On Sept. 2: A staff member of Mills Hall reported the theft of his unsecured laptop from his office. This matter is under investigation.

On Sept. 4: A juvenile was arrested in Freeman Hall for possession of marijuana and drug paraphernalia. He is scheduled to appear in Union County Family Court.

On Sept. 6: A staff member of Calcia Hall reported the theft of a Sony CD player and CD from a secured room. This matter is under investigation.

On Sept. 7: A male resident of Machuga Heights reported the theft of his unsecured iPhone from outside of the building. This matter is under investigation.

On Sept. 8: Michelle Guarino, 45, of Highland Lakes, was arrested and charged with simple assault and serving alcohol to a minor while at Yogi Berra Stadium. She is scheduled to appear in Little Falls Municipal Court.

On Sept. 10: An employee of the Registrar’s office reported receiving harassing phone calls from a known student. No criminal charges were filed in this matter.

On Sept. 11: Nadine Caple, 29, of Hackensack, was arrested and charged with simple assault while in the Red Hawk Diner. She is scheduled to appear in Little Falls Municipal Court.

Anyone who has information regarding these incidents is urged to call the police station from any campus phone at T-I-P-S (8477). All calls are strictly confidential.

board-of-trustees/honorary-degrees. Please be certain the background informa-

tion you provide addresses the criteria estab-

lished by the University’s policy on honor-

ary degrees: “Honorary degrees may be awarded by the Board of Trustees to persons who have achieved a record of major distinc-

tion at the state or national level in such areas as education, science, the arts, public service, research, the humanities, business, and the professions. Under circumstances approved by the Board, honorary degrees may be awarded to persons who, though they have not achieved national or statewide rec-

ognition, have made an especially outstanding and significant contribution to Montclair State or to higher education.”
Constitution Day presents:

Bioethics and the Body Politic

September 27, 2012

University Hall Conference Center, 7th Floor

Sponsored by the Montclair State University American Democracy Project

Keynote Addresses

“Bioethics and the Body Politic”

2:00 p.m. – 3:30 p.m.

The Constitution is a living document which continues to shape our lives today. Dr. Jessica McCormick, a bioethics expert from UMDNJ and Dr. Leslie Wilson, professor of history at Montclair State will discuss the underlying questions in the book, "The Immortal Life of Henrietta Lacks," by Rebecca Skloot and the consequential tension between scientific progress and social exploitation. Dr. McCormick will discuss the challenges presented by the policies and regulations of bioethics then and now and the resulting impact on our lives as citizens. Dr. Wilson, a historian, will address the social issues that surround the question as to whether or not Henrietta Lacks' rights were violated and if indeed the fact that she was a poor black woman are of relevance to our civil rights as guaranteed by the Constitution.

Dr. Brigid Harrison will moderate. She is professor of political science and law at Montclair State and is an expert on the politics of the Millennial Generation. Additionally, she is a frequent commentator on national and New Jersey politics for print and electronic media, and for television including FOX News, NJTV, ABC News and local affiliates of ABC, NBC, and CBS. She is the author of "American Democracy Now, A More Perfect Union, Power and Society and Women in American Politics."

For further information, please contact Carolyn Jones, American Democracy Project Campus Coordinator at jonesc@mail.montclair.edu.

Student Leader Panel Discussion

3:45 p.m. – 5:00 p.m.

As a follow-up to the keynote speakers, our student leaders will discuss the relevance of the issues presented and the resulting impact on their lives and their responsibilities as citizens.
David Lacks
Son of Henrietta Lacks

September 27, 2012
Montclair State University
Conference Center
University Hall, 7th Floor

7:00 p.m.
David “Sonny” Lacks, accompanied by his son David Jr., will join a conversation about what it meant to find out—decades after the fact—that his mother’s cells were being used in laboratories around the world, bought and sold by the billions. The discussion will be moderated by Brigid Harrison, professor of political science and law. A book signing will follow.

Sponsored by the Center for Writing Excellence, the College of Humanities and Social Sciences, the First-Year Writing Program and Student Development and Campus Life.

This event is free and open to the public.

Celestial patterns are stellar for this fall. These rainbow leggings, worn by Anshula Nathan, are a great example for an out-of-this-world trend. I love when this look is paired with hipster accessories like a beanie, or a leather jacket, or both. Keep the rest of your outfit low-key by making this galactic piece the focal point.

Shift or shirt dresses are great for making your legs appear thinner. I love shift dresses because it’s an easy and effortless outfit. Stay clear of the three-quarter sleeves because the cut can disproportion your body. For curvy girls, like me, add a belt to define your curves. I love how Stephanie Petchers accessorized with a scarf — it gives a casual but cool feel.

Johanna Taborda’s colored hair is a fun trend for fall. You can take her ombré look to a whole new level by adding color to the bleached ends. Caution: before picking an extreme color, I suggest buying clip-on extensions to test out which color best fits your hair color and compliments your skin tone.

For men’s fashion, I always love crew necks. You can do what Michael Kissiday did and layer it over a button down or wear it with a pair of khakis. Nothing says fall more than a crew neck. Plus, a crew neck is ideal for layering under a huge jacket because there isn’t a hood to get in the way. I don’t think crewnecks will ever go out of style.

Samuel Van Allen’s loafers are comfortable and well put together — perfect for campus! I cannot resist a piece that is effortless but gives off a “put-together” vibe. I especially want a pair of loafers of my own with metal details. Her loafers add extra pop by dressing them with a black shirt and black jeans. By rolling your jeans up an inch or two, you can show a little skin and also showcase your loafers. I also saw in a magazine that they’re making high-heeled loafers, which would be great for a job interview or internship!

Boots are always a fashion trend, but adding studs makes them that much better. Samantha Citelli’s got it right when it comes to studded boots. I love when studded boots, an overly masculine piece, is paired with a feminine piece like a dress or a high-low skirt. Studded boots are cute on almost anything and give the specific piece an edgy-hipster feel. Be careful not to over-stud. Having too many pieces with studs on them is overkill.

Ex-boyfriends. There’s an aspect of life nonlinearish how to deal with. It is because no one knows.
In the media, we are bombarded by relationships, breakups, new fighting and new coming friends, cue Demi Moore and Bruce Willis. What about all the feelings! Where do they go! Is it possible that two people who once had very strong feelings for each other can completely forget them? And how does that tie in with a new relationship? This Labor Day, I was contacted by an ex. And While I admit, it is nice to feel like I am still desired, it mostly just makes me in an awkward place.
In every other situation, I have been either hurt by an ex or had just lost feelings for them. With this one (we’ll call him John) it is completely different. The feelings I feel toward John are ones I can’t really explain, not even to myself.
I have been in a relationship with my current boyfriend (we’ll call him Pete) for almost two and a half years and I am beyond happy, but we know that last year’s love from John can’t help but miss what we had.
Taylor Swift and other artists constantly give us anthems to tie in with a new relationship. Cuing Demi Moore and Bruce Willis. What about all those singles? How does that person, it is not a good idea. It is in a perfect world, emotion and the tornado of doom to demolish my relationships. My fear of ignoring the feelings? Where do they go? I don’t want to be the girl who’s “the one that got away.”

In 2001, Rolling Stone magazine compiled a list of the greatest guitarists of all time... and only two women were nominated. Joan Jett came in at #87 and Joni Mitchell at #72. Before you wonder, what does gender have to do with it? Keep in mind, this list implies that two percent of the most widely recognized greatest guitarists are female. With odds like these, it's no wonder the music industry largely ignores women.

As is the argument in art history (for more, ARHS-108 “Women In Art” is offered every fall), the editorial board for this list was entirely male. With odds like these, it's no wonder the Rock and Roll Hall of Fame was entirely male... But why have there been no great women artists? Without delving too deeply into feminist art theory, let's turn this around: this is the wrong question to be asking. Instead, consider, what does it take to be great, and what might stop women from reaching this greatness? Or, as became the case as I scrolled through hundreds of scathing readership comments on websites that boasted the “Greatest Female Guitarists.” Can a woman ever be great, without her looks dominating the conversation? So without any further ado, here's a female-friendly rewrite of the Top 10 Fema.
Child Care

Babysitter needed in Ridgewood for 2 kids, ages 6 and 8. Mondays, Wednesdays and Thursdays, 3-6:30pm. Includes school pick up and driving to activities. Contact Ingrid Laub: 917-817-7833 or ingridlaub@gmail.com.

Part Time Child Care Needed – for two wonderful boys ages 2 and 5. We are located in Emerson, NJ (about 15 minutes from the school). Hours are: 12pm to 6pm on Monday, Tuesday and Wednesday. Must drive and have a reliable car. Start Oct 1st. If interested, please contact Pam at TOKEN1@ATT.NET.

Child Care

Professional parents need after-school care/homework supervision for my daughter, age 12, and son, age 9. In West Caldwell (6 miles from campus). Licensed driver with clean record, own car for transportation to activities. No cat allergies. Tues-Fri. 3pm to 6:30pm with additional hours on school holidays and some evenings. Contact barbhennessy@verizon.net.

Montclair State University’s parking issue has always been a popular topic since I’ve been going to this fine institution. People have always complained about the lack of parking on campus, making it harder for commuter students to find parking.

Many commuter students are being forced to park all the way down as far as Lot 40. If some of you residents are wondering where Lot 40 is, it’s near the softball field and Floyd Stadium. Now I’ve left many freshmen wondering where Floyd Stadium is. Please direct yourselves to the Student Center, where you can help yourselves to a map.

So we all have a clear visual as to where Lot 40 is; you can clearly see it’s far from campus. Also, there is no shuttle that goes all the way down to Lot 40. Residents must hike to the closest shuttle, the Heights shuttle.

Montclair has also made it official this year for sophomore residents to obtain a parking spot, which means that we will be losing hundreds of potential parking spots to students who don’t have to drive themselves to class.

Dorming can be looked at as a privilege, something many commuters don’t have the pleasure of enjoying.

Many of our commuters are looking for a way to save money, since they don’t have the luxury of dorming. It’s debatable if the dorms being referred to as a “luxury” is a stretch.

Regardless of your views on your dorm, residents have their place on campus. The only thing a commuter has to claim is a simple parking spot.

Many commuter students have a problem getting to class on time as a result. You can hear them mutter about how much earlier they had to get up, or the fact that it took them an extra 20 minutes to find parking.

It’s understood that residents should have the right to parking, but it’s easier said than done with the limited parking spaces in certain parking lots, not necessarily the lack of spaces.

The issue at hand isn’t just the lack of parking, but the organization of it all. We are allowing our residents and commuters to park in many of the same lots.

With the addition of sophomore residents, parking has to be organized in a way that will benefit the commuters. For example, having sophomore and other on campus residents park in one of the farther lots, leaving main parking places such as CarPac Diem open for commuters only.

It also wouldn’t hurt to have shuttles go to those unchartered lots of MSU.

Most people have been using NJ Transit parking anyway. It’s cheaper than buying the school’s parking pass. Plus, it gives options to residents, such as purchasing monthly passes instead.

Montclair State University has been focusing on building and repairing buildings, which is something they do deserve credit for.

Most students that attend MSU are in fact commuters. More of the school’s construction projects should be geared to adding more parking spaces on campus.

These students also pay tuition to attend this school. If MSU would like to improve campus life, then there needs to be some sort of compromise.

The campus belongs to every student in this university. So it’s only fair the effort made towards new dorms should also be put into maximizing parking.

MSU is still evolving as a university, granted we only earned the title of university in 1994. Our school has taken huge leaps to become such a large and prestigious New Jersey college.

The demands for better parking spaces is just another small step in our history, but will hopefully become a reality in the near future.

### Students Speak

#### How long does it take for you to find parking?

**Katherine Velasak**

Fine Arts

**Senior**

“I started parking originally in Red Hawk and it took 15 to 20 minutes, but it was really expensive. So now I just park in the transit lot, which is a lot cheaper. And it doesn’t take as long because there a lot of spots. And there are shuttles run through there.”

**Alex Quintana**

Undeclared

**Freshman**

“I take the bus actually. But I heard parking is awful. And I was late the first day because I got a ride.”

**Jacob Yi**

Marketing

**Senior**

“Parking here, umm it depends on what time. Especially in the morning, forget about it. It’s going to take me anywhere from 20 to 30 minutes. Afternoon it’s alright. But yeah, in the morning I have to come here at least 20 minutes earlier for my class.”
For many students, a new school year means new housing to adapt to. Many choose wisely and move from traditional college dormitories to off-campus housing. Some, like myself, choose less wisely and move from dorms to on-campus apartments. When I moved into my apartment on Clove Road (I refuse to call it by its ridiculous new name, “Hawk Crossings”), I was prepared for the usual complaints: marks on the walls, stains on the carpets, the kind of things that are expected in apartments as old as Clove. However, I was in no way prepared for just how many problems my neighbors and I would have to encounter just by stepping into our apartments for the first time.

For starters, there were no kitchen chairs in my apartment. I thought this was a strange problem, given how easy it could be fixed (i.e. bringing the chairs back), but not a wholly intolerable one. Even easier to fix, and all the more annoying, was the state of the kitchen itself. It looked as if it hadn’t been cleaned since the last time the previous occupants had decided to do so.

The stove was greasy, the sink needed to be bleached, the fridge hadn’t been wiped out—essentially, none of the typical housekeeping duties that are expected to be finished before move-in day were done. These problems were annoying, but tolerable. Intolerable, however, was the condition of the bathroom.

The grout is stained with what I really, really hope isn’t black mold, but I know probably is, and the shower doors are off their track to the point where they barely move. These are problems that are not only annoying, but beyond my ability to fix. My neighbors’ bathroom came with black mold as well, with the added benefit of no shower doors. Those were instead placed in the hallway outside the bathroom, rendering them utterly useless. Apparently, both my neighbor’s missing shower doors and my missing kitchen chairs had been reported to maintenance by our Community Assistant weeks before we moved in, but we reported the problems again for good measure.

However, as I looked out my living room window at the shiny new Heights complex across the way, I started thinking about why the residents of the Clove apartments were left to deal with these problems. One would think that, with four roommates paying $8,572 a year for a grand total of $34,288 per apartment, per year, ResEd could afford to re-grout the bathrooms or at least have shower doors installed properly for move-in day.

It doesn’t seem like any of that money actually goes back to Clove. If that was the case, those rumors a few semesters back about the bathrooms being remodeled would have turned out to be true instead of proving to be mere fantasy.

Instead, I’m sure that any money that goes to ResEd is applied elsewhere. For all the money that we as students borrow so we can pay to live in these apartments, we deserve a little bit more in return to make this a more habitable place to enjoy our college experience.

Kristen Bryfogle, an English and Classics major, is a columnist for The Montclarion.
This year, we have a battle royale of cellular proportions. The iPhone has some experience in the art of combat, since its first appearance on the market in June 2007. It has successfully beaten out its past competitors, such as the dying BlackBerry.

However, a new enemy has appeared on the market. The Galaxy was the first Android phone released, and it has successfully beaten out its past competitors, such as the dying BlackBerry. It has been the first Android phone to reign supreme. It’s much more portable and is eye candy as far as phones go.

The only concern with a metal exterior is that it scratches easily, which ruins the design of the phone. It may be a good idea to use plastic in the design, making the Galaxy seemingly less susceptible to scratches. But the Galaxy is a huge phone and would probably stick out of most jean pockets. The iPhone 5 being much smaller is more flattering to the outside pocket.

Another feature customers focus on is the space on a phone. Most of us understand the concept of the iPhone’s capacity. You can buy an 8 GB, 16 GB, and so on.

The GB or gigabits determine how much room your iPhone has to store pictures, videos, music, etc. The more gigabits your iPhone has, the more it will cost. As for the Galaxy, you are given a standard amount of gigabits, but you can add more gigabits if you need more space.

Concerning Editorials and Columns

Iron Consumer: Which Phone Will Reign Supreme?

The Galaxy S III challenges the iPhone 5

MONIKA BUJAS
OPINION EDITOR

The Galaxy S III is predicted to be much smaller and about 7.4mm in thickness. This makes the iPhone 5 much easier to carry around. The iPhone 5 is also said to have a much better design because it is made out of metal instead of plastic, giving it a more sophisticated look.

In the looks department, the iPhone seems to reign supreme. It’s much more portable and is eye candy as far as phones go.

The only concern with a metal exterior is that it scratches easily, which ruins the design of the phone. It may be a good idea to use plastic in the design, making the Galaxy seemingly less susceptible to scratches. But the Galaxy is a huge phone and would probably stick out of most jean pockets. The iPhone 5 being much smaller is more flattering to the outside pocket.

Another issue regarding phones is the processor. As of now, the Galaxy has the iPhone beat in processing and it looks like it will remain that way when the iPhone 5 comes out. The Galaxy has the fastest processor on the market right now. Now its huge size makes more sense. It’s only logical that the Galaxy is bigger because it has a much more powerful processing ability than the iPhone.

Another feature customers focus on is the space on a phone. Most of us understand the concept of the iPhone’s capacity. You can buy an 8 GB, 16 GB, and so on.

The GB or gigabits determine how much room your iPhone has to store pictures, videos, music, etc. The more gigabits your iPhone has, the more it will cost. As for the Galaxy, you are given a standard amount of gigabits, but you can add more gigabits if you need more space.

In some ways, it’s good to have the Galaxy because you are not limited on space. But if you want to be limited on space so you won’t have to pay extra, then maybe it’s better to have an iPhone.

Lastly, there is the issue of expense. The iPhone 4S and the Galaxy S III are priced the same, however, it is safe to assume that the iPhone 5 is going to be a lot more expensive.

If you really do enjoy Apple products and don’t mind spending more, then the iPhone 5 sounds very promising.

Both phones are top notch and are well received. Many carriers sell both the iPhone 4S and the Galaxy S III. The new iPhone will go on sale on Sept. 21, 2012. Whichever phone you decide to purchase, I’m sure it will be an excellent choice.

There is one question that still remains: Which cell phone will reign supreme?

Alexa Coppola, a fine arts major, is in her first year as the opinion editor for The Montclarion.

Alexa Coppola, a fine arts major, is in her first year as the opinion editor for The Montclarion.
Behind the scenes of the thriller *Anima*.

**Rashard Bradshaw**
**Arts Editor**

MSU senior film student Mike J. Stable is proving he has what it takes to make it in the competitive film industry with the release of *Anima*, a psychodrama that leaves viewers on an emotional journey into life after death. *Anima*, developed by WDK Film studios, is a short narrative that follows an inmate on death row that is undergoing a controversial procedure. The purpose: to tap into the secrets of the afterlife. A neuroscientist, who from the trailer seems to be the film’s protagonist, leads the experiment, which doesn’t end as planned. *Anima* was created as part of Stable’s Film 3 class last year.

When asked what motivated him to pursue a career in film, Stable shared, “I’m just a fan of movies and I want to be part of the creative process behind them. But to go a little farther, I have a deep appreciation and love for narrative storytelling.”

As both a writer and director, his passion is evident. “When I was 13, I started taking classes at MSU, becoming a screenwriter and film director was just a dream, but now, as a senior, it feels like a very real possibility.” Animists Tom Zanca, Toni Vitale, Malin Tybably and Jason Schmitz and was written and directed by Stable who also produced it with the help of CJ Polosky.

Similar to the classic premise of Truman Capote’s novel, *In Cold Blood*, with otherworldly twist and turns, the trailer alone had me perched to the end of my seat, assuring me that the film is definitely worth checking out!

**Movie Night at Sprague**

**Classic films at the campus library**

**Rashard Bradshaw**
**Arts Editor**

*Taxi Driver* is a 1976 thrill-er that delves into the psyche of an emotionally disturbed taxi driver who is driven to the edge of loneliness. To anyone from the outside, he is any one of us, a person going through the routine of his own day-to-day life, no hair out of place, shapely pressed.

However, on the inside, Travis Bickle (Robert De Niro) is a deeply disturbed time bomb close to detonation.

*Taxi Driver* is a great film that includes not only the beauty of old New York but the signature style of director Martin Scorsese that cemented him as an important and innovative fixture in film.

The movie follows the unstable protagonist as he travels through the city aimlessly searching for something. What exactly is not known, even after the bloody climax.

Jodie Foster is also featured as a young street urchin who is under the care of a suave pimp by Harvey Keitel.

The movie’s duration is 1 hour and 53 minutes. While some scenes may seem to lag on screen, the moments are only testimonials to the creative genius of Scorsese.

The entire cast delivers an amazing performance with De Niro, fully committed to the fragile and violent persona of a man who has had enough.
SHUTTLE SERVICES ANNOUNCES
EXCITING NEW CHANGES

NEW ROUTES:

Blast from the Past

Album of the Week

Jagged Little Pill was the third release from the Canadian-American songstress Alanis Morissette. The album, released on June 15, 1995, is a brew of alternative rock and post-grunge influences. The 12-track disc catapulted Morissette to commercial and international success. To this day, “You Oughta Know,” the lead single, is the anthem for scorned women across the world. Morissette howls, “And I’m here to remind you, of the mess you left when you went away!” in her signature scratchy vocals, accompanied by a build up of guitar and drums that fuel the flames of her angst.

The album received positive reviews, released six singles and was nominated for six Grammy Awards, winning four, including “Album of the Year.” In 2003 Rolling Stone included the album in The 500 Greatest Albums of All Time list.

Fall Playlist: Album Releases You’re Looking Forward To

1. “The Sound of the Life of the Mind” by Ben Folds Five
   – Nick Taylor, Chief Copy Editor

2. “Babel” by Mumford and Sons
   – Jessica Czarnecky, Features Editor and Carley Hussain, Production Editor

3. “Night Train” by Jason Aldean
   – Nick Verhagen, Sports Editor

4. “Former Lives” by Ben Gibbard
   – Lindsay Rassmann, Managing Editor

5. “Broke With Expensive Taste” by Azealia Banks
   – Rashard Bradshaw, Arts Editor

6. “Push and Shove” by No Doubt
   – Monika Bujas, Opinion Editor
Graduate Information Session

This is an opportunity to speak one-on-one with faculty and staff from The College of Science and Mathematics.

Spotlight on

The College of Science and Mathematics

Please join us for a Graduate Information Session Thursday, September 20th
6:00 p.m.
University Hall, 7th floor

Immediately following the Graduate School overview, there will be the following breakout sessions:

- Department of Biology & Molecular Biology (MS in Biology, MS in Aquatic and Coastal Sciences, MS in Molecular Biology & Molecular Biology Certificate)
- Department of Chemistry & Biochemistry (MS in Chemistry & MS in Pharmaceutical Biochemistry)
- Department of Computer Science (MS in Computer Science and CISCO Certificate)
- Department of Earth & Environmental Studies (MS in Geoscience, MA in Environmental Studies, PhD in Environmental Management, Environmental Forensics Certificate, Water and Resource Management Certificate and Geographic Information Science Certificate)
- Department of Mathematical Sciences (MS in Mathematics, MS in Statistics, MA in Teaching Middle Grades Mathematics, EdD in Mathematics Education, Teaching Middle Grades Mathematics Certificate)
- Initial Teacher Certification (P-3, K-5 and P-12 with content area certification)
- Newark-Montclair Urban Teaching Residency
- School of Business – Master of Business Administration (MBA)
Welcome Back from Parking Services

We’ve made several exciting improvements!

- Commuter and resident surface lot permits have been REDUCED by $25.00!
- Red Hawk Dollars are now accepted for in-office transactions!
- Weekend daily passes are available using new pay-by-phone technology!
- The Parker app can be utilized to view commuter parking availability from home!
- Zipcar is available to all students this Fall!
- Sophomore residents are now eligible for on-campus parking!
- On weekends, resident permits are honored in all commuter lots and the CarParc Diem Deck!
- Lot 61 has been converted to a commuter lot!
- Don’t Forget: we offer free jump starts if your car battery dies on campus. Just call the office at 973-655-7580.

Field Hockey Living Up to Preseason Hype

Red Hawks off to excellent 4-1 start of 2012 season

Mike Pannullo - 2011 Sports Editor

The Montclair State field hockey team came into this season with high expectations. Currently, the Hawks are sitting at 4-1 overall and 1-0 in the NJAC. The 4-1 start proves that the team is worthy of their #9 national ranking in the Division III Penn Montclair Sports Poll. The Red Hawks opened their season on the road to the Eastern University Eagles. Eastern University was trying to average last year's opening-day 2-1 loss to MSU, while the Red Hawks looked to make it two straight opening-day wins against the Eagles. MSU got its first score of the year in the 20th minute, when senior midfielder Michelle Hagel got an assist from junior Jennifer Tafro and buried a shot in the net while Wilken was falling down. Once the Red Hawks grabbed a 1-0 lead, they never looked back on route to a 4-0 victory. Hagel ended up with her first career hat trick, collecting her second goal in the 42nd minute and her final goal with 15 minutes left in the game. Senior running back A.J. Scoppa led the Red Hawks ground offense going with an eight-play, 74-yard drive that culminated with a four-yard touchdown run by junior running back A.J. Scoppa. Unfortunately, this would be the final tally of the game, as the Seahawks were held to just 266 yards of total offense. Scoppa led the Red Hawks ground game, gaining 72 yards on 22 carries, averaging 6.1 yards-per-carry. Senior wideout Bryan Coghlan was held to just three catches for 57 yards, and senior quarterback Drew Cathey completed 28 of 46 pass attempts, throwing two interceptions, and was sacked five times.

The Red Hawks will be looking to get back to the winning ways following a 2-0 shutout loss to the Salve Regina University Seahawks on Tuesday afternoon. After jumping to an early 2-0 lead in the first half, the Red Hawks were unable to get anything positive on thirteen third-down attempts, and was sacked five times. His efforts led him to being named NJAC Defensive Player of the Week, making it two consecutive weeks in a row that a Red Hawk was given the honor. Following the season-opening back-to-back home wins, MSU hit the road on Wednesday, Sept. 5th to take on upset-minded Muhlenberg College. The host team proved inhospitable, dealing the Red Hawks their first loss of the season with a 2-1 score. Although MSU was able to outshoot the Mules 23-8, only one of those shots found the back of the net. Muhlenberg’s 2-0 lead at the half held up as junior midfielder Stephanie Lewis pulled MSU within one goal, but no closer. Senior goalkeeper Meg Bosland had three saves for her team. Staying on the road, the Red Hawks took on Alvernia University on Saturday, Sept. 8th. The Crusaders gave MSU all they could handle during the 70 minutes of regulation time, but the Red Hawks squadded out a 2-1 in overtime. Alvernia scored in the 4th minute to take an early 1-0 lead in the first half. MSU knotted the score with five minutes left in the half as Tafro found the net. The second half was tightly contested and neither team was able to cash in. With 11 minutes left in OT, Lewis put in the game-winner, sealing the victory for MSU. The Red Hawks were able to outshoot the Crusaders 18-6 in the contest while Bosland recorded three saves. This past Tuesday, MSU played their third game in a row at Ramapo College. The Red Hawks dominated throughout, picking up an easy 7-1 win over the Road Runners and upping their record to 4-1. Kate Nor- gard, Tafro and Rauuchbach each contributed two goals for MSU. Montclair State’s other goal came from Frances Schaefer. The win gave MSU a 1-0 record in NJAC play. In a recent interview, Coach Goh- tung spoke about the team’s performance in the games played thus far. “It’s played well in our first four games. We are out-shooting and out-cornering our opponents in all of our games. We struggled to finish on the road last week in PA, but I’m confident that we’ll get back to scor- ing more goals this week. Traveling helped us see what areas we need to improve upon early in the season and gave us an opportunity to work on our weaknesses in practice.”

As this team gains more experience and addresses some of their weaknesses, the Red Hawks will then be able to realize their full po- tential, which will mean trouble for future MSU field hockey opponents. The Red Hawks return home this weekend to host New Paltz on Thurs- day, Sept. 13th at a 7 p.m. start and Misericordia University on Sat- urday, Sept. 15th at 3 p.m. Both games will be played at Sprague Field.

Team Leaders

Offense
Passing: Drew Cathey - 495 yds, 5 TD, 1 INT, 247.5 yds/game Rushing: AJ Scoppa - 217 yds, 4.9 avg, 1 TD, 96.5 yds/game Receiving: Vin Fischer - 151 yds, 15.7 avg, 2 TD, 75.5 yds/game Defense
Adnan Sakiri - 9 solo, 16 assist, 25 total, 2.5 TFL for 9 yds
Mark Aspinwall - 6 solo, 13 assist, 19 total, 1 TFL for 1 yard

Upcoming Games
9/15 vs. Morrisville State 1 p.m.
9/22 @ W. Paterson 12 p.m.
9/29 @ SUNY Cortland 10/6 vs. Rowan 1 p.m.

Red Hawks off to Rocky Start

The Montclair State football team dropped its second game of the season on the road to the Salve Regina Seahawks by a score of 16-0. With the loss, the Red Hawks fall to 0-2, their worst start since 2005. The Seahawks got their first score in the opening quarter when sophomore quarterback Steven Wilken completed a 52-yard touchdown pass to sophomore wide receiver Matthew Tranyor. Tranyor would eventually go on to lead the Sea- hawks with six catches for 166 yards.

The Montclairian

Philip White

Senior rover back Shane Ensner led the Red Hawks with six catches for 166 yards. In the second quarter, the Montclair State offense going with an eight-play, 74-yard drive that culminated with a four-yard touchdown run by senior running back Shane Ensner. His efforts led him to being named NJAC Defensive Player of the Week, making it two consecutive weeks in a row that a Red Hawk was given the honor. Following the season-opening back-to-back home wins, MSU hit the road on Wednesday, Sept. 5th to take on upset-minded Muhlenberg College. The host team proved inhospitable, dealing the Red Hawks their first loss of the season with a 2-1 score. Although MSU was able to outshoot the Mules 23-8, only one of those shots found the back of the net. Muhlenberg’s 2-0 lead at the half held up as junior midfielder Stephanie Lewis pulled MSU within one goal, but no closer. Senior goalkeeper Meg Bosland had three saves for her team. Staying on the road, the Red Hawks took on Alvernia University on Saturday, Sept. 8th. The Crusaders gave MSU all they could handle during the 70 minutes of regulation time, but the Red Hawks squadded out a 2-1 in overtime. Alvernia scored in the 4th minute to take an early 1-0 lead in the first half. MSU knotted the score with five minutes left in the half as Tafro found the net. The second half was tightly contested and neither team was able to cash in. With 11 minutes left in OT, Lewis put in the game-winner, sealing the victory for MSU. The Red Hawks were able to outshoot the Crusaders 18-6 in the contest while Bosland recorded three saves.

This past Tuesday, MSU played their third game in a row at Ramapo College. The Red Hawks dominated throughout, picking up an easy 7-1 win over the Road Runners and upping their record to 4-1-0. Kate Nor- gard, Tafro and Rauuchbach each contributed two goals for MSU. Montclair State’s other goal came from Frances Schaefer. The win gave MSU a 1-0 record in NJAC play. Who's Hot This Week

Dan Avento
Linebacker — Football
Despite the Red Hawks losing 16-7, Avento recorded an outstanding 15 tackles against Salve Regina. He was honored by being named NJAC Defensive Player of the Week. Avento also became the 21st person to reach 200 tackles in a Montclair State uniform.

Francesca Gibson
Forward — Soccer
Gibson has been a huge force for the Red Hawk offense. In five games, Gibson has scored six goals, including two in their win over FDU-Florham. Gibson is currently second in the NJAC in goals and points.

Game of the Week

Football
vs. Morrisville State
September 15, 12:00 p.m.

The Red Hawks will face off against Morrisville State in their first conference game of the 2012 season. They will be looking to bounce back after an 0-2 start.

For updates, check out: www.montclairathletics.com @TheMontclarion on Twitter
It’s that time of year again. Everyone gets excited that football season is back, while also rooting for their favorite teams. If you’re not a sports fan, I don’t say I wasn’t just as excited about the NFL getting back into season form.

However, let’s not forget that in just a few weeks, we’ll be heading into October postseason baseball. If we look at the last two seasons, both the St. Louis Cardinals and San Francisco Giants were wild-card teams that got hot at just the right time to pull together a remarkable run resulting in winning the World Series.

This goes to show that you don’t have to be the juggernaut team that had the most wins in the regular season in order to be the best. Even though the playoffs aren’t set in stone yet, I’d like to still take the opportunity to acknowledge the teams that are in serious contention.

This year’s “Cinderella” team has definitely been the Washington Nationals. Rookie outfielder Bryce Harper has certainly lived up to the hype by showing that he is more-than-able to handle his own in the big leagues despite being only 19 years old. This past week, the Nationals have decided to stick with their plan in shutting down pitching phenomenon Stephen Strasburg. Strasburg ended up missing most of last season due to Tommy John surgery, and they don’t want him potentially suffering another career-threatening injury. Person- ally, I don’t think this decision as this will be the first time since 1945 that the city of Washington will get to see a legitimate baseball team. While the Nationals are looking at what’s best for the future for Sterling Medical Services at the event

the Top 12 finishers on both the men and female side received T-shirts as he covered the course in a time of 18:02. Women’s lacrosse freshman Serena Hitchins was the top female athlete to win the race for consecutive season. Permission was granted that they will get to seize the moment in making the playoffs.

However, they still have starting pitcher Gio Gonzalez, who leads the Majors with 19 wins. Also in the National League East, the Atlanta Braves are comfortably ahead in the wild card race while Chipper Jones attempts his last hoorah in a permanent.

In the American League East, the resurrected Derek Jeter seems to have turned back the clock by leading the Major League in hits. On the other hand, the Boston Red Sox have had a difficult season, which included new management and getting rid of high priced players, they will still look to prevent the Yankees from winning the division. It’s amazing to see that the Orioles are relevant at this time of the year, and even if they don’t make the playoffs, Buck Showalter has made a serious case to be voted as Manager of the Year.

But let’s not forget about the Tampa Bay Rays, who only trail by one game in the wild card race, and with a top-of-the-line pitching staff, they could be a very dangerous team. In the NL West, former manager and former infielder Robin Ventura has put the Chicago White Sox back on the map as they try to hold off the Detroit Tigers from stealing their thunder. The two clubs will square off in Chicago for a four-game series that could potentially determine the champion of the American League going into the last stretch.

The Texas Rangers and their ever-so potent offense have once again had a great year for themselves, as they look to make it to the World Series for the third straight year with hope of finally winning a championship. The Arizona Diamondbacks, Los Angeles Dodgers and Cardinals have all turned a lot of heads. They have the second-lowest payroll in baseball and yet, they still have starting ace, Chris Carpenter, who’s been out for the year. Although they won’t win the NL Central, they have a one-game lead for the second wild card spot.

A new implementation this year is that both wild card teams for each league will actually play an elimination game to determine who will continue their postseason in the Divisional Series. There’s much to look forward to this year. October is setting up to be a very exciting month.

Red Hawks Participate in Charity Run

The Montclair State Department of Intercollegiate Athletics held its 7th Annual Reservoir Charity Training Run on Thursday which produced outstanding results, and more importantly, generated funds which were donated to the Montclair Ambulance Unit and the Montclair State EMS. Montclair Ambulance Unit Deputy Chief Frank Carlo joined Director Mike Ricker from MSU Emer- gency Medical Services at the event.

Over 180 MSU student-athletes, staff, coaches and members of the campus community took part in the three-mile event around the Cedar Grove Reservoir which also included a walking race. Men’s lacrosse sophomore Michael Scola became the first student-athlete to snap back into reality if they want to make a deep run in the postseason. Lastly, the defending champion St. Louis Cardinals have overcome losing Pujols, and their starting ace, Chris Carpenter, who’s been out for the year. Although they won’t win the NL Central, they have a one-game lead for the second wild card spot.

Considering Derek Jeter will look to revive the New York Yankees and bring them back from the brink of elimination.

Both Los Angeles teams are fighting to clinch the second wild card spot for each of their leagues. In the NL, the teams of the town for the Angels was their prized acquisition in Albert Pujols, but the real story has been Mike Trout, hailing from Vineland, New Jersey. This kid is the definition of what a five-tool player is. He will most likely win Rookie of the Year and is even giving Miguel Cabrera a run for his money for Most Valuable Player. The San Francisco Giants have built a comfortable lead out in the NL West but they will need Tim Lincecum to snap back into reality if they want to make a deep run in the postseason. Lastly, the defending champion St. Louis Cardinals have overcome losing Pujols, and their starting ace, Chris Carpenter, who’s been out for the year. Although they won’t win the NL Central, they have a one-game lead for the second wild card spot.
