Stewart Says Goodbye to ‘Daily Show’

Christine Gianakis
Contributing Writer

For more than a decade, Jon Stewart has been a household name in news for young viewers. His political satire somehow pierced the taboo disconnect between young adults and news outlets, landing Stewart at the cool table with millennials across the country saying, “You can sit with us.” Stewart’s popularity can be attributed to his success in mixing work and play on Comedy Central’s The Daily Show where he stars and writes. But it appears his tenure is coming to an end, as Stewart announced earlier this month that he will be leaving the show sometime later this year.

Fashion Show Opens Doors to Body Acceptance

Natalie Smyth
Staff Writer

Students and faculty of all different shapes and sizes all came together to show off their favorite outfits at the Body Acceptance Fashion Show earlier this week. The evening was filled with body positive messages, music and prizes and the attendees left with a boost of self-confidence and a reminder to love each other for who they are.

The show took place on Feb. 23 as a way to promote body acceptance and to acknowledge and praise the different body types that people have, not just the specific body type that is typically portrayed in the media. Staff and students alike were encouraged to participate as models and given the opportunity to show off their outfit of choice without the pressure of having to look a certain way.

There were no requirements to participate as a model; you can participate as an audience member too. The fashion show took place in the Student Center, and attendees left with a boost of self-confidence and a reminder to love each other for who they are.

LGBTQ Center Hosts ‘All About Da Bears’

Photo courtesy of Brian Edwards, LGBTQ Center.

The LGBTQ community is full of a wide variety of identities and labels — some more specific than others, but they all have a place within the acronym LGBTQ. One such identity that exists as a sub-community within this group is the “Bear” community. Some people know a lot about bears, some people know a little and other people are completely confused by the entire idea behind being a “Bear.”

On Feb. 24, the MSU LGBTQ Center invited Matthew Lambeth, two very prominent “Bears” in the community, on campus to educate some students about bear culture and structure of the bear community. “Bears,” a title that the community claimed themselves, is typically a larger gay man.

LGBTQ Center held an event to recognize a unique part of their community. The LGBTQ Center held an event to recognize a unique part of their community. The LGBTQ Center held an event to recognize a unique part of their community.

STAYING AHEAD OF THE GAME

PANZER ATHLETIC CENTER

Chris Reynolds
Contributing Writer

On Feb. 16, Montclair State took another step in advancing the prestige of the University and its students by opening the Athletic Center for Excellence in the Panzer Athletic Center. This new area of the Panzer Center is designated for student athletes who need some help dealing with classes and assignments. Similarly to anyone else attending classes and participating in campus activities, student athletes have a lot on their plates and sometimes need a hand in staying ahead of the game. When it comes to balancing classes, practice, games and other social activities, that’s where the Center for Excellence comes into play. If you’re a student athlete can be advised, if you need it.

Bears: The Animal Kingdom Greets the LGBTQ Community with a Roar
Continued from page 1

with body hair, but as students learned, there was an entire animal kingdom within this community. From Sharks to Wolves, there was a name for every type of gay man around. Even women could get in on the fun with the term “Goldi-locks” – which is a woman who generally hangs out with her hair light. Now, these terms may be confusing so an entire packet of definitions was supplied, full of words that students could take home with them. With over 30 students in attendance, it was a lot of fun to have conversations about why certain people, including celebrities, are different types of “Bear” animals.

“It was such a great time! The bear community comes up all the time at Safe Space Training and it’s great that we are able to have an event that teaches about fun topics we don’t hear about too often in mainstream media and have a lot of fun doing so,” explained Johanna Du razzi, an RA in Dinallo Heights.

A fun time was had by all as they plotted their own identity out on a chart, discovering what type of bear they were. “Bears are a big part of gay culture and it was cool to be able to hear from some Bears so that they could explain all the words that I had heard before but didn’t necessarily understand.” -Dan Saab

Bears are a big part of gay culture and it was cool to be able to hear from some Bears so that they could explain all the words that I had heard before but didn’t necessarily understand.”

If you have ever gone to a grocery store, chances are that you have seen something labeled with having “ancient grains” or something like flax and chia seeds. Although it is implied these foods are good for you, it isn’t often clear depending on the food products that they are in. Sometimes, they may just be thrown on a label to make something sound better than it is. For example, General Mills just came out with a Cheerios variety called Cheerios with Ancient Grains. When comparing nutrition labels, this product is actually almost identical to Multi Grain Cheerios. It is helpful to know what some of these terms mean and how you can use them to maximize your health benefits instead of buying products that claim they have them but only in trivial amounts.

**Flax seeds:** Flax seeds are great sources of heart-healthy omega fatty acids, iron and fiber. They also have some vitamins B1, also known as thiamine. Flax seed is an excellent addition to food, but only in its ground form. Whole flaxseeds are not digested and simply pass through your system. Grinding flaxseed into a fine powder helps them to release their oils and fatty acids. A good way to incorporate these into your food is sprinkle about one or two tablespoons of ground flax seed on yogurt, into smoothies or into baked goods. Stick to a small amount because while being great for you, these seeds are high in calories. One tablespoon of ground flaxseed mixed with three tablespoons of water can also act as an egg replacement in baking to help make a recipe vegan. Watch out for products advertising their use of flaxseed; Often, the flaxseeds are clearly in their whole form, such as in chips or granola bars, which means you will not be getting the most nutrients out of them that you could be.

**Chia seeds:** Chia seeds, unlike flax seeds, can be absorbed by your body whole. They contain some protein, unsaturated fats and fiber. These can also be easily added into yogurt or smoothies. A fun twist is to make chia pudding. Chia seeds soak up any liquid they are soaking in. To make pudding overnight, put a few tablespoons of chia seeds into a container with milk or another base such as yogurt. Eventually, the seeds absorb the liquid around them and form a gel-like consistency that makes them smooth.

**Hemp seeds:** These are also full of omega fatty acids, which can ultimately help lower cholesterol and blood pressure and reduce your risk of heart disease. This seed is also a plant source of complete protein, which means that it contains all of the essential amino acids your body needs. Including more non-meat sources of complete proteins can help to reduce the saturated fats that come with some meats. Try sprinkling some hemp seed into your next cake or muffin recipe.

**Ancient grains:** Foods are labeled with this do so to make them sound healthier and appeal to people who want to eat as their ancestors did. However, it does not necessarily mean that they are superior to other products that do not contain them. It is usually best to ignore this claim and turn to the ingredients on an item to see how much of these grains are really being used (the first ingredient listed is what is used the most in the product, the second is the second highest, etc.). These grains include quinoa, which is a good source of plant-based protein, and the others.

**Quinoa:** Of the “ancient grains,” quinoa is one that definitely deserves its reputation as a healthy grain. It serves as a complete protein and also provides you with iron and fiber. One cup has about eight grams of protein and 15 percent of your daily iron requirement. Quinoa has a unique, nutty flavor and is great to pair with various cooked vegetables or chickpeas. Quinoa is cooked similarly to pasta, starting with covering the raw quinoa completely with water. Once it is brought to a boil, simmer the water until it is completely absorbed by the quinoa.

Parking Need Not Apply
These tips may save you a few bucks

Jolie Higazi
Staff Writer

We all know the headache of finding parking on campus, especially without a permit. I used to try to get around paying for the Red Hawk Deck by parking on Valley Road, which is free for two hours between 8 a.m. and 4 p.m. and then walking to my classes in Dickson Hall. These days, with single-digit temperatures, it’s much easier for me to justify spending the couple dollars on parking rather than walking for 10-15 minutes in the cold. Those couple dollars add up, though. Spending $4-6 a day at the Red Hawk Deck can quickly add up to over $60 every month.

I was recently given a foldable Schwinn bike that has made parking headaches a thing of the past. Rather than paying for the parking or spending too much time out in the cold walking, I’ve been parking on Valley Road and riding my collapsible bike to class. The bike weighs about 30 pounds and folds up in about 20 seconds. It’s light enough to carry up the stairs without too much struggle and small enough to keep in a corner of the classroom. It’s a cheaper alternative than paying for the Red Hawk Deck and I don’t have to spend as much time outside in the subarctic temperatures going from class back to my car.

The Schwinn bike runs about $200, but there are plenty of cheaper or more expensive options depending on what you may be looking for.

A secret to finding parking on Valley Road is simply arriving 15 minutes earlier than classes start. Face it, college students think alike; they try to hit the snooze button one extra time and rush to make it to class just in time. Arrive on campus at 8:15 a.m. for an 8:30 class and you’re almost guaranteed a spot. But come just five minutes later and it may the difference between spending an extra 20 minutes hunting for a spot. For people with night classes, Valley Road couldn’t be better. Not only is there no time restriction after 4 p.m., but the teachers-only permit parking ends at 4, opening up plenty of more spots for students.

If Valley Road is filled up and no spots open up within a few minutes, I go to Plan B: the NJ Transit Deck on the far end of campus. It does get filled up from time to time, but if you arrive before the rush, you’ll be fine. From there, I either catch the shuttle or if I don’t feel like waiting, I ride my bike over to class. The good thing about the NJ Transit Deck is that it is cheaper than anywhere else on campus; at a daily rate of only $3, it’s an ideal place for students that may have multiple classes back-to-back the same day.

A final option I’ve used is NJ Transit. They offer buses that stop conveniently just outside of the Red Hawk Deck and go through Montclair, Bloomfield, and surrounding areas. Depending on where you live, a round trip fare can be as low as $3 and it saves you from the headache of finding parking and dealing with cranky drivers rushing to be on time for class. There are options out there!
Sunlight Yellow Fruits Override Winter Blues

Ordinary year-round fruits with extraordinary health powers

James Carpenter
Staff Writer

Their warm and sunny yellow colors have brightened kitchens and dining rooms throughout this frigid and stormy winter. Though the bananas are sweet and lemons are sour, both of these inseason, year-round fruits provide the sweetest health benefits. Even though both fruits are ordinary staples in grocery produce sections, their numerous nutritional benefits are anything but ordinary and can easily be overlooked in contrast to those attractive seasonal and flavorful summer fruits such as berries, peaches, cherries and watermelons, for example.

Here are among the many health benefits athletes and non-athletes can obtain when regularly consuming bananas and lemons—perhaps the most popular fruits consumed in countries worldwide.

Bananas:
• Have Vitamins B6 and C; potassium, magnesium and manganese; also contain pectin, a type of fiber and are rich in immune system-boosting antioxidants.
• Reduce swelling.
• Combat depression and mood swings.
• Help digestion and weight loss.
• Strengthen the nervous system.
• Are part of a heart-healthy diet.
• Support eye health.
• Help relieve dry, ticklish coughs.
• Aid recovery after exercise and sports as a post-workout/post-game food, especially when accompanied with some protein, as a banana’s high carbohydrate content helps replenish depleted glycogen after intense exercise and athletic activities when paired with protein such as nuts or milk. They also support muscle recovery and growth.
• Can be a pre-workout snack, ideally consumed an hour before exercise or sports activities allowing time for adequate digestion.

Carbohydrate-rich bananas with some protein (e.g. nuts, seeds or cheese) supply energy to fuel exercise and sports performances. The potassium and magnesium content in bananas are a source of electrolytes that can help prevent muscle cramping (along with consuming sufficient water for hydration) during sports—particularly when playing in warm and humid conditions.

• Are great sliced on cereal; blended in milk or yogurt for a nourishing milkshake or fruit smoothie; sliced atop peanut butter in a sandwich or mixed in batter for preparing delicious banana muffins or bananas bread.

• Have vitamins A, B5 and C; in small quantities the minerals iron, calcium, phosphorus, and magnesium and manganese, also contains pectin, a form of juice mixed in water provides relief. Additionally, drinking lemon juice in warm water a few times a day is a wonderful anti-inflammatory beverage.

• When consumed daily in the form of juice mixed in water enhance weight loss by aiding digestion and boosting fat-burning metabolism.

• When consumed as a mixture of juice and hot water act as a decongestant for sinus and respiratory ailments (e.g. colds, bronchitis, asthma).

• Make a healthy salad dressing by mixing lemon juice with olive oil and crushed garlic.

• Have all their parts used by chefs; the pulp, juice and skin of lemons provide the sweetest and most flavorful food. Lemons:

• Make a healthy salad dressing by mixing lemon juice with olive oil and crushed garlic.

• Can be gargled in a mixture of lemon juice in warm water with a teaspoon of salt a few times a day to help relieve a sore throat and tonsillitis.

• Have anti-inflammatory properties: As a topical remedy to reduce muscle, joint and arthritis symptoms, soak a towel in a bowl filled with the juice of three or four lemons and a few table spoons of honey that has been microwaved for 30 seconds. The heated mixture applied to the sore area a few times a day provides relief. Additionally, drinking lemon juice in warm water a few times a day is a wonderful anti-inflammatory beverage.

• When consumed daily in the form of juice mixed in water enhance weight loss by aiding digestion and boosting fat-burning metabolism.

• When consumed as a mixture of juice and hot water act as a decongestant for sinus and respiratory ailments (e.g. colds, bronchitis, asthma).

An Innovative Global Program that Will Prepare You for the World of International Business.

Kean University’s College of Business and Public Management is entering into a new and exciting phase of development with the creation of its Global Business School. Located in a new, state-of-the-art facility, this program will prepare students for careers in the new global economy and will emphasize a curriculum focused on:

**INNOVATION – CREATIVITY – ENTREPRENEURSHIP**

Qualified students will have the chance to engage in a global business practicum, leadership activities, networking and internships, plus interact with world-class faculty.

The global business program will:

- Prepare you for a career in international business
- Provide you with a global perspective and cultural interaction
- Develop your leadership skills in the global arena
- Enable you to assimilate and assess information from around the world

Vital elements of this new Global Business School include:

- Internship opportunities with international companies
- Easy access to the global business community in Manhattan
- Study at Kean’s campus in Wenzhou, China
- Faculty with global business experience
- New curriculum that prepares students for the global workforce
- Small classes
- Executive Fellows Program

DjinniAnn in: Djack Sees Ann Paint

Wow, you’re still working on that Hudson River School master study? Isn’t that due tomorrow?

Yeah, I haven’t slept in three nights and I’m starting to hallucinate.

Right now, you look like a very beautifully rendered tree.

Which Wich When by Joe Stansbury

Yes I would like to plan an order for pick up.

Cool I’ll pick it up in a month right before class starts...

In accordance with a 2012 federal law that was instated to halt Iran’s progress on creating an atomic bomb, UMass Amherst banned Iranian students from pursuing the fields of nuclear science and engineering. Other colleges have taken similar measures. Virginia Commonwealth University does not admit Iranian students into mechanical and nuclear engineering, according to multi-media news source Fairfax.

This story hit headlines when a dispute arose that caused an individual to question the policy, of which many were not aware previously. NBC names Zabre Khalkhali, an Iranian doctoral student who conducts research on clean energy sources, as the person of interest. Khalkhali was handcuffed and held overnight after landing in New York City, since her visa was rejected after the university informed the Department that she was no longer a student.

The reason for her termination was the school’s concern about her research and her Iranian background, according to NBC. Since this case gained public attention, UMass Amherst has reversed this policy, and the institution will now loosen its restrictions.

We give UMass Amherst credit for realizing its mistake and altering its policies, but we think it is extremely unfair and unfortunate that this happened in the case of Khalkhali, who was known to be researching potential energy sources and net weapons of mass destruction. To ban Iranian students on the basis of American paranoia about a country is discriminato- ry and wrong; a person should not be prohibited from pursuing their dreams and furthering the world of science and research because of some kind of historical precedent, especially when their country is not actively militant. If UMass Amherst wanted to ban Iranians because they could learn how to create an atomic bomb, then they would have to ban Americans as well, because Americans learn how to create nuclear weapons and nothing to do with them as Iran looks toward a peaceful agreement.

We understand that the West wants to cover its bases, especially since the Iranian hostage crisis is still in the minds of many Americans, but we’re not in the 70s or 80s anymore. The people and government of Iran are working to halt the progress on a nuclear weapon and continuing to punish students for something that has little to do with them as Iran looks toward a peaceful agreement.

Netanyahu Gives the Wrong Response

After anti-Semitic attacks, leader should not have called Jews back to Israel

Benjamin Netanyahu, Israel’s prime minister, said in a statement: “Jews de- serve security in every country, but we say to our Jewish brothers and sisters, Israel is your home.”

While expectations of news were soared and many young people consider it a lobsolent news source. Audi- by many young people as a safety.

While film buffs make up a corner of the viewing audience, there are other demographics looking for a lot of things, and simple, quick solutions.

The Oscars leave everyone a winner

Academy Awards bring everyone together for a fun night of glitz and glam

Jon Stewart says goodbye to ‘Daily Show’

Continued from page 12

This question is not something that can be answered in one simple statement, as there are multiple factors that influence the decisions of those who watch the yearly event.

The Oscars are the epitome of glitz and glamour, with celebrities and notorious stars wearing designer dresses and attend- ing the Academy Awards.

What makes Stewart’s show stand out from all of the rest? He says that the show is different from other news organizations.

If news outlets have hopes of staying relevant, they are going to need to look into modernizing their programs in a way that does not bring mordacy into the world of film as an art form.

Stewart’s departure is sad for many, but it will not leave us in the dark. There are other excellent personalities and characters ready to fill the void.

The Oscars leave everyone a winner.

Even when your shows are designed for specific crowds, there are always people who will find a way to enjoy your show.

If you’re looking for a lot of things, and simple, quick solutions, the Oscars will be far less likely to watch an awards show like the Oscars, because they’re not the people who are watching them.

For a few hours, we forget our worries and relax in our homes.

The Oscars leave everyone a winner.

Some viewers may be surprised to hear that there’s a huge trend going on around Twit- ter or Facebook that no one except for the people who use it can be guaranteed to know.

When your shows are designed for specific crowds, there are always people who will find a way to enjoy your show.

It’s common fact that if you don’t even consider the film aficionados that make up your audience, the majority of the 39.2 million viewers will walk away from your show.

Gambling is looking for a form in which to constructively combat rising anti-Semitism. There would be no Jews in Europe; there would be no Jewish voices.

They would have surpassed the $100 million mark in terms of viewers.

But film buffs make up a significant portion of the viewing audience. The Oscars leave everyone a winner.

For a few hours, we forget our worries and relax in our homes.

The Oscars leave everyone a winner.

Gazing at the Stars

Kristen Bryfogle
Opinion Editor

Sunday saw the most star-studded event of the year: the 87th Academy Awards. This year, Neil Patrick Harris hosted the award show that honors the highest achievements in film according to the Academy of Motion Picture Arts and Sciences. All in all, I thought the Oscars was successful this year, with good-hearted humor from the host, outstanding musical performances and inspiring acceptance speeches.

Harris had a hard act to follow after America’s sweetheart, Ellen DeGeneres, hosted the award ceremony last year. Viewers loved DeGeneres, if not better. Harris was just as good of a host as DeGeneres, if not better. Harris took a few light-hearted jabs at times, like when he sarcastically commented that Meryl Streep’s speech about wage equality for women were spawned by her own low salary. Overall, keeping in tradition with DeGeneres’ non-aggressive humor, Harris made everyone laugh without putting others down. The only comment that really seemed unreasonable was his purposeful “Freudian slip” moment in which he said “reason” instead of “reason” while describing why Edward Snowden could not attend the ceremony.

Harris also had some great costume changes throughout the night, including introducing a speaker in his tighty-whiteys. Other than Harris and a few other stummers like Zoe Saldana, Emma Stone and Jennifer Lopez, I was not impressed with the fashion on the Red Carpet. Many of the after party gowns were significantly more breathtaking than Harris and a few other stunners who often come off as self-absorbed. Jennifer Hudson’s tribute song for the In Memoriam segment of the ceremony was heart-wrenching, especially since many viewers saw their favorite actors who lost their lives in 2014. She definitely showed her performance chops, but didn’t overdo it. Jennifer Hudson’s speech about wage equality for women were spawned by her own low salary. Overall, keeping in tradition with DeGeneres’ non-aggressive humor, Harris made everyone laugh without putting others down. The only comment that really seemed unreasonable was his purposeful “Freudian slip” moment in which he said “reason” instead of “reason” while describing why Edward Snowden could not attend the ceremony.

The only comment that really seemed unreasonable was his purposeful “Freudian slip” moment in which he said “reason” instead of “reason” while describing why Edward Snowden could not attend the ceremony.

The show has its usual drag to the middle, but overall, it was an entertaining show. Harris was a fun and respectful host and the ceremony had an uplifting atmosphere.

This year, when the winners said thank our parents on the phone for all they’ve done for us and Best Adapted Screenplay winner Graham Moore shocked many viewers by sharing the story of his suicide attempt when he was 16, changing young viewers who feel like hopeless misfits to persevere in life.

Players’ Love/Anti-Love Cabaret

Jessica Mahmoud
Staff Writer

The MSU Players accommodated both lovers and haters in their Love/Anti-Love Cabaret in the Commuter Lounge on Feb. 18. This love-themed cabaret had everything from funny poems to love songs and even a tap dancing performance.

Players is a Class I Organization of the SGA. Along with its three main stage shows, MILF performances and other events, the organization also hosts cabarets. This is a time for any student to showcase any talent, usually within a theme. In order to be in a Players cabaret, auditions are held about a week before, where performers audition with the piece they want to perform at the cabaret. Wednesday night’s theme was love.

The Love/Anti-Love Cabaret was a mix of funny and serious acts. With an intermission, the first half included seven singers, one poem, one reading and two monologues. All of the songs were chosen except City and Colour’s “The Girl,” performed by Meredith Pircher and Jaimie Napoleon. The love-themed poem was by Boyscout, who described it as a slam poem. The monologues were by Khadijah Danielian and Julie Dunic. Danielian’s original monologue, “Love Letter,” was a letter to her future lover, speaking comically but seriously about her expectations. Dunic’s hilarious monologue revealed her lover was really just Ben and Jerry’s. Bailey Gilbert did a reading of American comedian Bo Burham’s “I F*ck 5P***.” Gilbert said she did it because she knew a lot of people wouldn’t do anti-love themes and she knew it’d get a laugh. Gilbert said it went well and she had fun.

Travis Love Benson sang an original song and Sad Bellomo sang “The Music That Makes Me Dance.” Benson said he couldn’t pass up the love cabaret because that’s his middle name. As a member of Players, Benson also performed in the Christmas Cabaret last year. He plans on releasing two albums on his Bandcamp on April 1.

The only dancer of the night, Daniel Padierna, gave an amazing tap-dance performance to “Sissy That Walk.” Brendan Maly took a different take on the love theme and decided to show the story of people falling in love in his performance, “Evolution of Love.” With a Macbook in front of him, he told the story by comically using a large array of songs in between his words. Rachel Ritzer read an original poem composed of puns commenting that she did this because she likes puns and Valentine’s Day. She said she also likes visuals, so she grabbed a stress in her performance.

Finally, the last two acts by Meg Foley and Ray Winters went together. Foley performed “Taylor, the Latte Boy” and Winters came out in a Starbucks uniform to perform “Taylor, the Latte Boy, Rebuttal.” This Love/Anti-Love Cabaret definitely showed different views on love and displayed talents of MSU, as always.

Student Artist Highlight

Guitarist and Songwriter, Paul Sun

What is your biggest motivation?

The root of music, especially folk music, is to bring people together. It’s my passion to cultivate that communal energy. You don’t need much, just a guitar and some people to come together.

How has Montclair State fostered you as an artist?

Montclair State has helped me escape my “artist’s shell” — that self-consciousness and anxiety that would prevent me from sharing my work. Here at school, there is always an audience that wants to hear new music.

Who are your biggest inspirations?

I’m my biggest inspiration. When anyone does anything, they have to start with themselves. I listen to a lot of Simon and Garfunkel, The Beatles and Biggie Smalls. All of these artists are known for their lyricism. Connecting with people is what I want to do.

What is your latest project?

I’m currently working on collecting, reorganizing and re-structuring my material. I’d like to consolidate it on some type of anthology. Right now, I like to perform what I write live, allowing the audience to tell me what to keep and what to scrap.

From the classroom to the corner office.

Ramapo College offers eight accelerated part-time graduate degree programs designed to prepare you for the next step in your career. Ramapo’s graduate programs combine classroom and online study to allow students to balance their lives and their education.

We offer graduate degrees in:

• NEW Master of Social Work
• MBA, Master of Business Administration
• Master of Science in Nursing
• Master of Arts in Sustainability Studies
• Master of Arts in Special Education
• Master of Arts in Liberal Studies
• Master of Science in Educational Technology
• Master of Arts in Educational Leadership

What is your biggest motivation?

The root of music, especially folk music, is to bring people together. It’s my passion to cultivate that communal energy. You don’t need much, just a guitar and some people to come together.

How has Montclair State fostered you as an artist?

Montclair State has helped me escape my “artist’s shell” — that self-consciousness and anxiety that would prevent me from sharing my work. Here at school, there is always an audience that wants to hear new music.

Who are your biggest inspirations?

I’m my biggest inspiration. When anyone does anything, they have to start with themselves. I listen to a lot of Simon and Garfunkel, The Beatles and Biggie Smalls. All of these artists are known for their lyricism. Connecting with people is what I want to do.

What is your latest project?

I’m currently working on collecting, reorganizing and re-structuring my material. I’d like to consolidate it on some type of anthology. Right now, I like to perform what I write live, allowing the audience to tell me what to keep and what to scrap.

From the classroom to the corner office.

Ramapo College offers eight accelerated part-time graduate degree programs designed to prepare you for the next step in your career. Ramapo’s graduate programs combine classroom and online study to allow students to balance their lives and their education.

We offer graduate degrees in:

• NEW Master of Social Work
• MBA, Master of Business Administration
• Master of Science in Nursing
• Master of Arts in Sustainability Studies
• Master of Arts in Special Education
• Master of Arts in Liberal Studies
• Master of Science in Educational Technology
• Master of Arts in Educational Leadership

Red Hawk Round Up

Swimming and Diving
Both teams had a busy weekend in New Brunswick at Rutgers University in the Metropolitan Conference Championships. The women finished fourth overall and second among Division III teams. Kathleen French posted an NCAA Division III “B” qualifying time while multiple records were broken. The men finished seventh out of 36 teams.

Men’s Basketball
The men’s basketball team finished their season in Pomona, N.J. facing Richard Stockton. The 77-56 loss ended the Red Hawks’ season with an 8-17 record overall and a 3-15 NJAC record. They were 2-9 at home, 4-8 on the road and 2-0 in neutral venue contests.

Men’s Lacrosse
The Red Hawks had a successful season opener against Rensselaer Polytechnic Institute. Montclair State pulled out a 3-1 win in a frigid contest in Troy, N.Y.

Women’s Lacrosse
The women’s lacrosse team was set to open their season against Drew University, but was suspended at halftime due to a snowstorm. The game will be made up on March 2 in Madison, N.J.

Indoor Track and Field
Both the men and women competed in the Rampo Roadrunner Tune-Up in New York City. The women finished seventh, while the men also finished in seventh.

Both teams will be participating in the NJAC Championships in New York City on Feb. 26. Stay tuned to montclairathletics.com for results of the meet.

Joe Lombardo, Contributing Writer's predictions

While this past Sunday night was focused on the five-hour dissection of designer outfits that followed the red carpet at the 87th Academy Awards, sports fans were given the treat of UFC Fight Night. Fights are not just a living, breathing sport, but also a way to keep MMA enthusiasts interested until next week’s highly anticipated UFC Championship fight. The main card started off with one of the most captivating fights of the night, as Lightweight Santiago Ponzinibbio got the crowd up on their feet early by knocking off then-defeated, rising fighter Sean Strickland by unanimous decision. In a bout highlighted by excellent strikes exchanged between both fighters, Strickland's mat savviness wasn’t enough to slow down Ponzinibbio’s im- pressive attack.

The next two contests were more slow-paced than the open- ing fight but continued the trend of event-ending upsets. Frank Saenz won the Light Heavyweight match by unanimous decision, as he won the three-round favor of Jiri Alantra through a series of takedowns and excellent top-grappling. This was followed by Brad Tavares native Adrian Mart- ins knocking off 14th-ranked Roman Salazar in the Middleweight fight by split decision. Though it looked as if the bout was slowly slipping out of his hands, Martins ended the second round with a huge book that swung momentum in his favor to finish out the final five minutes strong behind two solid takedowns. The tempo picked up in the Middleweight bout as fan “Smil’Na” Alvey knocked out Cezar Ferreira in the first round with a combination of hooks. The action continued, as sixth-ranked Edson Barboza squared off against 12th-ranked Michael Johnson in the co-main event Lightweight fight. Johnson looked like a man on a mission from the moment the first bell rang. Unleashing an arsenal of quick and powerful attacks, Barboza’s leg attacks were no match, with Johnson walking by unanimous decision. Despite the main event not being a championship fight, it couldn’t get any bigger than having the two biggest names in UFC Heavyweight history, Antonio “Bigfoot” Silva and Frank Mir, battle it out in the octagon. The two veterans have recently hit a slump in their careers and both needed a win to etch their place amongst the new names in the top of the division. While predictions on the fight were split because of the uncertainty of which fighter would show up and perform, little was left to debate, as Mir knocked out Silva within minutes of the opening round. While Mir looked like he had some fight left in him, his recent victories come on the heels of an unfortunate turnaround for the career of the highly-accomplished Silva. Even though UFC 61 might not be the biggest, it will keep momentum rolling in the MMA community until next week’s big UFC Championship on March 1.

UFC Fight Night 61 Recap

Joe Lombardo, Contributing Writer

UFC Fight Night 61 Results

Frank Mir def. Antonio Silva via first-round KO (1:40)
Michael Johnson def. Edson Barboza via unanimous decision (29-28, 30-27 x2)

Douglas Silva de Andrade def. Cody Gibson via unanimous decision (29-28, 30-27, 29-28)
Ivan Jorge def. Josh Shockley via unanimous decision (29-28 x3)

UFC 184 Preview

Thomas Formoso

Sports Editor

UFC 184 will see one of the biggest fights in women’s mixed martial arts history, as UFC Women’s Bantamweight Champion Ronda Rousey will face #1 contender Cat Zingano at the Staples Center in Los An- geles.

Rousey comes into this fight with a perfect 11-0 record and disposed of Alexis Davis back in July of 2014 in her last fight. The 16-second knockout earned her Knockout of the Year, as the entire fight was focused on the five-hour action to keep MMA enthusiasts entertained that idea. Of course, UFC 61 might not be the biggest, it will keep momentum rolling in the MMA community until next week’s big UFC Championship on March 1.

UFC 184 Fight Card

Fight Pass Prelims:

James Krause (21-6) vs. Valmir Lazaro (12-3)
Masio Fulleno (9-4) vs. Alex Torres (2-1)
Fox Sports 1 Prelims:

#13 Mark Munoz (13-5) vs. Roan Carneiro (19-9)
Roman Salazar (9-3) vs. Norifumi Yamamoto (18-6)
Dhiego Lima (11-2) vs. Tim Means (22-6)
Derek Lewis (11-3) vs. Ruan Potts (8-3)

Main Card:

Tony Ferguson (18-3) vs. Gleison Tibau (40-10)
Alan Jouban (10-3) vs. Richard Walsh (8-3)
#11 Jake Ellenberger (29-9) vs. Josh Koscheck (19-8)
#12 Raquel Pennington (5-5) vs. Holly Holm (7-0)

Champion Ronda Rousey (18-0) vs. Cat Zingano (9-0)

*Note from the Editor

Next week’s issue will feature a clean slate in the UFC Predictions. Contributing Writer Joe Lombardo will weigh in on his predictions for upcoming UFC events. Our results against each other will be posted.
The Montclair State women’s basketball team won the NJAC regular season with a 24-1 record and have been one of the most dominant D3 Men’s and Women’s teams in recent years. Many coaches and players make it a point to play the game with the team’s success.

The Montclair State women’s basketball team first became a dominant force in college basketball, playing their games at the Red Hawk Arena. The team has enjoyed many successes, including numerous conference titles and a number of Sweet Sixteen appearances.

The reactions, support and how the team handles it will speak to a core idea of the women's basketball team: shared leadership. "A big part of my philosophy," Harvey said, "is trying to make all the student-athletes be a big part of what we're doing and doing it with the state. That's what she said she wanted to do after the final buzzer went off. "I have to tell myself to sit down, after-smile," Harvey added with a smile. "It's been wonderful. It's been a great feeling."

Montclair State heads into NJAC Tournament with home-court advantage

The Montclair State women’s basketball team is hitting the NJAC Tournament on a high note. After winning the regular season championship, the team is poised to continue their success in the tournament. The team has been playing well, and the coaches and players are excited to have the opportunity to compete in the tournament.

The Montclair State women’s basketball team will be playing in the NJAC Tournament on Saturday, February 22, 2015. The team has been working hard to prepare for this important game, and they are ready to put in their best effort to win.

The Montclair State women’s basketball team has been one of the most successful teams in college basketball. They have won numerous conference titles and have been ranked in the national polls. The team has also been successful in the NJAC Tournament, reaching the championship game in 18 years. With this level of success, the team is well-prepared to take on the challenges of the NJAC Tournament.
