It has been accepted for inclusion in The Montclarion by an authorized administrator of Montclair State University Digital Commons. For more information, please contact digitalcommons@montclair.edu.
Crisis of victory could be heard around campus late Tuesday night as Barack Obama was reelected as the 44th President of the United States, over Governor Mitt Romney. The election was extremely close all night. However, as President Obama began to claim swing states across the country, the election swung in his favor. Romney suffered a hard blow when his own home state of Massachusetts was secured by Obama, a state that Romney believed he had. Obama secured the election with a final count of 303 electoral votes out of the 270 needed to win the election. Romney had 206 of the electoral votes. Although the electoral votes made it extremely apparent who won the election, the popular vote was extremely close throughout the night. The final count of the popular vote was 50% for Obama and 48% for Romney.

Many changes for the country can be seen coming out of this election. Not only was the first openly gay senator elected, but two states have legalized the recreational use of marijuana (see inside for full details of other national changes).

Throughout the day and night, Red Hawks participated in the election through not only voting, but live coverage of the election. Residents all over campus were able to take shuttles to cast their votes. Buses full of students traveled to St. George’s Antiochian Orthodox Church and Mt. Hebron Middle School throughout the day, making sure their voices were heard.

Later in the day, the School of Communication

Hurricane Sandy Blows Away the East Coast

Hurricane Sandy is the worst storm in New Jersey's history with millions of power outages, gas shortages and property damage throughout the state. It's hard to find anyone not affected by Sandy. Resident students who live in any of the Clove Road residences experienced their own unique Sandy experience last week. The worst of Sandy hit the tri-state region on Monday, Oct. 29 into Tuesday, Oct. 30. The damage done in that short time was enough to leave millions of people in a state of emergency.

On Monday just before 5 p.m., residents of Hawk Crossings, Sinatra Hall and The Village joined the millions of people in the tri-state area who lost power. Wary residents made it through the night, not knowing when they would receive power again.
On Oct. 29: Karim Sawyer, 19, of North Brunswick, and Lendward Brooks, 19, of Piscataway, were arrested and charged with burglary and theft from Car Parc Diem. They are scheduled to appear in Little Falls Municipal Court.

On Oct. 31: An act of criminal mischief was reported in Bohn Hall. A study room had its window shattered by an unknown person. This matter is under investigation.

On Nov. 1: Alexander Rivera, 19, of Union, was arrested for simple assault while in Freeman Hall. He is scheduled to appear in Montclair Municipal Court.

On Nov. 1: Emily Holden, 22, of Fryeburg, ME, was arrested and charged with marijuana possession while in Stone Hall. She is scheduled to appear in Little Falls Municipal Court.

On Nov. 2: Brandon Lewis, 22, of Neptune, was arrested and charged with marijuana possession while in Lot 19. He is scheduled to appear in Little Falls Municipal Court.

On Nov. 3: Ewelina Kluczyk, 19, and Izabella Kluczyk, 20, of Green Brook, were arrested and charged with possession of marijuana while in Freeman Hall. They are scheduled to appear in Montclair Municipal Court.

On Nov. 4: An employee of Parking Services reported the theft of a parking boot from a vehicle parked in Car Parc Diem. This matter is under investigation.

Anyone who has information regarding these incidents is urged to call the police station from any campus phone at T-I-P-S (8477). All calls are strictly confidential.
While many students left for the weekend in preparation for Sandy, the remaining 650 students from the Clove residences were evacuated from their dorms into alternate university housing on Tuesday, Oct. 30 at approximately 1:30 p.m. Displaced students were moved into Bohn, Stone and Webster Hall indefinitely.

"Bohn was ready to be occupied by residents since it was not an occupied building for the fall semester," said Mario Rapetti, Associate Director of Residential Education. "As a department we worked with our student staff of community assistants and service assistants to develop duty shifts, check keys and provide the same services we would in any open residence hall on campus."

Many students found the mandate as an inconvenience, but appreciated the efforts of the University in accommodating them with power. "It’s overwhelming but we’re all okay. It sucks having to leave your apartment and (having) everything behind," said senior Kimberly Horan.

In addition to students from Clove being housed on the main campus, essential staff and Sedex personnel were housed at the University in order to keep Sam’s Place and Freeman Dining Hall open and operational for students on campus.

Throughout the week, many residents, drunk off having so much time off from school, acquired a few damages of their own outside of damage caused by Sandy. A proxy card reader was taken from outside Fenwick Hall and later found underneath a stairwell. Additionally, during the early morning hours on Halloween, an unknown object was thrown through a window in Bohn Hall and a fire alarm was pulled.

Residents received power back on Friday afternoon and residents moved back into their normal housing Friday night through Saturday afternoon. With Bohn and other halls up and running, the University offered to accommodate commuter students who may have issues getting to campus due to Sandy by allowing them to stay on campus.

"As a community we want to help everyone at MSU who was affected by the storm and provide the essential basic needs of power, heat and hot water so our community as a whole can return to normal routine as best as they can," Rapetti said.

About 300 commuter students are taking the University up on their offer and staying in Bohn Hall. They will be allowed to stay on campus until N.J. is up on their offer and staying in Bohn Hall.

Rapetti added that students "wanted to be able to attend their classes and get on with their educational goals and we [Residential Education] wanted to support them in accomplishing this regardless of Sandy’s wrath."

In an email sent out to the student body from Student Government President George Juzdan, he said, "The residents moved [...] should know that your safety and well-being are the number one priority for the University; the administration has taken the necessary actions to ensure that you have a comfortable living space for the duration of the power outage. [...] It is important to remember that the problem is bigger than just the University. More than 2.7 million New Jersey residents were left without power and our campus residents are a part of the larger Sandy impact."

Montclair State was relatively lucky with the extent of damages they suffered. Cities on the coast of New Jersey, like Seaside Heights and Mantoloking, suffered some of worst damage during the storm. With their close proximity to the shore, entire boardwalks and homes were flooded and destroyed and now need rebuilding.

One of the areas hit the hardest was Seaside Heights, home of the "Jersey Shore." Funtown Pier and Casino Pier, located on the boardwalk, were sent into the ocean. After the hurricane left, remnants of the rides could be found floating in the ocean.

From a residential viewpoint, all of the houses in Seaside and the other barrier islands are completely uninhabitable. Not only are the houses underwater, but all of the gas lines have been completely ripped apart. It is said that there will not be gas to the barrier islands for at least six to eight months.

Many students and their families who live in central and southern New Jersey were affected also. "My family’s business in Seaside, it’s a hotel, was half-destructed," said Matt Vanhoogun from Ocean County. "The boardwalk and all of my memories from being a kid are gone."

In the wake of Hurricane Sandy, much of New Jersey and other states affected by the storm are struggling to recover from approximately $50 billion in damages.

For now, relief efforts from the American Red Cross, the Federal Emergency Management Agency, volunteers and many organizations are being made in order to help the many people suffering from this disaster reach some kind of stability.

Water continues to flood residential areas of Staten Island, NY, making them uninhabitable.

Residents on Clove Road were moved into Bohn Hall when power was lost.
Debate Shows Many Political Views

Lori Annese

On Thursday, Oct. 25, the Young America–Alaskan Liberty hosted a political debate on campus. The organization is one of the largest and most active pro-liberty organizations among America’s universities and colleges. Its purpose to the student body is demonstrated through events and by providing education to all those who are interested in learning more about the ideals of liberty. Within its ranks are more than 300 chapters and over 26,000 student activists worldwide. YAL’s purpose and its effect are shown to be essential to student bodies all around the country. The debate featured three representatives: conservative David Tubbs, liberal Grover Furr and libertarian Yuri Maltsev. Dr. Tubbs earned his Ph.D. from Princeton University, where he concentrated in political philosophy, constitutional law and Russian studies. Dr. Furr, an English professor at Stanford, earned his Ph.D. at Princeton University. Dr. Maltsev is a professor of philosophy, constitutional law and Russian studies at Carthage College. He worked with former Soviet President Mikhail Gorbachev’s reforms on the re-constitution of the political movement in the late 1980s. The entire debate, which lasted an hour and a half, was moderated by Todd Seavey, a producer of ABC and Fox News. The debate consisted of eight to 10 topics and issues faced by Americans. Some of the questions asked by Seavey were included on America’s foreign policy, views on the war in Afghanistan and domestic issues such as the war on drugs and health care. In his opening statement, Dr. Tubbs expressed his agreement with anti-Utopian schemes within politics. He also stressed his belief that personal freedom correlates with responsibility. In Dr. Maltsev’s opening statement, he expressed his beliefs in free markets and that the government should be kept somewhat smaller than currently is, making sure it is “kept in check.” Within Dr. Furr’s opening statement, he expressed that exploitation is society’s biggest source of misery. He believes that society should be a whole, rather than a society of individuals. Regarding the war in Afghanistan, Dr. Tubbs responded, “I believe that our decision to go to war in Afghanistan met criteria for a just war.” Regarding foreign policy, Dr. Tubbs stated, “I believe that the U.S. is still a powerful figure in the world, but cannot simply do everything.” He went on to express the idea that the U.S. should provide leadership throughout the world because of its special status. His view on drugs included the much needed distinguish between prohibitions regarding the purchase of certain drugs. Dr. Tubbs believes that some drugs should not be characterized with others that pose a severe threat. His position on health care was that a basic package is an entitlement, and if an individual wants better health care then they “should accept the decisions made in your life.” Those decisions include smoking and usage of certain drugs. However, Dr. Furr made it clear about his disagreement with U.S. foreign policies both in the past and those that are still used today. Dr. Furr believes that the imperialistic policies “won’t stop without a tremendous struggle from U.S. citizens.” His solution for the war on drugs in America is to “make the private selling of drugs unprofitable, where drugs would be solely sold by the government with high restrictions.” Responding to the question on health care in America, Dr. Furr stated, “There should be a single-payer universal health care, so everyone has health care.” Maltsev had concrete points on various issues, although occasional was he unclear. Maltsev believes that all drugs should be legal and that individuals have the right to use whatever drug they choose. When asked what he thought about education, Maltsev answered, “It simply does not pay to go to college these days, and students are being short changed.” His view on health care was based on the idea that if “market works on everything else, then why not work in this case?” Although the purpose of the debate was not to divide the audience and attendees, there was some small animosity in the audience’s reaction. However, members were still educated about the issues America faces. “(This debate) provides a sense of knowledge to individuals who may be confused or unsure of the issues presented,” said Director of Events Corey Hubbard. “It provides a place to discuss opinions rather than speak about them in a mumbled sense.”
- A 7.4 magnitude earthquake struck offshore near the Mexico-Guatemala border yesterday.

- Two American sailors, who were arrested last month, were indicted Tuesday afternoon. The two face charges of raping a Japanese woman.

- Yesterday, the Dow fell below 13,000 for the first time in two months. The average fell more than 300 points, roughly 2.3 percent.

- Violent protests were seen outside the Greek parliament yesterday. Inside, the lawmakers voted on a new batch of austerity measures. This is an issue that has the country both divided and in a state of unrest.

- The first openly gay senator, Tammy Baldwin, was elected in Wisconsin.  
- The first disabled woman veteran, Tammy Duckworth, was elected in Illinois.

- Medical marijuana was approved in Montana and Massachusetts.
- Recreational use of marijuana was approved for those 21 and older in Colorado and Washington.

- Yesterday, French Ministers of the Cabinet approved a draft bill that will allow same-sex couples the right to marry and adopt. The actual bill will be voted on in January.

- Syrian insurgents blew up an official’s car using a homemade car bomb. The bombing killed Judge Abada Nadhwah, who was very close to the Syrian President.

- Following a police raid of a corrupt real estate company, Russian President Vladimir V. Putin fired his defense minister on Tuesday.

- A car bomb exploded near a recruitment base in Taj, 12 miles north of Baghdad. Conflicting reports make it difficult to report an accurate death count, but at least 26 were killed with many more seriously injured.

- Maine and Maryland voted for marriage equality.
- Minnesota did not vote for banning marriage equality.

- The first openly gay senator, Tammy Baldwin, was elected in Wisconsin.
- The first disabled woman veteran, Tammy Duckworth, was elected in Illinois.

- Medical marijuana was approved in Montana and Massachusetts.

- Yesterday, French Ministers of the Cabinet approved a draft bill that will allow same-sex couples the right to marry and adopt. The actual bill will be voted on in January.

Winter hats don’t just keep you warm. On the campus of Montclair, hats prove that they can be a fashion statement, too! I call them beanies, but winter hats have a lot of varieties to choose from. Some have earflaps, topped with pom-poms, a folded brim or no brim at all. How do you choose the right style?

If your face is considered square or has sharp angles then consider a more rounded style hat. Avoid all narrow hats which can make you look too angular. Hats with hard edges are to be avoided. I suggest keeping away from what I call, “bomber hats” with the ear flaps and sharp square style.

An oval face is lucky. Basically, you can get away with any style hat. So with that, I suggest to try a variety of hats and choose one that best fits your own personal style. Also choose a winter hat that goes with anything to make it versatile.

Round faces should choose a hat with an angular structure. For this, I strongly suggest getting a really cute “bomber” hat. The angular lines and square style will compliment your face.

If your face is comparatively longer, I suggest breaking it up with a brim. Specifically this winter, beanies with wide brims are no exception. Try a brim that has a decorative pattern different from the hat itself. By folding the hat, it breaks up the length in your face and draws more attention to your eyes.

This is specifically for petite faces. Be aware of how heavy or big a hat may be. Wearing a hat that is too big may make your face appear to be even smaller.

A tip some people tend to disregard is the importance of color. Color is equally important. Cool complexions are complemented by colors such as green, blue and violet. Warmer complexions look great in ‘hot’ colors such as hot pink, red or warm orange shades. However, picking a more neutral color means you will probably get more usage out of it since it will likely match more pieces from your closet.

For thoughts or suggestions, tweet me at MSU_fashion! This week, winter hats are what’s trending because they express style, and of course, are functional in the cold.

Follow for your daily dose of fashion @MSU_fashion.
A new course offered by the Political Science and Justice Studies departments allows students to participate in an internship at the State House in Trenton. Created by President Susan A. Cole and her staff, the practical course provides students with a unique understanding and perspective of New Jersey’s legislative process by taking them behind the scenes at the State House. Not only do students gain knowledge of the State’s Legislature, but they are also given a rare opportunity to observe the government in action.

A typical day in Trenton includes attending voting sessions, committee hearings, listening to testimony and political debates, meeting with Legislators, lobbyists, staff from the Department of State and other officials. On their first day at the State House, students met with staff from the Office of Legislative Services who briefed them on the process of drafting a bill.

Trips to the State House alternate with biweekly classes on campus. Students spend time discussing and analyzing some of New Jersey’s most controversial bills, laws, and political and social issues. Classroom sessions on current “Hot Topics” feature visits from Legislators, lobbyists, and officials from governmental agencies, which included Congressman Rodney Frelinghuysen who represents New Jersey’s 11th congressional district in the U.S. House of Representatives, Assemblyman Thomas P. Giblin, who represents New Jersey’s 34th Legislative District in the State General Assembly, Brendan Gill, a Freeholder representing New Jersey’s Fifth District and Little Falls Town Council hopeful, James Damiano.

The students who are currently enrolled in the course have expressed great enthusiasm about their overall experience. Chelsea Wuesthoff states that she appreciates the realistic view of state government and the hands-on experience that the internship provides. “It’s a great opportunity,” she exclaimed. Student Niku Letang employs a different perspective. “I have become very inspired by the stories and accomplishments of some of the legislators that we have met. It is also nice to know the person behind the politics. This experience completely humanizes them.” The course is taught by Professor Sal Anderton, and the internship is directed by Director of Government Relations, Shivaun Gaines. Professor Anderton’s years of experience as a lobbyist and vast knowledge of New Jersey’s Legislative process also contribute to the students’ overall experience at the State House and in the classroom. When asked about the most important thing he wants students to gain from the internship, Professor Anderton stated, “[To show] how complex state government is, but at the same time, how politics and government are personal to the people involved.”

Students also met with several Legislators including Assistant Majority Leader and Chair of the Senate Education Committee, Senator Tervis Ruiz, Senator Michael Doherty, Deputy Speaker and Chair of the General Assembly Women and Children Committee, Assemblywoman Pamela Lampitt, Chair of the General Assembly Higher Education Committee, Assemblywoman Celeste Riley, Assemblyman Benjie Wimberly and Senate President Stephen M. Sweeney, President Sweeney spoke passionately about how his daughter’s plight with Down-syndrome influenced his decision to run for political office in an effort to seek services for other children with special needs. President Sweeney also serves as the General Organizer of the International Association of Ironworkers. While noting that he did not pursue a college education, Sweeney informed students of the importance and advantages of seeking higher education. The Senate President also gave students a solid piece of advice: Despite how successful you might become, never forget where you came from.

With the holidays approaching just as fast as the cold, it’s not too early to start mapping out your Christmas list. For most of us collegiates, the further we get in our careers, the longer the list grows. We slowly find ourselves strapped for cash and for time every year, and swear to ourselves that we’ll be more responsible next year. Here are some fool-proof ways to make this year your best yet.

Establish Your Budget
Besides starting sometime before December, this is your second crucial step. Once you’ve established a budget that you can comfortably use without worrying in a month that you have no money for gas, it’s crucial not to budge from it. Don’t talk yourself into spending a few extra dollars on your boyfriend, and then several extra on your mother, thinking it won’t really matter. The total at the end of your spending will add up to much more than you think, leaving you with a lot less than you intended.

Group People Based on their Interests, Age, Position in Life, etc.
Buying a gift just for the sake of buying it never made you happy growing up, and the same goes for the people that you could potentially be buying for. Look at each person on your list and genuinely give thought to what they would want or appreciate. Also keep in mind if the people on your list are the type to appreciate homemade gifts. A gift with genuine thought is always noticed, and always well received.

Shop Early and Around
Stores start to raise the prices of their merchandise earlier and earlier every year, and considering most department stores were advertising Christmas long before Halloween, this year will be no exception. Remember to shop around. Look for coupons, specials and sales. If you start early, you won’t have to worry about settling on an overpriced dish set at Macy’s for your mom that she’ll probably exchange anyway. Though it may take a little longer, be thankful in the end.

Meet with Faculty and Students about Public Health Degrees and Careers
Through our three campuses and eight departments, your education opportunities are plentiful.

not only were most dorms completely operational, but so were the dining halls. The diligent workers of Sum’s and Freeman worked throughout the whole storm and kept us fed.

Unoccupied dorms were also offered to commuters who lost power; as well as staff. Other than the housing, MSU housed the EMU’s and campus police quarter to make sure we were prepared in case of any emergency.

While on the topic of maturities, the damage done to Bohn Hall is unaccept-able.

After power wires snapped during the storm, all of Clove Road was left completely out of power. As a result, MSU housed the students in Hawk Dorms. This effort, which at-tempts to improve the possibility of voting for New Jersey residents, amounted to an even larger hassle for voters and elected officials than actually arriving at a polling location to vote in person.

When it came to alterna-tive forms of voting, many preferred the acronym “K.I.S.S.”—“keep it simple, stupid”—the mantra of those who opted for provi-sional ballots. The adjustments allowed residents to vote at any New Jersey polling station offering provisional, paper ballots, which were collected from each polling station and counted at a separate, local-county office.

The universe doesn’t have control over the weather. It wasn’t some plot to get us to use swipes, it was necessary. To be stingy with swipes when the school is doing us a favor by keeping dining halls open is wrong. The university was fair to those who were running low on swipes by allowing them to eat for free during Sandy.

While on the topic of immaturity, the damage done to Bohn Hall is unaccept-able.

After power wires snapped during the storm, all of Clove Road was left completely out of power. As a result, MSU housed the students in Hawk Dorms. This effort, which at-tempts to improve the possibility of voting for New Jersey residents, amounted to an even larger hassle for voters and elected officials than actually arriving at a polling location to vote in person.

Bon Jovi proves he hasn’t forgotten his Jersey roots.

American listeners quickly met fokkol kos, skraal, “Rough rhymes, tough times/’Ninja skop befokte rof taal/With lines such as the song “Enter the Ninja.”

The line-up included many musicians native to our area such as Bruce Springsteen, Jon Bon Jovi, Billy Joel and Christina Aguilera. Each artist performed some of their most heartfelt songs in dedication to the victims of the natural disaster.

Other musicians and speakers included Mary J. Blige, Steven Tyler, Jon Stewart, Jimmy Fallon and Al Roker. Each of whom showed their support for those affected by the disaster and urged others to help in anyway they could.

Some of the most notable performances of the night were Christina Aguilera’s “Beautiful,” Bruce Springsteen’s “Land of Hope and Dreams” and Sting’s “Message in a Bottle.”

Former Sayerville, N.J. resident Jon Bon Jovi felt particularly affected by the storm because he went home to be with his family soon after the storm hit.

Bon Jovi also released a statement which urged people to donate or help in any way they could. “Once again, the eyes of the world are upon us and we wake to the devastation of Hurricane Sandy.

All of the proceeds from the event, which totalled at $22.9 million, went directly to the American Red Cross to assist with the relief efforts for those affected by the storm. NBC, however, isn’t the only organization that has taken action. According to The Wall Street Journal, some other companies that are donating are the Walt Disney Co. which announced it would donate $2 million to the American Red Cross and other relief funds.

$22.9 million raised for sandy victims

As a singer-songwriter, Marshall has been constantly evolving throughout her 18 year career with songs touching on punk, blues and folk stylings.

For her newest release entitled Sun, sounds of synthesizers and electronics placed her 2012 album in the number ten spot of the Billboard 200. Six years in the making, Sun gives the listener a look at the reimagina- tion of Cat Power’s sound in a way where her signature vocals meet LFO fil ters and overdriven guitars.

As a singer-songwriter, Marshall was involved in all aspects of Sun, but leaves with a product that is a departure from her earlier works such as songs as “Lived In Bars.”

In the music video for “Cherokee” her short, bleached blonde hair serve as the visual icing on the cake to her new era in musicianship.

The Hounds Below’s Heartbreak
A look at You Light Me Up In The Dark

Emilia D’Albero
Staff Writer

In the wake of The Von Bondies’ breakup last year, it seems that front- man Jason Stollsteimer has moved on to bigger and better things. His new- est band, The Hounds Below, is a four-piece indie rock group from Michigan whose music encourages both dancing and head- banging at the same time. Their debut album, You Light Me Up In The Dark, is a delightful whirlwind of emotions and sounds that keeps getting bet- ter with every listen.

The album begins with “You and I,” a song that starts with a steady drum beat as Stollsteimer’s voice floats in, introducing the al- bum’s dance-rock sound and draws the listener in. The song builds up to the che- ras, a catchy, multi-layered plug to Jesus Christ that will have you sing-along with Stollsteimer as soon as you’ve learned the words.

The emotion of “You and I” carries over into the second track, “O. Harris,” which begins in a similar fashion as “You and I,” but eventually grows into a much heavier track as Skye Troubridge provides a solid layer of guitar that perfect- ly complements Matthew Holman’s bass hooks and Griffin Bastian’s furi- ous, rhythmic drumming. The swift switch from calm to intense, serious rock makes “O. Harris” one of the most prominent tracks on the album. Stoll- steimer really showcases his vocal abilities on “Swim- ming With Swimmers” and title track “You Light Me Up In The Dark.” He has an incredible vocal range that keeps getting better and better. His singing on “Swim- ming With Swimmers” is smooth tone to raw, plead- ing emotions on “You Light Me Up In The Dark.” He has this particular qual- ity to his voice that makes him capable of recreating the hype that surrounded the Von Bondies in their heyday, but he’s done it tenfold with The Hounds Below.

You Light Me Up In The Dark is one of those albums that is appropriate for any situation, but is especially poigniant and meaningful during times of heartbreak and emotional turmoil and will undoubtedly provide the listener with a sense of calm and contentment that not many bands in this day and age are capable of provid- ing through a single album.

“Last In The Waves” begins with the lyrics “My hands in the ocean to see goodnight.” This track is absolutely one of the strongest on the album. It is fun and groovy while still maintaining that post-punk element that The Hounds Below pull off so well. “Chelsea’s Calling” also has this particular qual- ity about it, as the cheerful beginning guitar riff melts into a bouncing melody which, when placed over Bastian’s beats, creates a song that sounds great in your headphones, but is surely also a great crowd- pleaser at their live shows. After “Chelsea’s Calling” comes “Conversations,” one of their love-key tracks which begins simply with a piano and Stollsteimer crooning over it, and is consis- tently a gentle, beauti- ful four minutes of music.

“Since He Came to Play” brings back The Hounds Below’s energy and assem- bly effortlessly rock sound, blending crushing cymb- als with quick guitar riffs and bright vocals to create another track that is un- doubtedly incredible live. “Deathcabin” has a sim- ilar vibe, but also includes a catchy guitar riff at the be- ginning that sets the tone for the whole track and also makes it another one of the most outstanding, dance- able tracks on the album. Bringing You Light Me Up In The Dark to a close, “Lost in the Waves” be- gins with the lyrics “My hands in the ocean to see goodnight.”

The Hounds Below have this particular quality to their music that makes it another one of the most outstanding, dance- able tracks on the album. Bringing You Light Me Up In The Dark to a close, “Lost in the Waves” be- gins with the lyrics “My hands in the ocean to see goodnight.”

Red Hawks Advance to NCAA Tournament

Mike Pione
Assistant Sports Editor

Last Sunday when the scoreboard hit 35-28 with 00.50 on the clock, it was the end of a game, a packed Sprague Field crowd was electrified as they watched a raucous and joyous celebration by the MSU women’s field hockey Team.

The game as was as the Lady Red Hawks bench stormed the field to join their teammates following Montclair State’s 4-0 NJAC Tournament final win over Rowan University that gave the Lady Red Hawks an automatic NCAA Division III Field Hockey Tournament bid. It marked the second half of the season, Scibilia added, that the momentum swung back and forth. Ju-
nior midfielder Jennifer Tafoe led a second half surge that saw her score the first and third goals of the game while assisting on the second.

Her first goal, which came in the 45th minute, was unassisted. Three min-
utes later, Tafoe scored again, this time past the MSU goalie. No, we didn’t change our strategy for the remainder of the game,” said Jennifer Gottung.

It took only three plays for them to move into the MSU red zone to pull the Red Hawks within 14 points. The Red Hawk defense forced a punt, Mannato made the play that turned the game around, as he blocked the punt and returned the loose ball 25 yards to the end-
zone to pull the Red Hawks within one touchdown of tying the game. The Golden Eagles went into the fourth quarter leading 35-28, but the Red Hawks had momentum.

The defense once again forced the Golden Eagles to punt, and the offense followed with the game-
tying drive that culminated with a six-yard touchdown run by Roman just seconds into the fourth quar-
ter. A very impressive comeback. Unbeliev-
ably, they took the lead three possessions later with a 21-yard touchdown pass from Cathay to senior wide receiver Bryson Odgen. The Golden Eagles went on to

The MSU field hockey team poses with their first NJAC championship trophy after finishing the regular season 19-1.

The NJAC win over Rowan was the key to the Red Hawks making it to the career. "We were extremely excited to play against the Rows-
caps and the NCAA selection committee. We had an idea of what we were working on, but didn’t quite know how well we could execute. It was a great way to start the season, Scibilia commented. It was electrified as they watched an improbable comeback. Unbeliev-
ably, they took the lead three possessions later with a 21-yard touchdown pass from Cathay to senior wide receiver Bryson Odgen. The Golden Eagles went on to

The Red Hawks took possession of the ball to the Red Hawks ten-yard line with four minutes remaining. Both teams failed in their bid for a game-
winning score in the fourth quarter, and the game went into overtime. The Red Hawks took possession to start the first overtime period. Scibilia connected with Malave to move to the ball to the Red Hawks ten-yard line. Scibilia ran for seven yards on first down to move the ball to the three, but Cobb was stopped for a four-yard loss on the following play.

On what may go down as the play of the day, Scibilia dropped back and threw a pass intended for Spal-

It’s Week 10 in the NFL, and everyone is wondering where their teams stack up for the postseason. The conventional wisdom would say that the NFC East right now are the New York Giants and the Pittsburgh Steelers, who power rankings this week on ESPN are 5 and 10, respectively.

Coming up short, with their post-season hopes all but gone, the New York Jets, ranked at 20, and with a clutch victory over the Eagles and the Giants have had their hands full with a couple of very close NFC East games recently, with a 27-24 victory over rookie quarterback Rob Griffin III and the Washington Redskins in week seven, and a 24-21 win against division rivals, the Dallas Cowboys, in week eight. Both victories came in the fourth quarter.

It’s difficult to deny that Eli Manning still plays quarterback. Those two games plus a week two come-back win over the Miami Dolphins adds to the game-eating winners Manning had in the 2011 season. He has been everything a defending Super Bowl champion should be as far as over 2,000 passing yards, 12 touchdowns and seven interceptions, taking his team to 6-3 as potential winners of the NFC East.

Of course, Manning can’t look as good as he is without one of the league’s prime leaders of the team so far. Manning’s tight end of choice is Jason Witten, who has a prime example from the impressive display from the start of last season, with 15 catches already this year.

The surprise receiver has been the matchup between two teams who have been a reliable option for Manning so far back-to-back-to back season windows in a row and hoping to make it four in a Monday night home game against the 5-7 Kansas City Chiefs. QB Ben Roethlisberger has been as impressive as ever, being another quarterback out of only three to have passed for over 2,000 yards already this season. The Steelers offense from the start has also been stepping up, limiting Roethlisberger to 13 sacks. He’s been on the touch downs with nine interceptions, less than any other quarterback in the league.

The Giants currently lead the NFC East with a 6-3 record while the Jets sit in third in the AFC East at 3-5.

The Casino Pier roller coaster was found in the ocean after Hurricane Sandy passed the Jersey Shore. A huge roller coaster is to be donated to Sandy victims.

The Giants and Jets both have fans donating t-shirts there for $15. On Monday, the New York Islanders, all teams have a fan-section. The NFL, sale highsocksforhope.com.

If the worst storm to ever hit the Northeast region, there are many things that have brought us together. The efforts by first responders, by thousands of citizens and even the entire state. While Miami suffering could be seen as a reason there is more for ‘coming out and supporting the team during tough times.’

While they cooled the heat 104-84, it was Carmelo Anthony who set the tone before the game that mattered most. Before the game, the New York star grabbed the microphone and told the fans for ‘coming out and supporting the team during tough times.’ He went on to say that “this was the most important time for the city of New York, to support each other and build the city.” As Anthony talked, the crowd chanted “Melo.”

There was a moment of silence before the lifting message to those devastated by Hurricane Sandy, and then the game that eventually propelled the Knicks to an amazing win.

The Casino Pier roller coaster was found in the ocean after Hurricane Sandy passed the Jersey Shore.

The Giants and Jets both have fans donating t-shirts there for $15. On Monday, the New York Islanders, all teams have a fan-section. The NFL, sale highsocksforhope.com.
In a match that saw 30 ties and 15 lead changes, eventually the Kean University Cougars would knock off the Red Hawks in the first round match of the NJAC Tournament. The match was played in front of a large home crowd at the Panzer Athletic Center. The 4th seeded Cougars, who came into the match with a 27-9 re-
cord, eliminated the Red Hawks in straight sets. The scores were 27-25, 26-24, proving this match to be a back and forth fight, as there were 15 ties throughout the set. The teams had a total of 22 alter-
 natives points and neither team could take advantage and pull out in front until the final point of the set. Two server by Alix Denison, one being an ace, gave Kean a 28-26 win. They led the match 2-0. The third set saw Kean building an early 10-4 lead in the set. The Red Hawks showed their resilience and fight by narrowing the lead to 15-13 on a kill by Nicole Wojtowicz. Later in the set MSU went on a 10-3 run to give them a 24-23 lead, but they could not close out the set and would see their season end. Hansen secured the match point on an ace and Kean advanced to the semifinals with the three-set sweep.

Following the match, the energy around the team remained posi-
tive, as it had all season, despite the season ending loss. Sara Giryus discussed the team’s successes and hopes for next season, saying, “This is only the beginning for this pro-
gram. We had an amazing season and it’s just the foundation for years to come. We tied the school record for most wins in a season and next year we’re taking the record. As for Kean, they have no idea what’s coming for them next season.” Montclair tied their single sea-
son record for most wins in a sea-
son.

Alyssa Batiste and Daniel-
la Salemo both registered eight kills for Montclair. Nicole Wojto-
wicz contributed five kills, two aces and one block. Angela Cam-
po assisted on 27 MSU points. Kaitlyn Irwin led the team with 20 digs. Salemo added 10 digs of her own. For the Cougars, Kait-
yln Hansen was a standout with 11 kills and three blocks. Jen Es-
pinal also added nine kills of her own and Wells had eight. Alana Aranjo led Kean with 29 assists and Samantha Suarez had 12 digs.

WHO’S HOT THIS WEEK

Zak Westerberg
Men’s Swimming & Diving

Westerberg finished the last two meets with three wins, two second place finishes and one third place finish. Westerberg won the 100m freestyle and was part of the 400m and 300m freestyle relays that both took first.

Katherine LaCava
Women’s Swimming & Diving

LaCava was named NJAC Women’s Swimming and Diving Rookie of the Week after winning her first collegiate butterfly event with a time of 2:12.97, breaking the 37-

Game of the Week

he knew that he wanted Faulcon at Montclair State. After no scholarship offers came in for Faulcon, he made the decision to become a Red Hawk.

When Faulcon first came to MSU, one thing in particular stuck out to all the coaches, his speed. "To be even more specific, it was his closing speed that wowed the coaches."

Closing speed is defined as the distance between you and the ballcarrier or receiver. While at Montclair State, not only did Faulcon earn the respect of his fellow teammates, but he also earned the respect of his coaches.

When asked if Faulcon could believe I have the ability to play in the NFL? I've seen the competition and I believe I have the ability to play in the NFL," Faulcon said. "I was not nervous before we got to the stadium, I was a little bit nervous in the pre-game warm-ups, and when the game started I was confident." Faulcon ended up having an interception in the game. Next up was Fordham's Pro Day where he did well and impressed some scouts. Twelve of the fifty athletes at Fordham's Pro Day ended up being signed by NFL teams.

As 35th year coach Jim Panepinto said, "Faulcon is one of the backbones of the MSU defense, finishing his career with 169 tackles, seven interceptions and four forced fumbles."

NFL Draft Statistics

- Out of the 100,000 high school students that play football, only 215 (0.2 percent) go on to play in the National Football League.
- Out of the 9,000 collegiate football players, only 310 (0.3 percent) go on to play in the National Football League.
- Athletes who don’t attend the NFL Combine go on to attend the regional combine. If they impress there, they then get to attend the Super Regional Combine which is attended by many NFL teams.
- Last year, 21 players were signed to NFL teams.

need “speed, strength, size (helps), football intelligence, mental/physical toughness, discipline, integrity and character.”

At one of Montclair State’s practices, Coach Cieri talked to an Atlanta Falcons scout who had this to say about Faulcon. “He’s a missile from the centerfield position, he has a certain toughness with tackling people and he plays every play like he does not get tired.” Coincidentally, Faulcon was nicknamed “The Missile” at MSU. While Faulcon waits for the phone call that could change his life, he spends his time training at DeFranco’s Gym in Hawthorne and coming back to Montclair State to watch home football games. Faulcon knows his day will come and he also knows that he has “the support of everyone at Montclair State.”
