Two New Members Join MSC Faculty

Dr. Anthony Pettofrezzo

Dr. Pettofrezzo has taught mathematics in Dunmow High School, the junior and senior mathematics at Wright Aeronautical Corporation, and was assistant professor of Mathematics at New College, New Jersey, before coming to Montclair. He is a mathematician at the White Plains Provost, Grounds, New Mexico.

Mr. Henry J. Sreed

Mr. Sreed taught industrial arts in the public and private schools of New York. He received his B.S. degree in Industrial Arts from the Alpha Phi chapter of Rensselaer Polytechnic Institute in New York City. He is a member of the National Education Association and the National Industrial Arts Association.

Mathematics Department

The Mathematics Department has appointed Dr. Anthony Pettofrezzo as chairman of the Mathematics Department, Mr. Sreed as assistant professor of mathematics. Dr. Pettofrezzo, an alumnus of Montclair State College, received his B.A. and M.A. degrees in mathematics from Montclair State, Mr. Sreed was a native of New York City, gained his B.S. degree in education from New York University where he majored in industrial arts. He received his M.A. degree in the field of safety education from New York University's graduate division. He also attended classes at United States Air Force Academy.

Before coming to Montclair State, Mr. Sreed taught industrial arts in the public and private schools of New York. He received his B.S. degree in Industrial Education from the Alpha Phi chapter of Rensselaer Polytechnic Institute in New York City. He is a member of the National Education Association and the National Industrial Arts Association.

The Mathematics Department has appointed Dr. Anthony Pettofrezzo as chairman of the Mathematics Department, Mr. Sreed as assistant professor of mathematics. Dr. Pettofrezzo, an alumnus of Montclair State College, received his B.A. and M.A. degrees in mathematics from Montclair State. His Ph.D. was attained from New York University.

2 Faculty Members To Retire This Year

President E. DeAlton Partridge announced the retirement of two faculty members: Mr. John M. Sherwin and Mrs. Margaret S. Reed. Mr. Sherwin received her B.A. degree from Columbia Teachers College, where she received her Master's degree. Her experience has included teaching at the Bronx YMCA, from 1922 to 1924, the Pratt Institute in Brooklyn, from 1922 to 1925, and at MSC from 1925 to 1960.

Included in her hobbies is the Modern Dance Company, in which she is dance director. Miss Sherwin has had her choreography for more than fifteen shows. In 1939, Miss Sherwin organized the Modern Dance Company, composed of about fifteen women, which gave annual recitals until 1943. During her tenure at Atlantic City and at the Carniv al Division of the World's Fair in Miami, she was the director of the Carnival. She also directed programs at the Women's Democratic Honor Society and the National Women's Democratic League. She has been on the faculty of Montclair State College. He is a member of the National Education Association and the National Industrial Arts Association.

Dr. Pettofrezzo is the president of the Montclair State College chapter of Kappa Mu Epsilon, the national honor society for mathematics majors. Dr. Pettofrezzo is replacing Mr. Lawrence J. Reed, who has been an assistant professor of mathematics at Montclair State College for three years and recently resigned to take a position as chairman of the Mathematics Department at the University of North Carolina. He is a mathematician at the White Plains Provost, Grounds, New Mexico.

Social Studies Conclave To Be Held On March 5

The Twelfth Annual Conference of Teachers of Government and Related Subjects will be held at Montclair State College on Saturday, March 5. Teachers and students from many of the various universities that have attended this conference in previous years have been invited to attend this conference which is being held in conjunction with the School of Social Science.

The program includes an initial welcome by President E. DeAlton Partridge, followed by an address by Peter F. Drucker, author and management consultant. All students are cordially invited to attend the program beginning in Memorial Auditorium. At 11:30 a.m., three seminars on international affairs will begin in the conference rooms. The seminars on Latin America will concern "Economic Realities." Attending this meeting will be Con Alvaro Aguirre, Republic of Mexico; Conal Gregory, Republic of Cuba; Deputy Consul General Eibaldo Tilles Machado, Republic of Brazil; and Chairman, Benjamin Koen from Newark City State College.

The conference on Africa will concern "Social Realities." Attending this will be David Scanlan from the Africa Institute of Columbia University. The conference on Asia will concern economic realities. Attending this will be Charles Brown from Peterson State and Stanley N. Werton, Jersey City State College.

Dr. Rufus D. Reed, chairman of the Social Science Division of the World's Fair Committee, will address the conference and will work with the various groups that will be discussing the various topics that will be covered.

Preserve Speakers In South Carolina

Last Saturday, Dr. Bruce E. Robinson, chairman of the Mathematics Department at MSC, spoke at a seminar at the University of South Carolina, sponsored by the North Carolina Education Association.

In the morning, Dr. Robinson spoke on the topic, "Secondary School Algebra, Its Structure and Content." In the afternoon, he delivered an address entitled, "Secondary School Geometry, Its Structure and Content.

Each talk was concerned with the experimental program of the School Mathematics Study Group, the recommendations of the Commission on Mathematics of the College Entrance Examination Board and an introduction to relatively new mathematical concepts needed for understanding these recommendations. Also, Mr. Reed's talk was an emphasis upon the logical structure of the mathematics underlying each branch of mathematics.

Dr. Alyea Of Princeton To Lecture In Assembly

Dr. Robert H. Alyea of Princeton University will be in the first program in a series of lectures to be held by the Board of Trustees of the Student Government Association for assembly purposes. The lecture program will begin on March 15, 1960 at the regular assembly time, 10:30 a.m.

This lecture is a popular one on "Psychology and Puns: Weepers for Peace." The program is one that will interest both laymen and scientists. Dr. Alyea will trace the growth of ideas which led to the tapping of human potential for war and for peace. This lecture will be preceded by a panel discussion on radio and television in relation to politics and current events. The lecture will be held on March 15, 1960 at 10:30 a.m.

Dr. Alyea is a psychologist and a professor of psychology at Princeton University. He is a member of the Princeton University faculty since 1945. He has been a consultant on psychological research to the Department of Defense, the Office of Naval Research, the Atomic Energy Commission, and other government agencies.

Building Plans Formulated By Architect Arthur Rigolo

Perhaps one of the most important questions asked on campus today is, "What about our building program now that the Bond issue has been passed?" Mr. Arthur Bigelow of Clifton has been appointed by the State Board of Education as architect for the MSC building program. Also working with Montclair are Dr. Clovis Rusty, Director of State Buildings and Mr. Harold Missler of Dr. Westby's staff. These men have met many times with the Administrative Council and the department chairs in an effort to get the program started.

Long after the agenda is the renovation and remodeling of the Administrative Building. Students are cordially invited to attend the last until last because it bears the most directly on student life. When work is begun, the most and best in education will be rendered in the same style but the inside will take on a new look. The building will have offices, classrooms and audio-visual equipment and laboratories.

Building plans are being formulated by architect Arthur Rigolo. It is hoped that upon completion it will be the best building in the state.

Last on the agenda is the renovation and remodeling of the Administrative Building. Students are cordially invited to attend this meeting until last because it bears the most directly on student life. When work is begun, the most and best in education will be rendered in the same style but the inside will take on a new look. The building will have offices, classrooms and audio-visual equipment and laboratories.

With all of the work soon to get under way, the bond issue must be co-operated with in order to provide beyond the men's dormitory since there are many radio and television licences in the building.

Mr. Robert Sterling, Director of Athletics at Princeton, will be on hand to deliver the address entitled, "What about our building program now that the Bond issue has been passed?" Mr. Arthur Bigelow of Clifton has been appointed by the State Board of Education as architect for the MSC building program. Also working with Montclair are Dr. Clovis Rusty, Director of State Buildings and Mr. Harold Missler of Dr. Westby's staff. These men have met many times with the Administrative Council and the department chairs in an effort to get the program started.

Question: Do you believe that a discussion on the subject of "Cheating in College" by faculty members and the student body at MSC would produce any results?

John McGraw

societal studies

Yes. I believe that a discussion on this sort would produce any significant results. It may, however, make the people concerned more aware of cheating and that something is being done about the situation. The amount of cheating that goes on in a classroom depends upon the instructor. If an instructor is respected by his students the cheating is at a minimum. There are some students who are determined to cheat regardless of who the instructor is. These are the students who create the problems of cheating in college. If the problem is to be solved it cannot be by discussions but rather by cheating with the individual.

Margaret McNeil

social studies

I don't believe it very much. In the first place the students who would be willing to enter into such a discussion are probably the ones who really would benefit from it. Cheating is an individual thing. If a person feels that he must cheat he will keep it to himself, no matter what the rules or regulations. I do think however that teachers should try to discourage cheating and not make it an easy thing, that is as much as they can do.

William Lane

psychology

I don't believe that a discussion on the subject of "Cheating in College" would produce any results, since as college students, our ideals should be set and this problem shouldn't exist. Looking at it logically, we will be "on the other side of the fence one day," and we wouldn't justify or advocate cheating.

Frank McNaull

A discussion on the subject of cheating in college would simply refresh what practically every student and faculty member at Montclair already knows.

Edward Beacham

A discussion on this topic would be pointless mainly because the direct responsibility of cheating lies in the student's moral character. A discussion would not get anywhere because the direct responsibility of cheating lies in the student's moral character.

We won't see any substantial results. Only when enough people realize that everyone suffers by the actions of a few cheaters and that a knowledge of the cheating should not even be present.

Harriet Mandleberg

No. I believe that the students who are now cheating will continue to do so and a discussion on the matter will prove nothing. The solution to the problem lies solely on the faculty. If only one copy of this is kept by the instructor and tests are correctly proctored, the problem would not exist.

Karen Barbour

CHIT CHAT:

I don't believe that a discussion on this topic would be pointless mainly because the direct responsibility of cheating lies in the student's moral character. A discussion would not get anywhere because the direct responsibility of cheating lies in the student's moral character.

Edward Beacham

The faculty has the honor and the students have the system. The discussion is of no use because it is a discussion about a topic that is not beneficial. Although we are preparing to be educators some people may not get the idea of taking the easy way out and so no amount of discussion would change this attitude.

Frank McNaull

physical education

I don't believe that a discussion on this topic would be pointless mainly because the direct responsibility of cheating lies in the student's moral character. A discussion would not get anywhere because the direct responsibility of cheating lies in the student's moral character.

Montclair State Conference Champs

Defeat GSC In Crucial Contest 88-75

There was great jubilation after the heavy defeat of the perennial powerhouse Glassboro, in this particular Saturday afternoon. Outweighed by 35 pounds, Tommy Thompson, who weighs 185 pounds but pitted through a 200-pound defense, managed to hit his shots against his massive adversary. The turn was over, and in the first half hit 17 for 7 points. Thompson, who wrestles in the 167-pound division, emerged, his foe pinned and the drama. Five minutes later Chuck Mezerek squared off to his opponent and when nine seconds, of playing time. Montclair, however, was victorious. The team score was an even 11-11. Undefeated Chuck Mezerek turned in a sizzling lap and after the first twenty minutes of play, Montclair was ahead 88-75. The contest continued into the lead in the second half but with 11 minutes remaining the Indians and Glassboro had a slim margin, 78-77. The Indians and Glassboro leaders, who wrestle in the 167-pound class, scored enthusiastically for both teams. The Indian team, however, had the upper hand and took the final stage. The east coast wrestling team, which is the best team in the nation, led the way for the Indians with a sensational and exciting team score of 157-115. Victor Mezerek was also responsible for some fine defensive work and pulling down 18 rebounds. The Indian team, however, had the upper hand and took the final stage. The west coast wrestling team, which is the best team in the nation, led the way for the Indians with a sensational and exciting team score of 157-115. Victor Mezerek was also responsible for the Indian team's victory.
