Prison-bound man dead on campus: suicide suspected

The body of the disbarred attorney was found in lot 17 over spring break.

By Dan Lombardi
Staff Writer

Police are currently investigating an apparent suicide which took place in campus parking lot 17 on Monday during spring break.

Police feel it was an overdose due to the lack of visible trauma to the body.

"It is an apparent suicide, there were no other external signs to indicate it was anything other than suicide," said MSU police Lt. Michael Postaski.

The body was identified as former Montclair real estate attorney Richard Weil, 54, who has been recently disbarred and indicted for allegedly stealing $153,299 from three former clients, according to anonymous sources.

"A passerby saw a body in the backseat of a car and it was not moving," said Postaski.

The passerby called the police, who opened the car. Weil was found in the backseat, shoeless and wrapped in a blanket. An apology note to his wife and children was also found in the car.

"The Montclair Police Department did have an alert out, with him as a missing person," said Postaski.

Weil had been missing since March 4.

"We don't know the cause of death at this point, it has not been returned (from the medical examiner)," said Mary Kuzinsky, press liaison for the Passaic County Prosecutor's office.

The investigation is currently being presided over by the Passaic County Prosecutor's office, because the body was found in a parking lot that was lying in a Passaic portion of campus.

Where does all of the money you spend on education really go?

Lesia Dnyterko, a Junior, pays a bill at the Bursar's Office window in College Hall to Pat Accocella, Principal Clerk Bookkeeper.

Blanton lab doubles; Bohn closes

By Megan Maffettone
Special to The Montclarion

A mixed reaction from students has developed since the January consolidation of Bohn and Blanton Hall computer labs.

Blanton, open 24 hours, seven days a week, now has eight additional computers, for a total of 16.

The reason for the change, according to Dave Fogg, Associate Director of Academic Technologies, was to cut down on the high costs of running a lab and hiring an assistant, and to provide more computers available.

Students from Bohn Hall are mainly concerned about the new inconvenience they face in having to leave their residences to get to a lab.

Tim Josephs, a Bohn resident, said the Blanton lab was crowded and inconvenient.

Another Bohn resident, Heather Chutsky, who only used the lab in her dorm to check e-mail before, says that now that the computers have been moved, "I don't bother checking e-mail anymore."

Blanton lab residents seem more pleased with the change.

Abraham Matthew calls the situation "a lot better than before," and Pam Weag, also a Bohn resident, says that since the change she has not had to wait for a computer.

Plans are now being considered by the architectural and engineering department to greatly increase the size of the Blanton lab, totaling 80 computers and additional hardware, such as a scanner and multi-media equipment, according to Fogg.

Fogg does not rule out the possibility of re-opening the Bohn Hall lab in the future.

The deadline to submit advertisements to The Montclarion is the Monday of the week of publication.

AD RATES

The Montclarion is distributed on Thursdays, and prices and terms are subject to the following Monday (samples for print ads must be received). Thirty (30) days are given for payment after the insertion date, after which a 15% finance charge is levied, to a 60 days, when accounts are referred to an outside collection agency.

BILLING

Office hours of Montclarion staff are posted in our office at the Student Center Annex Room 113, or call X5569 for office hours.

Advertise your story in return for promises of checks cashing and the purchasing of money orders is available every other Thursday in front of College Hall.

MSU POLICE REPORT

A 36-year-old woman was the victim of a possible suicide. Upon arrival a body was observed lying down in the back seat of a parked car. Paramedics responded and determined the victim was dead. Passaic County Prosecutor’s Office and the Essex County Medical Examiners Office was contacted and responded.

Wednesday, March 10

A male officer responded to lot 17 in reference to a possible suicide. Upon arrival a body was observed lying down in the back seat of a parked car. Paramedics responded and determined the victim was dead. Passaic County Prosecutor’s Office and the Essex County Medical Examiners Office was contacted and responded.

N. Korea agrees to weapons check

North Korea agreed to allow U.S. inspectors access to a suspected underground nuclear site, the U.S. State Department said Tuesday.

The U.S. has raised concerns about activity at the site violates terms of an agreement under which the U.S. has provided nuclear energy aid to N. Korea in return for promises that N. Korea has halted its nuclear weapons programs.

While insisting food donations would not be linked to any nuclear deal, the U.S. earlier this month pledged $500,000 tons of additional food aid. N. Korea demanded 1 million tons.

U.N. helicopter crash claims 13

All 13 people aboard a U.N. helicopter were killed when it crashed into a steep mountain in Haiti on route to Port-au-Prince Sunday night to pick up a Finnish tourist, a U.N. spokesman said Tuesday.

Tuesday morning, a U.S. Coast Guard team had found no survivors, said Coast Guard spokesman Fred Eckard.

On board were five Argentine police officers and an Argentine doctor serving with the U.N. in Haiti, six Russian crew members, and an American executive from the company that contracted the helicopter.

Life of nuclear waste plan may be cut short

The federal government could be compelled to start storing the nation’s nuclear waste in Nevada far sooner than it is now prepared to do.

The White House wants to focus money and effort on constructing a permanent disposal site, and thinks the thousands of tons of spent nuclear rods should remain at their respective power plants until a repository starts collecting waste in 2010. A new bill introduced by Senate Republicans, however, would require storing the nation’s nuclear waste at the Nevada Test Range by 2003, seven years before the White House wants to act.

Lyns resigns after conviction

The Rev. Henry Lyons resigned Tuesday as president of the National Baptist Convention USA, two weeks after being convicted of racketeering and theft in a scheme to milk the convention of $4 million.

Lyns is scheduled to be sentenced on March 31 on state charges, and he is still being charged in a $4-count federal indictment for extortion, tax evasion, and fraud.

SAGA NEWS & NOTES

- SAGA elections will be held 4/10 in Dickson Hall 9 a.m.-12 noon, 4/12 in College Hall 9 a.m.-12 noon, 4/14 in Student Center Annex 9 a.m.-3 p.m.
- The Conservation Club became a Class I organization.
- Services providing check cashing and the purchasing of money orders is available every other Thursday in front of College Hall.
- The following bills were passed: Sigma Delta Phi Class IV Charter, SGA Webpage Committee, Conservation Club Co-sponsor Appropriation, Muslim Student Association Appropriation, Gallery 3 1/2 Appropriation, Muslim Student Association Appropriation, Gallery 3 1/2 Appropriation, SGA Webpage Committee, Conservation Club Co-sponsor Appropriation, NJ Community Water Watch Appropriation
- Next week’s meeting will host VP Harry Schuckle speaking on how the administrative action to follow.

STABBING KILLS MOTHER AND SON

During a confrontation in his Chatham Township home on Saturday, Thomas Spranger, a 49-year-old messenger, fatally stabbed his wife, Karen Knispel, and their 8-year-old son, Kevin. He left his 3 1/2-year-old son Trevor bleeding on a sofa. Spranger then lunged at Sgt. George Petersen with the kitchen knife. Petersen shot and killed Spranger.

The son’s condition remained critical on Monday at Morristown Memorial Hospital. Sources said he seemed to be improving.

STATE recognizes young hero

Young hero, the State Assembly honored Glenn Edwards, 12, of South Orange for helping save his cousins and their neighbors from a fire that engulfed a two-family home last April.

Glenn was inside with his three preschool-age cousins, an 18-year-old baby-sitter and her infant when the fire, caused by a halogen lamp, spread through the first floor. He alerted the sitter, who saved her infant, before taking his young cousins outside. Glenn then went back inside and alerted residents of the second floor.

New GER to take effect for the Fall 2000 semester

By Brian Pedersen
Assistant News Editor

A change in the General Education Requirements, implemented by the University Senate, is expected to take effect Fall 2000, according to senate members.

Questionnaires were distributed to 432 eligible faculty members last semester. Out of the 301 who voted, 180 (59.8 percent) voted yes to the change, while 121 (40.2 percent) voted no, according to Dr. Helen Roberts, the Graduate Coordinator for the department of mathematics and computer science.

Instead of a total of 58 credits needed for the GER, students now have 57 required credits for graduation. 47 of these will remain the same while the remaining 10 will consist of these new courses.

This new curriculum includes a 1-credit course called New Student Experience, and 3 interdisciplinary courses dealing with contemporary issues in science, U.S., and international areas, Roberts said.

"The new GER is combining core experiences as well as the component of the major requirements. The major is separate, this doesn’t affect that at all," said Roberts. Roberts hopes that if every student takes these same courses, then each student could take part in a more unified learning community in which ideas learned in the classroom could then be discussed with other students.

"Our committee spent 4 1/2 years generating this new GER proposal. Now it's a matter of setting up the committee to implement this change and that will take time," Roberts said.

"I imagine in Fall 2000 it will be instituted," said Dr. Alyce Miller, professor of English and Chair of the University Planning Committee.

Miller was on the original committee that assessed the need for a new GER requirement.

"Our charge was to review the requirements and then see what colleges around the country were doing," said Miller.

Currently, the committee is in need of a chairperson to organize and implement the necessary stages of the GER change, according to Dr. Richard Wolfson, president of the University Senate.

Miller felt there was a great among students and faculty on campus that the current GER was not up to par. She hopes that this will soon change.

"First of all, what I’m finding is that this school has the most GERs to graduate that don’t necessarily help you," said Ursula Jessup, a communications major.

"If they are not comparable to the educational systems of our rival nations such as Great Britain and Japan, then it shouldn’t be implemented," Jessup said.

Wolfson insists that the purpose of a new GER course like the New Student Experience is not to add more credits or delay graduation, but to act as an orientation device for students. "The committee has worked very hard for a long time conceptualizing a new GER but the work is not over. We have a considerable amount of work left to make their vision a reality," Wolfson said.

as the beginning of each semester. At this time they stock shelves efficiently with plenty of new as well as plenty of used textbooks and Red Hawk paraphernalia.

"Book prices top students’ dislike about any bookstore," Flannigan said.

"Everyone would like books to be cheaper, but they’re that price everywhere you go," Carver said.

"Although there’s good merchandise and a friendly atmosphere, books are definitely overpriced," Sabrina Seger, a freshman biochemistry major said.

"They [the bookstore] don’t give you enough money back," Laurente Douze, a freshman biology major, said. "A fifty-dollar book should not bring back 10 dollars."

Statistics from the National Association of College Stores and the Association of American Publishers compiled 1995 data to explain how the textbook dollars are divided, Carver said. College Store Operations receive 7.6 cents of every $1 while the publisher’s paper, printing, and editorial costs are 32.2 cents for every dollar.

"There’s a perception that if a book cost $40, the bookstore gets $20, and they’re not," Carver said.

Before Follett was hired to operate MSU’s bookstore in 1994, Barnes and Noble submitted a proposal, Hewitt said, but school officials were unimpressed.

"We look at what’s best for the university," Hewitt said. "Dr. Cole will make the final decision based on several recommendations."
LET'S GET READY TO RUMBLE

Phonathon surpasses $50,000 goal

By Liz Voltman
Special to The Montclarion

The Annual Fund and Alumni Relations coordinated the Alumni Phonathon and raised more than $80,000 in pledges for Montclair State University, surpassing the $50,000 goal. During 12 evenings throughout February, over 50 student callers phoned MSU alumni to request critical, private financial support.

"Because the state provides less than half of the University's operating funds, the support raised annually through the Alumni Phonathon is vital to Montclair State's livelihood. The generous support received from alumni underwrites a variety of student scholarships as well as programming for campus-related events and the Alumni Association," said Barbara Krusko, Annual Fund Director. "These funds ensure that the University can continue to maintain the level of excellence it has proudly offered students since its founding in 1908."

"The success of this year's Alumni Phonathon can be greatly attributed to the enthusiasm of our loyal student callers and the generosity of MSU alumni. The students' energy and perseverance made them a pleasure to work with," said Joan Voltman, Phonathon Assistant.

"Participating in the Alumni Phonathon was a great experience due to the pleasant working atmosphere and it was great to see so many students working for such a worthy cause," said freshman Kristen DeNuzzo.

"Many of the alumni I spoke with were pleasant and glad to share stories from their days at Montclair State. I certainly plan to sign up to work the next phonathon."

When phonathon resumes in the fall, the Annual Fund once again will recruit MSU students to help raise these critical funds for the University.

Guilty plea given for campus sexual assault

By Kristin McAndrews
Staff Writer

A Newark resident plead guilty to criminal sexual conduct and endangering the welfare of a child after attending an off-campus party at Clove Road earlier this month, according to Star-Ledger reports.

Joseph Koehler Jr., 23, appeared in front of Superior Court Judge Joseph A. Falcone in a Paterson courtroom and plead guilty to the charged accounts. As the third of five people charged in the case to accept a plea bargain, he agreed to testify, opposing two other defendants in the case.

Koehler, possibly facing up to four years in prison, admitted touching a 15-year-old girl while two other men tried to have sex with her. All were drinking at the party that evening. The girl left the party and passed out in the nearby woods.

The others involved in the case, John Carmelo of Kearney, 22, and Deanna Stevens of West Paterson, 19, both arranged to testify in exchange for dropped or reduced charges.

The other two defendants, Antwain Curry, 20, and Sam Damato, 22, were also charged with aggravated assault.

The case is still in court and there will be upcoming trials along with present plea bargains.

"This is an isolated incident and we've had nothing like this since then," Lt. Paul Cell of the Department of Safety and Security said.

Summer Session 1999

4, 5 and 8 week sessions

Undergraduate and graduate day and evening courses in management, psychology, public service, accelerated languages, science, technology, education, religion, communication and more.

Travel-and-learn courses in the U.S. and abroad including Germany, Israel, Spain and Jordan.

* • • OFFICIAL RULES • • *

NO PURCHASE NECESSARY. Must be 18 years of age to participate.

HOW TO ENTER: You must be a student enrolled and attending a participating college or university. There are 2 ways to enter this Sweepstakes: (A) Complete and send full page newspaper advertisement where applicable to participating college or university. Secondary school students must mail in the newspaper advertisement in addition to completing the entry form. (B) Send completed entry form to: ESPN2 University Contest, P.O. Box 25086, Rochester, NY 14625-9832. Each entry must be mailed in a separate envelope and received by 4/15/99. No mechanically reproduced entries will be eligible and only one entry per person. Magazine/advertisement entries will be disqualified. Sponsor (ESPN) is not responsible for lost, late, illegible or postage due entries.

PRIZES: The Grand Prize is a 2 night trip for 2 to NYC with transportation to/from ESPN headquarters in Bristol, CT and a seat in a live ESPN2 SportsCenter show. Major prizes include: college fund, trip to Disney resort, or for the Grand Prize winner over $400. Check out more prizes on ESPN.com! Grand Prize winner will receive a trip for 2 to New York City, including round trip transportation, room and board, one dinner per day, and $200 cash spending money. Total Value (ARV) of prize is $3,000. Sponsor reserves the right to substitute prizes of comparable value if necessary. Fifty second prize winners will receive an ESPN Pullover or T-shirt, ARV-$40. One hundred third prize winners will receive an ESPN t-shirt or hat, ARV-$10.

TERMS/CONDITIONS: Prize winners/households. No transfer/substitution of prizes. Must be legal US citizen. Employees of ESPN, their subsidiaries, their advertising/promotion agencies, and immediate families are not eligible. All federal, state and local laws and regulations apply. Void where prohibited. Odds of winning depend on total number of entries received.

Winners will be selected in a random drawing under the supervision of The National Sweepstakes Co., an independent judging organization. Grand Prize winner & travel companion will be required to complete an Affidavit of Eligibility/Liability/Publicity Release, which must be com- pleted and returned within 5 days of notification. Winner agrees to release ESPN from any kind resulting from acceptance/use of prize offered.

This Sweepstakes is being run by The Nat’l. Sweepstakes Co., 690 East Ave., Rochester, NY 14607, which is responsible for its administration. No purchase necessary; decisions will be final, and for determining winner of prizes. For a copy of complete Official Rules, send self-addressed, stamped envelope to: ESPN2 University Contest, P.O. Box 25086, Rochester, NY 14625-9832.
Spend less on the cost of one-upmanship.

Attention all you competition-obsessed Type A personalities: The PowerBook® G3s are now priced to fly (see below). Whichever configuration you choose (233, 266 or 300 MHz), you’ll enjoy staggering improvements in your work efficiency. So you can outperform your friends, relatives and colleagues. While thoroughly delighting in their collective envy.

"WebDorm" provides students with an insider's view of college life

By Christine Tatum
College Press Exchange

The views in this dorm room are any thing but interesting. Just ask the one who lives here. He'll be the first to tell you there's not a whole lot to look at, unless you're really into watching someone sit and type and type and type some more. Oh, and maybe stream a guitar every now and then or chat with friends.

Welcome to WebDorm.com, an Internet site where the mundane aspects of student life are entertainment. Brought to the world by a start-up company based in Boston and called CollegeWeb, Inc., the site allows viewers to peek into the rooms of college students across the country. The project launched Feb. 1, featuring eight students who purportedly attend Bently and Trinity colleges, Brandeis and Cornell universities, the University of Vermont, The State University of New York at Albany and Rensselaer Polytechnic Institute.

"A "Great Lakes" version debuted Feb. 8 with students from Albion College and Bradley, Eastern Michigan, Illinois State and Oakland universities. Two weeks later, students from a few schools in Florida, the University of Central Florida, Florida and Miami and the State University at West Palm Beach, popped up. Company reps say they will eventually want everyone to see the private lives of students in their halls as well.

During the site's first week online, daytime viewers were hard pressed to find any of the students, who have assured aliases and are generally referred to as "Web Dormers," in their rooms. To give voyeurs something to look at, the students trained their cameras' lenses on piles of clothes, messy desks, and, in one case, a white wall.

Believe it or not, that's the beauty of it all, said Allison Mahoney, marketing manager for College Web. People who want to know more about what college life is really like, particularly high school students, can get a better idea by checking out the new site, where Web Dormers "chat with viewers on a regular basis and post journal entries about their ups and downs. (I got back with my girlfriend. Hopefully it will work out this time," one entry from a Web Dormer calling himself "Dog Boy").

And if that's not enough, visitors to the site can learn from each other by participating in chat rooms that are available even when none of the students on camera are at home, Mahoney said.

Chats during the first week included a peer review of the F-word and sexually suggestive comments to the people appearing on camera, particularly women, that College Web posted a statement warning that "lewd, crass, obscene, inconsiderate and harassing behavior is not tolerated and is noticed and logged at all times." The effort didn't seem to deter one visitor, who tried to lure a young woman seen in a Web Dormer's room into an online chat. "Who is babe at (the) computer?" the visitor asked. "She is a beautiful baby. Somebody get her on here. Hey...get her on here. Can you hear me you beautiful baby? If you can hear me, turn the brightness down because I can't see your beautiful baby face."

WebDorm is roughly the equivalent of looking online at an endless photo album. Images from Web Dormer's rooms don't come with sound and are updated every 30 seconds with help from a small camera that can be positioned anywhere or turned off anytime. A poster slapped across the door of each Web Dormer's room warns visitors that they will be on camera once they enter. Why would anyone subject themselves or their buddies to such scrutiny?

"I really like being known and getting to know other really nice, intelligent, people," said one Web Dormer from Brandeis who is using the alias "Smooch." "I didn't think this would negatively impact me or my friends because I have discretion over what I am going to let the camera see. And I'm not going to be getting dressed or naked in front of it. And there will be no major displays of affection. If I don't want people to see something, I can point the camera at my books or some stat-
The “Acclaimed Brazilian Maestro”: Nelson Nirenberg

By Vanessa Benfatto
Staff Writer

With hands and heart, Nelson Nirenberg leads MSU’s orchestra to dramatic crescendos. As director of the Orchestral & Conducting Studies Program and Associate Professor of Music at MSU the “Acclaimed Brazilian Maestro...” as Jornal de Commercio titles him, feels passionately about having his students succeed. “I care for them [the students] as if they were my own. I want them to learn as much as possible and enjoy the learning process. To learn, however, one needs focus, an open mind and willingness.”

How does the professor/conductor/director get students to open themselves and commit to their work? Nirenberg adamantly professed, “You may think you are only a grain of sand, but every star shines...each one of you can make a change.” Maybe it is Nirenberg’s early successes that cause him to push his students toward dedication. At age 15, he was the youngest musician ever to perform and tour with the World Symphony Orchestra. Nirenberg was already a conductor and soloist at the Interlochen Festival and in Israel with the World Symphony Orchestra. Nirenberg is about being professional and teaching his students to be. He stresses to his students the serious opportunities they have to create something wonderful if they apply themselves and make music number one in their lives. Perhaps his passion and dedication generates to his students, or perhaps he helps students see that they have the ability to further their talent. Everyone does have potential if they are willing to work.

“I labor laziness,” says the professor of Orchestra and Introduction to Music and Conducting. He wants to see his students succeed and he is determined to see the music played with passion so he admits it is a “tough love,” with his students. Nevertheless, student Anthony Peeples wrote in a letter to Nirenberg, “...you, the professor, tried and succeeded in helping us, the students, in achieving our maximum ability. You emphasize to us that we should never go through life doing things halfway, or just for simple benefits. We should put our minds and souls into what we do and try to get the most out of it.”

Many students expressed their knowledge of Nirenberg as professional and experienced. Student Carrie Howe writes on taking a class with Nirenberg, “[It was] a fantastic learning experience! I feel you have a tremendous amount of knowledge of the music world and to share this with us is fantastic.”

The “fiery passionate soul,” as Noticias del Mundo described him, stays at MSU because of the possibilities of the program and the students. Not only is it a wonderful experience for him to be close to the cultural city of New York, but Nirenberg feels the faculty members are interested and enthusiastic about seeing the students succeed. One of the missions Nirenberg believes artists have is to share their professional experience with the next generation. “When they leave my class I hope they’ve accomplished something.”

“Whatever you do in life, you must do with a passion.” affirms Nirenberg. Indeed, “When your heart is in your dream, then no dream is too extreme.”
Eligibility Requirements

2. Junior, Senior, or Graduate class standing (must have 58 earned credits as of January 1, 1999).
3. Active participation in the programs, services and/or activities of the University community. This could include such things as membership roles in student clubs or organizations, volunteer activities on campus, tutoring, or participation on an intercollegiate athletics team.
4. Demonstration of leadership ability. This could be evidenced through participation on an executive board, coordination of a conference, organization of a new club, or elective office of some type.

Application submission deadline is Wednesday, March 24, 1999.

Use the application below or applications are available at the Office of Student Activities (Student Center Room 104/Commuter Lounge).

For additional information contact: Chuck Feiner 655-7565.

Montclair State University Who's Who Application 1998-99

"Who's Who Among Students in American Universities and Colleges"

The information provided will be subject to verification by the Who's Who Committee.

Student's Name: ____________________________ Major: ____________________________
University I.D. #: ____________________________ Grade Point Average (must be at least 3.0): __________
Address (Home): ____________________________ Total Credits Earned as of Jan. 1 1999 ___________
Address (Campus): ____________________________ (must be at least 58 credits): __________
Telephone Number: ____________________________

Please list below all University activities, Honors, Awards, or Scholarships which you wish to present as evidence of meeting the requirements for inclusion in Who's Who. You may include a resume.

1. _______________________________________
2. _______________________________________
3. _______________________________________
4. _______________________________________
5. _______________________________________ 

I certify that the information supplied is true.

Signed: ____________________________ Date: ____________________________

PLEASE SUBMIT THIS FORM TO CHUCK FEINER, DIRECTOR OF STUDENT ACTIVITIES, STUDENT CENTER ROOM 104, NO LATER THAN WEDNESDAY MARCH 24, 1999.
It was Eddie’s first day back from drug rehab. He’d been clean and sober for thirty days. He was scared about making it outside. But he found support in the community.

Treatment programs and people like you help Eddie and kids like him stay away from drugs. Eddie knows it’s one day at a time. He also knows he doesn’t have to do it alone.

LESS CRIME IS NO ACCIDENT
It takes you — and programs that work.

Call 1-800-WE PREVENT, and we’ll send you a free booklet on how you can support programs in your community that keep kids away from crime and crime away from kids.
The Push Stars, an upcoming band from Boston, might just have what it takes to be successful in the music industry. Their 7-song EP called Tonight, a self-released album, not only shows their dedication to their music, but their talent as well.

The Push Stars lead vocalist and songwriter, Chris Trapper, has a unique sound much like that of the lead singer of the Counting Crows (Michael Duritz), which blends well with the well-written, folk infused pop songs that resemble the likes of bands such as Bare Naked Ladies and the Lemonheads. Backed by bassist Dan McLoughlin and drummer Ryan MacMillan, The Push Stars have created a wonderful alternative to the latest trend of sound much like that of the lead singer of songwriter, Chris Trapper, has a unique sound, using quick lyrics, catchy rhythms and bass lines, snappy drums, and vocal harmonies, and never losing that slight folk feel to the music.

If you're still not sure if The Push Stars are for you, you can check out the independent film "Origin of the Species" that includes the song "I'm a Fool (And That's Okay)," found on Tonight. If independent films, or film watching in general is not for you, you can also find one of their songs ("Everything Shines") on the soundtrack for the blockbuser movie There's Something About Mary, released by Capitol Records. This soundtrack also includes songs performed by The Dandy Warhols, Joe Jackson, The Propellerheads, Lemonheads...

The last song of the CD, called Meet Me at the Fair, has a slight different feel to it which might catch some listeners off-guard. This is not to say that the music contained in the last song is bad. With more of a acoustic sound that resembles Phish, this song in no way loses the folk style, but changes it to show just how versatile this band really is. Slowing down the pace and creating a lighter sound to the instruments, changing the vocal quality, and incorporating more keyboards shows how The Push Stars can change their sound around and still appeal to the listener. Also included on the CD is the song "Counting the Minutes" which brings in the Bare Naked Ladies sound, using quick lyrics, catchy rhythms and bass lines, snappy drums, and vocal harmonies, and never losing that slight folk feel to the music.

This is not to say that the music contained in the last song is bad. With more of a more slightly more upbeat tempo and catchy sound. Keyboards are added to the song "Any Little Town," as well as a few others, by bassist Dan McLoughlin, adding yet another sound, element and talent to this already gifted band.

The Push Stars shine with the release of Tonight...
Cruel Intentions will leave you breathless

By Dominick Banks
Staff Writer

In the tradition of Dangerous Liaisons, Cruel Intentions is definitely the new once-bitten, twice-shy, all too familiar story of ultimate deception and treachery to the greatest extent imaginable. The film stars Sarah Michelle Gellar (The Buffy the Vampire Slayer) who portrays the Vampy sire with extreme excellence and Ryan Philippe amazes the audience in his role as the master manipulator who was outswindled by his own stepfather.

The film does exceed the limits of eroticism and the issue of sex in every shocking detail. There is also the issue of homosexuality which refers to Blaine Tuttle (Joshua Jackson), Sebastian's gay confidant who seduces Ronald, and a lesbian encounter between Kathryn and the naive and innocent Cecile (Selma Blair) which includes intense tongue-kissing.

Cruel Intentions provides entertainment for the audience. The cast was well-chosen, and the plot was crafted with efficient ingenuity. I give this an A+ for its realistic exploration into a world where lust, the need to dominate by sexual means, and revenge can bring out the worst in any young adult.

Caribbean In My Sol debuts

By Dominick Banks
Staff Writer

On March 4, renowned Caribbean artist Peter Wayne Lewis made his grand appearance in Catskill auditorium to give a lecture on his artwork. Lewis was born in Kingston, Jamaica, and emigrated to California in 1962. Since then, he has dedicated his life using his talent for art to create abstract pieces. His works are focused around geometric patterns, which represent birth, sacrifice, hunting, and the browns may represent the earth and the blues may represent space. The work can be broken down metrically intriguing figures that define his work has expanded to many countries and is definitely the new secret weapon to manipulate those around family and friends.

The movie becomes intriguingly entwined the two as a make a bet on whether Sebastian can seduce the beautiful and chaste Annette (Reese Whitherspoon), the object of his infatuation. Annette has dedicated her life using her talent for art to create a symphonic visual work. It is a three-dimensional portrayal of Sebastian Valmont, the ruthless and cunning manipulator who tempts his innocent and pure female prey by deviously sex and lustful persuasion.

Sebastian uses his charm and sexual strategies to persuade Annette's mind with impure thoughts of intercourse. However, Sebastian is shocked to discover that Annette is no fool. She reveals to Sebastian that she sees right through his pretty boy image and his scheme to sleep with her. However, Sebastian doesn't give up easily in his conquest, especially with Kathryn using her body to further entice Sebastian.

Let us hear the music play

Soloist Alexander Knox on clarinet at Monday's Music Rehearsal.

By Vanessa Benfatto
Staff Writer

Ah, the trials and tribulations of MSU's orchestra rehearsals! The members strain for perfection under Nelson Nirenberg's conducting. Although it is hard for many members to live up to Nirenberg's expectations, "It is nice to work with a seasoned professional," said ex-percussion member, Jamie Szeinberg. Also, there is a certain amount of satisfaction performing in a concert, and having all of the semester's hard work pay off.

For music majors, being a part of the orchestra means having "orchestra class" which is four to six hours of practice each week that is only worth half a credit. For is it? Orchestra experience, a taste of professionalism, and the practice and recognition perhaps gained from the commitment is worth more than students may ever know. For, in any art there is a degree of sacrifice and commitment.

Despite the setbacks, being a part of the orchestra is a privilege for many. Each semester, the orchestra puts on one concert. This semester marked a rare occurrence with a competition for selected soloists to perform in this spring's concert of concertos. Piano professor, David Witten, explained the significant meaning of concerto, "Concerto is one soloist against the orchestra...David vs. Goliath, the solitary hero faces the crowd...." These pieces not only symbolize the emotion of the times, but they show the remarkable ability musicians have to work with a group and be supported, but also, "...know when to shine above the orchestra alone," said ex-member and trumpet player, Christopher Rice.

This concert features many invigorating pieces like Mozart's Clarinet Concerto in A Major, and Mendelssohn's Violin Concerto in E Minor. The result of the competitions are violin soloists, Chris Nam and Magda Czakowska, clarinet soloist Alexander Knox, piano soloist Salatauro Mallino, trumpeter soloist Joe Stella, and tenor soloist, Peter Boul.

Knox, a player of three instruments, a First Chair in All State Wind Ensemble and Orchestra, and a participant of the Philharmonics of Southern New Jersey, "Likes seeing a reaction and creating something unique."

What is the appeal of music besides its incredible power to promote feeling and thought? Well, to some students like Knox, "It comes naturally to me." Maybe music is a key to the true genius in all of us. With music, one may enter a deeper level of imagination and a higher expansion of realism. When listening to music each individual can fade away into whatever world he or she wants. As Nirenberg said, "Where words end, music begins." May the orchestra members succeed in creating their own musical language gauge and provoking passion and sparking their audience's imagination.

These exciting performances will take place in late April for those wishing to attend. The Collegium Musicum Concert will be held on April 24th at 8p.m. in McEachern Recital Hall, room 15. The Orchestra Concert will be held on April 26th at 8p.m. in Memorial Auditorium.

The Voice of Montclair State

Do you think that underage and binge drinking are a problem on campus?

No, the administration makes it out to be worse than it is. Nothing is going on that hasn’t been happening for the last 30 years on college campuses. Chris DeMarco, Psychology

No, I definitely think it occurs a lot but I don’t see it as a problem... People have fun... This is college, right? Allison Ordino, English

Yes, I think both are prevalent on campus, whether it is a problem or not remains to be seen. Austin Harclerode, Geo Science

No, I think underage drinking in high school was a problem but, in college, it’s a whole new ballgame. And if it’s a problem, me and about 10,000 other students are guilty as charged. Davis Cruise, Business

No, because college is the only time when we can have fun... but we also have to know our limits. Eva Cirilo, Undeclared

No, it’s college. You’re supposed to drink. It’s not as if it’s out of control. Ana Lottorno, Undeclared

No, because I learned that only 35% of students on campus binge drink. Is that a problem? I don’t think so. Katie Masarits, Undeclared

Question of the Week:

How do you feel about the Bohn Hall computer lab being moved to Blanton Hall?

Let your voice be heard!
Call 655-7616 or e-mail VellucciJ@alpha.montclair.edu to respond.

Through Hell, High Water or Blizzard, Classroom Doors Remain Open

Despite on-campus accumulations of up to eight inches of snow by Monday morning, MSU decided to stand firm and keep the doors to its classrooms and facilities open. Even though maintenance workers from the Physical Plant began shoveling walkways and plows took to campus parking lots as early as 11 p.m. on Sunday, residents and commuters alike found that the first day back after Spring Break was anything but easy.

Signs were posted announcing the cancellation of individual classes (a familiar sight even with the lack of a campus-wide closing), commuters were left sitting in hallways, unable to return to cars buried by snowplows. Despite the efforts of Physical Plant employees, residents still complained of dangerous patches of ice. Officer Frank Marino, from the Department of Campus Safety & Security, was struck on the head by sheets of snow falling from the roof of College Hall as he tried to barricade a pedestrian walkway. As reports were confirmed that New Jersey City University, located in Jersey City, had closed and William Paterson University, in Wayne, delayed its classes until 11 a.m., MSU students were left to wonder... Why?

The closing of a university is a costly venture. Teacher and administrators are paid whether they spend the day on-campus or not. Food Services still needs to cater to the 2,000 students who reside on-campus, though the C-Store, Rathskeller, and dining halls are not able to make the money that they would on a day when commuters regularly stop in between classes. Events need to be rescheduled; meetings moved. But, in the end, how can we put a price on student safety?

A delayed opening might have been the answer. Though campus roads, as well as highways and main roads throughout Montclair, Clifton and Little Falls, were in great shape by 8 a.m. on Monday morning, horror stories from commuters were still present. One commuter, travelling up the Garden State Parkway, said that she had to leave even earlier in the morning, anticipating traffic, only to find that the plows had yet to hit the streets of her hometown.

In the case of inclement weather, according to the 1998-99 Student Handbook, “Students should assume that all courses will be held as scheduled. In case of a severe storm, daytime classes may be cancelled, but evening course are usually held.” Montclair is hardly Maine and snowfall amounting to anything hazardous to attending class is rare. We ask that the next time that foul weather hits MSU, the administration thinks twice about the safety of students and faculty struggling to get to campus in inclement weather, and not worry as much about how a closing will affect the lining of their pockets.
Weighing Racism Against the Morality of Christianity

There is a philosophy insistently making its voice heard in this country, and I am not ashamed to say that it terrifies me. In Illinois, a man named Matthew Hale has tried to become a practicing lawyer. The problem with this is that he is a white supremacist, the self-proclaimed Prime Minister of an organization known as the World Church of the Creator. He does not allow non-whites into this church as members and lives according to the tenets of his "White Man's Bible." He was an abominable fiend. If I saw him, I do not know how I would be able to restrain myself. He was the most evil man in the history of the world. He was an abominable fiend. If I saw him, I do not know how I would be able to restrain myself. He was the most evil man in the history of the world.

All human lives have value, regardless of how smart or stupid, practical or foolish, fat or pretty, good or evil a person may be.

The inherent worth of human life is not something else can be done to make it better. People who have taken the lives of others will face "the highest court, in human hands, but should be left to God, as He is the Almighty and the only one who decides whether a life is an act of God."

Drunk drivers are considered dangers for three main reasons. 1. They are a threat to themselves and other drivers. 2. They pose a greater risk than do drivers who obey all traffic laws. 3. They are less attentive and slower to respond to other focused drivers.

It makes sense that the city wishes to prevent said people from driving, but applying this logic to other problems - for example, people with a "learning disability" - is an entirely new debate. For the sake of argument, a driver driving twenty miles over the speed limit can be viewed as a threat to others. Such a driver is most certainly a greater risk than one driving the posted limit, since the posted limit is what the traffic laws allowed, and the traffic laws would allow a government agency to seize a vehicle because its driver received his/her first speeding ticket.

In the March 8 issue of The New Yorker, Malcolm Gladwell notes that "two studies made in the past three years . . . suggest that the use of car phones is associated with a four-to-fivefold increase in the risk of accidents." Does this mean a person using a cellular phone while driving should have their car taken away from them? What about someone is eating while driving? Or someone trying to drive and follow directions at the same time? The logical progression of steps leads towards the absurd.

How does the policy affect the person acquaintance who changed his/ her mind? A person is not guilty of driving under the influence because they "saw a man; they got a grip on the car and hit him." (Quran 2:189:9) The fate of one individual's life should not be held in human hands, but should be left to God, as He is the Almighty and the only one who decides whether an individual lives or dies.

The life of a woman is equal to that of a man and should not be held in any less regard. Men should not take precedence over women, nor should women take precedence over men. Men and women are of the same family, and as such have similar rights and duties, and their Lord promises them "Never will I waste the work of a woman among you, whether male or female, the one you being from the other." (Quran 3:195)

Islam rests on two basic principles: the belief in Allah as the One and Only God, and the belief in the equality of all human beings. It is a religion that is based on the teachings of the Prophet Muhammad (PBUH), who stated that "There is no compulsion in religion." (Quran 2:256)

Weighing Racism Against the Morality of Christianity

THE 1999 SGA EXECUTIVE BOARD ELECTIONS

IMPORTANT DATES:

March 4th - Petitions Available
March 26th (12 noon) Petitions Due
March 29th (5:00 pm) - April 14th - Campaigning

VOTING:

April 10th - 9am to 12 noon in Dickson Hall
April 12th - 9am to 4pm - Student Center
April 12th - 5pm to 9pm - Blanton Hall
April 13th - 9am to 9pm - Dickson Hall
April 14th - 9am to 3pm - Student Center

Petitions are available outside the SGA office in the Student Center Annex!
Don’t forget to vote!
Timothy kept going over and over the concepts in his mind. His eyes were winding and replaying it. Still it made no sense. How could he possibly have said something like that about Mayor Lyder, his boss and the man who had made Timothy campaign manager in his quest for governor? It must have just slipped out.

He had been nervous all throughout the fund-raising dinner. After all, there were so many important people in attendance, the kind you normally only read about in newspapers. But now, Timothy stood before them and watched them chew down on their Meg and grunt at the very expensive Maine Lobsters. Their ‘they darn well better vote Lyder after a meal like this’ lobs.

"Ladies and gentlemen, please welcome a man who has recently achieved critical acclaim, as well as critical mass..."

The entire room seemed to suddenly disconnect from the rest of the universe and world. Timothy thought about saying something profanity that he’d just heard hadn’t come from his mouth, but he knew they had. He managed to speak out the rest of the introduction before returning measly to his seat, but no one heard of word of it, nor did they hear a word of the mayor’s speech. They were too flabbergasted to pay attention.

The morning, all the papers ran the story. "Campaign Manager Opens Big Fat Mayor," "Mayor in Load of Trouble," the reporters pulled no punches. One thing was for sure, no one was going to watch a man who was losing his weight problem anymore.

Timothy arrived at work the next day to find his possessions thrown out on the sidewalk, including his goldfish. He went into the shop next door to give his pet a Valentine’s Day treat. Timothy was supposed to watch his weight, but he wished there was more of it on television. Say, perhaps, on that brand new network, PAX. Maybe it could have a cast consisting of comedians afraid of cancer. Miss in one or two budding professionals, outfit them by one of today’s hippest clothing outfits, and obtained the only copy of your life's story. "Campaign Manager Opens Big Fat Mayor," "Mayor in Load of Trouble," the reporters pulled no punches.

One thing was for sure, no one was going to watch a man who had been watching his weight anymore.

On his way, he punched a clown. He knew they had special about him except for his "talent" to fart Budweiser theme songs? At a certain point, he had to get out of the city as quickly as possible. He wasn't quite as gratifying. For your entrance. "Yes, fool," I finally permitted yourself to enter the house without a key. I silently hoped it would bleed. I looked down coldly upon him. "Heed me well: I do not want you to come into my presence-he never did. He was pleading with a wave of my hand.

His death was ultimately ruled accidental. Many people speculated about suicide, but nobody actually went through with it. Timothy was remembered for a day or two, fondly by some and bitterly by others. Mayor Lyder went on to marry the race for governor, retire from politics, and immerse himself in Syd Barrett-esque seclusion. He is occasionally seen in public.

It was later learned that the train that actually went through with it. Timothy was remembered for a day or two, fondly by some and bitterly by others. Mayor Lyder went on to marry the race for governor, retire from politics, and immerse himself in Syd Barrett-esque seclusion. He is occasionally seen in public.

This repulsive form of human being could not possibly enter my presence-he never did. He was pleading with a wave of my hand.

"Aren't you gonna let me in?"

"No."

"How about you kiss my..."

"Yeah right you never liked it anyway."

We were speaking through the doggy entrance so I decided to turn on the window where I had leverage over him. I looked down coldly upon him. "Heed me well: I do not want you to come here again!"

"What?" He asked stupidly. He bucked his head against the window pane of the rose bushes and poison ivy. I didn’t know it was poison ivy. I just smiled.

"Go propel your head through the toilet and flush it out. We are in the baby! Finished! Done! Kaput!" Capi.

"You don’t want to see me anymore?"

"Rational-Ron reasoned in desolation. His mouth gaped open like a codfish."

"Me! I think he’s got it by love! I say..."

"Why you little- after all I’ve done for you..."

Since he was clinging to the edge of the windowsill, I decided to slam on it his fingers at that idiotic remark. He bellowed in pain. I jumped off the window, and caught unaware, he lost his grip on the edge and went sailing into the prickly rose bushes. There came another howl of agonizing pain.

I stuck my head out the window and cried, "Tsk, tsk! You ruined my mother’s window..."

He glared up at me while scratching himself and trying to shake leaves off of him. He looked as if he was about to at least get him some Tylenol. What a stupid question! I seemed to give the matter some thought. He looked as if he was about to at least get him some Tylenol. What a stupid question! I seemed to give the matter some thought. He looked as if he was about to at least get him some Tylenol. What a stupid question! I seemed to give the matter some thought.

He was afraid to comment on the mayor’s death, which was no surprise. It had been a non-event. He had to get out of the city as quickly as possible. He wasn't quite as gratifying. For your entrance. "Yes, fool," I finally permitted yourself to enter the house without a key. I silently hoped it would bleed. I looked down coldly upon him. "Heed me well: I do not want you to come into my presence-he never did. He was pleading with a wave of my hand.

"Aren't you gonna let me in?"

"No."

"How about you kiss my..."

"Yeah right you never liked it anyway."

answers
We are pleased to announce that once again the Student Government Association, Inc. of Montclair State University in conjunction with ArtCarved College Jewelry, will be awarding six (6), $500 scholarships. These scholarship grants will be awarded to current undergraduates for the 1998-99 academic year.

The SGA is a corporation run entirely by students. The scholarship fund is one of the many projects the SGA has undertaken to reward student leadership and to enhance student life of Montclair State University.

In order to qualify for this scholarship, you must meet the following criteria:
1. GPA of 2.7 or higher
2. At least 42 credits completed by January 1999
3. Currently Sophomore or Junior (status).
4. Demonstrated leadership within SGA affiliated organizations and/or legislature.
5. Shown involvement in the above criteria.

THE DEADLINE IS FRIDAY, APRIL 2, 1999
As an egg donor, you can help a couple be what they’ve always dreamed of being—a family.

After you have completed an egg donor cycle, you will be compensated $5,000. To qualify, you must have medical insurance and be able to provide your own transportation to and from the hospital.

Residents of New York can have screening and daily monitoring tests performed locally by a physician practice which is associated with the Institute.

For more information on being an egg donor, please call 1 (800) 824-3123.

We’re right here when you need us.

MSU Hockey eliminated in first round of playoffs

By Erin Dasenbrock
Staff Photographer

Over spring break, the Montclair State University's club ice hockey team had something other than warm weather on their minds. They skated against Monmouth University on Sunday, March 7 in Wall Township's ice rink. This was the first game of the playoffs for Montclair State. 1998 marked the first time since the '80s that MSU had a hockey team. The Red Hawk team competed in the Metropolitan Collegiate Hockey Conference (MCHC).

The team lost several players mid-sea­son due to strict grade policies, but successfully continued the season playing “front man hockey” only having enough players for two line changes. A few injuries also took a toll on the team.

The Red Hawks had an idea of what was ahead of them after playing Monmouth University earlier in the season. Although Monmouth had beaten them the two games that they played in, “It’s hard to beat a team all three times,” said defenseman Curt Banicki.

Monmouth University scored again and took the lead by two. However, Montclair State still had some fire in them. They took some penalties for tripping and high sticking. At 9:32, forward Darren Kester scored their third goal showing that the Red Hawks weren’t going to be considered out of the game just yet. Monmouth State’s goalie Pete Perkowski kept them in it with numerous saves. The fire that kept them alive also punished them towards the end of the third period. With two more penal­ties for roughing and cross-checking, Monmouth scored again with the advantage of a power play.

Although Monmouth University beat MSU, the Red Hawks proved on the ice that they did earn the right to play in the play­offs.

“Coming into the season as a first year team, our potential was doubted by every­one in the league. Despite the outcome of the playoffs, we surprised everyone by get­ting as far as we did,” said defenseman Matt Calderone.

Your success is our success...
East Stroudsburg cruises past Montclair, 18-5

Warriors’ Macauley leads surge with four goals and four assists

By Tess Sterling
Sports Editor

East Stroudsburg junior Megan Macauley scored a game-high four goals and had four assists, while teammates Kelley Lambert and Kristen Restivo added four goals each to steer the Division II East Stroudsburg (1-0) past Division III Montclair State (1-2), to an 18-5 victory at MSU’s Sprague Field this afternoon.

Macauley’s first goal came as an unassisted tie-breaker after the Red Hawks opened the game with three goals over the first 11 minutes of play. The Warriors’ first point on the scoreboard was an unassisted goal at 12:07 by junior Lambert. East Stroudsburg then went on an 11-0 run to end the first half. In that scoring drive, Macauley not only scored the Warriors fourth goal to put her team ahead for good, but also made three of her assists and two additional goals in the half for the halftime score of 11-3.

East Stroudsburg was also led by sophomore Kim Niles who recorded a hat trick and one assist, while senior Toni Lentz had two goal in the victory.

For the Red Hawks, sophomore attack Vicki Gangemi and sophomore Jeanelle Husth were superb as Gangemi recorded a hat trick, and Husth had a goal and three assists. Teammate Sharon Sabatino also scored a goal.

Montclair State’s Women Lacrosse team will return to action on Saturday, March 20, 1999 to take on Cabrini College of Pennsylvania. The game will commence at 1 p.m. at MSU’s Sprague Field.

MSU starts season with 1-1 split

By Tess Sterling
Sports Editor

Freshman midfielder Chris Kornacki led Montclair State with six shots, two goals and two assists, while teammates Rick Testa, Adam Torri, and Nick Bombadier added two goals each in a men’s lacrosse game against Lycoming College of Pennsylvania. Despite the nine goals for MSU, they came up four short for the win. The Red Hawks managed to even their record to 1-1 after going up against Wheaton College of Massachusetts on Tuesday night at a game played on MSU’s Sprague Field. The game ended with the score 14-7 in favor of Montclair.

In the game on Tuesday night, junior midfielder Steve Urbanowycz led the charge with six shots on goal, five goals, and one assist. The first goal of the game was scored by Testa on an assist by Torri at 12:02. Wheaton answered with a goal of their own at the 14:23 mark. This was their only goal of the first quarter, which left the score at 3-1 at halftime.

The Red Hawks did most of their damage in the fourth quarter outscoring Wheaton 5-3. This quarter also saw a lot of physical competition with five penalties handed out.

For MSU, Testa finished with six shots on goal and three goals, Torri had 4 shots, one goal and one assist, Kornacki had six goals, two shots, and two assists.

In the game against Lycoming, the first goal of the game was scored by the team from Pennsylvania with 11:50 gone in the first quarter.

In the loss for MSU, Testa had three shots on goal and two goals, Torri had four shots and two goals, Kornacki had six shots, two goals, and two assists, and Bombadier scored two goals on two shots.

The Red Hawks will return to action this Saturday against Lasell, MA. This game will be played at MSU’s Sprague Field and will start at 4 p.m.
