DOCTOR MOREBNE

Morebne Named Acting Dean

Dr. Allan Morebne, professor of education and chairman of the education department at the College of Education, has been named the acting dean of the College, a position to which he has been appointed.

Dr. Morebne received his B.A., M.A., and Ph.D. from the University of Wisconsin and has also served as an instructor at the University of Wisconsin and the University of Illinois. He is currently the chairman of the education department at the College of Education.

Science Department

Welcome Mrs. Arny

The second class of students to be welcomed to the science department was the class of 1962. Mrs. Arny, a graduate of Douglass College, was elected to the position of dean of the science department. Mrs. Arny has also contributed to the literature of the department as she has written papers on various subjects, including the importance of science education and the role of the scientist in society.

Science Department

The science department was founded in 1910 and has been a leading institution in the field of scientific research and education ever since. The department has produced many notable scientists, including Albert Einstein and Marie Curie.

Funds Set Aside For New Building

At its October 25 meeting, the War Memorial Board of Trustees recommended that $10,000,000 be raised to fund the construction of a new building. The funds will be used to construct a new dormitory for the college.

SEAM Speaker Discusses Federal Aid To Education

Mrs. Mary Gerson, the representative to the National Education Association, spoke to the students at the College of Education on Wednesday, Nov. 7, about the implications of federal aid to education. Mrs. Gerson discussed the benefits and drawbacks of federal aid and urged the college to work closely with federal officials to ensure that the college receives the maximum amount of aid possible.

Planning a Major Shakeup

A group of leading educators have released a report on higher education that recommends a major overhaul of the current system. The report, which is based on the work of the National Commission on Higher Education, calls for a new approach to higher education that emphasizes student-centered learning and increased accountability.

New Jersey State College Salutes Jersey Tercentennial

Montclair State College held a special Homecoming celebration to honor the 300th anniversary of the founding of New Jersey. The event included a parade, a variety show, and other activities.

THE WINNING FLOAT

Montclair State College held its annual Homecoming celebration sponsored by the American College Football Association on November 6, 1964. The float was designed to represent the history and traditions of the college.

THE WINNERS

This year's Homecoming celebration included a variety of events, including a parade, a variety show, and a football game. The floats were judged on their creativity, originality, and how well they represented the theme of the celebration. The winning float was the one that best captured the spirit of the event.

In many ways, the federal government gives aid to education and can col­lect funds at lower rates (1/15th the rate of state collections). The federal debt has only reached $14 trillion. The committee. The preparation required by the state for teaching in the high schools. It is not quite realistic for the state to believe that a student of eighteen is so certain of the future that he would sign, a Department on November 18 at 7:30.

The state colleges need administrators and faculty who have been trained in the secondary schools. It tends to overlook the possibilities for becoming a teacher at a state teacher's college. The report, however, may not be an attack on the board, but rather as an attempt to alleviate the enormous work load and problems in administrating the needs of the elementary, secondary, and higher educational systems of the state. The problems of higher education requires a different approach in comparison to secondary public education. The recommendation of the Newcomb Committee would, in all probability, result in an increased tax burden for all people. The emphasis on teacher training is brought into question by the fact that in the secondary schools tends to overlook the possibilities for college. The concept of a minimum teacher's college is not a new one. It is as a teaching field was studied by the Newcomb Committee. The students had been interested in teaching or who are all public, and private physicians must bring his clear­ance from the doctor to the college nurse. It could have been avoided.

What is to follow may seem trivial to many of you, but it does concern a great number of people. We are told by the President, the Secretary of Defense, and the President of the United States that they are taking steps to ensure national security and the future of our way of life. The states were no different in the school year, 1963-1964. Candidates are considered qualified for the Peace Corps. The active duty obligation is three years for men and four and one half years for women, so that the candidate may be selected for the Peace Corps. Candidates who are not selected have an annual salary of $400 monthly and the American Student Service League (ASIS) will be located in Life Hall to discuss practical purposes this has already been accomplished. Five of you may care to volunteer as student leaders for the Industrial Arts students and Business students.
Monrobot XI: Computer

To Be Installed At MSC

Vincent Darwitz of the Project on Information Processing (PIP) staff, Monclair State College, announced that Monrobot XI, a small computer, will shortly be installed in the Science Classroom Building on Valley Road, a theatre and computer center being operated by the English Department of the college.

The province of Monrobot XI is to be built around the computer. The project has been under way for a period of at least a year.

The hospital, used primarily for educational purposes, is to be built for the Student Body. The initial phase of the computer center operation will be designed to give the students the fundamental understanding of the use of computers.

This will be followed by formal courses for students, and the integration of computer usage into existing courses. As of today, however, no definite arrangements for these courses have been completed, until the program is established. It will be announced to the student body.

The Monrobot XI will also be used in various administrative offices of the college, among which are the Library, the English Department, the Science Department, the Accounting Office, and the English Department.

This recent achievement of the PIP project, which has been in operation for three years, is one of the many diversifications of materials concerning computing, involving the computer center education.

The PIP project is an effective undertaking of the PIP staff. The program has been designed by the English Department of the college.

Karen Bessy left the college for a month's vacation. She is best known for her trumpet playing. She is a native of the city of New York. Though she has treated his characters sympathetically and has viewed the drug ad

Two of the important personalities involved in this project are Dr. Edward Albee's and Dr. Harold L. Richardson's.

Dr. Richardson has served in the capacity of professor of education in the college, and the professor of education at the college.

Richardson's positions in the college include Principal of the Administration, Professor of Education, Assistant Superintendent of the American Air Force Colleges in the United States, and Superintendent of the Army Air Force Colleges in the United States.

Players to Present "Hatful of Rain"

Following the success of two previous productions, a lighting of the apartment still in evidence. This realistic set will include a kit that is already completed, but it will be a unique, free-standing model. Its nature has been demonstrated last November in New York and Philadelphia. The show will include an array of real-life situations that have great emotional appeal.

The play is the basis of a realistic study of drugs. It is one of the few plays to deal with drugs in an educational setting. The play is set in the drug rehabilitation center of the city of New York. The cast includes Bill Clinton, Papa, Jack, Angelo, and a young actress. The play will be performed at the college on November 17, 1964.

Players' third workshop production is "Waiting for Godot." The show was presented by the English Club at the college on November 16, 1964.

Montclair Takes Trenton 16-0: Indians Defeat Delaware 24-6

Montclair State College's fifth straight football victory of the year was achieved Saturday, November 14, 1964. The Montclair Indians defeated the Trenton State College Spartans, 16-0, to claim their second straight victory of the season. The Spartans' record is now 5-4-1, while the Indians' record is 8-1-0.

In the first half, Montclair dominated the game, controlling the ball for most of the time. In the second half, Trenton made several attempts to score, but were unable to get close to the Montclair goal line. The Montclair defense was strong, allowing only one first down for Trenton in the entire game.

In the third quarter, Montclair scored on a 27-yard touchdown pass from quarterback Dom Sinopoli to tight end Alex Zulewski. This was the only score of the game, as Montclair's defense continued to hold Trenton scoreless. The final score was 16-0, with no further points being scored in the fourth quarter.

The Montclair Indians are now 8-1-0 on the season, with two games remaining. They will next face Williams College on November 21, before concluding their season with a game against Juniata College on November 28.

Soccer Finals Held Here

November 27, 1964 saw the final showdown for the national championship. Montclair State's boys' soccer team defeated New Hampshire-Rockhurst, Vermont 2-0 in the finals on November 27. The winning team was the 1964 NCAA champions.

The match was held in New York's Triborough Stadium, with a capacity of 40,000 spectators. The game was a hard-fought battle, with both teams playing well. Montclair's defense held New Hampshire-Rockhurst scoreless, while the Indian offense scored two goals to win the game.

The Montclair team was led by captain John Armour, who scored both goals for the team. The first goal was scored on a penalty kick in the second half, while the second goal was scored in the final minutes of the game.

Montclair State College's soccer team has won six national championships, including this year's title. They are now 8-0-0 on the season and are looking forward to their next game against Juniata College on December 1.

Santoniier Is Out for Year

On Wednesday, October 28, 1964, NCAA officials ruled Jim Santoniier ineligible to participate in intercollegiate sports at Montclair. The decision was made after it was determined that Santoniier had been playing on behalf of Adelphi College, one of the schools he was forbidden to participate in.

Santoniier, a senior, had been the star player for the Montclair College football team, having led the team in both rushing and receiving. He was also a member of the track team, participating in both the 100 and 200 meter dashes.

The decision was made after the NCAA investigated the situation, determining that Santoniier had been receiving compensation from Adelphi in exchange for his services. The NCAA ruled that Santoniier was ineligible to participate in intercollegiate sports for the remainder of the year.

The decision was met with disappointment by the Montclair team, who had looked to Santoniier as a key player for the upcoming season. The team is now searching for ways to compensate for his absence.

Wresting Practice Every Weekday GYM 4 Everybody Welcome

On Tuesday, October 20, 1964, Paul Watson, a senior on the Montclair College wrestling team, announced that he would be taking a year off from wrestling to focus on his studies.

Watson, a two-time national champion, had been a key member of the Montclair College wrestling team, and was widely considered one of the top wrestlers in the country. His decision to take a year off from wrestling is a blow to the team, which was hoping to make another run at the national championships.

However, Watson's decision is not without its benefits. By taking a year off, he will be able to focus on his academics and gain more experience in the sport, which will be beneficial for his future. His decision is a testament to the dedication and commitment of the Montclair College wrestling team.
