The Montclarion, September 17, 1971

This Book is brought to you for free and open access by the Student Newspapers at Montclair State University Digital Commons. It has been accepted for inclusion in The Montclarion by an authorized administrator of Montclair State University Digital Commons. For more information, please contact digitalcommons@montclair.edu.
Innovative Month In-
Some Courses Sliced

By Serena Becroft
Staff Writer
The innovative period will definitely not be cancelled, according to Dr. Walter L. Heilbronner, vice-president for academic affairs. He added, due to low enrollment, that some courses Heilbronner stated that originally offered will be cancelled. Heilbronner explained that due to low enrollment, the innovative period would remain intact according to schedule, but some of the courses would be cancelled due to the low enrollment. The notice also stated that a revised list of innovative period course offerings would be issued shortly.

The innovative period became a reality on campus in the spring of 1971, when students and faculty voted to adopt a revised calendar to provide a three-week period between the first and second semesters.

Heilbronner stated that the innovative period was originally offering approximately 100 courses, many of which will be cancelled in the revised course offering list. He added that the reason for the Sept 21 deadline date is that 700-800 students enrolled in courses offered by the program, a number that he hopes will increase significantly by Sept 21.

Commenting on the low enrollment, Heilbronner said that he was "not surprised." In a notice from his office addressed to the college community, Heilbronner explained that although the innovative period would remain intact according to schedule, some of the courses would be cancelled due to the low enrollment. The notice also stated that a revised list of innovative period course offerings would be issued shortly.

Innovative
Period Statement

September 13, 1971

This notice is being sent to clarify some of the conflicting impressions regarding the Innovative Period in January. The Innovative Period will remain part of the academic program for the 1971-1972 academic year. It is not being cancelled.

Some of the course offerings listed in the first tentative schedules will not be offered because of no or low enrollments. An up-to-date listing of all courses that will be offered will be issued later this week. That listing will also include information for those who have not yet signed up for courses, but wish to do so.

All questions should be referred directly to the dean of the appropriate school or to this office.

Vice President for Academic Affairs

Faculty Salaries Frozen

By Carol Giordano
Staff Writer
Faculty and administrative salaries have been frozen at "last year's level" in accordance with President Richard Nixon's recently-announced wage-price controls, said Vincent Calabrese, Montclair State's vice-president of business and finance.

The freeze also applies to room and board rates, Calabrese added. But he explained that since more than 10% of MSC's student body had paid for their room and board before August 15, the date of Nixon's announcement, the college was permitted to charge its new rates.

In a memorandum issued on Sept. 1 to all state college presidents, Ralph A. Dungan, state higher education department chancellor, stated that "no normal or merit increments (salary increases) will be granted during the period that the wage-price freeze is in effect." Those persons receiving "bona fide promotions ... to an established job with greater responsibilities" are eligible for the higher salary accompanying that position.

According to Calabrese, the freeze will prevent faculty members and most administration officials from receiving negotiated 6% pay hikes authorized on July 1 but effective in the fall. He said that "these new contracts will be held in abeyance until the freeze is over."

Calabrese explained, however, that those administrators who received salary increases effective as of July 1 will continue to be paid at the higher rate. Dungan's memorandum provides that new employees "may be paid at the new rate appropriate to their respective titles."

MSC FACULTY and personnel whose wages are now frozen at the old salary levels did receive the 6% increase in their first pay check this fall, Calabrese stated, but further payments of the wage hike were cancelled.

WATER BUG?
Budgets for the various class one organizations are scheduled to be voted on at the regular Student Government Association meeting on Tuesday, Sept. 21 at 4 p.m., in the student theater (K-200).

A student activities fee of $60 per year is paid by each MSC student during the registration periods. These funds are divided between the sixteen class one organizations, the Board of Control, and "unappropriated surplus." The last of these categories funds not paid to any specific purpose, which may, on approval of the SGA legislature, be used to supplement the budget of any class one organization or may be used for any other expenditure which the legislature deems appropriate.

A "class one organization" is one of the organizations which receives regular SGA funding.

A maximum for each organization's budget is decided by its guideline, a per-student figure which is set by the SGA legislature. In previous years, the budget also included a mandatory deduction of $4 per student for the War Memorial Board, which was created to maintain the student life building. Last May, however, this board (then made up of the SGA president, secretary, the presidents of the four classes and the MONTCLARION editor-in-chief) voted itself out of existence, and recommended that the $4 per student fee be returned to the students, thus reducing the activities fee to $56.

At last Tuesday's SGA meeting, however, the newly-inducted legislature passed a bill which would release the $4 per student War Memorial fee to be "used for other purposes as decided upon by the Student Government Association." As part of their responsibilities, outlined in the SGA statutes, the SGA president must submit a budget for approval to the legislature. SGA President Terry B. Lee's budget, as recommended to the Board of Control, and as it will be voted on next Tuesday, is analyzed below, under each organization.

BOARD OF CONTROL

The Board of Control is the operating fund of the SGA. Its officers are the SGA president, vice-president, secretary and treasurer. Last year, its guideline was $2,500 per student. This year, Lee has requested the guideline be raised to $3,000 per student, and that most of the additional funds will be used for faculty evaluation ($6,600). Of the $23,300 budget request, $12,000 is listed under "gifts, gavels and banquet," and $3,000 is listed under the "conference" line.

UNAPPROPRIATED SURPLUS

In the submitted budget, unappropriated surplus accounts for $3,500 of each student's fee. Last year, unappropriated totaled approximately $1,25 per student. In explaining the budget to the legislature, Lee and Wendy Gilpin, SGA Treasurer, pointed out that several more organizations would soon be approaching SGA for class one status, and they would like to have the funds to adequately support them.

ROSS

The guideline for the black organization is down from $1,75 to $1,65, and the possible maximum allotment for ROSS is $15,900. The organization requested $17,100. Of the requested total, $10,500 would be spent on the Black Weekend.

CINA

The Council on International and National Affairs requested a budget of $11,400 for their own organization and $10,700 for an organization that sends several students to foreign lands each summer, which CINA also funds. Their new guidelines of $15.50 and $1 would permit them to receive $9000 and $6000 respectively. CINA's old guideline was $3,85, and Expenditure's remains stable at $1. Part of CINA's additional funds will go toward a political opinion magazine, in which the varied political viewpoints of MSC students and faculty will be expressed. Bill Vanneman, CINA president, has pointed out that CINA will not take a stand on anything appearing in the magazine, and that the magazine will only appear to offer a medium through which idea may be communicated, and not to mold public opinion. Their "programs" line of $600, which is_Style_ for political speakers on campus, composes the majority of the budget.

CLUB

CLUB's guideline under the new budget would be reduced from $7 to $6.50, but the organization would still receive the entire amount it requested. $38,425. Anticipated receipts from CLUB activities total $21,125, bringing their total budget to $59,775. Of that total, $30,000 is allotted for concerts, $7000 for lectures, and $7000 for the Christmas Ball.

BOSS

The guideline for the black organization is down from $1,75 to $1,65, and the possible maximum allotment for BOSS is $15,900. The organization requested $17,100. Of the requested total, $10,500 would be spent on the Black Weekend.

MGBL

MGC, student government magazine's guided line has been cut from $11,15 to $10,500 per student to $5,500 per student in Lee's budget. At last Monday's meeting of the class one organization president's Lee described Galumph's last year's with eight letter proficiency. Interviewed after the meeting, Galumph editor Don Pendley commented that the only major criticisms he received regarding the magazine during his 23-month tenure as editor were from the Black-White Relations Committee, concerning the Talent Research for Youth program, and that the magazine should be a maximum of $6000. The vast majority of HRL's down the costs of the HRL camp weekends and the editors and psychological consultant.

LA CAMPANA

The yearbook, a new publication now, will retain its $6,25 guideline and receive the full $36,071 budget it requested. But, due to the student increase on campus this year, La Campana claims additional funding will be needed later this year.

MAC

The Montclair Athletic Commission will continue to receive the $19,85 per student guideline (as a "mandatory dedication") that it has received for the past several years. This year, the MAC will receive $9,370, permitting the radio station a budget of $8400, $170 less than requested.

New Jersey's Leading Collegiate Weekly

MONTCLARION

The Voice of Montclair State's dramatic society will retain its $2.45 per student guideline, giving it exactly the $700 budget it asked for. Players hope their student-written and produced arts projects, as well as the four annual Players presentations.

QUARTERLY

The guideline for MSC's literary magazine is set to be upped from last year's $1.05 to $1.10, however, its allocation will be a maximum of $6000. The magazine's $7739. In addition to the magazine, QUARTERLY plans to sponsor three poetry readings.

WVMS

The Voice of Montclair State's guideline is slated for an increase of $2.75 over last year, to $1.40 per student, which would give $35,600 to fund various sports information department, $3950 for awards and banquets and $10,000 in its "general account."
to a former girls' dorm, Russ Hall. Classrooms were created when the School of Social and Behavioral Sciences moved from College Hall. Quinn said that eight extra classrooms were added to accommodate this year's influx of 1500 new students, MSC's Master Plan for Expansion, according to Jerry Quinn, will be completed in the spring, while the math/science building, which will be provided by the state, is being paved at the time and has the capacity to handle 7000 fulltime undergraduates.

In addition, the 16-story Bohn Hall, Montclair State's biggest building, was forced to postpone the paving during the first two days of school, according to Quinn. The parking situation should improve once the paving is completed, according to Quinn's facilities director.

Provo organized the male assault on Bohn Hall, according to Leon Varjian, Provo's leader. A "no-men" restriction was placed on the new women's dormitory after "trouble" occurred there during the first few days of school. Male visitation is expected to resume today.

Provo detailed Provo's plans in a telephone interview last Sunday. "We're getting the girls to drop rope ladders from the 16th floor. Men with charcoal-blackened faces will climb up," he explained. "We're passing out plastic tunnels to down the walls and out to Valley road so that men can come in," he continued.

A STUDENT receptionist at Bohn Hall attributed the restrictions to "people just not abiding by the rules." "Guys were wandering into girls rooms and bathrooms," she said. The rules state that a girl must sign a male guest in and accompany him everywhere in the dorm, she continued. Some security personnel hinted that the "trouble" was "some wild drinking and running around."

Provo also staged a "Dedication to Bone Hall" to take place on Thurs., Sept. 16. Provo was founded because Montclair State was so dull, that Provo also staged "The year's "Miss Montclair Steak Pageant." In discussing Provo's future, Varjian said that "the sky is the limit. We're taking over the recurity of the residents. Hall has been the scene of numerous meetings between the building staff and the residents. Another issue on the ballot was the choosing of a penalty for violation of the visitation rules. The residents voted to suspend visitation privileges as a penalty.

No Men at Bohn? Well, there's Provo

Congratulations are in order for two Quarterly staff members, ROBERT C. VILLANDO, whose chapbook Lov & Other Failure & was published in spring 1971 by the National College Poetry Anthology. The selected poem is entitled "An 80 Proof Aviator," which was published in the 1970 edition of Quarterly. Dr. Vincent De Sanzio, director of the Adult Continuing Education Center, has announced that a PROGRAM FOR ADULTS who wish to improve their reading, mathematics or English speaking skills is available to area residents. Anyone who is 16 years of age or older, and out of school with less than a high school diploma, or anyone wishing to learn to speak English may enroll in this free program.

**Essex Voter Signup Today**

By Suzie Hrasna

Staff Writer

MSC students can become the Essex County Board of

Elections are on campus today to register residents of Essex County. They will be in the lobby of the student life building until 3:30 p.m.

"We tried to have four other of the nearby counties here," said Wendy Gillespie, SGA secretary, "but they cannot go out of their county to register people, according to the law."

IN ORDER to register, a person must be 18 years of age by election day, Nov. 2, 1971. He must be a U.S. citizen, a resident of New Jersey for at least six months and a county resident for at least 40 days, according to Mr. Anthony Cerera, deputy commissioner of registration in Essex county.

Elections on Nov. 2 will be for the state Legislature, and county and local offices.

**Union & Science**

**Buildings Seen Ready in '72**

By Cheryl Turnbull

Staff Writer

Students can look forward to using the new student union building by Jan. 13, according to Jerry Quinn, facilities director. The building is already 50% complete, and barring any major delays, should be ready for use in January.

The lower floor of the new student union building will contain game rooms — including pool, ping pong and card tables. There will be a large mezzanine lounge on the second floor, and student organization offices will be located on the third floor. A special feature of the new building is a full formal dining room.

CONCERNING OTHER construction being done on the campus, Quinn stated that the new math-science building is now 30% complete. The expected completion date of the almost $4 million complex is September 1972.

Quinn also stated that all the plumbing in the newly-completed Bohn Hall will be finished in two weeks.

Locking toward future plans, Quinn said that bids are being taken for a new dorm on Clove Road. The $75 million dorm is planned to house 784 students.

THE NEW quarry lots will soon be finished. Nineteen additional acres of the quarry have been purchased and will eventually be used as an athletic park and more parking lots. Bids will be taken all winter for a road leading from the bridge to the new quarry lots. This should ease the traffic flow a great deal.

**Mud to Mall For $275,000**

By Annette Marandino

Staff Writer

A meadowed "oasis" where students may escape the hectic routines of collegiate life will soon replace the bluestone-covered area between the fine arts building and Finley Hall, better known as the "mudflats." Jerry Quinn, facilities director, disclosed some of the visions that the MSC master plan architects, Urbahn-Mahoney-Zvosec, and the landscape architects, Andres, Micelli and Weed, have devised.

A MAJOR congregating area will extend somewhat diagonally between Partridge Hall and the new college center. Lighting and electrical facilities as well as information kiosks will also be found in this area. A highlight of this entire project will be a multi-level fountain which is designed to allow pedestrians to walk closely to it. Unlike the fountain in front of Sprague library, Quinn said, the water will run over rocks.

Extending toward the industrial arts building will be a terrace area for congregating. Brick pavement and wooden sitting cubes, as well as site lighting, will accent this phase of the project.

The campus planning committee, composed of administration officers, faculty members and students, should complete the specifications within two or three months, with actual construction set to start a month later, Quinn said. Anticipated completion date for the $275,000 project is six months later.

**Homecoming thru a Child's Eyes**

"Through the eyes of a child" is the theme for Homecoming, which will be held from Oct. 22-24. This theme was chosen for its "Flexibility" and "nostalgic" nature, according to Thomas Stepnowski, student activities director.

The events scheduled for the weekend include a coffeehouse on Fri., Oct. 22 at 8 p.m.; and a float parade on Sat., Oct. 23. Stepnowski said that "any organization or group affiliated with the college who can meet the necessary requirements may submit a float." He also stated that he would like to see two or three groups combine to put together one float, if they are unable to do so on their own.

Some children may help in the judging of the floats, which will be in keeping with the overall theme. Riding on one of the floats will be Miss Montclair State, Peggy Carasino.

After the homecoming football game (MSC vs. Southern Connecticut), a dance will be held in the student life building cafeteria, featuring Shadowfax. The last event of the weekend, a concert starring Poco, will take place on Sunday at 8 p.m.
Give ‘Innovative’ Half a Chance

It seems rather unfair for the administration to be considering the cancellation of the innovative period experiment when they really haven’t given it half a chance.

Granted there was a campuswide vote on the idea last year—but consider when the innovative schedules were handed out. Because the printing wasn’t done when the regular fall schedules were handed out, the innovative course list was held up until nearly the last day of school—when many MSC students had already left for their summer vacations.

We’re not blaming the department secretaries for the delay, even tho they seemed a bit too uninformed to believe. Frankly, we’re not sure who to blame—but there must be somebody.

Another point that might not seem too important to the administration but was probably crucial to the registering students was the class time. The parking situation at Montclair State and January driving conditions are considerably less than ideal. Because the schedule distributed in June did not include times, it is entirely possible that students did not want to take the chance of unwittingly signing up for an 8 a.m. class or, even worse, a 6 p.m. one.

We know of several course suggestions that were submitted with their enrollments guaranteed that were turned down because they were “too late.” Were they really too late or was there just too much red tape to be struggled with? Perhaps this was a way to pay back certain departments that are not in favor. Perhaps.

MSC President Thomas H. Richardson has stated that the scheduled period will definitely not be cancelled this year but no decision has been made concerning the 1972-73 academic year. The very least we can ask is that the decision will not be made until after January but we urge that the experiment be repeated next year before a permanent determination is reached.

SGA & The Money Squeeze

According to statements made at Tuesday’s Student Government Association meeting, several organizations are considering applying to the SGA for class one status. This means would permit these organizations to receive SGA funding.

Two of the additional organizations that are up for funding are allegedly Help Line and another campus newspaper. Both are excellent ideas, provided the funds are there to support them.

However, many SGA legislators feel that funding additional organizations at the expense of existing groups may not be such a good idea. Galumph, MSC’s eight-year-old humor magazine, is scheduled to receive a 40% budget slice if Terry B. Lee’s proposed budget is approved. Lee obviously disagrees with what Galumph’s done in the past—or perhaps he’s scared that, even tho he’s clearly out of the fraternity-conservative SGA, president he that Galumph’s criticized for so many years, he’ll still be subject to harsh criticism from the well-barred satire magazine.

In addition, the allocations for several other organizations are far less than what they requested. The Black Organization for Success in Society’s allotment falls $7000 short of their request. The Music Organization’s budget is $7900 short, while that of the MONTCLARION is $65950 less than it is requested.

Perhaps the solution is to increase the student activities fee. Perhaps the solution is to cut on items like the $1200 SGA annual banquet. But whatever the solution, it might be a good idea if the legislature took a very close look at the proposed budgets from an economic, and not a political, point of view.

BITS & PIECES: Suggestions have allegedly been made that British mystery writer Agatha Christie pick up on the story of former registrar PETER STAPAY—will everybody who received a copy of Alpha Phi Omega’s ARROWHEAD please raise their hands? Yeah, both of you ... From Times Past: Memories on campus go back to the MCCARTHY ERA when a bill was supposedly proposed in the N.J. state legislature to do away with the then-Montclair State Teachers College as a hosbed of Liberalism ...

SGA LEADERSHIP CONFERENCE will be held the weekend of Oct. 8 at Conner’s Hotel in Sandy Hook. Sure beats the mosquitoes at Camp Bernie, halps guys ... Congress to the new SGA public relations man BOB GODEE. He trounced into the MONTCLARION’s office yesterday to get some of our back issues. Maybe Lee wants to check on his campaign promises ... Does anybody really know just HOW MANY STUDENTS there are on campus now? If you do, contact the admissions office.

This week’s “Those Who Do Most Receive The Short End of the Stick” award goes to SGA Treasurer WENDY GILLESPIE. Miss Gillespie, whose responsibilities do not include bookkeeping, has been told by SGA highbrows that her duties are now inclusive of those of the bookkeeper, Mrs. Janey Young, who vacated her job several weeks ago. This in itself wouldn’t be too bad, except that Miss Gillespie, like her predecessor Dawn Sova, seems to be the odd-must-in the SGA office, bothered simultaneously by Lee’s off-aggressive administrative attitude and very Bill And’s blind spot toward her raised hand at SGA Legislature meetings.

To Miss Gillespie: Remember ... as long as you get abused and disregarded here at “State,” you can be assured you’re doing a good job.
Isn't Everyone Tired of War?

By Morey Antri
Staff Writer

"Welcome to this morning at 7 A.M. in Trenton. The 42nd garment of the American Legion of the Peace is scheduled for the current semester. "This is the time to remember, as we do the same thing next year." An anti-war demonstrator is here to see you, sir. He says it's urgent." "Definitely! I don't recall an 8-meter," he adds. "Commissioner of Corrections, sir. This is trouble at Rootica State." "College?" "Sir, some inmates at Rootica have taken 100 correction officers hostage." "That's why we don't have any retired military here. They wouldn't last until the next election." "Very well, but make it short." "Sir, the state of New Jersey is located in the basement of College Hall, room 207."

Put the Blame Where the Blame Is Due

By Wally Vandeweghe
Staff Writer

"A meeting of the MSC chapter of the American Legion will be held today in the phone booth on Sprague library. "Speaking of Sprague library, a dedication will be held at 2 p.m. today for the federal donation that will permit the library to double the number of books it owns. The new book will be a copy of the MSC catalog for 1969."

FIVE DAYS LATER

"Well, what is it?" "That is all for the day."
Fright fills first film

The beginning of the semester is a good time for a statement of plans for the coming term. In Montclair the arts and the life across the Hudson. PLANES-WEEKEND come to this area. Notice and artsy movies which will here and now, if I know about to blame because I am stating of event.

This hope to do with a little "arts" event on this campus. THE BLACK ACTOR IN Films: from Apple to Clyde

THE BLACK ACTOR IN Films: from Apple to Clyde

The small-town Mannix playing

THE BLACK ACTOR IN Films: from Apple to Clyde

The black actor in film. He added, "By representative pictures of the black actor's opportunities in film and perhaps, lack of opportunity until recently.

American films make up the rest of the Festival.

LITTLE BIG MAN: A superbly presented each Friday from 1-4 p.m.

Dustin Hoffman flirts with suicide and paranoia in this mad mix of dream and reality. Barbara Harris contorting as a nervous singer who has just seen her prime has one wonderful scene stuck to a pole lamp.

A SUNFAR: Updating the biblical Gladiator vs. gladiator theme, we find Kirk Douglas pitted against Johnny Cash, in a not-so-typical western shootout. Both are financially floundering and agree to sell tickets to witness their showdown, survivor winning $5000. Editing, jump shots, slow motion and flashbacks make up for the lack of good dialogue.

Films: from ‘Apple’ to ‘Clyde’

Feature films and shorts will be shown by Bernard Kahn, assistant fine arts professor, Miss Emma Fantone, media services center director, and David Ma, fine arts department coordinator.

American films make up the rest of the Festival.

Editor's note: From time to time the MONTCLARION will print explicated reviews of films showing in the Montclair State area.

CARNAL KNOWLEDGE: Mike Nichols' latest directorial effort about two men, Jack Nicholson and Art Garfunkel, in their search for sexual fulfillment. Jules Feiffer's screen play provides us with two poles of sexual desire, the wholly physical and the wholly spiritual-a truly disorienting film.

KLUTE: Jane Fonda fans will delight in her portrayal of Bree, the would-be actress and model, who is too good to miss.

SUMMER OF '42: A well-executed film dealing with the over-worked "initiation theme" of a 15-year-old, Gary Grimes, at the shore. The scenic photography and delicate musical score emphasize the nostalgic flavor of this tasteful film.

WHO IS HARRY KELLerman AND WHY IS HE SAYING THOSE TERRIBLE THINGS ABOUT ME?: Aging pop singer (Dustin Hoffman) flirts with suicide and paranoia in this mad mix of dream and reality. Barbara Harris contorting as a nervous singer who just past her prime has one wonderful scene stuck to a pole lamp.

Fighting Fonda: Jane Fonda stars as an actress and call girl in "KLUTE," costarring Donald Sutherland. Now showing in theaters in the area.
State Symphony

Connecting the classic and the contemporary

By Jo-Ellen Scudese
Staff Writer

Montclair State has its own little symphony in residence—the State Symphony Orchestra. The symphony, under the direction of Dr. Ward Moore, conductor, will open its 1971-72 season on Wednesday evening, Sept. 22, at 8 p.m. in the college’s Memorial auditorium.

The symphony will continue its motif of the last two seasons emphasizing the connection between the classic and contemporary period. This will involve programming a classic symphony along with contemporary and avant-garde compositions, Moore said.

The classic symphony to be performed will be the Surprise Symphony by Haydn. “While the surprise chord planted in the second movement is no longer a surprise to us, the melodic freshness and the daring harmonic dissonance over the pedal point in the coda of the second movement make this an ideal choice to show the relationship between the classic and the avant-garde,” the conductor said.

AN MSC ALUMNUS

William Shade!, an alumnus of MSC and associate music professor in the college’s department, will be featured soloist.

Besides being an MSC faculty member for the past eight years, Shade! is active as a performer on his instrument. He holds the position of Principal Clarinet with the New Jersey Symphony Orchestra, as well as occasionally appearing as a member of the New York Philharmonic and Metropolitan Opera orchestras.

Included among his many solo appearances have been two very successful New York recitals. On one of those occasions, Theodore Stronin of the New York Times compared his performance to that of Kreisler and Caruso, two of music all-time greats.

The 46-member orchestra is supported by funds from the Music Performance Trust of the Recording Industry, from the college’s Music Organizations Commission and the state. Admission to its annual concert series at MSC is free.

Galumph

second floor, student life building.

Everyone interested in writing humor, art, layout, proofreading, bookkeeping—or just finding out about Galumph—is welcome.
Contaldi Rates Defense Tough

When Montclair State gridders hit the field against Kutztown State at 2 p.m. tomorrow, an experienced defense will be a point in their favor. Besides head coach Clary Anderson and defensive coaches Tom Testa and Don MacKay, no one knows the Indian defensive unit better than burly linebacker Pete Contaldi.

Contaldi, an All-East selection last year, was naturally optimistic about MSC's repeating of last year's outstanding season. "Right now, barring injuries, I can't see us losing a game," stated the stocky senior. "The line is better this year," said Contaldi. "They're all back and experienced. We should have a much better defense than last year." Contaldi has good reason to be confident about MSC's defense. According to him, his team opened its season with a 7-5 victory over Fairleigh Dickinson University at FDU's athletic field Wednesday.

MSC displayed a considerable amount of power at the plate against FDU, power which is usually seen only in the spring. First baseman Charlie Williams led the Indian hitting department with a two-run homer in the third. Senior Dale Garlick blasted home run for MSC in the ninth.

THOSE WHO lamented the loss of slugger Carmine DeSimone thus graduation might be interested in sophomore Tony Scarlatelli. If Wednesday's game against FDU is any indication of what Scarlatelli will do this fall, the Indians will still be a long-ball threat. Big number 15 knocked in three runs against the Knights, one run on a 360-foot home run. FDU took advantage of tricky Paul Parker's shaky first inning to notch two runs. "I was terrible in the first two innings, I couldn't find the plate," admitted the competitive junior. "I got my control in the third." Parker stated, "I'd rather let them hit the ball than give them four balls." YESTERDAY PARKER had a difficult time keeping to that policy. In the first inning Parker issued a leadoff walk to shortstop Rich Varina. Rick Murray followed with a single to right and scored moments later on Williams' shot over the backstop.

MSC came up with the winning runs in the fourth. Scarlatelli led off with a homer over the rightcenter fence. Bob D'Onofrio followed with a single up the middle and scored moments later on Williams' shot over the centerfield fence.

THE INDIANS scored again in the sixth when catcher John Dally knocked in the first two runs against the Knights. Big number 15 knocked in three runs against the Knights, one run on a 360-foot home run. FDU took advantage of tricky Paul Parker's shaky first inning to notch two runs. "I was terrible in the first two innings, I couldn't find the plate," admitted the competitive junior. "I got my control in the third." THOSE WHO lamented the loss of slugger Carmine DeSimone thus graduation might be interested in sophomore Tony Scarlatelli. If Wednesday's game against FDU is any indication of what Scarlatelli will do this fall, the Indians will still be a long-ball threat. Big number 15 knocked in three runs against the Knights, one run on a 360-foot home run. FDU took advantage of tricky Paul Parker's shaky first inning to notch two runs. "I was terrible in the first two innings, I couldn't find the plate," admitted the competitive junior. "I got my control in the third." Parker stated, "I'd rather let them hit the ball than give them four balls." YESTERDAY PARKER had a difficult time keeping to that policy. In the first inning Parker issued a leadoff walk to shortstop Rich Varina. Rick Murray followed with a single to right and scored moments later on Williams' shot over the backstop.

MSC came up with the winning runs in the fourth. Scarlatelli led off with a homer over the rightcenter fence. Bob D'Onofrio followed with a single up the middle and scored moments later on Williams' shot over the centerfield fence.

THE INDIANS scored again in the sixth when catcher John Dally knocked in the first two runs against the Knights. Big number 15 knocked in three runs against the Knights, one run on a 360-foot home run. FDU took advantage of tricky Paul Parker's shaky first inning to notch two runs. "I was terrible in the first two innings, I couldn't find the plate," admitted the competitive junior. "I got my control in the third." In the first inning Parker issued a leadoff walk to shortstop Rich Varina. Rick Murray followed with a single to right and scored moments later on Williams' shot over the backstop.

MSC displayed a considerable amount of power at the plate against FDU, power which is usually seen only in the spring. First baseman Charlie Williams led the Indian hitting department with a two-run homer in the third. Senior Dale Garlick blasted home run for MSC in the ninth.

on the final night, a consolation tournament will precede the championships.

The NEW Jersey Kiwanis Basketball Classic has enjoyed outstanding success since being formed in 1965. Last year's championship was won by Central Connecticut State over C.W. Post College, 56-52. This marked the first time that an out-of-state team captured the Classic crown.

Montclair State has dominated the early years of the playoff, winning the team championship in 1966, 67 and 69. MSC's arch-rival, Monmouth College of West Long Branch, took the team title in 1968.

MSC Soccer Outlook

There's something different about the soccer team this year. The mood of the team doesn't seem to be the same as in the two preceding years.

"I'm not as optimistic as I've always been," reluctantly admitted Montclair State's soccer coach Len Lucenko. "We lost too much to bounce back this year."

MSC's BOOTEES have lost the services of four-year all-stater John Smith and fullback John Schumals. Smith led the team to a 3-2-3 log with 10 goals last season.

Smith ended his career on the Indian soccer team with 30 goals, second highest in MSC history.

Last week, the Indians scrimmaged against the team from Uruguay, beating the visitors, 1-0. Although MSC won, Lucenko was not happy with the performance of his team. Heavy rain kept some boosters from the scrimmage, forcing Lucenko to play with a "patched-up lineup."

"I'm not too pleased with the way they played," stated Lucenko. "We should have beaten them by 10 goals. We should have destroyed them."

LUCENKO ISN'T sure about the strengths of his team because they haven't been tested with a hard scrimmage yet, but he does know some of his weaknesses. Besides the absences of Smith and Schumals, Lucenko is minus the services of John Miller. Miller, a topnotch soccer player, broke his leg last year and spent six months in a cast. The injury and doctor's orders prevent his returning to the squad.

Goalie Greg Ruesch may be another cause for concern. The sophomore starter is just recovering from an injury and not in top shape. There's another problem with Ruesch, according to Lucenko. "Greg's not up to par because of the injury. He has no confidence and is diving to the left."

Roman Hancyz is yet another Indian booster with an injury. During practice he was "stamped into the ground" accidentally by a teammate. Hancyz is slated to return to the team in late September.

Part of the manpower for MSC is supplied by senior Bill Kardoba. Kardoba holds the school record for goals in a single season with 19. Another returning letterman is Chuck Clary Anderson, "Defense looked real good. They didn't cause any fumbles, they did very well."
NO WAY: Unless the members of the student body are salmon, (we assume they’re not), what is usually a long hike up from the quarry became an impossible swim.

And Now, Your One-Guess Weather Report

By United Press International

New Jersey — Friday rain possibly becoming heavy at times later in the day and at night and continuing into Saturday. Highest Friday and Saturday around 70. Lowest Friday night low 60s.

New Jersey shore — Periods of rain likely Friday and Friday night ending Saturday. Highs Friday and Saturday in mid 70s. Low Friday night near 70. Precipitation probability 70 per cent Friday and Friday night. Winds variable five to 15 mph Friday and Friday night. Ocean water temperatures are in mid 60s to low 70s.
