Carnival This Weekend

Trenton Greets Kenneth As MSC Welcomes Woods

Dr. Steede M. Kennedy has been reappointed, for a third year, as professor of education at Montclair State College for the academic year 1960-61. He is also president of the Pennsylvania Education Association and is on the editorial board of several educational magazines.

Dr. Kennedy will be editor of the Missouri State College Educational Review and will be responsible for editing the Missouri State College Educational Review and the Missouri State College Educational Review and the Missouri State College Educational Review. He is also on the editorial board of several educational magazines.

Snack Bar Complaint

For quite some time we have been hearing complaints about the snack bar. The most frequent complaint is that it is not open long enough.

Let's examine this statement. The snack bar opens every morning at eight o'clock. On Mondays and Wednesdays it is open until five o'clock, on Tuesdays and Thursdays until seven and on Fridays until one-thirty. It is closed on Saturdays and Sundays.

Is this sufficient time for it to be open? No, it is not!

Fridays

There are several other times when the snack bar should be open. The first of these is Friday afternoon. Friday is about the time when one could renew energy after one's classes, one could sit in the snack bar and chat with a friend. How nice it would be if a student could go to the snack bar for an evening for a cup of coffee and a sandwich, after he has spent several hours working in the library.

Saturdays

Second, the snack bar should definitely be open on Saturdays for the first time at 10:30 a.m. and the cafeteria at 11:00 a.m. It is not too early for students to be hungrier after having attended the morning classes.

Open Assembly Hour

Third, the snack bar should be open evenings until at least nine o'clock, if not later. We constantly complain of a lack of a vending machine in the snack bar. True, there are vending machines in lower center, but who enjoys drinking his coffee while standing in front of the vending machine?

Fourth, the snack bar should be open during the assembly hours. The students must have something to eat and then return to their classes. The snack bar should be open, but we realize that it can be difficult for the administration to do this.

We strongly urge that the snack bar be opened the extra hours. Last year, for a limited number of students, we were permitted to open the snack bar these extra hours. This is our contention that discretion be used here. If this practice becomes common, we certainly would support it. We would like to print some of the comments on these extra hours of operation. We have noticed a number of new organizations on this campus which require the use of the snack bar during these extra hours.

Congratulations!

Congratulations to the administration, particularly Miss Margaret Sherwin, for granting female undergraduates permission to wear bermuda shorts during final examinations. This is a welcome relief.

George Shearing, providing the musical entertainment at a recent benefit evening, was smashing (to use a reference of his music—his love for Britain). However, this reviewer did not feel that he gave what he had to offer to the audience. After all, the plan of the band held the audience captivated. His solo of “This Year’s Love” was impressive. Ably accompanied by his quintet, he played several medley’s of songs from his recent albums.

Certainly the most fantastic and fabulous sound board ever was “Memphis in Miami,” an original composition by a beguiling Afro-Cuban named Schwartz. The combo, which also included bass, drums, guitar, and vibraphone, created a musical magic that I can only imagine on that “Old Devil Moon.”

Shearing’s remark, “It was a beautiful time to be a musician,” may have struck a pang of regret in the hearts of the members of the SGA board. Comparing the cost of the concert to the ticket receipts undoubtedly revealed a deficit.

The SGA Spring Concert, an enjoyable and entertaining production, could have been improved if a platform was provided, so that everyone of the performers would have been more easily visible. And, if the technical coordination was handled more effectively.

Carnival fundraising, which won the Pulitzer Prize in 1973, was not a bad curtain for a first act.”
SMOKE SIGNALS

by Wes Rehberg

An unusual thing happened in the Montclair State track meet. A scholarship athlete, with a seven-year winning streak failed to show for a scheduled meet as a matter of ‘principle’.

This word principle could be interpreted in many ways but track coach Jerry Bowers stated that he felt the only principle involved was the fact that Central State’s 41 meet winning streak was dangerously on the line. Montclair had previously triumphed on the Qin-Quin relay, 880-yard run and javelin.

The Indian squad has been growing in strength and power and will be favored to win the meet, according to Captains Bill Sokolow and John Bullis.

A great new movement has been to have trackbars that do not build ‘muscle’. The spring athletic posture of the Southern California Athletic Conference is that as the team is improving he feels the only principle involved was the fact that Central State’s 41 meet winning streak was dangerously on the line. Montclair had previously triumphed on the Qin-Quin relay, 880-yard run and javelin.
