Food Committee Finds
Cleanliness Still Problem

The purpose of the Food Committee is to coordinate the activities of the personnel who work there, the food that is served there, and finally, the atmosphere and cleanliness itself.

Members of the Food Committee include Betty Martin, Mona McGlinney, Penny Costa, Bill Rawson, Henry Schmidt, co-ordinator of Dining Services, Doreen Bond, co-ordinator of Board, and Mrs. Donald Partridge, wife of the president of the Alumni Association. Part-time employees, Tribble, co-chairman, have expressed their interest in improving the cleaning operations and their work is expected to be of great help in the cleaning for the students and alumni.

Suddenly it's 1960... and it's time for a change!

Last week we heard quite a few complaints about fraternity procedures. Some students said that Tau Sigma Delta held its smoker too early. (It was held on Thursday, September 29, at 9:00 until 11:30 a.m. On Monday evening it was again open on a trial basis from eight-thirty until ten in the evening. Tonight it's off limits to underclassmen. Montclair's allocable element is looking for a new place within whom the police and the students can form an Inter-Sorority Council.) The voting on this took place on February 16, 1959, over a year and a half ago.

One Solution

It would appear that something must be done about the fraternity situation on this campus. There are two possible solutions. One of these is the formation of an Inter-Fraternity Council, a representative council invested with regulatory powers. A member of such a council said, "I think that representation in an Inter-Fraternity Council should be mandatory for all fraternities."

Another Solution

The other solution is for everyone to mind his own business and let each fraternity do as pleases. But this is not possible on this campus because fraternities are too power conscious. Each fraternity is too eager to grab the "right" men, men who show signs of becoming leaders in other school activities, the men who are other organizations such as the Newman Club, comprised of both females and males. Does this make them ineligible? About that I,

The President Speaks

When I first came to Montclair State as an assistant professor of psychology in 1937, the entire student body numbered no more than 1,000. Today, the students are over 6,000. The faculty numbered about one hundred. There was no need for parking lots, the need for administrative officers was unnecessary. Other fraternities also refused to ratify the proposed constitution. This would make the fraternity situation on this campus. There are two possible solutions. One of these is the formation of an Inter-Fraternity Council, a representative council invested with regulatory powers. A member of such a council said, "I think that representation in an Inter-Fraternity Council should be mandatory for all fraternities.

Support Snack Bar

Last Saturday the Snack Bar was open on a trial basis from 9:00 until 11:30 in the evening. On Monday evening it was again open on a trial basis from eight-thirty until ten in the evening. Tonight the hours will be the same as Monday evening's. This undertaking represents a wise decision on the part of the Saga Food Service. They are under the impression of giving students more service. We strongly urge you to support your school's Snack Bar.

QUESTION: Recently a proposal for awarding dual prizes (Ex: one fraternity, one sorority) for Homecoming was brought to present at this meeting of the Boosters Association, how would you vote on this?

Eleanor Lindsay speech

Speech Competition for prizes for homecoming has always been a point of argument. It is a difficult thing for the administration to be on level with a skilled departmental group, with too much of its own issuance. Dual prizes are awarded to two groups—one for the male and one for the female organizations. The prize must be awarded to two groups—one for the male and one for the female organizations. We have enough social groups, rather than "strongholds" of college politics.

Wise up men. Organize and act sensibly.

Montclair Attends NSA Congress
Summer Convention in Minnesota

WILSON TO ATTEND CHAPIN RECEPTION
A reception will be given for Wilson on Sunday, June 3, at 3:30 p.m. by Dr. Harvey C. LeRoy, the newly appointed director of music and chairman of the Music Department at Montclair.

Dr. Wilson has held the position of Director of Music for the Cin-
cinnati public schools since 1940. As guest conductor of the Cin-
cinnati Symphony Orchestra, Dr. Wilson led the orchestra and a chorus of 600 children's voices in the world premiere of the Queen City Suite this past May.

Before becoming Director of Music in the Cincinnati schools, he was chairman of the Department of Music at the University of Rich-
more. He has had extensive experience as a music teacher in both New Jersey and New York.

Dr. Wilson succeeds Dr. Edward A. Bowerman as director of the Music faculty at Montclair State College for the academic year 1960-61.

Panzer Graduate
For the new students on campus, Dr. Wacker has been the director of the Camp program for the past year, and the class of 1959 was the first to benefit.

Panzer Young Man
Panzer's coming to the University of Minnesota's campus from August 22 to September 1.

"Mr. Chairman, the delegation from New Jersey casts . . ."

Letters to the Editor

Dear Editor:

Have you noticed the enormous increase in the number of photographs which now exchange hands faster than the words in a headline. The latter are so much more perishable that their significance is lost in a single day. They are a mean of communication, but the results of this work are a storehouse of the best of the student ideas and the love of beauty.

"Ney." Then, as I shifted the shot understanding and smiles of a class in track and field athletics for Afghanistan.

Factors of their diet and climate

V Athletes and No Limitation

I continued to observe throughout the year at the amazing toughness and prowess of people there who had not been trained in the formalized system of athletics. I must confess that I had my dreams of my mythical rope trick. I must measure the richshaw runners success and fame by the easy route mostly broken down old men who needed their rickshaws for support, and whom I saw working around the clock. From my familiarity with the area.

However, I saw too many evidences of people there who had not been trained in the formalized system of athletics. They feel to be the serious limiting factors of the people there.

The Olympics

In conclusion, I should like to make a brief comment on the track events. The Olympics. Although I, too, was shocked to witness the failure of America's top athletes to live up to American expectations, I was even more shocked to see how much better the American pro teams in the exclusion of the great many more outstanding performances (including the American fans) turned in what was an overall wonderful, exciting, and beautiful competition during the year, I am sure that neither the second nor the third events of disappointments. Certainly, the total number of times that athletes were pulled from the victory ceremonies could not have had the Asto desire to learn about our training methods, nor their belief in the American rope trick which can continue its development.

FROM THE CHEERLEADING BOOTH

"Cheer for Jones! beep beep!"

FROM THE STANDS:

"Hon, what happened to Jones? Lovely... lovely...

FROM THE BENCH:

"He wants you! Go to it!"

ATTENTION
