Debbie Encalada Contributing Writer

A window fell on a student inside Dickson Hall on April 8. The accident occurred at approximately 3 p.m. in Room 170. MSU student Andrew Deluise was taking notes during class when he heard a snap. He was hit on the head immediately after. “Right away, I just shoved it off. I was in shock,” said Deluise. “I knew I got hit, but I wasn’t sure what hit me.”

As a shock reverberated through the classroom, it was his history professor who gasped and pointed out that he was bleeding profusely from the head since Deluise stood up.

“[My seat] was usually right next to the window. I was lucky.” -Andrew Deluise

Deluise said there was blood gushing nonstop for approximately 5-10 minutes after the accident. He said one of his classmates rushed to help him by putting a napkin over the wound and applying pressure. An additional classmate, who was traumatized and shaking uncontrollably, helped gather Deluise’s belongings.

Campus police were called in, with an officer arriving minutes later with a medical kit. The officer then proceeded to attend to the wound by covering it with bandages and changing them continuously until EDs arrived shortly after. LT. Karen Barrett said Deluise was then taken to Mountainside Hospital for “treatment of a head laceration.” Deluise received seven stitches.

“No indication that there was anything but an odd accident,” said LT. Barrett.

The Central Receiving department recently put into effect a new parcel tracking system that cost nearly $30,000 to help make tracking packages easier for students.

“The Tick Tock Diner on Rt. 3 is one of New Jersey’s most famous eateries.

Convocation and Convocation: 2013

Convocation Schedule:
College of Humanities and Social Sciences
Sunday, May 19 at 2 p.m.
College of Science and Mathematics
Sunday, May 19 at 7 p.m.
College of Education and Human Services
Monday, May 20 at 2 p.m.
The Graduate School
Monday, May 20 at 7 p.m.
School of Business
Tuesday, May 21 at 2 p.m.
College of the Arts
Tuesday, May 21 at 7 p.m.
Convocations are ticketed events. Obtain tickets by ordering online at your individual college/school web page starting April 22.

Commencement: Friday, May 24
IZOD Center
Reporting time: 9 a.m.
Start time: 10 a.m.

Additional Information:
• Free parking is available in the Meadowlands Sports Complex. For convocation, tickets and seating are limited.
• For convocation ceremonies, undergraduates wear their robe and stoles with no cap, graduates wear their robe and cap with no hood. For commencement, full regalia is worn.
• Bachelor degree recipients can purchase regalia for $63 through the bookstore starting May 8.
• The deadline for Master’s degree recipients to order regalia was March 31.
• Doctoral degree recipients should contact the Graduate School for regalia ordering information.
• Diplomas will be mailed within 2-3 weeks of commencement.

Inclement Weather for Convocation Ceremonies:
• All convocation ceremonies are set to take place on Sprague Field.
• In case of inclement weather, convocations will be held on May 22-23.
• On the days of the ceremonies, students can call the weather hotline at 973-655-7810 for up-to-the-minute weather information.

Inclement Weather for Commencement:
• In case of inclement weather, commencement will be held on May 24.

Inclement Weather for Graduation Ceremonies:
• In case of inclement weather, graduation ceremonies will be held on May 22-23.
• On the days of the ceremonies, students can call the weather hotline at 973-655-7810 for up-to-the-minute weather information.
was to do, starting with the informant going to the house disguised as an exterminator so they would not look suspicious.

The hit man would then torture Spiropoulos with plans until he gave up the information.

"If any person feels a facility is ever unsafe for any reason, they should contact the Facilities help desk, but no one else gets hurt. However, he admitted there were probably no safety precautions that could've prevented the situation. Deluise pointed out that the main problem is telling a difference between whether or not a window is unlocked. He also expressed how fortunate he was for not being injured.

"My seat was usually right next to the window," said Deluise. "I was lucky." Robert Ferrara, Director of Fire Safety, who is chairman of the Department of Psychology and Communications at Texas A&M University, video games have only "shown to promote a significant correlation in children's mental health due to video game violence." According to Professor Christopher J. Ferguson, chairman of the Department of Psychology and Communication at Texas A&M University, video games have only "shown to promote a significant decline in youth violence in the past 40 years" and there is currently no known negative correlation in children's mental health due to video game violence.

Stender's bill has received public support from Governor Christie.

### Diner

Continued from page 1

that some have occurred with Spiropoulos at the diner. It has also been reported that he has sexually harassed women who work at the diner.

He has made sexual comments about women's bodies and even threatened to kill two of his female workers if they complained of his sexual harassment.

Police believe that this was Spiropoulos' final attempt plan at carrying out a murder. During his conversation with the intended hit, he informed them, "We'll have a lot more to do." The detective thinks that the plan of many plans Spiropoulos had to commit a murder. Student Lisa Rusinowski added, "I have eaten at the Tick Tick Diner before and the atmosphere and workers were as friendly and welcoming. I would have never guessed that this was actually going on."
Steven Rosenbaum speaks to MSU students about digital curation.

Jonatas Ferreira  
Assistant News Editor

On April 17, the School of Communication and Media presented digital curation speaker Steven Rosenbaum, a producer, author and entrepreneur who created the MTV show Unplugged, which aired in the 1990s. He also founded Magnify.net, a website that allows people to upload video and media content into websites with social networking features.

Making a place in University Hall, Rosenbaum spoke to a group of students about the idea of digital curation, or the idea of having a person select, organize and prioritize media created daily. He argued that because of the enormous amount of information and media created daily through the Internet, the importance of selecting and organizing this information will also continually rise.

Rosenbaum stated that these curators must be human. Unlike computers, curators and algorithms are unable to account for the enormous amount of variety that exists when deciding what kind of information to present. Only people can decide what other people will like.

Rosenbaum went on as to say that in the future, curators will become more important. From the rise of accessibility of video and the sharing through websites such as Instagram, all of our lives will have the potential to be a curated experience.

However, since it is impossible for a person to go through so much information themselves, the curator decides what media is more valuable and what media should be left off and what people see and do not see.

“It would be to make it your life’s work to watch every single video posted on YouTube in a single day, you would be spending the next eight years of your life watching videos,” said Rosenbaum, emphasizing the vast quantity of data created daily.

Rosenbaum referred to Google Glass, which is essentially a wearable computer that will allow users to be connected to the Internet at all times. People will be able to view what other people are doing and this will minimize the already tremendous amount of privacy in the world. This points to a future where there will be an immense large amount of information flowing through the Internet.

In conclusion, Rosenbaum hoped to inspire students to take steps forward to help develop a future moderated by curators, who are responsible for the explosive amounts of information.

The partnership prepares teachers for practical teaching experience and facilities, especially for teacher education in urban settings.

The introduction of Tektrack is considered to be a very clear vision for what the College of Education is teaching and learning and how students are prepared for employment in the field of education.

The College of Education and Human Services is also the only teacher education program in New Jersey that is accredited by the National Council for Accreditation of Teacher Education (NCATE). The program can be continued after the program.

Recently, the program was selected by the Woodrow Wilson Foundation and Education Work to participate in the Top 20 in the Top News World Report’s rankings in 2010 and 2011. The program was an extension of the previous accomplishments of the teacher education. This program was previously in the Top 20 in the Top News World Report’s rankings from 1994 and 1995. The college, the teacher education program was one of the institutions awarded by the National Council for the Accreditation of Teacher Education (NCATE). The program continued to be administered by the University for over 50 years.

Most importantly, the program was selected by the Woodrow Wilson Foundation and Education Work to participate in the Top News World Report’s rankings. Chosen as one of four New Jersey universities, Montclair State University will help implement teacher education for the university and science teachers throughout the state.

The College of Education and Human Services provides students with classroom experiences, including internships in the field and degrees and also continuing to prepare them for their careers. Since the last 10 years of professional support in the college, many of its students have go on to teach. Montclair works in partnership with the New Jersey Department of Education and also the Orange Public Schools District.

Tent State Against War and Tuition Hikes

Tent State

The Montclarion  |  Ethan Fria

Students for a Democratic Society outside Cafe Diem as part of the Tent State.

Students for a Democratic Society pitched their tents in front of Cafe Diem in an act of protest on April 15. None of the groups.

Tent State, a student group that has garnered attention from local politicians, professors and other politically active students.

According to one of the activists, the only opposition they have heard is from liberals who try to “police the movement.”

Professors have already come forward and shown their support, giving tea cups and online information sessions.

Yesterday, two members from the Veterans for Peace organization came to the Tent State site and offered insight for the group.

Tent State will remain outside Cafe Diem until April 18. Students can visit the campsite at Cafe Diem for more information and light refreshments.

Pops of Red

Jessica Czarnogursky
Feature Editor

With the semester winding down, it’s easy to get worked up over final papers, the stress of exams and neglect everything but your basic black t-shirt and jeans. An easy way to keep stress at a minimum and your fashion at a maximum is to add pops of color to a simple outfit, and there’s nothing bolder than red.

Red is becoming increasingly popular, as a pop of red in your lips, nails or clothes is a simple way to make a bold statement. Whether you find a coral red or a fire-engine red more suited to your taste, keep in mind these simple ways to add red to your daily routine will ensure stress-free fashion for the rest of the season and semester.

Shoes: Just because you can’t afford the red-soled Louboutin doesn’t mean you can’t add the same class to your everyday wardrobe. Red shoes are perhaps the most versatile whether you realize it or not. Not only can they add instant lift to simple jeans and a t-shirt, but they can add class to a business or date outfit too. Whether pump or flat, the shoe is a must have.

Jean Jacket: Jean jackets are a growing must have, so why not step above the norm by stepping up the color scheme? A jean jacket in a coral hue makes for an even better statement than just another blue jean jacket.

Dress: ‘Tis the season for dresses of every shape and style. Whether solid or patterned, a dress with red flair is a perfect pop to an otherwise ordinary outfit.

Lips and nails: For a polished look, try painting your nails red for a week or add lipstick to your daily routine. Ensure the colors are appropriate for your skin tone and remember every color in moderation.

Pants: Whether you want a skinny jean to complement a pair of converse or a tailored pair of pants to make a stellar first impression at your summer internship, adding a pair of red pants is a great way to get noticed and stay on top of fashion.

Headbands and Belts: For those days when the wind on campus is too much or you just need a quick pick-me-up, a headband or simple belt is the way to go. Wear a skinny red belt either classically through your belt loops or as a way to break up a boxy blouse or dress. Add a fun patterned or solid red headband to your hair for an effortless but put-together look. Adding the pop of color will make your entire outfit look more thought-out and polished than you had time for.

5 MYTHS ABOUT MARIJUANA

1. MYTH: It’s cheap to get high on marijuana.
   FACT:
   If you get convicted of possession or sale of marijuana, you can lose financial aid, grants, work study, tuition, and housing (not to mention the legal costs).

2. MYTH: You can’t get kicked out of housing if you smoke marijuana outside of your residence hall.
   FACT:
   If you are caught smoking, holding, or under the influence of marijuana anywhere on or off campus, you can be removed from housing. Even if you did not smoke in a residence hall.

3. MYTH: It’s okay to be high on campus, as long as you don’t have marijuana on you.
   FACT:
   If you are suspected to be under the influence of marijuana, you can face arrest and university conduct charges.

4. MYTH: It is okay to smoke marijuana in your car.
   FACT:
   It is illegal to smoke in your car, even while it is parked. If you are caught on or off campus, you could be put on probation, expelled, or charged with a DUI—Driving Under the Influence.

5. MYTH: Marijuana has no effect on your judgment.
   FACT:
   THC (the main active chemical in marijuana) affects your judgment and decision making, so you may do things you normally wouldn’t.

Think you know everything about marijuana? Think again.

Greek or American? Which Whey to Go

Alexis Fissinger
Staff Writer

If you have not tasted it already, you have certainly heard about this healthy trend. Greek yogurt is currently one of the fastest growing food products on the shelves. Every dairy brand is jumping on board to create not just their very own variety of Greek yogurts, but also kid-friendly, bits-and-squash Greek treats. However, all types of yogurt contain healthy nutrients such as calcium, potassium, vitamin D, complete protein, B vitamins and healthy bacteria. So why is everyone crazy about the Greek?

What is the difference?

If you look at Greek yogurt, it will most likely say strains of milk that are naturally protein richer than other types of milk. The protein is a by-product of the straining process, which gets rid of much of the excess liquid known as whey. This straining results in a more concentrated, creamier product that contains more protein and sometimes more fat yet fewer carbohydrates than the non-Greek counterpart.

Does this make it more nutritious?

Greek yogurt contains almost three times more protein and proportionately less carbohydrates than regular yogurts. Protein is an essential nutrient associated with prolonging satiety more effectively than carbohydrates or fats. Another nutritional benefit of Greek yogurt is that it naturally contains less sugar than regular yogurt. One of the hottest non-fat yogurt items in stores is Danone’s Light & Fit Greek Yogurt. Leave it to Dan- non to create the lowest calorie option at just 80 calories per 1.5 oz container, with significantly less carbohydrates and sugar than most Greek or non-Greek yogurts.

Unfortunately, this dream product is only possible because they use artificial sweeteners as the primary sweetening agent instead of sugar. Depending on your stance on sweeteners, this may or may not be the perfect brand for you.

Is it worth the extra buck?

There is a valid reason for Greek yogurt’s high price, and it is not just because of the popularity of this product. The filtration of the yogurts liquid means that more milk has to be used to make one serving of yogurt. Each spoonful of Greek yogurt is therefore more jam-packed with nutrients than a spoonful of non-Greek yogurt. Stick with the store brand and you will likely pay a fraction of the price of popular name brands.

Tips from a Greek yogurt fanatic:

Dana Baardsen

With about a third of the sugar and less calories than all of the flavored Greek yogurts, the plain flavor is the healthiest option.

Choosing plain does not mean that you have to go without flavor. Try adding a bit of cinnamon, pumpkin purée, fresh blueberries, straw-berries, chopped banana or pomegranate seeds to customize your Greek snacking. Add a sprinkle of walnuts, flax seed or wheat germ for a boost in nutritional content.

Greek yogurt can also substitute sour cream and mayonnaise in any recipe for a much healthier dish.

Gardening

A Stress Reducing Guide to Food and Relaxation

Dana Baardsen
Staff Writer

There’s no doubt harvesting a garden may seem like a daunting task for most college students, but the benefits of starting one are undeniable. From staying active to soothing the mind, gardening can be extremely healthy.

There’s one college student who has made time to nurture her garden. Her name is Samantha Cianci. A native of the Garden State she is an inspiring gardener and dancer who executes her ability to care for her plants extremely well.

Samantha’s garden is full of nourishment and “free therapy.”

Explore Sumanscland, an abundant oasis of green, which would make any organ- ic gardener waggle their toes. Though the name might sound mysterious and unusual, Sumanscland is more than just a pretty garden. It’s a source of nourishment and “free therapy” for its owner. Not only does she use the plants grown in her garden for food, but she also makes her own essential oils at home.

Cianci is definitely on to something, as scientific research supports the benefits of growing a garden at home.

Gardening is actually a relaxing yet effective form of exercise. Burning those extra calories is definitively a plus.

1. Find serenity:

Plants and gar- dening elevates the levels of “happy hormones” in our bod- ies and decreases feelings of stress and anxiety.

2. Get your blood flowing:

Maintaining a garden is actually a relaxing yet effec- tive form of exercise. Burning those extra calories is definitively a plus.

3. Indulge in the right food:

Gardeners are more likely to indulge in a diet rich in fruits and vegetables.

4. Strengthen your con- nection to nature:

Working with floral, fruits, herbs and vegetables, plants will strengthen your precious bond with nature.

5. Find success and satis- faction:

Wouldn’t it feel nice to know that your table center- pieces actually came from something you planted, grew and harvested?

The Weekly Debate

How long do you have to be dating to go on vacation with your significant other?

He Said

Going on vacation with your significant other can be a very touchy subject. We are part of a generation filled with one-night stands, where serious relationships are few and far between for people younger than 30. It is often very difficult to maintain a relationship with your significant other. Whether it’s a five-day trip out-of-state or a week-long trip to the beach, a vacation is one’s first look into whether or not you can live with your significant other. It is much more than what is often perceived.

Vacation is a time to come and go as you please. If you are just coming and going, there is nowhere to run. Even after the most broken of hearts, things can improve. With a little patience and understanding, you can find there’s nowhere to run. Even after the most broken of hearts, things can improve. With a little patience and understanding, you can find

She Said

Now that this academic year is almost done, the only thing on my mind is taking a nice long vacation and relaxing. Amidst papers and final projects, I’ve made time to set up concert plans for seeing the Gaslight Anthem and with one of my favorite bands, Fragile X. Given the chance, I’d probably go on a vacation. Even after the most broken of hearts, things can improve. With a little patience and understanding, you can find there’s nowhere to run. Even after the most broken of hearts, things can improve. With a little patience and understanding, you can find

About the charities:

Prevent Child Abuse America (PCAA) was founded in 1972 in Chicago and works to ensure the healthy development of children nationwide. PCAA is a research institute and family service agency.

Fragile X Syndrome, as stated on the national Fragile X Foundation’s website, is a genetic condition that causes intellectual disability, behavioral and learning challenges and various physical characteristics. Though PCAA occurs in both genders, males are more frequently affected than females and generally with greater severity. The National Fragile X Foundation promotes awareness and advances research toward improved treatments and cures.

Aries March 21 - April 19
This is a great month to finally speak to that special someone you've been longing to know. Overcoming your shyness may be difficult at first, but once the ice is broken — that's when things will go smoothly.

Taurus April 20 - May 20
Be cautious when sharing secrets with people, especially since you are the kind of person who practically shares their whole life with others. Before you spill, really think whether this person is trustworthy.

Gemini May 21 - June 20
Forget YOLO, and instead go by the classic, “A penny saved is a penny earned.” Money is already a “must” in the world and is perhaps an even larger one in the college world. Rather than spending your money on things you know you won’t need, save your money for a bigger purchase — one that will actually benefit you.

Cancer June 21 - July 22
You will be surprised at how much little change to your appearance could make an impact on others. This subtle change will not only have you feeling better, but it shows others what you're capable of.

Leo July 23 - August 22
These past weeks have been leaving you wanting to take on new challenges. With that said, let others see the advantage of this muse and get that hard work out of the way.

Virgo August 23 - September 22
This week you will feel as though you have more energy than usual. It may even prompt you to get a head start on some tough work that you’ve been putting off. Take advantage of this muse and get that hard work out of the way.

Libra September 23 - October 22
Real friends are those who tell you what you need to hear, not what you want to hear. Although flattery may be an ego-booster, always ask your most honest friends and relatives for their feedback. Their critiques will only serve to make your work stronger.

Scorpio October 23 - November 21
Although your judgments on some things are spot-on, it can be very easy to come off as imposing or arrogant. Step into another’s shoes before you condemn them for a misstep. You might be shaky on your feet if you had to walk that path yourself.

Sagittarius November 22 - December 21
A little encouragement goes a long way today. It’s time to drop the macho man act and feel the love. Believe in it or not, the smallest kind gesture, such as opening the door for someone or giving advice could make one’s day.

Capricorn December 22 - January 19
You don’t have to win everyone over in order to consolidate your status in a group. There will always be those who love and those who hate. Instead, devote your time to those you feel the strongest connection with. Show them some love today and your buzz will quickly spread like wildfire to others.

Aquarius January 20 - February 18
Three past weeks, you have come to the realization that you are working harder but not smarter. While it may be great to plan your goals for the future, remember that you are still in the present. When you stop reaching for something that’s too far, that’s when you will discover something great that has been in front of you all along.

Pisces February 19 - March 20
When it comes to being noticed, it is always the squeaky wheel that gets the grease. Having said that, you might have to throw a small fit to get your point across and to show just how important the issue really is. Be shrewd when using this approach, you don’t want to gain a bad rep as a cry baby.

You Know What Grinds My Metal Gears?

Question of the Week

Should violent video games be banned in public places?

Mary Montiello, freshman

Fashion Studies

“I really don’t think that gun violence has anything to do with video games. I think people should just know better. I don’t think they need to be banned.”

Casey Coleman, junior

Broadcasting

“I don’t think violent video games should be banned. I think more education on the repercussions of violent behavior should be brought up, but I don’t think violent video games necessarily warrant violent behavior.”

Arturo Rodriguez, senior

English Education

“I don’t think that violent video games should be banned. I believe it’s predicting that a problem that actually does exist in the world isn’t real. If you can’t play the video games, it’s like saying you can’t allow kids to be exposed to things that are actually happening. Maybe, instead of banning them, a more preventative and proactive approach should be taken. So, this is happening in the world, and here’s the video game of it, but educate yourselves to the opening in the world, and here’s the video game of it, but educate yourselves to the opening in the world.”

Angela Castillo

Sophomore

Psychology

“I don’t think you should ban children playing games that are violent. Clearly, if you put something psychologically that goes on with them that leads them to be violent. It’s not the game’s fault itself.”

George Zudan

Senior

Accounting

“I feel that they should be viewed in public places because it’s up to the parents discretion whether they want their children growing up playing violent video games. I know that growing up as a child, that wasn’t my parents first option as a game choice for me. I got older, I made my own decisions. I was able to go and purchase my own violent video games if I had chosen them. (Golf of War) is a great game. I think the guidance of parents and even society should guide people the right mind of not being affected mentally by these video games.”

Jo Landau

Senior

Women and Gender Studies

“I keep going back and forth on this issue. I can never truly decide who seems less infantile because it always comes down to the point where one becomes an as of feminize attack. It’s like, ‘you’re not big enough to do it, or otherwise, You’re a woman because of the games you play.’ I don’t play violent video games. I don’t really approve of them, but I’m not going to impose my choices on others.”

**Megalomania In Social Media**

Political posts about bombs spreading beyond the Internet

Leaving aside the attacks, mainly on online media, if it were not for social media, we would not be able to live in this modern world today, and the general need for everyone to produce and consume information is truly astounding. Some of the most essential stories to circulate around the world, including those that once belonged to the Wall Street Journal, are now available online to all of us.

I would also like to extend this thought to those family members of the victims who were affected by the bombings that occurred near the finish line of the Boston Marathon on April 15, which caused many injuries and fatalities to those unfortunate enough to be caught in the blast during the initial explosions. I would like to extend my prayers to all of those families of the victims who were affected by the bombing that occurred near the finish line of the Boston Marathon on April 15, which caused many injuries and fatalities to those unfortunate enough to be caught in the explosion during the initial explosions. I would like to extend my prayers to all of those families of the victims who were affected by the bombing that occurred near the finish line of the Boston Marathon on April 15, which caused many injuries and fatalities to those unfortunate enough to be caught in the blast during the initial explosions.

Glee Under Fire

Victoria Conn
Staff Writer

Fox’s hit television show Glee is under more fire than ever and this time, it’s a lot darker than Bible mockery and homosexuality. In fact, most of the backlash is coming from the tragedy-stricken town of Newtown, Conn. Just four months after the horrific massacre at Sandy Hook Elementary School, Glee’s very own Jackie Robinson (Joshua Bowman) School is faced with its own school shooting.

The episode depicts the show’s main characters running for cover and recording final goodbye messages to friends and family after gunshots are heard near the cafeteria. It is later revealed that the shots were accidentally fired by Becky Jacks, a mentally handicapped student who stole her father’s gun in order to prepare and protect herself from life after graduation.

Although no one is injured or killed, the episode proved to be too much for some Newtown residents. Who felt that the December 14 tragedy was still too fresh for such a situation to be used in a show. The episode, titled “Shooting Star,” was slammed by many parents of Newtown students, who felt that the show was insensitive and disrespectful to the memory of those killed.

The episode, while well-intentioned, was ultimately too much for some viewers and was met with criticism from both the general public and the producers of Glee. The show creators defended their decision to include the episode, stating that it was a tribute to the memory of those lost and a way to start a conversation about gun violence.

However, the backlash continued, with many calling the episode tasteless and insensitive. In the end, the episode was criticized for its lack of sensitivity and its failure to properly address the complexities of the issue.

Despite the controversy, the episode served as a reminder of the importance of having these conversations and the need to continue working towards finding solutions to prevent such tragedies from happening in the future.

Transcending Barriers

Nick Taylor
Chief Copy Editor

Nowadays, it’s hard to imagine a world without integration. One might think that this trend was as natural as the first non-Caucasian player in Major League Baseball, yet it seems Robinson’s story has rarely been emphasized other than the fact that he was 42.

In 1946, the Philadelphia Phillies at home, teammates, and fans alike marveled at the fact that Robinson was bunting with nearly every ethnic slur in the books, breaking Robinson’s concentration at the plate. This culminates in an emotionally powerful scene where Robinson’s concentration at the plate begins to steadily improve thanks to the support of Rickey.

Though predictable, the film goes as far into the world of Black history as it can. The film ends with the phrase “This game is tighter than a new pair of shoes on a rainy day.”

The moments involving his rivalry with nearly every ethnic slur of Jackie Robinson made him seem like the real thing, even visually. One could tell that the actors for this film were specifically chosen to match the look while giving a powerful performance.

The supporting cast of Christopher Meloni, Brett Cullen, and the aforementioned Alan Tudyk were all impressive, no performance stood closer than Scrubs’ John C. McGinley as the Dodgers’ radio commentator, Red Barber. The moments involving his analogic style of play-by-play (“This game is tighter than a new pair of shoes on a rainy day”) were welcome comic relief from what was otherwise a cultural sermon.

The only real issue here is its predictability. Not many would have the nerve to look up every single detail of the first two years of Jackie Robinson’s career with a few anomalies added on to it. I loved for the existent hub-bub and recovered it with whipped cream and a cherry on top. It’s basically what I expected and some.

Of course, that’s not a bad thing. I’ve been a baseball guy since I was yay big and knew my way around a bat. This is a unique look at the life of Jackie Robinson and some of the realism and emotion do it a great deal of justice. Baseball fan or not, watching this film offers a great example of our cultural history. It’s just a shame the Dodgers had to move to Los Angeles.

**The Flaming Lips**  
**The Terror**  
is a brilliant album in its own right. You won’t find yourself singing along to any of these songs, but rather engrossed in their ethereal landscapes. The Flaming Lips have always been masters of expressions without words. In their ability to build soundscapes that sounds like it came from a different Universe, but are obviously the darkest and least accessible work of theirs ever. The Terror is a true testament to their abilities.

The Flaming Lips’ recent performance on the Late Show with David Letterman was meant to be played simultaneously with darkness on their previous album, Embryonic. The Terror is a 30-year career, which is already getting Oscar buzz for the most transformative role of his remaining years. This isn’t about war, politics or any of the nonsense; it is about building a rainbow. He has some money-emotional roles, such as Noah Calhoun in The Notebook, and Jacob Palmisano in Crazy Stupid Love. He is, after all, an actor and an entertainer who can play any role, acting or singing. He has said it’s Bradley Cooper’s best work, in addition to an already staggering list of nominations. For the last time, it truly is a testament to how great and incredible Ryan Gosling is and how he should continue to share his gift of acting and entertaining. No one wants him to take a break from acting, even if he sees his face on the big screen. He should continue acting and should continue picking dynamic and heart-warming characters that are immensely complex and show off Gosling’s talents.

The Place Beyond the Pines is a masterpiece and a film that should not go unnoticed.

2008 marked the beginning of a new shift in the film industry. Kathryn Bigelow, the first female director to win an Oscar for Best Picture, astonished the Academy Awards from a male-dominated past. Since then, female film directors have been on the rise. Our own campus boasts strong up-and-coming contenders in the film industry, including Kristi Dake, a senior filmmaker in her last semester at Montclair State.

Dake just finished filming her senior thesis, *Thick Heart,* and is now in post-production. I had the opportunity to sit down with Dake and speak with her about her film. Dake’s film is currently in its kickstart phase. This phase helps filmmakers fund their films and incorporates donations from supporters. There is no minimum donation and every little bit helps. By donating money to these films, you are becoming a part of the film itself. Aside from the benefits of donating to a project, you will receive prizes for the efforts of donating to a project, every little bit helps. By donating to a project, there simply needs to be more of it.

*Thick Heart* deals with real situations that women face. It was originally written as a drama, however, she decided to make it a romantic comedy because she laughed and enjoyed the film. Dake thought that online dating was a poignant issue for the film. She reminded me that 40 percent of people have online dating profiles.

When asked about casting decisions, Dake told me it was a tough decision but Lovette really captured her attention. Lovette is a plus-size actress and feels she relates to her character,也在 that it.
Basketball has to be one of the most physically grueling sports, game in and game out. It’s seldom that a player does not suffer some type of injury throughout the grueling 82-game schedule. If you haven’t already heard, Kobe Bryant went down with a torn left Achilles tendon. This couldn’t have come at a worse time, because if the Los Angeles Lakers lose their last game of the season and the Utah Jazz win theirs, they might not make the playoffs.

They are especially in danger of losing because that game is against the Houston Rockets, who have a better chance of securing their spot in the playoffs.

The Rockets are currently the 7th seed in the West and would fare much better against the 2nd-seeded San Antonio Spurs than potentially dropping to the 8th seed and having to face Kevin Durant’s Oklahoma City Thunder. Additionally, the Rockets lead the league in points per game, with an average of 106. The Jazz have an easier task on their hands because they might not make the playoffs.

Despite Anthony en- during these nagging injuries, he was able to not only lead the NBA in scoring but carried the New York Knicks towards their best season in 16 years with a 2nd seed in the Eastern Conference. He assured the media that in regard to his shoulder, “It’s sore, just from the cont- tact. I’ll be fine, it’s nothing for me to worry about,” Anthony said in the New York Post. The Knicks also received a major spark with the potential Sixth Man of the Year in J.R. Smith. Smith isn’t afraid to put up a shot at literally any point during the game. With the likes of him and Carmelo, the Knicks made more three-point shots than any team in sports history, tracking all the way back to the three-point line’s debut in the 1979-80 season.

They will take on their rival, the 7th-seeded Boston Celtics. If you’re a Knicks fan, this is the matchup that you have been waiting for. The Celtics have been a .500 team all season, and without Rajon Rondo, they have no business beating the Knicks this time around.

The Brooklyn Nets’ new home at the Barclays Center has translated into their first playoff appearance since 2006. Their season started off a bit rocky after the firing of Avery Johnson. However, his replacement, assistant coach P.J. Carlesimo has the franchise’s best start as a coach with a record of 14-10.

If both the Brooklyn Nets and New York Knicks advance to the Eastern Conference Finals, it will be the first time that the two franchises will compete for a shot at the finals.

Despite Anthony en- during these nagging injuries, he was able to not only lead the NBA in scoring but carried the New York Knicks towards their best season in 16 years with a 2nd seed in the Eastern Conference. He assured the media that in regard to his shoulder, “It’s sore, just from the con- tact. I’ll be fine, it’s nothing for me to worry about,” Anthony said in the New York Post. with Matt Moreno scoring.

ning on a RBI single to right, the score 6-3 in the sixth inning.

third, Richard Stockton scored in the third inning on a RBI double by Stephen Nappe and into the third inning on a RBI single by Anderson Rosa with Nappe scoring.

double by Stephen Nappe and into the third inning on a RBI single by Anderson Rosa with Nappe scoring.

In the fourth inning, the Osprey bats came alive, scoring two runs in the fourth, one in the fifth, and another in the sixth and then added three in the seventh inning.

In the fourth, MSU came back to take the lead 2-1 when Stephen Nappe tripled to right field. Going into the eighth inning, MSU had a 2-1 lead, but Scott Paulus tied the game with a two-run single.

The team is a part of Club Sports at the Department of Campus Recreation, who run the Student Recreation Center on campus. Regarding the scores, the team had an overall positive outlook regarding how they played.

Joe Cahill, a Navy veteran, sophomores and one of two head coaches, recalled, “They really played well. Everybody contributed and worked together. They all played intense, fast and smart baseball. We had a rough time last week when we lost to Northeastern two games in three, but we were able to bounce back and still having a successful season.”

The team is undefeated in their conference and plan on continuing that way. Unfortunately, the end of the season will hardly be a walk-in-the-park, seeing as they will play both New York University and Hofstra in consecutive weekends. Regarding the end of their regular season, Cahill said, “Hofstra won all of last year, so I think they are going to be really tough. At the same time, we don’t want to look past NYU.”

This opinion was shared by most of the players interviewed, including third baseman and junior Nick Brasile. “Hofstra is the better team out of the two,” said Brasile. “As long as we continue playing and look forward, I think we can handle them.”

Brasile had a double play during one of the games to close out an especially imperious inning, abolishing the error that he had in the prior play. As one of the key players and batsmen for the team, Brasile said, “We are meshing better. We practice a lot more because people are now able to show up consistently. There’s a lot of passion among us.”

Ramapo College Roadrunners.

On April 13, the Montclair State Red Hawks traveled to Mahwah to take on the Ramapo College Roadrunners. The Hawks came out on top for the victory.

The game ended up going into extra innings. In the tenth inning, the Hawks added three in the seventh inning, but it was another in the sixth and then added three in the seventh inning.

In the eighth inning, Ramapo tied the game at 7. In the ninth inning, Pace had three RBIs for MSU. Anderson Rosa followed Pace’s double with a RBI single up the middle, giving Pace’s double with a RBI single up the middle, giving the Red Hawks the lead.

In the eighth inning, Pace tied the game at 7. The game ended up going into extra innings. In the tenth inning, Ramapo scored three times to gain a 10-7 lead.

Montclair fought in the bottom of the ninth, scoring a run, but that’s all they could get as they suffered a 10-8 loss.

Baseball

vs. Rowan

April 20, 11:30/2:30 p.m.

MSU will host the 12-11 Rowan Profs for an NJAC double header.

For updates, check out: www.montclairathletics.com and follow @TheMontclarion on Twitter
The Montclair State Lady Red Hawks have kept their winning streak alive this season by winning their record to 28-0 overall and 12-0 in the New Jersey Athletic Conference (NJAC).

MSU is still ranked #1 nationally in NCAA Division III by the National Fastpitch Coaches Association (NPFCA). Their win streak was in jeopardy this week as they faced a very tough team in The College of New Jersey (TCNJ), who was ranked 23rd nationally at the time.

On April 13, the Montclair State Red Hawks welcomed the TCNJ Lady Lions to Montclair for a two-game series. The first game featured many thrilling moments as the Lady Red Hawks pulled out the win by a score of 2-1 in nine innings.

Junior pitcher Alex Hill earned the victory, pitching a complete game by giving up one run on eight hits while allowing only three hits. Hill’s two innings of scoreless relief preserved the win for Cullen. The lone run of the game came in the second inning, as her first-inning hit by a score for Montclair State.

Sophomore Jennifer Skinner came on to finish the last inning and gave up two runs (one earned) and two hits. Amato ignited the engine for good. Paulino, Petrucelli and Allegretta all notched an RBI for MSU. Paulino had a very good first game at the plate, going 3 for 4 in the winning effort.

The second game was tightly contested throughout, but Montclair State managed to squeak out a 1-0 verdict. Junior Alison Cullen had a strong performance on the mound, as she threw five shutout innings while allowing only three hits.

Hill's two innings of scoreless relief preserved the win for Cullen. The loss run of the game came in the second inning, when junior second baseman Katie Muglia smacked a single into right field to score Alissa Amato over the center field fence to keep Montclair State's winning streak of marvelous pitching business in the first game and beat up on NJCU, 7-0. Hill kept her own momentum going by throwing a complete game, two-hit shutout and striking out 15.

Amato led the way for Montclair State, having a fantastic day at the plate by going 3 for 3 and driving in two RBIs. Junior Dana Amato has recorded 23 RBIs and 23 runs with four home runs.

With freshman shortstop Jaklyn Allegretta on base, junior third baseman Shana Amato crushed a walk-off homerun over the center field fence to keep Montclair State’s winning streak alive.

In the second game, the Lady Red Hawks duplicated the score from the first game, winning 2-1, but this time getting the win in eight innings.

Hill took the mound for the second game as well and was still dominant, giving up one run, seven hits and striking out three in her second complete-game win.

Sophomore infielder Tara Petrucelli had two hits on the day, including an RBI single that tied the game at 1-1 in the bottom of the fifth.

Then, in the bottom of the 8th, senior centerfielder Jamie Paulino’s sacrifice fly to center field allowed sophomore outfielder and pinch-runner Sam Camacho to tie and score the game-winning run for MSU.

On April 11, Montclair State hosted the NYU-Poly Lady Red Hawks on the one run they needed to win the game. On April 16, MSU went on the road to visit the New York City University (NYCU) Lady Gothic Knights. Montclair State took care of business in the first game and beat up on NYCU, 7-0.

Sophomore Jennifer Skinner came on to finish the last inning and gave up two runs (one earned) and two hits. Amato ignited the engine for the Lady Red Hawks in the first game, as her first-inning hit by a score for Montclair State.

Junior pitcher Alex Hill won her fifth NJAC Pitcher of the Week Award. Hill’s record currently sits at 22-0 and leads the NJAC in Earned Run Average (0.16), Opposing Batting Average (0.139), Strikeouts (218), walks (22) and saves (3). Just this past week, Hill went over 700 career strikeouts and earned her 70th career victory.

The Lady Red Hawks’ home doubleheader on April 17 against Centenary College will be available next week. On April 20, Montclair State hosted the Defiance University Lady Bulldogs. The first of the two matches starts at 1 p.m. and the second game will begin at roughly 3:30 p.m.

A senior on the Montclair State lady softball team, Paulino has been a key player for the Lady Red Hawks this week as they faced some tough competition.

Paulino had a very good first game at the plate, going 3 for 3 and driving in two runs. Petrucelli had two hits and was still dominant, giving up one run on eight hits while allowing only three hits.
