THE recipients of the Margaret B. Holts foreign scholarships are from left to right Robert Freda, Maryann Sagen, Angelo Pelko, and Stephen Motolle.

MONTCLAIR STAFF

ASSISTANTS ELECTED

At a meeting of the editorial board of the Montclarion held on Wednesday, April 13, new editorial assistants were elected.

The new assistants are Linda Reinhart, feature editor; Don Groen, associate editor; Paul Fitzgerald, sports editor; and Ken O'Hara, assistant typing editor.

Camp Offers

Summer Courses

The New Jersey State School of Conservation is operated by the State College of Education and the Department of Conservation and Economic Development. During the summer months, the school offers educational programs to provide for professional growth, certification, credit, degree, retraining, and summer camping experiences.

The course offerings for the summer of 1960 include the following two-semester courses: Biology 265, Introduction to Field Biology, instructor: Dr. Marve Koenig; Industrial Arts 443, Use of Basic Industrial Materials in Industry, instructor: Dr. Joseph Duffy; Geography of New Jersey, instructor: Dr. Bertrand Boucher; and Education 424, Professional Education, instructor: Dr. Joseph Redd.

The Summer Session includes the following courses: Biology 268, Community Science, instructor: Dr. Jack Locicero; Biology 269, Introduction to Microbiology, instructor: Dr. Martin Lefward Hellegers; and Education 425, Education of the Exceptional Child, instructor: Dr. Michael S. Sobell.

Several members of the Mathematics Department of MSC are attending the conference. Dr. Sobell, who was a member of the steering committee of the Evaluation Yearbook Committee, attended all meeting at which the book was sold. This is the twenty-sixth yearbook of NCTM and it will be published in April of 1961. Dr. Sobell wrote one of the chapters in the book which he dealt with test construction. He will also attend the meeting of the NCTM Executive Committee to plan the 1961 summer meeting.

Dr. Eric M. Silverman will attend a meeting of the Board of Directors and present a seminar in nautical architecture at the University of Montclair.

SGA Elections

As this issue goes to press, seventeen people have announced their candidacy for Student Government Association offices. Since only six people can be elected, it is evident that there will be some strenuous campaigning.

We suggested in our last editorial that voters seek out their candidates, talk to them and question them about their views. We have noticed that some of our students have been doing this. Every student pays SGA dues and receives an SGA card. Therefore, every student is eligible to vote. As a potential voter every student has the right to question the candidates.

Some students say that there isn’t much about which to worry and why should they worry because how much can the SGA do with their $36 dues? But, stop to think. When you multiply the $75,000. This figure speaks for itself.

The number of students by $36 each, the total figure is more than with their $36 dues. But, stop to think. When you multiply the $75,000. This figure speaks for itself.

Interest in Archery Stimulated by Clinic

Flagging interest in archery in schools and colleges in New Jersey has prompted action on the part of the American archery enthusiasts, physical education teachers and facilitators of archery tackle to revive the sport.

The first step in this program was the promotion of an archery clinic, sponsored by the Physical Education Department of Montclair State College, and directed by Mrs. Hazel Keen, archery instructor at MEC.

World champion archer, Mrs. Ann Weber Kerby, who is also an MEC graduate of 1943, gave a perfect shooting form by hitting the golden center of the target with all six of her arrows. She also assisted in teaching those who attended the clinic. Many of the school teachers, who were instructed in the above, and by their help, will be able to teach beginners at the local archery ranges in the state.

In The Year Of Our Ford

by Alan Lewis

Perhaps the most brilliant, profound and terrifying evocation of what I believe to be the American is the pedestrian! And come the nation's greatest single transformation is, a little awe-inspiring. In less than sixty years, the American, poor dolt, not only became fatter she became, and the fatter to the growth of her demands. She developed ever more costly eating habits, she was new, she was gay, she was the huge pile of past mess that building by a "steak free," had been lying in the gutter until short, with Dr. Parsons' side of the administration building offsetting.

Volunteers to Unlimber

At Paul Bunyan Cleanup

Paul Bunyan Day, which takes parking lot might be speeded, and place on April 23, appears to be a shingle will be placed. True, there will be a good opportunity to see the huge pile of peat moss that reaction Building by a "steak free", campus as well as offer a good time For the many people who are al-will be here the chance to show them to unlimber our shabby campus stuff. According to Ernest B. Conservator, objective is to make visitors. Since this day, which promises to the Archery Education, Physical Education Department, and Montclair State College, will be a "steak free" day, and the students will be able to demonstrate the various archery ranges in the state.

The Scene of students participating in last year's Paul Bunyan Day.

Once upon a time, the American young man was in love. Unfortunately, this led him to think about the possible fates of his true love, and he happened ever after. Cooler heads could have told him the affair was doomed from the start, for in the less enchanting aspects of her character, she began to demonstrate her previous willingness. Wherefore, he joyfully sought to make judgments in the world where freedom lies dead and our concepts of morality are forbodings and shinings and gifts. She did what she could have told him the affair was doomed from the start, for in the less enchanting aspects of her character, she began to demonstrate her previous willingness. Wherefore, he joyfully sought to make judgments in the world where freedom lies dead and our concepts of morality are forbodings and shinings and gifts.
Montclair Takes Second In Mile Relay, school records at the Quantico Relays. Bill Monahan and Wes Rehberg led the Montclair 440 relay team of Bill Monahan, Jim Piscatore, Bill Monahan in the first turn and moved up into first place but was caught in the second half as to the final outcome. The race was run in three sections, the final standings were determined on a time basis. Bruce Morgan led off the first 440 leg in 59.4 seconds and handed off the baton to Bill Monahan in the second turn. Bruce Morgan led the race up the program as the run applied against the game. Ed Beachem engineered several intricate scoring situations and placed fourth in the quarter mile leg, and Montclair's top two-miler. The Rams will be the recipients of a victor's trophy and each individual on the team will receive a medal. The Hawks, in second place to Jim Weigand, beat in the Collegiate Track Championships, Ron represented the United States drumming a wish of over six million Jews. In 1936, the Olympic Games were held in Berlin. Jesse Owens won the broad jump. He stood up and sat down right after the race. . . . It was difficult for him to pass it off as a lucky incident. He remained calm. A little while later, Jesse Owens won the broad jump. . . .
