Sprague Library Strengthens Laptop Renting Rules

With the OIT’s changes to laptop lending and printing outside of Sprague Library, students will be allowed to take laptops borrowed from Sprague Library outside towards Cafe Diem with new restrictions and fines for late laptop returns. Borrowing a laptop from Sprague library follows the same protocol as last year. The fine print on the new Laptop Lending Policy, placed in plastic protective stands on the checkout desks informs students of the changes. The changes include self-explanatory rules concerning from time allotted for loans, saving instructions, printing and potential damage fees. The biggest change is in Statement of Liability. All of the rules have been in effect since Sept. 1.

When a student borrows a laptop, the borrower is agreeing to the terms and conditions of this policy. Now, if the laptop is lost, stolen, damaged or not returned by its due date, the borrower is agreeing to the terms and conditions of this policy. Now, if the laptop is lost, stolen, damaged or not returned by its due date, the borrower is responsible for the replacement cost of the laptop and potential damage.

New Interactive Statues Light up the Amphitheater

As seen in the MSU Amphitheater, the new installment includes 36 red pillars composed of multiple sensors which give off various sounds. The sounds range from the wild jungle life to the relaxing rainforest, even miscellaneous horns. The sparkling lights twinkle mystical shades through the outdoor theater that invites passersby to take a closer look.

As I walked by I had to pause to see the colors at their best, students go at night to interact with the statues. The white statues have been added onto the scene of the south end of campus.

Whether passing by to go to class or walking to the Red Hawk Deck, missing the opportunity to escape to this magical sound and light installation would be a mistake.

On Aug. 31: An MSU employee reported the theft of her potters wheel from the sculpture studio in Calcia Hall. This case is under investigation.

On Aug. 31: Students Andrew Baczynskyi and Mark Salerno were charged with underage possession of alcohol while in the Bohn and Blanton Hall Quad.

On Sept. 1: Reid Coopersmith, Robert Bartow, Alyssa Correr, Reagan Heller, Casey Gizzo and Catherine Menendez were charged with underage consumption of alcohol while at Hawk Crossings.

On Sept. 2: An MSU employee reported the theft of a Blu-Ray player and WiFi system from a projection booth in Calcia Hall.

On Sept. 2: A Blanton Hall resident student reported the theft of her room key and cash was removed from her wallet.

On Sept. 2: A student reported the theft of his parking hang tag from his unlocked vehicle in Lot 28.

On Sept. 2: A student reported the theft of his wallet containing personal items and $80 in cash from his unlocked locker in the Men’s Locker Room at the Campus Recreation Center. MSUPD would like to remind those who use the Campus Recreation Center that they should not leave personal items in unlocked lockers.

On Sept. 3: Lauren Wollyn was charged with simple assault for striking a fellow student with a closed fist on Clove Road.

On Sept. 3: A student reported the theft of her parking hang tag from her unlocked vehicle in Lot 27.

On Sept. 6: Andrew Flores was arrested for possession of drug paraphernalia and for being under the influence of marijuana, while in Blanton Hall.

SGA Notes

SGA will have another meeting next Wed., Sept. 15.
President Cole’s Welcome Message should have run in our 9/2/2010 print edition. The Montclarion apologizes for the mistake.

PRESIDENT COLE’S WELCOME MESSAGE, FALL 2010

Welcome to the 2010-11 academic year at Montclair State University. Whether you are a residential or a commuting student, I encourage you to spend as much time on campus as possible and to pursue your studies with diligence. To ensure a successful year, I offer the following advice.

1) Take responsibility for your University life! Although your parents and other family members want to assist you, an important part of the University experience is developing your ability to tackle challenges and problems on your own. Begin to build your own network of advisors and resources to enable you to realize your ambitions, and work at getting the information you need and speaking up for yourself — respectfully, of course.

2) Ask questions! If you have questions, ask. Ask your professors, your advisors, your Student Government Association (SGA) leaders. Ask the professional staff members who are prepared to guide you through all the requirements that organize our lives here on campus. So when in doubt and when you are confused, just ask.

3) See your academic advisor often! Advisors for new students and for returning students who have yet to declare a major are located in Morehead Hall. Advisors for students who have already declared a major are located in their department, college, or school. If you do not know who your advisor is, log on to WESS at www.montclair.edu and click on “Faculty and Advisor Self-Service.” If you are still not sure, go to Morehead Hall and ask. First-year students should make every effort to develop a relationship with their first-year counselors. These individuals are the staff members who worked with you during your summer orientation, and they will be there for you during the entire academic year. Your first-year counselor can be found through the office of New Student Experience in Morehead Hall. Make yourself known to the people who are here to help you. I assure you that they want to know you, and they genuinely want to be of assistance to you.

4) Get involved in at least one significant campus activity! Students who are active in campus life are more likely to succeed academically, be satisfied socially, and graduate sooner than students who are uninvolved in the University community. The SGA sponsors many clubs and organizations that will welcome your participation. Are you interested in sports, theater, music, foreign languages, service to others, politics, or culture? Montclair State has it all. Find the groups to which you can contribute your talents and from which you can learn something new. You will find a list at the SGA’s website (www.montclair.edu/SGA). Don’t be shy about it. You have as much to offer as the next person, and your involvement will be welcome. Commuter students, don’t just come to class and head right home. All activities on campus are just as much for you as they are for resident students. Take advantage of breaks in your schedule to join a club, attend an activity in the Student Center, or work on campus.

5) Plan your working hours carefully! We realize that some students must work to cover their expenses and many others choose to work. To the extent that you are able, try to limit the hours you work to preserve time to focus on both your studies and other campus activities. If you are able to benefit fully from your opportunities at the University, your studies must be your first priority. One excellent solution for many students is to work right here at Montclair State, where there are many different types of jobs available for students. For example, you could become a shuttle bus driver or work in the Red Hawk Diner. Both are well-paid positions that will help you meet people on campus and get you connected to this community. Check the job postings at www.montclair.edu/CareerServices/studentservices/jobinstructions.html, or drop into the Center for Career Services & Cooperative Education in Room 337 of Morehead Hall.

6) Explore public transportation! The number of cars on campus is growing along with the University. Try to get out of your cars to explore the convenience — and contribute to the environmental benefits — of public transportation. The University has two train stations, and both NJ Transit and DeCamp buses stop on campus. To facilitate the use of mass transit, NJ Transit offers students a 25% discount on monthly passes. To receive this discount, students can log on at www.montclair.edu/njtransit.

7) Be respectful! You now belong to a University community whose members enjoy an extraordinary degree of freedom. For the University to function as it should, its members are expected and obligated to behave in a respectful manner toward other members of the community: fellow students, professors, University police officers, and staff. As a member of this community, you are also obligated to treat the University’s facilities, equipment, and grounds with care so that everyone can benefit from them. In return, you have the right to expect that you yourself will be treated with respect and that your enjoyment of the University’s facilities will not be ruined by the carelessness or disregard of others.

Finally, if you see me on campus, please say hello. I will probably ask you how you are doing, and I will really want to know.

Have an exciting year!

President Susan A. Cole

People You Should Know at Montclair State

The e-mail address of almost all of these people consists of their last name followed by their first initial @mail.montclair.edu. For example, Vice President Karen Pennington’s e-mail address is penningtonk@mail.montclair.edu. Phone numbers for all faculty and staff may be found on the on-line directory at: www.montclair.edu/search.php?q=&tab=EmpDirectory.

Dr. Karen L. Pennington
Ms. Kathleen Ragan
Dr. Alan H. Wolff
Ms. Margaret Coleman-Carter
Mr. James Harris
Ms. Donna Barry
Dr. Jaclyn Friedman-Lombardo
Ms. Linda Smith
Ms. Esmilda Abreu
Ms. Romayne Eaker
Ms. Fatima deCarvalho
Mr. James Anderson
Ms. Holly Gera
Ms. Maralyn Kinch
Mr. Adam Mayer
Ms. Denise DeBlasio
Mr. Paul Cell
Dr. Bryan Terry
Dr. Allyson Straker-Banks
Mr. Charles Miller
Ms. Michele Campagna
First-year counselors
Mr. Jhon Velasco
Academic counselors

Vice President for Student Development and Campus Life
Associate VP for Student Development and Campus Life
Dean of Students
Associate Dean of Student Life
Associate Dean of Students and University Ombudsman
Director of the University Health Center
Director of Counseling and Psychological Services
Director of Disability Resource Center
Director of Equity and Diversity Programs
Director of Campus Recreation
Director of the Center for Student Involvement
Director of Financial Aid
Director of Intercollegiate Athletics
Director of Career Information Services
Registrar
Chief of University Police
Associate VP of Enrollment and Student Academic Support
Assistant VP for Student Academics Services
Director of the Center for Academic Advising and Adult Learning
Director of New Student Experience Program

Plan your working hours carefully!

We realize that some students must work to cover their expenses and many others choose to work. To the extent that you are able, try to limit the hours you work to preserve time to focus on both your studies and other campus activities. If you are able to benefit fully from your opportunities at the University, your studies must be your first priority. One excellent solution for many students is to work right here at Montclair State, where there are many different types of jobs available for students. For example, you could become a shuttle bus driver or work in the Red Hawk Diner. Both are well-paid positions that will help you meet people on campus and get you connected to this community. Check the job postings at www.montclair.edu/CareerServices/studentservices/jobinstructions.html, or drop into the Center for Career Services & Cooperative Education in Room 337 of Morehead Hall.

Plan your working hours carefully!

Finally, if you see me on campus, please say hello. I will probably ask you how you are doing, and I will really want to know.

Have an exciting year!

President Susan A. Cole
It seems only fair to charge more also making the sandwiches bigger. Making the paninis taste better, but Café Diem, pointed out, the type of students want. The removal was not to stock more of the wraps that the aforementioned wraps allows us 14 as well. Reece Seth Jambor said “The instal- ment” should be more than an experiment, it should be a permanent fixture at MSU.” Cordero also said that, “Its awes- ome that Montclair State has this on our campus. We should have them all over MSU.”

French fries increased by 55 cents. Did increase from $1.95 to $2.15. Soft drinks increased from $1.95 to $2.15 will now be able to receive free refills on soft drinks. The price of soft drinks will now be able to receive free refills on soft drinks.

Changes were made to the menus of The Red Hawk Diner as well as Café Diem at the beginning of Au- gust, as per Dining Service’s annual adjustment of menus and pricing.

The Director of Auxiliary Servic- es, Andrew Pignataro, says that the changes agreed upon by MSU and stu- dents were to drop items that were not selling well and to adjust the prices according to studies done by the US Bureau of Labor Statistics.

Pignataro wrote in an e-mail that in Café Diem three wraps were dis- continued, the Greek Salad Wrap, Tuscon Wrap and Reuben Wrap. They also altered the Smoked Tur- key sandwich to be a Smoked Turkey Cuban. They increased the price of most of the sandwiches by 50 cents. Pignataro mentioned the addition of the Starbucks Venti size for coffee selection. He said that Café Diem is now accepting one equivalency swipe from 12 a.m. to 7:00 a.m. The equival- ency is applicable to the Block Meal Plans only, and current equivalency rate is $5.40.

Billy Ibrahim, the manager of The Red Hawk Diner, said that students will now be able to receive free refills on soft drinks. The price of soft drinks did increase from $1.05 to $2.15. French fries increased by 55 cents. Ibrahim pointed out, “Wraps no longer include fries. Usually, for the bet- ter of the diner’s health, who does not want fries to begin with, since he/she is getting a wrap.”

Menus Change and Prices Increase at Café Diem and the Red Hawk Diner

If they’re bigger sandwiches. People have to take into account that it takes resources to help us students make better choices,” says Valentina DiDonato, a second year political sci- ence major. Students will now be able to see how many calories they’re about to consume on the menu boards in Café Diem as well. Lenof added, “I believe it’s for the health and well- being of the students.”

Lenof added, that Café Diem is no longer serving whole milk with hot and cold Starbucks beverages, but using two percent or one percent milk.

Pignataro mentioned the addition of the Starbucks Venti size for coffee selection. He said that Café Diem is now accepting one equivalency swipe from 12 a.m. to 7:00 a.m. The equival- ency is applicable to the Block Meal Plans only, and current equivalency rate is $5.40.

Billy Ibrahim, the manager of The Red Hawk Diner, said that students will now be able to receive free refills on soft drinks. The price of soft drinks did increase from $1.05 to $2.15. French fries increased by 55 cents. Ibrahim pointed out, “Wraps no longer include fries. Usually, for the bet- ter of the diner’s health, who does not want fries to begin with, since he/she is getting a wrap.”

Ibrahim believes, “This is a two- way street. We want to make all the students happy and give them what they want.”

Chris Camizzi said, “I do think that with the big things increasing in price, such as parking and tuition, I would think they would try to give students a break by attempting to lower or keep stable some prices of food and of that nature.”

The Red Hawk Diner has extended the equivalency times from 11 p.m. to 11 a.m. Equivalency hours used to end at 8 a.m. The Red Hawk Diner also has a new state of the art A/V system with four LCD televisions. Dining Services, along with the Cen- ter of Student Involvement, will be orchestrating events at the diner such as movie night and sports night, including related menu items.

to notice that items were missing from inside the cage.

“I didn’t think anything of it at first, until people started pulling things off the shelf and the cases were empty,” said DeMaria. “It’s a huge mess to clean up.”

Kaitlin Elbon, a film major, stated, “My first reaction was terror of my own education and the money I put into attending Montclair. I love MSU and its film program so much and it was breaking my heart that something horrible like this happened and we couldn’t get any information or find out who did it.”

Whoever was responsible for the theft may not have taken into account the aftermath of the situation. Elbon said, “With less equipment available for the entire film program, it means less film making and less hands on experience, which is something Montclair loved to do for its students.”

“Also, seniors need to work on their senior thesis film. They will now have to result to renting equipment which was breaking my heart that some- thing horrible like this happened and we couldn’t get any information or find out who did it.”

Joseph Lisnow | The Montclarion

Manager of The Cage, Stephen DeMaria, louses a close eye over the equipment and the case it receives.

An inside view of The Cage, where $35,000 worth of film equipment was stolen.

“I knew right away I had to let more people know about the robbery. We needed our school community to support us and help us get back on our feet.”

Kaitlin Elbon
Film Major

Elbon decided to take action after reading the email about the theft. She created a Facebook group called Support MSU Film.

Users can check the page to see future events being held by the film club, send donations and all ideas are welcome. According to Elbon, she chose to use Facebook due to it being the easiest way to get in contact with other students.

“I knew right away I had to let more people know about the robbery. We needed our school community to support us and help us get back on our feet. This is why I created the page, to simply get the word out and have everyone join together with ideas, ac- tions and trusting that things can get better,” Elbon stated.

“Be many people offered help, do- nations and their own time,” said El- bon. “It means a lot to the students and the film professors as well.”

Elbon wants to remind everyone that the film club has weekly events for students and friends on campus in Calcia 133. She hopes that simply the support of attending and creating a stronger community will broaden the film club’s future ideas and fund- raisers.

“I want not only our film majors, but everyone in the Montclair community to learn that we have backbone and need to be there for each other in life,” said Elbon. “At this school we are a small, but strong community and in such a field we need the support and care from our peers, friends and classmates. We need to learn to stick together through tough times, and create something even greater for ourselves.

Anyone with further information should contact the Detective Bureau at 973-655-5222 or anonymously on campus through extension 8477 (TIPS).

As of print time, the film depart- ment did not return e-mails pertain- ing to the incident.

“TIPS”.

study abroad.
Without the help of Little Falls this project would not have taken place. The township of Little Falls approved a Treatment Works Application that was submitted by Montclair State.

By them approving this application, it allowed Little Falls to partner up with Montclair Township on the project.

“The university has also agreed to pay the township $160 for every [fire alarm] call and the agreement, which began Aug. 1, will bring the township $25,000 per year,” Maliandi said.

Maliandi added that Little Falls is benefiting from the project as well. “The university is a large property owner and has been very helpful in this project,” Maliandi said.

Honorary Degree Nominations Lack Student Input

Nicole Simonetti
New Student

Every year at Commencement, the University gives out a number of Honorary Degrees. The nomination process starts with us, the MSU community.

The only problem is, students rarely vote.

“The number varies,” said Frank Schwartz, special assistant to the President. “We don’t get as many as we would like, about 10 a year, often less. That is something we would like to improve on.

With about 18,000 grads and undergrads enrolled at Montclair State University, 10 nominations is a very small sample size.

In a recent email to all students, Frank Schwartz explained the criteria and the process of the nominations.

“We want to honor people of merit, people who’ve made achievements in their field,” said Schwartz. "The honorary degree recipients are meant to serve as role models to our students.”

Former honorary degree recipients include Whoopi Goldberg, Larry Dol, Yogi Berra, Bruce Willis and Nobel Prize winner Richard Axel, among many others.

“I’m sure that many students have good ideas as to who should be nominated,” said Schwartz, “but it doesn’t occur to them to vote.”

Nominations must be submitted to the President’s Office by Friday, Sept. 17. You can find them at www.montclair.edu/bot/honorarydegrees.html.

Nelson DePasquale
Assistant to the President

Lack Student Input

The anniversary of September 11 is approaching and Montclair State University is lucky enough to have a flag stitching ceremony on Sept. 14.

The flag being repaired is the National 9/11 Flag. Smaller American flags will be sewn over the rips and tears that are evident in it.

The New York Says Thank You Foundation will be at one location in every state, giving fifty heroes awards in every state, giving fifty heroes the opportunity to contribute to the stitching.

The flag is expected to be complete by the tenth anniversary of September 11th.

Once the stitching is complete, the National 9/11 Flag will be part of the National September 11 Memorial Museum that is being built where the World Trade Center previously stood.

Local heroes can be nominated to be part of the stitching online at www.National911Flag.org.

Earlier that day, there will be a ceremony to honor our Constitution. Opening ceremonies will begin at 10 a.m. in University Hall.

Throughout the day there will be discussions on the Constitution in University Hall as well.

Some dreams are universal—hitting a ball over the Green Monster, winning the World Series with a Grand Slam in the bottom of the ninth inning. Finding out that you have MS isn’t one of them.

Multiple sclerosis is a devastating disease of the central nervous system where the body’s immune system attacks the myelin surrounding the nerves, leaving in the prime of its life—and, changes lives forever.

The National MS Society funds more research and provides more resources for people with MS than any MS organization in the world. But we can’t do it alone.

To help make the dream of finding a cure a reality, visit us at www.nationalmsociety.org, of call 1-800-HELP-MS.

Montclair State University Hosts National 9/11 Flag Stitching Ceremony

Nag Fera, one of the former honorary degree recipients.

I WILL LAUNCH MY NURSING CAREER

NEW JERSEY CITY UNIVERSITY

LEVERAGE YOUR CURRENT BACHELOR’S DEGREE INTO A BACHELOR OF SCIENCE IN NURSING (BSN) IN JUST 12 MONTHS WITH OUR FASTTRACK BSN DEGREE.

Our curriculum is offered at two convenient locations: Jersey City main campus starting in September and at Brookdale Community College’s Communiversity in May.

The proceeding message was a public service announcement brought to you by the staff of The Montclarion and the National Multiple Sclerosis Society.

Nobody dreams of having multiple sclerosis.
Ovarian Cancer Awareness Month

Amanda Balbi
Feature Editor

Approximately 13 women in 100,000 are diagnosed with ovarian cancer each year, according to the cancer.gov website.

An even higher number of people, both men and women, are affected by the death of a loved one due to ovarian cancer every year.

A lot of women don’t know how to prevent or detect ovarian cancer, but it is very easy to detect.

Ovarian cancer can actually be felt. If a woman feels “bloated, pain in the pelvis or abdomen, trouble eating or feeling full quickly or urinary symptoms such as urgency or frequent feelings of needing to go,” they should see a doctor immediately, according to cancer.org.

Granted, getting period cramps doesn’t count as feeling these symptoms, however, if any of these symptoms are overwhelming and sudden, it might be a bad sign.

The exam is an easy one that takes a gynecologist fifteen seconds to complete. The gynecologist physically examines your pelvic area while checking for lumps in your uterus.

During a yearly exam, the doctor will feel the abdomen for unusual lumps that may be tumors. However, there is no way to find out if a tumor is benign without a biopsy. A biopsy will show whether the cells are cancerous or not. If the tumors are cancerous, there are a few options.

A woman could have local therapy which is removal of cancerous tissue as well as radiation treatment. If a doctor doesn’t think that method is right, there’s also the intraperitoneal chemotherapy, which is chemotherapy that is directed into the abdomen. This especially targets cancer cells in the abdomen and pelvis.

Systematic chemotherapy is the last option to treat ovarian cancer. This is when chemotherapy is ingested by mouth or injected into a vein.

It’s important that every woman, no matter how old, gets checked on a yearly basis. It’s never too early to catch a problem and you’re never too young to be affected. It’s important to make sure your body is healthy.

Symptoms:
• Feeling of Bloating
• Pelvic or Abdominal Pain
• Trouble eating or feeling full quickly
• Frequent Urination and Incontinence

Treatments:
• Local Therapy
• Intraperitoneal Chemotherapy
• Systematic Chemotherapy

For more information, log onto cancer.gov or cancer.org or contact a local gynecologist.

This week on ‘Nessa.o:
‘Nessa will be screening and blogging about “Jersey Shore Boys Doin’ the Dougie” in honor of their double feature weekend. Make sure to log onto the website for the full video!
Welcome back MSU to another fun-filled semester of exercises composed by yours truly. This season, I will be focusing on all areas of the body and designing workouts that involve a set of dumbbells in order to create lean muscles faster! This week I’ve decided to start out simple with two exercises and two stretches that target the arms. As you do any workout remember to always breathe throughout to keep your blood flowing.

Part 1: Arm Workout

Step 1: Tricep Curls — Stand straight with your knees slightly bent and take a dumbbell in each hand. I suggest using a five pound weight, if you’re a beginner. Keep your arms at your sides and, one at a time, raise an arm so that your elbow bends as you are curling up. You will feel your triceps burning, but take it slow so that you are using the muscle to the fullest and not relying on momentum. Do 10 curls on each arm per set then break for 20 seconds. Repeat two more times.

Step 2: Shoulder Abduction — Stand in the same position and with both dumbbells in hand, lift your arms up above your head so that they are fully extended at a 180-degree angle. Then, slowly bring your hands down vertically so that your arms are back at your sides. This exercise sculpts your entire arm, including the back of it. Do 10 repetitions, keeping a steady pace. Take a 30 second break and then complete two more sets.

Part 2: Arm Stretch

Step 3: Upward Interlock — Stand in the same position as before and fully extend your arms up to the ceiling. Lace your fingers together, creating an interlock with your arms. Hold the stretch for 30 seconds, feeling your arms lengthen and slowly release tension.

Step 4: Back Interlock — Stand with your knees soft and your back slightly arched. Stretch out your arms past your back and lace your fingers, like you did in the last stretch. Hold in the interlocking position for 30 seconds and you will feel the muscles in the back of your arm stretch and loosen up.

This week’s segment is also available at Themontclarion.org. If you are looking to invest in a set of dumbbells, it isn’t expensive at all. I bought mine at Walmart for eight bucks! Remember to drink plenty of water and have fun pumping iron!

Watch the video at Themontclarion.org.
Students Enjoy First Friday on Campus

Katie Winters
Copy Editor

Project College, a new addition to Red Hawk Frenzy this year, was a success and a great way for freshman and transfer students to spend their first Friday night on campus. The Red Hawk Frenzy committee put together the event as a foil to high school’s Project Graduation.

“The event is meant to look and feel exactly like a Project Graduation, with the explicit intent of providing introductions and new friends, rather than emotional good-byes,” said Keith Fonseca, assistant director of campus recreation, in an e-mail. “Students show that students who get connected at college in their first week are more likely to stay connected and do well than those who don’t.” Project College was open to only freshmen and new transfers, further encouraging the building of new friendships.

The Recreation Center opened its doors Friday evening to host the event, which was a collaborative effort from Campus Recreation, RecBoard, the Center for Student Involvement, Residential Education and Services, Health Promotion, New Student Experience and the Center for Adult Learning.

MSU Gamers, though not on the committee that planned the event, co-sponsored it and provided additional activities.

Throughout the night there were many activities that new students could enjoy, such as water sports, a black light party, floor hockey, video games and movies in the racquetball courts.

Project College also provided new students with free snacks, face painting and airbrush clothing. The first 50 students to arrive got free t-shirts and there were raffles. Prizes included an iPad, PS3, books for a semester and 36 rolls of toilet paper, just to name a few.

“The event went very well according to those in charge, even with an evacuation of the Recreation Center. The fire alarm was triggered by a smoky popcorn machine that left students outside for 10 to 15 minutes, but did not dampen their spirits. The turnout of new students was large and Red Hawk Frenzy hopes to run this event again next year.”

“All in all, the night was really great,” said Fonseca. “Students were heard[s] saying ‘I love it here’, ‘I’m so glad I came to MSU’, ‘I wish Project College was more than once per year’.” It was a special and fun night for all involved, said Fonseca.

Freshman Lindsay Wagner confirmed, “It was a great time.”

A Little Chitchat

Dinah Polk
Assistant Feature Editor

Hey readers! I’ve been working with The Montclarion for a while now and I’ve decided that the time has come for me to start a column.

I happen to be very opinionated and there are things going on around us every day that I feel need to be addressed, and what better way to address those issues than by writing to all of you?

Now, I don’t plan on writing a typical column either, I’ll be providing you with material that will bring you back to Carrie Bradshaw circa Sex and The City with a little of Perez Hilton and Katie Couric mixed in to spice and smarten things up.

I happen to be very opinionated and there are things going on around us every day that I feel need to be addressed, and what better way to address these issues than by writing to all of you? I’m sure we all have those days where some thing happens and you just can’t stop talking about it. Well that’s exactly what my column is for. I happen to be very opinionated and there are things going on around us every day that I feel need to be addressed, and what better way to address these issues than by writing to all of you?

Project College confirmed, “It was a great time.”

This was just a little something to introduce you all to my idea, next week be on the lookout for my first column. Next week I’ll be discussing the new fashions for fall, I love clothes and style. We’ll have pictures of what not to wear so you don’t make the same mistakes celebrities have.

I admit, I made those mistakes before, but I’ve learned and now I’ll never be seen out of style.

I’m looking forward to your questions and concerns. You can e-mail any questions you have answered in MSUfeature@gmail.com. You can even remain anonymous!

Look out for my column next week on:

nevermind. She's yours.
Non-existent Students Rate High on Administration’s List

Whenever anyone ever talks about progress, they are speaking of the future. This all-consuming concern consists of ten-month plans or even ideas that someone can implement decades from now. Decision makers conveniently forget the now, and Montclair’s administration is no different.

The residence halls Freeman and Russ have recently received the short end of the stick. Although students eagerly purchase constant swipe meal plans, the unfortunate fact that they won’t be able to use said plan is conveniently left out. The sole purpose of a meal plan is to ensure we are being fed. Freeman closes their dining hall at 1:30 p.m. on Fridays and 1 p.m. on Saturdays. Students are encouraged to stay on campus during the weekends, but lack the proper accommodations.

Despite the illogical closing time, Café Diem will also suffer through a change of its own. The café will no longer be open 24 hours a day, 7 days a week. Residents of Freeman and Russ have a bone to pick with Montclair State University. They are expected to trek clear across campus to receive a meal. We just want everyone to imagine that same walk during a snowstorm, or on a windblown day in December.

Every student pays the same tuition and should be afforded identical opportunities. Instead of focusing on the students of tomorrow, the administration should be focusing on the students of today.

As a member of our staff has previously mentioned, the students residing on campus are at the very bottom of Montclair’s list of priorities. In addition, it has recently come to our attention that the University’s hotel, La Quinta, isn’t even mentioned during campus tours.

Sure, prospective students can end up in a snazzy new dorm, but they can also end up at La Quinta. Oh, and did the university forget to mention that they might cram you into a dorm room meant to be a double, but is now housing three college students?

We are all for cutting corners, but not when it jeopardizes our most basic needs. These essentials are universally held as vital to our survival. This includes, food and shelter.

Without being too repetitive, we feel it is our responsibility as the voice of the student body, to point out the obvious. This all-consuming concern consists of ten-month plans or even ideas that someone can implement decades from now. Decision makers conveniently forget the now, and Montclair’s administration is no different.

Thumbs Up to China taking initiative to churn out clean energy! Thumbs Down to lack of parking on campus. Thumbs Up to Everywhere Is The Best Seat! Thumbs Down to endless construction.

“Our lives begin to end the day we become silent about things that matter.”

-Dr. Martin Luther King, Jr.
Students Stray of Food and Maintenance

One Student’s Valid Complaints Concerning the Dining Services on Campus

Café Diem is a student’s way to their own funeral. It’s a little depressing. REALLY need a device to read books out loud to you. I understand that some people may have a legitimate reason for this feature. But I’m not sure if the way most people using this feature are just being lazy. We’re becoming lazier by the minute, getting devices that ease our terribly simple doing. And truthfully, if you can afford one of these devices that comprende your longed words online, then, honey, I don’t think your life is quite that hard.

I understand that no one is totally happy and all new dorms have not been shoved and it’s still new enough to be, Freeman/Russ/student discoverers that Freeman dining hall is closed because it’s after 10 p.m. on a Saturday, it feels like you’ve been shoved by MSU. Even now the way the diner and cafe are 24/5 last semester, they would be in the dark. We don’t expect there to not be any traffic on campus in order to improve facilities for students.

We seem to be stuck in Construction II. As a freshman in 2008, I bought a pass early enough. But, I understand the desire to improve, to the academic departments who are on the inane words online, but looking it up yourself, simply seems more satisfying. It is now becoming more common that reading is more interesting online.

students online or on your Kindle, iPod, iPhone, ifio, in fact, just not the same as reading it when you’re actually holding it. Even reading it with my own hands is the same. Sure, it may be easier to look up dictionary words online, but looking it up yourself, flipping the pages until you find the word, your fingers have been fumbling to find simply seems more satisfying: existed

You may have created regarding parking. Then, I was so excited by Café Diem opening 24/5, but the diner is a very real concern for this dorm, making a dusty mess of the building with these “amenities” would not have been shoved and it’s still new enough to be, Freeman/Russ/student discoverers that Freeman dining hall is closed because it’s after 10 p.m. on a Saturday, it feels like you’ve been shoved by MSU. Even now the way the diner and cafe are 24/5 last semester, they would be in the dark. We don’t expect there to not be any traffic on campus in order to improve facilities for students.

Mark’s New Music Roundup

Colour Revolt recently released their second full length album, The Cradle. They’re a band that Brand New likes to bring on tour. That should tell you enough about them to give the album a chance. They’ve had to replace a few members recently, and often sound like they’re trying to find their style all over again. However, they’re still worth listening to for some good ol’ fashioned untamed rock with integrity.

Interpol took a few steps in the wrong direction with their last album, but are now back with Matador and trying to recapture their classic sound that resonated so well with fans of the indie genre. Their self-titled album still isn’t quite the same, though. It reminds me too much of Our Love To Admire, with less raw and cut-throat than you might hope for. Try it out, see what you think, but I can’t help drifting away from this band.

Do you have any ideas for the Round Up? Are you interested in all things art and entertainment related? If so, then contact Mark at msuarts@gmail.com and start writing for The Montclarion today!

George Clooney Stars In The American

Ken Marlet
Staff Writer

The American is a complex movie. People will either love it for its slow paced, compelling drama, or they won’t be able to sit through more than 15 minutes. The film is a well-paced dramatic thriller, but it is not for everyone.

The American lacks car chases and explosions, which one would think a good action movie must possess in order to be entertaining. However, this slow paced, dark drama actually entertains its audience in a different way. The film uses human emotion and four to create an intricate story line and relies on character development.

Jack (George Clooney) is an American spy that murders three people in Sweden at the start of the film. He is then relocated to Italy by his shady boss. Jack is a man that is not interested in forming relationships; the only thing he is fond of is doing his job, which has haunted him throughout his life. Throughout the film Jack meets various people, who seem to come in at a trickle, such as Father Benedetto (Paolo Bonacelli). Father Benedetto’s presence in the film seems solely to give Jack honest advice, because he suspects Jack is up to no good. Jack also forms a shaky relationship with a local prostitute named Clara (Violante Placido), whom he grows more and more affectionate towards as the film progresses.

Although Jack is a spy, he is doubtful of whether or not Clara is interested in love or was hired by the Swedes to kill him. In the film, Jack’s love interest in Clara makes his job more complex, and it keeps him second guessing his line of work. Jack must stay one step ahead because he realizes that being a spy constitutes a great deal of sacrifice and devotion, and he knows he can trust no one.

Overall, The American is entertaining in its own way, but this film is certainly not for everyone. This film’s target audience is people who can respect director Anton Corbijn’s creation, a complex film that relies on gradual plot development and elaborate character interactions.

In my view, George Clooney’s distinctive work in The American makes this one of the strongest performances of his career. The American will unfortunately receive a lot of negative feedback for its slow paced and bizarre style, mostly due to the fact that audiences may give up on the film as a result of its complex story. Some people may not give this film a fair chance.

Constitution Day
September 14, 2010

National 9/11 Flag Stitching by Local Service Heroes

10:00 a.m. – 11:00 a.m.
Opening Ceremony
University Hall, Conference Center

The New York Says Thank You Foundation is currently taking The National 9/11 Flag which was destroyed in the collapse of the World Trade Center in 2001 on a journey across America. Local service heroes in all 50 states will be given the privilege of stitching the flag back to its original 13-stripe format using pieces of fabric from American flags destined for retirement in each state. FDNY firefighters will assist local service heroes in an historic stitching ceremony to help sew the New Jersey restorative patch onto the flag.

Montclair State is the only university in the nation and the only location in New Jersey where a flag-stitching ceremony will be held.

Flag stitching will continue throughout the day ending at 9:00 p.m. with a Closing Ceremony.

Expert Panel Discussions on the Constitution
12:00 p.m. – 3:00 p.m.
University Hall – Room 1070

The Constitution is a living document which continues to shape our lives today. US District Court and NJ Superior Court Judges and Montclair State Deans and faculty will discuss the Constitution’s impact on judicial decisions being made today concerning important emerging issues and the relevant impact on our ever changing national landscape. The conversation will also focus on how these leaders from diverse backgrounds consider the ways in which interpretations of the Constitution impact our lives and cultures.

Dr. Brigid Harrison will moderate.
KRIS HUNTER Assistant Sports Editor

Could Bruce Cramer be the reason for the end of another era in school of the old school Bobcat series starring Adam West? The sounds you were hearing at the end of the Cotton Bowl were marching bands and hoarse fans singing the Bobcat alma mater, but there is no doubt that someone must be a Bobcat. The Bobcats were undoubtedly be a bowing-down 2010 season. 2009 was a great year to be a Montclair State Red Hawk because our very own football team comes into the new season as the defending NJAC champions.

However, instead of the coveted crimson shirt, each member on the squad will be entering the NJAC field wearing a white shirt with a black stripe stamped onto their helmets. Nine members of the team are gearing up to focus on the defense of the kings of the conference. With most of the MSU’s style of playing on offense, it is now up to them to succeed and maintain the top spot on the NJAC the Bobcats hold. Can the Red Hawks’ rivals take advantage of the new faces to steal the crown?

Get ready, pigskin lovers. Time to sit back and experience the magic that is college football and to see if MSU can do what they haven’t accomplished since 2004: crown?

Offense: 2009 Coach of the Year Rick Giancola’s Red Hawks did not have a single offensive player that received First Team All-Conference. However, with the leadership of running back Jeff Bliss and leading receiver Sean Tweer, the MSU offense is still solid with the return of First Team Defense linebacker Jared Tweer, Chris Merkle and Dominique Atkins will be the only player to don the light and dark blue in 2010. Also returning will be Cougar quarterback Brian Ginyard to Ginyard’s family, friends and to the car accident. Our condolences go out Aug. 1 after suffering injuries from a car accident. Our condolences go out to Ginyard’s family. We wish them to be returning for another season … and maybe this season, senior linebacker and the defensive front seven as versatile line- man; and 2009 Honorable Mention member Matt Hoffman returns to the defense.

Rowan and the rest of the NJAC will be chasing after senior running back Matt Jommes and Montclair State University.

The strength of this team comes from their powerful defense, which ranked third in the conference allowing 248 yards per game. The low YPG aver- age is mainly derived from KU’s ability to stop the run, with opponents only averag- ing 81 yards per game, good enough for second in the conference. They also led the conference with 36 sacks and 17 interceptions. Kearns’ experience in the secondary, cornerback Chris Laudan and linebacker Rashad Williams will return in 2010 to lead one of the top defenses in the NJAC once again. Lauda, now a senior, tied for first with five interceptions and led KU in tackles with 66. One key player to watch for 2010 is junior linebacker Richard Ekdahl. In his sophomore year, Ekdahls led the Cougars with 7.5 sacks and 14 tackles for loss.

Defense: 2009’s fourth leading tackler in 2009, MSU’s defense was just as strong as their offense, if not better. The Pioneer defense ranked ninth in the conference in tackles for loss with 10 teams in our beloved conference? Us. The strength of this team comes from their powerful defense, which ranked third in the conference allowing 248 yards per game. The low YPG average is mainly derived from KU’s ability to stop the run, with opponents only averaging 81 yards per game, good enough for second in the conference. They also led the conference with 36 sacks and 17 interceptions. Kearns’ experience in the secondary, cornerback Chris Laudan and linebacker Rashad Williams will return in 2010 to lead one of the top defenses in the NJAC once again. Lauda, now a senior, tied for first with five interceptions and led KU in tackles with 66. One key player to watch for 2010 is junior linebacker Richard Ekdahl. In his sophomore year, Ekdahls led the Cougars with 7.5 sacks and 14 tackles for loss.

The Cougars only ranked fourth in the NJAC in offensive yards per game with 312.4, but that may only be due to the conference average of 312.4, which they need to exceed. Kearns’ special teams were indeed quite special, rank- ing first in the conference kickoff return yard average with 23.4. What is actually the key for the Cougars this season in 2009’s NJAC Offensive Player of the Year is returning wide receiver Jared Chum, who graduated. In addition to Chum, Kearns had four other players awarded NJAC First Team All-Offense honors, linemen Shalston Green and 42 tackles, 12 of those for losses, and a team-high 6.5 sacks. Expect him to spend his last collegiate season trying to increase those numbers, as well as the number that matter most: wins.

Cortland is the future is looking quite “RUNY” for Cortland in 2010. They are the preseason number one seed in the NJAC, making them the favorites to overthrow MSU’s reign. The Cortland offensive and defensive lines, who each rank in the top 10 in the NJAC, will be the key to their 2010 season. The Cortland defense was nothing short of spectacular in the 2009 season. I feel like I’ve said something similar not too long ago. Indeed the defense of the Preps was just as good as their offense, if not better. Rowan led the NJAC in every major defensive category, including total defense and scoring defense. The defense will be welcoming back a stalwart in their dominating front seven as versatile wide receiver Allen and 2009 Second Team All-Defense honoree Matthew Hoffman returns to the turfs. As a junior, Hoffman racked up 42 tackles, 12 of those for losses, and a team-high 6.5 sacks. Expect him to spend his last collegiate season trying to increase those numbers, as well as the number that matter most: wins.

Cortland is the MSU defense was nothing short of spectacular in the 2009 season. If I were to pick one team that did not do what they said they would do, it would be the Bobcats. KU’s leading receiver Alex Cade and Kareem Johnson, tight end and running back Ryan Leafey. With the majority of these players led the NJAC with 106. Williams, defended as while as second in interceptions. Kean’s superstars in the defensive category. What do they have to show for it? Nothing. The Montclair State University defense was just as strong as their offense, if not better. The Pioneer defense ranked ninth in the conference in tackles for loss with 10 teams in our beloved conference? Us.

The strength of this team comes from their powerful defense, which ranked third in the conference allowing 248 yards per game. The low YPG average is mainly derived from KU’s ability to stop the run, with opponents only averaging 81 yards per game, good enough for second in the conference. Women’s Soccer Falls Short Against Stevens

Deanna Benjamin

Aggressive and hard-hitting would be two words to describe the MSU Women's Soccer game against the Stevens Ducks yesterday. The Red Hawks were defeated by Stevens 2-0, dropping their record to 1-1-2.

Both teams looked evenly matched, trading the ball back and forth often for the majority of the first 15 minutes. Towards the end of the first half, the Red Hawks brought forth their talent and played together as a team. Forward Rachel Snyzay took a few bumps and bruises during the game. She received a penalty kick about 15 minutes in, but the score was made by Stevens goalie Kaitlin McGlynn.

Moments after the penalty kick, McGlynn stopped three more Red Hawk shots. This did not last long though, as Snyzay knocked a header right over McGlynn's hands to give the Red Hawks a 1-0 lead. The goal was Snyzay's third of the season. Senior Katie Minevini assisted Snyzay's goal.

The second half started out strong for the forward line. Allie Wacker rushed the ball into the Stevens' box numerous times, but could not get the ball into the net. Montclair's defense played very tough throughout the whole game. "Coming into the second half we felt dis-organized," Minevini said.

Stevens freshman Bridgette Bardos scored with 15 minutes left in the second half to tie the game at one. Montclair's defense tried pushing the Ducks away, but they returned with another goal five minutes later, right over the fingertips of Montclair goalie Marisa Zayac.

"Both teams had opportunities to score," Minevini said. "Stevens just fin-ished their shots."

With the score 2-1 in favor of Stevens, Snyzay received a yellow card for push- ing. There was not one second in the game when both teams were not going head to head for the ball. Unfortunately, MSU was handed a 2-1 loss. "It's early in the season so we're not worried about anything," Minevini said. "We are ready for conference games and know we will play hard."

This Saturday, the Red Hawks will play Eastern Connecticut in the Manhattanville Tournament. Minevini feels good about the tournament. "Saturday there will be tough teams but we know we will be successful and leave in victory."

Two weeks from now the Red Hawks will play rival William Paterson in their first NJAC game.

Field Hockey Sweeps Through Weekend

Mike Menestra

MSU Field Hockey enjoyed abounce back weekend over Labor Day. After a rough loss to Eastern in the season open-er, MSU recovered to defeat Whiston College 6-1 and Rensselaer (RPI) 3-2 at home this weekend.

The Red Hawks looked like a different team when they came out against the Whiston Thunder on Saturday. After a sluggish performance against Eastern, the Red Hawks played with a sense of intensity and teamwork that wasn’t shown during their first game.

"We’ve been working on putting pay-ation to the little details like stopping up to the girl with the ball and communica-tion," senior captain Deanna Hagel said. "After going to the student-athlete wel-lcoming. There was not one second in the game when both teams were not going head to head for the ball."

"Coming into the second half we felt dis-organized," Minevini said. "Stevens just finished their shots."

ESPN Shows Steinbrenner Film at MSU
Advance Screening of The House of Steinbrenner at Yogi Berra Museum

On Tuesday morning, the Yogi Berra Museum had the privilege of hosting a screening of an ESPN 30 for 30 documentary. The documentary was named The House of Steinbrenner, and focused on the Yankee’s late owner George Steinbrenner.

The movie, rather than portraying just a biography of Steinbrenner, instead looked at his accomplishments, his failures and how they affected the Yankee organization, most importantly, their fans. Following the screening, a panel of sportswriters talked about the film.

The ESPN 30 for 30 documentary series has focused on some of the biggest sports stories, events and personalities of the last few decades. The House of Steinbrenner, which was directed and produced by Barbara Kopple, did not just look at Steinbrenner as the businessman or Steinbrenner the general manager. It looked at Steinbrenner the person.

While the documentary touched on various different topics about Steinbrenner's tenure as the Yankees' owner, it especially focused on recent events, such as the Yankees' victory parade after their 2009 World Series victory over the Philadelphia Phillies.

ESPN Shows Steinbrenner Film at MSU
Advance Screening of The House of Steinbrenner at Yogi Berra Museum

On Tuesday morning, the Yogi Berra Museum had the privilege of hosting a screening of an ESPN 30 for 30 documentary. The documentary was named The House of Steinbrenner, and focused on the Yankee’s late owner George Steinbrenner.

The movie, rather than portraying just a biography of Steinbrenner, instead looked at his accomplishments, his failures and how they affected the Yankee organization, most importantly, their fans. Following the screening, a panel of sportswriters talked about the film.

The ESPN 30 for 30 documentary series has focused on some of the biggest sports stories, events and personalities of the last few decades. The House of Steinbrenner, which was directed and produced by Barbara Kopple, did not just look at Steinbrenner as the businessman or Steinbrenner the general manager. It looked at Steinbrenner the person.

While the documentary touched on various different topics about Steinbrenner's tenure as the Yankees' owner, it especially focused on recent events, such as the Yankees' victory parade after their 2009 World Series victory over the Philadelphia Phillies.

Volleyball Falls in Red Dragon

As the weekend came to a close, freshman outside hitter Mia Toper collected 26 kills and 11 digs for the Red Dragons in Classic in Cortland, NY. However, it was not enough for the Red Hawks to earn a victory as Montclair State was swept in those four games to start the season 0-5.

Coach Elise Cooper felt that the team gave a great effort during the tournament and was surprised by how fast the team adjusted after losing Alyson Biatia from an injury that occurred last Wednesday. “The team had to make some adjustments in a single day,” said Cooper. “They really did a great job, considering the last minute changes to the line-up.”

The Red Hawks dropped the first two games on Friday evening against Fredonia State 25-12, 25-12 and 25-11 and in St. Lawrence University 25-16, 25-13 and 25-8. Montclair State then lost the last two games of the tournament on Saturday afternoon to Buffalo State 25-11, 25-18 and 25-23 and to Baptist Bible 25-13 and 25-8. Montclair State was swept in those four games to start the season 0-5.

Coach Cooper believes that Toper can become a factor for leading this team to victory and maybe for years to come as this team moves forward.

“Toper did a great job,” said Cooper. “She is going into her role and learn- ing our system quickly.”

The Red Hawks come back to Montclair State University as they prepare for the MSU Classic and look to seal their first victory of the 2010 season. Coach Cooper says that the team will have to focus on defense in this tournament in order to wrap up a win. They have to do it against Lycoming and PSU-Altoona on Friday, Sept. 10 in the Panzer Athletic Center at 3 p.m. and 5 p.m.

WHO’S HOT This Week

MEN’S SOCCER

Dan Mezzadra Midfielder—Men’s Soccer

Mendoza scored the only goal of the game as Men’s Soccer defeated Lycoming 1-0 on Saturday.

Deana Hagel Forward—Field Hockey

Hagel was all over the field on Saturday. She scored two goals and added two assists in the Red Hawks’ 6-1 win over Wheaton.

GAME OF THE WEEK

Football Saturday, Sept. 11, 1 p.m. vs. Westfield State Sprague Field

The 23rd-ranked MSU football team opens their 2010 season with their only non-conference game of the season against Westfield State.
MSU football enjoyed its best season since 2003 last year—with an NJAC championship and a trip to the second round of the NCAA Division III playoffs, where they fell to eventual championship finalist Mount Union. This year, however, many new faces will have to try and duplicate their 2009 performance.

The changes are on both sides of the football, but may be most noticeable on defense. The Red Hawks were known as one of the better defenses in the NJAC in 2009 and won many of their games by stifling the opposing offenses. However, in 2010, they will have to do without the services of many former starters who were lost to graduation. Chris Merkle, Brian Tweer, Dominique Dixon, Jesse Shenker, Dan Podila, Gary Brenner, Ken McClure and Taylor Romer were all big players in the Red Hawks’ run to the playoffs last season.

As far as returning defenders are concerned, senior captain Ed Kirschchenbaum will anchor a rather young defensive squad this season. Kirschchenbaum is the top returning defender statistically, registering 93 tackles and three sacks in 2009. Joining him at linebacker will be sophomore Lou Ritacco and freshman Dan Avento.

Senior Shaun Bach and junior Alex Iachetta will be returning on the defensive line in 2010. Bach is the top returning pass rusher this season, he had 3.5 sacks last season. Iachetta registered two sacks in his first year of starting in 2009. At defensive tackle, sophomore Bobby Skinner and Travis Woods, will take over the starting positions.

The secondary is the most experienced part of this year’s defense. At the corners will be senior Gary Knoppel and junior Kevin Cloghessy. Knoppel led the team with five interceptions last year, while Cloghessy chipped in one interception and 27 tackles last season. The safety spots will be filled by senior captain Mario McLean and sophomore Chad Faulcon. The speedy McLean had three sacks to go with 46 tackles last season. Faulcon grabbed 24 tackles during his freshman year.

The Red Hawks have more returning players on the offensive side of the football, where they hope to run the ball often with the two-headed monster of Chris D’Andrea and Matt Jimenez. The two seniors combined for 361 yards rushing last year and will take over for exiting senior running back Jeff Blass. On the offensive line will be junior Kevin Hill, Dan Lutz, Mike Sperduti and Tajh Miller, and one sophomore, center Dan Aguilar.

Returning as quarterback will be junior Tom Fischer. Fischer made big steps in his second year as starter. He threw for 2092 yards last season and 14 touchdowns, both career highs. He will be working with a relatively inexperienced receiving corps. Senior Dan Lodlak and Tom’s brother, Vin Fischer, will also be counted on to step up in 2010. The Red Hawks will also have a new kicker and punter.
