MSC grad escapes Terror
at the Towers unscathed

by Alex Castlino

A MSC graduate survived the World Trade Center bombing without injury on Friday, Feb. 26.

Verona resident Tim Degnan, 40, who is a Maintenance Unit supervisor for the Port Authority of New York and New Jersey at the World Trade Center was on the same level of the bomb. "It was a sound that I'll never forget for the rest of my life," said Degnan. The former MSC student was in an employee locker room at the north side of the B2 level of 1 World Trade Center at the time of the blast. "Ground Zero" of the explosion was 180 feet away at the south side of that level explained Degnan.

After being knocked to the floor from the vibrations of the explosion, Degnan's first thought were of "anticipation." "I thought the ceiling was going to come down on me...I was waiting for something else to happen," said Degnan. While hearing "moans" of some co-workers closer to the explosion area who were "black from smoke, bleeding and in a state of shock," Degnan's main interest was helping these people get to the safety of the main concourse level two flights up. "I didn't think of the danger of the smokey corridors," said Degnan. "I was more concerned with me and the people I knew were in the area," he added.

For the next 12 hours Degnan played a role in the disaster response team when he learned he had lost four close Port Authority co-workers who were killed from the explosion. "This experience hasn't sunk in yet" said Degnan. Degnan now faces the job of "getting the building back in shape." Degnan's 12 hour shifts include supervising repairs of doors, some of the 90 windows broken on the upper levels, repairs of doors, painting of the interior and constructing makeshift offices for the Disaster Command Center. Degnan graduated from MSC in 1989 with a degree in Industrial Studies. He has been employed by the Port Authority for over 20 years.

SGA Executive Board acts to usurp Montclarion office

by Glenn Steinberg

SGA President, Gouri Sadhwanani, informed the Montclarion Tuesday that one of their offices, 112E, must be vacated to make room for Student Government legislators. "I have nothing to do with it. I'm just doing what I have to do," Sadhwanani, informed the Montclarion of the decision. For the next 12 hours Degnan was in an employee locker room at the north side of the B2 level of 1 World Trade Center at the time of the blast. "Ground Zero" of the explosion was 180 feet away at the south side of that level explained Degnan.

After being knocked to the floor from the vibrations of the explosion, Degnan's first thought were of "anticipation." "I thought the ceiling was going to come down on me...I was waiting for something else to happen," said Degnan. While hearing "moans" of some co-workers closer to the explosion area who were "black from smoke, bleeding and in a state of shock," Degnan's main interest was helping these people get to the safety of the main concourse level two flights up. "I didn't think of the danger of the smokey corridors," said Degnan. "I was more concerned with me and the people I knew were in the area," he added.

Montclarion staffers working in room 112E
Despite laws against forced labor, millions are being enslaved worldwide according to an International Labor Organization report. As many as 200 million people may be in bondage.

Serbia's military leader has agreed to let women, children and the elderly flee to eastern enclaves that his forces have sealed off from international aid. Bosnian forces are preparing for an offensive to free the area.

Romania and Bulgaria were rocked by the biggest blizzard to hit the region in decades. Two feet of snow fell even in the lower coastal areas. The Balkan region has been keeping with a pattern of brutal winters following wars dating back to at least the American Revolution.

Israeli citizens blamed Palestinian laborers for slashing their boss' throat as he brought them to work.

Democrats of the House Budget Committee said late Monday that they have found 63 billion dollars more that they feel can be cut from the budget. The cuts will take place over a four year period. These further cuts are close to Clinton's original deficit reduction.

David Koresh and his Branch Davidian Followers are held up in a compound by the FBI agents. 21 of the 38 children assessed to be inside the settlement 10 miles east of Waco, Texas have been freed. The FBI fears that Koresh is hoping for a fire fight. Reportedly, all those still in the compound are there of their own volition.

A federal administrative law judge started hearing an animal welfare violations case against a major supplier of biological studies products. Carolina biological supply is accused by an animal rights group of embalming live cats. A videotape has recorded several cats twitching during the process and is the main evidence.

A major winter storm plowed across the region late last week. Winds up to 75 mph were recorded across the region. 200,000 people lost power throughout the area. Coastal erosion and flooding washed away about a dozen homes but the storm did far less damage than the December Nor'Easter.

Several arrests were made relating to the World Trade Center bombing. Authorities have not decisively determined how or if the suspects actually took part in the attack. The van used for the bomb was rented and returned to the rental agency by a man demanding his 400 dollar deposit back. He claims the van was stolen. People hurt in the blast have already begun to file lawsuits.

On Monday a bill that would require public school health and family life teachers to stress abstinence as the only reliable way to avoid sexually transmitted diseases and pregnancy was approved by a 54-7 vote in the New Jersey State Assembly.

Solicitors on the rise

Reports of soliciting of perfume and other items, seemingly targeted to fraternities and sororities, have been reported on Mar. 5 and Mar. 8.

The solicitors, according to Sgt. Debra Newcombe of the MSC campus Police, all hail from the same area of New York, Huntington and Flushing and are all college age or a little older.

"There is an unwritten policy that you can't arrest anyone for soliciting," Newcombe said. However, she said, campus police can arrest solicitors for trespassing.

In towns, people need permits to solicit, according to Newcombe.

She advised students to report any solicitors right away and let the campus police deal with them. Newcombe also said that there should be "no soliciting" signs posted in all buildings.

Vandilization

Motor Vehicle

3/6 A female Blanton resident reported a window was broken while her car was parked overnight in lot 21.

Soda Machine

3/7 An employee of the student center reported at 12:20 pm that one Coca-Cola machine was damaged.

Requested Assistance

3/6 Little Falls Police Department requested assistance to apprehend people who skipped out without paying their check at the Ambrosia Diner. With a description of the car, campus police were able to locate the offenders in Blanton Hall. They were taken into custody where they payed restitution. No criminal charges were pressed against them.

Discharged Fire Extinguisher

3/6 Someone had discharged a fire extinguisher on the main stage in Memorial Auditorium.

Theft from Motor Vehicle

3/6 A female Blanton resident reported her car was broken into while it was parked overnight in lot 23. Credit cards and cash were taken from her purse.

Recovered Stolen Vehicle

3/7 A officer recovered a car that was stolen from Bloomfield and was dropped off at MSC.

Harrassment

3/8 A female Blanton resident reported she had been receiving obscene phone calls.

Medical

3/8 A female Blanton resident reported severe abdominal pain. She was taken to the hospital by the Montclair ambulance squad.

Suspicious Activities

3/6 A female Bohn resident reported someone had tried to set her door on fire.

Theft

3/8 A bag was taken from Finley Hall.

3/8 A female student reported the theft of her wallet from her pocket book from the T.V. studio.

Update

3/8 The trial of Steven Sanders, the former student indicted with charges of burglary and theft from the Aldan food service cafe in Blanton Hall, was put to trial by grand jury. He was also indicted with charges of theft by deception and theft from the bookstore.

President Clinton unveils National Service Plan

by Laurie-Elaine Matrical

President Clinton challenged young people to join him in "a great national adventure that will change America forever, and for the better," in an address to students at Rutgers University on March 1, 1993.

The Great American Adventure, otherwise known as the national service plan will enable young people to borrow the money for college from the government, then pay back the loan through one or two years of community service work before, during or after college.

Through national service, thousands will have the opportunity to pay for college by rebuilding their communities—serving as teachers, police officers, health care workers and in other capacities.

In order to initiate this plan, Clinton has called for a Summer of Service. This summer, more than 1,000 young people will serve in selected areas around the country, learning to lead and getting children who are at risk ready for school. Through this plan, Clinton hopes to make a college education available to every American.

How will this plan affect Montclair State College? "I only know what I've seen in the newspapers, that they are outlining the national service plan. We, the New Jersey Association of Student Financial Aid Administrators, have not yet received any draft of this proposal. I do, however, see it as an incentive to work in areas that need help in exchange for an opportunity to meet college expenses," said Dr. Richards, Director of Financial Aid.

SGA protests windows

by Jennifer Madera

Connie Ford has been given the position of acting director of the Student Center Administration. The Student Center Administration provides maintenance to the building and keeps the facility aesthetically intact.

It is costing MSC $2.3 million to renovate Partridge Hall into the beststudent administration building. Of the $2.3 million it is costing $80,000 to install new windows in the faculty offices. The SGA finds these expenses very excessive.

In the open forum, representatives from The Montclarion complained about the SGA Executive Board's decision to convert an active Montclarion office into one for the SGA legislators.

The Latin American Student Organization (LASO) was granted a Class One charter for the academic year 1993-94. LASO was established in 1970 and takes pride in being the first Latino-run student organization in New Jersey. They have 80 members and was voted best Class One organization last year.

The Conservation Club was granted a Class One charter for the academic year 1993-94. They were founded in 1969 and is considered to be the ecological conscience of MSC. They work in recycling, sponsor Earth Week and have various environmental workshops and lectures.
Two inexpensive combinations that will help you survive even the most grueling semester.

Introducing the most affordable color Macintosh system ever. The new Macintosh Color Classic computer gives you a sharp, bright Sony Trinitron display, built-in audio, file sharing, networking and more. And the new, compact Apple StyleWriter II printer delivers stunning, laser-quality output while still fitting within your budget. See this new system today at your Apple Campus Reseller. Where you'll get special student pricing, as well as service during college and discover the power of Macintosh. The power more college students choose. The power to be your best.

In celebration of National Women's History Month, Studio Theatre Series of MS proudly presents *Uncommon Women and Others* by Wendy Wasserstein. Directed by senior BFA acting major, Cara Andrichak, this production takes a revealing look at women's changing roles during the early seventies. It speaks a universal message to all people as it probes deep into the hearts and psyche of individuals confronted with a myriad of choices. The play begins as a group of women friends reunite and reminisce about college life. A series of flashbacks take us back to the time when the girls were still in college.

The “uncommon women” include Elyse Wolf as Kate, Stephanie Koempel as Samantha, Rebecca Rhodes as Holly, Stacey Roth as Muffet, Sakeenah as Rita, Jennifer Ritchkoff as Susie, Laura Ketcham as Carter, Kristianne Meyer as Leilah, and Stacy Rice as the ditzy house mother Mrs. Plumm.

As a whole, the cast does a fine job of blending wit, humor and seriousness to show the uniqueness of their characters. There are also some notable performances by the individual actresses. Elyse Wolf who plays Katie Qvin, an ambitious and driven girl, gives a compelling and realistic portrayal of a young woman determined to be successful. Sakeenah as the “ever creative” Rita Altabel is not only comical in her portrayal, but very energetic and lively. She imbues her character with an uncanniness that is surpassed only by her frivolity. And, Laura Ketcham, though a minor character in the play, well enacts her role of Carter “the quiet intellectual” who takes it all in from an objective distance. Her expressions provide a wealth of insight about her character.

Set design by Amy Horvath is realistic depicting college dorms and a sitting room. Light design by Sharon Mayerchak is effective, and costumes, designed by Tanya Guercy enhance the authenticity of the play’s time period.

In an interview, director Andrichak summed up the production’s significance by stating: “It’s trying to give the audience a way to relate to life’s experiences. This is close to what we all go through.”

Performances of *Uncommon Women and Others* run on March 9 through March 13 at 8 pm and March 14 at 2 pm. For ticket information, call 893-5112.
All around campus...

What do you think the punishment should be for the World Trade Center bombing?

I think we should bungee cord him from the top of the World Trade Center and then cut the rope.

Bob Wall
Senior, Marketing

I feel that this person should be executed because he/she is responsible for the deaths of five people and injuries to many others. Face public humility. The victims and families should be able to address the bombers. They should be definitely punished and judged harshly.

Jennifer Crossley
Freshman, Education

I think the punishment should be death.

Ray Acevedo
Junior, Technology

Theta Kappa Chi is selling 50/50 raffle tickets. Stop by the table or see a sister if you are interested.
Lambda Theta Alpha is having a bake sale in...
Women's Month: A "Riveting" experience

by Laurie Elaine Matrician

Rosie the Riveter did it during World War II. You’re probably thinking what did she do? Better yet, you’re wondering, who in the world is Rosie Riveter?

First, Rosie is not a real person. She’s a symbol. She appeared on a World War II propaganda poster designed to encourage women to take jobs in defense plants. Over 20 million answered the call, working in shipyards, aircraft manufacturing, oil refining, and other heavy industry. Rosie the Riveter became the symbol of women’s willingness and ability to do whatever needed to be done. She represented the millions of women who helped dispel the notion that a woman’s role was in the home.

MSC’s Women’s Center and the Women’s Studies Program worked together to provide a host of activities to celebrate Women’s History Month, this month. “Although we are two separate groups with different objectives, we have similar interests. We worked with one another to generate programs and activities on campus that support women’s issues and honor the history of the month,” said Dr. Joan Ficke, Director of the Women’s Center.

Rosie the Riveter is the symbol of this month’s celebration. “We chose Rosie as our symbol and the slogan ‘We can do it!’ to illustrate the fact that women can do what they want to do.”

The New Complete Joy of Home Brewing by Charlie Papazian. He said it was the best book he’d ever read on the subject, and it takes you from clueless beginner to seasoned homebrewer. I was skeptical, but I really had no choice. Either I do some research, or I don’t even try to make the stuff. Before I really scare everyone (I can see looks of disbelief already), let me assure you that I have brewed quite a few batches and my house hasn’t blown up, I haven’t gone blind because of my beer, and I thoroughly enjoy it. That said, let me tell you how I began and where I am going.

About two years ago, I saw an ad for a beer and winemaking catalog, so being adventurous, I sent for it. In the catalog, they had a beginner’s beermaking kit, with all the essentials—hopped malt, yeast, the fermenter (that’s what the jug/bucket’s for), a siphon, and caps with a bottle capper. All I needed was bottles. No problem, I just waited for my town’s recycle collection night, picked up two cases of bottles, cleaned and labeled them, and voila! I was ready. I followed the instructions in the kit, and in about two weeks, I had two cases of beer that tasted like a cross between Budweiser and Sam Adams. Not bad at all.

Before I really scare everyone (I can see looks of disbelief already), let me assure you that I have brewed quite a few batches and my house hasn’t blown up, I haven’t gone blind because of my beer, and I thoroughly enjoy it. That said, let me tell you how I began and where I am going.

Brewed with Bud? Brew your own!

by George Olachewski

All right, we have the Rathskellar back. So where’s the beer?

You want beer? Go out to Clove Road, check up on your buddy who’s been inebriated for the better part of the semester, and check up on your buddy who’s been inebriated for the better part of the semester, and

Rhino’s is good, but if you’re really into it, the best source is Corrado’s Beer and Winemaking Warehouse on Main Avenue in Clifton. The New Complete Joy of Homebrewing is sold there ($9.95) as well as almost anything you will need to brew your first batch of beer, including beginner’s kits. My only complaint about Corrado’s is that their stock sells out quickly and they’re sporadic about restocking some supplies. Beer and Wine Hobby, a mail-order firm in Massachusetts, has just about everything else that you can think of. They can be reached at 1-617-993-8818. Oh, if you have any other beermaking questions, feel free to drop me a line here at The Montclarion. Happy brewing!

Rosie the Riveter and where we need to go. More people need to become sensitized to women’s issues. We are trying to achieve this through the month’s events,” said Ficke.

According to the Women’s Center,
Media Center offers valuable experience

by David Di Gregorio

For college work-study students, the MSC Media Center under the leadership of Bob Ruezinsky, Dave Fogg, John O'Brien and John Walz can offer a wide variety of enriching experiences. Here a student can quickly get to know the college and also become familiar with various audio visual equipment and their applications.

The Media Center offers a student a variety of different jobs because the needs of the faculty vary. If the job is as simple as rolling a VCR and monitor into a classroom a new contact has been made with a professor. If the professor requires an operator for a particular piece of equipment, the student gets a chance to audit the class, learning about things perhaps outside his or her area of specialty.

Last semester, I was assigned to work for Professor Lay in the "Art Forum" classes and had a chance to learn about many contemporary artists. I also worked with Professor Walsh as a projectionist in her "Cinema as an Art Form" and learned of many very unique short films she presents.

Working for Professor Cutter and Professor Arthur gave me a chance to learn more about films like Good Fellas, 2001: A Space Odyssey, Notorious, Citizen Kane, Sunset Boulevard and many others.

Other experiences a student may encounter working in the Media Center may be to video tape an event such as Inns of Court or a poetry reading in the Student Center, or narrate a slide presentation. Nata, ally, we are constantly trained in the proper use and care of a wide variety of equipment.

Through what I learned in the Media Center, I was able to produce a successful slide/sound presentation as a final project for the class in the History of Journalism. The experience which I have had has turned my MSC experience from a good one into a great one. I think that this work study opportunity is the best on campus and am glad to have the experience. I highly recommend it.

INTERNATIONAL STUDIES

A View From Afar

Verna June Gallop
Middlesex University London
Theatre Major
Graduation Date 1994

"Studying abroad is a great experience. You meet lots of people, make many good friends and really learn the culture of the country you're staying in. It is a great opportunity for anyone.

"We dare you to be adventurous, learn and have fun!"

For more information please contact The Office of International Studies
Russ Hall Room 124. Or call 893-7374.

Call before 4 p.m. for free delivery

Open 'til 11 p.m. til midnight Fri. & Sat.
Open 7 Days

Permanent Prices!
NOTICE TO ALL CURRENTLY ENROLLED STUDENTS WHO WILL BE RETURNING IN THE SUMMER SESSIONS 1993 AND/OR FALL SEMESTER 1993

Registration for the Summer Sessions 1993 and the Fall Semester 1993 will occur simultaneously between April 6-22, 1993. All students who are enrolled for the Spring 1993 and who are eligible to return for the Summer or Fall 1993 will have a Registration Appointment Card mailed to their home address during the week of March 15, 1993.

Undergraduate students who are currently enrolled for 12 or more credits will be assigned an in person registration appointment date and time. Undergraduate students who are currently enrolled for fewer than 12 credits and Graduate students will be assigned a range of dates during which they should submit their registration form and Appointment Card to the Office of the Registrar.

Cards will not be generated for students who are on the May 1993 Graduation list. Students who are graduating in May and who wish to register for Summer or Fall 1993 courses should contact the Office of the Registrar at 893-4376.

Students who do not fulfill their Basic Skills requirements and students who have an outstanding financial obligation to the College will not be sent their cards. These students must report to either the Basic Skills Office or the Business Office to obtain their card.

YOU MUST HAVE THIS CARD IN ORDER TO REGISTER.

No one will be permitted into the registration site without a Registration Appointment Card attached.

PLEASE READ THE SUMMER SESSIONS CATALOG AND THE FALL 1993 SCHEDULE OF COURSES BOOK CAREFULLY!!

They will be available during the week of March 29, 1993.

You should use the registration form that is in the Schedule of Courses book. It is for both Summer and Fall registration. The Registration Appointment Card, together with your Registration form, will serve as your personal registration packet.

Advisement should be obtained prior to registration.

WOMEN'S HISTORY MONTH CALENDAR

WEDNESDAY - 3 MARCH
CREATIVE EXPRESSIONS by Montclair State Women
2:30 pm Reception - President's Office

COUN 673: Counselling for Sexual Equality, A CLASS PRESENTATION 7:30 - 9:00 pm, Student Center, Room 417

WEDNESDAY - 31 MARCH
The Women's Center Presents: 'A Play In One Act Based on the Life of Dorothy Parker' Noon - 1:00 pm Student Center Annex Room 126

Calendar sponsored by the Women's Center
Every Spring, We Get A New Crop Of Volunteers

Believe it or not, daffodils are very effective weapons in the battle against cancer.

As the first flower of spring, daffodils represent hope. That's why we sell them every year to help support our programs in research, education and patient services.

So please call the Essex County Unit of the American Cancer Society at (201) 736-7770 to find out where the fresh-cut flowers will be available or to make advance purchases.

And help our new volunteers do their jobs.
May the road rise up to meet you
May the wind always be at your back
May the sun shine warmly upon your face
May the rains fall softly upon your fields
and until we meet again...May God hold you in the palm of his hand

Have a safe and happy St. Patrick's Day
The Montclarion is published weekly, except during examination, summer and winter sessions. It is funded, in part, by student fees distributed through The Montclarion. Editorial, do not necessarily reflect the opinion of The Montclair State. The views expressed in the Student Government Association, Inc. of the Student Center Annex. Such as the many glassed-in rooms on the fourth floor that can be reserved ahead of time, were never considered. Nor was the large conference room already used by the SGA. Why not place a few desks in it? The room sits vacant most of the time. There is also the old Cabinet office that is now used as a "storage area" for SGA records. It seems the SGA Executive board finds their three year old spreadsheets more important than the functioning of a campus-wide student organization.

Surely space can be found for both needs. Perhaps a less arrogant method of decision-making can be found, to arbitrarily decide to strip another student organization of much-needed facilities. Surely space can be found for both needs. Perhaps a less arrogant method of decision-making can be found.

The fight for Room 112E

This past Tuesday, the SGA President, Gouri Sadhwani, came to The Montclarion and informed the staff that they were being dismissed from one of their offices - an office that is currently shared by three editors - because she wanted the office for her own organization, the SGA. SGA legislators, it appears, need a place to fulfill their mandated office hours. So Sadhwani and her fellow Executive Board members decided that the five foot by five foot enclave within the main office of The Montclarion would be the perfect place. Alternate rooms around the Student Center, such as the many glassed-in rooms on the fourth floor that can be reserved ahead of time, were never considered. Nor was the large conference room already used by the SGA. Why not place a few desks in it? The room sits vacant most of the time. There is also the old Cabinet office that is now used as a "storage area" for SGA records. It seems the SGA Executive board finds their three year old spreadsheets more important than the functioning of a campus-wide student organization.

The arrogant "you’re only a Class One" attitude that went into the decision to strip The Montclarion of office space was made even worse by the manner in which it was arrived. There was no consultation with The Montclarion whatsoever. Wouldn't it have been more diplomatic, instead of informing the newspaper of their loss of space, to have discussed the problem and sought some input concerning a solution? The lack of concern as to The Montclarion's need for the space is obvious.

Managing Editor, George Calle said, "Most legislators were very receptive and concerned with our needs. However, Gouri seemed adamantly resolute to rule by decree and stand by her original position, which leaves The Montclarion no role in the final decision making." This tyranny is the true thorn in The Montclarion's side.

It is not the opinion of The Montclarion that legislators do not need office space. Most legislators work very hard for the student body, and if it has been determined that space is needed for them to do that work, that is fine. It is not fine, however, for the Executive Board of the SGA to arbitrarily decide to strip another student organization of much-needed facilities.

The office space used at The Montclarion is needed. Office space is needed for the legislators. Surely space can be found for both needs. Perhaps a less arrogant method of decision-making can be used by the SGA in the future. Arguments, such as this, usually arise when both parties do not listen and try to understand the other's position.
Well, I'm back. I'll bet that you conservative types out there thought that this nonsense was gone for good. Not a chance, but hey, that's life.

I was going to write about something that will annoy me until the day I die - ageism. I will write about something that will annoy me until the day I die and a half and I'm already tired of hearing about him! So, I will write about something that will annoy me until the day I die - ageism.

I will write about something that will annoy me until the day I die and a half and I'm already tired of hearing about him! So, I will write about something that will annoy me until the day I die - ageism.

Come on, admit it - you've ALL had to deal with this irritation. All of you have had some older person tell you how you are "too young and inexperienced" to know about some subject. You could live through a world war and they'd tell you that you know nothing about it. They'd tell you that you know nothing about it. It has nothing to do with experience - it has to do with the number of wrinkles you have. So, the bottom line, bad news, is this: no one is going to take you seriously until you're old. And frankly, I don't even know how old you'd have to be. It seems that there will always be someone out there who will say you are as old as anyone else.

Why does this happen? I've never done it so I really can't say, but I suspect it has something to do with self-esteem. I can't imagine why else someone would brush you off so carelessly without trying to understand what you have to say. Of course, it could also be fear of the truth. Nobody wants to hear it like it is, so they say, "What do you know? You're young."

I've had this problem with my mother. When I converted from her religion to another, she didn't want to deal with it. Her reason for why she shouldn't have done it? I was "too young" to make such a decision. I didn't have enough "life experience." Mind you, I had clung to her religion for two years after deciding I wanted to convert, and I realized it was never going to work out. But this didn't matter to her, because she didn't want to cope with the reality.

Now, all this is to say that older people don't have valuable experience. They most certainly do have experiences that younger people can learn from. But this shouldn't invalidate the experiences of younger people. I have known old people who have been sheltered their whole lives, and young people who have (figuratively speaking) been to hell and back more times than I can count. So far as I'm concerned, age does not necessarily imply wisdom.

I never said anything about laundering funds. Phyllis Miller, Director of Communications, saying that the investigation will determine if the problem lies in incorrect purchase orders or the actual laundering of funds. What I said, in answer to a direct question, was that I really could not speculate on what the investigators were looking for.

Rich rule for over 300 years

Minority. He says divisions in society come from the "various and unequal distribution of property." James furthers his claim by saying the minority can be controlled by the majority but the opposite is not possible. To remedy the possibility of class war Madison felt an "Extensive Republic" was necessary. This is our representation by region system rather than proportional representation. Madison said "It will be more difficult for all who feel it to discover their own strength to get in unison with each other. The influence of factors may kindle a flame within their particular states, but will not be able to spread a general configuration throughout the other states." In the early and latter 1800's, (1840-50, to 1877-1890's) as well as the early 1900's, (1930) the major popular revolutions nearly toppled our government each time using police, sheriffs, and or the army put them down in each region with brutal force.

These rich, white, slaveowning, landowning men feared a coalescing of the masses. The nobility of Europe was about 1% to 2% of the population. Do you think that it is a coincidence that 1% to 2% of the population has controlled 50% of the wealth since it began? As early as 1738, Governor Lydettown of South Carolina said "It has always been a policy of this government to create an aversion to them (Indians) to Negroes." They, (rich) have purposely perpetuated hate between poorer whites and blacks for 300 years. It is obvious that if the other 98% of the population comes together and demands the wealth concentrated at the top be more fairly distributed, the rich would have no choice but to do so.

This nation was designed to maintain the ill-gotten fortunes built on slavery, bootlegging, and exploitation. Virtually all the signers of the Declaration of Independence were rich. Every president we have had has been rich, and so has just about every Senator and Congressman. Who controls the State Legislatures and Senators, the Governor's Mansion and towns? Who else? The rich! They have used the positions to forge policies that ferment enmity amongst the various factions of the poor and middle class. To maintain their wealth, they must perpetuate a permanent work force and keep us from joining forces to better manage and control our society. Divide and conquer, live well and prosper.
C.L.U.B.'s Night at the Movies
March 15, 1993
Don't forget your cups

In the Student Center Ballrooms

Singles
with Bridget Fonda, Campbell Scott, Matt Dillon
7:00 PM

"An exuberant romantic comedy. A gift."

-Warner Bros., Knick Knack Films

The Bodyguard
with Kevin Costner, Whitney Houston
9:00 PM

Never let her out of your sight.
Never let your guard down.
Never fall in love.

C.L.U.B. is a class of the SGA

Free!!!
Welcome, loyal readers, to yet another thrilling installment of PROPHE'T BIG! And now, off into tomorrow...

* • You have to wonder what people are thinking sometimes for instance, does a movie about a man who dresses up as a maid, get hired by his ex-wife to help take care of their three kids as revenge for their nasty break-up and custody battle, sound like a ridiculous concept to you? Well it does to me! But, it doesn't to Robin Williams who has signed to play that very part in the new film, Mrs. Doubtfire. Chris Columbus (Home Alone 2) will direct. Does it sound like Robin might have some personal experience with nannies or something? Hmmmmmm.

• Is it me or does the new crop of T.V. shows from Universal suck, big time? The shows, Kung Fu: The Legend Continues, Time Trax, Babylon 5 and The Untouchables, locked very exciting to me at one time, but they're all awful! Well, I guess that's the magic of previews. Anyway, Kung Fu: The Legend was my favorite character from the old show in modern times? Why? A quarter of the population knows some martial arts or self-defense or can fake it real well! That's why the damn show worked set in the old west. No one knew that stuff then. Time Trax is absolutely forgettable, period. Babylon 5 pales in comparison to its contemporaneous, Star Trek: Deep Space Nine. The Untouchables is just a cheap attempt to capture the success of both the classic T.V. show and the successful Brian De Palma film of a few years ago. Originality is a rare thing folks.

• And speaking of silly T.V. ideas, CBS has announced that they have begun production of A League of Their Own, the series for T.V. Penny Marshall will produce. It seems to me that Penny was snapped back into her ditsy character from The Odd Couple, Mema, deciding to back this venture.

• I, personally, have never seen Cindy Crawford baring MTV's House of Style. But can she really be good enough to have a shot? Doubtful. But the people at Fox think she can, they are developing a show for her in a one-on-one format to begin airing this summer. Oh, and don't worry. Mrs. 90's will still host house of style. It's here! It's here! It's here! Last of the Mohicans has finally arrived on video tape. If you haven't seen it yet, now is your Big Chance. Some of you might remember the movie. The fact that Wes Studi did not receive a Best Supporting Actor for his role in this film by the Oscar people is truly sickening. Check it out.

And finally some Prophet notes. To my absent friend, what's wrong with you? To all my other friends, peace.

I'm taking free reign this week. I'm sorry, but this is so weird that it deserves some kind of comment.

Most people are somewhat familiar with the various interpretations of Star Trek, and the different aliens that pop in here and there. One of the mainstays of the bug-eyed monster brigade are the Klingons. They've got big, ugly foreheads, hunch and mean about their honor, and generally have a bad attitude towards everyone in the known galaxy. Even their language is odd—it sounds like a combination of German and Hebrew.

Want to learn how to speak like a Klingon? There's the Klingon Dictionary, which has a Biglsh/Klingon translation section as well as chapters devoted to syntax and proper verb use. There's also the Con- versational Klingon cassette, narrated by Michael (Lt. Worf) Dom that will teach you the basics of Klingon, from a tourist's point of view. But now, there are actually courses—that's right, actual language courses—that will teach you the Klingon language.

Northeastern Illinois University in Chicago offers a lecture series (non-credit, sorry, folks) in Klingon, presented by their Science Fiction Club. If you don't want to hike out to Illinois, the Klingon Language Institute (I kid you not, that's their name) offers a free 11-lesson correspondence course in Klingon.

"Klingons are very popular with Star Trek fans, so I'm not surprised that people might want to learn their weird language," says Marc Okrand, creator of the Klingon language and author of the dictionary and cassette. "What's surprising to me is that people are actually studying it." But who would want to study a made-up language? Quite a few people, obviously. The KLI is celebrating its first anniversary this month, and it has over 200 members. How the hell does someone start something like this? Lawrence Schoen, founder of the KLI grew up as a fan, not a fanatic of Trek. The KLI came about as a diversion to the old show to take his mind off the threat of being unemployed.

Schoen was a professor at Lake Forest College in Illinois whose position was about to be cut due to budget cutbacks. "I wanted something to distract me while I was waiting to hear about another job, and I came across a copy of the Klingon Dictionary. My academic specialty is psycholinguistics, which deals with how we think about language, and I wondered if there were people who were actually studying Klingon. So I turned to the KLI. The people who made the fictitious languages spoken by elves in the J.R.R. Tolkien Lord of the Rings books." For using computer bulletin boards, Schoen began looking for people who wanted to speak Klingon, and was blown away by the response. Eventually, this led to the founding of the Klingon Language Institute, and they even have an academic journal, KoolQed, from the Klingon words Hol, which means "language," and Qed. "science." It features jokes, puns, scholarly articles, and an occasional contest. A recent contest had subscribers try to find a Klingon palindrome, a word or phrase spelled the same way backward or forward.

"We're trying to bring in more academics, but we want to appeal to a wide audience," Schoen says. "As an educator, I think this is a great way to sneak in education. We have a number of teenage members, for example maybe we can turn some of them into linguists." Interested? I am, for one reason. Everyone and their brother knows some sort of language-Spanish, Italian, Russian, etcetera. If they don't want you to understand something, they'll start talking in that language. Just think: get a few of your buddies together, learn Klingon, and no one will know what the hell you're saying! If you're interested, send a SASE to: KLI, P.O. Box 634, Fluentown, PA 19031-0634. For information about the Klingon language lecture series at Northeastern Illinois University (in case there are any professors interested in extraterrestrial linguistics), call Jeremy Cowan at 1-312-583-4050, ext. 3865.

Portions of this week's Couch Potato Update contain material from the Chicago Tribune, reprinted with permission.
Beware of three fingered zombies, dinosaurs and work.

Gazing longingly at the lurid landscape of the Student Center Quad, the noodles of your brain begin to contract into a state of quasi consciousness, forcing your eyelids downwards like two anvils plummeting from a 50 story building...

"...the paper must be typed, double spaced, using only the Vaniflex font for those of you using a computer. The main text must not be shorter than 17 pages. We will be using the Turabian style for verification of your sources, all of which must be primary blah blah blah..."

"...NO late papers will be accepted under any circumstance. If you happen to sustain massive external injuries before the due date, and you're defining massive injuries as ones that either paralyze or prevent you from reproducing, then I suggest you consider applying for an incomplete for the semester...

The dinosaurs trample into the ocean, tripping over the pianos and leaping headfirst, howling and kicking into a salty grave. They thrash and scream, snapping bones and spewing bile onto the beach..."
To the late night D-Phi-E ambulance service, thanks, Greg

To Owen (Alpha Chi Rho) Yote quiero, yo te amo, tu eres mi Blanquito. Love Belinda and the W.L.D. Bunch. P.S. Enjoy your pina coladas and peanut butter and jelly and bologna sandwiches.

Happy Birthday Kim, Love ya Lambada Sandy.

To B.T. and Mike Tyson (Paterson and Newark in the house): Kick anybody’s ass lately? (haha) Love Belinda

and the W.T.L.D. Bunch. P.S. Enjoy your pina coladas and peanut butter and jelly and bologna sandwiches.

To Hortense - The cheese exploded and I’m feeling like a giraffe with an Oedipal complex - call me! Germaine

To the Kappa class of Phi Sigma Sigma - Good luck on Saturday. Love and Sisterhood - Phi Sigma Sigma

To the Lambda class of Phi Sigma Sigma - You guys are excellent! Keep up the great work! Love the Sisters

To the Kappas - Roses are red. Violets are blue. Aint’ you glad you met me? I love you guys!

Jim (T Phi-B) Where’s the remote? Love Vicki (Tri Sigma)

To You - Conformity is the work of Satan - Me

WHOA NELLY!!!

Baby Chick - I love you! Mama Bird

Steve (Lambda Theta Phi) Congratulations! Love Olga

To the W.L.D. Bunch; You girls are all girls! Don’t know if MSC is ready for you! Love Belinda (LTO)

Steve: Congratulations! We love you and we’re proud of you. Love Belinda and you Ho Cows

Mike and Bryan: We said wholesome not homely! Betty and Sheri

Steve (AXP) Thax for a great time at cotillion. You’re the “best date.” Just keep your flames under control and watch your step!! Kurren (AO)

Ron (SDT) Just wanted to say Hi! I love ya! Malley

To the Hay sledding posse, you guys look HOT all wet. Love the Spanish Hussies “We’re outta control”

Lisa (DPhiE Pledge) I can’t wait until you find out who I am. Keep it up, you are doing great! Love, your secret big sis!!

To the ZB’s of AO - Cotillion was awesome. Glad we were there for you.

Jules, You’re a great guy, regardless of your PMS. Heh! Heh! Love ya, Maria.

A X P : Thanks for the great mixer! Love Quick and Easy

It was last Thursday night, do you know where your boyfriend was? Oh, I do! He was with me!! Tough luck, baby!!

Theta Kappa Chi - I had a great time at the Cotillion. I want to thank all the sisters that went and cheered us on. Monica

To the Kappas - Roses are red. Violets are blue. Aint’ you glad you met me? I love you guys!

Geno, Mike, Rick and Brendan - thanks for coming on Sunday. AXP service chair.

Pres. Garta (Theta Kappa Chi) I’m really going to miss you. Love your little little.

To the girl with the red headband-Can I be your sex slave? Signed - Shuttle Stop, Student Center

To the MSU Pledgees, Stay Strong and hang in there. One day you’ll be our sisters. Love Eddie and Berto (LSU)

Theta Kappa Chi - Happy Birthday to the greatest Big (#60) Love your little Maria! (Don’t go crazy on me now!)

Panama City and SHARKY’S = Delta Kappa Psi

Jim (TKE) Thanks for being such a great Cotillion date. I had a great time and you were 10 times better than any other date could’ve been. Allison 23 DAYS TILL COTILLION!!!

Duggan, I love you, plain and simple!! Dianna

Myrna and Robyn (ZAOT) I miss you guys so much. Do you miss me? (Probably NOT!) Jay

Scott - You so bald, when you wash your head, you get a brain

wash, Ganga (you wanna be a Kojak?)

Barbie, Sandy, Olga: If it weren’t for you Ho-Cows, my life would be a living HELL. Thanks for always being there for me. Love ya always - Jay

Hey: what’s your name and do you have a boyfriend. The girl who works the gamsroom Monday nights with the long black hair. Interested.

All I want to do is rum, rum, rum at Theta Xi

Listen girls, no more water fights in the middle of the night!!

DELTA BROTHERS - Four weeks until Panama City! The first round of drinks at SHARKY’S is on me - Josh (DKPsi)

Dwayne: Are you still good at unwrapping? Love Mira

PhiSig Lamba Class - Keep up the good work! Love the Kappas

Mark (SigmaPhiE) Who loves you? Mich

Gamma Upsilon (Sigma): You guys are doing a great info at 3 a.m. Love Sharon

Kristin, Lauren, Nat (SDT) Canunc, here we come! What’s Up?? Love Suzy

Lost (LTO) Here’s your personal! Stop crying!! Heh! Heh! Love ya, Guess who?

Darlene and Vanessa (AKPSI) You’re fat - keep your pants on. Love ya - Lucy

Tara (Theta) Maybe we should switch roomates. You and Laura seem to have a lot in common these days - Love #76

To Melissa (Theta) “Come on, Ladies, let’s mingle!!” Lav EZ #87

To my roomate #88 Theta - “My lips are sealed!” #87

Neal, Th e r e weeks!! Are you dead? Get here soon! Love, Kelly

AXP: looking forward to Friday. Quick and EZ

#87 Theta: well I guess it was my turn to get the psycho! Love #86

To Jill (Pledge of Sigma Delta Phi) Keep up the good work! Love Tork STN

Jackie/Jeannie (Bohn 821) You two are beautiful inside and out. Don’t ever change. Janet

To the sisters of DXID - Thank you for all of the support and friendship you have shown during our first week. We love you girls! Love and Future Sisterhood, the Alpha Class

To the sisters of AO - Cotillion ‘93 rules!! You guys are the best. I love you all - love and sisterhood, ZB 48

The Montclarion

THURSDAY, MARCH 11, 1993 17

To the Bulls (Pledges) You’re gonna be the death of me!! Love Gidge (Sigma Tau Nupledge)

Remove this Section at Perforound of drinks:at SHARKY’S is on me - Josh (DKPsi)

Dwayne: Are you still good at unwrapping? Love Mira

PhiSig Lamba Class - Keep up the good work! Love the Kappas

Mark (SigmaPhiE) Who loves you? Mich

Gamma Upsilon (Sigma): You guys are doing a great info at 3 a.m. Love Sharon

Kristin, Lauren, Nat (SDT) Canunc, here we come! What’s Up?? Love Suzy

Heading for EUROPE this summer? Only $169! Jet there anytime for only $169 with AIRHITCH! CALIFORNIA-$129 each way. AIRHITCH 212-864-2000.
MSC seeks return to Division III World Series

Improved offense, depth keeps Kubicka optimistic regarding "life without Fluey"

by Keith A. Iacocca

The old adage states that success in softball depends on pitching and defense. This holds true this year as the 1993 MSC softball team should have quite a season.

Coming off a 1992 season that featured an NCAA Division III Regional Tournament Championship and an appearance in the College World Series, expectations are high for this year's team.

Softball Preview

“We have a lot of players returning from last year's team. They tasted success and now they're hungry for more. They've got the incentive and now it's time to go for it,” said head coach Anita Kubicka.

While the Red Hawks are stacked with talent all around the diamond, they'll have a tough time replacing the graduated Lois Faye. The 1992 Division III Player of the Year, who was also named to every other recognition team imaginable, carried the Red Hawks to the third spot in the final national rankings.

However, Kubicka is confident that this year's two-pitcher rotation (junior Michelle Serio and senior Kim Drager) will do a good job of keeping opponents off balance.

The change in balls is good news for the MSC hitters. Sophomore Jennifer Flinn, junior Kristi Kuchinski and senior Kim Drager will lead the offensive charge for the Red Hawks.

Flinn, a second baseman from Blackwood, was named the NJAC's Rookie of the Year in 1992 when she was second on the club with a .377 average and made only six errors. However, she had shoulder surgery last summer and is currently making her way back. If Flinn comes back at full strength, she'll be MSC's catalyst from the leadoff position.

Kuchinski, the team's catcher, is a sophomore. She's looking to be leaders and motivation as well production from both at bat and behind the plate. She batted .296 last season and drove in 20 runs.

Drager, a shortstop known for her tremendous arm and good range, will provide consistency offensively and defensively. She has a .376 average, currently making her way back. If Flinn comes back at full strength, she'll be MSC's catalyst from the leadoff position.

Kuchinski, the team's catcher, is a sophomore. She's looking to be leaders and motivation as well production from both at bat and behind the plate. She batted .296 last season and drove in 20 runs.

Drager, a shortstop known for her tremendous arm and good range, will provide consistency offensively and defensively. She has a .376 average, currently making her way back.

The success of the pitchers will be enhanced by MSC's reliable defense and improved offense.

In the bleachers...

Kerry Kramer awaits instructions in preparation for an infield drill during an MSC softball practice this week at Sprague Field.

The change in balls is good news for the MSC hitters. Sophomore Jennifer Flinn, junior Kristi Kuchinski and senior Kim Drager will lead the offensive charge for the Red Hawks.

As the intramural basketball season enters March, last second game winning shots, must win matchups and teams just playing out the year are all part of the madness.

UNTACTHABLES: The X-Men and BDP are emerging as the favorites to take the intramural title. The X-Men (8-0) need just one more win to clinch the Monday/Wednesday Division. BDP (7-0) is on track to take the top seed on Tuesday/Thursday. The two penhousears are the only teams left without a loss.

BANKED: Troy Bailey's 20-foot jumper with just :10 remaining kissed the glass and dropped to give Ruff House come-from-behind victory over Sudden Impact. You've got to call that shot! Troy-Rough House (5-2) also downed Death Rho (6-2) last week and seem to be peaking at just the right time of the year.

ON THE RISE: Delta Chi (7-2) has won seven straight after dropping their first two decisions to open the season. Jeff Kowalchuk's play during the streak has drawn comparison to John Starks of the New York Knicks! Runnin' Nuttleg (6-2) has crept back into the playoff hunt due to a six game winning string.

The Sleepers (3-4) may live up to their nickname in the M/W post season. They added Amos Field to a lineup that has been underachieving all year.

PLAYOFF PICTURE: The playoffs are approaching but the format is still a little foggy. SILC is leaning towards allowing the top four teams from each division to advance. Post season play on T/T will be a dog fight, while the playoff bracket on M/W is shaping up to be a dog show.

It will take a 7-3 or maybe a 6-4 record to make the top five on the rise and the entire league together. Take the top ten squads on the basis of record regardless of which night they play. That would insure the best ten and reward teams who have played a difficult schedule.

THAT'S THE SPIRIT: Something had to give when 0-5 Delta Chi B clashed with the wireless Da' Bricks Sunday night. The two cellar dwellers battled back-and-forth until DDB's Willie "Screech" Bureicz assumed the role of hero. Bureicz hit the game-winning shot with :20 left to give DDB their first "W" of the season, 31-30.

Howard vs. SLC: The verdict is in on Jonathan Howard of Ruff House. He received a two-game suspension for being ejected from a game against the X-Men last week. Howard was back in action Sunday and scored as many points in a victory over Death Rho as he had in his first last week, three.

CB's SIX-PACK

CB's SIX-PACK

1. BDP
2. X-Men
3. Ruff House
4. Sudden Impact
5. Delta Chi A
6. Runnin' Nuttleg

T/T and some worthy teams are getting snubbed. If the playoffs started this week, Sudden Impact, one of the best teams in the entire league, at 5-3 would not be invited to the big dance. On the other hand, a team with just three or four wins is likely to qualify on M/W.

CB's solution. SILC should
"YOU BETTER WORK!!!"

Recent moves could finally have 
Jets flying in the right direction

Has Leon Hess finally had enough?

Enough of his New York Jets being one of the least respected in the league; enough of them playing second fiddle to the New York Giants in the metropolitan area; enough of his team just not getting anywhere year after year?

Judging from the moves that the Jets made this week, the answer to the questions above is an emphatic "YES!"

The signings of free agents Ronnie Lott and Leonard Marshall represent a lot more than just the addition of two quality players to a hurting defense.

These two players have six Super Bowl rings between them. They both bring leadership and work ethics that are unquestionable. More importantly, they bring reputations with them that give the Jets an instant dose of credibility.

The Jets have suddenly taken over the headlines in what is ordinarily March Madness time and with good reason.

Hess and general manager Dick Steinberg sent a message to fans with budding star Brian Washington and Mike Brin at comeback and you've created the core for an NFC-type defense.

And let's not forget that the Jets have the third pick in this April's NFL Draft. They're currently drooling over Florida State linebacker Marvin Jones. If Jones is taken with one of the first two picks (it's especially possible because the Patriots, headed by Bill Parcells, have the first pick), there are other defensive studs for Steinberg and company to choose from. Regardless of who New England and Seattle pick, the Jets are guaranteed to come away with at least one of the top three defensive players out of the college pool.

Last season the Jets took major steps backwards after making the playoffs in 1991. The Jets were steadily progressing the team was steadily progressing. But it can't hurt either.

Rumor has it that a 4-year, $14 million contract is what White years. For the sake of Jet fans everywhere, Mr. Hess should be willing to open his huge wallet a bit more.

Could you imagine a defensive front of White, Marshall and Jeff Lageman? Add to that Los Angeles Rams' defensive end Reggie White. There's no player in the league wants the top defensive front of White, Marshall and Reggie White. There's no player in the league wants the top defensive front of White, Marshall and Reggie White.

Regardless of who New England and Seattle pick, the Jets are guaranteed to come away with at least one of the top three defensive players out of the college pool.

Last season the Jets took major steps backwards after making the playoffs in 1991. The Jets went undefeated in preseason in 1992, providing false hope that team was steadily progressing.

Then things fell apart. Week in and week out the Jets found different and more amazing ways to lose football games. Then came the Dennis Byrd tragedy to further compound a disastrous season.

So, after the misery of last season, this attempt at an image change comes as a breath of fresh air for Jet fans.

Building with defense is the way to go and the Jets finally seem to realize that. But they'll need the cooperation of recent fads Blair Thomas and Browning Nagle on the offensive side of the ball to become legitimate contenders.

And a new offensive line wouldn't hurt either. That's easier said than done, but somebody's got to save Bruce Coslet's job, right?

The Pernell Whitaker-Buddy McGirt fight on Saturday night may not have lived up to billing, but it was the fight of the year so far. Well, there hasn't been much to choose from and anything's better than Riddick Bowe-Michael Dokes....

Speaking of Bowe: if the fights Jesse Ferguson in May as proposed, fans should boycott. Enough of this crap is enough already. Ferguson was 19-9 before he upset Ray Mercer, who was overrated anyway. He doesn't deserve a shot at the heavyweight title just for one win over a never-was. Politics are ruining the sport, but as long as people pay at the gate and for pay-per-view, promoters will continue to provide fans with mismatch after mismatch.

Let's get Bowe in the ring with Lennox Lewis and put a stop to this nonsense. Have a nice break.
Expectations are high for MSC baseball

**All-NJAC first baseman John Pallino and teammates participate in an infield drill at a recent Red Hawk practice on the turf of Sprague Field.**

ERS include freshman right-handers John Pallino and Tony Martinez, the NJAC Rookie of the Year in 1992, helped MSC clinch the Division III lead in twinkillings with 47. Third baseman Rob DiLauro, the only one who can play three positions, will handle the hot corner and leadoff. Senior Brian Sasso and sophomore Jason Scavalla will be key backups.

Catching is another area of depth. Sophomore Mike Micucci (50 RBI, leading all Division III catchers in '92), an outstanding defensive catcher, will anchor the backstop. Junior permanent catcher Ben Tenerowicz, a transfer from Division I Rutgers University, will provide more than adequate support when Micucci is called upon to play third base on occasion.

"Pressbox": Will the Jets improve after making moves?...23

In the bleachers...21

**Red Hawk Road Trips**

**The MSC softball and baseball teams will hit the road over Spring Break to play in Florida and California respectively. According to the schedules, 17 games will be played in all.**

**Softball**

Sat. 3/20 vs. Lake Michigan, 11:30 a.m.
Sat. 3/20 vs. Baldwin Wallace, 6:30 p.m.
Sun. 3/21 vs. Carthage, 1:15 p.m.
Sun. 3/21 vs. Allegheny, 1:15 p.m.
Mon. 3/22 vs. Calvin, 8 p.m.
Tues. 3/23 vs. Mount Mercy, 11:15 a.m.
Wed., 3/24 vs. Wisc.-Whitewater, 1:15 p.m.
Wed., 3/24 vs. Baldwin Wallace, 4:45 p.m.
Thurs., 3/25 vs. Nebraska Wesleyan, 8 p.m.
Thurs. 3/25 vs. Allegheny, 9:45 p.m.

**Baseball**

Wed. 3/17 vs. Univ. of Redlands, 2:30 p.m.
Thurs. 3/18 vs. Azusa Pacific, 2 p.m.
Fri. 3/19 vs. Cal. Lutheran, 2 p.m.
Sat. 3/20 vs. Cal. Poly-Pomona, 2 p.m.
Sun. 3/21 vs. Univ. of Laverne, 7 p.m.
Mon. 3/22 vs. Cal.-San Diego, 3 p.m.
Tues. 3/23 vs. Claremont Mudd, 3 p.m.

**After returning home, softball resumes play on 3/30 vs. Muhlenberg (DH) and baseball comes back on 3/28 to play Adelphi.**
