Bells on a Hill: MSU Hosts Wedding

On Oct. 26, the University of Web Services, Cindy Killian-Meneghin, after 40 years, was finally able to legally wed her partner Maureen Kilian as Montclair State hosted its first same-sex marriage. N.J. became the 14th state to legalize same-sex marriage.

A senior leader of the Muslim Brother- hood, Essam el-Erian, was arrested early on Monday evening. The suspects are be- lieved to be involved with a deadly crash when someone drove an SUV into a crowd of people, killing five and injuring 40, ac- cording to CNN.

Tensions settled in the Middle East as Israel released 26 Palestinian prisoners from custody Wednesday morning. This act marks a developing treaty between the two countries.

Oscar Pistorius will face two additional charges related to gun possession and misuse, according to CNN. Pistorius is already being charged with murder. His trial will begin next year.

During a visit to Slovakia on Tuesday, French President Francois Hollande an- nounced that four French hostages were released from custody in Niger. The hos- tags have been held since 2010. French officials are set to bring the hostages back home, according to CNN.

Beijing police arrested five suspects on Monday evening. The suspects are be- lieved to be involved with a deadly crash when someone drove an SUV into a crowd of people, killing five and injuring 40, ac- cording to CNN.

The Plight of Women in the Workplace

How one woman navigated the political minefield in Pakistan

Dr. Saeed explained the myths that had engulfed the issue, such as "it is always the woman’s fault;" "good women always say no;" "too much yea," or "it’s in men’s nature," abound in common misperceptions about sexual harassment. "I realized every woman in the office was experiencing the same thing. It is silence that really protects these guys. We went there for years but we didn’t talk to each other," Saeed said.

"Women had been repeatedly refused," Saeed said. "I’ve experienced sexual harassment," Saeed explained. "You have to change your tactics and adapt, saying, ‘You have no choice because I’m the female stakeholder. That is how you think differently with every man."

Working in the United Nations, Saeed said she was essentially torn between leaving a job she loved to preserve her dignity or stay and subject herself to further harassment. "There was no policy or forum through which to complain. Sexual harassment complaints were met with perfect indifference. Even her employer said that Pakistani women had endured much worse and they shouldn’t be thankful. Sexual harassment complaints weren’t unique to Saeed. Out of 100 United Nations employees Saeed worked with, 50 of them were women, all of whom felt harassed."

Saeed’s mother told her to get laws passed in the government that would make legislators, employers and employees aware and sensitive to the issue of sexual harassment. At first, the government was resistant to approaches from Saeed and AASHA. They worked for 10 years in order to get laws passed in the government which would make legislators, employers and employees aware of the issue of sexual harassment.

The first issue of The Montclarion, then named The Pelican, was published on Nov. 28, 1928.

The Plight of Women In the Workplace

How one woman navigated the political minefield in Pakistan

Dr. Saeed explained the myths that had engulfed the issue, such as “it is always the woman’s fault;” “good women always say no;” “too much yea,” or “it’s in men’s nature,” abound in common misperceptions about sexual harassment. "I learned it was a mandatory part of the conversation for harassment wasn't even mentioned, but our patrons as well."

"Women had been repeatedly refused," Saeed said. "I’ve experienced sexual harassment," Saeed explained. "You have to change your tactics and adapt, saying, ‘You have no choice because I’m the female stakeholder. That is how you think differently with every man.’"

Working in the United Nations, Saeed said she was essentially torn between leaving a job she loved to preserve her dignity or stay and subject herself to further harassment. "There was no policy or forum through which to complain. Sexual harassment complaints were met with perfect indifference. Even her employer said that Pakistani women had endured much worse and they shouldn’t be thankful. Sexual harassment complaints weren’t unique to Saeed. Out of 100 United Nations employees Saeed worked with, 50 of them were women, all of whom felt harassed."

Saeed’s mother told her to get laws passed in the government that would make legislators, employers and employees aware and sensitive to the issue of sexual harassment. At first, the government was resistant to approaches from Saeed and AASHA. They worked for 10 years in order to get laws passed in the government which would make legislators, employers and employees aware of the issue of sexual harassment.

At first, the government was resistant to approaches from Saeed and AASHA. They claimed that the term “sexual harassment” was inappropriate. Saeed expressed the importance of being able to adopt, saying, “You have to change your tactics and think differently with every stakeholder. That is how you bring them on board.”

The two bills that were passed were the first bills since 1961 to address those types of concerns. Delaney added that women had been really pushed into the wall, leaving a job she loved to preserve her dignity or subject herself to further harassment. "There was no policy or forum through which to complain. Sexual harassment complaints were met with perfect indifference. Even her employer said that Pakistani women had endured much worse and they shouldn’t be thankful. Sexual harassment complaints weren’t unique to Saeed. Out of 100 United Nations employees Saeed worked with, 50 of them were women, all of whom felt harassed."

Saeed’s mother told her that it is her responsibility not to provoke the harassment. "I learned it was a mandatory part of the conversation for women always say no;” “too much yea,” or “it’s in men’s nature,” abound in common misperceptions about sexual harassment. "I learned it was a mandatory part of the conversation for harassment wasn’t even mentioned, but our patrons as well."

Continued from page 1

The idea of the modern Halloween began during the Celtic festival of Samhain, originally a harvest festival celebrating the end of summer and the beginning of winter. During this ancient festival, the Celts believed that the boundaries between the world of the living and the world of the dead became blurred, allowing spirits of the dead to wander into the world of the living. It was a time of celebration, festivities, and communal offerings. "Gazing" began offering. "Gazing" began.

The festival of Samhain was a time of conjecture and confrontation between the living and the dead. It was a time of agricultural and natural cycles, representing the cyclical nature of life and death. Samhain was a time of reflection and remembrance, a moment when the world was between time, life, and death. It was a time for communities to come together and celebrate the end of the harvest season, the coming of winter, and the beginning of a new cycle.

Today, the celebration of Samhain continues in various forms around the world, including Celtic myth and today's ideas of marriage equality. "To Cindy Killian-Meneghin, whose love has been an honor to be present.

Continued from page 1

The contents of the bill

The bill was drafted by Frank DiGulis, a student who supports various communities and was proposed by Leah Shime, the SGA’s Director of Equity and Diversity.

Before being presented to legislation, Student Government Association representatives emailed the various religious organizations on campus in order to notify them about the bill. There was no opposition to the legislation, with the exception of one organization, the Christian Center. Class I organization made it clear to President Geraldine R. Griggs that they support the public that they are upset with the endorsement. Their local organization is based in the United States, on their website. They feel that social change is needed on one side of a controversial issue, mainly the issue of marriage. It is defined in marriage. Originally, Stone had members of the SGA express the importance of the bill and as a direct result, we have the need for all groups on campus to come together and discuss the different religious organizations together over the critical issue.

When one thinks of velvet, retro leisure suits and medieval dresses may come to mind. However, this fabric has undergone transformations that are unimaginable.

Traditionally, velvet is a fabric that represents nobility. It expresses strength, wealth and taste.

With a past that dates back to 2000 B.C., velvet was introduced in Egypt, robing the most powerful royals. As a staple piece during the medieval era that was carried into the Renaissance, velvet is a fabric with great history. Not only was this luxurious textile used during the most influential time periods, it has also become a very important fabric in today’s fashion.

Making its way into couture, velvet is now a textile often found on the runway. Many designers incorporate this fabric into their ready-to-wear and couture collections.

Last spring, velvet was seen strutting its stuff down the runway as a part of many famous designers’ garments. To highlight specific pieces, Valentino featured a beautiful velvet skirt and Fendi featured a red velvet-detailed strappy sandal.

In the colder months of 2012 and 2013, velvet was an obvious staple piece in the wardrobes of many fashion lovers. Seen on pants, skirts, tops, shoes and even jackets, this fabric took the industry by storm. Proving itself as an awesome fall trend, velvet is back for this season and is here to stay.

Want to rock the velvet trend? Start by choosing your price range. An abundance of retailers at different price points sell velvet pieces.

Companies such as H&M and Forever 21 feature fun velvet garments at affordable prices. If you are looking for something more classical, large department stores and designer boutiques feature velvet designs, but come at a more expensive price.

The garment you choose will differ depending on your signature style. From tops and pants to shoes and jackets, velvet has been incorporated into possibly every area of fashion.

Online retailer ASOS carries an abundance of velvet dress. The photo above features the Velvet Skater Dress with mesh inserts by New Look. This skater skirt is perfect for a girl’s night on the town. Add a cool pair of stockings, some black booties and a statement necklace to complete the look.

Online and in-store retailer Belk carries the 1826 Velvet Blazer in a variety of colors. Perfect to dress up or dress down, this blazer can be matched with a pair of trousers or jeans.

The Black Velvet Oxfords by Alberto Moretti Arfango can be found at Lyst.com. This pair features a lace-up detail, which adds a sophisticated feel to any outfit.

Online retailer Topshop features the Crushed Velvet Skater Skirt. This trending piece with a darker colored top, black sheer stockings and a pair of fun booties.

The velvet trend is not limited to women’s wear. It is all the rage in menswear as well. Favorites this fall within menswear include blazers, trousers and dress shoes.

Being in the midst of the fall season, it’s clear which pieces are the most popular in women’s wear. These favorites include the following: velvet skater skirts, dresses, combat boots and blazers.
It happens to children, teens, parents and yes, even college kids, no matter what age you are. Endless varieties of candies are always around to tempt you during the Halloween season. Let’s face it, if candy is your sweet of choice, sometimes the healthier option is to indulge in just a little rather than deprive yourself. Unfortunately, it can be hard to decipher the bad from the better, and sometimes, the treats that we would assume are the better choices could be the worst.

**Chocolate Covered Raisins, Nuts and Pretzels**

Covering an originally healthy or decent product with chocolate does not mean that it is still good for you. Chocolate-covered dried fruits often contain more sugar per serving than a candy bar. Covering nuts in chocolate is pretty much how many name-brand candy bars start, and coating a pretzel in chocolate just gives you a pretty salty candy. Moderation is still very important, and covering them in chocolate may not be the best idea for regular consumption.

A common assumption is that this fruity candy is void of fat, but those tiny bites are actually 17 percent fat, not to mention each Starburst contains the equivalent of one teaspoon of sugar. When it comes to the “fun size” packs, Skittles are a better choice than the two normal Reese’s cups in one. Yes, it is much more fun, and it even seems to taste better than the original peanut butter cup. However, at 170 calories, 10 grams of fat (four of which are saturated) and 10 grams of sugar, it might be a better idea to split one with a friend. My favorite treat every once in a while is Justin’s Dark Chocolate Peanut Butter Cup. With a unique texture, all organic ingredients and the benefits of dark chocolate, it is a treat that I can feel better about.

**Starburst Disguised by Their size**

Covering an originally healthy or decent product with chocolate does not mean that it is still good for you. Chocolate-covered dried fruits often contain more sugar per serving than a candy bar. Covering nuts in chocolate is pretty much how many name-brand candy bars start, and coating a pretzel in chocolate just gives you a pretty salty candy. Moderation is still very important, and covering them in chocolate may not be the best idea for regular consumption.

**Sweet Potatoes, Pumpkin and Winter Squash**

All winter squash varieties and sweet potatoes contain the perfect combination of vitamin A, fiber and calcium. The main difference is that the skin of sweet potatoes should be consumed for greater nutritional benefits while the pumpkin and squash skin is not edible. Not sure of what to do with the pumpkin? Roast it in the oven, add it to soups and add it to baked goods. Acorn, butternut and spaghetti squash are just a few types of squash that you can find in your grocery store. Sweet potatoes also make great potato-chip crisps.

**Chia Seeds**

Chia seeds range in color, but black chias are the most common and are packed with fiber, magnesium, potassium, calcium and omega-3 fatty acids. These nutritional powerhouses can be added to baked goods, cereals, yogurt, smoothies and salads. Chia seeds can also serve as an egg replacement by making one tablespoon chia seeds with three tablespoons water for about 10-20 minutes or until a gel-like consistency is formed.

**Black Rice**

This ancient whole grain has a nuttier flavor and a chewier texture than your typical white or brown rice, making it a versatile starting point for any side dish. One tablespoon of dry, black rice contains just as many cancer-fighting antioxidants, known as anthocyanins, as a tablespoon of blueberries.

The ACP/CMA National College Media Convention is held every year in a different part of the country. This year, the senior editors and executive board of *The Montclarion* had the opportunity to spend the convention directly in the heart of the French Quarter in New Orleans, La.

For four days, the editors attended sessions ranging from simple page design tips to advice on managing an entire staff and social media. After the sessions, they took in the sights and sounds of the French Quarter, touring places like the famous Cafe Du Monde, Bourbon Street and Jackson Square. The editors also called in to WMSC 90.3 on Friday, Oct. 25 to discuss the trip thus far with David Heale on his radio show.

The trip was a great opportunity for the editors and the paper as a whole. "Going to New Orleans was a once in a lifetime opportunity for both the newspaper and the staff. The sessions were informative and gave us great tips for our futures and for making the paper better. The food and the culture were definitely my favorite aspects of the trip. There’s a sense of pride and unity down there, especially after Katrina, that you wouldn’t find anywhere else.

-Jessica Czarnogursky
Editor-in-Chief

The trip was a great opportunity for the editors and the paper as a whole. "Going to New Orleans was a once in a lifetime opportunity for both the newspaper and the staff. Editor-in-Chief

"This trip was perfect in so many ways. The convention was awesome and the setting was more than perfect. I couldn’t have asked for a better group of people to go with, either. The convention was just a great way to compare our paper to others across the country and learn so much from a city rich in amazing culture."

--Catherine Baxter, Managing Editor

"On the way back to the airport, the driver asked us in Louisiana drawl if we had enjoyed the city. I said it was beautiful. But that doesn’t do my feelings any justice. I went there hoping to learn the power of words. I left knowing how fraily they truly are.

-Stephanie Agudelo, Staff Writer

"Having the opportunity to learn from professional journalists while experiencing a completely new culture in a city like New Orleans was more than I could ever ask for. I learned as much from the convention and even more from our surroundings.

-Stephanie Agudelo
Feature Editor

"From 35 flights up to the alleys near Jackson Park, New Orleans and the College Media Convention showed me that the human spirit remains resilient despite every obstacle placed in the path.

-Jonathan Molina
Entertainment Editor

Both the convention and the city of New Orleans were beyond anything I could have imagined. When I was learning about how to improve as a writer, I was learning about one of the richest cultures in the country.

--Nick Verhagen, Sports Editor

"Myth 1: Sport drinks are good after workouts.

Sport drinks aren’t really good for you unless you are doing extraneous exercise and working out for long periods at a time. These drinks are full of sugar and have a lot of extra calories. Instead of doing the body good after a workout, it is just adding the calories back on.

**Myth 2: Protein bars and shakes are top nutrition foods.**

They are not the best nutritious snacks out there. Though they are good sources of protein, with as much as 32 grams in a bar, they are also loaded with fats of calories and sugar. Most shakes and protein bars are similar to candy bars and are not as healthy as they sound. It would be a better bet if you get your protein source from natural foods.

"Myth 3: Women should not lift weights.

Women should lift weights. Many believe that women that lift weights become bulky or big. However, that is not true, as lifting weights helps burn fat and tones your muscles. They also help keep your body from wearing out. It is important to lift weights because it helps the muscles become stronger, even for women. Women should not be intimidated by weights.

"Myth 4: The scale is a sign of process.

Women should lift weights. Many believe that women that lift weights become bulky or big. However, that is not true, as lifting weights helps burn fat and tones your muscles. They also help keep your body from wearing out. It is important to lift weights because it helps the muscles become stronger, even for women. Women should not be intimidated by weights.

"Myth 5: Exercise allows me to skip out on dieting.

Just because you exercise does not mean you can slack off on your diet. In order to have a healthy lifestyle, you have to incorporate both exercise and a healthy diet. A healthy balance is what you want and might instead injure your body because you’re not taking care of yourself nutritionally. It is important that if you are working out and want to see good results, you should incorporate a healthy diet while still exercising regularly.

**CONGRATULATIONS CLASS OF 2014**

**SCHEDULE YOUR FREE SENIOR PORTRAIT SESSION!**

MSU’s OFFICIAL Yearbook and Senior Portrait Photographer will be on campus from November 4th through November 21st.

In addition to your yearbook and graduation portraits, Lors is happy to include professional portrait poses for job applications and social media outlets, like LinkedIn, as part of your Senior Portrait Session!

**SCHEDULE YOUR FREE APPOINTMENT ONLINE AT:** [www.lorsstudio.com/schedule](http://www.lorsstudio.com/schedule)
or use your smartphone to scan the QR code below

Please Note: Times and locations per day vary. Check the online schedule for the date and location convenient for you.

If you do not have access to a computer, you may call Customer Service at 908.964.3040.

Suggested Dress Code: Professional business attire. Your FREE Portrait Session will include Professional Profile Portraits and Yearbook Portraits, as well as Cap & Gowns provided by the studio.
Aries March 21 - April 19
“Why is life so hard?” you may ask, especially now as things keep piling up in your life. Although not much can be done to mitigate the circumstances, the best thing you can do for yourself is to suck it up and see where it goes from there. Keep in mind that the hardest things in life often bring the greatest rewards.

Taurus April 20 - May 20
You don’t feel well about being pushed into anything too hasty. Even in desperate times, you prefer to stick to your own ways of doing things. Being too stubborn, however, won’t always let you get your way. Getting new ideas from others can bring important life lessons.

Gemini May 21 - June 20
Perhaps every cloud does have a silver lining. As your troubles fade away little by little, you will learn to appreciate the things that you already have. Sure, you may not be truly as happy as you wanted to be, but then again, what is happiness? Why do we always assume that happiness is getting what we want?

Cancer June 21 - July 22
Others expect so much from you, but have they let them know what you expect from them lately? You’re great at what you do, but let’s face it, you’re no miracle worker. This is your time to be more assertive, and let others walk in your shoes for a day.

Leo July 23 - August 22
Why is everyone so concerned with the lives of others? That is something that you cannot wrap your head around. Worrying about other people won’t necessarily help you own situation, but may in fact worsen it from stress and anxiety. Let others behave as they please and just focus on your own things for now. Otherwise, you will be no different from them.

Virgo August 23 - September 22
There is no need to wave your white flag in defeat just because something is out of your reach or because of what others say about you. Even if it does not happen overnight, you still have a good chance of accomplishing your goals. Try to rework the weakest parts of your plans.

Libra September 23 - October 22
Although you truly want everyone to be happy, there is still need to be the bearer of bad news. Candor, however, may unfluid negativity on others without even realizing it. Be wary of how your thoughts can impact your plans throughout the day. Fortunately, you can overcome your own doubts if you acknowledge them first.

Scorpio October 23 - November 21
You think to yourself, how can some people be so perfect? Well, it turns out your wrong. No one is perfect. Everyone has their flaws. If we were all perfect, plastic surgeons would be out of business, we wouldn’t have wars, and we wouldn’t need education. So next time you see someone who is “perfect,” you may find that they lack something you already have.

Sagittarius November 22 - December 21
One of your closest relationships looks to have hit rock bottom, but don’t stress—it’s only temporary. There is a reason this significant other of yours is behaving in an unusual way, and it may turn out to help you. Just don’t confront them in such a hostile manner, as it can bring an end to something that could have been great.

Libra September 23 - October 22

Just don’t confront them in such a hostile manner, as it can bring an end to something that could have been great.

And now time for something different ...

SUDOKU!
Do you think that the SGA should vote on issues which do not directly affect campus life, such as the endorsement of marriage equality?

Frank Contreras Fine Arts Student Drawing Senior

“I want to take the middle ground on being gay, lesbian, bisexual, or homosexual. I do understand the LGBT aspect of it, since there are people who do not like same-sex relationships and the school and students against that idea. Sometimes I understand that they are hurtful people, but I think that they are just being turned. I think it’s important to understand the fact that there are people who are hurting others for their sexual orientation. The SGA needs to think that there are many issues that affect the whole school and don’t feel comfortable with.”

Not a Gay Ole’ Time at SGA

Christina Graham Fine Arts Student Drawing Senior

“I want to take the middle ground on being gay, lesbian, bisexual, or homosexual. I do understand the LGBT aspect of it, since there are people who do not like same-sex relationships and the school and students against that idea. Sometimes I understand that they are hurtful people, but I think that they are just being turned. I think it’s important to understand the fact that there are people who are hurting others for their sexual orientation. The SGA needs to think that there are many issues that affect the whole school and don’t feel comfortable with.”

Frank Contreras Fine Arts Student Drawing Senior

“I think it’s hard to say when an issue comes up. It depends because there are same-sex couples on campus right now. Maybe they don’t feel comfortable being together or with the SGA recent refusal to make a statement. I can’t understand [the SGA] not wanting to take a stance, even by not making a statement, they are still making a statement. By not making a statement, it’s ambiguous whether they support the issue or not. I think they could have at least made a generic statement, like, ‘The SGA is happy about the recent vote’.”
I think most of us agree. Primates know television. In their natural state, they have more social interactions than you or me. But this is not to say that primates know television directly. They may have developed the concept of television, and there may be a few instances where they actually watch television. However, the concept of television is still something that is not fully understood by primates. Therefore, the use of television in primates is still under research and study.

The concept of television is a complex one, and it is not fully understood by primates. It is believed that primates may have developed the concept of television, but it is not clear how they use television or what specific functions they have for television. The concept of television is still under research and study, and it is not clear if primates are able to fully understand the concept of television.

I agree with you on this point. TV is a powerful tool, and it has the potential to influence and shape our lives. However, it is important to be aware of the potential negative effects of TV, and to take steps to limit our exposure to it. This will help us to make the most of our time and to avoid the negative effects of TV.
This past Sunday marks the close of MSU’s production of Take Flight. The production had a successful two-week run in Memorial Auditorium. The hard work and dedication of the incredibly talented Theater and Dance Department, au-
diences were able to glance into the eloquent timeline of history of aerostatics. Under the direction of Mark Hnidy with music and words by Da-
vil Shire, Richard Maltby Jr., and John Woodsman, this spirited new musical tells three separate tales of some of America’s highest-
est flying figures: Amelia Earhart, Charles Lindbergh, and the Wright brothers.

This up-and-coming musical received its world premiere at London’s Me-
nier Chocolate Factory in 2007, followed by its national debut at Princ-
eton’s McCarter Theater in 2010.

The musical follows three parallel narratives of the Wright brothers’ quest for aerostatic dis-
coveries, Lindbergh’s flight across the Atlantic and Earhart’s ambitious and mysterious adventure to circumnavigate the globe, as well as her romance relationship with pub-
lisher George Putnam.

Each narrative has its own individual musical motif and style that embodies the characters and their stories. The first story follows the fail-
ures and successes of Or-
ville and Wilbur Wright (played by Paul and Peter Surace). The duo presents a revolving li-
dian dynamic combined with a refreshing, prickly sense of humor.

The journey of a young, bright-eyed Lindbergh (portrayed by Steve Ray-
mund) captures the elec-
tricity and restlessness of the future’s first aviator over the Atlantic. Of course, it wouldn’t really be a mus-
ical without a little ro-
mance. The adventure of Earhart, who regards her incredible feats in the air opposed to her low-
love affair with Putnam (played by Torren White and Christopher Cheni),

“…to be more than we are and more than what others think we should be. It explores why we have dreams and what drives us to defy logic and reality to go after them.”

— Kirk Geritano

“…translated the show from the tiny confines of Life Hall’s Room 125 into Memorial Audit-

orium: ‘We had some of the Wright brothers’ massive set pieces such as the eight-foot-high loft that we didn’t get to physically work with until the week-

end before the show.’”

— Kirk Geritano

According to Geritano, was translating the show from the tiny confines of Life Hall’s Room 125 into Memorial Audit-

orium: “We had some of the Wright brothers’ massive set pieces such as the eight-foot-high loft that we didn’t get to physically work with until the week-

end before the show.”

“This excitement from the creators of the show was well deserved and, with the amount of talent in the cast, not at all sur-
prising. Take Flight treat-
ed audiences to a soaring performance.”

— Kirk Geritano

Among the incredible talent in the cast, not at all surprising. Take Flight treated audiences to a soaring performance.

Three Bands, One Night

Isabel Hershkii
Contributing Writer

On Oct. 21, fans stood in line outside of Webster Hall, waiting in the cold to enter the Marlin Room. Scheduled on that evening’s line-up were the bands Great Caesar, A Great Big Pile of Leaves and Someone Still Loves You Boris Yelchin. Once these bands hit the stage, it was clear that the concertgoers were in for a night of pure musical talent.

The opener for the evening was Great Caesar, a band comprised of six men from Brooklyn, N.Y. The crowd seemed hesitant when they first began to play, unsure of how good this unexpected set would be. But within minutes of their set, it was clear that the word “great” was putting this band’s talent mildly. Armed with brass infusion and the smooth, sultry sounds of lead singer John-Michael Parker’s vocals, Great Caesar made it clear that their sound was individualized to only them and a force to be reckoned with. By the time they made it through the first few songs, the audience was dancing and weeping to the clear-cut, jazz-indie sounds this band produced. When they closed up their set with a cover of the late Amy Winehouse power song, “Valerie,” the crowd went wild, demand more. It was clear that this band, yet to be signed, was a treasure to the music industry.

Up next was A Great Big Pile of Leaves, a band also based out of Brooklyn. Signed by Topshelf Records, the four men have been creating indie rock music since 2007. Unlike Great Caesar, they had already amassed a relatively large following, and fans were eager for them to begin. Once they hit the stage, A Great Big Pile of Leaves began playing crowd favorites such as “We Don’t Need Our Heads” and “Great Fun.” Lead singer Pete Weiland had vocals identical to those he put out on the band’s most recent album. When asked about how they felt that their song was mine, Matt Sanchez. “It’s surreal.”

The band expressed how they all write and try to have an effect on people, as many as possible, whether it’s a radio, commercial or a live show. “We are just really excited to be getting our music out there.”

The band’s hit song, “Best Day of My Life,” is featured on multiple commercials and ads, not only in the United States but also overseas. “I’ve only seen it on YouTube, but to me, the most special thing is when we get calls from our family and friends who have seen it,” remarked Shol- ley. “As my dad will say, I am grateful. They are headed out for a tour that anyone would even try to deny them in the first place. As the venue began to clear, members of the band came down to interact with the audience, signing merchandise and taking photos. At the end of the night, people left raving. Overall, it was an absolute success as far as any concert could go. The only bad thing was said to be about the evening; the “post-concert depression” that would likely follow.
For many, this freaky film is more than just entertainment; it’s tradition. To this day, audiences attend midnight screenings of The Rocky Horror Picture Show to perform the entire story in front of a cinema screen. Clad in their finest most fabulous costumes, audiences of a Rocky Horror screening are encouraged to scream dialogues, throw strange items (such as toast) at the performers and sing along to their favorite songs.

This year’s tantalizing transvestite doctor was portrayed by Lorraine Petri, a senior Family and Child Studies major, who brought a refreshing, powerful feminine aura to the role usually played by a man. ‘The most challenging part would have to be the fact that I had to play a man who dresses as a woman,” admits Petri. “I had to step out of my comfort zone to embody this iconic character; sexually, mentally and physically. Also, it was great to portray such a different role than what I’m used to. I was one who typically enjoys taking on and overcoming challenges. This was very different for me. I had to think outside the box as far as how I was about myself when I do that.

‘The movie always held a special place in my heart,” said director Paul Rahter. “The reason for choosing Rocky as my directional debut was that four years ago, it was the MSU Players debut as well. Little freshman Paul was given the opportunity to play Dr. Scott under the direction of the wonderful Katzie Frazee. This year marked the 20th anniversary of the annual Players production, and Rahter had big ideas to celebrate it. “My vision for this year was to change sort of the perception that it’s only another Rocky Horror, meaning it doesn’t deserve the time and attention that a main stage show would require.” Rather set expectations for his performers high for the beginning and reported that they rose to the challenge beautifully. “It was like being a parent and watching your child grow and become a full-fledged adult. It was really cool to see my cast grow and become even better than they already were.’

#7. Rap God - Eminem (Last week - #5, Weeks on chart - 1 week)
#9. Applause - Lady Gaga (Last week - #8, First Week, Weeks on chart - 1 week)
#10. Blurred Lines - Robin Thicke feat. Pharrell and TI. (Last week - #9, Weeks on chart - 27 weeks)

The hilariously vulgar atmosphere of this show is electrifying. It’s sparked from actors to audience members alike. “Whether they brought props, shouted out the profane call-outs or both, everyone was truly engaged in what was happening on the stage,” says Petri. The spirited environment of this fantastical freak show creates a world yet infectious camaraderie that’s impossible to deny.

**Womens Soccer**

For the second straight year, Montclair State claimed the NCAA title with their knockout of Richard Stockton College on Saturday. Junior Melanie Greco, Senior Allison Wacker and sophomore Martina Landeck each had a goal in the game. The Red Hawks remain unbeaten through 16 games and look forward to the coming postseason as they host the NJAC Semi-finals this coming weekend.

---

**Mens Soccer**

History was made at Friday’s game against Ye- slShine as senior midfielder Dan Musoke scored his first career hat trick and became only the sixth soccer player in school history to reach 100 points, as Montclair shut out Yeshiva in a 6-0 victory. On Friday, the Red Hawks hosted Richard Stockton College and defeated them 4-2 in a hard-fought victory.

---

**Field Hockey**

Quarterback Ryan Davies had a spectacular outing against the Morrisville State Mustangs this past Saturday. After throwing a 78 and a 50 yard touchdown pass, he ran in another touchdown to lead the Red Hawks to a 34-21 victory. Freshman running back Daniel Nieves also had a big day rushing for 167 yards and a touchdown of his own.

Field Hockey Wins Six Straight

Montclair State had two difficult games this week, only to come away with hard-fought wins in both. MSU is now 16-1 overall and 4-1 in the New Jersey Athletic Conference (NJAC).

Offensive Player of the Year: Steph Lacy. The 230-pound former running back has been a “beast” for a reason, as last season he broke Jerry Rice’s single-season record for receiving yards.

Montclair State had started, former NFL running back and ESPN analyst Jerome Bettis predicted Montclair State would host replicates of his style of “the bus.” However, the true bruising running back has been Green Bay Packers Eddie Lacy. The 230-pound former Crimson Tide has averaged just shy of 100 yards in his last four games.

Coast of the Year: Mike Panepinto

Before the season had started, former NFL running back and ESPN analyst Jerome Bettis predicted Montclair State would host replicates of his style of “the bus.” However, the true bruising running back has been Green Bay Packers Eddie Lacy. The 230-pound former Crimson Tide has averaged just shy of 100 yards in his last four games.

Comeback Player of the Year: Alex Smith

Last year, the New Orleans Saints clearly suffered a lack of direction during Sean Payton’s suspension. “When you’re away with eight months of no contact, you appreciate the people you work with,” said Payton when interviewed by Jon Gruden. Gruden has mentioned that Payton might be the best in-game caller.

Defensive Rookie of the Year: Kiko Alonso

They call him “Mega-Broncos” for a reason, as last season Mathis will go down as one of the NFL’s most prolific pass-rushers.

V.P. Punt-Moving: Manning is a god amongst men. The old has made the phrase “age like fine wine” an understatement. He is on his way to breaking Tom Brady’s record of 50 touchdowns in a season while also being on pace to eclipse Drew Brees’ 5,476 passing yards, set in 2011.

Defensive Rookie of the Year: Mike Panepinto

While 31 points conference game (Results next week).

Fantasy Player of the Year: Corey Aron

Junior Sierra Rauchbach clears the ball out of the Red Hawk zone as the opposing Montclair State won the nail-biter 3-2. MSU started the scoring 13 minutes in when freshman forward Gianna Moglino, who notched a goal. Half at the 54th minute when Tafro converted scoring 13 minutes in when she found freshman forward/midfielder Arielle Galgano, who matched a goal. Scrumton scored twice to make it close, but they were not able to find the final needed to it.

On Oct. 26, Montclair State traveled to Smith’s for a matchup with the Rich- mond. The game was won 3-3. Moglino kept her hot streak going by scoring a goal in the 20th minute to give the Red Hawks an early 1-0 lead.

The rest of the first half was highly contested and featured no scoring. Montclair State struck first in the second half at the 54th minute when Tafro blasted a shot into the back of the net off of an assist from junior defender Emily Burd.

Just a minute later, Scrumton retaliated with a tally of their own to make the score 1-1. However, Moglino sealed the game for MSU by scoring in the 57th minute. The assist was credited to senior midfielder Brooke Hullings, who put a pass into the center, which Moglino converted into a goal.

The Red Hawks have played a tough non-conference schedule thus far. Explaining why their out-of-league sched- ule is so tough, Rauchbach said, “It shows the competition we will see in the NCAAs. The schedule helps us prepare for difficult games in the future.”

Moglino was named as NJAC Field Hockey Rookie of the Week for the second time this year. Moglino has a direct hand in four of the Red Hawks’ six scores this past week.

She is seventh in the conference with 31 points scored and fifth in goals with 13. Moglino has scored four game-winners, which ranks second in the NJAC.

MSU has already clinched a spot in the NJAC Tournament. They would very much like to return to the NCAA Division III Field Hock- ey Championship Game.

“It was a great learning experience and it helped us realize what it takes to win big games late in the season,” and head coach Beth Gottung regarding the team’s learning experience in the playoffs last season.

Montclair State wraps up their regular season sched- ule this week with two games. On Tuesday, Oct. 29, MSU traveled to Union to take on Kansas City Chiefs quarterback Alex Smith to deal with the demoralization on being benched in spite of leading his former San Frans’ 49ers 42-10 win to a winning record. Smith may not be ideal in terms of fantasy football but he has been “Mr. Efficient” in leaving the best record as a quarterback over the last three seasons, standing at 17-5-1.
Applications now being accepted for the 2014-2015 Montclair-Graz Sister City Scholarship

**Montclair-Graz Sister City Scholarship Information Sessions**

Tuesday, November 5th at 10:00am, Cohen Lounge, Dickson Hall
Friday, November 15th at 2:00pm, Cohen Lounge, Dickson Hall

**Application Deadline:** December 5th, 2013

Graz, Austria is a Sister-City with Montclair, NJ. The two cities have nurtured this relationship over the past sixty years. The Montclair-Graz Scholarship is a student exchange program between the city of Montclair/Montclair State University and the city of Graz. The program includes a **FULL SCHOLARSHIP** funded by Montclair State University, Montclair’s Overseas Neighbors and the City of Graz and provides **free tuition, fees, room and stipend**. It currently offers two MSU undergraduate students the opportunity to study for one academic year in Graz at one of three universities. Credits transfer back to Montclair State. Open to all majors.

Students have the choice to study at one of three universities in Graz:

- Karl Franzens University/Uni-Graz
- Graz University of Technology
- University of Music and Performing Arts (KUG)

For details and to begin an application, visit Montclair-Graz Sister City Scholarship Application Page and Brochure: goo.gl/3Rm6Qs

**Who’s Hot This Week**

**Sydney Stein**
Womens Swimming and Diving
Stein scored 21 points individually as Montclair State nearly pulled off an upset against TCNJ. Stein won both the 500m and 1000m freestyle events, setting a new school record in the latter.

**Denzel Nieves**
Running Back — Football
Nieves was named the NJAC Offensive Rookie of the Week after helping the Red Hawks snap a four-game losing streak. Nieves ran for 167 yards and a touchdown.

**Game of the Week**

Football
vs. William Paterson
Nov. 2, 6 p.m.

The Red Hawks take on long-time rival William Paterson under the lights at Sprague Field.

For updates, check out: www.montclairathletics.com and follow @TheMontclarion on Twitter and Instagram.
After taking last week off, the Montclair State Red Hawks football team came out energized and entered their game at Morrisville State on Oct. 26 with a renewed sense of urgency. It resulted in a 34-21 victory over the Mustangs and their four-game losing streak came to an end.

The game did not start well for the Red Hawks, as Morrisville quarterback Lemar Johnson scored a two-yard rushing touchdown with 6:26 left in the first quarter to give Morrisville a 7-0 lead. After the Red Hawks missed a field goal on their next possession, Johnson struck again as he threw an 80-yard touchdown pass to wide receiver Anthony Mella to give Morrisville a 14-0 lead to end the first quarter.

Despite the early deficit, Montclair State never gave up. With five minutes left in the second half, sophomore quarterback Ryan Davies threw a 78-yard touchdown pass to freshman wide receiver Malcolm Robinson to make the score 14-7 Morrisville at halftime. The momentum continued midway through the third quarter as Davies threw another touchdown pass, this time a 50-yarder to sophomore wide receiver Clinton Coffey to even the score at 14-14.

As the third quarter wound down, freshman running back Denzel Nieves put together a 30-yard run that landed the Red Hawks into Morrisville territory. Nieves would eventually score on a three-yard touchdown run to give Montclair State a 21-14 lead with 31 seconds left in the third quarter.

Montclair State fought back, however, as Johnson scored on a five-yard touchdown run to cap off a 12-play, 75-yard drive that ended in a rushing touchdown by Davies to make the final score 34-21 Montclair State.

In total, Davies threw for 224 yards and completed 11 of 22 passes with two touchdowns and an interception. For rushing, Nieves put together a breakout performance. Along with his touchdown, he ran for 167 yards total. Additionally, Scoppa, along with his touchdown run, ran for 109 yards. In total, the Montclair State running game outgained Morrisville 279-226 while Montclair State's offense altogether gained 503 yards.

On defense, senior linebacker Adnan Sakiri recorded 20 tackles for the second time in his career and forced a fumble while junior defensive back C.J. Conway recorded 10 tackles and broke up four passes.

"It's a relief that we ended our losing skid," said Conway. "We got off to a rough start this year, but we're finally turning things around and coming together as a team and no one is giving up on the season, no matter what happens."

Now 2-5 on the season and 1-4 in NJAC play, the Red Hawks have three games remaining on the season. Their next game will be this coming Saturday, Nov. 2 at Sprague Field against William Patterson University at 6 p.m.
