"Save-the-Hill" Committee Formed; Its Facts Behind Issue Presented

As this issue of the Montclairian goes to press, many petitions have already been circulated by the "Save-the-Hill" committee.

The purpose of this committee is to prevent a school construction program which has the potential to destroy the open spaces of the Montclair State College hill area.

Map of MSC campus with the area under discussion indicated.

Juniors to Attend Rutgers Program

Dr. Ernest B. Fincher and other social studies majors, seniors, and students of the Social Studies Department, will participate in a meeting with Cecil Underwood, Governor of West Virginia, who is the current president of the Social Studies Department.

Field Studies Scholarship Awarded to James Powell

Edgar C. By is the recipient of the Field Studies Scholarship, awarded to student social studies majors.

On “Save-the-Hill”

A “Save-the-Hill” Committee has been formed to prevent the destruction of the hill located behind Finley Hall. The committee aims to present a report, with one hundred feet of signatures, to Dr. Frederick, President of Education, through Dr. E. DeAloron Partridge, urging the preservation of the hill.

One Side

I sympathize with the advocates of the petition. This hill is a pleasant sight and does add a touch of beauty to the campus. It must have room for expansion. Within a few short years Montclair will be bending over backwards. Should the college expand? The answer to this question is needed. These are only a few things.

The Other Side

I sympathize, too, with the Board of Education in its intent to level the hill. The Board realizes, as I do, that the college needs a new library already. Even while writing this editorial, I have mixed feelings.

Expansion Necessary?

Of course, these things are only needed if the college expands. Should the college expand? The answer to this question is obvious. The destruction of the hill would not be necessary. But, as the situation presents itself, no other plans seem possible. If you could see the aerial view of the campus and the surrounding area, you would realize how we are hemmed in by the surrounding area. The college must expand. The most likely place for expansion is the hill.

Hemmed In

Naturally, if an alternate plan for expansion were possible, the destruction of the hill would not need to be necessary. But, as the situation presents itself, no other plan seems possible. If you could see the aerial view of the campus and the surrounding area, you would realize how we are hemmed in by the surrounding area. The college must expand. The most likely place for expansion is the hill.

Mixed Feelings

Even while writing this editorial, I have mixed feelings about the hill. I am not the only one who feels this way. Mr. Partridge and others do. We know that the hill is practically a tradition at Montclair, that it makes our campus beautiful. We know, too, that we must expand.

Open Hearing

Much controversy exists in this situation. Dr. Partridge feels, as I do, that it is a matter about which we should all be informed. Therefore, an open meeting will be held on Thursday at 4:30 in the College High School auditorium. At this time facts behind both sides of the issue will be presented. I strongly urge everyone, faculty and students, to attend this meeting. It is a matter of utmost importance to all of us.

Fact, Not Fiction

While, please be guided by fact and not fiction. Please read the story on page one of today’s issue. Please don’t let your emotions be your only reason for signing a petition.

Agorians to whom tradition means a keg of beer. There will be no restriction on who can play, and any of the select few (those who arrive after the 12:00 A.M. hour) will be let in. Also they are at least making a contri- bution to their school and writing articles which bear enough of a similarity as to have an understanding of the materials it con- tains. The individuals you call “dumb” are also well-meaning souls who fail to meet your high standards of journalism and reporting. We are not allowed to write anything, but feel you have hidden within many subjects that you wish to write about, why not try!

Dear Sir: Unfortunately, our snack bar facilities cannot be used by all the select few (those who arrive after the 12:00 A.M. hour). However, we are not the only ones who feel this way. Mr. Partridge and others do. We know that the hill is practically a tradition at Montclair, that it makes our campus beautiful. We know, too, that we must expand.

Letters to the Editor

OPEN LETTER TO

EVERY MONTCLAIRIAN

Congratulations for attempting to be better the work, efforts, and accomplishments of the many con- tributors of the “Anny Young Men” in your March 10 letter to the editor. Your hypercritical analysis certainly revealed that you have an impressive vocabulary and authoritative approach to writing, but that you have very little knowledge of human nature. Although I myself have not con- sented to this column, I have written articles which bear enough of a similarity as to have an understanding of the materials it con- tains. The individuals you call “dumb” are also well-meaning souls who fail to meet your high standards of journalism and reporting. We are not allowed to write anything, but feel you have hidden within many subjects that you wish to write about, why not try!

Russian Geographer Visits
MSC Honorary Society
by Bill Staper

Montclair State College was distinguished by the presence of the first Russian geographer to visit the United States at the Gamma Theta Upsilon meeting Wednesday evening. March 16. Mr. Alexei Poleshchuk spoke on "The Geography Program at Moscow University," touching also upon the places of geography in Russia.

"It is a great pleasure to be here," he said, "and I extend greetings to the U. S.

Mr. Poleshchuk told of the Russian educational system, which features only high school and higher school. Higher school is divided into two grades: nine- and ten-year programs. Following this, a student may enter Government Grammar School, for practical experience. He may then go on to a special school for training in a special trade or to an institute or Moscow University, depending upon his qualifications.

Education in the high school is the same for all with stress being given to science. The first geography subjects begin in the fifth grade. Education is compulsory in the seventh grade. If a student

Graduate subjects in history, economic geography, regional geography are but a few

The State Board of Education in the high school is education in the humanities: writing, languages, and whatever else, a balanced cultural atmosphere in which to become better acquainted socially with students.

Those who do not accept a commission's choice lose their appointments. Those who accept the commission's choice have limited choice. Those who do not accept a commission's choice have limited choice. Those who do not accept a commission's choice have limited choice.

Mr. Poleshchuk being President of the American Association of Geographers, was invited by this group to speak.

SAGE Minutes

The twelfth regular meeting of the SAGE Board was called to order at 9:00 o'clock

The meeting was called to order at 9:00 o'clock. The following members were present:...
Spring is officially here and along with it comes one of N.J.'s most popular sports, baseball. Montclair State College's baseball team is no exception. In the past three weeks, every afternoon, Coach Dick Cassavell will have been working his boys in preparation for the team's first game of the season. The team's first game will be at home on April 5. Coach Dick Cassavell feels that there is a true desire among all the players on the team to win, especially in the last game of the series.

dio Guardi Speculates
On Coming Season
