Ambry will be a group discussion on the integration of outdoor education of deans and professors regarding the purpose of the integration. The discussions will be to cull the opinions of Lawrence Conrad and Edward J. Ambry, who will take part in the Midwest Outdoor Education Conference on Mathematics of the College of theختamental Eiffel Tower out.
In Memoriam?

No, no one has died. But the Junior Class is so infected with a lack of unity, interest and participation on the part of more than just a few members that there is no hope left for it. So, we might as well write our epitaph for it now.

But before we do, let’s ask ourselves a few questions. Why is this class dying? Well, it seems that members of the Junior Class never realize some very common words. These words are unity, cooperation, interest and participation.

Special Bond

They never learned that members of a class have something in common with each other, that is a special bond which exists, or should, among them. The mere fact that they all will, in time, go their separate ways will do little to keep them close as friends.

Cooperation really can’t be discussed in connection with this class. Conceivably you can’t have cooperation if there is no unity at the base. It is not even necessary to discuss participation, for it doesn’t exist. And it doesn’t exist because there is no interest.

Why Bother?

Why is there no interest? This seems to be the crux of the whole problem. It doesn’t exist because the class members don’t care. Why should they care? If the Junior Class falls apart it won’t make a dint in their lives. So why should they bother? Life will go on as usual.

Small Nucleus

Of course, this lack of interest doesn’t apply to the whole class. A small nucleus of individuals, especially the class officers and representatives, have tried to do something with the class.

In the fall semester they were successful in rerouting class spirit and making the Band Dance a huge success. They even started a class paper in the hopes of effecting unity. For without a general background we shall be left to our own devices and that can be a dangerous thing.

Mert Simp

To a certain extent, extra-curricular activities should be limited. Some students try to do too many of these activities and feel they have no time to offer their time and best work toward.

William Toomey

No, I feel that as college students, we should be able to realize our time. We all should know how much time we can afford to spend on extra-curricular activities and we should have the sense to participate only in as many activities as we feel we can devote our time and efforts to.

Ralph Weinberg

Social Studies: No. I feel that as college students, we should be able to realize our time. We all should know how much time we can afford to spend on extra-curricular activities and we should have the sense to participate only in as many activities as we feel we can devote our time and efforts to.

Tozer Coffey

English: I do not think that the number of extra-curricular activities which a student is engaged in should be limited. A college student should be mature enough to know how much time he has to spend in extra-curricular activity. Therefore, he can budget his schedule accordingly.

Carole Driggs

Social Studies: No, I do not think that the number of extra-curricular activities which a student is engaged in should be limited. A college student should be mature enough to know how much time he has to spend in extra-curricular activity. Therefore, he can budget his schedule accordingly.

Let’s Try!

Come on fellows. How about it? It’s my class as much as yours. When I graduate I want to be able to look back and realize the wonderful class I had. How about it? What say we all make a big effort to make our last event of the year, the April 30 dance, a rip-roaring success? What say we show the school we have a class that can be looked up to, one that we can be proud of?

Junior Class Meeting

The next meeting of the Junior Class will be held this afternoon at 3:30 in room 26 of the Administration Building. All juniors are urged to attend their class meeting.
The Art of a Woman Driver
by Angelo Costa

Driving a car can be enjoyable, especially if you always know what you are doing or trying to do. Knowing the rules of the road is quite important; adhering to them will make life easier for you and for the other drivers, and easier to get along with them the way you want to and use the roads as they are intended.

You must remember, though, never to get caught breaking the law.

After having given your car a good going over and seen your seat belts securely fastened, your clothing permits, allowing room for everyone, and weather, or allowing an appropriate signal word which will put other drivers on guard as to your intentions or puzzle them to a halt.

tickets for the concert will go on sale for $3. Motion passed unanimously.チャー

A motion was made by Jim Treolar, and seconded, that the concert on May 5 is coming; it really is. Wes Reonicar, a student from Poland, to study at MSC for a year. Motion was passed unanimously.

A motion was made by John Becker, seconded by Ty Gjermundson, that the inquiry committee, blow up the Ad Building. This will keep stray girl scouts from getting lost in the woods and finding people who are straying. This will add a nice rosy color to the woods and bring pleasure to the men of Phi. This is progress: Both teachers' and student participation is dedicated to the achievement of our purpose of which is to add color to the men of Phi. This is progress: Both teachers' and student participation is dedicated to the achievement of our purpose of which is to add color to the men of Phi. This is progress: Both teachers' and student participation is dedicated to the achievement of our purpose of which is to add color to the men of Phi.

A motion was made by Art Lepow that we send President Mullins to the ­building to the public for $3. Motion was passed unanimously.

Answering Coach Bill Distefano's questions, the players chose Tuny Miyuela as the starting catcher. There were four catchers and nine pitchers on the roster. Pat Leporati, Pete Leonard, Dave Peterson, physical education major, and the Bill Starkel, Tom Starkel, Bob Stirling, business education junior, and Jim Frazier, physical education sophomore, were also available.

Three veterans of last season's pitching staff started work toward an opening day on April 5. They were Jerry Golembeski, physical education junior; Iggy Cottone, math junior; and Jim Picatto, physical education junior. Russell Boyle, an English junior who missed last season after putting a fine record in his freshman year, was also available.

Mising was Tony Macia, Industrial arts junior, who has been a standout for the past two seasons. Tony was outstanding in his freshman year, posting a 7-0 record, and his total record was 9-5 when he left to total last year. Most needs eight more wins to tie the Montclair record. Eight victories won by a pitcher. Billy Rolph in 1951 gave the Mustangs an arm injury sustained in the opening game of the season in 1950.

Perry Kitchin, industrial arts major from Lakewood; Perry Leporati, a University of Washington High; Jack McCormick, Physical Education major from Wood-Ridge; and Joe Staub, physical education junior, are all Midland Park are the new freshmen

Frank Fernicola, Wood-Ridge and Joe Staub, physical education junior, will also be available.
