**'Kingsman’ Delivers Frenetic February Fun**

Nicholas Da Silve  
Staff Writer

At one point in Kingsman: The Secret Service, the villainous Richmond Valentine (Samuel L. Jackson) asks Kingsman Harry Hart (Colin Firth) if he likes spy movies. “Not the new ones. They’re all too serious nowadays,” Harry replies.

This dialogue takes place in the villain’s home where the two are sharing a meal of McDonald’s, which is being served to them by the villain’s henchman, a girl with blades for legs.

In spite of their different ideologies, the one thing that Richmond and Harry have in common is their love of the old-school spy films, where super spies would battle megalomaniacal bad guys with a convoluted plot for world domination.

**MSU Panel Discusses Brown and Garner Cases**

Peter Shaver  
Staff Writer

The cases involving Michael Brown in Ferguson, Mo., and Eric Garner of Staten Island have become well-known influences nationally as well as internationally. Yet, the incidents that occurred as well as the legal proceedings that followed still open controversial debate, as was examined Monday night at Montclair State University in a panel entitled “Do Black Lives Matter?”

Massive protests and great opposition have surged across the country and throughout the world as the cases involved with Michael Brown and Eric Garner. These cases, along with many others, have created perspectives that not only draw upon race in the spheres of inequality and gentrification of minorities throughout American history, they have further led to the question of the legal proceedings involved with the indictment process and the question of excessive force.

Pelican Police Report

Monday, Feb. 9
Freeman Dining Hall: A staff member stated a woman removed a harassing incident from another food service department.

Tuesday, Feb. 10
Overlook Building Parking Lot: Student Jerry Castro, 25, of North Bergen, N.J. was arrested and charged with possession of marijuana. Castro is scheduled to appear in Little Falls Municipal Court.

Wednesday, Feb. 11
Dickson Hall: Student Adrian Sanchez was arrested and charged with unlawful possession of a weapon. Sanchez is scheduled to appear in Little Falls Municipal Court.

Thursday, Feb. 12
Student Center C-Suite: A student reported a harassment incident from an unknown individual. This case is under investigation.

Friday, Feb. 13
Off Campus: Student reported a theft. This case is under investigation.

Monday, Feb. 15
Blanton Hall: Student Jozsue Brasil, 20, of Glen Ridge, N.J. was arrested and charged with possession of marijuana.

Tuesday, Feb. 16
Bohn Hall: Students Christopher Ainsworth, 19, of East Hanover, N.J., Kevin Dechery, 18, of West Borough, Mass., Robert Ospanos, 21, of Clifton Park, N.Y., and Christopher Joyce, 18, of Clifton Park, N.Y. were charged with underage possession of alcohol. All parties are scheduled to appear in Clifton Municipal Court.

Monday, Feb. 16
Floyd Hall: A staff member of the arena reported a criminal trespassing and criminal mischief incident. This case is under investigation.

therefore caused a great deal of worry to quickly enter the dining area. In response, an orderly evacuation of the dining area was conducted for the sake of all present at the time of the incident; both University Police and Fire Department were on scene to ensure the safety and well-being of these individuals. To begin cleaning up, the Chartwells Dining Team pushed the fallen water towards a floor drain in the dining area; soon after, the housekeeping staff arrived to assist with removing the water from the dining area. At the same time, the Facilities crew turned off the water to the building and began to repair the leak itself. A University electrician was called to the site to check all electrical appliance(s), lights and outlets. According to Delate, while these repairs took place, the water shutdown affected the water to quickly enter the dining hall before reopening on Tuesday, Feb. 18 at 10:00 a.m. “While Freeman is back up and running, thanks to the incredible teamwork of the Facili- ties, Chartwells and Residential Life staffs, as well as the resi- dents’ cooperation, we must all be diligently monitoring our areas,” said Delate. “[As] the extremely cold temperatures have impacted pipes on cam- pus as well as throughout the region, we continually monitor the heating system across cam- pus and the Facilities staffs are ready to respond to any issues 24 hours a day.” For this reason, students as well as residents with any concerns are encouraged to contact Residence Life or Dining Serv- ices to ensure the issue is ad- dressed as soon as possible in order to prevent situations such as these.

Panel: ‘Do Black Lives Matter?’ Draws Attention of Students on Campus

Continued from page 1

Frequent discussion concen- trated on the image that police officers create. Whether inter- pretations involve people psy- chologically fearing officials or officers creating an intimidating attitude, many people continue to have an increased distrust in law enforcement officers. “Oh boy, we are here to pro- tect you, but take the wrong step and I am not only welling to, but I have all of the gear to harm you and a very lethal weapon” said Dr. Calvin John Smiley of the Justice Studies Depart- ment. In a poll conducted by CBS, 43 percent of African Ameri- can feel anxious when they are dealing with law enforcement officers. “I believe that the stories that are given are fabricated and being changed by the media,” said Adrianna Velez, a Dance and Psychology Major. “I do be- lieve that officers do use exces- sive force, but we never get the actual story,” Velez concluded. “If the person you are appre- hending is verbally or physi- cally expressing they are dying or being injured severely, of- ficers should know from their training when excessive force is being used” said Velee, a Dance major. The event was sponsored by the Justice Studies Department and co-sponsored by the Mont- clarion State University Police Depart- ment, the NAACP-MSU Chapter and the Justice Studies Club.

Vigil: Campus Remembers Peers, Friends and Family

Continued from page 1

Discussion continues to center around how the media portrayed the event. Khadijah Danielian. “But, to move forward and grow, we must respond with love. Love is what will make the world a better place.” Vigil started at 4 p.m. as students spoke for around an hour when Ranjan gave his speech. “Dvash is a pacifist, completely against violence and one of the most mellow-tempered people I know,” he recalled. “Honestly, I feel like the world was robbed of an incredible person and things will never be the same. However, I believe that out of his death, good things will come. Everything happens for a reason, even if it is beyond our comprehension right now.” The majority of MSP passed out candles to the students at- tending the vigil and lit them at sunset, at 5:16 p.m. It was one of the coldest days of the year, but the students stayed for the whole vigil, with their numb hands and frozen noses, to honor the lost lives properly.

Transitioning from Winter to Spring

Kristen Bryfogle
Opinion Editor

They say that March comes in like a lion and out like a lamb, but we all know that at Montclair State, the lamb often doesn’t arrive until long after the start of spring. With temperatures barely breaking 30 degrees over the past two weeks, it looks like we still have a lot of cold weather left, but most stores are already featuring spring styles. There are many ways that you can incorporate spring trends with some warmer clothing so that you can dress for the upcoming season while still staying warm and comfortable in the transition from winter to spring. If you follow these tips, you can conquer the cold and embrace your inner flower-power queen, even if the weather is working against you.

Swag out high and fluffy winter boots. When the temperature rises a bit, you can pack away your knee-high and lined boots and start wearing lighter footwear—both in color and weight. Instead of wearing a heavy boot, you can slip on a pair of light-colored booties to brighten your look, or, my personal favorite, some espadrilles. These classics are perfect for a casual look with jeans and can be dressed up for work with your favorite dress and blazer. Oxfoxds come in all colors, so you can choose a cream or light brown for a single shoe that matches with everything or you can pick up one with a bold pattern, such as a floral or polka dot, to make a statement with your shoe selection. Another great way to lighten up a look is to pick up a pair of eyelet tennis shoes. Keds and Payless sell great eyelet sneakers that you can wear with basically any casual outfit, bringing a splash of spring fever into your cozy appearance.

Mix and match winter and spring pieces with bright colors and patterns. In The Devil Wears Prada, Miranda Priestly famously shines the trend of florals for spring, but let’s be honest: spring is the season for flowers, both in gardens and in your clothing. Most stores stock up on floral patterns as spring approaches, so you can always pick up a floral bluse in chiffon or polyester and pair it with a wool cardigan and skinny jeans for a bright and springy look. You can also dress in a neutral top and a floral bottom, such as a floral print trouser or floral skater skirt with tights. Pair either of these with a collared button down, layered with a sweater and you’ll be sure to keep out the Montclair State wind while staying up on the trends. If you’re not into florals, pick out a bold-colored denim or trouser to brighten your look from the popular blacks, greys and browns of winter fashion. Old Navy pixie pants are a great option. They come in a large span of sizes, colors and lengths and can be dressed up for work and down for a weekend hangout. Paring one of these with a winter go-to—a dark sweater or bottom—can mix cold-weather fashion with spring staples, easing the transition to lighter-weight clothing.

Use heavier clothing with a lighter jacket. Wear a pair of tights under your jeans. When the temperature rises a bit, you can pack away your knee-high and lined boots and start wearing lighter footwear—both in color and weight. Instead of wearing a heavy boot, you can slip on a pair of light-colored booties to brighten your look, or, my personal favorite, some espadrilles. Another great way to lighten up a look is to pick up a pair of eyelet tennis shoes. Keds and Payless sell great eyelet sneakers that you can wear with basically any casual outfit, bringing a splash of spring fever into your cozy appearance.

Wear a pair of tights under your jeans. It sounds uncomfortable and unflattering, but wearing a lightweight tights tight under your favorite pair of skinny jeans can be a life savior in cold weather. It will keep you warm on especially cold days and when the weather lightens up, you can wear the tights with a skirt, shirt, or with a pair of wool, tweed or leather shorts.

Pick the right accessories and style your look according to the weather. Replace your heavy wool scarf with a lighter-weight fashion scarf in a floral pattern or bright color to compliment your outfit for the winter while still staying warm. You can also wear some soft pastel-colored statement necklaces or dangling earrings to break up winter’s dark color patterns. Flair and makeup can also give the illusion of being ready for spring although you are still dressing warmly. Getting warm highlights, wearing your hair into a braided hairstyle and coxing your locks into big beachy waves can definitely help your casrine springtime look. Additionally, experimenting with pastel makeup can always give your favorite warmer clothing a uniquely springy flair and using lighter pinks and peaches in your palette can lighten the severity of the winter months.

Most Important Meal of the Day
Skipping breakfast means skipping critical health benefits

James Carpenter
Staff Writer

If you’re routinely making a fast break out the door each morning en route to class, the gym or the office without first consuming the day’s most important meal breakfast, consider these powerful eye-opening health benefits derived from “breaking the fast.” Or going several hours without food and water during overnight sleep. You’ll see why it’s called the most important meal of the day.

Missing breakfast is like driving a car with no fuel. Your brain, muscles and stomach are starving for nutrients and fuel. You’re missing one of the body’s most powerful eye-opening defenses against cold and flu. Begin the day with a complete breakfast to effectively promote fat-burning metabolism throughout the day. It also helps maintain weight and enhance muscle and joint recovery from sports and intense exercise.

Regularly consuming a complete breakfast containing some of the above-mentioned foods and beverages effectively promotes fat-burning metabolism throughout the day. It also helps maintain weight and enhance muscle and joint recovery from sports and intense exercise compared to those who avoid breakfast.

Breakfast eaters are also typically leaner because a filling nutritious breakfast satiates hunger longer so they’re less likely to overeat at lunch and dinner. Also, it’s easier to burn calories earlier in the day from a larger meal than having a late-day large meal.

Now common excuses for missing breakfast most often are overeating or not having enough time to eat. These are ordinary excuses and reasons to either omit breakfast or resort to a grab-and-go with a less-than-wholesome portable sugary energy or protein bar. While these handy bars are better than having nothing to eat or work on an empty stomach, prepare the following nutritious convenient and portable foods/beverages in advance when unexpected scenarios compromise a healthy breakfast.

Make a fruit and protein-rich smoothie before bed and exercise. On the job or for sports practices, performance in the classroom, and missing breakfast is like driving a car with no fuel. Your brain, muscles and stomach are starving for nutrients and fuel. You’re missing one of the body’s most powerful eye-opening defenses against cold and flu. Begin the day with a complete breakfast to effectively promote fat-burning metabolism throughout the day. It also helps maintain weight and enhance muscle and joint recovery from sports and intense exercise.

Consuming a couple of glasses of water, milk or tea, coffee and milk or yogurt, cheese, heart-healthy muscle-building protein (eggs, cheese), or green tea, coffee and milk. There’s also immune system-boosting foods comprising muscle-building protein (eggs, yogurt, cheese), heart-healthy fats (nuts and seeds or nut butter) and vitamins and mineral-rich energizing complex carbohydrates (e.g. oatmeal, toast or diced fruits, whole grain cereal or toast). They provide a great defense against cold and flu germs when you get to class or work.

These are ordinary excuses and reasons to either omit breakfast or resort to a grab-and-go with a less-than-wholesome portable sugary energy or protein bar. While these handy bars are better than having nothing to eat or work on an empty stomach, prepare the following nutritious convenient and portable foods/beverages in advance when unexpected scenarios compromise a healthy breakfast.

Make a fruit and protein-rich smoothie before bed and exercise. On the job or for sports practices, performance in the classroom, and missing breakfast is like driving a car with no fuel. Your brain, muscles and stomach are starving for nutrients and fuel. You’re missing one of the body’s most powerful eye-opening defenses against cold and flu. Begin the day with a complete breakfast to effectively promote fat-burning metabolism throughout the day. It also helps maintain weight and enhance muscle and joint recovery from sports and intense exercise.

Consuming a couple of glasses of water, milk or tea, coffee and milk or yogurt, cheese, heart-healthy muscle-building protein (eggs, cheese), or green tea, coffee and milk. There’s also immune system-boosting foods comprising muscle-building protein (eggs, yogurt, cheese), heart-healthy fats (nuts and seeds or nut butter) and vitamins and mineral-rich energizing complex carbohydrates (e.g. oatmeal, toast or diced fruits, whole grain cereal or toast). They provide a great defense against cold and flu germs when you get to class or work.

Breakfast eaters efficiently burn fat and maintain weight and muscle. Regularly consuming a complete breakfast containing some of the above-mentioned foods and beverages effectively promotes fat-burning metabolism throughout the day. It also helps maintain weight and enhance muscle and joint recovery from sports and intense exercise compared to those who avoid breakfast.

Breakfast consumers are also typically leaner because a filling nutritious breakfast satiates hunger longer so they’re less likely to overeat at lunch and dinner. Also, it’s easier to burn calories earlier in the day from a larger meal than having a late-day large meal.

Now common excuses for missing breakfast most often are overeating or not having enough time to eat. These are ordinary excuses and reasons to either omit breakfast or resort to a grab-and-go with a less-than-wholesome portable sugary energy or protein bar. While these handy bars are better than having nothing to eat or work on an empty stomach, prepare the following nutritious convenient and portable foods/beverages in advance when unexpected scenarios compromise a healthy breakfast.

Drink Your Fruits and Veggies

Kimberly Asman  
Staff Writer

For busy students, it can be difficult to get your recommended servings of fruits and vegetables every day. Men and women aging between 19-30 years old need about two cups of fruit a day and about two-and-a-half to three cups of vegetables. For some people, these may not seem like a lot compared to how much they eat, but for a lot of people, these may sound like unattainable goals. Perhaps it is easier for some to consume this much produce in the spring or summer when their favorites are in season, but it is important to include these foods throughout the year.

Vegetables and fruits give you huge doses of vitamins and minerals, including lots of fiber to help keep your digestive system running smoothly. Thanks to the fiber and to a high water content, these foods fill you up quickly and keep you fuller longer, helping you to stay on track to a healthy weight.

A great way to include some extra fruits and vegetables every day without making it feel like a chore is to make a smoothie. Smoothies are easy to make, convenient, tasty and great for taking on the go (to classes or any di-etary restrictions. If you want a creamy base with extra protein, go for plain Greek yogurt. Plain yogurt may not appeal to you on its own, but it is great in a smoothie because you will be adding lots of other things that will mask the sour taste. This will also cut off sugar, which you will get from the fruit you add in. If you want to focus on the produce and cut back on the calories, stick to unsweetened almond milk. While this is not a good source of protein, it is low calorie. You could also try low-fat or fat-free milk to provide some protein and calcium.

Soy milk is a good option for vegans or vegetarians because it is fortified with calcium and riboflavin, while still having a good amount of protein. Your target when choosing a milk should be around 8-10 grams of protein per each one cup serving. Of course, water is always an option too if you are not looking for a creamy texture and simply want something to make it more drinkable.

Now it’s time for the fun stuff: the fruits and veggies you are going to add in. You may want to have a theme in your smoothie such as all berries or you may simply add in whatever extra produce you have lying around. Usually, you can’t go wrong. Be sure to include at least one or two fruits because that is what will give your smoothie sweetness and make it yummy. Once you have this, do not be afraid to throw in some vegetables. The fruit will probably mask the taste of the veggies, so you will be getting nutrients without any tastes you may not prefer.

Dark leafy greens, such as spinach or kale, is a great way to add iron to your smoothie. Avocados is another good way to get a creamy texture and heart healthy fats. If you have some greens or any fruits that are giving you grief, such as bananas, try freezing them. This will prevent them from spoiling and frozen fruit is great for smoothies; it adds taste and nutrients and acts like an ice cube, giving your smoothie a thicker texture.

If you want some extra nutrients, try adding some ground flax seed or chia seeds to give yourself some healthy fatty acids. If you want a heavier drink, think about adding peanut butter. While full of fat, it is the good kind (unsaturated) and a tablespoon or two will definitely add a lot of taste to your smoothie if you are a peanut butter fan.

You can also add aminos or other spices if you want to boost the flavor of your smoothie. Every smoothie may come out a bit differently; experiment and play around until you find combinations you love and can always rely on for a quick and healthy meal or snack.

There are plenty of cheap mini-blenders that double as a cup and are perfect for a single-serving. These won’t take up much room and are a great addition to a dorm room where you also have a mini-fridge to store your ingredients.

When making a smoothie, start with a good base. This can vary depending on what you are looking for or any dietary restrictions. If you want a creamy base with extra protein, go for plain Greek yogurt. Plain yogurt may not appeal to you on its own, but it is great in a smoothie because you will be adding lots of other things that will mask the sour taste. This will also cut off sugar, which you will get from the fruit you add in. If you want to focus on the produce and cut back on the calories, stick to unsweetened almond milk. W e like to think of the Internet as an open space—a creative commons where everyone, provided they have access, can set up a website, a forum, an email address, etc. and have tons of information instantly at their fingertips. While this may be the concept of the Internet we all know and love, all of this could change on Feb. 26, when the United States Federal Communications Commission makes a formal decision about the future of the Internet.

In just one week, the FCC will vote on net neutrality, either keeping a free Internet alive and well or limiting the nature of the Internet. The possibility of losing net neutrality is extremely detrimental to everyday life. Not only will an Internet service monopoly hinder using the web for leisure, but work, commerce, and research will also be impacted. So much of our lives is dependent on Internet access, so blocking people from using services efficiently unless they have enough money to pay for faster Internet is an essentially classist form of Internet. Issues of net neutrality have been around for years, but now is one of the most important times to take a stand against eliminating neutrality. The FCC is voting next week, and are currently offering an open forum where citizens can weight in on the situation, argue for and against net neutrality and air their grievances.

It takes just a few seconds to send a comment or letter to the FCC. Online comments can be submitted at fcc.gov/comments. A really easy way to let the FCC know that you stand for a free Internet is to go onto a pro-neutrality organization’s website and fill out your information on one of their pre-formatted letters. Fight for the Future has such submission options and also sends updates on the campaign for an open Internet and basic information about the issue.

No one should be prevented from using the Internet because of a service monopoly or because soaring prices make it impossible for them to fill out job applications, contact friends and family via email and social media, research a subject or even just to watch cute videos on YouTube. We urge you to take a stand and use your voice to support the issue.

Gene Alday shows his true colors.

Jack White has been famous for years for his unique vocal style, known as the "white vocalist." He has often been compared to rockabilly legends such as Elvis Presley and Jerry Lee Lewis. White's music is known for its raw, unfiltered energy and his use of the electric guitar. His music has been described as a mix of blues, country, and rockabilly.

I did get to see all five animated films as well as three live-action films. As a sucker for cuteness and aesthetics, I nearly cried during one of the animated short nominees for the Oscars this Sunday. I was unable to stay the whole afternoon because of work, but I did not have a date on Valentine's Day, but I did have a few personal connections that allowed me to attend an Academy-supervised screening of all of the animated features and laughed at the other four.

Power-ranking the Oscar nominees for Best Animated Short Film

Nicholas Taylor
Chief Copy Editor

#1 - ‘The Dam Keeper’

Yes, this was the one that brought a tear to my eye. The Dam Keeper is the story of an anthropomorphic orphan pig that operates a windmill at the top of a dam to keep a recurring storm of black smoke out of the town. Though the pig is dedicated to his craft, his classmates, who are all humanoid creatures, verbally and physically torment him when in public or school. This pattern is broken up by a newcomer, a fox, who is willing to treat him with respect. You’re going to have to watch the not to find out what happens. The Dam Keeper really tugged at my heartstrings. As a victim of verbal bullying from grammar school students, as well as making one friend while at that school, I couldn’t help but get teary-eyed toward the end. It’s also so adorable. I love foxes and couldn’t get enough of a black turtleneck that draws sketches out of compressed charcoal. I hope this film wins everything.

#2 - ‘Me and My Moulton’

I’m a sucker for autobiographical family humor. Me and My Moulton is a narration piece from Norwe- gian filmmaker Torill Kove that describes her unusual childhood due to her post modern architect parents and her jealousy of the family downstairs. The visual style of this film is rather minimal and flat, with the people dot-eyed and symmetrical. This was also easily the funniest out of all of the animated shorts. Not only does it include bombastic repre- sentations of Kove’s eccentric fam- ily, but it also includes imaginative sequences of heres that are hyste- ric in every way. It also portrays the unintentional embarrassment factor parents always have with their kids in the most complex yet humorous fashion.

#3 - ‘Feast’

Some of you may have seen this short preceding Disney’s Big Hero 6. This short, the only one of which had a major Hollywood studio behind it, is the point of view of a Boston Terrier that has known his owner’s new girlfriend changes his diet. Fast food is fun and cute, but its style and storyline was nothing real special. What I did enjoy was the accuracy of the dog’s behavior; its high en- ergy and snorting when it ate was highly comparable to the pug I often dog-sit. This film followed with a short live Q&A session with the film’s director, Patrick Osborne. Fun fact: he made sure that the dog used in the film was a breed that wasn’t previously used in a Disney film.

#4 - ‘The Bigger Picture’

This wasn’t so much entertain- ing as it was interesting. It acts as a rather typical drama between two quarreling British brothers caring for their dying, geriatric mother. What’s interesting about The Bigger Picture is the animation style; it’s a combination of stop-motion figurines and wall paint- ings that act as the people. Some of the scene’s transitions were vis- ually fascinating but had no vis- ible meaning behind them. One of the brothers, Richard, is vacuum- ing a room while his mother talks to a friend. With no provocation, everything in the room—the fur- niture, the people—he is sucked into the vacuum cleaner, followed by the next scene. Perhaps there’s meaning behind it, but I didn’t see it; it did look cool, though.

#5 - ‘A Single Life’

The shortest out of all the the films at three minutes, A Single Life, is briefly “narrated” around a seven-inch record that suddenly takes control of the odd-looking woman. As the woman plays the record, she sud- denly controls her own timeline; for example, when she puts the needle forward, she is suddenly pregnant. The design of the film evokes a child-like plastic world of sorts, as our main character looks like a cross between a Doctor- cable Me minion and Shnitzel from Chowder. It peeked a few laughs, but the choice of the song’s genre as indie-folk may as well the outcome of the story didn’t ring true on me or the audience well.
Local band Through Thorne and Brier are not what you'd expect at first sight; they are more than your typical metal core band. Band members Mark, Peter, Ali, Perry and Justin are easy-going guys who will gladly sit and talk to just about anyone about anything from The X-Files to their musical inspirations.

Originating from Bayonne, N.J., the down-to-earth musicians began playing together in college. All members had played in different bands at the time of their meeting. They soon realized that they had played in different bands at the time of their meeting.

This band will rock your brains out. Their rhythm and overbearing energy on stage will have you rocking out in seconds. Even I had a hard time not diving into these addictive music, and I’m a person who does not listen to heavy metal that much. I have to admit I became an instant fan. I hope to have the fortune of experiencing this band live soon enough and I advise that anyone who can should. The band currently has two albums released, Good Grief and Failure. Through Thorne and Brier is definitely a band to watch out for.

Two competitive brothers fought each other before a live audience in a three-ring boxing match. Through highly technical ballet and acrobatic movement, the dancers of Rocco told their story.

All audience members were asked to sit upstream around a square ring where the boxers waited in either corner, smok- ing a cigarette. Glaring at his opponent, each brother appeared unmoved by the foot-steps and mumming of the crowd.

Rocco was part of the Peak Performances series staged in the Kasser Theatre. Packed with tension and suspense, the show demonstrated how the violence of Inning could fuse with the grace of ballet. Sharp lighting design engaged the audience in what became an interactive experience. Just when a visitor thought he knew what was coming next, a dancer pulled the open miesiąc on the stand. The hour-long show also took some interesting turns. The students in the audience had varied reactions. “It was intense and immersive. Despite the lack of dialogue, you could see a story. The movement evoked a lot of emotion and passion,” said junior Theatre Studies major April Signer.

Ten-year-old Luca Foella, who sat in the front row, said, “That was awesome!”

After the Thursday performance, Italian food was served at a reception. Students and fac- ulty enjoyed the gathering and bonded over their perceptions of the piece. Switching things up in terms of concept and de- sign, Rocco was well-received as part of the Peak Performances line-up.

On the night of Feb. 5, poets and students alike gathered in the Student Center ballrooms for Grand Slam 2015. Class II organi- zation Speaking Through Silence is the creative writing organization who hosted open mics and Sacrificial Poetry contests in the Rathskeller in the Fall semester. In the Spring, Grand Slam narrows the competition to those who will compete at the national contest, CUPSI. CUPSI, or College Union Poetry Slam Invitational, is a national poetry competition that MSU competes in amongst over 50 other teams.

Poetry slams can be described as “the superhero, but for poetry,” as said by competitor Sean Alino. Slams are composed of three rounds and judged on a 1-10 basis by five judges. To find the fi- nal score, the lowest and highest scores are dropped and the three middle scores are added. Poems can not go over three minutes and 10 seconds and must be original material; also, there are no props allowed, like music or costumes. The poets at the Grand Slam put a lot of work into their poems and it definitely shows, as was seen on Wednesday night.

In the first round, Warren Starn was the highlight with a score of 36 out of 30. While many of the poems in Slam are personal and emotional, Warren decided to re- late to worldly issues and speak about Ferguson. In round two, Benjamin James took on a comedic voice joking about sex, but then got personal. However, mostly the poems were personal stories, whether about personal experi- ences or about family and other deep issues. This is nice because other students can relate to them or agree with opinions expressed within the poems.

After round two, there was an elimination where the band 15 Ways to Sleep performed and piz- za was served. After scores were calculated, two poets had to be eliminated. Usually after the sec- ond round, three poets are elimi- nated, but due to a tie between Erin Mathis and Christa Wallace, eight poets were kept in the com- petition. Unfortunately, due to score results, Retaya Price and Au- gustine Lupinwere eliminated from the slam.

In the final round both Warren and Dean Mulcaire (Zig) got per- fect scores. Warren’s poem was a story about love, with a girl who is struggling with issues such as eating disorders. Zig’s poem was a story about a car accident. Whether they were true stories or not, the poems included a lot of imagery.

After all the scores were calculated, the winners going to CUPSI are Fe Lorraine Reyes, Warren, Zig, Alino and the presid- ent of Speaking Through Silence, Audrey Dingler. CUPSI will take place in Richmond, Va. at Virginia Commonwealth University at the end of March.
This scene can be viewed as the spine of Kingsman: The Secret Service, where the primary motive and desire of the film is to ignore the recent trend of serious spy thrillers and have a new throwback to those aforementioned old school spy flicks.

In the hands of director and co-writer Matthew Vaughn (Kick-Ass, X-Men: First Class) this love letter to those old spy movies contains an energetic, almost childlike sense of fun that causes the film to move all over the place with no sense of restraint or control, this is the film's greatest strength, as well as its greatest detriment.

The film focuses on Gary "Eggsy" Unwin (Taron Egerton), an intelligent but rebellious young man living with his mother, abusive stepfather and baby sister. His real father was a Kingsman who was killed on duty when Gary was a very young boy. The only link Gary has to his late father is a medal that Harry gave to the boy's mother after his father's death.

This scene can be viewed as the spine of Kingsman: The Secret Service, in order to save the world.

Now, you're probably thinking to yourself, "That sounds like the plot to one of those old James Bond movies." The movie is fully aware of this and at several points, characters acknowledge the tropes and clichés of the plot they themselves are in. This can be funny at times, but it's also the catalyst of my major issue with the film, which is the tone. Kingsman clearly loves the old-school James Bond movies, but it's often unsure of whether or not it wants to satirize or pay homage to this genre.

The movie is joey and goofy at points, but other scenes are played completely straight with some scenes getting very dark and heavy for what's supposed to be a lighthearted throwback. It's like an uneven blend of Austin Powers and the Kill Bill movies, where spoof-level comedy is awkwardly meshed with energetic and extremely gory violence. The pacing of the film is also problematic, with the movie moving at such a zippy pace that it never slows down to let any of the more serious moments of the movie have some emotional weight to them. As a result, I never found myself really invested in any of the characters, which is a problem given that the movie wants you to be. In spite of these issues, a film as exhilarating as Kingsman can't be kept down for the count. Next to the film's energetic spirit, the biggest strength of Kingsman is its excellent ensemble cast. Gary, along with several other teens, enters training to become a new member of the Kingsman agency. Gary, along with several other teens, enters training to become a new member of the Kingsman agency.

The movie is jovial and goofy at points, but other scenes are played completely straight with some scenes getting very dark and heavy for what's supposed to be a lighthearted throwback. It's like an uneven blend of Austin Powers and the Kill Bill movies, where spoof-level comedy is awkwardly meshed with energetic and extremely gory violence. The pacing of the film is also problematic, with the movie moving at such a zippy pace that it never slows down to let any of the more serious moments of the movie have some emotional weight to them. As a result, I never found myself really invested in any of the characters, which is a problem given that the movie wants you to be. In spite of these issues, a film as exhilarating as Kingsman can't be kept down for the count. Next to the film's energetic spirit, the biggest strength of Kingsman is its excellent ensemble cast. Gary, along with several other teens, enters training to become a new member of the Kingsman agency. Gary, along with several other teens, enters training to become a new member of the Kingsman agency.

All the while, Internet billionaire Richmond Valentine is plotting to take over all of mankind with a deliberate hammy and humorous performance as a villain whose plan involves mass genocide, even though he himself is extremely squeamish.

The rest of the ensemble cast delivers solid work as well, with Michael Caine, Mark Strong and Colossus all being given plenty of time to shine. One actor, who's not even billed or promoted in the marketing, turns every scene he's in paying homage to one of his most iconic roles. Vaughn's direction, as it was in his previous movies, is assured, slick and stylish. While many of the film's action scenes are bombastic and over-the-top, they never feel cluttered or messy as they are coherently shot and smoothly edited. If you're going to this movie to get some fun action, you'll undoubtedly get your money's worth. The movie also contains loads of clever wordplay and visual gags, particularly in one very funny sequence involving the front covers of a local newspaper. You'll have to look in the background during this sequence, but it's worth the extra attention if you do.

Kingsman is an imperfect cocktail of cartoonish violence, satire, classic spy movie homage and genuine emotion that is shaken, not stirred into an enjoyable piece of popcorn entertainment. It dares to be completely chaotic and over-the-top, especially when so many modern spy movies aspire to be grounded and realistic. While it always doesn't hit its target, the movie earns its license to kill through its exuberant and playful spirit.

Also, the fact that this is not based off of a major property adds to the movie's risk-taking attitude that more mainstream movies need to have. Such an attitude makes Kingsman: The Secret Service worth the price of taking this bumpy roller coaster ride.

Red Hawk Round Up

Swimming and Diving

The men's and women's teams will travel to Rutgers University in New Brunswick on Feb. 20 to compete in the Metropolitan Swimming and Diving Championship.

Men's Basketball

The men's basketball team went 1-2 in the three games they competed in this past week. On Feb. 11, the Red Hawks were edged by NJAC rival Rowan in a 80-78 loss. The team got back on track when they traveled to Hunter College in New York to defeat the Hawks 85-79 in an out-of-conference contest. New Jersey City University handed the Red Hawks another NJAC loss by defeating them 85-58 on Feb. 14.

Indoor Track and Field

The men's and women's track and field teams took part in the Molly Lions Invitational at St. Anthony's High School on Feb. 13. The men's team took first and second in the 4x400 relay and the women's team recorded nine spots in the top 10. The Red Hawks return to competition on Feb. 20 where they will travel to the New Balance Track and Field Center for the Ramapo Roadrunner Tune-up Meet.

Men's Lacrosse

The men's lacrosse team was scheduled to play their first game on Feb. 18, but it has been postponed due to weather conditions. Their first game will take place on Feb. 21 at Rensselaer Polytechnic Institute in Troy, N.Y.

UFC Fight Night 60 Recap

Thomas Formoso
Sports Editor

In the Co-Main Event, Max Holloway worked out an unanimous decision over Cole Miller in the Featherweight division. With the win, Holloway jumps three spots in the rankings and stands at tenth. Holloway now looks to fight a top-10 fighter to continue to climb the Featherweight rankings. The two Performance of the Night bonuses went to Neil Magny and Ray Borg. Magny submitted Chris Kelades in the opening fight of the Fox Sports 1 Main Card. Magny recorded a submission victory by way of a rear-naked choke against Kelvin Knumoto.

*Note from the Editor
Next week’s issue will feature a clean slate in the UFC Predictions. Contributing Writer Joe Lombardo will weigh in on his predictions for upcoming UFC events. Our results against each other will be posted.
There is no stopping MSU right now. The Red Hawks are a new beast, a different from the past, and they are making a name for themselves. The 21-12 record is a huge improvement from last year's 13-17 mark. The team is now on a 42-game home winning streak. The loss snapped Montclair's only loss this season was at Rowan University. The Red Hawks will be crowned the NJAC Regular Season Champions on February 14. The loss snapped Montclair's 42-game home winning streak. The first day of NJAC Tour- nament play begins on Saturday, February 21. MSU will finish as the #1 or #2 seed, they have automatically been in. At the semifinals, they will likely be playing for the championship. The Montclair State baseball team's newest outfields, Kyle Banyard, a right-handed baseball pitcher and Michelle Tobie paced Montclair State with 17 points and 15 rebounds. Aquino was also a triple-double threat as she had 14 points, 10 assists and 10 rebounds. All 14 of Aquino's points came in the first half. Freshman guard Kate Tobie chipped in with 10 points, seven rebounds and 10 assists. The Red Hawks clinched a first-round bye in the NJAC tournament with a 62-50 win over Richard Stockton Ospreys on Friday, January 14. The Red Hawks are one of just four teams in the NJAC to be eligible for the tournament. The loss snapped Montclair's 42-game home winning streak.
