Deluise said there was blood gushing nonstop for approximately 5-10 minutes after the accident. He said one of his classmates rushed to help him by putting a napkin over the wound and applying pressure. An additional classmate, who was traumatized and shaking uncontrollably, helped gather Deluise’s belongings.

Campus police were called in, with an officer arriving minutes later with an EMT. Deluise said that he was bleeding profusely from the head once the EMTs arrived and that he was in shock. "I was in shock, said Deluise. "I knew I got hit, but I wasn’t sure what hit me.”

As a shock reverberated through the classroom, it was the history professor who gasped and pointed out that he was bleeding profusely from the head once Deluise stood up.

"[My seat] was usually right next to the window. I was lucky." - Andrew Deluise

Deluise said there was an odd accident, said Lt. Kieran Barrett. "Our Facilities team notified us of an odd accident," said Lt. Barrett. "I knew I got hit, but I wasn’t sure what hit me.”

"There is no indication that he was anything but an odd accident," said Lt. Barrett. "We notified the Health and Housing department and they are investigating all items of safety concern."
On April 9
A female student reported the theft of her watch while in the locker room of the Student Recreation Center. This matter is under investigation. (Building #57)

On April 10
Student Jeffrey Piratzky was arrested and charged with harassment stemming from an incident involving his roommate in Einstein Hall. Piratzky is scheduled to appear in Little Falls Municipal Court. (Building #58)

On April 12
An employee of Freeman Hall reported an act of domestic violence involving her ex-boyfriend. The employee declined to pursue charges at this time. (Building #15)

On April 12
A male non-student reported an act of harassment from a group of individuals in a passing car while he was walking on Clive Road. This matter is under investigation.

Anyone who has information regarding these incidents is urged to call the police station from any campus phone at T-I-P-S (8477). All calls are strictly confidential.

World News

Pelican Police Report

• Passaic County will be next in a series of six state-sponsored gun buybacks. The New Jersey attorney general has held these buybacks in the wake of the shooting in Newtown, Conn., and started the series in Camden, N.J.

• Gov. Chris Christie offered Deval Patrick, Governor of Massachusetts, any help that New Jersey can provide after the bombings at the Boston Marathon, to show that they are not alone and that New Jersey will support them.

• According to a State Department of Environmental Protection representative, state officials plan to buy out more than 1,000 flood-prone homes from owners who would like to sell them in the next 2-3 weeks.

• The owner of a health store in Totowa has been charged with sexual assault. James Perna, 53, has been charged with multiple counts of aggravated sexual assault and endangering the welfare of a child after having sex with a 13-year-old boy who worked at his store.

• Two bombs exploded at the finish line of the Boston Marathon on Monday afternoon. As of Wednesday, three victims were identified as dead, over 100 were injured and there is currently no suspect in custody.

• Carroll University in Waukesha, Wis. was put on lockdown after a report of a gunman on campus was issued by the college on Tuesday morning. Police have the suspect in custody and the campus is now back to normal.

• The family of Audrie Pott, the teenager from California who was allegedly raped and subsequently committed suicide, has announced that they plan on filing a lawsuit for wrongful death. Their goal is to prove that the actions of the three boys who assaulted her and then posted pictures of the assault led to her suicide and “broke her.”

• The first ever “de-segregated” prom is coming to Wilcox County High School in Georgia. Although schools have been de-segregated for a long time, students of different races never attended the same prom as each other. There were separate events hosted by parents and students, not the school board. This year marks the first year that they will all go to the same prom together.

• An earthquake struck the border of Pakistan and Iran on Tuesday morning, killing at least 42 people and injuring more than 250. Initial reports stated that the earthquake reached magnitudes of between 7.5 and 7.8.

• North Korea continues to threaten South Korea, saying they will not give any warning before they attack. North Korea said that it was responding to a rally against them that took place in the south, something that the north called a “monstrous act.”

• Prince Alwaleed bin Talal of Saudi Arabia has continued to show his support for allowing women to drive, saying that it will have great social and economic benefits for the country.

• A series of bomb blasts in Iraq killed at least 42 people and wounded more than 250 on Monday.

The first issue of The Montclarion, then named The Pelican, was published on Nov. 28, 1928. Commencement and Convocation: 2013

Convocation Schedule:
College of Humanities and Social Sciences
Sunday, May 19 at 2 p.m.
College of Science and Mathematics
Sunday, May 19 at 7 p.m.
College of Education and Human Services
Monday, May 20 at 2 p.m.
The Graduate School
Monday, May 20 at 7 p.m.
School of Business
Tuesday, May 21 at 2 p.m.
College of the Arts
Tuesday, May 21 at 7 p.m.
Convocations are ticketed events. Obtain tickets by ordering online at your individual college/school web page starting April 22.

Commencement:
Friday, May 24
IZOD Center
Reporting time: 9 a.m.
Start time: 10 a.m.

Additional Information:
• Free parking is available in the Meadowlands Sports Complex.
• For convocation, tickets and seating are limited.
• For convocation ceremonies, undergraduates wear their robe and stoles with no cap, graduates wear their robe and cap with no hood. For commencement, full regalia is worn.
• Bachelor degree recipients can purchase regalia for $63 through the bookstore starting May 8.
• The deadline for Master’s degree recipients to order regalia was March 31.
• Doctoral degree recipients should contact the Graduate School for regalia ordering information.
• Diplomas will be mailed within 2-3 weeks of commencement.

Inclement Weather for Convocation Ceremonies:
• All convocation ceremonies are set to take place on Sprague Field.
• In case of inclement weather, convocations will be held on May 22-23.
• On the days of the ceremonies, students can call the weather hotline at 973-655-7810 for up-to-the-minute weather information.
Game Over For Video Games

Padraigh Gonzalez Staff Writer

Recently, there has been a push to ban video games in private households. Some of the bills being debated are sponsored by Assemblywoman Linda Stender. “Children are exposed to violent images more than ever,” Stender said in a press release quoted in an NJ.com article. “Violent video games can desensitize children to violence and give them a warped version of reality where violence and death have no consequences outside their ‘virtual’ screen.”

She plans to introduce legislation that would prohibit amusement parks, movie theaters, bowling alleys, retail stores and other public places from making games rated “mature” or “adults only” available to play. Parents are just now taking an initiative to see if their children are playing games properly rated for specific age groups. However, children are still playing these more mature video games.

Fornarotto also said that medical emergencies were not reported by the various departments on campus. He made it clear that medical emergencies were not handled as campus police handled them. In the past, medical emergencies were handled by the campus police. However, in the past 40 years there has been a decline in youth violence in the last 40 years and there is currently no known negative correlation in children’s mental health due to video games. According to Professor Christopher J. Ferguson, chairman of the Department of Psychology and Communication at Texas A&M University, video games have only “shown to promote a decline in youth violence in the past 40 years” and there is currently no known negative correlation in children’s mental health due to video games.

Stender’s bill has received public support from Governor Christie.

Internet Entrepreneur Advertises the Future

Jonatas Ferreira Assistant News Editor

On April 17, the School of Communication and Media presented Steve Rosenbaum, a producer, author and entrepreneur who created the MTV show Unplugged, which aired in the 1990s. He also founded Magnify.net, a website that allows people to search video and media content from websites with social networking features.

Rosenbaum took place in University Hall and spoke to a group of students about the idea of digital curation, or the idea of having a person select, organize and curate media based on value and importance. He also argued that because of the vast amount of information that is made available on the Internet and the vast amount of media created daily, the idea of digital curation, or the concept of managing what information will be shared, is crucial to the future.

“Rosenbaum states that those curators must be humans. Unlike computers, curators and algorithms are unable to account for the enormous amount of variability that exists when determining what kind of information to present. Only people can decide what other people will like,” Rosenbaum said.

The rise in access to this amount of information on the Internet, the amount of video and picture sharing on sites like YouTube in a single day, has caused the amount of information produced daily to rise exponentially in the last five years.

“The idea is becoming increasingly harder to keep track of everything,” Rosenbaum said. “This is why it’s really valuable, because from this reason, we will have to find new ways to sort through information. Rosenbaum suggested that a new kind of filter will have to be created to manage this information.

Rosenbaum states that those curators must be humans. Unlike computers, curators and algorithms are unable to account for the enormous amount of variability that exists when determining what kind of information to present. Only people can decide what other people will like.

Rosenbaum went as far as to say that in the future, curators will become more important. From the rise of accessibility of video and just the sheer amount of video content that will have the potential to be a cure-all.

However, since it is impossible for a person to go through so much information themselves, the curator decides what media is more valuable and what media should be linked to and what people see and do not see.

“If you were to make it your life’s work to watch every single video posted on YouTube in a single day, you would be spending the next eight years of your life watching videos,” said Rosenbaum, emphasizing the vast quantities of data created daily.

Rosenbaum referred to Google Glass, which is essentially a wearable computer that will allow users to be connected to the Internet at all times. People will be able to share information at all times and this will minimize the already dwindling amount of privacy in the world. This points to a future where there will be an immense large amount of information flowing through the Internet.

In conclusion, Rosenbaum hoped to inspire students to be social networkers while using their education and scientific knowledge to help implement teacher education and learning and contributing to their communities.

The partnership prepares teachers to become effective in teaching experience and facilities, especially for students in the field of education for urban education. One of the things that set this program apart is that it is a very clear vision for what students learn teaching and learning and that they are able to be part of the College of Education and Human Services. The College of Education and Human Services is a separate program that does not adhere to the College of Education.

In a recent interview, Dr. Zeo Buckholler of the Department of Educational Foundations was named as outstanding "university-based academics who are contributing most substantially to the advancement of higher education and higher education by the" 2007 New York University Public Service awards. The College of Education and Human Services is a professional group that provides a significant portion of the program. The school, which has students for the last 112 full-time students and 124 full-time students, has been located in University Hall. Faculty and students of the college are continually engaged in improving current practices and the college’s history of excellence.

The partnership prepares teachers to become effective in teaching and learning and contributing to their communities. This recognition confirms the assessment of our graduates and their leaders and mentors through New Jersey school districts.

This ranking is an extension of the program’s history of previous accomplishments. The program was previously in the Top 10 of the New York World Report rankings in 2010 and 2011.

In 1994, the teacher education program was one of the first in the state to be accredited by the National Council for the Accreditation of Teacher Education (NCATE). The program continues to be certified by the National Council for the Accreditation of Teacher Education (NCATE) 50 years later.

Recently, the program was selected by the Woodrow Wilson Foundation and Education Week to participate in the Top Teacher Education program. Chosen as one of four New Jersey universities, Montclair State University will help implement teacher education programs in New Jersey and science teachers throughout the state.

The College of Education and Human Services provides teacher education and human service preparation with classroom experiences in fields of study and degrees and also continues to provide the college with over 6,000 years of professional support in the field of education. Students go on to teach. Montclair works in partnership with the New Jersey Department of Education and the Orange Public Schools District.

Tent State Advertsises the Future

Students for a Democratic Society outside Cafè Deen as part of the Tent State

Ethan Fria News Editor

The Students for a Democratic Society pitched their tents in front of Café Deen in an act of protest on April 15. This act of setting up a camp originated at Rutgers over 10 years ago in protest of tuition hikes. Each event has garnered attention from local politicians, professors and other politically active groups.

This year’s Tent State will focus on maintaining attention on the issue that just motivate their fight in the cause that involves tuition hikes.

"Unlike this is a pretense anti-war, but this is a special case," said Greg T. dec, a junior History Education major and co-organizer at the event. "This year state of the union was anti-war but this year state of the union is about anti-war because we think global war and act local." Conservative groups have come up to speak with students and discussed both sides of the issue.

According to one of the activists, the only opposition that students have been from liberals who try to "police the students who are protesting." Professors have already come down and shown their support, giving tea and orange juice to students.

Yesterday, two members from the Veterans for Peace organization came to the Tent State site and offered support for it for a day. During Tent State, students will remain outside of Café Deen until April 18.

Students can visit the campsite at Café Deen for more information and light refreshments.

Pops of Red

Jessica Czarnogursky
FEATURE EDITOR

With the semester winding down, it's easy to get worked up over final papers, the stress of exams and neglect everything but your basic black t-shirt and jeans. An easy way to keep stress at a minimum and your fashion at a maximum is to add pops of color to a simple outfit, and there's nothing bolder than red.

Red is becoming increasingly popular, as a pop of red in your lips, nails or clothes is a simple way to make a bold statement. Whether you find a coral red or a fire-engine red more suited to your taste, keep in mind these simple ways to add red to your daily routine will ensure stress-free fashion for the rest of the season and semester.

Shoes: Just because you can't afford the red-soled Louboutin doesn't mean you can't add the same class to your everyday wardrobe. Red shoes are perhaps the most versatile whether you realize it or not. Not only can they add instant lift to simple jeans and a t-shirt, but they can add class to a business or date outfit too. Whether pump or flat, the shoe is a must have.

Jean Jacket: Jean jackets are a growing must have, so why not step above the norm by stepping up the color scheme? A jean jacket in a coral hue makes for an even better statement than just another blue jean jacket.

Lips and nails: For a polished look, try painting your nails red for a week or add lipstick to your daily routine. Ensure the colors are appropriate for your skin tone and remember every color in moderation.

Dress: 'Tis the season for dresses of every shape and style. Whether solid or patterned, a dress with red flair is a perfect pop to an otherwise ordinary outfit.

Pants: Whether you want a skinny jean to complement a pair of converse or a tailored pair of pants to make a stellar first impression at your summer internship, adding a pair of red pants is a great way to get noticed and stay on top of fashion.

Headbands and Belts: For those days when the wind on campus is too much or you just need a quick pick-me-up, a headband or simple belt is the way to go. Wear a skinny red belt either classically through your belt loops or as a way to break up a boxy blouse or dress. Add a fun patterned or solid red headband to your hair for an effortless but put-together look. Adding the pop of color will make your entire outfit look more thought-out and polished than you had time for.

5 MYTHS ABOUT MARIJUANA

1. MYTH: It’s cheap to get high on marijuana.
   FACT: If you get convicted of possession or sale of marijuana, you can lose financial aid, grants, work study, tuition, and housing (not to mention the legal costs).

2. MYTH: You can’t get kicked out of housing if you smoke marijuana outside of your residence hall.
   FACT: If you are caught smoking, holding, or under the influence of marijuana anywhere on or off campus, you can be removed from housing. Even if you did not smoke in a residence hall.

3. MYTH: It’s okay to be high on campus, as long as you don’t have marijuana on you.
   FACT: If you are suspected to be under the influence of marijuana, you can face arrest and university conduct charges.

4. MYTH: It is okay to smoke marijuana in your car.
   FACT: It is illegal to smoke in your car, even while it is parked. If you are caught on or off campus, you could be put on probation, expelled, or charged with a DUI—Driving Under the Influence.

5. MYTH: Marijuana has no effect on your judgment.
   FACT: THC (the main active chemical in marijuana) affects your judgment and decision making, so you may do things you normally wouldn’t.

Think you know everything about marijuana? Think again.

Greek or American? Which Whey to Go

Alexis Fissinger
Staff Writer

If you have not tasted it already, you have certainly heard about this healthy trend. Greek yogurt is currently one of the fastest growing food products on the shelves. Every dairy brand is jumping on board to create not just their very own variety of Greek yogurts, but also kid-friendly, bite-size and fruit Greek treats. However, all types of yogurt contain healthy nutrients such as calcium, potassium, vitamin D, complete protein, B vitamins and healthy bacteria. So why is everyone crazy about the Greek?

Tips from a Greek yogurt fanatic:

I personally love Greek yogurt, the creamy texture makes me feel like I am eating a real treat. However, I stick to the non-fat, plain flavor. With about a third of the sugar and less calories than all of the flavored Greek yogurts, the plain flavor is the healthiest option. I personally love Greek yogurt, the creamy texture makes me feel like I am eating a real treat. However, I stick to the non-fat, plain flavor. With about a third of the sugar and less calories than all of the flavored Greek yogurts, the plain flavor is the healthiest option. No need to go without flavor. Try adding a bit of cinnamon, pumpkin purée, fresh blueberries, strawberries, chopped banana or pomegranate seeds to customize your Greek snacking. Add a sprinkle of walnuts, flax seed or wheat germ for a boost in nutritional content.

What is the difference?

Greek yogurt is strained more than regular yogurt, which gets rid of much of the excess liquid known as whey. This straining results in a more concentrated, creamy product that contains more protein and sometimes more fat yet fewer carbohydrates than its non-Greek counterpart.

Does this make it more nutritious?

Greek yogurt contains almost three times more protein and proportionally less carbohydrates than regular yogurt. Protein is an essential nutrient that promotes muscle growth and building and has a more filling effect than carbohydrates or fats. Another nutritional benefit of Greek yogurt is that it naturally contains less sugar than regular yogurt. One of the hottest non-fat yogurt items in stores is Danone’s Lite & Fit Greek Yogurt. Leave it to Danon to create the lowest calorie option at just 60 calories per 5.3 oz. container, with significantly less carbohydrates and sugar than most Greek or non-Greek yogurts.

Unfortunately, this dream product is only possible because they use artificial sweeteners as the primary sweetening agent instead of sugar. Depending on your stance on sweeteners, this may or may not be the perfect brand for you.

Another nutritional benefit of Greek yogurt is that it naturally contains less sugar than regular yogurt. One of the hottest non-fat yogurt items in stores is Danone’s Lite & Fit Greek Yogurt. Leave it to Danon to create the lowest calorie option at just 60 calories per 5.3 oz. container, with significantly less carbohydrates and sugar than most Greek or non-Greek yogurts.

There is a valid reason for Greek yogurt’s high price, and it is not just because of the popularity of this product. The filtration of the yogurt’s liquid means that more milk has to be used to make one serving of yogurt. Each spoonful of Greek yogurt is therefore more jam-packed with nutrients than a spoonful of non-Greek yogurt. Stick with the store brand and you will likely pay a fraction of the price of popular name brands.

Should you make the switch?

Yes, there is more protein, but most Americans easily consume more protein than the current recommendation of 0.8 g per pound of body weight. For those who have a hard time consuming enough protein in their diet, choosing Greek over regular yogurt is a healthier way to increase intake. Keep in mind that regular and low-fat Greek yogurt can still contain much more fat and saturated fat than non-Greek yogurt. Extra sugar can also be added to those fancy flavors, so comparing labels and choosing fat-free versions are recommended.

Is it worth the extra buck?

There is a valid reason for Greek yogurt’s high price, and it is not just because of the popularity of this product. The filtration of the yogurt’s liquid means that more milk has to be used to make one serving of yogurt. Each spoonful of Greek yogurt is therefore more jam-packed with nutrients than a spoonful of non-Greek yogurt. Stick with the store brand and you will likely pay a fraction of the price of popular name brands.

Tips from a Greek yogurt fanatic:

I personally love Greek yogurt, the creamy texture makes me feel like I am eating a real treat. However, I stick to the non-fat, plain flavor. With about a third of the sugar and less calories than all of the flavored Greek yogurts, the plain flavor is the healthiest option. No need to go without flavor. Try adding a bit of cinnamon, pumpkin purée, fresh blueberries, strawberries, chopped banana or pomegranate seeds to customize your Greek snacking. Add a sprinkle of walnuts, flax seed or wheat germ for a boost in nutritional content.

Greek yogurt can also substitute sour cream and mayonnaise in any recipe for a much healthier dish.

Gardening

A Stress Reducing Guide to Food and Relaxation

Dana Baardsen
Staff Writer

There’s no doubt that growing a garden may seem like a daunting task for many college students, but the benefits of starting one are undeniable. From staying active to soothign the mind, gardening can be extremely healthy.

There’s one college student who has made time to nurture her garden. Her name is Samantha Cianci. A native of the Garden State, she is an inspiring gardener and dancer who executes her ability to care for her plants extremely well.

Samantha’s garden is full of nourishment and “free therapy.”

Explore Summerville, an abundant oasis of green, which would make any organ- ic gardener wriggle with joy. Though the name might sound like an extraordinary one, Summerville is more than just a pretty garden. It’s a source of nourishment and “free therapy” for its owner. Not only does she use the plants grown in her garden for food, but she also makes her own essential oils at home.

Cianci is definitely not new to planting, as scientific research supports the benefits of growing a garden at home.

Here are five reasons why you should start growing your own garden.

1. Find serenity:
   - Planting and gardening elevates the levels of “happy hormones” in our bod- ies and decreases feelings of stress and anxiety.

2. Get your blood flowing:
   - Maintaining a garden is actually a relaxing yet effec- tive form of exercise. Burning those extra calories is definit- ily a plus.

3. Indulge in the right food:
   - Gardeners are more likely to indulge in a diet rich in fruits and vegetables.

4. Strengthen your connec- tion to nature:
   - Working with floral, food, healthy and vegetable plants will strengthen your precious bond with nature.

5. Find success and satis- faction:
   - Who wouldn’t feel nice to know that your table center- pieces actually came from something you planted, grew and harvested?

Survive gardens.

Charity during Greek Week
Sisters of Sigma Delta Tau donate to Three Worthy Causes

Erin Fedrini and Kelly Potts

The Sisters of Sigma Delta Tau raised $11,700, doubling from last year. Of all the proceeds will go to three different charities. In addition, with the online giving from the ticket sales, the Sisters raised over $800 that will be donated to the Bostrom the Shore Foundation.

Danielle-Iannetta, Vice President of Sigma Delta Tau, stated, “It is people like President Hnurovich who inspire all of us to do as much as possible for the foundation and to help make a difference in children’s lives.”

Iannetta also stated that the success was planned to have a guest that they have sponsored for the past few years with his family, Ben Weiss who has Fragile X. He said, “With the help of these special guests, as well as our family and friends, we were able to have such a successful event.”

Sigma Delta Tau alumna Dana Modena said, “Attending Tricky Tray is something we alumni look forward to. This year, attendees were higher than I have ever seen in the past and special guest Ben and the PCAA really made this Tricky Tray special. I am so proud of what Sigma Delta Tau has been able to have such a successful family and friends, we were proud of my Sisters. It was evident how much hard work and dedication the Sisters poured into this event.”

Iannetta said, “As we continue to grow, we can only aim to change and help make our world a better place for children and for all people!”

About the charities:
Prevent Child Abuse America (PCAA) was founded in 1972 in Chicago and works to ensure the healthy development of children nationwide. PCAA of a network of chapters in all fifty states and over 600 Healthy Families America home visitation sites in 41 states, Puerto Rico and Canada.

Fragile X Syndrome, as stated on the national Fragile X Foundation’s website, is a genetic condition that causes intellectual disability, behavioral and learning challenges and various other physical characteristics. Though FXS occurs in both genders, males are more frequently affected than females and generally with greater severity. The National Fragile X Foundation promotes awareness and advances research toward improved treatments and a cure.

Erin Fedrini and Kelly Potts

HE SAID

Going on vacation with your significant other can be a very touchy subject. We are part of a generation filled with one-night stands where serious relationships are few and far between for people younger than 30.

Now a vacation with your significant other is the first step into a serious relationship. Whether it’s a five-day trip out-of-state or a week-long venture to the beach, a vacation is one’s first look into what it’s like to live with your significant other. It is much more than what is often perceived.

It is hard to determine a solid number when it comes to the time one must be in a relationship before going on vacation.

If the purpose of the vacation is just to have a good time and a chance to unleash whatever vacational desires have just been pent up, I’d say anywhere between three and four months should be plenty of time to get to know your partner well enough.

On the other hand, if you are planning on going on any sort of vacation, what you expect out of your relationship. It can be either well-deserved alone time or an opportunity you can stay away from. What you ever you would like, it can be another focal point to add to the mental scrapbook. There is merely a number.

It is to have a solid number which it comes to the time one must be in a relationship before going on vacation.

If the purpose of the vacation is just to have a good time and a chance to unleash whatever vacational desires have just been pent up, I’d say anywhere between three and four months should be plenty of time to get to know your partner well enough.

On the other hand, if you are planning on going on any sort of vacation, what you expect out of your relationship. It can be either well-deserved alone time or an opportunity you can stay away from. What you ever you would like, it can be another focal point to add to the mental scrapbook. There is merely a number.

It is to have a solid number which it comes to the time one must be in a relationship before going on vacation.

When it comes to how long you should wait before going away on vacation with your significant other, it completely relies on your maturity and what you expect out of your relationship. It can be either well-deserved alone time or an opportunity you can stay away from.

However, as stated earlier, it depends on your maturity and level of understanding. If there is any bad blood or a smoldering conflict, it must be settled or brought to attention before going away. Spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time.

The Weekly Debate
How long do you have to be dating to go on vacation with your significant other?

SHE SAID

Now that this academic year is almost done, the only thing on my mind is taking a nice long vacation and relaxing. Amidst papers and final projects, I’ve made time to set up concert plans for seeing The Decemberists and The Gaslight Anthem with several other friends.

Going away on vacation with your partner will have developed a strong enough bond and away. We’ve been together for a couple of days for a vacation. I see no problem with it.

He’s proven to be cost-efficient, too. Works, a happy medium for us that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time, spending hours with somebody is one thing, but spending days, that will make going on vacation is just to have a good time.

Horoscopes

By Madame Carley

Aries
March 21 - April 19
This is a great time to finally speak to that special someone you’ve been longing to know. Overcoming your shyness may be difficult at first, but once the ice is broken — that’s when things will go smoothly.

Taurus
April 20 - May 20
Be cautious when sharing secrets with people, especially if you are the kind of person who practically shares their whole life with others. Before you spill, really think whether this person is trustworthy.

Gemini
May 21 - June 20
Forget YOLO, and instead go by the classic, “A penny saved is a penny earned.” Money is already a “must” in the world and is perhaps an even larger one in the college world. Rather than spending your money on things you know you won’t need, save your money for a bigger purchase — one that will actually benefit you.

Cancer
June 21 - July 22
You will be surprised at how one little change to your appearance could make an impact on others. This subtle change will not only have you feeling better, but it shows others what you’re capable of.

Leo
July 23 - August 22
These past weeks have been leaving you wanting to be taken seriously. With that said, let others see the more capable, authoritative side of your personality. Be careful not to lose your aura of humor in the process. You can still be in charge without being known as “bossy boots.”

Virgo
August 23 - September 22
This week you will feel as though you have more energy than usual. It may even prompt you to get a head start on some tough work that you’ve been putting off. Take advantage of this muse and get that hard work out of the way.

Libra
September 23 - October 22
Real friends are those who tell you what you need to hear, not what you want to hear. Although flattery may be an ego-booster, always ask your most honest friends and relatives for their feedback. Their critiques will only serve to make your work stronger.

Scorpio
October 23 - November 21
Although your judgments on some things are spot-on, it can be very easy to come off as imposing or arrogant. Step into another’s shoes before you condemn them for a misstep. You might be shaky on your feet if you had to walk that path yourself.

Sagittarius
November 22 - December 21
A little encouragement goes a long way today. It’s time to drop the macho man act and feel the love. Believe it or not, the smallest kind gesture, such as opening the door for someone or giving advice could make one’s day.

Capricorn
December 22 - January 19
You don’t have to win everyone over in order to consolidate your status in a group. There will always be those who love and those who hate. Instead, devote your time to those you feel the strongest connection with. Show them some love today and your buzz will quickly spread like wildfire to others.

Aquarius
January 20 - February 18
These past weeks, you have come to the realization that you are working harder but not smarter. While it may be great to plan your goals for the future, remember that you are still in the present. When you stop reaching for something that’s too far, that’s when you will discover something great that has been in front of you all along.

Pisces
February 19 - March 20
When it comes to being noticed, it is always the squeaky wheel that gets the grease. Having said that, you might have to throw a small fit to get your point across and to show just how important the issue really is. Be shrewd when using this approach, you don’t want to gain a bad rep as a cry baby.

Opinion

You Know What Grinds My Metal Gears?

Mary Montiello
Freshman
Fashion Studies

I really don’t think that gun violence has anything to do with video games. I think people should just know better. I don’t think they need to be banned.

Casey Coleman
Junior
Broadcasting

I don’t think violent video games should be banned. I think more education on the repercussions of violent behavior should be brought up, but I don’t think violent video games necessarily warrant violent behavior.

Arturo Rodriguez
Junior
English Education

I don’t think that video games should be banned. I think that it’s just how people choose to live their lives. Of course, it’s something psychological that goes on with them that leads to violent acts. So, this is happening in the world, and here’s the video game of it, but educate yourselves to the point of what’s real and what’s not.

Angela Castillo
Sophomore
Psychology

I don’t think you should because games don’t make people violent. Clearly, it’s something psychological that goes on with them that leads to violent acts. So, this is happening in the world.

George Jordan
Senior
Accounting

I feel that they should be [viewed in public places] because it’s up to the parents discretion whether they want their children growing up playing violent video games. I know that growing up as a kid, that wasn’t my parents’ first option as a game choice for me. As I got older, I made my own decisions. I was able to go and purchase my own violent video games if I had chosen them. (Golf of War is a great game. I think the guidance of parents and even society should give people the right mind of not being affected mentally by these video games.)

There seems to be some flawed logic in the ban because there is no substantive evidence that there is an increased chance in violence if children are exposed to violent video games. She is presenting a ban on something with no factual back up on the matter. Plus, we have the right to have and play video games out in public. There isn’t anything in her jurisdiction she can do. What will happen next? Will police officers strip-search people for 3DPS or PS5? It’s another obscure ban that shouldn’t be passed.

Most of us here are 18 or older and are allowed to purchase any violent video games we’d like. The ban will be restricting our rights. Even if it’s over something that might seem ridiculous or juvenile, it is still a violation of our simple rights. That’s like putting restrictions on 21-year-olds that are allowed to pur chase and consume alcohol. There will be another obscure ban that shouldn’t be passed.

There are many ways minors can obtain alcohol. There will always be a way around the law. Implementing a ban is just going to increase the purchasing of violent video games through illegal matters. This is coming from people who enjoy playing video games. People will do just about anything to obtain their favorite titles.

In the defense of arcade games, many of them aren’t as graphic as console games. Would you rather monitor a child in public while playing a less-graphic video game or in the privacy of their rooms and playing something graphic in high definition? The video games that are attempting to be banned are about as harmless as a Tony and Derry cartoon. Although violent, the violence displayed isn’t very graphic.

Honestly, the state should just mind their business on such a trivial matter. There are plenty of other improvements that our great state could have, and we’re not talking about the soda ban, either. Let parents decide what their children should be playing. It isn’t the state’s job to rear children.

Regardless of the law, parents will ultimately decide what games they will allow their children to play and will make the choice to buy an inappropri ate video game. Though we cannot speak on behalf of everyone, we believe that we should have the right to play video games when we want.

A lot of adults and children alike enjoy video games. It is for a way for them to relax and let out their frustration. It’s better for them to take their aggravation out while playing a video game than bringing someone, aren’t it? Give me video games or give me death.

The donation came from long time art collector, Nicholas Kristof, America's best and most re- cently revealed female Pulitzer Prize Winner, who donated his entire collection of a cubist collection worth one billion dollars to the Metropolitan Museum of Art.

Nicholas Kristof, Amer- ica's best and most recently revealed female Pulitzer Prize Winner, donated his entire collection of a cubist collection worth one billion dollars to the Metropolitan Museum of Art.

The donation is a blow to the WBC, who also have been collecting cubist art for decades, purchasing from a sort of hands on education to the group's obviously flawed art critics. It is such a massive group of works that just the number of paintings is impressive. But there are also many paintings that stand out as historically significant. In the group is also the first cubist piece shown in Italy.

This is a collection that Lauder has been following for much of his life, but he hadn't known until now that it worked back to the public view, which is where they belong. Lauder's emotional reaction to the loss of the collection is pivotal to unders- tanding the circumstances of the woman, which included that which once be- longed to Gertrude Stein.

The collection comes complete with 78 paintings, and two sculptures, as well as the first paper collage Braque ever showed. It is such a massive group of works that just the number of paintings is impressive. But there are also many paintings that stand out as historically significant. The episode depicts the show’s worst night ever. A gleeful group hug. A new pair of shoes on a rainy day. “This game is tighter than a gas tank.” “The look while giving a power ful performance.”

The Montclarion • April 18, 2013 • themontclarion.org

While the supporting cast of Christopher Meloni, Brett Cul lard and the aforementioned Alan Tudyk were all impres sive, no performance stood closer than Scrubs’ John C. McGinley as the Dodgers’ ra dio commentator, Red Barber. The moments involving his analytic style of play-by-play (“This game is tighter than a new pair of shoes on a rainy day”) were welcome comic re lief from what was otherwise a cultural sermon.

The only real issue here is its predictability. Not many viewers were angered by the fact that the person respons ible for the scare was the mentally handicapped charac ter. Social networking sites ex plored as viewers voiced their opinions, posting things such as, “Did the most politically correct show ever just make the Down-syndrome kid bring a gun to school?” and “Not only did Glee make a joke out of school shootings, but they made the girl with Down-syndrome responsible, unreal.”

Glee’s co-creator, Ryan Mur phy, has remained silent thus far. Shortly before the airing of the episode, he expressed how excited he was about it and how proud he was of his cast and crew. He called the episode “the most powerful and emotional Glee yet.”

It is speculated that all this hype and controversy regard ing the episode was fully expected, even welcomed by the covener, Brandon Murphy. Brandon Murphy is a serious supporter of Obama, even hosting a fundraiser for him last year, so it is no sur prise that he would support the gun control bill. Perhaps he was hoping to help as the Senate voted to move the bill and wanted to shake things up a bit with his provocative episode.

Again, it’s all speculation, but for now, Glee will certain ly be lying low and treating lightly.
The Flaming Lips' recent performance on The Late Show with David Letterman is in support for their new album, The Terror, which is always something/Some kind of die drama, as well as for the director, Derek Cianfrance.

It's safe to say that with The Terror, the Flaming Lips are now deep within the third phase of their careers. Throughout the 1980s and half of the 1990s, they were acid-fried noise punks. From 1997 to 2006, we saw them crafting heavenly psychedelic pop masterworks. Now, with Embryonic and The Terror, they're exploring the more sin-ister and splashy chores of psychedelic music. Back in 1999, Coyne would sing lines like “Love is the greatest thing a heart can know” without a trace of irony. Today, he's re- placed those romantic sen-
timents with chants like “Love is always something/Some thing you should fear.”

However, rumor has it that their next album is going to be a collaboration with Kehlani, so you can't really pin these guys down for too long.

This Week In Music

2008 marked the beginning of a new shift in the film industry. Kathryn Bigelow, the first female director to win an Oscar for Best Picture, astonished the Academy Awards from a male-dominated post. Since then, female film directors have been on the rise. Our own campus boasts strong up-and-coming contenders in the film industry, including Kristi Dake, a senior filmmaker in her last semester at Montclair State. Dake just finished filming her senior thesis, *Thick Heart*, and is now in post-production.

I had the opportunity to sit down with Dake and speak with her about her film. Dake’s film is currently in its kickstarter phase. This phase helps filmmakers fund their films and incorporates donations from supporters. There is no minimum donation and every little bit helps. By donating money to these films, you are becoming a part of the film itself. Aside from the benefits of donating to a project, you will receive prizes for the $25 and $50 mark (DVD and T-shirt, respectively). The goal for *Thick Heart* is $3,000. They are currently at $1,240 and the deadline is only a week away. If the kick start does not reach its goal, then all of the funding is void. Film production is not free, and Dake’s film has the rare ability to achieve resonance for our generation.

*Thick Heart* centers on the role of online dating for young adults and the struggle of the feminine body image. The film’s lead actress, Adrienne Lovette, has also starred alongside Naomi Watts and Matt Dillon. Lovette’s other film, *Sucklight Jr.*, will be playing the Tribeca Film Festival circuit in upcoming weeks. When asked about casting decisions, Dake told me it was a tough decision but Lovette really captured her attention. Lovette is a plus-size actress that plays the role of a woman with no self-confidence. Dake’s decision to structure the narrative around body image was a personal choice. She has always wanted to explore these issues when creating her thesis.

She believes that “body image needs to be addressed.” “Even though *Thick Heart* is a comedy, we laugh at the film because we find truth in it. If it was strictly a drama, the point wouldn’t have come across as well. People will remember it because they laughed and enjoyed the film.” Dake thought that online dating was a poignant issue for the film. She reminded me that 40 percent of people have online dating profiles.

When asked, Dake shared with me that she did create an online dating profile for research. She wanted to know if her script was following realistic dating practices. As it turned out, her script sort of hit the mark. Dake’s next step is to begin writing a new script during the summer with her assistant director, Gina LaPinto.

Keep your eyes peeled for Kristi Dake’s name in upcoming titles. Be a part of something and donate to *Thick Heart*’s kickstarter. Dake’s next step is to begin writing a new script during the summer with her assistant director, Gina LaPinto.

Playoff Push Comes Down to the Wire

Corey Aron
Sports Writer

Basketball has to be one of the most physically grueling sports, game in and game out. It’s seldom that a player does not suffer some type of injury throughout the grueling 82-game schedule. If you haven’t already heard, Kobe Bryant went down with a torn left Achilles tendon. This couldn’t have come at a worse time, because if the Los Angeles Lakers lose their last game of the season and the Utah Jazz win theirs, they might not make the playoffs.

They are especially in danger of losing because that game is against the Houston Rockets, who have a better chance of securing their spot in the playoffs.

The Rockets are currently the 7th seed in the West and would fare much better against the 2nd-seeded San Antonio Spurs than potentially dropping to the 8th seed and having to face Kevin Durant’s Oklahoma City Thunder.

Additionally, the Rockets lead the league in points per game, with an average 106. The Jazz have an easier task on their hands because they might not make the playoffs.

Rondo, they have no business beating the Knicks this time around.

Despite Anthony en\*\*\* during these nagging injuries, he was able to not only lead the NBA in scoring but carried the New York Knicks towards their best season in 16 years with a 2nd seed in the Eastern Conference.

He assured the media that in regard to his shoulder, “It’s sore, just from the contact. I’ll be fine. It’s nothing for me to worry about,” Anthony said in the New York Post. The Knicks also received a major spark with the potential Sixth Man of the Year in J.R. Smith.

Despite Anthony en\*\*\* during these nagging injuries, he was able to not only lead the NBA in scoring but carried the New York Knicks towards their best season in 16 years with a 2nd seed in the Eastern Conference.

He assured the media that in regard to his shoulder, “It’s sore, just from the contact. I’ll be fine. It’s nothing for me to worry about,” Anthony said in the New York Post. The Knicks also received a major spark with the potential Sixth Man of the Year in J.R. Smith.

Smith isn’t afraid to put up a shot at literally any point during the game. With the likes of him and Carmelo, the Knicks made more three-point shots than any team in sports history, tracking all the way back to the three-point line’s debut in the 1979-80 season.

They will take on their rival, the 7th-seeded Boston Celtics. If you’re a Knicks fan, this is the matchup that you have been waiting for. The Celts have been a .500 team all season, and without Rajon Rondo, they have no business beating the Knicks this time around.

The Brooklyn Nets’ new home at the Barclays Center has translated into their first playoff appearance since 2006. Their season started off predominantly healthy.

Despite racking up 54 wins, they may be forced to go toe-to-toe against the Thunder in the second round, assuming that they first beat Memphis.

The Thunder seems to be every team’s kryptonite, but the only team that can really stop them would be the Miami Heat. It’d be boring to say that this year’s finals will once again host the Heat and the Thunder, but it’s too difficult to predict otherwise, especially when both teams are predominantly healthy.

However, I’m going to regretfully go out on a limb and say that the Knicks and Clippers will somehow meet up in this year’s finals. I wouldn’t mind seeing Billy Crystal and Spike Lee jabbering at each other while seeing other celebrities at courtside supporting these two teams. If this does end up happening, all will be well in my life.
Red Hawks Rout Monmouth
MSU scores 20 in doubleheader

On April 14 at Yogi Berra Stadium, Campus Rec- rodation Center on campus. Regarding the scores, the team had an overall positive outlook regarding how they played.

On April 15, Montclair State suffered its third straight loss and is now 11-11-1 on the season. The team ontook the Ramapo College Roadrunners at Yogi Berra Stadium. It was a close game that saw extra innings, but the Roadrunners could only come up on top for the victory.

The team isn't as important as the overall goals of the team, which is why I think we are doing as well. I think that our coaches are the key reason for that success.”

When asked what his most memorable moment of the game was, he said it was the fourth inning in Game two. “We pretty much closed up the game by scoring nine runs that inning, and that was just such a great feeling.”

Red Hawks Lose Three Straight

On April 14, the Montclari State Red Hawks traveled to Mahwah to take on the Ramapo College Roadrunners. The game ended up going into the ninth inning for darkness.

In the ninth inning, both teams had chances to end it, but neither team could get a runner across home plate. Jonathan Torell pitched 7 1/3 innings for MSU, allowing four runs (two earned) and nine hits. The lefty struck out seven and walked one.

On April 15, the Red Hawks were swept in a New Jersey series that featured a conference doubleheader against the Richard Stockton College Ospreys.

The third game was 6-3 and 7-4. In the first game, the Red Hawks saw them- selves all the way into the third inning on a RBI double by Stephen Nappe and a sacrifice fly by Anderson Brasile. “As long as we continue playing and look forward, I think we can handle them.”

Brasile had a double play during one of the games to close out an especially im- pressive inning, absolving the error that he had in the prior play. As one of the key play- ers and hitters for the team, Brasile said, “We are meshing better. We practice a lot more because people are starting to show up consistently. There’s a lot of passion among us.”

On April 14, the Red Hawks lost the second game, 2-0 against Hofstra. The top team out of the two, said

Richard Stockton scored a sacrifice fly by Anderson a double by Stephen Nappe and into the third inning on a RBI.

The final scores were 19-0 and 14-6, respectively.

MSU would score two runs in the ninth, and that was all the team could get as they suffered a 10-7 loss.

Montclair fought in the bottom of the ninth, scoring a runner, but that’s all they could get as they suffered a 10-8 loss.

Top-Ranked Red Hawks Stay Perfect

The Montclair State Lady Red Hawks have kept their winning streak alive this season by raising their record to 28-0 overall and 12-0 in the New Jersey Athletic Conference (NJAC).

MSU is still ranked #1 nationally in NCAA Division III by the National Fastpitch Coaches Association (NFCA). Their win streak was in jeopardy this week as they faced a very tough team in The College of New Jersey (TCNJ), who were ranked 23rd nationally at the time.

On April 13, the Montclair State Red Hawks welcomed the TCNJ Lady Lions to Montclair for a two-game series. The first game featured many thrilling moments as the Lady Red Hawks pulled out the win by a score of 2-1 in nine innings.

Junior pitcher Alex Hill earned the victory, pitching a complete game by giving up one run on eight hits while allowing only three hits. Hill’s two innings of scoreless relief preserved the Lady Red Hawks’ 2-0 lead and put them on top for good. Paulino, Petrucelli and Allegretta all notched an RBI for MSU. Paulino, Petrucelli and Allegretta all notched an RBI for the Lady Red Hawks in the second game, as her first inning-two-run blast gave MSU the lead and put them on top for good. Paulino, Petrucelli and Allegretta all notched an RBI in the game for Montclair State.

Junior pitcher Alex Hill won her fifth NJAC Pitcher of the Week Award. Hill’s record currently sits at 22-0 and leads the NJAC in Earned Run Average (0.16). Opposing Batters Average (1.10), strikeouts (210), walks (22) and saves (3). Just this past week, Hill went over 700 career strikeouts and earned her 70th career victory.

The Lady Red Hawks’ home doubleheader on April 17 against Centenary College will be available next week. On April 20, Montclair State heads to the Delta University Lady Bulldogs. The first of the two matches starts at 1 p.m. and the second game will begin at roughly 3:30 p.m.
