Roaches check into Bohn, will they check out?

by Glenn Steinberg

Complaints from residents about worms slithering from shower drains and armies of scurrying cockroaches occupying Bohn Hall bathrooms have prompted the planning of summer renovations and another visit from exterminators for the maintenance plagued dormitory, as being one of the most unsanitary dormitories on campus and is legend for its collapsing shower stalls, drainage problems and lack of basic amenities such as shower curtains in its communal bathrooms.

Complaints of residents concerning the insects and simple invertebrate, rippled shower curtains and sinks full of dirt and food remnants were received during the middle of the semester and acted upon. Exterminators were summoned to the twenty-one-year-old building, bathrooms were cleaned and shower curtains replaced in response to the complaints, said Cooper.

Unsanitary conditions, however, continued even after the repairs. According to Cooper, repairing the bathrooms is simply not enough. "Repairing it [the bathrooms] would just be like putting a band-aid on it; it would just be like covering it up, not fixing it," said Cooper.

The underlying problem with Bohn Hall, said Cooper, lies in the fact the building was poorly constructed using substandard material. At the time, construction was done quickly and cheaply, resulting in prematurely-aged buildings.

Cooper said the college must replace the old drains, walls and floors to substantially improve Bohn's bathrooms. Repairs will simply not last in the shoddily built building.

The college will be renovating the bathrooms over the summer at a cost of little more than $1 million, said Cooper. Seventeen of Bohn's bathrooms will be renovated. Cooper anticipates the bathrooms in the B and C wings of the building to be finished by August.

Bohn Hall has a reputation as being one of the most unsanitary dormitories on campus and is legend for its collapsing shower stalls, drainage problems and lack of basic amenities such as shower curtains in its communal bathroom.

Let the IFC Games Begin

by Glenn Steinberg

The Second Annual Inter-Fraternity Council (IFC) Games started on May 12 and will end on May 17.

IFC is made up of eight fraternities, all of whom are participating in this year's games: Zeta Beta Tau, Alpha Chi Rho, Delta Chi, Phi Alpha Psi (Senate). Since Senate is the returning champion of the IFC games, one of their brothers began the games by carrying the torch around the quads outside of the Student Center, where most of the events will be held.

According to Zeta Beta Tau's Tom "Pillar" Seadeek, the fraternities on campus did not feel that the Greek Games included everything in it that it should be, so the IFC Games were created with new and different events.

Some of the events included in the IFC Games are the Jello eating contest (who finishes first), hot-dog eating contest (who eats most in four minutes), 100-meter dash, arm-wrestling, quarter keg toss, home run derby, golf (accuracy test), football pass/punt, javelin, leap frog and others.

Delta Kappa Psi's Joe Ellis, one of the participants and judges of the Games said "The whole idea is to promote IFC and to have fraternities come out and have a good time."

Ellis believes that the games are competitive, but at the same time not too serious an atmosphere is felt because the idea is for everyone to have fun and a good time.

The Student Government Association's (SGA's) search for a new legal attorney ended on Tuesday.

The SGA selected Joseph Mecca as the new attorney because "he best suited our needs," said Rich Kunze, Vice President of the SGA.

The process of looking for a new attorney started with five law firms and after deliberations with this year's SGA Executive Board, an attorney was chosen.

The college will be renovating the bathrooms over the summer at a cost of little more than $1 million, said Cooper. Seventeen of Bohn's bathrooms will be renovated. Cooper anticipates the bathrooms in the B and C wings of the building to be finished by August.

The process of looking for a new attorney started with five law firms and after deliberations with this year's SGA Executive Board, an attorney was chosen.

The student of the legal attorney is to provide legal advice on matters such as higher education and contracts, anything out of the courtroom such as libel and up to last year, free legal advice to students. Due to budget restrains, this service did not prove cost-effective and the free legal service has been eliminated for next year. Mecca will just serve as legal counsel to SGA next year said Kunze.

Anronld Shancupp, this year's lawyer has been with the SGA for the past seven years. Kunze said that he has done an excellent job as far as legal advice, but since they are revamping the service, they decided to look into other law firms.

Shancupp is an MSC professor in the department of Law and Taxation in the School of Business.
In a nationally televised address 11 days after his strong showing in a national referendum, Yeltsin declared that those who do not share his aims "should simply leave," and called for new parliamentary elections by the fall. The President's prediction of a battle with the parliament over his new draft constitution, which would do away with the conservative Congress of People's Deputies, was immediately fulfilled: parliamentary leaders introduced their own draft designed to restrict the power of the President.

In an effort to limit the number of voters turning out in the election, Khmer Rouge rebels killed more than 20 people in raids on various Cambodian cities and against units of the 20,000 member U.N. peacekeeping force. On Monday guerillas seized the airport in Siemreab and wounded five Indian soldiers in Kampong Cham province. During a rocket attack in the province of Banteay Meanchay, a Japanese policeman was killed and eight Japanese and Dutch peacekeepers were wounded. These turn of events have increased fears for the safety of U.N. personnel. Fifty volunteer election supervisors outside Phnom Penh have left their posts, and union leaders threatened to call out a total of 350,000 if employees don't show some flexibility.

U.S. Intelligence is trying to find the beginnings of an alleged plot to assassinate former President Bush during his last month visit to Kuwait. Officials in Kuwait have arrested 16 people including 11 Iraqis nationals, and have seized high-tech equipment and hundreds of pounds of explosives. According to the Washington Post, Kuwaiti officials say three attempts were planned, first a remote-controlled car bomb set to detonate as Bush arrived in Kuwait City, a second car bomb near a theater where Bush received an honorary doctorate, and last, a suicide attack by a man wrapped in explosives. Clinton officials are debating how to retaliate if strong enough evidence traces the plot back to Baghdad.

Last Thursday, two murders took place, both by postal officers. The first took place in Dearborn, Michigan, by Larry Jaison who was upset at losing a promotion to a woman and killed one co-worker and wounded two others before killing himself. The other murder took place in Dana Point, California, by Mark Richard Hilburn who returned to the post office from which he had been fired and killed a letter carrier and wounded a clerk. Hilburn was arrested at a bar on Saturday morning and is also suspected of killing his mother, whose body was found at her home the same day of the post office murder, and of shooting four other people before he was apprehended.

Some G.O.P. Senators are threatening a filibuster against Clinton's new campaign-finance proposal. The plan calls for some public financing of campaigns, and would bar big donors from dodging contribution limits by funneling funds through a presidential candidate's political party. The problem is that the proposal is heavy on concessions to reform-shy Democratic leaders and on retreats from Clinton's pledge to reduce the maximum contribution by a political-action committee to a congressional candidate from $5,000 to $1,000.

Impersonating a subway motorman on Saturday, 16 year old Kerion Thomas took control of the "A" train and took thousands of passengers on a three hour tour, a three hour tour. Thomas is being charged as an adult with reckless endangerment which is a felony that carries a maximum sentence of seven years, as well as forgery and criminal impersonation.

In sports news, the New York Yankees have just split a four game weekend series with the first place Detroit Tigers. The series left the Yankees just one and a half games out of first place. The other New York baseball team, the New York Mets did not fare as well. They dropped their series with the expansion team, the Florida Marlins. The series left the Mets eleven and a half games behind of the first place Philadelphia Phillies.

The Atlantic Division Champion New York Knicks opened their best of seven series against the Charlotte Hornets on Sunday beating them at Madison Square Garden 111-95.
Campus Police Report

compiled by Kelly J. Schab

Suspicious Activities

4/27 A female Blanton Hall resident was approached by a white male while coming out of the bookstore. He asked her to become a masseuse for him but when she asked him for forms of identification, he only gave her his phone number. She thought that this was suspicious and reported it to the police.

4/30 The remains of two animals were found in a circle of rocks. Scratched in large rocks were the words: "I kill cops daughters," and "Keep the past in the past." The incident is still being investigated for the possibility of cruelty to animals, ritual acts and hazing.

5/10 A female Bohn Hall resident saw a white male with red curly hair sitting on the floor in one of the aisles of Sprague Library. When she came close to him, he began masturbating vigorously. This was the second Monday that she has seen him.

Theft

4/28 An anonymous letter was received by campus police that detailed the theft of baseball tickets from the mail room. The two suspected thieves work in the mailroom. The tickets were received in a damaged parcel and the two suspects claim that they couldn't locate the owner. The investigation led to the identification of the victim who will sign a complaint in Montclair Municipal Court.

5/3 A credit card had been mailed to a resident of Freeman which was never received though it was reported that someone had been using the card.

5/4 Four hubcaps were stolen from a vehicle belonging to a Freeman resident parked in lot 21 over a two day period.

5/5 A female found that someone had spray-painted her car while it was parked in lot 14 between 3:30 and 9pm.

5/10 A female student who was working in a computer lab in Richardson left the room for a little while and when she returned her wallet was stolen from out of her purse.

5/10 A typewriter was stolen sometime over a three day period from Partridge Hall. It was left out in the open for faculty and students to use.

5/11 At 3:30am., an officer patrolling lot 28 observed two males exiting a parked car and entering another. Another male was laying across the seats in the parked car. This led to the arrests of three individuals, Michael Malone, Jon Jensen and Dwane Johnson, all non-students. They had been visiting a female resident of the Clove Road Apartments. They were all charged with the attempted theft of a motor vehicle and conspiracy to steal that vehicle.

Assault

5/4 Officers arrived at Webster Hall and found a male restraining a female on the ground. The female is a resident of Webster and the male is a student. They had a verbal confrontation and the male was holding her down because she was trying to assault him. Neither wanted to file a criminal complaint against the other. The dorm director advised the male not to return.

Harassment

5/7 A resident of Blanton Hall complained that she received a threatening phone call. The caller threatened to hurt her and damage her car. Her car was secured in a faculty parking lot and she was escorted to and from her car by campus police officers.

Attempted Theft of a Motor Vehicle

5/8 A male resident of Blanton found that someone attempted to steal his Pontiac Firebird. There was damage done to the steering column, and the stereo and radar detector were stolen.

Careless Driving

5/10 An officer reported that a member of the faculty was driving in a careless manner from lot 17 onto College Ave. passing the "Do Not Enter" sign. A summons will be issued.

UP Yogi's

Yogi's, one of the largest racquetball facilities in the New Jersey Area, has expanded! We've added a complete Free Weight Center, a premier Aerobic Studio offering daily exercise classes for men and women, and a new and larger selection of the latest in Exercise Bikes, Treadmills, Step and Rowing Machines!

For Students Only

$25 for 30 days!

• No long-term Commitment!
• Unrestricted use of the facilities every day of the week!
(Open til 11:00 p.m. weekdays - 9:00 p.m. weekends)

THE COLLEGE STORE WANTS TO GIVE YOU:

FREE BOOKS!

SELL US YOUR UNWANTED TEXTBOOKS AND YOU MAY BE ELIGIBLE FOR A BOOK SCHOLARSHIP WORTH $25, $50 OR $100*

*(SEE OFFICIAL DETAILS)

CASH FOR BOOKS
MAY 13 - 25, 1993

Official Details
1.) Free book promotion lasts May 13 to 25, 1993. 2.) Promotion open to all current M.S.C. students, faculty and staff. 3.) Employees of The College Store ARE NOT eligible. 4.) You will receive one ticket per book sold while supplies last. 5.) No individual may receive more than one prize. 6.) A valid M.S.C. ID and current class schedule is required to claim prize. Book scholarship is for Summer 93 or Fall 93 courses only! 7.) Prizes must be claimed by October 1, 1993. 8.) No cash will be given. Prizes are not transferable. No substitutions of prizes and no cash redemption will be allowed. 9.) The College Store reserves its right to rescind offer at any time.
Welcome, loyal readers, to this very special installment of PROPHET BIGG! As a treat for you, in this last installment of this year, I give you Amy Fisher: The Musical. The "mock opera" based on over a year's worth of hyped-up "news" about the teen tragedy is playing now at the off, off Broadway Wings Theatre in Manhattan. When myself and my charming companion arrived at the theatre we were given a program and a "Test Your Amy Fisher I.Q." test, which we found simply hilarious.

The creators of the show, Bill Wheeler, Morgan Lavery, and C. Coby Sachs, were nice enough to send me two complimentary tickets to the show and allowed me to ask questions of the cast after the show...

Prophet. Are you guys really big Amy Fisher fans? How did you develop a musical from this?

Bill Wheeler. No. It sort of developed from Vulgarities A Tasteless Review (Which was performed before Amy Fisher) which is a bunch of sketches and songs about current events. And at the time, the Amy Fisher story was real hot. So, I wrote a story about it, a sketch, you know. And it evolved into a musical. So, that's how we came up with Amy Fisher: The Musical.

P. So, when Bill approached you guys and said, "Get this. We're gonna do Amy Fisher: The Musical," what did you do?

BW. Well, they had quite a laugh over it! (Laughter)

P. And then you said, "No, no, no. Really??" (Laughter)

Patrick J. Kinsella (Eric Narsburg, Amy's Attorney). Well, before her sentencing it was getting so ridiculous. Everyday, the whole summer. She was on the cover of every magazine, every newspaper. It was just so pathetic that it wasn’t real any more. It was just a big joke and it fit perfectly into what Vulgarities is. It was vulgar how it was becoming such an obsession.

Ellen McQueeney (Amy Fisher) And they just keep giving us more and more material. (Laughter)

P. So, has the show gotten longer as a result of the never-ending material?

Cast. Yes.
T

I like Amy sleeping with some judge. (laughter) And there's other things who are coming forward to claim a little right now. Like, we

refresh everyone's memory about Edy, and Comberg said, "Every named Something Fisher. He re­

claimed to be Amy's cousin, who

the show, I just wanted to, sort of,

P. Has anyone involved seen

it. (laughter)

P. Well, it's the past, you

know. It's Amy Fisher.

P. Were you like, "Yeah, okay. I'll play Amy Fisher.

EMC. Well, I don't know if I should tell the whole story....

Cast. Tell hail!

EMC. Well, there was some­

one else playing the role in January and she, on a moment's notice, bagged but on us. So, the night before, they needed someone to

fill in. They asked me if I would do it and I hadn't seen the show at all. So, I learned the part in eight hours.

P. How did you feel when you were asked to play Joey?

Don Buff. I was excited and

waited to do it. Playing the villain is fun.

P. What about when they asked you to play Mary Jo?

Diane DiNunno. I found out

the week before the show was sus­

posed to open when I came home

with a friend from North Carolina. When we came home it was on my machine. We were laughing hys­

terically. So I said, "I have to do it." (laughter)

P. Were the rest of you like, "Oh, can I play this? Can I play that part?"

BW. Basically, they were just cast. There were no real auditions. I know so many people that it was just a

show was like a Dennis Miller joke played out live in front of your very eyes. (laughter)

BW. We've been trying to get Dave Letterman to come see it because he's such a big Joey fan, but we'll have to send him a video because he doesn't go out any­

where.

P. Any final words?

Carla Connors (Mara, Amy's friend) it's the good time, date play of the year! (laughter)

Well, as always, I encourage you to see live theatre as often as you are able. And once again Play­

en comes to your rescue with two one­

act comedies being performed next week on Tuesday at eight o'clock.

The plays are The Man Who Died and Went To Heaven by John O'Brien, directed by Stacey Feszchak and Self Torture and Strenuous Exercise by Harry Kondoleon, directed by Elliot Souder.

Featured in Man are Josh Gartenberg, Andrea Caskey, Ari Greenberg, Brooks Van Saint, Tara Morlando and Madelyn Conoer. Featured in Exercise are Kevin Flynn, Garry Doxy, Judith Leporato and Andrea Spra­

me. I highly recommend that you take a little final

breather and check out these funny shows.

And finally some Prophet notes. To the Squid and the gang, peace. To Andrea N., I love

ya madly! And to all of you, its

your Amy Fisher I.Q. test. What

you want to do this?

Cast. Laughter.

BW. A lot of people from Long Island come, with all their hair. (laughter)

P. Have you guys heard any reaction from Amy Fisher about this?

BW. How could she not know about it? (laughter)

P. Are you packing the house or is it a sparse crowd?

BW. Well, we were performing only on Fridays at 11:30, we had to bring extra chairs. When we transferred to 8:00 we had to start building our audience all over again.

P. In all the world-wide-recognition and coverage of your show helping you individual career?

Cast. No. (laughter)

DD. I got recognized on the subway! (laughter)

P. Well, its got to start some­

where. I was saying to my charm­ing companion, Tara, how this

matter of calling and saying, "Do you want to do this?"

P. What has been the reac­tion from the audiences?

Cast. Laughter.

BW. A lot of people from Long Island come, with all their hair. (laughter)

P. Have you guys heard any reaction from Amy Fisher about this?

BW. How could she not know about it? (laughter)

peculiar people and wigging wonders

Brought to you periodically by APPETITE COTTER

I never did like coming up with headlines. So there.

Listen and dig. You can tell the end is near. The end of the Spring semester swarms around your feeble head like so many gnats festering in a pool of stale rainwater. The pouting heat, the inevitable sweat that drenches your forehead, weighs your body down like a slab of molten lava thrown from the center of the earth.

The world knows you're coming. So let's behave accordingly shall we?

Paint your face. No, better yet, paint your entire body one color. Red or green or something. Go into your Mother's closet. Grab a couple of Cabbage Patch dolls or something. Name them Harriet and Ray. You're almost ready to go. Look at yourself in the mirror.

You are red, naked and expressionless. Life is good. Get onto campus. The moment you step foot into the Student Center cafeteria, make the following announcement:

"GREETINGS AND SALUTATIONS! I am Harriet! I am graduating! These are my friends, Harriet and Ray. The elephants fly by night. There are no loaves and fishes in the House of Toast. According to the Law of Conservation of Matter and Energy, there is no more matter in the universe now than there was 10 billion years ago. THIS GIVES ME DISCOMFORT. The world knows you're coming. So let's behave accordingly shall we?

Paint your face. No, better yet, paint your entire body one color. Red or green or something. Go into your Mother's closet. Grab the smallest pair of pantyhose you can find and pull them over your face. Cut a small hole to breathe through and twist the top into a pom-pom. Put on a pair of combat boots and nothing else. Oh and get a couple of Cabbage Patch dolls or something. Name them Harriet and Ray. You're almost ready to go. Look at yourself in the mirror.

Pretend that you are unaware of the fact that you're red and naked with your mother's pantyhose over your head. How you justify yourself in court is an entirely different matter. Hopefully, by then you'll have become a wealthy industrialist who can hire high profile attorneys. If you majored in English or History and something or don't have a job by the time the incident goes to trial, well, do your time quietly. 18 months isn't forever you know....

Make sure your 4, 5 or 6 years at Camp Montclair were all that and a bag of chips. If not, the days are numbered my fellow urchins. Dig that. Happy G-Day.

A

crash.

What are you doing this summer?

I'm going to be going to summer school so I can graduate after four years like normal people do.

Lisaundra Santiago

Coral reefs in peril: who is to blame?
by Anne Caldero

Their colors reflect an underwater rainbow. Corals masquerade as mountains that at a glance appear to be rocks, trees and grasses blowing in the wind. After evolving over thousands of years, these ancient calcified skeletons have now become endangered. Biologists are debating the extent of global damage and are unsure of the coral reefs greatest enemy.

Coral reefs comprise a large ecosystem which house many marine creatures such as fish, mollusks, sea anemones and octopuses. Their biological diversity compares with that of rainforests. Any major threat to them could cause an ecological tragedy.

A major asset of the corals is their ability to protect their neighbors. These toxins could be shattered by the same assaults like global warming, overfishing and pollution are probable causes. Others propose that human destruction is minimal compared to natural forces in nature. Despite the lack of sunlight due to rising water levels and hurricanes.

Scientists generally agree that human activity is putting stress on some reefs. Determining the extent of the damage to this fragile ecosystem will be difficult because few have looked at reefs all over the world to compare the damage and individual stressers.

Recently, corals have been turning white and dying. Corals are nourished and colored by carbonate compounds produced by algae. This algae dies when water temperatures rise, possibly, because of global warming. The overfishing of natural predators for the destructive crown-of-thorns starfish is also a probable cause.

Coral reefs, the most ancient and fragile of animals have survived many catastrophes throughout history. But, if they are forced to live with continuous stressors, the beauty of the coral reefs may die forever.

From sludge to crystal clear water
by John Kodjak

Imagine a world with crystal clear rivers and oceans smelling clean, fresh and teeming with fish and other life. This fantasy may soon become a reality as researchers find new ways of treating sewage. The present system barely alters the sludge before it’s dumped into our rivers and oceans. The result is foul-smelling rivers without fish or oceans that are a health hazard. But there is hope for change.

The key is using biological methods instead of the steel and concrete structures that are so prevalent today. In Arcata, California, Monterey, Virginia, and many other places in the United States, biological waste management systems have also been found effective in detoxifying hazardous industrial waste as well, although further research needs to be done. Besides microorganisms, the marshes are a home for a variety of birds, fish and other creatures—all needed for the marsh to survive. Biological waste management systems do not only benefit rivers and oceans, but also they provide a habitat for many species of wild life. These systems are a dream that is rapidly becoming a reality.

Digable swimable oceans?
by Lynn Landano

A dip in the ocean sounds good right about now with the end of the semester and finals upon us. But if we continue to neglect and abuse our oceans and beaches as we have in the past, this image may not remain a reality.

In 1991 alone, the International Coastal Cleanup collected 3.7 million pounds of garbage along the world’s beaches. One of the most common forms of debris found is plastic. The Center for Marine Conservation collected over 34,000 six pack holders alone in their 1991 cleanup alone. This is only a portion of the garbage found on the beaches and in the oceans every year.

Combine this with organizations and corporations that dump waste in the oceans (approximately 41,000-57,000 tons of toxic organic chemicals and 68,000 tons of toxic metals, according to the Environmental Protection Agency). It adds up to one huge problem.

New Jersey alone lost an estimated $1 billion dollars in 1988 from beach closures. The Washington State department of fisheries estimated $3 million is lost annually on pollution related restrictions on fishing. This is to say nothing of the many marine animals that die annually from the filth that human beings are dumping in their homes.

This year is the 20th anniversary of the Clean Water Act. The goals of that act, to make all the rivers in the United States “fishable and swimable,” are still a long way off.

Also in 1993, the Magnuson Fisheries Conservation and Management Act, the Marine Mammal Protection Act and the Endangered Species Act are up for reauthorization. For nearly 20 years, these laws provided the foundation for ocean protection in the U.S. The present administration has a unique opportunity to positively influence these reauthorizations by revitalizing the conservation principles of these laws. Let your Representative and your President know you want to preserve the beaches and the oceans.

Project Bohn under Construction

When a campus like MSC sets out to achieve a goal, their haphazard ways of attaining status may cause one to wonder where the leaders of this institution's minds are.

With new atriums being built to decorate the new, (yet, well needed) library, the wonderfully new donut hole for Campus police, and of course the well used Access Road, with these responsible editions to our college, why are six hundred students living in a skyrise tenement called Bohn?

Cockroaches reign there, admist to shower curtains, confirmed worgs crawling throughout bathrooms, and wasted, rotted food clogging sinks. This has been going on for many years, continuing in what was thought of as an endless cycle of disintegration.

Until yesterday. Upon hearing this surprising news, Doug Cooper, Assistant Director of facilities, will contract an exterminator right away.

Yep, we understand. Make room in the bed for our friendly creepy crawlers known to carry vice. Nothing is going to be done.

He continues to enlighten us with a point that had gone unnoticed. “The buildings are made cheaply, repairing won’t do them much good”, and that, “repairing the bathrooms, would be like putting a band-aid on it, not fixing it.”

With this information, the only solution seems to point to a bulldozer. Perhaps we could borrow one tilling the ground to make room for the new gardens?

Alas though, fellow oppressed, a band-Aid will have to do. Over the summer, the renovation of Bohn will begin. The showers will turn to stone, with added fixtures, but as of yet, no word on any permanent riddance of the insect population.

The B and C wing bathrooms, under a one million budget, will be done by August. Nothing is going to be done.

As experienced students, we know what that means. Move over A, the rest of the dorm needs to shower.

The Bohn Projects could use a little paint too. And how about a little soap and water in those hallways? If chewing gum was recyclable, you could set up shop just on the ceilings, not to mention those fuzzy little corners filled with unrecognizable entities in each room.

Perhaps with a little bit more care to where State and Student money goes, Bohn would be filled cheaply, repairing won’t do them much good”, and that, “repairing the bathrooms, would be like putting a band-aid on it, not fixing it.”

With this information, the only solution seems to point to a bulldozer. Perhaps we could borrow one tilling the ground to make room for the new gardens?

Alas though, fellow oppressed, a band-Aid will have to do. Over the summer, the renovation of Bohn will begin. The showers will turn to stone, with added fixtures, but as of yet, no word on any permanent riddance of the insect population.

The B and C wing bathrooms, under a one million budget, will be done by August. Nothing is going to be done.

As experienced students, we know what that means. Move over A, the rest of the dorm needs to shower.

Letters Policy

The Montclarion encourages the campus community to submit letters expressing their views or related issues. Simply drop your letter off at our office, or mail to:

Editorial Editor
113 Student Center Annex
Montclair State College
Upper Montclair, NJ 07043

Letters must include your name, major or telephone number (for confirmation purposes only) if they are to be considered for publication.

The deadline for letters is the Monday before publication.

Letters may be edited for style, brevity or libel.

The author of any published letter, not The Montclarion, is solely responsible for the opinions expressed therein.

Quote of the Week by Ellis pg. 1

“...The whole idea is to promote IFC and to have fraternities come out and have a good time Joe...
Letter
Hold your Breath for Clinton

My family was beinging bouded around the TV set. President Clinton's appent face ocuped the screen. Poignant words sailed through his glistening teeth and echoed throughout the room. "Immediate action is being taken to restore the environment, the homeless are being housed, jobs will now open for the unemployed, healthcare will be made available to those in need, our nation's hungry will be fed, and everyone will be given an equal chance at obtaining an education." My eyes lit up, my heart sped, my breath was taken away.

When I think about the present condition of America, what we've become, I can't withstand the feeling of hopelessness. Nothing is improving or so it seems. I am truly concerned with the welfare of present generations and those to come. It appears as if we, as a nation, need to give our government a crash course in life support mechanisms.

Let's stop and think about some simple strategies towards transformation. Firstly, we can reinforce some positive thoughts about our country for a change. Remember our founding theme...Life, Liberty and the Pursuit of Happiness? Secondly, we need to empower each individual by giving them an equal voice in our democracy. Individuals will be more inept to working together if they are taken care of everhandlyed. This means getting homeless off the streets, getting food into the stomachs of the hungry, providing jobs for the unemployed, healthcare for the sick and elderly, and most of all giving the tenants of this planet a safe and stable environment in which to live.

What it really comes down to is getting our government leaders to channel their energy into developing a successful life support system for our country. You can't expect to sell a sick, hungry, homeless, unemployed, uneducated individual to work in a group effort with healthy, well-fed, housed, employed, and educated individuals. It is essential that we take care of the immediate needs of our society before change can come. In dealing with such an immensely diverse society, we should expect aberrations. But I believe our collateral worries - crime, drugs, violence, and so on - will greatly decrease when a feeling of equality is established between individuals.

So am I pointing fingers? Not necessarily. If you recall, we live in a democracy.

Letter
Sprague violates handicapped

To the editor,

Recently, I have become aware that our new library is not accessible to the handicapped. Despite the millions of dollars our school has spent to build the new campus, there are no ramps outside the new library building for the invalid. There are no stairs for the invalid. There are only steps for the invalid. The new library is not accessible to the handicapped.

I am appalled at this overt violation of the Civil Disabilities Act, which states that all newly constructed buildings must be handicapped accessible. The lack of regard shown for our small, yet present, handicapped minority is very disconcerting. I hope that this situation will soon be remedied so as not to shame our supposed "equal opportunity" institution.

Iron Heel

By Christina Tischio

This is a rare moment for the Editor of the Editorial page to get to speak her own mind. I have sat here, listening to the fools of this campus complain about the trivial. "Oh, my personal opinion is against the law? We can..." As far as those who voted no, I re- member you. Every fucking one of you. To those who listened, and heard us, I am truly grateful. The SGA is a scummy place to be a donor to. But to me, you are wrong, and I judge you. As far as those who voted no, I remem- ber you. To those who listened, and heard us, I am truly grateful. The SGA is a scummy place to be a donor to. But to me, you are wrong, and I judge you. As far as those who voted no, I remember you. To those who listened, and heard us, I am truly grateful. The SGA is a scummy place to be a donor to. But to me, you are wrong, and I judge you.

'change things'

Change things!! Does the SGA really think they make things happen? How many of you abashed, belittled into small brained sheep? Make a choice, stand up. Or is it getting to difficult to figure out what your neighbors thinks?

Conditions for not giving us our computers were justified with comments like, "Understanding is unimportant." "You have a life. Do you realize, basing decisions by personal opinion is against the law? We can sue your ass (don't think were not trying) and with any luck we will. In answer to your trite criticism, "Don't take this personally", of course I do, you mud sliding protozoa. I give everything here. But being a lowly, insignificant legislator, how would you know? Your ignorance is not forgiven.

To those who listened, and heard us, I would like to say a sincere thank you. I remember who you are and I, personally, am grateful. The SGA is a scummy place to wallow through, and the fact that we were heard by some was more than appreciated. As far as those who voted no, I remember you. To those who listened, and heard us, I am truly grateful. The SGA is a scummy place to be a donor to. But to me, you are wrong, and I judge you. As far as those who voted no, I remember you.

To those who listened, and heard us, I am truly grateful. The SGA is a scummy place to be a donor to. But to me, you are wrong, and I judge you. As far as those who voted no, I remember you.

advertisement
You don't have to prove a god
damn thing — just sit back,
live and laugh your ass off.

Plan C is in effect. A turning
point in MSC history is at hand.
The veasele have themselves to
blame. Nothing will ever be the
same. Before you celebrate your
victory, wait for our checkmate.

We have 5 words for you —
wrote us a nasty personal.

Damn thing — just sit back,
dially address the clowns who
are in the place.

Carrie, Rachel, Carm,
we're all together next year.

you should stand alone.

Come back. I've missed you
for ya.

The weasels have themselves to
blame. Nothing will ever be the
same.

Love Youl Kathie

Jeff Q. (TKE) We didn't
make it to the bash. I love
you! Love Melanie (Tri Sig)

Billy (Delta Chi) I'm
glad it's finally over. Welcom­
back, I've missed you
enough. I love you! Love
Melanie (Tri Sig)

To the new brothers of
Delta Chi — Congratulations,
especially to one of my only
Billi Melanie (Tri Sig)

To the AIX E-board:
Carrrie, Rachel, Carm,

Bryan and Jobes — I know you
will all be Alcoholicb I'm very proud.
Love and Sisterhood, Merkel,
"Alumni Advisor"

Rick L. — Fuck you.

To my Big-Gro — Have a
great summer (Mr. Presi­
dent) Thanks for being there
during pledging. Your little
spunky

To Quick and Easy —
Thanks for a great year. You
guys really came through for
me. I love you guys. Sex Kitten

Being a sex kisten, how
far did they cum?

To the Epsilon Class
(AXP) Thanks for a helluva
year. See ya in the fall. #64

To the Mizfits — I know
we've had our ups and downs,
but thanks for being there.
AXP #64

Laura — Congratulations,
woman, on Mise Theta
Kappa Chi 1993 — #69

Well, with a number like
that, how could you lose?

Thetaai — Thanks for all
you love and support — espe­
cially at the formal. Proud to
be your Mise Thetai Psycho
# 72

Carl Z. — Fuck you.

To the men of the Theta For­
mal — next time try to stay up
a little longer.

Jana — Thanks for being a
great roomie. I love you
lot! We'll always be sisters
— best friends. Love Kathie
Step I can't stand it.

Dawn and Vic — All I can
eay is "Thanks," JM

And wanna get to know
each other better?

Annette — Enough with
your Big mouth, everyone
knows who you are! Hard of
Hearing

Get a hint, Annette?

DD — How many nales
did you break? VG

Chris and Jill — How
does it feel to be a hero? The
most impressive stuent
couple, M and M

Keesie Secretory...
Suck Rod.

Shuggs (Long Lost Sena­
tor) Welcome Back! So glad
you're in USI! Love your Theta
Fan

Lost: Alabama hat ...
It had bad ... help me! I'm
starting to lose it!

To the 1993 Greek Week
champs — the dynasty is over
and it's just beginning

Christey, I love you double.
Can't wait for the long, hot sum­
mer.

To my little Christine
and grand Kneesy — I love you
both so much and I am going
to miss you loral Thank for
always being there for me!
I'm forever here for you
Love Gine

Nelly (Theta) and An­
thony (D Chi) Thanks for the
free show after the formal.
Hey, how come no one
invited me?

Phil (Senate) Congra­
tulations! I know you
can keep up on top. Love your
brothers

FZ 111 — Thanks for a
great weekend. Christine

Pierro (Theta Xi)
They're not peanuts. VG
Oh, God. And I ate so
many of them.

Too Cheese — Get it, got
it, good! Ha

Is that am ink or whale?

Renee in Secretory...

Laura (Phi Sigma Sigma)

Thanks for listening to me. Sorry I
didn't make it to the bash.
Before and even the birds don't
follow it. The way it should
be. Thanx for getting the
movie. Love the 8AG6 Suite (your
superior)

Around the world and
out of Clove in a day — not
bad

Rob and Heather — Congra­
tulations! Best of luck always.
Love Brady

Tim (D Chi) So what if
we didn't make it to the
champage... I had a great
time anyway! Laura

Astro Montazzaro meet­ing
in fourth floor bathroom
today. Trip to Chipendales
afterwards.

Tell a little sausage for
me, please.

Melissae — Welcome
home! You're gonna love it!

Love Stacy

Don't cry Delta Chi,
there's always IFC, Nost!

Dawn (ZK02) You are
so beautiful

But a sunset is better.
Laura (Phi Sigma Sigma)

Thanks for listening to me. Sorry I
did not go out with you guys. Next

To all the suites, thanks
for being so wonderful.
I hope we're all together next year.
Love Kathie

To the AIX E-board:
Carrrie, Rachel, Carm,
To Ami,
To Kelly,

Do you ever have to back out of something...you know...like you know a good melon...Christina's calling.

I'm the best Copy Editor, and one of the WMSC bash-you should have joined us on our pilgrimage to the Mt. Hebron cemetary. To everyone else-Thanx for making this year the best that WMSC has ever had.-The Balder Hilde.

Jen, Tammy, and Cheryl, you've given me such a creep lately. Hope we stay in touch...Thanx a lot, love, Tanya.

Cheeseburger please...

Jay-your Illustrations are amazin! Have a great summer, the production editor.

Chris, feel like some pizza?

Neal-Come up and see me again some time. Love, Kelly, 

foody-food!

Chris-You're bull is raging, better tame him soon, we can't take much more.

The Women. Watch out, someone might change in with a red streak while you're not looking.

Squid-You're lookin' a little too healthy...the flu.

Hooligan...leave me alone; damnit, the cheese! Amish! Please?

Callie-I've missed your sexy smile this week, wish there was something I could do or say to bring you back to life-lookin' forward to roomin' together.

Chris-Campus Life Woman, you'll get the hang of the computer once these Jago! Sorry about your uncle, we missed you the last couple of weeks! Next semester we'll have to rechallenge the pool master-your production editor.

Congrats to Karen Lee and Kevin B. and Katy McClure on graduating from this hell hole! You better visit us in this dungeon of terror-Andy P.

Christina, I know it's been a long year. I can't wait to have some time to spend together. I love you very much. Here's to the summer. I think ya might need to get a few more tickets for the Production Editor.

Looking for a Vivarin night.

It's 10 PM. You've crammed for finals all week. Took two today. And now you've got to pack an entire semester's worth of Philosophy into one take-home exam, in one night. But how do you stay awake when you're totally wiped? Revive with Vivarin. Safe as coffee, but sleep on the brain, and mentally alert for hours. With Vivarin. Safe as coffee, but sleep on the brain, and mentally alert for hours.

DiLaurenzio defies the odds on the field

Red Hawk infielder hasn't let physical obstacles stand in his way in athletics

by Michael Frasco

"Rob is outstanding. He is our most versatile player and has excellent discipline as a leadoff hitter. He's somebody we have to have in our line-up," said Schoenig. Schoenig should be very thankful that such an outstanding player is in the lineup for the Red Hawks. With .362 and is near the top of the NJAC in hits (50) and on-base percentage (.423). Some people might say he's a remarkable success story and an inspiration to others, and for all the praise and accomplishments he has achieved as a player, DiLaurenzio's story is truly one that runs deeper and closer to the heart. Possibly, none of his success could have been realized if it hadn't been for a skiing accident that DiLaurenzio got into in Vermont in 1989. While skiing on the rough slopes, DiLaurenzio fell and suffered what turned out to be a ruptured kidney, but X-rays had revealed that, in fact, he had just one functioning kidney. "I was born with two kidneys, one functioned," said DiLaurenzio.

MSC baseball can get the job done, but will it?

by Brian Falzarano

They say pitching is 90 percent of baseball. Until recently, the MSC baseball team has been winning without such a large percentage from its pitching staff.

Enter Todd Sak and John Carlson. All right, they're not Roger Clemens and Frank Viola. But on Saturday and Sunday, respectively, both turned in superb efforts in stopping Rowan and William Paterson. Also, Drew Yocum threw well on Friday in the NJAC opening-round game against Rowan. So, the questions remain. Will WPC be overconfident after Monday's win? Will the Red Hawks beat WPC again? These questions will surely be answered in the upcoming NCAA Regional Regionals next week.

But who will win? One can only ponder. Call it a toss-up, but MSC can win WPC again. However, if they meet again William Paterson will win. Take experience in big games over youthful talent every time.

In the bleachers...

VIRGINIA BEACH, Va. (AP) -- The Roanoke Roadrunners' misunderstanding of the double-elimination tournament's championship game, the win gives MSC a world of confidence. After losing to WPC nine straight times, MSC knows that it can overcome one of its biggest NCAA obstacles. For them to do it again, the Red Hawks will need a well-rested pitching staff. Dippold cannot be overworked or the MSC bullpen is down to one reliable arm, Chris Rampone. So, the questions remain. Will WPC be overconfident after Monday's win? Will the Red Hawks beat WPC again? These questions will surely be answered in the upcoming NCAA Regionals in Pennsylvania next week.

But who will win? One can only ponder. Call it a toss-up, but MSC can win WPC again. However, if they meet again William Paterson will win. Take experience in big games over youthful talent every time.

A VIEW FROM THE PRESSEBOX
by Keith A. Idee

The glory days of boxing seem long gone; will they ever return?

Championship prize fights that actually lived up to billing are now a distant memory. The number of quality fights that are pitched in the minds of boxing fans seems to be a non-growing collection.

Why, you ask? Because the politics of boxing today have virtually ruining the sport. People don’t want to wait years before they see the best two fighters step into the ring against each other. Patience is a virtue, but the state of boxing is bordering the ridiculous.

Promoters like Don King and Bob Arum continue to struggle for supremacy and in the process try to manipulate the public into thinking the politics of boxing today have virulently ruined the sport. People in the minds of boxing fans seem a new security blanket.

Surely Tucker didn’t mind, because he still walked away with slightly over $1 million. Anyone rushes to Tucker’s defense over his lack of effort, look at the tape of the fight.

How does winner-take-all sound? It’s not realistic to expect someone to receive no money if the loser of a fight, but percentages of purses to winners and losers is an intriguing concept.

It has to get worse before it gets better. You need to look no further than this Saturday night’s fight on HBO between Heavyweight Champions Riddick Bowe and Jesse Ferguson to back the previous statement.

The champion is going way beyond the call of duty in taking on all comers with this fight. Ferguson is basically the one-hit wonder of boxing. He defeated Mr. Overrated, Ray Mercer, which was not a major accomplishment. Now he gets a shot at the title. What gives? Either Ferguson is better than everyone thinks, or Rock Newman and Bowe are avoiding a fight with Lewis for as long as possible. Let’s face it, win over Ferguson and Michael Dokes do not make up a glorious reign as champion for Bowe.

And what’s even more bewildering is that Bowe has yet to step into the ring with Lewis. After the Tucker fight opinions quickly changed on Lewis. From what this writer saw, if Lewis fights the way he did on Saturday night, Bowe would own him.

Bowe probably does want to fight Lewis. But he won’t say so. It’s all about politics. Promoters nor managers want to give in to one another, so the mediocre “Rip You Off” (pay-per-view) shows still exist.

The fans of the sport need to speak out. Don’t pay for over-priced sparring matches, whether it’s at the gate or on television. Hit the track and field team that don’t.

There are other options for your entertainment dollar. Without cooperation from the paying customers, promoters could be forced to produce good boxing cards once again. The losses enough money, “only in America” could take on a whole new meaning for Don King.

It’s been one hell of a ride
Beat columnist bids farewell to MSC track team

On May 20 the most renowned bar in America will serve its’ last beer to an overweight, out-of-work accountant named Norm. Known with’ cast of unforgettable characters, will depart from the airwaves leaving millions of American in search of a new security blanket.

Track Talk
by Mark Alan Belnay

I will be in front of the TV, as will nearly everyone else in this country, bidding a fond farewell to my favorite bar. It seems funny that the day after I say goodbye to Sam, Norm and the walking Labotony known as Cliff, I will say goodbye to MSC forever.

I take this final article for The Montclarion I would like to take the opportunity to strike off on a slightly different path than the usual one. I want to go where I sit down and type my weekly summation of the track team and whatever records they saw fit to eradicate.

One of the team’s hottest runners, Neal Ruiz, seemed to forget what the time was when the left and was left chasing a New Jersey Transit bus instead of taking home another first place finish.

The last person I would like to mention is head coach John Blanton. Since the day I was assigned the track and field team as my weekly article, he has been my reservoir of information concerning the team’s successes and failures. It has been an advantage working with someone who actually told how it was, instead of candy-coating everything that occurred.

I can think of numerous times when your humble narrator and Blanton spent hours on the phone discussing the past weekends’ performances and what the expectations were for the upcoming weeks. Sometimes words don’t allow you to say everything you want to, but it has been one hell of a ride to work with these guys.

I look back on something that Blanton pointed out to me regarding talent and Stardom. He said that whether the level of talent is beyond reproach or is in need of serious tutelage, it is the level of desire that the athlete holds within that marks a true champion.

Well, the trip’s over and we only lost one passenger along the way. I think Neal missed the bus again. So in closing, I’d like to say that its been one hell of a ride and that each and every one of the athletes and coaches that I’ve worked with have been as integral to these articles as my typewriter has been.

I’ll join you all on May 20th the last time before graduation as we all turn to the nearest window and shout “Norm!” in unison as the screen fades to black one final time.

Baseball, from page 24

The credibility that the New Jersey Nets have attained over the last year could all be for naught real soon. They got one of the top coaches in the league and showed promise this season before they were sabotaged by injuries. Now it seems that the organization is going to take several steps backwards. Drazen Petrovic is threatening to bolt to Europe and the Nets aren’t exactly coercing him to stay. This all may be part of Petrovic’s and his agent’s plan to get more money from the Nets. However, if he does leave, Willis Reed and Chuck Daly may have a trick up their sleeves. Joe Dumars is an unrestricted free agent beginning this summer and don’t be surprised if the Nets sign him if they lose Petro. That would be a blessing in disguise. Why? Dumars is better. The Chris Dudley contract situation must also be resolved or the Nets’ center rotation could get ugly. If they are healthy and if everyone comes back, the Nets could make plenty of noise next season. You should never count on its, but sometimes it’s unavoidable. Since this is the last column of the spring semester, here is something to expect over the summer. The Knicks will win the NBA Championship Probably over the Phoenix Suns, as predicted in this column in November. The Yankees will be battling for first place come September. The Mets will not....Well, have a great summer and we’ll chat again in September.

Vikings fires WPC past Red Hawks for NJAC tourney title

by Brian Falzarano

As Brian Sasso stepped to the plate for MSC (28-9) bunted back the way it did in the ninth inning. Down 5-0 against Tim Vinges (2-1), who owned them for the first eight innings, the Red Hawks seemed to be dead in the gutter.

One can never count the Red Hawks out, though. Tony Martinez, who like many of his teammates was stymied by Vinges, drew a lead-off walk. Joe Critelli then hit a scorcher to third, which was booted. This gave MSC runners on first and third.

After John Pallino poked a sacrifice-fly to reduce the deficit to 5-1, Ralph Yeza doubled and James Scavalla reached base, leaving the bases loaded. Out went Vinges and in came Farber, one of the top relievers in the nation.

Pinch-hitter Dan Massaro didn't believe the hype. Massaro, a freshman, responded with a single to score Critelli to bring the Red Hawks within three runs (5-2). That's when things ended with Vinges's strike out.

Maybe that was hard to believe, considering MSC ended the Pioneers hex the day before. Todd Sak was masterful, hurling a four-hit complete game as MSC stopped the Pioneers, 9-1.

Sak was in total command of the game from beginning to end and threw only 100 pitches. "He was outstanding. He really mixed his pitches well that day," said head coach Norm Schoenig of Sak.

Offense became a team activity in the romp. Rob DiLaurenzo and Martinez, the first two hitters in the MSC lineup, each contributed three RBI. Critelli went 2 for 5 with an RBI. He also made three outstanding catches in the ninth inning, two of them on acrobatic dives.

Shaun Kelty took the loss for WPC, who received two doubles from catcher Brian Detwiler.

MSC got the opportunity to beat WPC as a result of one of its' most outstanding offensive exploits of the year. A 10-run seventh inning, in which Critelli pounded a bases-loaded double, led the Red Hawks to a 14-9 victory over Rowan. With the win, MSC ousted the Pros from the double-elimination tournament.

Rowan came out of the gates like Secretariat, jumping all over T.J. Costello, Sak, Dippold and Chris Rampone for nine runs. Costello, at least had an excuse. After getting hit in the head in batting practice on Friday, he suffered a concussion and was not within his senses on the mound.

"The competitiveness of the game got to him," said Schoenig. "He pitched extremely well and very aggressively," said Schoenig of Critelli, who lowered his ERA to 4.80.

Critelli provided all of the support that MSC needed with an RBI single in the first inning, Mike Minucci added two RBI singles in the sixth and eighth innings.

The Trenton win was impressive considering the state of the Red Hawks after Friday's tournament opener against Rowan. Neil Johnson singled home a run in the 13th inning to lead the Pros to a 3-2 win over MSC.

Drew Yocum started for the Red Hawks and took a no-hitter continued on page 23

MSC's quest to return to Division III World Series begins

After being ousted from NJAC tourney, Red Hawks seek glory in NCAA's

by Keith A. Idec

The long journey towards the Division III College World Series begins this morning at 10 a.m. for the MSC softball team.

That's when the Red Hawks (28-9) - who knocked second seed in the NCAA tournament's Mid-Atlantic Regionals, will take on third-seeded William Paterson (24-13) at Rowan College in Glassboro.

MSC, who finished third overall in the nation last season's Division III College World Series, is certainly familiar with its foe. After sweeping the Pioneers in a double-header two weeks ago, the Red Hawks were upset by WPC, 8-6, in the NJAC tournament this past weekend.

Softball

on third-seeded William Paterson (24-13) at Rowan College in Glassboro...

Newport College of Virginia (28-9).

There are 24 teams that are split up into six regions with four teams apiece. The winner of each region proceeds to the World Series. The finals will be held at the House Warren Sports Complex near Millikin University in Decatur, Illinois beginning on Thursday, May 20.

The Red Hawks enter the NCAA's on a down note after a disappointing showing in the NJAC tournament. Trenton State easily won the tournament and defeated MSC, 4-0, in the first-round game last Friday. Since this tournament was also a double-elimination, the Red Hawks were still alive. MSC went on to defeat Rowan, 5-0, on Saturday but was bumped from the tournament by William Paterson. The win over Rowan boosted MSC's confidence because the Pros had swept a double-header from the Red Hawks on April 13.

The confidence should come in handy because Rowan is one of the roadblocks in MSC's path to the World Series.

MSC, ranked No. 7 nationally in the Division III coaches poll, has a good chance to pull off some post-season magic. With the two-pitcher rotation of Denise Warnock and Michelle Serio, a solid defense and a potent offensive attack led by Kristi Kuchinski, Kim Drager and Jennifer Flinn, the Red Hawks are sure to make some noise in the tournament.

Predictions often don't hold much water, but this team is certainly talented and deep enough to win the entire tournament. Of course, it's going to be a long and bumpy road to the title land. Some favorable bounces and luck will also be required to reach these lofty heights. Only time will tell, but these next two weeks should be showcased with success for MSC.

RED HAWK NOTES...

Kuchinski, was named the co-Player of the Year in the College Division by the New Jersey Intercollegiate Spring Coaches and Sports Media Association, along with Trenton State catcher Marie Cerran... Kuchinski was also named to the All-NJAC's A Division first team, as were teammates Flinn, Shannon Malone and Keri O'Meara... Warnock was named Rookie of the Year by the NJAC... MSC's 28 wins are already the most by an Anita Kubicka-coached team in the three-year stint as head coach... The team is hitting at an outstanding overall clip of .369, while opponents are only hitting a mere .272 off of MSC pitching... MSC finished the season with a 12-2 mark at its' own Quarry Fields.
