Capturing the Pufferfish
How “Double Down” reflects today’s political spectrum

Kenneth Marx
Staff Writer

The new book Double Down: Game Change 2012 offers a prime example of the egotism that resides over the political gnat of today’s day and age. Bipartisanship is about as rare as Halley’s comet; as reverence for another politician is only actualized if it is advantageous to both parties. We all know politicians have a license to exploit; not just the people, but also other politicians.

Dr. Gimbel is the chair of the Philosophy Department and currently holds the Johnson Chair. Monday, Nov. 4.

Montclair Sings ‘Zelda’

Ethan Fria
News Editor

The MSU Vocal Accord, an extra curricular chamber choir group, performed the music from the famous Legend of Zelda video game series at The Theater at Madison Square Garden on Nov. 1. Dr. Heather Buchanan, director and founder of the group, described the experience as a professional achievement for the students involved. The group performed a similar score of music from the video game franchise with 32 voices at the New Jersey Performing Arts Center in Newark. The producer came up to me after the show and told me he thought the choir really digs this. It was one of those things where it’s unique. When we did the first performance in August, the choir was so amazing. The producer came up to me after the show and told me he thought the choir really digs this. It was one of those things where it’s unique. When we did the first performance in August, the choir was so amazing.

Dr. Buchanan, director and founder of the Zelda, continued on Page 3.

SGA Reopens Wound
Controversial bill shutdown

Catherine Baxter
Managing Editor

For the past two weeks, the entire campus has been involved in a debate over same-sex marriages. The university recently hosted one of the state’s first same-sex marriages of a professor and her partner. However, differing opinions surfaced when the SGA announced that they voted down a bill that would publicly state the Student Government Association supported same-sex marriages.

Today, a new bill was passed that states the Student Government Association of Montclair State University supports the LGBTQ community of Montclair State University; their lives will have consequences and benefits.

On Oct. 29
Student Charles Sandman IV, 18, of North Cape May, N.J., was arrested and charged with possession of marijuana while in Blanton Hall. Sandman IV is scheduled to appear in Little Falls Municipal Court. (building #48)

On Oct. 29
Students Jordan Stellis, 19, of Ewing, N.J. and Joseph Gambino, 19, of Lawrenceville, N.J. were charged with under-age possession of alcohol while in Mills Hall. Both parties are scheduled to appear in Little Falls Municipal Court. (building #62)

On Oct. 29
Student Theodore McGurrin, 19, of Sparta, N.J. was charged with under-age possession of alcohol while in Bohn Hall. McGurrin is scheduled to appear in Little Falls Municipal Court. (building #47)

On Nov. 2
Non-student Ashley Truitt, 28, of Montclair, N.J. was arrested and charged with Driving While Intoxicated while on Valley Road. Truitt is scheduled to appear in Montclair Municipal Court.

On Nov. 2
Non-student Christopher Mentuck, 23, of Somerville, N.J. was arrested after a motor vehicle stop revealed that he had an outstanding warrant. Mentuck is scheduled for court in the jurisdiction where the warrant was issued.

On Nov. 4
Students John Wenzel, 18, of Warwick, N.Y. and a juvenile were arrested and charged with possession of marijuana, intent to distribute and drug paraphernalia in Bohn Hall. Wenzel is scheduled to appear in Clifton Municipal Court. (building #47)
Danielle Abatih  Contributing Writer

A chewed up toy mattress, a wooden dorm room door, bed to the side, and a plush cushion, new unused, but still covered with grey cover.

“I had my cat room since I lived at Vermont,” says Tina Cangelosi, 21, of Asbury Park. “I am a Psychology & Distracted student at Montclair State University. I am not aware of the presence of other animals on campus.”

“He is not aware of the presence of other animals on campus.”

A service animal, as defined by Montclair State University, is a “a dog specifically trained to perform specific tasks, such as alert a person with a disability.”

The Service Animal Policy, is a “guideline to the students who are staying physically safe on campus.”

Rebecca, a junior, has a pit bull named Sedes. “I felt so awful seeing him alone. Ever since he was a puppy I raised him and he was very attached to me,” said Rebecca.

Maltese and a Yorkshire Terrier.

According to Perri, she simply had to wrap Lily in a plush cushion, now unused, into the dorm building. To take care of her pet’s emotional support from the dorms at Montclair State.

Emotional support animals must be approved to live in the dorms at Montclair State.

Options for students with pets.

The American Society for the Prevention of Cruelty to Animals (ASPCA), has gradually become an advocate for pets on campus, despite criticisms surrounding the newly evolving presence of animals on campus.

There would be loss of a personal space, etc., if pets were permitted and a system was put in place to monitor and make sure the health and safety of all students is maintained.

Zawistowski suggests micro-chipping the pets, looking to create pet protection laws that would ensure the pets inside them would be followed to make sure they are kept in good health and are safe.

Zawistowski is the director of Disease Control’s website outlines all the potential dangers associated with pets. Pets with microchips can be passed from animal to animal, diseases can spread very quickly, between species, and that’s why I got my own emotional support animal, a dog named Sadey.

Physicians or mental health care professionals must recommend those animals as emotional support animals. Sadey is a pug and a pug with a long personality, she is very protective and would be a good security system.

Emotional support animals are not allowed on campus in the dorms. Montclair State University

continued attacks on Jews in Nazi Germany that took place from Nov. 9 to Nov. 10 in 1938. Ninety-one Jews were murdered and 30,000 were arrested and sent to concentration camps.

Dr. Michael Kogan of Montclair State’s Religion and Philosophy Department introduced the lecture by reminding the audience that Adi-El’s film was a war — one on the battlefield against the Allies and another against the Jews. “Part of Hitler’s war was on Jewish science,” Dr. Kogan said. He explained how the Jewish thinkers who escaped, like Albert Einstein and Sigmund Freud, contributed significantly to modern science and civilization.

Dr. Gimbel began his lecture by revisiting the period from 1848 to the end of World War I. 1848 was a year of almost simultaneous revolutions across Europe, but they were not limited politically. The period saw changes in all aspects of human thought, from literature to the arts. Dr. Gimbel pointed out that Jewish scientists, philosophers and artists were at the forefront of many of these revolutions.

“When modernism began to take shape in the 19th century onto it,” Dr. Gimbel said, “because the democracy that came with this modern point of view, the movement in the revolution for them to free themselves.”

New ideas of the period like humanitarianism and equality before the law were very attractive to European Jews.

“The idea of human equality and equal- opportunity before the law were very attractive to European Jews,” Dr. Gimbel said, “to take hold, Jews grabbed onto it,” Dr. Gimbel said, “that was the modern point of view of human equality and equal-opportunity before the law were very attractive to European Jews.”

“Human equality and equal-opportunity before the law were very attractive to European Jews,” Dr. Gimbel said, “to take hold, Jews grabbed onto it,” Dr. Gimbel said, “that was the modern point of view of human equality and equal-opportunity before the law were very attractive to European Jews.”

Montclair-Graz Sister City Scholarship

Undergraduates! Spend a full academic year (Fall 2014 through Spring 2015) abroad in beautiful Graz, Austria at one of three partner universities on full scholarship which includes full tuition, fees, room, and a stipend. Credits transfer back to Montclair State. Open to all majors.

Information Sessions

Tuesday, November 5th at 10:00am
Friday, November 15th at 2:00pm
Cohen Lounge, Dickson Hall
RSVP for session: goo.gl/CtU5PO

Wednesday, November 6th at 2:00 pm
Courtyard Lounge, University Hall
A representative from the International Office at Karl-Franzens University/University of Graz will be visiting campus available to answer any questions about living in Graz, or about Karl-Franzens, specifically. Some exchange students from Graz may also be present. If you have questions the program or courses, this is a great opportunity for you!

For more information and to apply, visit: goo.gl/3Rm6Qs
Jobs are not the same as they were 30 years ago. Actually, they’re not the same as they were ten years ago. The workforce is changing. Everyday, there’s a job out there we didn’t know about. Along with the evolution of our progressive workforce, work wear also reached the same reformist variety. When we think of our typical work outfit, we envision the basic men’s or women’s suit. There’s a skirt or pant with a matching tailored blazer (most likely navy or black) and collared shirt. It’s dull and stiff. However, things have taken an unlikely twist.

Now, there are jobs where you don’t even need to wear a tie, let alone a suit. At Microsoft or Google, they encourage you to come in casual and cool. Unfortunately, there’s not much room for you aspiring doctors, lawyers or bankers. You can, however, mix up a patterned tie with a patterned shirt. Make a statement without having your outfit shout “I don’t respect professionalism.”

Fashion is and always will be infused in work wear, even if it is subliminal. Here are a few basic ideas for some professional yet stylish outfits you can pull off even at your nine-to-five cubicle job.

**Blazers can be casual too!** Mix up a structured blazer in your comfy get up. It can instantly take from lazy to cool effortlessly.

**Don’t be afraid to mix neutrals:** browns, blacks, greys and whites can work well if repeated in a consistent manner.

**For semi-casual professionals:** in a chambray shirt with neutral chinos and suede lace up boots. In cold weather layer your shirt with a rich colored crewneck sweater.

**Mixing large and small prints can make your workwear look sophisticated and effortless.**

**Ladies, widelegged trousers can be your friend!** Bonus points for matching same patterned suit pieces.

**A hat paired with an oversized bag can really bring attention to your outfit while not being overtly obvious.**

**Floral print capris along with a bright jacket can give you a chic look.** Throw in a pop of color with a structured, grey scale coat.
Knowing what to eat to form a healthy meal can seem overwhelming, especially when eating in a place like the dining hall. Doing this, however, is a lot simpler than it seems. The United States Department of Agriculture has replaced the food pyramid with an even easier way of recommending how to eat a healthy, balanced diet. They have come out with “MyPlate,” a simple diagram showing what each meal should contain and how much of each food group there should be. On choosemyplate.gov, it is easy to view the model and learn more about what belongs on your plate when making a healthy meal. The diagram features five sections: fruits, vegetables, protein, grains and dairy. By looking at the diagram, it is easy to tell how much room each group should take up on your plate and how much of each you should be eating in relation to the other groups. Learning more about each category can help you understand how to build a healthy meal.

**Fruits**
For men and women between the ages of 19-30, MyPlate recommends at least two cups of fruit daily. This can come from many sources, anything from whole fruit such as apples, banana and oranges to 100 percent fruit juice or frozen berries. The health benefits of putting fruit on your plate include a large percentage of vitamins. The fruits’ different colors generally contain different kinds of vitamins. These can reduce your risk of heart disease, certain cancers and lower blood pressure. Most fruits are generally low-calorie and therefore are a good option for a healthier way to satisfy your sweet tooth. Instead of ice cream for a snack, a healthier alternative like Greek yogurt topped with berries or any fruit of your choice.

**Vegetables**
MyPlate recommends that women between 19-30 years of age should consume about two-and-a-half cups of vegetables a day. Men of the same age should consume three cups. You can fulfill your vegetable requirement in the form of whole vegetables or vegetable juice, which can be raw or cooked. Vegetables are great sources of fiber, vitamin A, vitamin C and folate. The fiber in vegetables is what can help keep someone full, which makes them a satisfying choice. They are also naturally low in calories and fat and can help lower overall calorie intake. A tip to help with easier consumption of vegetables is to use your microwave to your advantage. Many vegetables that you would think need to be cooked on the stove or in the oven can be quickly prepared in the microwave, such as broccoli or cauliflower in a bowl with a small amount of water.

**Grains**
Foods that are considered grains include rice, bread, pasta or oatmeal. MyPlate recommends at least half of grains consumed are whole grain, such as whole wheat bread, because it has more nutrients than refined grain, such as white bread. Whole grains contain fiber and other nutrients, including B vitamins and minerals which can aid in weight management and reduce your risk of heart disease. They can also help keep you fuller longer compared to refined grains. A way to start incorporating whole grains alongside refined grains into your diet is to mix the two together. When eating rice, for example, make half of your serving brown rice. This way, you will still get the taste you know and enjoy from, white rice with added benefits of whole grains.

**Protein**
It is easy to assume that protein is exclusive to meat, but there are actually many ways to consume lean and healthy proteins. Beans, seafood, soy, poultry, meat, nuts, seeds and eggs are all considered good sources of protein. It is important to eat mostly lean or low-fat proteins, such as chicken breasts or eggs. Proteins are the building blocks of skin, bones and muscles in your body. Proteins can also provide you with other nutrients such as B vitamins, iron, zinc and magnesium. It can also be very filling and keep you satisfied until your next snack or meal.

**Dairy**
Dairy includes milk and any food made from milk such as cheese and yogurt. When choosing dairy, most foods should be low-fat or fat free. Dairy is important because it can improve your bone health and may reduce your risk of osteoporosis. Dairy is also generally very high in calcium. Try to stay away from whole fat dairy products such as whole milk or regular yogurt and switch to one percent or skim milk and fat free or Greek yogurt.

**Focus on Fruits**
- Fresh, canned, frozen, or dried, or 100% juice. Make half of your plate fruits and vegetables.

**Vary your vegetables**
- Dark green or orange, beans and peas, starchy, and other vegetables.

**Make at least half your grains whole**
- Eat more whole grains such as whole wheat, broccoli, oatmeal, whole commereal, and brown rice.

**Go lean with protein**
- Choose from a variety of meat, poultry, seafood, beans and peas, eggs, soy, nuts and seeds.

**Get your calcium rich foods**
- Choose fat-free or low-fat milk, yogurt and cheese.
Invest in your future.

If you could travel back to Syracuse University in 1894 and inform Lisa Arbetter that she would be a magazine editor for most of her life, she probably wouldn’t believe you. As a college student, Arbetter was always interested in magazines and writing, but never really considered that her interest in magazines could lead to a full time career.

Originally, Arbetter majored in psychology at Syracuse University, and had plans to practice therapy professionally. But eventually, she realized that editing was a career and she decided to major in magazine journalism instead. Arbetter is now the deputy managing editor for InStyle magazine in New York City. Like many others, she had to start small and work her way up. After college, Arbetter worked as an editorial assistant at a financial-and-travel newsletter publishing company located in Baltimore. She performed simple tasks like fact-checking and administrative work for the company, but the job taught her a lot about being truly detail-oriented and the amount of responsibility required to be the last one editing before the issue prints.

Since then, Arbetter has worked for many fashion magazines, including Women’s Wear Daily, Cargo, and People. She describes her current position at InStyle as “challenging, exciting and competitive.” With her busy schedule, only those three words could describe her typical day as an editor perfectly.

“My day consists of a lot of meetings. I talk to the editors about stories they have in process and those that they are planning for the future. I help them organize the stories, to see how the visuals might help tell it and to come up with ideas to extend it digitally. In a service magazine like ours, editors must work closely with the art department because the way a story is laid out is just as important as the actual content. We don’t tell stories in the typical format where there is a lot of running text and one big image. We are more visual and our stories are more packed,” Arbetter said.

Arbetter also works on brand extensions, which includes everything from books, apps and TV shows to international magazine editions, digital products and consumer products, all of which are crucial components of modern-day journalism, and utilizes social media outlets to interact with their readers. In fact, Arbetter is very satisfied with the way social media has affected the magazine’s culture. “We can now talk directly to the readers. It’s a much more personal way to get feedback right away. We often post questions out on Twitter and Facebook to find out what the readers think about a topic (What’s your biggest pet peeve? Should you wear red lipstick?). Their answers inform our stories. Sometimes, those answers are the story—as in our Reader Poll page.”

But the digital age doesn’t only have a positive affect for InStyle or any current magazine, for that matter. In fact, Arbetter attributes this change to the digital shift in journalism, as the industry has made grabbing the readers’ attention a much more creative task. She also describes the industry as “very chaotic and right now” and explains that she’s currently trying to work for a magazine ten years from now, let alone a print publication.

Not only does Arbetter have experience editing, she has also had experience with writing. In 2001, Arbetter published a book for InStyle called "Wear Daily: The Complete Guide on How to Dress Every Day." She believes that some editors aren’t great writers and many writers aren’t great editors.

“T’is important to familiarize yourself with all of the media available to you, that is what will set you apart from the reporter who just goes to Google.”
Are you a college student experienced in child care and looking for a stable income while pursuing your degree? Becoming a Nanny can provide fulfillment and still allow the time to pursue outside endeavors. Contact Kelley at Perfect Fit Nanny Placement Agency: Kanazarian@gmail.com or call 862-485-5111.

Babysitter/Mother’s helper: After school help for 3 children in Upper Montclair. Days & hours flexible. Occasional nighttime babysitter also required. Contact Lesley: lesley@abdulhayoglu.com or 201-563-2047.

After school care for a five year old in Cedar Grove, starting in September 2013. Five days a week, but would consider 2-3 days. Contact Sarahi.grande@yahoo.com or call 973-615-7371.

Reasonable off-street parking, M-F. Only three min. walk to MSU Bridge & Shuttle! Call 973-819-0334 Sun-Sat, 5 a.m.– 8 p.m. ONLY.

A Dollar A Day Keeps Employees Away

What do you think about the recent change in minimum wage in N.J.?

Nautica Rowan
Freshman
Math
When I was working back in the 80s, $7.25 obviously wasn’t enough to raise it a whole dollar, it does make a difference because if you work certain hours, you have that extra dollar every hour, so I think it’s a good idea.

Alex Taubman
Freshman
Undeclared
I think a raise of minimum wage is great. It’s motivation to kids and adults of all ages, giving them a better opportunity maybe more motivation to go out and work and put themselves out there.

Angelicia Lopez
Freshman
Undeclared
I think it’s actually really good for people to be getting paid $7.25 an hour, but that wasn’t enough to do anything. There’s a lot of stuff you have to do and if you can’t work too many hours, it’s even better because it’s a dollar up. So, I think it’s a good idea.

Kevin Vargas
Senior
Sociology
I think it was a great idea because it started working a couple of years ago and I think minimum wage was even less than that. I work all those hours just to get this little tiny paycheck. I feel like that one dollar makes a really huge difference. I think it’s going to help a lot of poor families or working-class families who are working for $7.25 an hour wage is better living. The only thing I’m thinking about is with the economy being so bad, I don’t know where they’re coming up with the money to raise minimum wage.

Frankly Rodriguez
Senior
Business
I think it’s good. People who have minimum wage pay; they have a little more money to spend on food and clothing. I see it as a good thing more than a bad thing. I don’t really see any negative effects to it. It’s pretty much a good thing for everybody, especially for college students because we work a lot of minimum wage jobs, so it actually helps us more with books and school.

Carin Leiva
Senior
Sociology
I think it’s about time that they doubled the mini- mum wage because I know that there are a lot of jobs out there which are minimum wage. It’s not fair because it’s only $7.25. The fact that it got raised a dollar is good, but I feel that it shouldn’t have been more. Yes, I feel that it is a good beginning, but I feel that this beginning should change minds and hopefully in time, it will get higher. Our life right now is really expensive, so we would be only right.

For the past 55 years, the Doctor Who television series has been a favorite among fans worldwide. The show is the longest-running television program about an alien called a Time Lord and the fictional planet Gallifrey. The last of his race after his home planet was destroyed by a war, the Doctor is immortal and becomes a new man, retaining his memories. The Doctor is human form, yet has two hearts.

The Doctor travels through time and space in a 1960s-era time travel phone booth called the T.A.R.D.I.S. (Timelord and Relativity Dimension in Space), which appears to be a small box but offers infinite space on the inside. He has traveled to places where the stories are typically young, such as the 1960s, and the characters have been played by Billie Piper, Catherine Tate, and Kylie Minogue. The BBC program was created in 1963 as an educational and entertaining show for kids. Episodes set in the past were used as a tool to teach history, and episodes set in the future were used as a tool to teach science. The show ran for 26 seasons from 1963 to 1989.

The Doctor is played by Tom Baker, who is the youngest actor to play the Doctor. The character was first introduced to fans in 1974, and has since become a beloved figure in popular culture. The Doctor has been portrayed by a variety of actors over the years, including Christopher Eccleston, David Tennant, and Matt Smith, who is the youngest actor to play the role since the 1960s.

At times, Doctor Who has faced criticism for its handling of characters and plotlines. In recent years, the show has been praised for its diverse casts and inclusivity, as well as for its exploration of complex themes such as time travel and the nature of reality. The show's popularity has continued to grow, with new generations of fans discovering and enjoying the series.
‘Daily Show’ Producer Speaks Secret Revealed at Montclair State

Tina Fey and ‘Office’ Alums Costar

Tina Fey and her 30 Rock co-writer and executive producer, Robert Carlock, are teaming up to bring a new sitcom to NBC starring The Daily Show’s El-lie Kemper that is set to debut in the fall of 2014, according to Entertainment Weekly.

The comedian, writer and actress has received a 13-episode straight-to-series order from NBC for her single-camera comedy, which is temporar-ily titled Teenage. Joining Fey in her latest project to write and executive produce the series is her fellow 30 Rock writer and executive producer, Robert Carlock, who is also known for his work on Saturday Night Live, Friends and the Friends spinoff show. Although Fey will not be seen in front of the camera, there is a possibility that she may guest star in her series. El- lie Kemper, another familiar face to NBC, will be starring as a woman who escapes from a doomsday cult and begins a new life in New York City. Kemper is best known for her work on The Office, but she has played a number of other widely known roles as well, including a support-ing role in Bridesmaids, as well as 21 Jump Street with Channing Tatum and Jonah Hill. The 33-year-old in-ternationally acclaimed actress has also executive produced with David Miner. Miner explained, “Our relation-ship with the network is one of the strongest and most fulfilling we’ve ever had. We feel fortunate to be in business with the network and are looking to pursue the highest possible standards in all things television.” The Daily Show is not a reliable source of the news and if you’re only get-ting your news from there, you should reconsider. The Daily Show takes major headlines and summarizes the big news corporations such as CNN, FOX and MSNBC reports stories. They take fun at the way the new news out-lets are handling it. They never actually report the news. Instead of looking at the incidents and watching how the media is covering it and maybe find a way to talk about it but through the media and how they are cover-ing it. Maybe we can touch it, but that would be the only way because it just wouldn’t be appropri-ate to comment directly on something like that, but commenting on the way the media is covering it is fair game.” As one of the head produc-ers on The Daily Show, Carlock is given the daunting task of overseeing all things Daily Show. She is a part of the upper management team and as she explains it, “involved in a day to day basis of decisions of how our staff works together, all the bits and pieces of the moving parts as well as touching base with Comedy Central to make sure what we are doing are complementing each other.”

We are not journalists.

This week, Katy Perry's new album *Prism* topped the Billboard 100, selling 286,000 copies in its first week, making it the biggest first week sales for a female artist this year. Although it was a good week for Perry, it was a bad week for the music industry as a whole, as overall album sales of the week were the lowest this year since 1991. With big albums coming from Lady Gaga and Eminem in the upcoming weeks, album sales should rise a bit more.

- The Jonas Brothers have officially split, according to a public announcement this week. The three brothers claimed they each had their own creative ideas and directions they wanted to go in, so they felt it was best to go their separate ways. “We’re family first, and that’s always been our main priority, and so honesty within what we do as a group was really important,” Nick Jonas said.

- The American Music Awards set for Nov. 24 have already piled up a star-studded line-up of performers, including Lady Gaga, Kendrick Lamar, Miley Cyrus, One Direction, Imagine Dragons and many more set to perform. Macklemore and Ryan Lewis have the most nominations this year with six while Taylor Swift and Justin Timberlake each have five.

- New Music This Week: Lady Gaga’s “Dope,” Lupe Fiasco’s “Old School Love” featuring Ed Sheeran, Foxes’ “Shaking Heads,” Britney Spears “Perfume” and Justin Bieber’s “Bad Day.”

One on One with Mikey Wax

Victoria Nelli
Staff Writer

Not many young artists can say their music has been featured on shows and events such as *So You Think You Can Dance*, *Dance Moms*, *Pretty Little Liars*, *The Real World*, *True Life* and the 2012 Olympics; artist Mikey Wax has done just that. Wax loved music for as long as he can remember. He expressed his love of songwriting, saying “Songwriting is one of my favorite things to do. For me, the process usually just involved messing around on a piano or guitar with chords and creating some kind of riff/predolcy.”

One show that sticks out to him is his Birmingham, Ala. show. “My first tour, when I performed at an awesome venue, called Workplay in Birmingham, Ala. I had never traveled that far south on my own, and the crowd was so receptive of me.”

One career aspiration he mentioned was to play a large stadium show in places such as Madison Square Garden. Wax said, “Awards are cool, but as long as I have a loyal fan base, I’ll be okay.”

Wax’s music is beautiful; his lyrics are true and refreshing. Wax has opened for some incredible talents, but soon, people will be opening for him. He has an extraordinary talent that people should recognize.
Red Hawks Win Second Straight

Following last week’s impressive road win at Morrisville State, the Montclair State Red Hawks football team continued impressively with a 40-13 victory over local NJAC rival William Paterson at Sprague Field on Nov. 2 in the latest installment of the Route 46 rivalry.

The win was Montclair State’s second in a row after starting 1-5 on the season. The Red Hawks have won two consecutive games of the series against William Paterson.

The pass set up a two-yard touchdown run by Davis Kersey to give Wil- liam Paterson a 10-7 lead with 9:47 left in the first quarter. Montclair State would strike again on their next possession thanks to an 11-yard, 57-yard drive, tying the game at 10 with a 27-yard field goal by junior kicker John Schubert with 5:11 left in the first quarter. The quarter would eventually end at 10.

The second quarter started off strong for Montclair State, as Davis throws 10 passes of 10 and 17 yards, a touchdown pass, followed by 69-yard run, 11-yard run, and a seven-yard run with 4:38 left in the first half. Montclair State would eventually go into halftime with a 24-13 lead after Sinegra hit a 22-yard field goal with 55 seconds left in the half.

The second half was all Montclair State, as Denzel Nieves scored a second touchdown, this time a 6-yard run with 4:38 left in the third quarter, capping off a 47-yard drive he had that ended with his touchdown.

On offense, Nieves scored three touchdowns and rushed for 125 yards while Scoppa rushed for 106 yards and a touchdown on 16 carries. Montclair State eventually rushed for 247 yards. For passing, Davies completed 9 of 20 passes for 159 yards, with Robinson catching three of Davis’ passes for a total of 99 yards.

Montclair State shut down the Pioneer offense with eight tackles and an interception.

Football

Denzel Nieves’ three touchdowns and 125 rushing yards powered the Red Hawks to a dominating 40-13 victory over local NJAC rival William Paterson at Sprague Field on Nov. 2 in the latest installment of the Route 46 rivalry.

Boston Red Sox closer Koji Uehara was nothing short of stellar throughout-out the playoffs this past season. Despite not being able to speak English very well, Koji’s wife saw Koji couldn’t have won any better any to Fox Sports reporter Erin Andrews on how both his father and the rest of the Red Sox Nation around him must have been feeling.

He responded, “good” towards how proud he was of his father, and “crazy” on how hard Koji was working to put a fight on like that,” Newton said. “I can’t even describ-the feeling I have around him must have been

Emanuel Newton, who handed Muham-mad “King Mo” Lawal a dev-stating knockout loss in February, defeated his op-ponent again, this time by technical knockout. Newton av-enged the loss to Pat Cur-ran with a hook of his own, flooring his Russian oppo-nent, causing referee Herb Dean to stop the contest. Newton had his way with Lawal a couple of highly-touted fighters, including winning the World Series clincher.

The main event on Saturday featured "King Mo" Lawal a de-stating knockout loss in February, defeated his op-ponent again, this time by technical knockout. Newton av-enged the loss to Pat Cur-ran with a hook of his own, flooring his Russian oppo-nent, causing referee Herb Dean to stop the contest. Newton had his way with Lawal a couple of highly-touted fighters, including winning the World Series clincher. 

The franchise's eighth World Series cham-pionship had also put into perspective just how “Bos-ton” Red Sox have been for the past year. Manager John Far-rell was always destined to manage this ball club. Un-fortunately, it took a year of finishing in last place un-der former manager Bobby Valentine to come to the realization that Farrell was the right man for the job all along.

Dustin Pedroia, the second base man and cap-tain, wasn’t afraid to speak his mind during the season. But, there is that certain regi-on on how things should work around that club-house. It gives more credit to Farrell’s leadership in bringing back the team’s chemistry and making it fun again. That’s why Pedroia and David Ortiz in playing the top role, respectively.

Ortiz has even at-most upset that Mr. October this past year. And it was clearly domi-nated by Lawal, but the remaining four rounds of their light heavyweight interim title fight were con-trolled by Newton by stay-ing very active, out-striking his opponent. 

The main event on Saturday featured "King Mo" Lawal a devastating knockout loss in February, defeated his opponent again, this time by technical knockout. Newton avenged the loss to Pat Curran with a hook of his own, flooring his Russian opponent, causing referee Herb Dean to stop the contest. Newton had his way with Lawal a couple of highly-touted fighters, including winning the World Series clincher.

Boston Red Sox clos-er Koji Uehara was nothing short of stellar throughout-out the playoffs this past season. Despite not being able to speak English very well, Koji’s wife saw Koji couldn’t have won any better any to Fox Sports reporter Erin Andrews on how both his father and the rest of the Red Sox Nation around him must have been feeling.

He responded, “good” towards how proud he was of his father, and “crazy” on how hard Koji was working to put a fight on like that,” Newton said. “I can’t even describ-the feeling I have around him must have been

Title Fight Saves Bellator 106

Bellator 106 was set to be the first pay-per-view event in the promotion’s history. When it was announced that Quinton "Rampage" Jackson would pull out of his fight with Mike Bronzoulis, the show was moved to Spike TV with many fear-ing the show was lost. For-tunately, the Lightweight tit-le fight between champion Michael Chandler and former champ Eddie Alvarez saved the day.

The main event on Saturday featured "King Mo" Lawal a de-stating knockout loss in February, defeated his oppo-nent again, this time by technical knockout. Newton av-enged the loss to Pat Cur-ran with a hook of his own, flooring his Russian oppo-nent, causing referee Herb Dean to stop the contest. Newton had his way with Lawal a couple of highly-touted fighters, including winning the World Series clincher.

**Season Stats**

- **Solo Tackles**: 49
- **Assist Tackles**: 31
- **Forced Fumbles**: 3

### Who’s Hot This Week

**Adnon Sakiri**

Linebacker — Football

Sakiri played a key role in MSU’s 40-13 win over William Paterson by recording eight tackles and two turnovers (a forced fumble and an interception).

**Jessica Kiniery**

Midfielder — Soccer

Kiniery was named NJAC Offensive Player of the Week by recording her second hat trick of the season in the Red Hawks’ 9-0 rout of Ramapo College to finish the season 17-0.

### Game of the Week

**Womens Soccer vs. TCNJ**

Nov. 8, 7 p.m.

MSU takes the field against TCNJ for the NJAC title and automatic bid into the NCAA tournament.

Red Hawks Remain Unbeaten
18-0 womens soccer advances to NJAC Championship

The Montclair State University women's soccer team finished their regular season at 17-0 overall and 9-0 in the New Jersey Athletic Conference (NJAC). MSU is the 10th different sports team in school history to have a perfect regular season. DIIISoccer.com ranked the Red Hawks #1 and the National Soccer Coaches Association of America (NSCAA) placed them at #6. Montclair State hosted Ramapo College in their final game on MSU's Senior Day on Oct. 30. The Red Hawks dominated throughout and won the game 9-0.

Three minutes into the match, junior forward Kalia Fasano scored the first goal of the match thanks to an assist from senior midfielder Jessica Kiniery. Less than two minutes later, Jessica Bonjione netted a goal of her own off a free kick. Kiniery accounted for the next two goals before the ten-minute mark off of connections from Fasano and junior midfielder Kerry Glynn. Freshman forward Jennie Hornstra joined in on the action next with two assists off of hook-ups by sophomore forward Stefanie Gomes and junior midfielder Brittany Cooper. Junior Melanie Groce delivered the second goal of the second half by winning a loose ball and finding the back of the net at 49:51 in the contest.

Sophomore forward Kendel Bernardini notched a goal for herself in the 50th minute thanks to a corner kick from freshman defender Erin Sullivan. Kiniery completed the hat trick in the 70th minute off a through ball from senior defender Allison Whacker. Junior and freshmen goalkeepers Gina Policastro, Meghan Calcaterra and Rachel King all combined in the shutout for Montclair State.

The championship game against TCNJ will mark the eighth time the two teams will play each other for the NJAC title. The result was not available at press time for the Red Hawks’ last game against Richard Stockton at 7 p.m., at the Montclair State Soccer Park in the semifinals of the NJAC Conference Tournament. MSU defeated Richard Stockton earlier this season by a final score of 3-0.
