give a statement. She claims that the male victim had been harassing her and that her boyfriend, a William Patterson student, came to MSC to protect her. She is considering charging the male victim with harassment. The suspected William Patterson student came to police headquarters but refused to give a statement. A warrant for the male’s arrest was issued.

Follow up investigations:

Burglary/Theft from MV

10/16/92 A male resident of Bohn Hall was able to identify his car stereo at the Montclair Police Department.

Complaints were completed

Theft of MV

11/8/92 A male resident of Blanton Hall reported that his car, while parked in lot 9, was broken into.

11/9/92 A male student reported that his car, while parked in lot 20, was broken into and that his stereo had been stolen.

11/10/92 A female resident of Freeman Hall reported that her car was stolen while parked in lot 21 over a week’s time.

Disorderly Conduct

11/4/92 Two female residents of Blanton Hall reported that four males, two students and two visitors, in fatigue forced their way into the females’ rooms and demanded that their table cloth be returned. Both victims were very frightened by the males’ actions and reported it to Residence Life. Shelley Jackson, director, handled the matter in house. The incident actually occurred on 10/23/92.

11/5/92 The Health Center

The External Affairs committee wants to push for a new ATM machine that accepts deposits and a money order machine.

During Open Forum, it was brought up that the SGA’s elections have no correlation between the number of people voting and the number of days to vote. It was said that a voting period of one or two days should be established.

Problems concerning the ACUS phone bills were brought to the attention of the legislature. The administration set up the new contract with the phone company that did away with the standard $7 service charge covering all local calls. Residents are now being charged for each local call along with long distance calls.

The process of billing itself was also put into question since some students are being charged for calls that they did not make.

The bill is processed 10 days before students receive their bills which means that they only have 10 days to pay it.

The SGA called for a petition for MSC to change their contract with AT&T.

One legislator brought up the problem with the usage of social security numbers as student identification numbers. It seems that someone took the legislator’s social security number and used it to get a credit card.

It was also brought up that faculty and staff do not use their social security numbers for ID numbers.

It was also brought up that faculty and staff do not use their social security numbers for ID numbers.

It was also brought up that faculty and staff do not use their social security numbers for ID numbers.

Rutgers University, another state school, doesn’t use social security numbers as ID numbers and it was suggested that the SGA push the administration to change the policy.

In other SGA news:

The Accounting Society has been made a Class II organization, and the bill to make the representative of Greek life an honorary member of the judiciary committee when Greek items come up was also passed.

There was a bill to freeze SILC’s budget due to lack of organization which went to appropriations and there was an emergency legislation to make every member of the SGA help out the Ad-Hoc committee in its drive to bring back alcohol to die Ratt which was currently wired shut. He is charging the victim with aggravated assault. Complainants were completed on 11/5/92.

11/5/92 A resident of Clove Road apartments signed an aggravated assault charge against a William Patterson student. He was arraigned by Judge Fennega, Clifton Court, and the next hearing is scheduled for 11/25/92.

A celebration of African culture

by Paul Sahar and Karen Lee Stradford

The Organization of Students for African Unity (OSAU) presented the Twenty-fourth Anniversary of African Unity (OSAU) and how he is thought to be a hero by some factions of society, while others perceive him as a tyrant by others.

Student Paralegal Association donates book for research

Students outside the classroom. This collaboration of social contact and classroom training is the foundation for a successful and rewarding career as a paralegal.

John Henrik Clarke discussed "Christopher Columbus: The Columbus Factor in History." He talked about how Columbus was perceived as a hero by some factions of society and how he is thought of as a tyrant by others. "Christopher Columbus was a hero who wasn't a hero at all," Clarke said. He said that to many people Columbus’ arrival is thought of as a monumental discovery and he deserves all the praise he has received. "The Columbus era laid the basis for the domination of people with ships and guns over people without ships and guns," he said. Clarke went on to say that Native Americans who were here well before Columbus arrived were pulled up and given the misnomer of "Indians." He said, "In the celebration of 500 years, we are celebrating mass dislocation, racism, homelessness and a lie, because Christopher Columbus discovered absolutely nothing." Clarke emphasized the fact that the differences in the contrasting perceptions of Columbus depended on the experiences of the people. "Look at our own accomplishments and discover ourselves to help us heal," he said. "After all these years of suffering, we have learned a lesson, so we need to start teaching the lesson - to come together."

The next guest speaker was Don Miller, an artist who described his African paintings with the theme "Painting The African Pageant." The paintings were displayed in the Memorial Auditorium. He discussed how the paintings reflect upon and showcase the various motifs of African ethnic groups. "Look at our own accomplishments and discover ourselves to help us heal," he said. "After all these years of suffering, we have learned a lesson, so we need to start teaching the lesson - to come together."

The African Dance Troupe performs for the audience.

Anyone attending definitely felt a powerful aura of unity and understanding from this energetic forum of awareness, dance, song and food.

The program began with guest speaker Dr. John Henrik Clarke discussing "The Columbus Factor in History." He talked about how Columbus was perceived as a hero by some factions of society and how he is thought of as a tyrant by others. "Christopher Columbus was a hero who wasn't a hero at all," Clarke said. He said that to many people Columbus' arrival is thought of as a monumental discovery and he deserves all the praise he has received. "The Columbus era laid the basis for the domination of people with ships and guns over people without ships and guns," he said. Clarke went on to say that Native Americans who were here well before Columbus arrived were pulled up and given the misnomer of "Indians." He said, "In the celebration of 500 years, we are celebrating mass dislocation, racism, homelessness and a lie, because Christopher Columbus discovered absolutely nothing." Clarke emphasized the fact that the differences in the contrasting perceptions of Columbus depended on the experiences of the people. "Look at our own accomplishments and discover ourselves to help us heal," he said. "After all these years of suffering, we have learned a lesson, so we need to start teaching the lesson - to come together."

The next guest speaker was Don Miller, an artist who described his African paintings with the theme "Painting The African Pageant." The paintings were displayed in the Memorial Auditorium. He discussed how the paintings reflect upon and showcase the various motifs of African ethnic groups. "Look at our own accomplishments and discover ourselves to help us heal," he said. "After all these years of suffering, we have learned a lesson, so we need to start teaching the lesson - to come together."

The African Dance Troupe performs for the audience.

Any student attending definitely felt a powerful aura of unity and understanding from this energetic forum of awareness, dance, song and food.

Sigma Phi Rho shares Harvest Ball festivities with youths

by Edward White

Sigma Phi Rho Fraternity Inc. decided to incorporate their community service project with educational and cultural awareness on November 8. Wesley Peters, a member of Sigma Phi Rho Fraternity and a staff member of Youth Consultation Services (YCS) located in Newark, NJ, brought youths to the Harvest Ball festivity sponsored by O.S.A.U. The ball was held in the Student Center ballrooms. Other Sigma Phi Rho brothers were of assistance. The children's ages ranged from nine to 13. They hand clapping participation with the Gospel Ensemble. With the success of this outing Sigma Phi Rho Fraternity is looking forward to doing future activities with YCS.

Co-op fair held to provide job experiences for students

by Beverly Verwers

Fliers, balloons, prizes and an exciting array of area employers were all part of the 1992 Co-op Employer Fair held on Thursday, November 5. The purpose of the Co-op Employment Fair is to provide MSC students the opportunity to meet face-to-face with people in business, social service and education who work hard to make these Co-op jobs possible for students. Co-op employers, former Co-op students and co-op faculty shared their enthusiastic message about Cooperative Education work experience with an attentive audience of some 400 MSC students. The main message was that the key word with employers in this competitive job market is 'experience' and one way to get relevant work experience before you graduate is Co-op.
References for grad school and the job hunt

Whether applying to graduate school or seeking work after graduation, you will need people who can serve as references about you and your skills. Being aware of this early in your education is very practical as undergraduates typically need three people who can act as references. Do you ask and what should they say?

The best references are people who can describe your ability to do the "job" whether the job is a sales position at ADP or graduate level work in a Comparative Literature program. For example, if you are looking for a sales job, it would be sensible to use employers who can indicate your skills related to sales. They can describe your assertiveness and your ability to be a self-starter who can work independently. You might ask faculty who can describe your knowledge of marketing and it handles you.

If you are looking for a job and you've got no related work experience or your major has nothing to do with your career goal, past or current employers can still be effective references. They can tell a potential employer of your excellent work record, your reliability, your commitment to continued growth and learning and other qualities that all employers value.

When do I need a letter?

If you are asking people to be your references because you are job hunting, it no longer is necessary that they write letters for you. (You might have to write them yourself.) Employers today are more likely to want to speak on the phone with the people you have named, so have a list ready that includes your references' names, titles, employers and business or daytime phone numbers. The exception to this rule: employers in higher education who want letters of recommendation.

If you are seeking references for graduate work, they will need to be written recommendations. Your references should be faculty who know your work well and can describe your strong interest in the degree area you are pursuing, your ability to write well, think critically and perform research — all skills needed for graduate work. Getting to know faculty in your major is very important, so that they know you and your work well enough to write a good reference letter. If you have been out of school for a while before you apply to graduate school, ask employers who know your skills relative to the degree you are seeking, to write your letters.

What is the appropriate format for a letter of recommendation?

Letters should be written on the writer's business letterhead. They are typically addressed to "To whom it may concern," unless you want letters of recommendation. If you are seeking references for graduate work, your references will need to write specific letters each time a letter is needed. That's a great deal of work for letter writers and is usually unnecessary. Graduate schools may enclose a form with your application materials that is to be completed in a place of a letter.

When do I use my references?

Provide potential employers with your list of references only when asked for it. References are generally required only after you have had several interviews for a position and an organization is considering you seriously. Graduate school recommendation letters are usually enclosed with your application. Request your recommendation letters written for positions with colleges and universities.

Be certain to keep the originals of all letters and send only high quality copies. Be aware that some graduate programs ask faculty to send their recommendation letters directly to the program to which you are applying. A last, but very important thought because employers prefer speaking with your references on the phone, be certain that you have asked your references for permission to have employers call them. Nothing is more dangerous to a job applicant than naming people as references without first asking them if they can provide solid, positive information.

LASO attends seventh annual leadership symposium

by Maria da Silva and Ivel Bandirma

The Hispanic Association for Higher Education (HA.H.E.) held its Seventh Annual Student Leadership Symposium on Saturday, November 7. This year's conference was hosted by the Association of Latin American Students of Kean College. The theme this year was "Latino 2000: The New Voice of America."

The conference began at 8:30 Saturday morning, with registration and continental breakfast. Approximately 200 students, from various colleges throughout New Jersey, were present. The students represented different Hispanic organizations from different schools. Each student had the opportunity to introduce himself/herself to the entire group. There were several organizations present from Montclair State College, including the Latin American Student Organization (LASO) and EOP/SAB. Montclair held the highest attendance of all participating schools.

After the introductions and welcoming remarks the students had a choice of several workshops to attend. Topics ranged from issues specifically concerning Latin Americans to tips on successful interviews and resumes. Sandra Garcia, the president of LASO, conducted a stress workshop titled "Handling Stress Before It Handles You."

Afterwards, the hungry college students lined up to fill their stomachs. Before lunch was over, a wonderful thing happened: the Keynote Address! Sound exciting? Well, guess what? Ms. Maria Vizcarandento de Soito, executive director for the Center for Hispanic Policy, Research and Development of the New Jersey Department of Community Affairs, delivered a powerful speech which won her a standing ovation. She spoke about leadership, determination and the importance of a mentor. The effectiveness of Vizcarandonto's address gave the students a sense of pride and motivation.

After lunch, the students attended another one of five workshops. One of the workshops was presented by students. "Expanding Your Horizons Beyond the Latino Organizations" was conducted by four students from three different colleges. One of these students was Francisco Dauder, LASO's assistant to the president.

The day ended with a reception and a performance by "Latinismo." LASO's dance troop. The dancers were very enthusiastic, intriguing the audience by pulling people out onto the floor to dance salsa and merenge.

Overall, the conference was a great experience. The activities were very motivating, emphasizing student involvement and leadership. It was evident that with a little direction and a lot of hard work and dedication, we can all be leaders, and we can all make a difference.

ALL AROUND CAMPUS
by Richard T. Green

Do you feel safe walking alone on campus at night?

by Richard T. Green

No, because there's not proper lighting and there should be more footpatrols on campus. Since the recent episodes of violence against women, I try to be more cautious.

Sharon Bunten
Early Childhood, Junior

No, because there isn't enough lighting and the emergency phones are too scattered around.

Evelyn Osorio
Sociology, Junior

No, the campus is not properly lit, especially around the construction areas. There is no security on campus patrolling the area. When they're on duty, they're hesitant to pick you up after hours.

Kimberly Davis
Business, Senior

No, because I take a lot of night classes and walking from Freeman in dimly lit areas to the other end of campus makes me feel unsafe. I'm almost tempted not to go to class.

Crystal Hathcock
Psychology, Senior

The Greek Weekly

Social

11/12 TKE, Delta Xi Delta and Sigma Tau Nu will be having a three-way mixer.

11/12 Zeta Beta Tau and Sigma Sigma Sigma Mixer.

11/12 Sigma Tau Nu, Tau Kappa Epsilon, Delta Xi Delta mixer.

11/12 Delta Kappa Psi - Greeks only party. Wear letters or colors.

11/12 Theta Kappa Chi will be having a mixer with Iota Kappa Phi from NJIT.

11/12 Delta Phi Epsilon and Senate mixer.

11/13 Phi Sigma Sigma formal

11/13 Alpha Omega formal

11/14 Delta Chi and Sigma Sigma Sigma Montclair/Glassboro mixer

11/15 Delta Xi Delta Mother/Daughter Brunch.

11/17 Delta Phi Epsilon will be having a self-defense seminar.

11/17 TKE and Sigma Delta Phi mixer.

11/20 Sigma Delta Phi semi-formal.

11/19 Zeta Beta Tau and AIX mixer.

11/22 Sigma Sigma Sigma sisterhood ice skating.

11/24 Delta Phi Epsilon and Delta Kappa Psi turkey dinner.

Fundraising

Delta Xi Delta will be having a bake sale on Tuesday, Nov. 17, in Partridge Hall from 9 a.m. to 4 p.m.

AXP is selling raffle tickets for a chance to win a Sega Genesis.

Theta Kappa Chi is selling Christmas novelty items.

Rent a Tri Sigma contest for week of 11/9.

Phi Mu Alpha Sinfonia holds a weekly bagel sale in McEachem Music building every Thursday morning. Proceeds will help to fund the Benjamin F. Wilkes Music Scholarship, to be awarded to an eligible male music student.

Sigma Delta Phi is still selling M&M's for $1 per box.

Delta Epsilon Chi is selling Absolut Montclair shirts for $10.

Delta Epsilon Chi is having its annual Flea Market on Tuesday, Nov. 24, from 9 a.m. to 3 p.m. in the ballrooms. Great early Christmas shopping.

 Theta Xi is selling coupon books, save hundreds for only $10. Contact a brother for details.

Alpha Omega is selling M&M's, plain and peanut for $1 a box.

Philanthropy

AXP and Delta Phi Epsilon are going to a day care center to help build a fence for it.

Sigma Phi Rho brought kids of YCS in Newark to the Harvest Ball of MSC.

U.G.C successfully completed their first community service project under the new executive board. They went to the Harmony House in Newark, a shelter for homeless families.

Delta Phi Epsilon will be holding a food drive beginning on 11/12 for homeless families.

If you're trying to get an apartment, but the landlord needs references, Chase will be happy to write a credit reference letter on your behalf. And that's just one of the unique ways we can make your life a little easier at school.

That's because as a Chase cardmember you'll receive Chase Student Services™ — an entire group of special benefits created just for students.

For example, when you take off during Winter and Spring Break, Chase Student Travel will take off with you. In fact, you'll get 5% off the lowest prices you find on airfares, train tickets, car rentals and even hotels.

And when you're back at school spending time on the phone, you don't have to spend a lot of money. Just sign up for ChasePhone™ at no extra charge, and you can use your Chase card to make long distance calls at MCI®'s low rates.

Best of all, these and many other benefits come to you with no annual fee for the first year.

So pick up an application on campus and apply for your Chase card today. No other card says so much.
EDITORIAL

NORML, the National Organization for the Reform of Marijuana Laws, has formed a campus chapter under the direction of sophomore Daniel Lipper. NORML supports the decriminalization of marijuana; whereby, criminal and civil penalties regarding private possession by adults would be eliminated and laws would be structured, similar to those regarding the sale of alcohol, that would prohibit minors from obtaining marijuana.

In addition, NORML advocates the use of the marijuana plant by-product, hemp, for environmental, medicinal, and industrial purposes. According to NORML, over a 20 year period, one acre of hemp can produce as much paper as 4.1 acres of forest and hemp provides an excellent source of the alternative fuel, methanol. Medically, they claim that marijuana is quite successful in treating glaucoma and migraine headaches and has been very successful in stimulating the appetites of AIDS and cancer patients. Industrially, cannabis hemp can be used to produce food and fiber textiles.

We, at The Montclarion, wholeheartedly support the legalization of marijuana based on environmental and medicinal purposes. We feel the advantages of a slower deforestation rate and less air pollution that would result if hemp was used in more paper products and as an alternative fuel source, outweigh the danger of making this presently illegal drug legal for these circumstances.

We also agree with NORML that the archaic laws that presently dictate the punishment of those people who are found in possession of marijuana must be changed. We do not condone any laws that are in violation with our rights as American citizens to remain innocent until proven guilty. According to Lipper, our current marijuana law allows local police and state government to seize a person’s home and private property prior to conviction on a marijuana possession. Whatever happened to “innocent until proven guilty in this country?”

However, The Montclarion does not support the legalization of marijuana for recreational use. We feel that by legalizing hemp the door is open to granting other drugs, such as cocaine and crack, similar legal status.

On the contrary, we feel that stricter enforcement of interdiction policies and continued stiff penalties for drug lords form a viable response towards curbing the oftentimes blatant disregard of existing policy. We further challenge our government to mount an earnest counter-offensive against those aforementioned drug lords. Rather than continue their high-profile, yet, unfulfilling campaigns which besides making a good public relations story leave the problem unresolved, we appeal to our new administration in Washington to put a real plan into action.

The problems our nation faces are directly related to this issue. Conditions in our inner cities will never be ameliorated unless drugs are eradicated. The government’s inability to do so has fueled a sense that drugs should in fact be legalized so as to relieve the inner cities of crime often associated with the drug trade. It is here we must take great caution. On this basis, a group such as NORML can, for all the wrong reasons, be used to represent a solution that we feel will only cause new problems.

Once again, we believe using marijuana for environmental purposes offers many viable, though non-traditional, sources for eliminating many problems that currently threaten the well-being of our entire environmental system. We are also compelled to support the use of marijuana for medical purposes with a doctor’s supervision. It would be inhuman to deny assistance to those who can benefit from it’s pain-killing and appetite-stimulating benefits when it is so abundantly available in our communities for recreational purposes.

It now becomes the responsibility of the newly-elected Clinton Administration to find solutions that will put an end to the illegal drug trade and the violent crimes that are inherently related to this trade. The Reagan/Bush “War on Drugs” has proved fruitless in this task and we now expect to see the “Clinton Changes” we have been promised during the recent presidential campaign.

“...in the celebration of 500 years, we are celebrating mass dislocation, racism, homelessness, and a lie...Dr. John Henrik Clarke, p. 7.”

Quote of the Week
Security leads to blindness

Oh God, here we go again. A whole weekend has gone by and I haven't managed to become opinionated about anything. I must be turning into my mother.

Actually, there was one little thing that bothered me this weekend. A woman wrote a letter to the Morristown Daily Record about the evils of Halloween. To sum up her position, she said that Halloween shouldn't be celebrated by good Christians because it was an ancient Druid festival of sacrifice. According to her, Druid priests went from door to door on what she calls "Samhain" looking for young virgins to sacrifice to Satan. If someone wouldn't give up their daughter as a sacrifice, then their house was marked with a Star of David for the Angel of Death.

After reading this, I didn't know whether to laugh or cry. Wait! Reality check! How many people reading this think she's right? If you did, I feel sorry for you. I can only imagine that her source for this kind of nonsense would have to be something like "Oral Roberts' Guide to World Religions Past and Present" or maybe just those annoying pamphlets the Jehovah's Witnesses stick under your door.

No, I'm not going to spend this article informing you about what the Druids really did and what Samhain (not "Samheim") is really about. My point of irritation this week is ignorance. When I had Dr. McCollum for my Women's World class, she would always say, "Did you find out for yourself or did somebody tell you?" It's amazing how many people accept hearsay without question. I remember talking one evening with a friend and her fiancé. Somehow we got onto the topic of homosexuality. He insisted that homosexuality was unnatural and wrong. When I asked him how he reached that opinion, he merely shrugged and said, "I don't know. That's what my mom told me." Christina Tisch is right; we are nothing but a bunch of sheep.

Listen people, I know the real world sucks badly, but why does everyone insist on pretending it doesn't exist? Why doesn't anybody question anything? Yes, I realize that there are some things we prefer not to question. Maybe there are some things that just aren't important enough to warrant our attention. In fact, it is always better not to question things that aren't any of our business. But some people never question anything! I could tell them that the Declaration of Independence is a type of fish, and they'd say, "Wow, I never knew that."

Maybe the answer is security. It's a lot easier for people to have guidelines for themselves and then never deviate from those guidelines. Wouldn't that make life simple? And isn't that the purpose of organized religion, after all? It's supposed to have all the answers, to create a straight and clear path through life for its followers and guarantee a comforatable existence after death. In return, its followers don't critically question what it does. So, if you have security, why bother to question?

The problem is that this type of security is illusory. Anyone who has questioned a priest or minister about Christian doctrine will understand. Asking questions is to enter into Satan. Why? Because deep down inside these people don't know why they believe this stuff. Faith like this is not built on a solid foundation, but rather on hearsay. Anyone who might knock over this house of cards will be viciously attacked by the person who built it. People want to believe that there is simple answers and set guidelines in a world that is highly complex, always changing and with no absolutes. They are mislead, and they know they are mislead, but they refuse to believe it. Wake up and smell the coffee. There are no set rules about how to live your life. Stop walking around in a daze and think! Stretch that brain of yours! I'll bet it hasn't had any exercise in a long time.
Tea, armbands and the First Amendment

Hey, Norm, look for me in the Arts and Entertainment Section also!

The above sentence was an aside. An aside is a pseudo-legalism that Americans have is two legislated exceptions to the Constitution. The states' struggle for independence and the British effigies, both played a key organizational role during the struggle for independence. One of the fundamental freedoms that the patriots found paramount was the freedom of expression. Today, the most frequently invoked freedom that Americans have is the right to free speech. Here are two legislated exceptions to absolute free speech.

First, when a person's remarks are clear and present danger to the peace of public order, they can be constitutionally curtailed. "The question in every case is whether the words are used in such circumstances and are of such a nature as to create a clear and present danger that they will bring about the substantive evil that Congress has a right to prevent. It is a question of proximity and degree." Schenk v. United States, 249 U.S. 47 (1919).

Second, if a person's remarks are indistinguishable from an incitement to a crime. "In essence, the question in every case is the same: was there a statement of fact or of an opinion, of and concerning the plaintiff; (b) publication of the statement; (c) causing; (d) damages or harm to the plaintiff's reputation. As slander is oral defamation, libel is defamation in writing. As with slander, the wrongdoing of libel is actionable only if the defamatory statements are observed by a third party. Not all expression is in words or in writing. Gestures, movements, articles of clothing and so on may, under certain circumstances, be seen to constitute symbolic or nonverbal speech. Today, such speech is given substantial protection by the courts. During the Vietnam War, when students began wearing black armbands in symbolic dissent, a Des Moines, Iowa, administrator issued a regulation prohibiting students in the Des Moines School District from wearing them. The United States Supreme Court ruled that the overzealous and overreaching ban violated the free speech clause of the First Amendment. It reasoned that the school district was unable to show that the wearing of the black armbands had disrupted normal school activities. Furthermore, the school's arbitrary ruling was discriminatory as it singled out certain forms of symbolic speech for banning. For instance, symbolic expression of a person's affiliation, but were not subsequently banned. Tinker v. Des Moines School District, 393 U.S. (1969).

Clearly symbolic speech is protected in America. Sinead O'Conner was in America when she symbolically tore a photograph (for further edification see the graven image section of the Old Testament) of the Pope to shreds. Therefore, her symbolic act was protected by the United States Constitution. So what's the hubbub? It has to do with paper instead of wood pulp and requires far less chemicals. Hemp paper lasts much longer than wood paper and hemp grows much more easily and quickly than trees do. Over a 20 year period, one acre of hemp can produce as much paper as 4.1 acres of forest. The biomass fuel (methanol) output per acre of the hemp plant is many times that of corn... the current major source of methanol. The hemp plant has many other uses such as food, fiber textiles, medicine, etc.

The point is, the legalization of hemp is an important environmental issue and I'm starting a club on campus that will further support the effort to save our environment. I'm not starting this organization for the purpose of having bong hit competitions during meetings, I take this issue seriously. I hope that there is a plethora of students that will support me. It would be greatly appreciated by me and by the earth. Daniel Lipper Sophomore Chemistry

LETTER

Glen Ridge rape trial needs student attention

You may not know me, but that is a small issue, I'd like to introduce you to issues of larger importance. If you're otherwise unaware of the proceedings of the Glen Ridge rape trial, I would like to inform you on the basis of our mutual concern and to stir up an effort against injustice to action.

Close to three and a half years ago, a terrible incident occurred in the neighboring town of Glen Ridge. A young woman was led to a friend's basement and acts were allegedly committed which changed an otherwise normal encounter. Allegedly, with the group's urging, this young woman was coerced to perform various sex acts..."
Diseases. They were almost sued hearing for years: hard-hitting, they've finally made a name for the next Simple Minds. And now a band called Venereal and the start at fee beginning...

**From soup to nuts**

**by Chris Miguel**

**Being a DJ at WMSC has been exciting. Our last gig in England, we played to 30,000 people.** So coming from that kind of success, to being pigeon-holed, the small clubs are a bit shocking but it’s also very exciting.

C. Does it ever get you down?

S: Occasionally when you turn up to a place in the middle of nowhere, like on this tour, you know, “What the f— are we doing here?” but mostly... I mean, we like all Americans, so we enjoy being out of America. But this is a long tour and it’s difficult sometimes to keep you head together. But all bands suffer from that... travelling around in our Delance Coach (laughter). It’s a weird one, really. But we’ve had a very favourable reaction here, especially on the Neil Young tour. Before we started playing with the Soup Dragons, we opened up for Neil Young for 12 gigs, and we were playing acoustically. Tonight we decided to do it electric, ‘cos the stage was big enough. I mean, that’s one of the problems with four bands on the bill; there’s not much room on the stage. We’ve found a simple way of playing, which is actually very powerful and really exciting ‘cos it keeps us going... it feels like we change direction, which is nice.

C: How did you like the crowd tonight?

S: Nice. Not huge, but very receptive. And also, we did a very strange set for them tonight.

C: How so?

S: Well, we played a few weird songs, starting off with “Stutter” and then playing “Last Waltz,” which we’ve played twice in the last 12 years.

---

**The members of James**

S: Well, we’re having to deal with the fact that we’re not very successful in America. Very few people know of us. So, that’s a bit of a shock, although it’s quite exciting. Our last gig in England, we played to 30,000 people.

C: How can you describe the music then?

S: I can’t. I mean... our music is edgy, I haven’t gotten groove... like the Happy Mondays. We’re not a dance band necessarily, although we do make people dance.

C: Who writes the songs?

S: All of us do. We do that by just getting in a room and playing... going for it, and seeing what happens.

C: Are there any specific messages you put in the songs?

S: Well, I suppose inevitably in any form of art or entertainment, depending on what you think it has to be, there has to be a message or some description. There has to be something you’re saying. I don’t quite know what that is. I mean... we’re all fairly politically motivated people, but we have only about one or two out of 70 songs which are... specifically political messages.

C: Could you name them?

S: Well, “Promised Land,” “Government Walls,” “I suppose. It’s never that overt. Tim (Booth, lead singer) writes all the lyrics... so I know what he’s thinking half the time. I think he’s obsessed by God. C. Is he a really religious man?

S: No, none of us are religious, but we all... have a leaning towards at least thinking about spirituality or God, what the world’s all about. Everybody does. We’re no different than anybody else. We just happen to play music and write songs about it.

C: Where were you born?

S: Liverpool. I’ve inherited up in Scotland for most of my life. I ended up in Manchester, went to the university there, and then ended up meeting these guys.

C: America really didn’t name James until the single “Sit Down.” How do you deal with that?

S: We’re not being pigeon-holed with the fact we’re not very successful in America. Very few people know of us. So, that’s a bit of a shock, although it’s quite exciting. Our last gig in England, we played to 30,000 people.

**A closer look at James and the Soup Dragons**

**by Sandra Cammerit**

**A closer look at James and the Soup Dragons**

**Hailing from Manchester, a town known for producing England’s hottest alternative music, the six-man band known as James has been making music for years, although they’ve not received the kind of attention they’ve been seeking.** And now they’ve finally made a name for themselves. And that name is James. (Who?)

Hailing from Manchester, a town known for producing England’s hottest alternative music, the six-man band known as James has been making music for years, although they’ve not received the kind of attention they’ve been seeking. And now they’ve finally made a name for themselves. And that name is James. (Who?)

*...and the band start out?*

C: Were you part of the original James?

S: Well... the band is based with different people.

S: All of us do. We do that by just getting in a room and playing... going for it, and seeing what happens.

C: Are there any specific messages you put in the songs?

S: Well, I suppose inevitably in any form of art or entertainment, depending on what you think it has to be, there has to be a message or some description. There has to be something you’re saying. by Mark Loughlin

With the release of Bram Stoker’s Dracula, Hollywood has officially announced the beginning of its holiday season. They’re calling the Christmas movies, even though it is not yet Thanksgiving and they will continue well after New Year’s. It is the time when the studios say, “Hey look at us, we don’t just make superficial crap, we can make good movies too!” While the end of the year was once the sole domain of the Oscar contenders, it is now also a time when much needed dollars can be earned by all. In a few instances, a studio will get a lucrative, critically acclaimed film, like Dances With Wolves. This year’s crop gives us quite a mixed bag with enough diversity for everyone, assuming of course that they are all good movies. The following films all have good advanced notices, compliments of the studios that are releasing them.

ALADIN (Nov. 11): Here is the Disney studio again proving they are the kings of animation. Robin Williams gives the voice to the genie, and he’s supposed to be great. But what’s the moral? “Be on the lookout for magic lamps?” But then again, that’s picking. Music is once again by Alan Menken with some lyrics by the late Howard Ashman. Tim Rice (Phantom of the Opera) supplies the rest.

THE BODYGUARD (Nov. 25): Kevin Costner guards the body of pop star Whitney Houston. Lawrence Kasdan originally wrote this script in the seventies for Steve McQueen. But what was Left for Whitney’s part, Donna Summer? Don’t forget a negligent accident on this film earlier in the year resulted in the death of a crew member. I hope it’s good.

CHAPLIN (Dec. 25): Rob Downey Jr. stars as the silent comedian with Richard Attenborough (Gandhi) directing. Diane Lane plays Paulette Goddard and Geraldine Chaplin plays her own grandmother. Other stars include Dan Akroyd, Kevin Kline and Anthony Hopkins. Don’t expect this one to go through the roof, but it should be interesting.

THE DISTINGUISHED GENTLEMAN (Dec. 4): Eddie Murphy is running... for Congress! “Nuff said. Actually, he’s a con man who runs for Congress for the big money they make in payoffs, but guess what happens? He gets a conscience. The preview trailers on this were very funny, but it was a rushed production, finishing principal photography at the end of the summer. It’s directed by Johnathan Lynn, who scored earlier this year with My Cousin Vinny. A FEW GOOD MEN (Dec. 30): Nick Nolte and Susan Sarandon play parents of a boy with a supposedly incurable disease. So what do they do? Find the cure themselves. Amazingly, it’s based on a true story in Maryland. George Miller, the talented Australian director of the Mad Max films and a former doctor himself, takes the reins.

MALCOLM X (Nov. 18): Get ready America, it’s 31/2 hours! Spike predicted that this film would gross $100 million domestically. It better, he has to pay back Oprah Winfrey and Bill Cosby. It will probably be the equivalent of last year’s JFK. Does Spike portray the man properly? We’ll find out.

THE MUPPET CHRISTMAS CAROL (Dec. 11): It’s as funny and entertaining as the last three Muppet films, then it should be great. But don’t forget the MVP, the late Jim Henson, was not involved. Can the new Kermit take his place? Michael Caine plays Scrooge.

TOYS (Dec. 18): Robin Williams plays a weird toymaker who must save his late father’s toy factory from an evil uncle. Co-starring Williams is LL Cool J. Barry Levinson (Rain Man) directs from a script he wrote 12 years ago with ex-wife Valerie Curtin.

Looking for skilled writers to do club and band reviews. 893-5169

NUTS

P: Oh yeah, without a shadow of a doubt, y’know.

R: You think so?

P: Yes.

R: Better than New Yorkers?

P: The fans are more laid back.

R: More laid back.

P: San Francisco is nice. How are the fans there?

R: The fans are wonderful.

P: Better than New Yorkers?

R: You think so?

P: Yeah.

R: Personal note: Never let Rose do any more interviews ever again.

P: I’m a real rock ‘n’ roll singer. I like to drink tea (laughter) and sleep.

R: You’re just a party animal.

P: Oh, definitely.

R: On touring in America...

P: Have you been anywhere in particular that you like?

P: In America? Oh, I like San Francisco.

R: San Francisco is nice. How are the fans there?

P: The fans are wonderful.

R: Better than New Yorkers?

P: More laid back.

R: San Franciscans?

The Soup Dragons

P: No.

R: New Yorkers?

P: Yeah.

R: Really?

P: Yeah.

R: You think so?

P: Yeah.

R: (Personal note: Never let Rose do any more interviews ever again.)

The interview was drawing to a close, so we asked Paul some questions, like groupie stories, his wife (who was sleeping next to him while he was on the phone), and Public Enemy: “They’re very energetic. They’re probably one of the only rock bands that can actually put on a show... in a live situation.”

And if you caught their show last Monday night, you know that The Soup Dragons can, too.
Welcome, loyal readers, to another stunning installment of PROPHET BIGG. As always, I encourage you to drop me a line at The Montclarion office in the Student Center Annex on any topic in the entertainment industry or any previous Prophet Bigg installment. Listen folks, I'm going to address a letter I received from a gentleman (I assume) by the name of Charles T. Burnham, who is an English Major. I would print the entire letter, IF I COULD READ IT! If you're gonna write me, at least make it SOMEWHAT legible. As to what I could make out, yes I reported that the novel Jurassic Park was being made into a film after it started filming. BIG DEAL! As to the cast, Mr. Know-it-all, it was changed just prior to the beginning of filming. Mr. Burnham also informs me of my "journalistic prowess by misspell­ ing" Tracey Ullman's name after it was in the title of her show for three years.

Notwithstanding the previous, it's always a great experience when you have the chance (and the money!) to see a Broadway show, or at least some live theater that isn't spirit, we have a few items...

- Just recently saw My FAVORITE Year at Lincoln Center's Vivian Beaumont Theatre. It was only the fifth performance of the new musical, which is based on the movie script of the same name, but it already showed signs of being big. The cast includes such talent as Tim Curry (The Rocky Horror Picture Show, Clue, Annie and soon to be in Home Alone 2). Ethan Phillips (Glory and the TV show Benson), come­ dienne Andrea Martin and Lennie Kazan (Harry and the Hendersons, Beaches) who represents her original film role. The show is still in pre­ views, but feels very tight already. It opens officially in late November.

- Les Miserables will have a cast change for the holiday season. Sologna will take the role which has been held by several young ladies already, including Debbie Gibson. Sologna won fame with her original role in Miss Saigon. She also is the singing voice of the princess in Disney's latest release, Aladdin. Speaking of the next Disney blockbuster, and it will be, in next weeks installment read all about my special press luncheon with Brad Kane, the singing voice of Aladdin.

And additionally...

- The Simpson's youngest clan member, Maggie, will speak her first words during the upcoming November sweeps. And the voice will be one other than Elizabeth Taylor.

And finally, you can catch the PROPHET on Tonight We Murder, with host Sean Carroll, Wednesday nights from 11 p.m. to 1 a.m. on WMSC, 101.5 every now and again. So tune in.

C: Are you guys going to be the bus? We need some tea out in the studio soon? in maybe five years?

S: Yeah, but it's very diffi­ cult to judge, but the audience reaction...

As the story progresses, we find out that it was blind women who were being killed, having their heads and hands cut off and frozen to delay an identification of the body. The frozen limbs could then be disposed of at a later, safe date. Premire moboid subject matter for today's sensitive audience, but there is a bright spot in all this. Uma Sologna gets the role, an actress that is so photogenic that the filmmakers couldn't make her look bad if they tried.

Unfortunately, after Ms. Thurman's character is introduced, the story drags, with double crosses, convenient culprits and the token loyal partner who is just asking to be sacrificed. There is also a pretty boring sequence involving an FBI investigator played by John Malkovich. There is some consider­ able suspense toward the end, but it is too little, too late. Director/ writer Bruce Robinson can write some good dialogue and his images are clear enough. His biggest asset is cinematographer Conrad Hall, who gives Jennifer 8 a dark dreamy look that is spooky enough for itself. Christopher Young also gives Mr. Robinson an eerie musical score that works hard, but can't save the weak plot and pacing.

A peek into the future

By Mark Loughlin

Jennifer 8 starts off strongly. Detective John Berlin (Andy Garcia) is just arriving in Los An­ geles to investigate a serial killer's pattern. Berlin is a grizzled, troubled man with a pain filled past that haunts him. Not very origi­ nal, but we don't care at first be­ cause we are too wrapped up in the story. A band is found in a local junkyard and Berlin thinks he could be a link to a seven woman murder spree.

Unfortunately, after Ms. Thurman's character is introduced, the story drags, with double crosses, convenient culprits and the token loyal partner who is just asking to be sacrificed. There is also a pretty boring sequence involving an FBI investigator played by John Malkovich. There is some consid­ erable suspense toward the end, but it is too little, too late. Director/ writer Bruce Robinson can write some good dialogue and his images are clear enough. His biggest asset is cinematographer Conrad Hall, who gives Jennifer 8 a dark dreamy look that is spooky enough for itself. Christopher Young also gives Mr. Robinson an eerie musical score that works hard, but can't save the weak plot and pacing.
Chal- I can’t imagine college without you! I love you! Good luck with diving! Love Always, Ellen

Crash- 11 months and still going strong. Maybe it was fate...Me

Mike- Can’t wait to celebrate your B-Day! xoxo Patti

Kristin P.(NMof SDT)- Thanks for listening. Hopefully things will worked out for both of us. Love ya-Jenn

Al(Tau Phi Beta)- What are you doing for the rest of your life? How about spending it with me? Love You, Sandy

Boston, Look out! Here comes Alpha Kappa Pi!!!

Chantelle- Have you had any more visions of pools with blue sliding boards and jacuzzi’s? Love, Heather

A K Psi pledges: Good Luck! Delta Phi Epsilon- Membership has its Privileges!!

Michael- Happy Birthday! I love you! Katie

Brian(ZBT)- Things are look­ ing up! Let’s keep it that way! Love You, Tina

Past. Santa Claus is coming to town!

M&M- Congratulations! You finally made it! Love, Your Suitemates

Sister D- The guys in Boston are waiting, let’s leave Now! - Mother M.

Johnny O.- Sorry I spelled your name wrong. Don’t be mad. Love Heather

Cathy and Dave(A K Psi) - Good luck this week. You’re al­ most there. Make me proud! Love Heather

Chris-Thanks for listening, what would I do without you! Love, Mo

To my big and big (D-Phi­ E)- Let’s get together for a family dinner soon. Love You Guys

Lissette

To my big sister Sue(D-Phi­ E)- Thanks for listening and al­ ways being there! Love Your Little Nancy

Yo-Helmet Head!

Tommy T.(Delta Chi)- Thanks for a great time at your semi. Do you want a cookie? Love, Lynne (Tri-Sigma)

B-ball #23- I still owe you!!

Kermit- Just wanted to say Hi! Give me a call! Maybe we can work on that Sat. night idea again.

Ziggy

Hey Stoli- you are the bungus fungus!- Squiggy

Gail(D-Phi-E)- Would you like to nassa inna bussa. Their are fish in park so go see bunions!

Rocky- Stop running around so much and find the time to rest. Love You! Maria (LTA)

Mike(D-Chi)- Thank-you for a wonderful time at formal!! AH77

Geno(AXP)- I hope your birth­ day was great! Sing any Italian songs lately? Love You, Allison(SDT)

Michelle(AKPai)- Only one night without your beeper and look what happened. We’ve got to go to Hoboken soon. Love Heather

Kurstin- College just ain’t the same without you as my roommate, honey! Honey Pie...You still owe me the latest on Raby!

Kermit- Just wanted to say Hi!! Give me a call! Maybe we can work on that Sat. night idea again.

Ziggy

Heth- Did you know that they spoke French in France?

Love, Dee & Moe

To the trainer in 110B - My roommate desires from afar. Check the lower 100’s.

- Her roommate

Al(Tau Phi Beta)- What are you doing for the rest of your life? How ‘bout spending it with me!!

-love you, Sandy

B-ball #23 - I still owe you!!

M&M- Congratulations! You finally made it!

Love, Your suitmates

Brian (ZBT)- Things are look­ ing up! Let’s keep it that way! Love U, Tina

Yo - Helmet Head!

Deep, very deep!

Tommy T.- Thanks for a great time at your semi. Do you want a cookie? Love, Lynne(Tri-Sig)

Hey Stoli- You’re are the bungus fungus! - Squiggy

Michael - Happy Birthday, I LO­ VEE YOU! -Katie

Delta Phi Epsilon - Membership has its privileges!!

Sister D - The guys in Boston are waiting, let’s leave now! -Mother M.

To Bond and Slick - Now I can say I truly have fallen for the both of you. Love, Puddin’ Head

Crash- 11 months and still going strong. Maybe it was fate...Me

To The Bitch- Great comment. Too bad they don’t read English or speak it! -The WayFarer

Tina Beana - Across the table? From whom? At another table? Forget it! -Bretty

TO PLACE A CLASSIFIED AD, PLEASE SEND THE AD (25-30 WORDS), ALONG WITH A CHECK OR MONEY ORDER FOR $8.00 PAYABLE TO THE MONTCLARION TO: THE MONTCLARION 113 STUDENT CENTER ANNEX, MONTCLAIR STATE COLLEGE, UPPER MONTCLAIR, NJ 07043, ATTN: CLASSIFIEDS.

HELP WANTED

SPRING BREAKERS
Promote our Florida Spring Break packages. Earn MONEY and FREE trips. Organize SMALL or LARGE groups. Campus Marketing. 800-423-5264.

HELP WANTED: BRIGHT, ENERGETIC, RESPONSIBLE PERSON, M OR F, NEEDED TO SUPERVISE BRIGHT, ENERGETIC, RESPONSIBLE CHILDREN AFTER SCHOOL IN MY MONTCLAIR HOME. May need from afar. Check roommate desires from afar. Check
To the Ladies of Lambda Theta Alpha, ya all that and a bag of papa chips! Love always, Marita (LTA)

AH7 - Here's your oh so lovely personal! Love you!! -AH8

Christine (Sigma) - Grouchy or not, I still love you.

-ziggy

Good luck Mu-ron Class!

Komaki - It's okay to break the phone! Just not at this hour! Love, Lo & Jo

Joe - I had an awesome time at semi. You did a great job with your baby. Love, Kristin

Piggy - I love our weekends together. You're sweet and sexy, you melt in my mouth not in my hands! Although the car rides are long and bumpy, you always seem to smile! Love always, Thumper

Thumper - You give a new meaning to PERSONAL!

It's no FN without "U" - Manny

Ponch Goes In The Lake!!!

Tom S-P-Chi - Had a great time Friday. (Even better than mountain climbing!) Thanks for everything. -Kim (SPT)

Johnny O - Sorry I spelled your name wrong. Don't be mad.

Love, Heathen

Allison(D-Phi-E) - Hi #6! We have to hang out soon!

Love, Tina 

Cathy & Dave - Good luck this week. You're almost there, make me proud!

Love, Heathen

Michelle (AKPsi) - Only one night left before your leap and look what happened. We've got to go to Hoboken soon.

Love, Heathen

Geno(AXP)-I hope your birthday day was great! Sing any Italian songs lately?

Love you, Allison(SDT)

STD - You've ruined my life forever!!

Heth - Good luck with your speeches and Presidential bullshit. Have a blast in Boston!

Love, Moo

Squirrel woman - Your time is up with (blank) Dee and I am taking over.

Love, Always MO, MO

Janet(Sigma) - So, when's that family tree dinner again?

Call me, Lil Abner

Crash - Happy Anniversary! Thank you for the best & worst 11 months of my life. I wouldn't have

Gene(TKE) - I challenge you, the Yods of Chess, to just try and check my KING! Wanna? The choice is yours, the options are within a Pawn's first move! -With all due respect, Lois

Mike - Did you like the finale? How about what came in it? I want to say thanks to all of my friends for being there when I needed them.

Love you guys, Alicia R.

Busti - I think I'm finally over you! No - REALLY, I AM! -A compulsive liar!

Mike(D-Chi) - Thank you for wonderful time at formal!!

Thank you for the favor on Friday "LAKEY" you are the greatest(Lambda)

Frank - why do you insist on slicking out the back door so quickly!

-from the one who admires you from afar!!!

PS-it wouldn't be from afar if you didn't take on too fast!!

-Chanterelle - I'm sorry I spelled your name wrong.

-Maureen

Dee - You are a fashion plate! I love your pig boxes! And boots! When I grow up, I want to be just like you.

Love, Moo

Sleep is for Pussies. Troopers never say Die!!!

Try staying up all night, amidst a cloud of cigarette smoke, wrestling with a nasty computer, surrounded by sweaty, crabby, impatient pseudo-journalists, typing silly notes to people you don't want to talk to, but don't want to! only to see these pages trampled and torn all over campus...you might just change your mind...

-one very tired trooper!

LASO prez - You look as delicious as a chocolate cake that you want to devour slowly. You got going on BABY! -a secret admirer

Mike - Can't wait to celebrate your Birthday! xoxoxoxo-Patti

To P2 - doggyrown you who are. PZ-124

Maria & Lynae(205C) - Those late night loser talks are killing me.

I'm sleepy - Jona.

Dee - You are a fashion plate! I love your pig boxes! And boots! When I grow up, I want to be just like you.

Love, Moo

Men's and women's swimming start off 92-93 in different directions

by Karen Plumstead

The women’s swim team dove strongly into its season with an opening victory over St. Peter’s College. Coming off a 5-6 season in 1991, head coach Brian McGlaughlin hopes to have the team’s first winning season since 1986.

The 101-94 victory over St. Peter’s showed promise. “Fres­man Michelle Opalka is a key ad­dition to the team,” said McGlaughlin. The freshman swam to victory in the 200-yard event. Also, Marianna Krivak won the 200-yard breaststroke for the Red Hawks.

While the women’s team’s out­look is good, McGlaughlin feels the men’s team is headed for a tough season. The 91-92 men’s team finished up with an outstand­ing 8-2 record. The outlook doesn’t look as promising for the men of team lacks depth. Without more

The second meet of the season was against rival Trenton State. Neither the men nor the women could make any waves against TSC. The women’s team was de­feated 173-56. The highlights of the meet were Marianna Krivak, who dominated the 200-yard breaststroke. A great effort was made by Maureen Molinado in the 1,000-yard freestyle, dropping 15 seconds off her previous meet’s time. A heart- breaking 200-yard butterfly left Michelle Opalka 18 seconds behind the winner.

The men didn’t fair any better against TSC. They were defeated 108-87. Captain Andrew Mitzak showed off his team mates another victory in the 200-backstroke. As a team, the men swimmers will be struggling, but individually, there will be many victors.

Tri-captain Barboto named men's soccer co-MVP

by Craig Beroah

The statistics for this midfielder read one goal and 12 assists. But those who watched MSC's men's soccer team this season know that Fernando Barboto’s contributions to the Red Hawk for exceed his 14 points.

For those contributions, Barboto was selected the team's co-MVP along with junior Dem­ Bucci.

The senior tri-captain out of Deo Bosco Tech in Paterson com­pleted his career, which began in 1988, after Saturday’s loss to Keas.

After he was redshirted due to a knee injury in his junior year, Barboto was promoted to a start­ ing position in the midfield. “Fernando had a great season. He controlled the midfield and gridded out our offense,” said MSC head coach Rob Chesney, who was a teammate of Barboto’s in 1988.

Barboto’s unbelievable ball control and magical offensive moves helped spark MSC this sea­ son. His passing and creativity allowed others to enjoy produc­tive seasons. This senior’s shoes will be hard to fill in 1993.

Humble Chesney tabbed men's soccer's NJAC Coach of the Year

by Keith A. Idec

MSC men's head soccer coach Rob Chesney was thrilled to be named the NJAC Coach of the Year. However, he refused to take credit for the recognition he has re­ceived.

“The award is a reflection of our players. The talent was obvi­ously there to work with,” said Chesney, who just completed his second year as MSC head coach.

Chesney was pleased with his team’s effort this season. “It took us some time to get things together, but once we did everything went very well,” he said.

George Caffe, Managing Editor:

1. Cincinnati +6 over x-N.Y. Jets. The Jets will pull this one out.
2. N.Y. Giants +3 1/2 over x-Denver. Giants will pull this one out.
3. Philadelphia +8 over x-Green Bay. The Eagles defense is tough for the Packers.
4. Chicago -4 1/2 over x-Tampa Bay. The Bucs are terrible.
5. x-Miami +1 over Buffalo. The Dolphins will have first place all to themselves.

Rob Campos, Editor-In-Chief of The Anarchist Syndicate:

2. x-Denver -3 1/2 over N.Y. Giants. No L.T., no win.
3. Philadelphia -8 over x-Tampa Bay. The Eagles are going to the Super Bowl.
5. x-Miami +1 over Buffalo. The home field advantage.

Kevin Schwoebel, Prophet Bigg:

1. Cincinnati +6 over x-N.Y. Jets. Take anyone over the Jets.
2. N.Y. Giants +3 1/2 over x-Denver. The Broncos won’t cover.
3. x-Dallas -13 1/2 over L.A. Rams. Why not?
4. Detroit +10 over x-Pittsburgh. The Steelers won’t win by 10 points.

Bob Wintermarte, Managing Editor of The Anarchist Syndicate:

1. x-N.Y. Jets -6 over Cincinnati. The Jets will pull this one off.
2. x-Denver -3 1/2 over N.Y. Giants. The Broncos are tougher than the Packers.
3. x-Dallas -13 1/2 over L.A. Rams. Can you say “ROMP?”
4. Detroit +10 over x-Pittsburgh. The Steelers won’t win by 10 points.
5. Chicago -4 1/2 over x-Tampa Bay. After last week, Harbaugh is on the spot.

Humble Chesney tabbed men's soccer's NJAC Coach of the Year
Volleyball's Chouinard named to All-NJAC's second team

by Lisa McCormack

When someone at a campus bus stop congratulated MSC volleyball player Denise Chouinard for being named to the All-NJAC second team, she had no idea what that person was talking about.

She then checked into the matter, and found that she had indeed been recognized for her accomplishments on the volleyball court.

Chouinard, a senior from Creaskill, was the only member of MSC's volleyball team to be named all-conference in 1992.

"I've never received an award like this before, so I'm very excited about being noticed for my play this year," said Chouinard.

Due to the fact that the Red Hawks finished 3-23 this season, it was refreshing to see that the voters recognized talent even from a team that had a sub-par season.

In fact, Chouinard didn't expect anything like this. "It's great, but one thing is for sure, I couldn't have accomplished what I have without the hard work and dedication of my teammates and coaches. They helped me so much," she added.

Chouinard is known for her all-around skills and head coach Anita Kubicka offered this assessment of her player's game. "She's a good overall player. Her serve is very effective and she is an excellent passer."

The three-year starter helped her cause by being in the conference's top 10 in several categories.

The outside hitter was seventh in the NJAC in assists with a 2.92 per game average. She was also tenth in the conference in assists with a 1.29 per game average.

Chouinard is also in the MSC record books. She set the school mark when she had 14 kills in a game against St. John's University on Oct. 5, 1991.

Three MSC cross country runners cited by conference

by Mark Alan Belnay

This past week marked the final performance of the season for the MSC cross country team and found three of its members named to the All-Conferecence Cross Country team.

Wayne Dennis, who has been superb all season was named on the men's side, with Sharon Lindo and Rhonda Westbrook taking the honors for the women's team.

"It was refreshing to see that the voters recognized talent even from a team that had a sub-par season. In fact, Chouinard didn't expect anything like this. "It's great, but one thing is for sure, I couldn't have accomplished what I have without the hard work and dedication of my teammates and coaches. They helped me so much," she added.

Chouinard is known for her all-around skills and head coach Anita Kubicka offered this assessment of her player's game. "She's a good overall player. Her serve is very effective and she is an excellent passer."

Chouinard is also in the MSC record books. She set the school mark when she had 14 kills in a game against St. John's University on Oct. 5, 1991.

MSC Sports Schedule

Friday Nov. 13:
Women's swimming (home) vs. Georgian Court, 6 p.m.

Saturday, Nov. 14:
Cross country, NCAA Regionals, TBA
Football (home) vs. Rowan, 1:30 p.m.
Men's basketball (home) vs. Drew, 10 a.m. ( scrimmage)
Men's and women's swimming, Metro Relays, 10 a.m.

Wednesday, Nov. 18:
Women's basketball (home) vs. Staten Island, 6 p.m. (scrimmage)
Wrestling (away) vs. Springfield @ Kran, 6 p.m.

Football Scouting Report: Rowan College

by Michael Frasco

This week's much anticipated game against Rowan College will be a genuine test for MSC. Rowan's (9-0 overall, 5-0 NJAC) and MSC have been on a collision course for the NJAC title ever since the Red Hawks defeated William Paterson 24-19 on October 17.

MSC has since won three more games to stay undefeated in the NJAC and in a 30-0 win over WPC last Saturday, Rowan moved to an impressive 5-0 in the NJAC. The loss dropped WPC out of NJAC contention with a 4-2 record in the conference.

MSC lost to Rowan, which was Glassboro State last season, 21-16 in the season's last game for MSC. Rowan went on to win the NJAC with a 5-1 mark. The team finished at 9-2 overall and went on to the Division III playoffs, and lost to the eventual Division III National Champion Ithaca, 31-10.

Rowan, has been a dominant team this season as well. It is led by quarterback Ed Henson, who leads the NJAC in passing yardage (1505) and touchdowns passes (19).

Henson will look to hook up with wide receiver Kirby Johnson, who is second in the NJAC with nine touchdowns. He has also caught 36 passes for 592 yards.

Running back Calvin Easley could also provide problems for the Red Hawks. He has rushed for 531 yards and scored seven touchdowns.

According to MSC head coach Rick Giancola, Rowan is a respect all-around team. It boasts big offensive line and veteran group on defense.

Do you like sports? Have you taken a picture within the last decade? Wanna see all the MSC teams in action? If so, we want to put you in our Sports Photography Department. See all the games for free! **Battle for the NJAC title**

**MSC Redhawks (6-2, 5-0 NJAC) vs. Rowan College Pros (9-0, 5-0 NJAC)**

Saturday, November 14 1:30 p.m. Sprague Field

---

**Calling the shots...**

Even though the season has just started, the Nets are already tickling the egos of themselves. Guard Drazen Petrovic told Kenny Anderson to "give him the f—ing ball. Supposed team leader Derrick Coleman responded by telling Petrovic to "shut the f— up." This is the same type of crap that drove Bill Fitch out of New Jersey. If this team expects to win, they better start putting eggs aside and as for Petrovic, 20 shots a game is enough for you. Try playing some defense. Good luck Chuck. The Paul O'Neil for Rodney Kelly deal could turn out good for the Yankees. Kelly had a disappointing year in 1992 and maybe it was a time for a change of scenery. O'Neil could hit 30 home runs at Yankee Stadium. Although the Yankees got a quality outfielder, they should have kept Kelly to get Jim Abbott. Jet fans should start looking for other possibilities for the top five picks in next year's draft. Prediction: Riddick Bowe will be the new Heavyweight Champion of the World after Friday night. Evander Holyfield will put up a fight, but the younger and stronger Bowe will prove to be too much. This will be the 1993's best fight. Bowe vs. Lennox Lewis. It would have been nice to see Mike Tyson fight Holyfield some day, but a Holyfield loss would take away from that fight's significance. And who knows if Tyson will ever fight again. Oh, well.

---

**Education equals ignorance as Magic and millions of others battle HIV and AIDS**

In the minds of many, the day of Nov. 7, 1991, is one that heavily affected their lives. On that Thursday, Earvin "Magic" Johnson announced to the world that he was HIV positive and was retiring from basketball. We would never see that million-dollar smile and overwhelming charm on the basketball court again. More importantly, the announcement let the world know that this really can happen to anybody. It was one of those moments when you remember where you were when the story broke.

After learning the news, I attended a New Jersey Nets-Miami Heat 'game' at the Meadowlands. There was a buzz at the arena that night. People were shocked. Some were grief-stricken. Some were just plain stupid! Said one fan: "Magic isn't that good, it's just that he's 6'9." That's why people make such a big deal about him. He made it clear that he would play 50-60 games to alleviate some of the physical strain on his body. The Lakers were thrilled to have him back. Johnson would make them contenders again. Everything was going well, until the night of Oct. 31.

In an exhibition game in Chapel Hill, N.C., Johnson was scratched on his right forearm. As the blood came out of his arm, fear entered the minds of fans and players alike. What if Johnson's contaminated blood somehow entered another player's bloodstream? It's virtually impossible, but the thought still entered many minds. Medical experts have made it well-known that Johnson wouldn't spread the disease on the court despite the game's physical nature. Yet, several players expressed their concern over playing with an infected person. For the most part, Magic was cool under pressure.

His retirement is a setback because it shows that people are still distancing themselves from infected people, even Magic Johnson. The world can be a cruel place.

It seems safe to say that we'll never see Magic Johnson in a Lakers uniform again. That's sad, but it's also an indication that the citizens of this country really don't know how to deal with this insidious disease when it hits close to home. What's even more sad to me is that due to natural fear, I don't know how I would deal with it either.

**A VIEW FROM THE PRESSBOX**

by Keith A. Idee
**MSC wins sixth straight as defense stifles Jersey City State, 15-0**

by Michael Frasco

Defense was the name of the game Saturday when MSC won its sixth consecutive game, 15-0, over Jersey City State at Tidelines Complex in Jersey City, in an NJAC game.

The victory put MSC at 6-2 overall and 5-0 in the NJAC. The win sets up a showdown for the conference championship when this Saturday against Rowan College which is 9-0 overall and 5-0 in the NJAC.

Senior tailback John Walker scored his thirty-sixth touchdown of the year against Jersey City, in an NJAC linebacker Dwayne Savage recovered a fumble by JCSC quarterback Mike Merritt at the Jersey City three. Walker took it in from that point and in the process scored his thirty-sixth career touchdown, surpassing Glenn Morchauher's old mark at 55 (1969-71).

MSC head coach Rick Giancola conducted his team for its hard earned play despite the injuries. He said, "The injuries toughened us. We could've quit but we continued to work hard." Giancola was also referring to MSC's injury-plagued season which began when three starting quarterback Steve Banas was lost for the year with a knee injury in the fourth game of the year. Since then, among others, tailback Jerry Martress (knee) has been lost for the year and linebacker Duane Grade (elbow) did not play against Jersey City.

MSC will need to be firing on all cylinders come Saturday when it faces Rowan, which Giancola calls "the best all-around team we have faced this year."

Even with a victory MSC is still not assured of an NCAA playoff berth, as it must finish at least second in the Eastern region to qualify.

**HAWK NOTES...** John Walker now has 3,584 yards in his career and 912 this season, leaving him just 88 shy of becoming the first player in MSC history to rush for over 1,000 yards in three consecutive seasons.... Bargiel was named NJAC Defensive Player of the Week for the second straight week.... Wimberly and Wolsko, a linebacker and center for the second consecutive year, "Fernando was always there, " count on him to come through at big moments," said Chestny. Four of Bucci's goals were game winners.

Senior playmaking midfielder Fernando Barboto recorded 12 assists and one goal while organizing the Red Hawk's offensive attack. "Fernando was always there," very consistent. He controls the game in the midfield," said the head coach.

Sophomore forward Eric Nuehr was the third first team selection. He led the team in scoring with 16 goals and eight assists. "Very opportunistic. Worked his butt off the entire season," said Chestny.

There was good news for the Red Hawks last week as six players were named to the All-NJAC team, three to the first team, and Chestny was named NJAC Coach of the Year. Chestny took a team which included six new starters, and record a 7-2 conference mark and received an NCAA playoff berth.

First team All-NJAC honorees were awarded to junior sweeper Dominick Bucci who netted 12 goals and seven assists from his defensive position. "I can always count on him to come through at big moments," said Chestny. Four of Bucci's goals were game winners.

Senior playmaking midfielder Fernando Barboto recorded 12 assists and one goal while organizing the Red Hawk's offensive attack. "Fernando was always there," very consistent. He controls the game in the midfield," said the head coach.
