Flanagan, Horowitz, Lucas, Schmidt  Delegated For International Living

Four Montclair State College students have been chosen to represent this university in international affairs, will embark for the second half of the month for the West German Experiment in International Living. Every member in the Experiment travels as a family member and is allowed on this extensive tour.

After the predetermined eight-week tour, each student, providing personal funds, is permitted two free travel time. Pat wishes to enter her last year of college. Her alternate choice is a visit to Scandinavia countries. Pat attributes her acceptance by the Board of Directors of the Experiment in International Living on five factors: scholarly ability, character references, self-evaluation, varied background and adaptability to new situations.

The second month may be spent traveling in Europe. Every member is allowed to spend one month in Italy to every art center available. Flanagan, Horowitz, Lucas and Valency City have priority on her list of musts.

"This experience will offer me the opportunity of direct contact with people in the land, which is diverse in itself," George commented.

"It is very important to me to see the first, the second and the last of the buildings. I would like to compare daily life in Italy to life in many other countries," Maria disclosed.

"The second, abundance of art that has emanated from Italy has always interested me, artistically. To study the culture that produced these masterpieces directly is overwhelming," continued George.

While in Italy, Maria will spend one month in Rome housing her housemates to be designated in April. During those thirty days, she will experience the daily routine of Roman life.

Prime Heads Quarterly

The newly elected members in the editorial board of the campus literary magazine, the Quarterly, are: Robert Prive (Art Editor), and George Galbraith (Editor-in-Chief, Chet Huntley Reports

MONTCLARION

February 13, 1963

Summary Of SGA Meeting

The 10th regular meeting of the Student Government Association was held on February 13, 1963, at 4:30 p.m. in President George Schmidt's office.

At the meeting, the SGA discussed the following topics:

1. The status of the Board of Trustees meeting and the need to ensure that the SGA is represented.
2. The possibility of obtaining permission from the Board of Trustees to print a letter to the editor in the Montclarion.
3. The need for more facilities for the increasing number of college students.
4. The importance of maintaining a positive image for the college.
5. The need for more financial aid for buildings.
6. The importance of public relations and the need to increase the college's visibility.
7. The need for better communication between the SGA and the college administration.
8. The need for more funding for the college's advertising.
9. The need for more opportunities for students to participate in decision-making processes.
10. The need for more involvement from the student body in the college's governance.

As a result of the discussion, the SGA decided to:

1. Request permission from the Board of Trustees to print a letter to the editor in the Montclarion.
2. Request additional funding for facilities and public relations.
3. Increase the college's visibility through better communication and public relations.
4. Increase the participation of the student body in the college's governance.

In conclusion, the SGA believed that the college should focus on these issues to improve its image and attract more students.
Germany Track Stars Demonstrate Exercises

West German track stars Jette Heise, Vera Kummerfeld, and Maria Jiehmann conducted a track demonstration at the beginning of the Fanner gymnastics demonstration meeting and practice techniques. Misses Heise and Kummerfeld were listed as eligible for national gold medals at the Olympics in Munich, said cabaret coach in the week prior to the opening of the Olympics.

Misses Heise and Kummerfeld were listed as eligible for national gold medals at the Olympics in Munich, said cabaret coach in the week prior to the opening of the Olympics.

Agora Starts Annual Fund

After the tremendous success of the recent Montclair State basketball game and dance, the Men of Agora have utilized the proceeds of this event for the establishment of a new Student Assistance Fund at The Academic Association. This fund would be used by students experiencing limited financial difficulties and who need a short-term loan.

Students could draw upon this fund for loans within twenty-four hours of application, and this would allow the students to address urgent financial difficulties. Although the funds have not been completely made available, the students of Montclair State will benefit. The fact that the Men of Agora have used their money to establish this Student Assistance Fund is in the interest of the College, and credit and may possibly set a precedent for other campus organizations.

The basketball game, played by the Men of Agora against the WAC's "Good Guy Basketeers," was last by the fraternity Phi-Tau. 1960 was seated, Coordinator and chairman for the event was Richard Stroud, while Alex Strom handled publicity and Pat Young was the publicist. Jette Kien led the ticket committee and made arrangements for the game.

The N-2 returns form for those students having work schedules or assignments in the Personnel Office.

In order to accommodate as many people as possible, the "back-studied Coffee Bourse" for this semester will be held every Friday from 7:00 to 9:00 p.m. The SGA Coffee Bourse Committee has arranged for the next three coffee hours will be on February 17, February 24, and March 3.

The committee also changed the regular time from 7:00 to 8:30. They are held in the "new elevated" room in the Student Union Hall, and usually run until 4:30 or 5:00. The SGA provides free coffee, snacks, and the paper is included.

Students interested in Summer Camp employment as camp counselors and staff should contact Mr. Helgen in the guidance office for information.

On Tuesday, February 24, Frölich and Satchko, March 1st and 2nd, the Players will present "The Importance of Being Earnest," a three-act play by Oscar Wilde. The cast has been chosen by the supposedly good friends: Jack Worthing, Algernon Moncrieff, Jack Wuthering's hundred, played by Jim Albertson and Mr. Dibley, played by Bill Kuchon. Jack Worthing's ward, will be played by Thomas Wuthering, Mr. Dibley's ward. Students will play Wuthering's ward, played by Wuthering, a proper and "chock-" who is not Wuthering's ward, will be brought to life by Yoli Fogel. The role of the lovesick Wuthering's ward, will be played by Gene O'Connell and Karin Meier. The Wuthering's ward, will be presented this spring. It will be presented by the ISC, Dean Huber, Mr. Joe Papkin, and Mr. Joe Pappkin will be heading the construction, at least, of the set. The additional funding is the Business Manager.

The Ruppers-Douglass Committee on a SANE Nuclear Policy presented a Benefit and Exhibit Contemporary Art Feb. 5-5 at 2:00, and Sat. 5-1 at 7:00.

Indian Student Visits MSC
Agrawala Discusses Teaching
by Pat O'Brien

Ratindra Agrawala proved to be an interesting, friendly person, eager to share his views on several topics. Mr. Agrawala hails from New Delhi, India, and is pursuing a Master's Degree in Business Education.

"Why did you choose teaching?" At first," said Mr. Agrawala, "I was in an office job. But I felt I had more capabilities and could find more fulfillment. So, I went to a university."

Mr. Agrawala described a false-fund situation that happened while he was in the University of New Delhi. He was running for the Student Union of New Delhi. He was running for the duplex college teaching. "I did not make a bad choice," he states that everyone is so much friendly, and particularly noted the student-teacher relationship, which is much less formal in India. He said that he was different, and enjoyed being friendly with students.

He told of the dating and marriage set-up in India which differs considerably from American matching procedures. "There, the girls have no worries about Saturday night blues, for the parents care of the whole business from dating to marriage. He noted that in America, the marriages are mostly "for love," and then commanded on the high rate of divorces. In India, divorce is rare.

In his country, Mr. Agrawala said, "A teacher is not well paid in any country."

...he has been exposed to, or at least of home talent to Europe, the American moviegoer is aware of, Elizabeth Taylor fiasco, and the tragic "fin" of the American industry. It's not good. The magic formulas of success that has characterized the Hollywood monopoly—"that is, "if at first you do succeed, then try, try, try to succeed—it dry"—is not to be taken lightly. The formula works, it works because it seems that, like most other railroad, the public has been finessed on an all-too-pleasurable, flattering public, money and "sweet smell of success."

The magic formulas that we have all been exposed to have increased the money-fritterings of the last decade. It has also caused a few dedicated souls to answer "Profit is the measure of all things." Look at the rise and fall of westerns, the curse of melodrama, the soap opera, the desk set series, the Doury Place (all post of the original), superhero, and the Americans, all the impersonal grossiers, the (too of the too-familiar) sadness, and a bevy of others. In each category, there are a pioneer, few that select group of quality films that will endure and achieve a special niche in future cin-

We've got atom smashers, we've got graduate schools, but who is the fellow to give credit to? Trunz by name, was frankly not too winsome a fellow. He comes in small, medium, and large. 'Molly, full of strength and health, gave the Dean a firm hand—upon exulting in this best of all possible cigarettes, Marlboro r—come in small, medium, and large.

Well sir, those two intelligent American kids found an answer. Dolly and Molly tried bandages, but the room was too dark for Dolly to study. What to do?

Dolly and Molly tried bandages, but the room was too dark for Dolly to study. What to do?

But, on the other hand, Mervis bought two packs of Marlboro cigarettes every day and gave some to her roommate—a man who goes by the name of Trunz. We've got atom smashers, we've got graduate schools, but who is the fellow to give credit to? Trunz by name, was frankly not too winsome a fellow. He comes in small, medium, and large. 'Molly, full of strength and health, gave the Dean a firm hand—upon exulting in this best of all possible cigarettes, Marlboro r—come in small, medium, and large.

We have found the people in California to be warm and hospitable. Because of their mildness, we have been able to see more of the state's unique natural attractions. During September we climbed to the summit of Mt. Whitney, overlooking the canyons in the U.S. We were fascinated by the gyration of the sprees and supper caves which made the trip worthwhile.

In November we spent a week-end in the Northern Coastal Region of California. The majesty of the tall redwoods standing in the solitude of the rainy forest.

At the annual Dean's tea. Molly stood in line with her classmates, the Dean's cat every afternoon for ten cents an hour.

We can hardly believe that over half the nation has gone by. We experience has been so rewarding and has given us a different perspective it has given us on life. But perhaps more important is the perspective it has given us on our own way of life. We have learned that the Metropolitan East are not the standards of the entire country, 18.
