A Scary Start to the Fall Semester

Discovery of unidentified object leads to evacuation of the Student Center

Step Up Against Violence Comes to MSU

Montclair State University is making an effort to raise awareness about bystander intervention with the Step Up Against Violence Program.

Originating at the University of Arizona, this program has been adopted by multiple universities across the country. Starting this past summer, the Step Up Against Violence Program arrived at MSU.

The program focuses on a few main areas: sexual assault, hazing, alcohol, anger problems, discrimination, relationship abuse and depression.

Israel Rosado, the Deputy Title IX at MSU, is working along with Robert Vadovic of the University Health Center to deliver this program to various organizations across campus.

The program was first introduced at MSU during summer training for Community Assistants through Step Up.

School of Life and Environmental Sciences to Get a New Home

The new building will be constructed in the current parking lot located between Fox Theatre and Stone Hall.

The Montclarion | Stephanie Aguadillo

If you haven't already noticed the banner claiming Lot 15 as the Future Home of the Center for Environmental and Life Sciences (CELS), you're probably not studying science at Montclair State University.

For the many students who are studying science here, the possibility of constructing a facility that is fully equipped, spacious and modern could make a world of difference for their education.

Robert Pezant, Dean of the College of Science and Mathematics, explained that the university has been planning this project for years and as soon as it is approved, the CELS will be completed as soon as possible.

The public ballot in New Jersey this November will be a bond issue for capital dedicated to higher education in Science Continued on Page 5

Field Hockey Lives up to Pre-season Hype
Pelican Police Report

On Sept. 2:
A staff member of Mills Hall reported the theft of his unsecured laptop from his office. This matter is under investigation.

On Sept. 4:
A juvenile was arrested in Freeman Hall for possession of marijuana and drug paraphernalia. He is scheduled to appear in Union County Family Court.

On Sept. 6:
A male resident of Machuga Heights reported the theft of his unsecured iPhone from outside of the building. This matter is under investigation.

On Sept. 7:
A male resident of Machuga Heights reported the theft of his unsecured iPhone from outside of the building. This matter is under investigation.

On Sept. 9:
A male patron of Floyd Hall Arena reported being verbally threatened by another patron during a hockey game. No charges were filed in this matter.

On Sept. 10:
Michelle Guarino, 45, of Highland Lakes, was arrested and charged with simple assault and serving alcohol to a minor while at Yogi Berra Stadium. She is scheduled to appear in Little Falls Municipal Court.

On Sept. 11:
Nadine Caple, 29, of Hackensack, was arrested and charged with simple assault while in the Red Hawk Diner. She is scheduled to appear in Little Falls Municipal Court.

Anyone who has information regarding these incidents is urged to call the police station from any campus phone at T-I-P-S (8477). All calls are strictly confidential.

Police worked hard to block off the area behind the Hawk Diner during the investigation to protect students. "The expertise of the Montclair State University Police Department, Facilities Services, the construction, Facilities Services, the State University Police Department, and many other police agencies were critical to making this incident successful," said Lt. Barrett.

"We believe the plans for CELS represent the future of what university science buildings in New Jersey should look like. CELS will accommodate our diverse disciplinary needs with an overlay of promoting interdisciplinary; it is designed with student learning in mind; and most importantly, as part of that learning, it is designed to promote discovery," said Perzant.
Constitution Day presents:

Bioethics and the Body Politic

September 27, 2012
University Hall Conference Center, 7th Floor

Sponsored by the Montclair State University American Democracy Project

Keynote Addresses
“Bioethics and the Body Politic”
2:00 p.m. – 3:30 p.m.

The Constitution is a living document which continues to shape our lives today. Dr. Jessica McCormick, a bioethics expert from UMDNJ and Dr. Leslie Wilson, professor of history at Montclair State will discuss the underlying questions in the book, The Immortal Life of Henrietta Lacks, by Rebecca Skloot and the consequential tension between scientific progress and social exploitation. Dr. McCormick will discuss the challenges presented by the policies and regulations of bioethics then and now and the resulting impact on our lives as citizens. Dr. Wilson, a historian, will address the social issues that surround the question as to whether or not Henrietta Lacks’ rights were violated and if indeed the fact that she was a poor black woman are of relevance to our civil rights as guaranteed by the Constitution.

Dr. Brigid Harrison will moderate. She is professor of political science and law at Montclair State and is an expert on the politics of the Millennial Generation. Additionally, she is a frequent commentator on national and New Jersey politics for print and electronic media, and for television including FOX News, NJTV, ABC News and local affiliates of ABC, NBC, and CBS. She is the author of American Democracy Now: A More Perfect Union, Power and Society and Women in American Politics.

Student Leader Panel Discussion
3:45 p.m. – 5:00 p.m.

As a follow-up to the keynote speakers, our student leaders will discuss the relevance of the issues presented and the resulting impact on their lives and their responsibilities as citizens.

September 27, 2012
Montclair State University
Conference Center
University Hall, 7th Floor

7:00 p.m.

David “Sonny” Lacks, accompanied by his son David Jr., will join a conversation about what it meant to find out—decades after the fact—that his mother’s cells were being used in laboratories around the world, bought and sold by the billions. The discussion will be moderated by Brigid Harrison, professor of political science and law. A book signing will follow.

Sponsored by the Center for Writing Excellence, the College of Humanities and Social Sciences, the First-Year Writing Program and Student Development and Campus Life.

This event is free and open to the public.

David Lacks
Son of Henrietta Lacks
Celestial patterns are stellar for this fall. These rainbow leggings, worn by Anshula Nathan, are a great example for an out-of-this-world trend. I love when this look is paired with hipster accessories like a beanie, or a leather jacket, or both. Keep the rest of your outfit low-key by making this galactic piece the focal point.

Shift or shirt dresses are great for making your legs appear thinner. I love shift dresses because it’s an easy and effortless outfit. Stay clear of the three-quarter sleeves because the cut can disproportion your body.

For curvy girls, like me, add a belt to define your curves. I love how Stephanie Petchers accessorized with a scarf — it gives a casual but cool feel.

Johanna Taborda’s colored hair is a fun trend for fall. You can take her ombre look to a whole new level by adding color to the bleached ends. Caution: before picking an extreme color, I suggest buying clip-on extensions to test out which color best fits your hair color and compliments your skin tone.

For men’s fashion, I always love crew necks. You can do what Michael Kissiday did and layer it over a button down or wear it with a pair of khakis. Nothing says fall more than a crew neck. Plus, a crew neck is ideal for layering under a huge jacket because there isn’t a hood to get in the way. I don’t think crewnecks will ever go out of style.

The hottest craze this fall, I would say just by scooping out campus, is bold pants. Solid, stripes, floral, textured, metallic and tie-dye are a few designs I’ve seen. Megan Sommer, Evelyn Vasquez and Kim Roman all paired their colored pants with a solid top to make them pop. For fall, I recommend choosing more of a fall color base. This look is really versatile. You can color block it by wearing hunter green pants with a purple gem-colored top or keep it simple like these ladies did. I love the pop of color, I think everyone should try out this trend!

Samantha Van Allen’s loafers are comfortable and well put together—perfect for campus! I cannot resist a piece that is effortless but gives off a ‘put-together’ vibe. I especially want a pair of loafers of my own with metal details. Her loafers add extra pop by dressing them with a black shirt and black jeans. By rolling your jeans up an inch or two, you can show a little skin and also showcase your loafers. I also saw in a magazine that they’re making high-heeled loafers, which would be great for a job interview or internship!

Boots are always a fashion trend, but adding studs makes them that much better. Samantha Citelli’s got it right when it comes to studded boots. I love when studded boots, an overly masculine piece, is paired with a feminine piece like a dress or a high-low skirt. Studs are cute on almost anything and give the specific piece an edgy-hipster feel. Be careful not to over-stud. Having too many pieces with studs on them is overkill.
Ex-boyfriends. There's an aspect about not starting too deep into a relationship. It's because no one knows. In the media, we are bombarded by relationships, break-ups, even fights and even broken promises. For those who have had very strong feelings for each other can completely forget them? And how does that lie in with a new relationship? This Labor Day, I was contacted by an ex, Jess. While I admit, it is nice to feel like I am still desired, it mostly hurts me in an awkward place.

In every situation, I have been either hurt by an ex or just left feeling for them. With this one (we'll call him John) it is completely different. The feelings I feel toward John are ones I can't really explain, not even to myself. I have been in a relationship with my current boyfriend (we'll call him Pete) for almost two and a half years and I am beyond happy, but there is something from John that can't help but miss what we had. Taylor Swift and other artists constantly give us anthems to express our feelings towards past romances. This Labor Day, I was supposed to celebrate with an old boyfriend, John. We never actually went anywhere, but we could "run into each other" and hang out all night. I would never cheat on Pete, but a night out with John with a group of friends could be innocent fun while easing these crazy emotions I feel inside.

The other part of me thinks this is the worst idea ever. If there are some in-between feelings about John I need to stay far away as possible. But will that make them go away? I'm hoping that's the path that will work, and I'm taking it. I realize when it comes to exes, everything must be brought down to its simplest terms. Everything must be brought down to one question: What do you want? That's really all we can do. I am not happy and chase what we truly want we will destroy everything in our path. I don't want to be the tornado of doom to demolish my relationships. My fear of igniting the tornado of doom to demolish my relationships. My fear of ignoring the tornado of doom to demolish my relationships. My fear of ignoring my feelings for John causing them to only grow is completely irrational. After reading countless self-help guides on relationship advice all over the Internet, I have decided, I, and all of us, are in charge of our emotions. I will always be intrigued by the thought of a reunion with John, but doing so will only put me in a more vulnerable situation and put my relationship with Pete at risk. Seeing an ex while you are in another relationship is just dangerous. As innocent as a simple night out with a large group of friends might seem, unless you have absolutely no romantic feelings for that person, it is not a good idea.

So we go back to the question. What do you want? I want to be with Pete. I want to see John. Which one is more important? Staying with Pete, thus, there is my answer. In a perfect world, emotions for past romances could be completely erased. Last I checked though, we're still on the same planet. So for now, I will stay away and focus on making decisions that will only make my relationship with Pete better, focusing on what I truly want and how to make it happen.
Sleater-Kinney, meanwhile, get by simply sounding clean when he wrote of Sleater-Kinney, “To survive these cleaning it up and putting some fresh veneer on its...”

"Amelia." An original guitar goddess, Joni Mitchell was discovered by influ... "Beat It" audition solo.

#10 Tal Wilkenfeld Greatest Guitar Moment: “Cause We’ve Ended As Lovers” at Crossroads 2007. When Jeff Beck (14) can’t contain himself around you and your basslines, you know you’ve done something right. In fact, this twenty-something has played with Rolling Stone’s own favorites: the Allman Brothers (2), Eric Clapton (6), Jimmy Page (9), and others. Even with these 6-string greats mere feet away, this high school drop out re-fuses to let her bass take the back seat.

#9 Bonnie Raitt Greatest Guitar Moment: After 20 years, her 10th album Nick of Time got her the credit she deserved. Raitt could place first on any list of pure devotion. Not only can she play a mean slide guitar, but this is a woman with a 40-year career and 18 albums under her belt. In 2000, Raitt was inducted into the Rock and Roll Hall of Fame.

#8 Suzi Gardner Greatest Guitar Moment: The “Sh*t” List appearance in Natural Born Killers. As Donita Sparkes’s better half in L7, Suzi Gardner brought with her some notoriety and lead guitar chops. To balance out Sparks’s ferocity, she emitted genuine knowledge of her craft.

#7 Joni Mitchell Greatest Guitar Moment: “Amelia.” An original guitar goddess, Joni Mitchell was discovered by influential guitarist Neil Young and soon became a staple of the 1960s folk music scene. Even Rolling Stone took the time to appreciate her, at #72 of their countdown.

Number 1 Carrie Brownstein Greatest Guitar Moment: “Jumpers.” If Joan Jett may be traced back as the mother of “riot grrrl,” the women of Sleater-Kinney should be credited with creating it and putting some fresh vennor on its guitar chops. Perhaps Stephen Deuser put it perfectly, when he wrote of Sleater-Kinney, “To survive these...”

10 Greatest Female Guitarists

10 Greatest Female Guitarists

In 2003, Rolling Stone magazine compiled a list of the greatest guitarists of all time... and only two women were nominated. Joan Jett came in at #87 and Joni Mitchell at #72. Before you wonder, what does gender have to do with it? Keep in mind, this list implies that two percent of the most widely recognized greatest guitarists are female. With the exception of one, the entire 10 Greatest Guitarists was entirely male. With odds like these, it’s no wonder the Rock and Roll Hall of Fame is inciting the question, Why have there been no great women artists? Without delving too deeply into feminist art theory, let’s turn this around: this is the wrong question to be asking. Instead, consider, what does it take to be great, and what might stop women from reaching this greatness? Or, as became the case as I scoured through hundreds of scathing readership comments on websites that boasted the “Great Female Guitarists.” Can a female ever be great, without her looks dominating the conversation? So without any further adieu, here’s a female-friendly rewrite of the Top 10 Fema...

Montclair State University’s parking issue has always been a popular topic since I’ve been going to this fine institution. People have always complained about the lack of parking on campus, making it harder for commuter students to find parking.

Many commuter students are being forced to park all the way down as far as Lot 40.

If some of you residents are wondering where Lot 40 is, it’s near the softball field and Fordy Stadium. Now I’ve left many freshmen wondering where Fordy Stadium is. Please direct yourselves to the Student Center, where you can help yourselves to a map.

So we all have a clear visual as to where Lot 40 is; you can clearly see it’s far from campus. Also, there is no shuttle that goes all the way down to Lot 40. Residents must hike to 40 and Floyd Stadium. Now I’ve left many freshmen wondering where Lot 40 is, you can clearly see it’s far from campus. And it doesn’t take as long because there were shuttles run in the transit lot, which is a lot cheaper. And it was really expensive. So now I just park a lot of spots. And there are shuttles run in the same lots.

Montclair State University has been focusing on building and repairing buildings, which is something they do deserve credit for.

Most students that attend MSU are in fact commuters. More of the school’s construction projects should be geared to adding more parking spaces on campus. These students also pay tuition to attend this school. If MSU would like to improve campus life, then there needs to be some sort of compromise.

The campus belongs to every student in this university. So it’s only fair the effort made towards new dorms should also be put into maximizing parking.

MSU is still evolving as a university, granted we only earned the title of university in 1994. Our school has taken huge leaps to become such a large and prestigious New Jersey college. The demands for better parking spaces is just another small step in our history, but will hopefully become a reality in the near future.

Many commuter students have a problem getting to class on time as a result. You can hear them mumble about how much earlier they had to get up, or the fact that it took them an extra 20 minutes to find parking.

It’s understood that residents should have the right to parking, but it’s easier said than done with the limited parking spaces in certain parking lots, not necessarily the lack of spaces.

The issue at hand isn’t just the lack of parking, but the organization of it all.

We are allowing our residents and commuters to park in many of the same lots.

With the addition of sophomore residents, parking has to be organized in a way that will benefit the commuters. For example, having sophomore and other on campus residents park in one of the farther lots, leaving main parking places such as CarParc Diem open for commuters only.

It also wouldn’t hurt to have shuttles go to those unchartered lots of MSU.

Most people have been using NJ Transit parking anyway. It’s cheaper than buying the school’s parking pass. Plus, it gives options to residents, such as purchasing monthly passes instead.

Students Speak

How long does it take for you to find parking?

Katherine Velasuk
Fine Arts
Senior

“I started parking originally in Red Hawk and it took 15 to 20 minutes, but it was really expensive. So now I just park in the transit lot, which is a lot cheaper. And it doesn’t take as long because there are a lot of spots. And there are shuttles run through there.”

Alex Quinatana
 Undeclared
Freshman

“I take the bus actually. But I heard parking is awful. And I was late the first day because I got a ride.”

Jacob YI
Marketing
Senior

“Parking here, umm it depends on what time. Especially in the morning, forget about it. It’s going to take me anywhere from 20 to 30 minutes. Afternoon it’s alright. But yeah, in the morning I have to come here at least 20 minutes earlier for my class.”
A Horror Story for the Masses
Mold about and childless too

Kristen Bryfogle, an English and Classics major, is in her first year as assistant opinion editor for The Montclarion.

How much food is taken vs. how much is actually eaten

Kristen Bryfogle, Assistant Opinion Editor

The most consistent word of advice spread about grocery shoppers is to avoid shopping when hungry. Shoppers with rumbling stomachs often allow their eyes to do the shopping, rather than their appetites. However, the excuse “my eyes were bigger than my stomach” is not just for grocery stores. Montclair State University’s dining facilities—especially Sam’s Place, set up in the all-you-can-eat buffet style—have similar issues with diners taking more food than they care to eat, and then disposing of the excess without much as thinking of the food they are wasting.

With the wide variety and availability of food at Sam’s, going from the burgers and fries at the Red Hawk Grill to the Italian dishes at the Brick Oven Pizza and Pasta is just a short walk away and one meal swipe.

But, rather than finish one part of a meal before choosing something else to eat, many students prefer to pile their plates high with whatever food catches their eye, only to throw out plates of uneaten food because they have already satisfied their hunger. It makes sense for a student to think that since he has purchased a dining plan for the year, it is in his best interest to take full advantage of the dining services at Montclair without thinking about the amount of food he is wasting.

I invite students and faculty to consider these statistics as they hurry to their future meals. According to a study done by the Food Network on food waste, each year about 40 percent of the food produced does not get eaten. For every American, there are two-hundred pounds of edible food thrown away each year due to unnecessary food waste.

Additionally, according to the New Jersey Food Bank’s website, over one million people in New Jersey were considered to be food insecure in 2009. It may be easy to pick up more than one dish at mealtime to save a trip, but I would like to encourage students to think more carefully about what and how much they can really consume.

There are no limits on the amount of times someone can get more food at Sam’s Place, and taking the initiative to eat one food one plate at a time before getting more is an easy step which anyone can take.

We want YOU to write for the Montclarion’s Opinions Section!

If interested, email Monika Bujas at msuopinion@gmail.com

It makes sense for a student to think that since he has purchased a dining plan for the year, it is in his best interest to take full advantage of the dining services at Montclair without thinking about the amount of food he is wasting.

I invite students and faculty to consider these statistics as they hurry to their future meals. According to a study done by the Food Network on food waste, each year about 40 percent of the food produced does not get eaten. For every American, there are two-hundred pounds of edible food thrown away each year due to unnecessary food waste.

Additionally, according to the New Jersey Food Bank’s website, over one million people in New Jersey were considered to be food insecure in 2009. It may be easy to pick up more than one dish at mealtime to save a trip, but I would like to encourage students to think more carefully about what and how much they can really consume.

There are no limits on the amount of times someone can get more food at Sam’s Place, and taking the initiative to eat one food one plate at a time before getting more is an easy step which anyone can take.

We want YOU to write for the Montclarion’s Opinions Section!

A Horror Story for the Masses
Mold about and childless too

Kristen Bryfogle, an English and Classics major, is in her first year as assistant opinion editor for The Montclarion.
Iron Consumer: Which Phone Will Reign Supreme?

The Galaxy S III challenges the iPhone 5

T
his year, we have a battle royale of cellular proportions. The iPhone has some experience in the art of combat, since its first appearance on the market in June 2007. It has successfully beaten out its past competitors, such as the dying BlackBerry.

However, a new enemy has appeared on the market. The Galaxy was the first Android phone released, but wasn’t regarded much when it first appeared on the scene in 2009. The Galaxy S III is looking to blow the iPhone out of the water. The sales for the Galaxy S III are over the top, many preserving the iPhone 4S here in the US.

Is that because dedicated iPhone users are waiting for the return of the iPhone 5? It’s important to know what the public looks for when they go phone shopping. The Galaxy S III is bigger than most typical phones, with a screen that is 4.8” long, 7.1mm wide and 8.6mm thick.

The iPhone 5, on the other hand, is predicted to be much smaller and about 8.7mm in thickness.

This makes the iPhone 5 much easier to carry around. The iPhone 5 is also said to have a much better design because it is made out of metal instead of plastic, giving it a more sophisticated look.

In the looks department, the iPhone seems to reign supreme. It’s much more portable and is eye candy as far as phones go.

The only concern with a metal exterior is that it scratches easily, which ruins the design of the phone.

Maybe it was a good idea to use plastic in the design, making the Galaxy seemingly less susceptible to scratches.

But the Galaxy is a huge phone and would probably stick out of most jean pockets. The iPhone 5 being much smaller is more flattering to carry in one’s pockets.

Another issue regarding phones is the processor. As of now, the Galaxy has the iPhone beat in processing and it looks like it will remain that way when the iPhone 5 comes out.

The Galaxy has the fastest processor on the market right now. Now its huge size makes more sense. It’s only logical that the Galaxy is bigger because it has a much more powerful processing ability than the iPhone.

Another feature customers focus on when shopping for a phone. Most of us understand the concept of the iPhone’s capacity. You can buy an 8 GB, 16GB and so on.

The GB or gigabits determine how much room your iPhone has to store pictures, videos, music, etc. The more gigabits your iPhone has, the more it will cost.

As for the Galaxy, you are given a standard amount of gigabits, but you can add more gigabits if you need more space.

In some ways, it’s good to have the Galaxy because you are not limited on space. But if you want to be limited on space so you won’t have to pay extra, then maybe it’s better to have an iPhone.

Lastly, there is the issue of expense. The iPhone 4S and the Galaxy S III are priced the same, however, it is safe to assume that the iPhone 5 is going to be a lot more expensive.

If you really do enjoy Apple products and don’t mind spending more, then the iPhone 5 sounds very promising.

Both phones are top notch and are well received. Many carriers sell both the iPhone 4S and the Galaxy S III. The new iPhone will go on sale on Sept. 21, 2012. Whichever phone you decide to purchase, I’m sure it will be an excellent choice.

There is one question that still remains: Which cell phone will reign supreme?

MSU Film Student Taps into the Other Side
A Special Look at the Short Film Anima

MSU senior film student Mike J. Stable is proving he has what it takes to make it in the competitive film industry with the release of Anima, a psychodrama that takes the viewer on an emotional journey into life after death.

Anima, developed by WDK Film studios, is a short narrative that follows an inmate on death row that is undergoing a controversial experiment, which leads to the inmate and the turmoil that follows.

The trailer has received a lot of positive feedback and has even snatched a few awards at the 2012 Indie Gathering and Film Festival Convention in Hudson, Ohio.

“Throughout the film, the audience is taken on a journey that taps into the secrets of the afterlife. A neuroscientist, who from the trailer seems to be the film’s protagonist, leads the experiment, which doesn’t end as planned,” Anima was created as part of Stable’s Film 3 class last year. “When asked what motivated him to pursue a career in film, Stable shared, “I’m just a fan of movies and I want to be part of the creative process behind them. But to go a little farther, I have a deep appreciation and love for narrative storytelling.”

As both a writer and director, his passion is evident. “When I was 13, I was brought into a video editing lab and taught how to connect two shots. I’ll never forget that moment. That was it for me. I knew I would be making movies for the rest of my life.”

Viewers should be appreciative! His talent speaks for itself. You are not only drawn into the film by the chilling events that the inmate experiences for the greater good of science, but also linked to the story line of the scientist, whose life seems to be turned upside-down thanks to the outlandish experiment.

The trailer and ticket sales are only testaments to the creative genius of Scorsese. The entire cast delivered an amazing performance with De Niro, fully committing to the fragile and violent persona of a man who has had enough.

Movie Night at Sprague
Classic films at the campus library

Rashard Bradshaw
Arts Editor

Taxi Driver is a 1976 brill- ler that delves into the psyche of an emotionally disturbed taxi driver who is driven to the edge of loneliness.

To anyone from the outside, he is any one of us, a person going through the routine of his own day-to-day life, no hair out of place, sharply pressed. However, on the inside, Travis Bickle (Robert De Niro) is a deeply disturbed time bomb close to detonation.

Taxi Driver is a great film that includes not only the beauty of old New York but the signature style of director Martin Scorsese that cemented him as an important and innovative fixture in film.

The camera follows the unstable protagonist as he travels through the city aimlessly searching for something. What exactly is not known, even after the bloody climax.

Jodie Foster is also featured as a young street urchin who is under the care of a suave pimp played by Harvey Keitel.

The movie’s duration is 1 hour and 53 minutes. While some scenes may seem to lag on screen, the moments are only testaments to the creative genius of Scorsese.

The entire cast delivers an amazing performance with De Niro, fully committing to the fragile and violent persona of a man who has had enough.
SHUTTLE SERVICES ANNOUNCES EXCITING NEW CHANGES

NEW ROUTES:

**H** Heights-University Hall  
Monday - Friday  
Servicing University Hall, CarParc Diem, The Heights and 855 Valley Rd.* (*limited service)

**R** Red Hawk Deck-University Hall  
Monday - Friday  
Servicing Montclair Heights, Red Hawk Deck, University Hall and 1515 Broad Street* (*limited service)

**T** NJ Transit Station-University Hall  
Monday - Friday  
Servicing Lot 60, NJ Transit Station, Sinatra Hall and Hawk Crossings

**V** Village-University Hall  
Monday - Friday  
Servicing Fenwick Hall, Basie Hall, Sinatra Hall, Hawk Crossings and University Hall

**S** S-Shopper’s Shuttle  
Saturday Only  
Servicing Red Hawk Deck, Lorriane Ave. and Clifton Commons

**A** All Campus Local  
7 Days a week, 24 hours  
Servicing all campus shuttle stops

NEW CHANGES COMING THIS YEAR:  
- Increased passenger support during peak times.  
- New Shuttles buses arriving this Fall!

Blast from the Past

Album of the Week

Jagged Little Pill was the third release from the Canadian-American songstress Alanis Morissette. The album, released on June 15, 1995, is a brew of alternative rock and post-grunge influences. The 12-track disc catapulted Morissette to commercial and international success. To this day, “You Oughta Know,” the lead single, is the anthem for scorned women across the world. Morissette howls, “And I’m here to remind you, of the mess you left when you went away!” in her signature scratchy vocals, accompanied by a build up of guitar and drums that fuel the flames of her angst.

The album received positive reviews, released six singles and was nominated for six Grammy Awards, winning four, including “Album of the Year.” In 2003 Rolling Stone included the album in The 500 Greatest Albums of All Time list.

Download List:
“You Oughta Know”
“Ironic”
“Perfect”
“Hand in My Pocket”
“Head Over Feet”

Graduate Information Session

This is an opportunity to speak one-on-one with faculty and staff from The College of Science and Mathematics.

Spotlight on

The College of Science and Mathematics

Please join us for a Graduate Information Session Thursday, September 20th 6:00 p.m. University Hall, 7th floor

Immediately following the Graduate School overview, there will be the following breakout sessions:

- Department of Biology & Molecular Biology (MS in Biology, MS in Aquatic and Coastal Sciences, MS in Molecular Biology & Molecular Biology Certificate)
- Department of Chemistry & Biochemistry (MS in Chemistry & MS in Pharmaceutical Biochemistry)
- Department of Computer Science (MS in Computer Science and CISCO Certificate)
- Department of Earth & Environmental Studies (MS in Geoscience, MA in Environmental Studies, PhD in Environmental Management, Environmental Forensics Certificate, Water and Resource Management Certificate and Geographic Information Science Certificate)
- Department of Mathematical Sciences (MS in Mathematics, MS in Statistics, MA in Teaching Middle Grades Mathematics, EdD in Mathematics Education, Teaching Middle Grades Mathematics Certificate)
- Initial Teacher Certification (P-3, K-5 and P-12 with content area certification)
- Newark-Montclair Urban Teaching Residency
- School of Business – Master of Business Administration (MBA)
Welcome Back from Parking Services
We’ve made several exciting improvements!

Commuter and resident surface lot permits have been **REDUCED** by $25.00!

Red Hawk Dollars are now accepted for in-office transactions!

Weekend daily passes are available using new pay-by-phone technology!

The Parker app can be utilized to view commuter parking availability from home!

Zipcar is available to all students this Fall!

Sophomore residents are now eligible for on-campus parking!

On weekends, resident permits are honored in all commuter lots and the CarParc Diem Deck!

Lot 61 has been converted to a commuter lot!

**Don’t Forget:** we offer free jump starts if your car battery dies on campus. Just call the office at 973-655-7580.

The Montclair State field hockey team came into this season with high expectations. Currently, Montclair State is 4-1 overall and 1-0 in the NJAC. The 4-1 start proves that the team is worthy of their #9 national ranking in the Division III field hockey polls.

The Red Hawks opened their season on the road against the Eastern University Eagles. Eastern University was trying to average their year’s opening day 2-1 loss to MSU, while the Red Hawks looked to make it two straight opening-day wins against the Eagles.

MSU got its first score of the year in the 20th minute, when senior midfielder Michelle Hagel got an assist from junior Jennifer Tafo and buried a shot in the net while following down. Once the Red Hawks grabbed a 1-0 lead, they never looked back on route to a 4-0 victory. Hagel ended up with her first career hat trick, collecting her second goal in the 42nd minute and her final goal in the 42nd minute, as the Seahawks ate up most of the much action in the third quarter, making the Red Hawks go into the locker room trailing 10-0.

Their defense seemed impenetrable into the locker room trailing 10-0. MSU’s next matchup took place at home against the Rensselaer Engineers on Sunday, Sept. 2nd. The Red Hawks took on a hot and junior Sierra Rauchbach added one of her own as Montclair State defeated Rensselaer 8-2. Montclair State is now 7-1 all time against the Engineers.

After jumping to an early 2-0 lead, the Engineers cut the lead to 3-1, but Montclair State ended the first half strong with two more goals to take a 5-1 lead into the intermission. The Red Hawks locked up on three more goals in the second half while Rensselaer scored one more goal to cut the lead to 6-2. Montclair State then slacked blocked two shots before exiting in the 56th minute of the game.

Backup goalies Laura Cummings (sophomore) and Rebecca Brattole (freshman) gained valuable experience as they split the last 15 minutes in the net. Following the season-opening back-to-back home wins, MSU hit the road on Wednesday, Sept. 5th to take on upset-minded Muhlenberg College. The host team proved inhospi- table, devaluing the Red Hawks their first loss of the season with a 2-1 score.

Although MSU was able to outshoot the Mules 23-8, only one of those shots found the back of the net. Muhlenberg’s 2-0 lead at the half held up as junior midfielder Stephanie Lewis pulled MSU within one goal, but no closer. Senior goalkeeper Megan Boland had three saves for the Mules.

Staying on the road, the Red Hawks took on Alvernia University on Saturday, Sept. 8th. The Crusaders gave MSU all they could handle during the 70 minutes of regulation time, but the Red Hawks squawked out a 2-1 in overtime. Alverna scored in the 4th minute to take an early 1-0 lead in the first half.

MSU knotted the score with five minutes left in the half as Tafo found the net. The second half was tightly contested and neither team was able to cash in. With 11 minutes left in OT, Lewis put in the game-winner, sealing the victory for MSU.

The Red Hawks were able to out- shoot the Crusaders 18-5 in the contest while Boland recorded three saves. This past Tuesday, MSU played their third game in a row at Ramapo College. The Red Hawks dominated throughout, picking up an easy 7-1 win over the Road Runners and up- ping their record to 4-1. Kate Nor- gar, Tafo and Rauchbach each contributed two goals for MSU.

Montclair State’s other goal came from Frances Schaefer. The win gave MSU a 1-0 record in NJAC play. In a recent interview, Coach Gar- tague spoke about the team’s perfor- mance in the games played thus far. “We played well in our first four games. We are out-shooting and out- commeencing our opponents in all of our games. We will get back to back- ing more goals this week. Traveling helped us see what areas we need to improve upon early in the sea- son and gave us an opportunity to work on our weaknesses in practice.”

As this team gains more experi- ence and addresses some of their weaknesses, the Red Hawks will then be able to realize their full po- tential, which will mean trouble for future MSU field hockey opponents.

The Red Hawks return home this weekend to host New Paltz on Thurs- day, Sept. 13th at a 7 p.m. start and Misericordia University on Satur- day, Sept. 15th at 6 p.m. Both games will be played at Sprague Field.
Experience the power of our super-fast Samsung 4G smartphones.
Who's Hot This Week

Dan Avento
Linebacker — Football
Despite the Red Hawks losing 16-7, Avento recorded an outstanding 15 tackles against Salve Regina. He was honored by being named NJAC Defensive Player of the Week. Avento also became the 21st person to reach 200 tackles in a Montclair State uniform.

Francesca Gibson
Forward — Soccer
Gibson has been a huge force for the Red Hawk offense. In five games, Gibson has scored six goals, including two in their win over FDU-Florham. Gibson is currently second in the NJAC in goals and points.

Game of the Week
Football
vs. Morrisville State
September 15, 12:00 p.m.

The Red Hawks will face off against Morrisville State in their first conference game of the 2012 season. They will be looking to bounce back after an 0-2 start.

Red Hawks Participate in Charity Run
The Montclair State Department of Intercollegiate Athletics held its 7th Annual Reservoir Charity Training Run on Thursday which produced outstanding results, and more importantly, generated funds which were donated to the Montclair Ambulance Unit and the Montclair State EMS.

Michael Scala
Senior Communications Director

The Montclair State Department of Intercollegiate Athletics held its 7th Annual Reservoir Charity Training Run on Thursday which produced outstanding results, and more importantly, generated funds which were donated to the Montclair Ambulance Unit and the Montclair State EMS.

Montclair Ambulance Unit Depu- ty Chief Frank Carlo joined Direc- tor Mike Ricker from MSU Emer- gency Medical Services at the event. Over 180 MSU student-athletes, staff, coaches and members of the campus community took part in the three-mile event around the Cedar Grove Reservoir which also included a walking race. Men’s lacrosse sophomore Michael Schnick became the first student-ath- letic to turn in a sub-1:30 time for con- secutive seasons as he covered the course in a time of 1:20. Women’s cross country freshman Serena Hitchins was the top female finisher clocking in at 1:20, which was the seventh-best time overall. The Top 12 finishers on both the male and female sides received T-shirts for their outstanding performances.

Past recipients of donations in- clude the TALON Holiday Toy Drive, the family of MSU Police Sgt. Chris Vidro, The Walter Reed Army Hospi- tal Chaplains’ Fund, Second Chance Boxer Rescue in the name of Re- nea Dojo, the IOC Book Fund and the John Gnecco Scholarship Fund.

Both Los Angeles teams are fight- ing to clinch the second wild card spot for each of their leagues. In the NL, the Angels have put the Chicago White Sox back on the map as they try to hold off the Detroit Tigers from stealing their thunder. The two clubs will square off in Chicago for a four- game series that could potentially determine which team will advance into the post- season. The Angels have put the Chicago White Sox back on the map as they try to hold off the Detroit Tigers. The two clubs will square off in Chicago for a four- game series that could potentially determine which team will advance into the post- season.

The Texas Rangers and their ever- so potent offense have once again had a great year for themselves, as they look to win their first World Series title for the third straight year with hope of finally winning a championship. Texas Rangers and their ever- so potent offense have once again had a great year for themselves, as they look to win their first World Series title for the third straight year with hope of finally winning a championship.

However, they still have starting pitcher Gio Gonzalez, who leads the Majors with 19 wins. Also in the National League East, the Atlanta Braves are comfortably ahead in the wild card race while Chipper Jones attempts his last hoorah in a permanent.

In the American League East, the resurrected Derek Jeter seems to have turned back the clock by leading the Major League in hits. On the other hand, the Bronx Bombers have had a remarkable run result- ing in winning the World Series.
