Cries of victory could be heard around campus late Tuesday night as Barack Obama was reelected as the 44th President of the United States, over Governor Mitt Romney. The election was extremely close all night. However, as President Obama began to claim swing states across the country, the election swung in his favor. Romney suffered a hard blow when his own home state of Massachusetts was secured by Obama, a state that Romney believed he had. Obama secured the election with a final count of 303 electoral votes out of the 270 needed to win the election. Romney had 206 of the electoral votes. Although the electoral votes made it extremely apparent who won the election, the popular vote was extremely close throughout the night. The final count of the popular vote was 50% for Obama and 48% for Romney.

Many changes for the country can be seen coming out of this election. Not only was the first openly gay senator elected, but two states have legalized the recreational use of marijuana (see inside for full details of other national changes).

Throughout the day and night, Red Hawks participated in the election through not only voting, but live coverage of the election. Residents all over campus were able to take shuttles to cast their votes. Buses full of students traveled to St. George’s Antiochian Orthodox Church and Mt. Hebron Middle School throughout the day, making sure their voices were heard.

Later in the day, the School of Communication

Hurricane Sandy Blows Away the East Coast

Hurricane Sandy is the worst storm in New Jersey’s history with millions of power outages, gas shortages and property damage throughout the state. It’s hard to find anyone not affected by Sandy. Resident students who live in any of the Clove Road residences experienced their own unique Sandy experience last week. The worst of Sandy hit the tri-state region on Monday, Oct. 29 into Tuesday, Oct. 30. The damage done in that short time was enough to leave millions of people in a state of emergency.

On Monday just before 5 p.m., residents of Hawk Crossings, Sinatra Hall and The Village joined the millions of people in the tri-state area who lost power. Weary residents made it through the night, not knowing when they would receive power again.

Pelican Police Report

On Oct. 29: Karim Sawyer, 19, of North Brunswick, and Lendward Brooks, 19, of Piscataway, were arrested and charged with burglary and theft from Car Parc Diem. They are scheduled to appear in Little Falls Municipal Court.

On Oct. 31: An act of criminal mischief was reported in Bohn Hall. A study room had its window shattered by an unknown person. This matter is under investigation.

On Nov. 1: Alexander Rivera, 19, of Union, was arrested for simple assault while in Freeman Hall. He is scheduled to appear in Montclair Municipal Court.

On Nov. 1: Brandon Lewis, 22, of Neptune, was arrested and charged with marijuana possession while in Lot 19. He is scheduled to appear in Little Falls Municipal Court.

On Nov. 2: Emily Holden, 22, of Fryeburg, ME, was arrested and charged with marijuana possession while in Stone Hall. She is scheduled to appear in Little Falls Municipal Court.

On Nov. 3: Ewelina Kluczyk, 19, and Izabella Kluczyk, 20, of Green Brook, were arrested and charged with possession of marijuana while in Freeman Hall. They are scheduled to appear in Montclair Municipal Court.

On Nov. 4: An employee of Parking Services reported the theft of a parking boot from a vehicle parked in Car Parc Diem. This matter is under investigation.

Anyone who has information regarding these incidents is urged to call the police station from any campus phone at T-I-P-S (8477). All calls are strictly confidential.

Corrections

The Montclarion selflessly corrects its factual errors. If you think we’ve made a mistake in a story, please call Editor-in-Chief Lori at ext. 5230.
While many students left for the weekend in preparation for Sandy, the remaining 650 students from the Clove residences were evacuated from their dorms into alternate university housing on Tuesday, Oct. 30 at approximately 1:30 p.m. Displaced students were moved into Bohn, Stone and Webster Hall indefinitely.

“Bohn was ready to be occupied by students since it was not an occupied building for the fall semester,” said Mario Rapetti, Associate Director of Residential Education. “As a department we worked with our student staff of community assistants and service assistants to develop duty shifts, check keys and provide the same services we would in any open residence hall on campus.”

Many students found the mandate as an inconvenience, but appreciated the efforts of the University in accommodating them with power. “It’s overwhelming but we’re all okay. It sucks hav- ing to leave your apartment and [having] everything behind,” said senior Kimberly Horan.

In addition to students from Clove being housed on the main campus, essential staff and Student Housing personnel were housed at the University in order to keep Sam’s Place and Freeman Dining Hall open and operational for students on campus.

Throughout the week, many residents, drunk off having so much time off from school, ac- quired a few damages of their own outside of damage caused by Sandy. A proxy card reader was taken from outside Fenwick Hall and later found underneath a stairwell. Additionally, during the early morning hours on Hal- loween, an unknown object was thrown through a window in Bohn Hall and a fire alarm was pulled.

Residents received power back on Friday afternoon and residents moved back into their normal housing Friday night through Saturday afternoon. With Bohn and other halls up and running, the University offered to accommodate commuter students who may have issues getting to campus due to Sandy by allowing them to stay on cam- pus.

“As a community we want to help out everyone at MSU who was affected by the storm and provide the essential basic needs of power, heat and hot water so our community as a whole can return to normal routine as fast as they can,” Rapetti said.

About 300 commuter stu- dents are taking the University up on their offer and staying in Bohn Hall. They will be allowed to stay on campus until N.J. is fully energized, depending on their current situation at home and how hard they were af- fected by storm. Rapetti added that students “wanted to be able to attend their classes and get on with their educational goals and we [Residential Education] wanted to support them in ac- complishing this regardless of Sandy’s wrath.”

In an email sent out to the stu- dent body from Student Govern- ment President George Juzdan, he said, “The residents moved [...] should know that your safety and well-being are the number one priority for the University; the administration has taken the necessary actions to ensure that you have a comfortable liv- ing space for the duration of the power outage. […] It is important to remember that the problem is bigger than just the University. More than 2.7 million New Jer- sey residents were left without power and our campus residents are a part of the larger Sandy impact.”

Montclair State was rela- tively lucky with the extent of damages they suffered. Cities on the coast of New Jersey, like Seaside Heights and Mantoloking, suffered some of worst dam- age during the storm. With their close proximity to the shore, en- tire boardwalks and homes were flooded and destroyed and now need rebuilding.

One of the areas hit the hard- est was Seaside Heights, home of the “Jersey Shore.” Funtown Pier and Casino Pier, heated on the boardwalk, were sent into the ocean. After the hurricane left, remnants of the rides could be found floating in the ocean.

From a residential viewpoint, all of the houses in Seaside and the other barrier islands are completely uninhabitable. Not only are the houses underwa- ter, but all of the gas lines have been completely ripped apart. It is said that there will not be gas to the barrier islands for at least six to eight months.

Many students and their families who live in central and southern New Jersey were af- fected also. “My family’s busi- ness in Seaside, it’s a hotel, was half-destructed,” said Matt Van- hoogen from Ocean County. “The boardwalk and all of my memo- ries from being a kid are gone.”

In the wake of Hurricane Sandy, much of New Jersey and other states affected by the storm are struggling to recover from approximately $50 billion in damages.

For now, relief efforts from the American Red Cross, the Federal Emergency Management Agency, volunteers and many organiza- tions are being made in order to help the many people suffering from this disaster reach some kind of stability.
Debate Shows Many Political Views

Lara Azour
![Photo Credit](Image)

On Thursday, Oct. 25, the Young Americans for Liberty hosted a political debate on campus.

The organization is one of the largest and most active pro-liberty organizations among America’s universities and colleges. Its purpose to the student body is demonstrated through events and by providing education to all those who are interested in learning more about the ideals of liberty.

The debate was not to divide the audience and attendees, there was some social distance in the audience’s retention. However, members were still educated about the issues America faces.

“[This debate] provides a sense of knowledge to individuals who may be confused or unsure of the issues presented,” said Director of Events Corey Hubbard. “It provides a place to discuss opinions, rather than speak about them in a mumbled sense.”

The debate featured three representatives: conservative David Tubbs, liberal Grover Furr and libertarian Yuri Maltsev. Dr. Tubbs earned his Ph.D. from Princeton University, where he concentrated in political philosophy, constitutional law and Russian studies.

Dr. Furr, an English professor at MSU, completed his undergraduate degree at McGill University and also earned his graduate degree at McGill.

Dr. Maltsev is a professor of economics at Carthage College. He worked with former Secretary of State Mikhail Gorbachev’s reforms on the re-construction of the political movement in the late 1980s.

The entire debate, which lasted an hour and a half, was moderated by Todd Seavey, a producer of ABC and Fox News.

The debate consisted of eight to ten topics and issues faced by Americans. Some of the questions asked by Seavey included topics on America’s foreign policy, views on the war in Afghanistan and domestic issues such as the war on drugs and health care.

In his opening statement, Dr. Tubbs expressed his agreement with anti-Utopic schemes and ills of the political movement in the continent available to study abroad as well as special scholarships available for study in that region.

Dr. Tubbs responded, “I believe that our decision to go to war in Afghanistan met criteria for a just war.”

Regarding foreign policy, Dr. Tubbs stated, “I believe that the U.S. is still a positive figure in the world, but cannot simply do everything.” He went on to express the idea that the U.S. should provide leadership throughout the world because of its special status.

His view on drugs included the much needed distinguish within prohibitions regarding the purchase of certain drugs. Dr. Tubbs believes that some drugs should not be characterized with others that pose a severe threat. His position on health care was that a basic package is an entitlement, and if an individual wants better health care then they “should accept the decisions made in your life.” Those decisions include smoking and usage of certain drugs.

However, Dr. Furr made it clear about his disagreement with U.S. foreign policies both in the past and those that are still used today. Dr. Furr believes that the imperialistic policies “won’t stop without a tremendous struggle from U.S. citizens.”

His solution for the war on drugs in America is to “make the private selling of drugs unprofitable, where drugs would be solely sold by the government with high restrictions.”

Responding to the question on health care in America, Dr. Furr stated, “There should be a single-payer universal health care, so everyone has health care.”

Maltsev had concrete points on various issues, although occasionally he was unclear. Maltsev believes that all drugs should be legal and that individuals have the right to use whatever drug they choose.

When asked what he thought about education, Maltsev answered, “It simply does not pay to go to college these days, and students are being short changed.” His view on health care was based on the idea that if “market works on everything else, then why would it not work in this case?”

Although the purpose of the debate was not to divide the audience and attendees, there was some social distance in the audience’s retention. However, members were still educated about the issues America faces.

Visit Our Website for Details and to RSVP
-A 7.4 magnitude earthquake struck offshore near the Mexico-Guatemala border yesterday.

-Two American sailors, who were arrested last month, were indicted Tuesday afternoon. The two face charges of raping a Japanese woman.

-Yesterday, the Dow fell below 13,000 for the first time in two months. The average fell more than 300 points, roughly 2.3 percent.

-Violent protests were seen outside the Greek parliament yesterday. Inside, the lawmakers voted on a new batch of austerity measures. This is an issue that has the country both divided and in a state of unrest.

-Main national changes to come out of the 2012 election:

- Maine and Maryland voted for marriage equality.

- Minnesota did not vote for banning marriage equality.

- The first openly gay senator, Tammy Baldwin, was elected in Wisconsin.

- The first disabled woman veteran, Tammy Duckworth, was elected in Illinois.

- Medical marijuana was approved in Montana and Massachusetts.

- Recreational use of marijuana was approved for those 21 and older in Colorado and Washington.

-Yesterday, French Ministers of the Cabinet approved a draft bill that will allow same-sex couples the right to marry and adopt. The actual bill will be voted on in January.

-Syrian insurgents blew up an official’s car using a homemade car bomb. The bombing killed Judge Abada Nadhwah, who was very close to the Syrian President.

-Following a police raid of a corrupt real estate company, Russian President Vladimir V. Putin fired his defense minister on Tuesday.

-A car bomb exploded near a recruitment base in Taji, 12 miles north of Baghdad. Conflicted reports make it difficult to report an accurate death count, but at least 26 were killed with many more seriously injured.

-One of the things that motivated the show was that so much of the national news cycle is obsessively dedicated to presidential election coverage, making an impact on the entire country.

-As students who will be graduating towards the end of his term, we need to see significant economic improvement.

-No matter who won, Red Hawks across campus definitely raised their voices in this election, making an impact on the entire country.
Winter hats don’t just keep you warm. On the campus of Montclair, hats prove that they can be a fashion statement, too! I call them beanies, but winter hats have a lot of varieties to choose from. Some have earflaps, topped with pom-poms, a folded brim or no brim at all. How do you choose the right style?

If your face is considered square or has sharp angles then consider a more rounded style hat. Avoid all narrow hats which can make you look too angular. Hats with hard edges are to be avoided. I suggest keeping away from what I call, “bomber hats” with the ear flaps and sharp square style.

An oval face is lucky. Basically, you can get away with any style hat. So with that, I suggest to try a variety of hats and choose one that best fits your own personal style. Also choose a winter hat that goes with anything to make it versatile.

Round faces should choose a hat with an angular structure. For this, I strongly suggest getting a really cute “bomber” hat. The angular lines and square style will compliment your face.

If your face is comparatively longer, I suggest breaking it up with a brim. Specifically this winter, beanies with wide brims are no exception. Try a brim that has a decorative pattern different from the hat itself. By folding the hat, it breaks up the length in your face and draws more attention to your eyes.

This is specifically for petite faces. Be aware of how heavy or big a hat may be. Wearing a hat that is too big may make your face appear to be even smaller.

A tip some people tend to disregard is the importance of color. Color is equally important. Cool complexions are complemented by colors such as green, blue and violet. Warmer complexions look great in ‘hot’ colors such as hot pink, red or warm orange shades. However, picking a more neutral color means you will probably get more usage out of it since it will likely match more pieces from your closet.

For thoughts or suggestions, tweet me at MSU_fashion! This week, winter hats are what’s trending because they express style, and of course, are functional in the cold.

Follow for your daily dose of fashion @MSU_fashion.
A new course offered by the Political Science and Justice Studies departments allows students to participate in an internship at the State House in Trenton. Created by President Susan A. Cole and her staff, the practical course provides students with a unique understanding and perspective of New Jersey's legislative process by taking them behind the scenes at the State House. Not only do students gain knowledge of the State's Legislature, but they are also given a rare opportunity to observe the government in action.

A typical day in Trenton includes attending voting sessions, committee hearings, listening to testimony and political debates, meeting with Legislators, lobbyists, staff from the Department of State and other officials. On their first day at the State House, students met with staff from the Office of Legislative Services who briefed them on the process of drafting a bill.

Students also met with several Legislators including Assistant Majority Leader and Chair of the Senate Education Committee, Senator Teresa Ruiz, Senator Michael Doherty, Deputy Speaker and Chair of the General Assembly Women and Children Committee, Assemblywoman Pamela Lampitt, Chair of the General Assembly Higher Education Committee, Assemblywoman Celeste Riley, Assemblyman Benjie Wimberly and Senate President Stephen M. Sweeney.

President Sweeney spoke passionately about how his daughter’s plight with Down-syndrome influenced his decision to run for political office in an effort to seek services for other children with special needs. President Sweeney also serves as the General Organizer of the International Association of Ironworkers. While noting that he did not pursue a college education, Sweeney informed students of the importance and advantages of seeking higher education. The Senate President also gave students a solid piece of advice: Despite how successful you might become, never forget where you came from.

Trips to the State House alternate with biweekly classes on campus. Students spend time discussing and analyzing some of New Jersey’s most controversial bills, laws, and political and social issues. Classroom sessions on current “Hot Topics” feature visits from Legislators, lobbyists, and officials from governmental agencies, which included Congressman Rodney Frelinghuysen who represents New Jersey's 11th congressional district in the U.S. House of Representatives, Assemblyman Thomas P. Giblin, who represents New Jersey's 34th Legislative District in the State General Assembly, Brendan Gill, a Freeholder representing New Jersey's Fifth District and Little Falls Town Council hopeful, James Damiano.

The students who are currently enrolled in the course have expressed great enthusiasm about their overall experience. Chelsea Wuesthoff states that she appreciates the realistic view of state government and the hands-on experience that the internship provides. "It's a great opportunity," she exclaimed. Student Niku Letang employs a different perspective. "I have become very inspired by the stories and accomplishments of some of the legislators that we have met. It is also nice to know the person behind the politics. This experience completely humanizes them." The course is taught by Professor Sal Anderton, and the internship is directed by Director of Government Relations, Shivaun Gaines. Professor Anderton's years of experience as a lobbyist and vast knowledge of New Jersey's Legislative process also contribute to the students’ overall experience at the State House and in the classroom. When asked about the most important thing he wants students to gain from the internship, Professor Anderton stated, "[To show] how complex state government is, but at the same time, how politics and government are personal to the people involved.”
With the holidays approaching just as fast as the cold, it’s not too early to start mapping out your Christmas list. For most of us collegiates, the further we get in our careers, the longer the list grows. We slowly find ourselves strapped for cash and for time every year, and swear to ourselves that we’ll be more responsible next year. Here are some fool-proof ways to make this year your best yet.

**Budgeting for the Holidays**

**Establish Your Budget**

Besides starting sometime before December, this is your second crucial step. Once you’ve established a budget that you can comfortably use without worrying in a month that you have no money for gas, it’s crucial not to budge from it. Don’t talk yourself into spending a few extra dollars on your boyfriend, and then several extra on your mother, thinking it won’t really matter. The total at the end of your spending will add up to much more than you think, leaving you with a lot less than you intended.

**Group People Based on their Interests, Age, Position in Life, etc.**

Buying a gift just for the sake of buying it never made you happy growing up, and the same goes for the people that you could potentially be buying for. Look at each person on your list and genuinely give thought to what they would want or appreciate. Also keep in mind if the people on your list are the type to appreciate homemade gifts. A gift with genuine thought is always noticed, and always well received.

**Shop Early and Around**

Stores start to raise the prices of their merchandise earlier and earlier every year, and considering most department stores were advertising Christmas long before Halloween, this year will be no exception. Remember to shop around. Look for coupons, specials and sales. If you start early, you won’t have to worry about settling on an overpriced dish set at Macy’s for your mom that she’ll probably exchange anyway. Though it may take a little longer, be thankful in the end.

**Make a List**

The most obvious, and most overlooked step is to be organized and list every possible person you would consider buying for. While friends and family are the most obvious think about people like your hairdresser who always makes the room for a last minute appointment, or your mailman who always goes an extra step for your family. Consider too if you’ll be donating to any charity. Plenty of jobs and schools collect money during the holiday season to adopt family or raise money for a natural disaster relief fund. By listing everyone, it’s easier to cut those that may not fit in your budget or those who wouldn’t.

**Establish Your Budget**

Besides starting sometime before December, this is your second crucial step. Once you’ve established a budget that you can comfortably use without worrying in a month that you have no money for gas, it’s crucial not to budge from it. Don’t talk yourself into spending a few extra dollars on your boyfriend, and then several extra on your mother, thinking it won’t really matter. The total at the end of your spending will add up to much more than you think, leaving you with a lot less than you intended.

**Group People Based on their Interests, Age, Position in Life, etc.**

Buying a gift just for the sake of buying it never made you happy growing up, and the same goes for the people that you could potentially be buying for. Look at each person on your list and genuinely give thought to what they would want or appreciate. Also keep in mind if the people on your list are the type to appreciate homemade gifts. Not only were most dorms completely operational, but so were the dining halls. The diligent workers of Sam’s and Freeman worked throughout the whole storm and kept us fed.

Though there were complaints from some students that were evacuated from Clove Road about using their swipes. Students who live on Clove Road are required to have a meal plan, which means their swipes are limited.

The university doesn’t have control over the weather. It wasn’t some plot to get us to use swipes, it was necessary. To be stingy with swipes when the school is doing us a favor by keeping dining halls open is wrong. The university was fair to those who were running low on swipes by allowing them to eat for free during Sandy.

While on the topic of immaturity, the damage done to Belohn is unexcusable.

After power wires snapping and generators breaking, all of Clove Road was left completely out of power. So instead of keeping students in the dark, the university arranged for shuttles to transfer all those without power to unoccupied dormitories.

Unoccupied dorms were also offered to commuters who lost power, as well as staff. Other than the housing, MSU housed the EMU’s and campus police quarters to make sure we were prepared in any case of emergency.

It is hard, we understand. No one is thrilled about being removed from their homes, but to disrupt the extra housing was completely unnecessary. Many students did have a problem trying to access their apartments during the storm. It seems that the university hasn’t made the necessary turn in management.

T he devastation which Hurricane Sandy recently caused in our state has once again shown the topic of local and national news since the storm hit was so severe.

Not only did the storm wreak havoc on those who lost power, homes and loved ones, but many students also faced on Election Day, particular in our state, because of Sandy’s damage.

In the days after evaluating Sandy’s impact on New Jersey, Gov. Christie made many amendments to the standard system of voting in order to provide a means to vote for those who were still mixed up in the chaos of the state. However, many considered those new methods of voting to create more harm than good on the days before and after the election.

One of the most heac- knes was taken to ensure that all citizens feel comfortable to go to the polls and exercise their vote was the institution of a polling station in your home. All those who were without power were able to vote from their homes.

These emailed bal- lots were not a replacement of the right to a private vote, since they had to sign a waiver allowing elected officials to see their votes in the voting process. Not only that, but voters had to additionally provide paper ballots as back-up to the email ballots, and furthermore, the email office of the New Jersey had to first verify that the individual using the online ballot was actually deactivated.

This effort, which at- tempted to improve the possibility of voting for New Jersey residents, amounted to an even larger hassle for voters and elected officials than actually arriving at a polling location to vote in person. When it came to alterna- tive forms of voting, many preferred the acronym “K.I.S.S.”—keep it simple, stupid—the mantra of those who opted for provi- sional ballot.

The adjustments allowed residents to vote at any New Jersey polling station containing provisional, paper ballots, which were collected from each polling station and counted at a separate, local- ized counting office. Unlike the email and fax ballots, provisional ballots did not require proof of dis- location in order to be valid. While voting in Essex County yesterday, many received a provisional ballot even though they were reg- istered to vote in the county. All those provisional- ballots were said to be skimmed for signatures in Presi- dent, Senator and the ballot questions, externed the option to vote for those of- fices as well as many other in the municipality of Little Falls. Those modifications made it much easier to vote. Overall, this method of voting was much more or- ganized, simple and private than voting by email, which thoroughly over- whelmed voters and the elected officials respon- sible for their ballots. Unfortunately, every- one was so lucky. The situation with uncollected fax ballots is currently being sorted out by ex- tending the deadline for ballots until Friday, Nov. 9 by 5 p.m., giving those voters a few more days to sort out the calamity which Sandy brought to New Jersey.

Additionally, the New Jersey Turnpike was closed yesterday, mak- ing it difficult for many voters to actually get to their polling station in time to vote.

In the face of devas- tation and disorder, we would argue that as a state, we are all lucky that our government extended help (at least as much as was able un- der the current circum- stances) so that we could perform our civic duty. Even though some of the circumstances were less than ideal, the fact that the state government was able to vote in a time of such a challenge is a testament to the strength of our state and our enthu- siastic support for our government, despite the raw wind and mis- fortunes it brought with it.

Victoria Leta | The Montclarion

MSU had the locks in Hawk Crossings replaced. Students were not able to access their apartments. We believe that the university had the students’ safety at heart and for that reason made the apartments inaccessible.

Though it disappointed some students who could not retrieve their belongings, think about the potential harm you could put yourself in when entering a pitch dark apartment.

The university probably thought about your belongings as well. To avoid any theses, the university switched the locks. The locks were clearly switched back when Clove Road was deemed safe and students were allowed back return.

And damage that was done to the campus was fixed before the reopening of the offices that topped over were reshaped and marked practically overnight.

Damage to any of the buildings was also taken care of, for example, the roof in Little Hall was easily repaired and classes were allowed to resume in the building.

In terms of notifying students, the university did exceptionally well. Though many thought the first announcement was late, MSU was very prompt with keeping up with the storm.

Not only did Sandy’s chaos increase our government to participate in our state and our enthu- siasim to work, but it was also argued that the weak government that provided all the wonder- ful aid for MSU’s consideration for those students who were displaced. We should also applaud the wonder- ful staff that provided for us while we were stuck on campus.

The Hounds Below's Heartbreak
A look at You Light Me Up In the Dark

Emilia D’Albergo
Staff Writer

In the wake of The Von Bondies’ 2002 album Little Screen Teenage Headlights the type of music which surrounds us is ever-evolving. The band have moved on to bigger and better things. Their new sound, The Hounds Below, is a four-piece indie rock group from Michigan whose music encourages both dancing and head-banging at the same time. Their debut album, You Light Me Up In The Dark, is a delightful whirlwind of emotions and sounds that keeps getting better with every listen. The album opens with “You and I,” a song that starts with a steady drum beat as Stolleitmeier’s voice floats in, introducing the album’s dance-rock sound and draws the listener in. The song builds up to the chorus, a catchy, multi-layered plug to Jesus Christ that will have you singing along with Stolleitmeier as soon as you’ve learned the words. The emotion of “You and I” carries over into the second track, “O, Hurra,” which begins in a similar fashion as “You and I,” but eventually grows into a much heavier track as Skye Thrasher provides a solid base layer of guitar that perfect-complements Matthew Holman’s bass mid- and Griffin Bastian’s furious, rhythmic drumming. The swift switch from calm to intense serious rock makes “O, Hurra” one of the most prominent tracks on the album. Stolleitmeier really showcases his vocal abilities on “Swim- ming With Swimmers” and title track “You Light Me Up In the Dark.” He has an incredible vocal range and the capability to flaw- lessly switch from a tender, smooth tone to raw, pleading emotions on “You Light Me Up In the Dark.” This track is absolutely one of the strongest on the album. It is fun and groovy while still maintaining that post-punk element that The Hounds Below pull off so well. “Chelsea’s Calling” also has this particular qual- ity about it, as the cheerful beginning guitar riff melts into a bouncy melody which, when placed over Bastian’s beats, creates a song that sounds great in your headphones, but is surely also a great crowd-pleaser at their live shows. After “Chelsea’s Calling” comes “Conversations,” one of their love-key tracks which begins simply with a piano and Stolleitmeier crooning over it, and is consis- tently a gentle, beauti- ful four minutes of music. “Since He Came to Play” brings back The Hounds Below’s energy and assem- bling effortlessly rock sound, blending crushing cymbals with quick guitar riffs and bright vocals to create another track that is un- doubtedly incredible live. “Deathcab Song” has a simi- lar vibe, but also includes a catchy guitar riff at the be- ginning that sets the tone for the whole track and also makes it another one of the most outstanding, dance- able tracks on the album. Bringing You Light Me Up In the Dark to a close, “Lost in the Waves” be- gins with the lyrics “My heart’s too big to see goodnight,” and contin- ues in the sweet, light fashion in which it began. The combination of atmos- tic guitar and clear, gentle vocals creates a relaxing few minutes that effectively brings the album to a close and leaves the listener gasp- ing when The Hounds Below are coming to town (they’re playing The Rock Shop in Brooklyn on Nov. 14, for those wondering) and itching to listen to the entire album over again. The Hounds Below have proven that Jason Stolleitmeier is certainly capa- ble of recreating the hype and effortlessly cool look that surrounded The Von Bondies in their hayday, but he’s done it tenfold with The Hounds Below. You Light Me Up In the Dark is one of those albums that is appropriate for any situation, but is especially poignant and meaningful during times of heartbreak and emotional turmoil and will undoubtedly provide the listener with a sense of calm and contentment that not many bands in this day and age are capable of provid- ing through a single album. You Light Me Up In the Dark is available now on iTunes. The Hounds Below will be returning to New York on Nov. 14 and 16 at The Rock Shop and The Delancy, respectively.

Red Hawks Advance to NCAA Tournament

Mike Pagnotta

Last Sunday when the scoreboard hovered near the 3rd quarter end of a game, a packed Spafford Field crowd was electrified as they watched a raucous and joyous celebration by the MSU women’s field hockey Team.

The scene was the Lady Red Hawks bench stormed the field to join their teammates following Montclair State’s 2-0 NCAA Tournament final win over Rowan University that gave the Lady Red Hawks an automatic NCAA Division III Field Hockey Tournament bid. It marked the first half that a team had emerged unscathed from the momentum swing back and forth. Junior midfielder Jennifer Tafoe led a second half surge that saw her score the first and third goals of the game while assisting on the second.

Her first goal, which came in the 45th minute, was unassisted. Three minutes later, Tafoe scored forward Kate Norgard’s goal. Norgard’s goal was the team’s 17th in a row. After erasing a 28-point first half deficit, seniors decided that William Merz won the game for the Red Hawks with a 100-yard interception return for a touchdown in a double overtime.

Due to the effects of Hurricane Sandy, the Red Hawks were not able to practice until the day before the game and had limited preparation time for their game against conference foe Brockport. It looked as though it would be a lopsided contest as Brockport scored only three points in the first quarter, including an interception at midfield. Senior quarterback Joe Scibilia threw his second touchdown pass to senior wide receiver Bryan Odgen for his second touchdown of the season.

It took only three plays for them to score the first touchdown of tying the game. Cobb was stopped for a one-yard loss on the ball. On the next play, senior wide receiver Vin Fischer was stopped seven yards short of the goal line. Scibilia ran for seven yards on the ball to the Red Hawks ten-yard line. Scibilia connected with Malave to move to the second overtime period. Scibilia画画

Fourth second half goals (Norgard assisted by Tafro; Schaefer un- assisted; Allison Jilims assisted by Schaefer; and Tafro assisted by Si- erra Rauchbach) offset WPU fresh- man forward Angelica Giannette’s lone goal off an assist by Jennifer Nendza to make the final score 6-1. Prior to the NCAA Tournament, the Lady Red Hawks concluded their regular season with a pair of wins beating Kean University 3-1 at home on Oct. 24 and Gwynedd-Mercy 1-0 on the road on Sept. 27. MSU finished the regular season with an overall record of 17-6.

With the two NCAA tourney wins the team is now 19-1 overall and 8-0 in the NJAC. Their winning streak is now at 17. Senior goalkeeper Megan Bosland was also named NJAC Defensive Player of the Week and Offensive Player of the Week awards respectively, for their efforts in the wins over William Pa- terson and Rowan on their way to their first NCAA Championship. Montclair State was named NJAC Small School of the Week, senior forward Kate Norgard earned Attack Player of the Week and Coach Beth Gottung received NJAC Coach of the Year for the second season in a row and for the third time in her career.

Lady Red Hawks who made the NCAA All-Conference team include Abby Erier, Brooke Huillings and Sierra Rauchbach. Montclair State receives a bye in the first round of the tourna- ment and will play on Saturday, Nov. 10 at 2:00 p.m. in Salisbury, Maryland against either Chris- topher Newport or Gwynedd-Mercy. The team has high expecta- tions according to Coach Gottung. We have been talking all year about getting to the Final Four. I want to see us playing in Geneva, N.Y. on November 17th and 18th."

Red Hawks Win Overtime Thriller

Nick Driscoll

In one of the most dramatic endings in program history, the Montclair State Red Hawks women’s field hockey ball team knocked off the College of Brockport Golden Eagles in double overtime on Sunday at Sprague Field.

Four second-half goals (Norgard assisted by Tafro; Schaefer unassisted; Allison Jilims assisted by Schaefer; and Tafro assisted by Sierra Rauchbach) offset WPU freshman forward Angelica Giannette’s lone goal off an assist by Jennifer Nendza to make the final score 6-1. Prior to the NCAA Tournament, the Lady Red Hawks concluded their regular season with a pair of wins beating Kean University 3-1 at home on Oct. 24 and Gwynedd-Mercy 1-0 on the road on Sept. 27. The Giants currently lead the NFC East with a 6-3 record while the Jets sit in third in the AFC East at 3-5.

As devastation struck the entire Northeast region, there are many things that have brought us together. Efforts by local and national sports teams and their fans have brought us together. Efforts by the New York Giants and New York Jets, Barclays Center, the New York Islanders, all teams have a fan-base and all fan-bases have a voice.

Islanders, all teams have a fan-base and all fan-bases have a voice. As everyone is wondering where their teams stack up for the postseason, the contenders for the NFC East and AFC East right now are the New York Giants and the Pittsburgh Steelers, who power rankings this week on ESPN are 5 and 10, respectively. Coming up short, with their post-season hopes fading fast, the New York Jets, ranked at 25, and the Washington Redskins and Eagles all the Giants have had their hands full with a couple of very close NFC East games recently, with a 27-24 victory over rookie quarterback Rob Griffin III and the Washington Redskins in week seven and a 24-21 win against division rivals, the Dallas Cowboys, in week eight. Both victories came in the fourth quarter.

It’s difficult to deny that Eli Manning’s clutch moments there. These two games plus a week two come-back win against the Indianapolis Colts adds to the eight game-winning drives Manning had in the 2011 season. He has been everything a defending Super Bowl champion should be as far as with over 3,000 passing yards, 2 touchdowns and seven interceptions, taking his team to 6-3 so far this season in the NFC East.

Of course, Manning can’t look as good as he is without one of the league’s top receivers. Victor Cruz and Hakeem Nicks are the most complete wide receiver tandem in the NFL, and if Manning can keep them involved in the passing game, New York can keep teams off-balance. Nicks is the No. 1 guy and people can purchase t-shirts from t-shirts (30) or hoodies ($100) with all sales items being donated to Sandy victims.

He’s been on for 16 touchdowns and has only four interceptions, less than any other quarterback in the league. The Steelers are an old team, but that experience is shining through and I see them going uphill in the second half of the season. They’re still a game behind the Baltimore Ravens in the AFC North, but I have a sneaky feeling that might change soon. About 300 miles south, another Pennsylvania team is facing some serious issues. The Philadelphia Eagles are once again struggling to get the playoffs in their future. They had a pretty decent 5-1 start, including a win over the Giants in week four, but that was their last victory. The Eagles started tanking, losing their past four games, most recently to the New Orleans Saints, another struggling team.

They’ve blown first-half leads in a few games, including an overtime loss to the Detroit Lions. Interestingly enough, Michael Vick is another quarterback to reach over 2,000 passing yards so far this season, but almost matches his 10 touchdowns with nine interceptions, plus a bad case of the fumbles. Bad decisions, play-calling and sloppiness could cost the Eagles a playoff spot, and possibly cost head coach Andy Reid his job.

Recently being dubbed as hav- ing the most “overreacted coach in the NFL,” the only thing the Jets seem to have going for them is their publicity, and not necessarily the good kind either. After acquiring the polarizing Tim Tebow and pairing him with offensive coordinator Tony Sparano, many of us were expecting something big and exciting to come out of this Jets offense during the preseason. This was not the case. Head coach Rex Ryan has stat- ed time and time again that Mark Sanchez was his quarterback, and has not given Tim Tebow the chance that maybe the Jets need. After coming up short in a few games (losing to New England in overtime), being decimated in others, the Jets inconsistency is what will prevent them from seeing the playoffs. Sanchez has thrown for 10 touchdowns, but has nine interceptions and seven fumbles. Is it Tebow Time yet?
Volleyball Season Comes to an End

In a match that saw 30 ties and 15 lead changes, eventually the Kean University Cougars would knock off the Red Hawks in the first round match of the NJAC Tournament. The match was played in front of a large home crowd at the Panzer Athletic Center. The 4th seeded Cougars, who came into the match with a 27-9 record, eliminated the Red Hawks in straight sets. The scores were 27-25, 26-24, proving this match to be one of the Red Hawks’ most tightly contested matches of the season. The last time the two teams met, MSU lost to Kean in four sets on Sept. 11.

The third set saw Kean building a 26-15 win. They led the match 2-0. The first set saw Kean building an early 10-4 lead in the set. The Red Hawks showed their resilience and fight by narrowing the lead to 15-13 on a kill by Nicole Wojtowicz. Later in the set MSU went on a 10-3 run to give them a 24-23 lead, but they could not close out the set and would see their season end. Hansen scored the match point on an ace and Kean advanced to the semifinals with the three-set sweep.

Following the match, the energy around the team remained positive, as it had all season, despite the season ending loss. Sara Girgis discussed the team’s successes and hopes for next season, saying, “This is only the beginning for this program. We had an amazing season and it’s just the foundation for years to come. We tied the school record for most wins in a season and next year we’re taking the record. As for Kean, they have no idea what’s coming for them next season.” Montclair tied their single season record for most wins in a season.

LaCava was named NJAC Women’s Swimming and Diving Rookie of the Week after winning her first collegiate butterfly event with a time of 2:12.97, breaking the 37-year-old MSU record of 2:14.53 set by Denise Killeen at the 1976 NCAA Championships. LaCava was named NJAC Women’s Swimming and Diving Rookie of the Week after winning her first collegiate butterfly event with a time of 2:12.97, breaking the 37-year-old MSU record of 2:14.53 set by Denise Killeen at the 1976 NCAA Championships.
Coach O’Connor was tenacious and encouraged Coach O’Connor to “not give up onLeges” and Coach Rosenmeyer asked was “being overlooked by a lot ofcolleges” immediately told by Chad’s high school recruiting Faulcon, he was im-
director Rich O’Connor first start-
When current MSU Offensive Co-
that I wanted to be a safety.”

Faulcon even admitted, “In high

Although Faulcon was one of the backbones of the MSU defense, finishing his career with 169 tackles, seven interceptions and four forced fumbles, he knew that he wanted Faulcon at Montclair State. After no scholarship offers came in for Faulcon, he made the decision to become a Red Hawk.

When Faulcon first came to MSU, one thing in particular stuck out to all the coaches, his speed. “To be even more specific, it was his clos-

Closing speed is defined as the distance between you and the ball carrier or receiver. While

According to D3football.com, roughly three months before he put it, “A Division III player who is the greatest football player to come out of MSU. The late Sam Mills.”

When asked if Faulcon compar-

“Surreal” is the word Chad Faulcon, who played safety at Montclair State uses to describe his experiences in his NFL try-
outs. Faulcon’s dream of playing in the NFL was dashed this year, but he is getting ready to make the most of his second opportunity.

According to D3football.com, 14 out of 18,000 Division III football players are currently playing in the NFL. This means that it is 88 percent of players from the Division III level of football currently have a roster spot with an NFL team. Of those 14 players, eight are active, four are on an NFL team’s practice squad, one is on the physically un-

According to Montclair.edu and espn.go.com, Mills played for Montclair State from 1977-1980 where he was a two time All-American Line-
ger was named a Division III All-American. Faulcon was also the runner-up for the National Di-

As Head Coach Rich Cieri put it, “A Division III player who

nervous in the pre-game warm-ups, and when the game started I was confident.” Faulcon ended up hav-

MSU Defensive line coach and special teams coordinator Mike Cieri was looking for a player with closing speed that wowed the coaches.

Faulcon was one of the backbones of the MSU defense, finishing his career with 169 tackles, seven interceptions and four forced fumbles. When Faulcon first came to MSU, one thing in particular stuck out to all the coaches, his speed. To be even more specific, it was his closing speed that wowed the coaches.

Closing speed is defined as the distance between you and the ball carrier or receiver. While at Montclair State, not only did Faulcon earn the respect of his fellow teammates, but he also 

earned the respect of his coaches. I recently sat down with current MSU Defensive Coordinator Todd Agresta. He said, “Chad was a step faster than anyone out on the field” and that “Chad follows Sam Mills’ keep pounding attitude.”

In Faulcon’s freshman year, he was awarded the Frodey Hill Award. In his sophomore and junior years, he was award-
ed three Hatchets for three big-

hit tackles he made in separate

games. By senior year, the awards started rolling in for Faulcon.

At the end of Faulcon’s se-
nior season, he was awarded first 
team all-conference, first team all-
region, defensive player of the con-
ference, defensive player of the re-
