Innovative Month In-
Some Courses Sliced

By Serena Becroft
Staff Writer

The innovative period will definitely not be cancelled, according to Dr. Walter L. Heilbronner, vice-president for academic affairs. He added, due to low enrollment, that some courses originally offered will be cancelled. Heilbronner stated that students may sign up for the innovative period until Sept. 21 and there will be no late registration fee. He said that there are presently only 700-800 students enrolled in courses offered by the program, a number that he hopes will increase significantly by Sept. 21.

Commenting on the low enrollment, Heilbronner said that he was “not surprised.” In a notice from his office addressed to the college community, Heilbronner explained that although the innovative period would remain intact according to schedule, some of the courses would be cancelled due to the low enrollment. The notice also stated that a revised list of innovative period course offerings would be issued shortly.

The innovative period became a reality on campus in the spring of 1971, when students and faculty voted to adopt a revised calendar to provide a three-week period between the first and second semesters.

Heilbronner stated that the innovative period was originally offering approximately 100 courses, many of which will be cancelled in the revised course offering list.

He added that the reason for the Sept. 21 deadline date is that scheduling is being handled by an off-campus computer service.

At Last Year’s Level

Faculty Salaries Frozen

By Carol Giordano
Staff Writer

Faculty and administrative salaries have been frozen at “last year’s level” in accordance with President Richard Nixon’s recently-announced wage-price controls, said Vincent Calabrese, Montclair State’s vice-president of business and finance.

The freeze also applies to room and board rates, Calabrese added. But he explained that since more than 10% of MSC’s student body had paid for their room and board before August 15, the date of Nixon’s announcement, the college was permitted to charge its new rates.

IN A memorandum issued on Sept. 1 to all state college presidents, Ralph A. Dungan, state higher education department chancellor, stated that “no normal or merit increments (salary increases) will be granted during the period that the wage-price freeze is in effect.” Those persons receiving “bona fide promotions ... to an established job with greater responsibilities” are eligible for the higher salary accompanying that position. According to Calabrese, the freeze will prevent faculty members and most administration officials from receiving negotiated 6% pay hikes authorized on July 1 but effective in the fall. He said that “these new contracts will be held in abeyance until the freeze is over.”

Calabrese explained, however, that those administrators who received salary increases effective as of July 1 will continue to be paid at the higher rate. Dungan’s memorandum provides that new employees “may be paid at the new rate appropriate to their respective titles.”

MSC FACULTY and personnel whose wages are now frozen at the old salary levels did receive the 6% increase in their first pay check this fall, Calabrese stated, but further payments of the wage hikes were cancelled.

Innovative Period Statement

September 13, 1971

This notice is being sent to clarify some of the conflicting impressions regarding the Innovative Period in January. The Innovative Period will remain part of the academic program for the 1971-1972 academic year. It is not being cancelled.

Some of the course offerings listed in the first tentative schedules will not be offered because of no or low enrollments. An up-to-date listing of all courses that will be offered will be issued later this week. That listing will also include information for those who have not yet signed up for courses, but wish to do so.

All questions should be referred directly to the dean of the appropriate school or to this office.

Walter L. Heilbronner
Vice President for Academic Affairs
Class One Budget Analysis

SGA to Set Funds Tuesday

Budgets for the various class one organizations are scheduled to be voted on at the regular Student Government Association meeting on Tuesday, Sept. 21 at 4 p.m., in the studio theater (K-200).

A student activity fee of $60 per year is paid by each MSC student during the registration periods. These funds are divided between the sixteen class one organizations in the Board of Control and "unappropriated surplus." The last of these categories has funds not tied to any specific purpose, which may, on approval of the SGA legislature, be used to supplement the budget of any class one organization or may be used for any other purpose consistent with which the legislature deems appropriate.

A "class one organization" is one of the organizations which receives regular SGA funding. A maximum for each organization's budget is decided by its guideline, a per-student fee which is set by the SGA legislature. In previous years, the budget also included a mandatory deduction of $4 per student for the War Memorial Board, which was created to maintain the student life. Last May, however, this board (then made up of the SGA president, vice-president, and the presidents of the four classes and the MONTCLARION editor-in-chief) voted itself out of existence, and recommended that the $4 per student fee be returned to the students, thus reducing the activities fee to $56.

At last Tuesday's SGA meeting, however, the newly-elected legislature passed a bill which would reduce the $4 student fee to $3.40 for the 1971 Bond issue, to "be used for other purposes as determined upon by (the Student Government Association).

As part of its responsibilities, outlined in the SGA statutes, the SGA president must submit a budget to approve for the legislature. SGA President B. Lee's budget, as submitted to the SGA Tuesday, and as it will be voted on next Tuesday, is analyzed below, under each organization.

BOARD OF CONTROL

The Board of Control is the operating fund of the SGA. Its officers are the SGA president, vice-president, secretary, and treasurer. Last year, its guideline was $2,500 per student. This year, Lee has requested the guideline be increased to $3,500 per student, and that most of the additional funds will be used for faculty evaluation ($6600). Of the $23,200 budget request, $1200 is listed under "gifts, grants and banquet," and $3000 is listed under "conference line."

UNAPPROPRIATED SURPLUS

In the submitted budget, unappropriated surplus accounts for $3,500 of each student's fee. Last year, unappropriated totalled approximately $1,250 per student. In explaining the budget to the legislature, Lee and Wendy Gillespie, SGA Treasurer, pointed out that several more organizations would soon be approaching SGA for class one status, and they would like to have the funds to adequately support them.

BOSS

The guideline for the black organization is down from $1,75 to $1,65, and the possible maximum allotment for BOSS is reduced to $9300. Lee's organization requested $17,110. Of the requested total, $10,500 would be spent on the Black Weekend.

CINA

The Council on International and National Affairs requested a budget of $11,496 for their own organization and $10,700 for sponsored programs. This fund sends several students to foreign lands each summer, which CINA also funds. Their new guidelines of $1,50 and $1 would permit them to receive $9000 and $6000 respectively. (CINA's old guideline was $1,56, and Experimenter's remains stable at $1). Part of CINA's additional funds will go toward a political opinion magazine, in which the varied political viewpoints of MSC students and faculty will be expressed. Bill Vernarec, CINA president, has pointed out that CINA will not take a stand on anything appearing in the magazine, and that the magazine will only appear to offer a medium through which ideas may be communicated, and not to mold public opinion. Their "programs" line of $600, thugh CINA sponsors several political speakers on campus, composes the majority of the budget.

CLUB

CLUB's guideline under the new budget would be reduced from $7 to $5,65, but the organization would still receive the $6,071 budget it requested. But, due to the student increase on campus this year, La Campana claims additional funding will be needed later this year.

HUMAN RELATIONS LAB

HRL received $.85 per student last year. This year, their guideline is set for $1, giving HRL a budget of $9000, while the request totalled $6850. The vast majority of HRL's budget is the costs of the HRL camp counselors and the training and psychological consultant.

LA CAMPAÑA

The yearbook, a fall publication now, will retain its $6,300 guideline and receive the full $36,071 budget it requested. But, due to the student increase on campus this year, La Campana claims additional funding will be needed later this year.

MAC

The Montclair Athletic Commission will continue to receive the $19,50 per student guideline (as a "mandatory deduction") that it has received for the past several years. This will permit MAC to receive the full $115,765 budget it requested. Of that total, the major expenditures are $16,350 for football, $7650 for basketball, $2100 for football, $3000 for sports information department, $3950 for awars and banquets and $10,000 in its "general account."

MONTCLARION

MSC's weekly campus newspaper has requested $30,050, but its retained guideline of $3,85 will allow it to receive only $23,100.

MOC

The Music Organizations Commission budget was cut last year from $6,420 per student guideline, giving it exactly the $7,000 budget it asked for. Players hopes remained for a student-written and produced arts projects, as well as the four annual music presentations. QUARTERLY

The guideline for MSC's literary magazine is set to be $4,25 per student guideline, giving it exactly the $7,000 budget it asked for. Players hopes remained for a student-written and produced arts projects, as well as the four annual music presentations.

WVMS

The Voice of Montclair State's students is slated for an increase of $2.50 per student over last year, to $1.40 per student. This would permit the radio station a budget of $8400, $170 less than requested.

Most to New Schools

$3.40 to MSC If Bonds Pass

By Joanne Ferrer Staff Writer

State and county colleges will receive $60,500 of the $56,000,000 1971 Bond issue if it is passed in November. MSC will receive $3,400,000 for various alterations, study development, and new building.

The Bond issue is expected to accommodate 22,700 more students in New Jersey's state colleges, said Mrs. Mary Fairbanks, public information director for state colleges.

ALLOCATIONS

For the colleges are given according to the need of the college, said Mrs. Fairbanks. T h e n S t a t e c o l l e g e s at Stockton and Ramapo will receive most of the funds for building. Not all colleges are covered in each bond issue. County colleges which received a great deal in 1968 will not be allocated funds in the 1971 Bond issue.

The object of the Bond issue is to provide more space for students, said Mrs. Fairbanks. The bond issue is important, she continued, and expressed her hope that students, faculty and administration of the colleges would organize to help pass it.

There are two things which could be done, she said. First, people should be acquainted with the Bond issue by providing speakers and distributing flyers. Second, the urged people to try to get people to go out and vote for the referendum on election day. A committee of 90 persons supporting the Bond issue already has been organized in the state.

IN 1968, MSC received $8,328,000, said Mrs. Fairbanks. The money was used for the new railroad opened last spring, the new math-science building, a library addition, land acquisition, roads, walls and parking.

The MONTCLARION is published weekly throughout the academic year, except during examination, vacation and innovative periods, by the Student Government Association, Inc., of Montclair State College, Valiue, 1500 at Normal avenue, Montclair, N. J. 07043. Telephone: (201) 563-5169.

AND AFTER TWO WEEKS AT OUR GYM: Bohn Hall's "definitive" picture, taken last spring showed plenty of activity — but not of the nature that limited the new dorm to "girls only" this week.

No Men at Bohn? Well, there's Provo

By John Neuhaus
Staff Writer

Provo organized the male assault on Bohn Hall, according to Leon Varjian, Provo leader. A "no-men" restriction was placed on the new women's dormitory after "trouble" occurred there during the first few days of school. Male visitation is expected to resume today.

Varjian detailed Provo's plans in a telephone interview last Sunday. "We're getting the girls to drop rope ladders from the 16th floor. Men with charcoal-blackened faces will climb up," he explained. "We're passing out 'no-men' restrictions to the women."

Provo also staged the "Dedication to Bone Half" to take place on Thurs., Sept. 16. Provo was founded because "no-men" restriction was placed on the new women's dormitory during the first few days of school, according to Joseph Daly, facilities director.

SCRAMBLING to accommodate this year's influx of 1500 new students, MSC bolstered its teaching force with the addition of approximately 30 new faculty members.

However, MSC's biggest problem was space — classroom, dormitory, and parking facilities. Quinn said that eight extra classrooms were created when the School of Social and Behavioral Sciences moved from College Hall to a former girls' dorm, Russ Hall. In addition, the 18-story Bohn

Hall opened its doors to 600 women this September, while Freeman Hall admitted men for the first time. Both changes helped ease the on-campus housing shortage.

Quarry Parking Brought Back to Life

Quarry Parking Brought Back to Life

by Carla Capizzi
Staff Writer

Montclair State College's parking situation should improve soon, according to Joseph Daly, security chief.

"We always get killed the first few days of school," Daly said, explaining that some students do not register their cars, "so, there were more cars than we were expecting.

Daly said that although registering the automobiles would not create extra parking stalls, it does give the administration a more realistic idea of space requirements.

"Of course we want everyone to park on campus," Daly stated. "Even if they have to park on the street.

Many students were forced to park on Upper Mountain avenue and Valley road the first two days of regular classes.

Daly attributed the Sept. 9 and 10 laps to the blockaded quarry, which was being paved at the time and has since been completed.

According to Daly, the school was forced to postpone the paving project because of difficulties in awarding contracting bids.

MSC Enrollment to Soar Again

by Susan Kelly
Staff Writer

Male visitation in Bohn Hall is scheduled to be reinstated today, not Montclair State students, led according to Mrs. Shirley Grill, to the suspension.

Stover stressed that the suspension was never intended to be permanent. The term announced the results of a "indefinitely," originally applied to the length of the suspension, proposals to improve the former visitation policy. A "pass" system was approved, in which the women will be allowed two guests each. Additional guest passes can be obtained for special occasions.

Mrs. Grill said. DEAN RAYMOND Stover, some kind of order in the housing director, explained that the visitation was suspended in an effort to insure visitation on Sat., Sept. 11, Bohn the reactivity of the residents. Hall has been the scene of numerous meetings between the building staff and the residents.

Another issue on the ballot was the choosing of a penalty for violation of the visitation rules. The residents voted to suspend visitation privileges at a penalty.

Also on the ballot were two "yes-no" questions. Some proposals in this category were the establishment of "quiet hours" for study and the limitation of no male visitation at all. Both proposals were defeated.

Because the campus security staff is "stretched to the breaking point," he said, "we're passing out "no-men" restriction to the women."

The services of an off-campus security agency have been purchased to admit residents to the dorm between midnight and 8 a.m.

Tunneling to the Dorm

By John Neuhaus
Staff Writer

Montclair State anticipates another 1000 students next year, swelling MSC's enrollment to 7000 fulltime undergraduates. The increase is in keeping with MSC's Master Plan for Expansion, according to Jerry Quinn, facilities director.

No Men at Bohn? Well, there's Provo

Congratulations are in order for two Quarterly staff members.

ROBERT C. VILLANO, whose chapbook Love & Other Failures was published in spring 1971 by Quarterly, will soon be published by Constable Press. Villano's book will be a poetry anthology. Recently, a member of the MSC English department faculty, Villano was nominated for a federal writing grant.

W. Y. FELLENBERG, current Quarterly editor, will be published in the 1971 edition of the National College Poetry Anthology. The selected poem is entitled "An 86 Proof Avisor's诗," which was published in the 1970 edition of Quarterly... Dr. Provo published "The year's "Miss Montclair Steak Montclair State, then Paterson State. Today New Jersey, tomorrow the world," he concluded.

Montclair State College's parking situation should improve soon, according to Joseph Daly, security chief.

"We always get killed the first few days of school," Daly said, explaining that some students do not register their cars, "so, there were more cars than we were expecting.

Daly said that although registering the automobiles would not create extra parking stalls, it does give the administration a more realistic idea of space requirements.

"Of course we want everyone to park on campus," Daly stated. "Even if they have to park on the street.

Many students were forced to park on Upper Mountain avenue and Valley road the first two days of regular classes.

Daly attributed the Sept. 9 and 10 laps to the blockaded quarry, which was being paved at the time and has since been completed.

According to Daly, the school was forced to postpone the paving project because of difficulties in awarding contracting bids.

THE QUARRY was paved to maximum utilization of its available.

Quinn explained that the college is "building towards admitting more students" until it reaches its "ultimate growth level" of 23,000 graduate and undergraduate students. He pointed out that the student union is slated for completion by spring, while the mathematics building should be ready next summer. Quinn stated that MSC is currently receiving bids for an addition to the Sprague library and the construction of a student housing development.

Quinn stressed that no definite date is set for reaching the 23,000-student status. Rate of building depends on the availability of funds, most of which will be provided by the higher-education bond issue, if it is passed in November.

Students can look forward to using the new student union building by Jan. 15, according to Jerry Quinn, facilities director. The building is already 50% complete, and barring any major delays, should be ready for use in January.

The lower floor of the new student union building will contain game rooms— including pool, ping pong and card tables. There will be a large mezzanine lounge on the second floor, and student organization offices will be located on the third floor. A special feature of the new building is a full formal dining room.

**Concerning Other Construction Being Done on the Campus**

Quinn stated that the new math-science building is now 30% complete. The expected completion date of the almost $4 million complex is September 1972.

Quinn also stated that all the plumbing in the newly-completed Bohn Hall will be finished in two weeks.

Looking toward future plans, Quinn said that bids are being taken for a new dorm on Clove Road. The $7.5 million dorm is planned to house 784 students.

**THE NEW Quarry Lots Will Soon Be Finished**

Nineteen additional acres of the quarry have been purchased and will eventually be used as an athletic park and more parking lots. Bids will be taken over the winter for a road leading from the bridge to the new quarry lots. This should ease the traffic flow a great deal.

**Mud to Mall For $275,000**

By Annette Marchandino  
Staff Writer

A meadowed “oasis” where students may escape the hectic routines of collegiate life will soon replace the bluestone-covered area between the finest arts building and Finney Hall better known as the “mudflats.”

Jerry Quinn, facilities director, disclosed some of the visions that the MSC master plan architects, Urbahh-Mahoney-Zvosec, and the landscaping architects, Andrei, Micelli and Weid, have devised.

A major congregating area will extend somewhat diagonally between Partridge Hall and the new college center. Lighting and electrical facilities as well as information kiosks will also be found in this area. A highlight of this entire project will be a multi-level fountain which is designed to allow pedestrians to walk closely to it. Unlike the fountain in front of Sprague library, Quinn said, the water will run over rocks.

Extending toward the industrial arts building will be a terrace area for congregating. Brick pavement and wooden sitting cubes, as well as site lighting, will accent this phase of the project.

The campus planning committee, composed of administration officers, faculty members and students, should complete the specifications within two or three months, with actual construction set to start a month later, Quinn said. Anticipated completion date for the $275,000 project is six months later.

**Homecoming thru a Child’s Eyes**

“Through the eyes of a child” is the theme for Homecoming, which will be held from Oct. 22-24. This theme was chosen for its “Flexibility” and “nostalgic” nature, according to Thomas Stepnowski, student activities director.

The events scheduled for the weekend include a coffeehouse for the student life building on Fri., Oct. 22 at 8 p.m.; and a float parade on Sat., Oct. 23. Stepnowski said that “any organization or group affiliated with the college who can meet the necessary requirements may submit a float.”

He also stated that he would like to see two or three groups combine to put together one float, if they are unable to do so on their own.

Some children may help in the judging of the floats, which will be in keeping with the overall theme. Riding on one of the floats will be Miss Montclair State, Peggy Carissimo.

After the homecoming football game (MSC vs. Southern Connecticut), a dance will be held in the student life building cafeteria, featuring Shadowfax. The last event of the weekend, a concert starring Poco, will take place on Sunday at 8 p.m.

**Buildings Seen Ready in ’72**

By Cheryl Turnbull  
Staff Writer

Elections are on campus today to register residents of Essex County. They will be in the lobby of the student life building until 3:30 p.m.

“We tried to have four other of the nearby counties here,” said Wendy Gillespie, SGA secretary, “but they cannot go out of their own county to register people, according to the law.”

In order to register, a person must be 18 years of age by election day, Nov. 2, 1971. He must be a U.S. citizen, a resident of New Jersey for at least six months and a county resident for at least 40 days, according to Mr. Jerry Quinn, facilities director, disclosed some of the visions that the MSC master plan architects, Urbahh-Mahoney-Zvosec, and the landscaping architects, Andrei, Micelli and Weid, have devised.

A major congregating area will extend somewhat diagonally between Partridge Hall and the new college center. Lighting and electrical facilities as well as information kiosks will also be found in this area. A highlight of this entire project will be a multi-level fountain which is designed to allow pedestrians to walk closely to it. Unlike the fountain in front of Sprague library, Quinn said, the water will run over rocks.

Extending toward the industrial arts building will be a terrace area for congregating. Brick pavement and wooden sitting cubes, as well as site lighting, will accent this phase of the project.

The campus planning committee, composed of administration officers, faculty members and students, should complete the specifications within two or three months, with actual construction set to start a month later, Quinn said. Anticipated completion date for the $275,000 project is six months later.

**Homecoming thru a Child’s Eyes**

“Through the eyes of a child” is the theme for Homecoming, which will be held from Oct. 22-24. This theme was chosen for its “Flexibility” and “nostalgic” nature, according to Thomas Stepnowski, student activities director.

Give ‘Innovative’ Half a Chance

It seems rather unfair for the administration to be considering the cancellation of the innovative period experiment when they really haven’t given it half a chance.

Granted there was a campuswide vote on the idea last year—but consider when the innovative schedules were handed out. Because the printing wasn’t done when the regular fall schedules were handed out, the innovative course list was held up until nearly the last day of school—when many MSC students had already left for their summer vacations.

We’re not blaming the department secretaries for the delay, even tho they seemed a bit too uninformed to believe. Frankly, we’re not sure who to blame—but there must be somebody.

Another point that might not seem too important to the administration but was probably crucial to the registering students was the class time. The parking situation at Montclair State and January driving conditions are considerably less than ideal. Because the schedule distributed in June did not include times, it is entirely possible that students did not want to take the chance of signing up for a 8 a.m. class or, even worse, a 5 p.m. one.

We know of several course suggestions that were submitted with their enrollments guaranteed that were turned down because they were “too late.” Were they really too late or was there just too much red tape to be struggled with? Perhaps this was a way to pay back certain departments that are not in favor. Perhaps.

MSC President Thomas H. Richardson has stated that the schedule period will definitely not be cancelled this year but no decision has been made concerning the 1972–73 academic year. The very least we can ask is that the decision will not be made until after January but we urge that the experiment be repeated next year before a permanent determination is reached.

SGA & The Money Squeeze

According to statements made at Tuesday’s Student Government Association meeting, several organizations are considering applying to the SGA for class one status. This status would permit these organizations to receive SGA funding.

Two of the additional organizations that are up for funding are allegedly Help Line and another campus newspaper. Both are excellent ideas, provided the funds are there to support them.

However, many SGA legislators feel that funding additional organizations at the expense of existing groups may not be such a good idea. Galumph, MSC’s eight-year-old humor magazine, is scheduled to receive a 60% budget slice if Terry B. Lee’s proposed budget is approved. Lee obviously disapproves of what Galumph’s done in the past—or perhaps he’s scared that, even tho he’s clearly out of the fraternity-conservative SGA, Lee has said Galumph’s criticized for so many years, he’d still be subject to harsh criticism from the well-barred satire magazine.

In addition, the allocations for several other organizations are far less than what they requested. The Black Organization for Success in Society’s allotment falls $7000 short of their request. The Music Organization’s budget is $7100 short, while that of the MONTCLARION is $6950 less than it is requested.

Perhaps the solution is to increase the student activities fee. Perhaps the solution is to cut down on items like the $1200 SGA annual banquers. But whatever the solution, it might be a good idea if the legislature took a very close look at the proposed budgets from an economic, and not a political, point of view.

BITS & PIECES: Suggestions have already been made that British mystery writer Agatha Christie pick up on the story of former registrar PETER STAPAY—Will everybody who received a copy of Alpha Phi Omega’s ARROWHEAD please raise their hands? Yeah, both of you—From Times Past: Memories on campus go back to the McCARTHY ERA when a bill was supposedly proposed in the N.J. state legislature to do away with the then-Montclair State Teachers College as a hub of Liberalism.

SGA LEADERSHIP CONFERENCE will be held the weekend of Oct. 8 at Conner’s Hotel in Sandy Hook. Sure beats the mosquitoes at Camp Bernie, huh guys... Congress to the new SGA public relations man BOB GOHDE. He trounced into the MONTCLARION’s office yesterday to get some of his back issues. Maybe Lee wants to check on his campaign promises... Does anybody really know just HOW MANY STUDENTS there are on campus now? If you do, contact the admissions office.

This week’s “Those Who Do Most Receive The Short End of the Stick” award goes to SGA Treasurer WENDY GILLESPIE, Miss Gillespie, whose responsibilities do not include bookkeeping, has been told by SGA highbrows that her duties are now inclusive of those of the bookkeeper, Mrs. Janine Young, who vacated her job several weeks ago. This in itself wouldn’t be too bad, except that Miss Gillespie, like her predecessor Dawn Sowa, seems to be the odd-man-out in the SGA office, bothered simultaneously by Lee’s off-aggressive administrative attitudes and very Bill Andel’s blind spot toward her raised hand at SGA Legislative meetings.

To Miss Gillespie: Remember... as long as you get abused and disregarded here at “State,” you can be assured you’re doing a good job.
Fright fills first film

The beginning of the semester is a good time for a statement of plans and has been reached and there is an enthusiasm which has not yet been crushed beneath the weight of mid-terms and term papers, so it looks like all those lovely plans may just be carried out.

Just like all of the other MONTCLARION editors, I spent the summer making plans for my page, the arts page.

The biggest pledge I have made to myself is to cover every "arts" event on this campus. This I hope to do with a little help from my friends and anyone else who sponsors or is in on the planning of this type of events.

If you don't see your play, recital or art show covered on this page, you have only yourself to blame because I am sitting here and now, if I know about it, it will be in print.

This means that there will be fewer reviews of New York plays and army movies which will never come to this area. Notice and artsy movies which will be devoted to the black actor.

Some friends from the music department have asked that we please that I said "fewer"—not never come to this area. Notice and artsy movies which will be devoted to the black actor.

Quarterly promises an in-depth and some poetry-reading things by November—keep an eye open for these multimedia mixes. They are too good to miss.

Today is the final chance to audition for the Players' production of "The Cherry Orchard." See speech department bulletin board for details.

CARNAL KNOWLEDGE: Mike Nichols' latest directional effort about two men, Jack Nicholson and Art Garfunkel, in their search for sexual fulfillment. Jules Feiffer's screen play provides us with two poles of sexual desire, the wholly physical and the wholly spiritual—a truly disreputable film.

KLUTE: Jane Fonda fans will delight in her portrayal of Bree, the would-be actress and model, but mostly cynical prostitute whose life and sanity is being threatened by a sadistic phone caller. Donald Sutherland is a small-town Mannix playing superlusive in the big city.

LITTLE BIG MAN: A superbly done film, Banning an out-and-out flip in the face, the film makes the viewer uncomfortably aware of some of the things concerning treatment of the Indians, which Americans would rather forget. Compassion and pathos, sprinkled with humor via the talented Dustin Hoffman.

Fighting Fonda, Jane Fonda stars as an actress and callgirl in "KLUTE," costarring Donald Sutherland. Now showing in theaters in the area.

Photography and delicate musical score emphasize the nostalgic flavor of this tasteful film.

WHO IS HARRY KELLERMAN AND WHY IS HE SAYING THOSE TERRIBLE THINGS ABOUT ME?: Aging pop singer (Dustin Hoffman) flirts with suicide and paranoia in this mad mix of dream and reality. Barbara Harris contaring as a nervous singer also past her prime has one wonderful scene stuck to a pole lamp.

FOOTNOTE: "The History of Film" is not for those who like their social commentary sugar-coated. It is a film concerning the vulgar, dehumanizing prison life, with Harvey Keitel's direction providing magnificent insights into the inmates' thinking. Particularly encouraging is Wendell Burton as the shy-boy-gone-bad.

FILMS: from 'Apple' to 'Clyde'

Feature films and shorts will be presented each Friday from 1-4 p.m. in the fine arts auditorium (L-135) in "The History of Film" class. Conducted graduate assistant, many of the students are welcome to attend all the films in the series.
State Symphony

Connecting the classic and the contemporary

By Jo-Ellen Scudese
Staff Writer

Montclair State has its own little symphony in residence—the State Symphony Orchestra. The symphony, under the direction of Dr. Ward Moore, conductor, will open its 1971-72 season on Wednesday evening, Sept. 22, at 8 p.m. in the college’s Memorial auditorium.

The symphony will continue its motif of the last two seasons emphasizing the connection between the classic and contemporary period. This will involve programming a classic symphony along with contemporary and avant-garde compositions, Moore said.

The classic symphony to be performed will be the Surprise Symphony by Haydn. "While the surprise chord planted in the second movement is no longer a surprise to us, the melodic freshness and the daring harmonic dissonance over the pedal point in the coda of the second movement make this an ideal choice to show the relationship between the classic and the avant-garde," the conductor said.

An MSC Alumnus

William Shade!, an alumnus of MSC and associate music professor in the college’s department, will be featured soloist.

Besides being an MSC faculty member for the past eight years, Shade! is active as a performer on his instrument. He holds the position of Principal Clarinet with the New Jersey Symphony Orchestra, as well as occasionally appearing as a member of the New York Philharmonic and Metropolitan Opera orchestras.

Included among his many solo appearances have been two very successful New York recitals. On one of these occasions, Theodore Stronin of the New York Times compared his performance to that of Kreisler and Caruso, two of music all-time greats.

The 46-member orchestra is supported by funds from the Music Performance Trust of the Recording Industry, from the college’s Music Organizations Commission and the state. Admission to its annual concert series at MSC is free.

montclair state college’s satire and comment magazine

is holding a meeting for its new staffers

Wednesday, September 22
6 p.m.

in the Galumph office,
second floor, student life building.

Everyone interested in writing humor, art, layout, proofreading, bookkeeping—or just finding out about Galumph—is welcome.
Contaldi Rates Defense Tough

When Montclair State gridders hit the field against Kutztown State at 2 p.m. tomorrow, an experienced defense will be a point in their favor. Besides head coach Clay Anderson and defensive coaches Tom Testa and Don MacKay, no one knows the Indian defensive unit better than burly linebacker Pete Contaldi.

Contaldi, an All-East selection last year, was naturally a dynamo whose absence would cause a considerable gap in the defensive line.

John Dally has switched from offense to left safety. Alex Kaplanovich, who was the second best punt return man with an average of 5.3 yards per return, can again be found at right middle and scored moments later on Williams’ shot over the centerfield fence.

THE INDIANS scored again in the sixth when catcher Jim Bradshaw poked the ball over the second baseman’s head to knock Bob Dullarino followed with a single up the middle and scored moments later on Williams’ shot over the centerfield fence.

MSC came up with the winning runs in the fourth. Scarlatelli led off with a hit and was on second when Varina scored. Contaldi followed with a single to right, sending Varina to third. But Murray was caught oft base as he rounded first.

Tom D’Onofrio supplies the punch at middle guard. VanZile ranked second in the nation with a 41.7 average as a punter. It’s hoped that the defense won’t have to put his abilities to use.

Contaldi has good reason to be confident about MSC’s quest for another brilliant season. The defense boasts eight back and experienced. We should have a much better defense than last year.”

Contaldi, an All-East selection last year, was naturally optimistic about MSC’s repeating of last year’s outstanding season. “Right now, barring injuries, I can’t see us losing a game,” stated the stocky senior.

“Until better than this year,” said Contaldi. “They’re all back and experienced. We should have a much better defense than last year.”

Contaldi has good reason to be confident about MSC’s quest for another brilliant season. The defense boasts eight starters returning from last year. Bob Davis and Tom Rothacker repeat as the Indians’ starting defensive tackles while Tom D’Onofrio supplies the punch at middle guard.

VANZILE RANKED SECOND

Bob Ruisgnuolo and Mike VanZile are back at the end spot. VanZile ranked second in the nation with a 41.7 average as a punter. It’s hoped that the defense won’t have to put his abilities to use.

Contaldi and Bob Jensen are the veteran Indian linebackers. Jensen is often overlooked when it comes to receiving any sizable recognition. But those who play with him know him to be a dynamo whose absence would cause a considerable gap in the defensive line.

John Dally has switched from offense to left safety. Alex Kaplanovich, who was the second best punt return man with an average of 5.3 yards per return, can again be found at right safety.

Newcomers Tom Comiciotto and Tom Ellard round out the defensive squad at left cornerback and right corner back.

SCORING IMPOSSIBLE

With manpower like this returning, Contaldi can safely say, “I can’t see people scoring on our defense — except on a freaky play.”

MSC had a scrimmage against Nassau Community College last weekend which the Indians won, 10-3. After Nassau took a 3-0 lead, sophomore Moses Leiberman booted a 45-yard field goal to tie the knot. Don Whiteman scored the winning touchdown on an option from Glen Morschauer. Quarterback Bob Brevaro kicked the extra point.

General consensus is that the defense looked very well in the scrimmage. Contaldi thought the defense “played soundly” and backed up his statement by adding that the MSC line gave up only four first downs to Nassau.

All the Indians need now to compliment the defense is an equally potent offense.

TEANECK — Despite a flooded dugout and a soggy field, Montclair State’s fall baseball team opened its season with a 7-5 victory over Fairleigh Dickinson University at FDU’s athletic field Wednesday.

MSC displayed a considerable amount of power at the plate against FDU, power which usually seen only in the spring. First baseman Charlie Williams led in the Indian hitting department with a two-run homer in the third, Senior Dale Garrick blasted home run for MSC in the ninth.

THOSE WHO lamented the loss of slugger Carmine DiSantone thus graduation might be interested in sophomore Tony Scarlatelli. If Wednesday’s game against FDU is any indication of what Scarlatelli will do this fall, the Indians will still be a long-ball threat.

Big number 15 knocked in three runs against the Knights, one run on a 360-foot home run. FDU took advantage of rookie Paul Parker’s shaky first inning to notch two runs. “I was terrible in the first two innings, I couldn’t find the plate,” admitted the competitive senior. “I got my control in the third.”

Parker stated, “I’d rather let them hit the ball than give them four balls.”

YESTERDAY PARKER had a difficult time keeping to that policy. In the first inning Parker issued a leadoff walk to shortstop Rich Varina. Rick Murray followed with a single to right, sending Varina to third. But Murray was caught off base as he rounded first.

Parker worsened the situation with walks to Jerry Deblon and Jim Szep. First baseman Bob Drotie lined out third for the second out but on the double play attempt at first, the third baseman overthrow and Varina scored. Deblon came in on the play when the throw from first sailed over the backstop.

MSC came up with the winning runs in the fourth. Scarlatelli led off with a hit and was on second when Varina scored. Contaldi followed with a single up the middle and scored moments later on Williams’ shot over the centerfield fence.

WRA Gymnastics

There will be an organizational meeting of the women’s gymnastics team on Sept. 21, 1971 at 4 p.m. in Panzer gym 6. Anyone interested in competitive gymnastics is invited to attend.

Tennis

There will be a meeting of all male students interested in participating in the full intercollegiate tennis program. The meeting is set for 4 p.m. Tues., Sept. 21, 1971, at the Pittser field tennis courts. In case of rain, the meeting will be held in Panzer gym 2 at 4 p.m.

All those who plan to attend the meeting are requested to bring rackets and appropriate tennis gear.
Montclair State gridders kick off their 1971 football season tomorrow with an away game against Kutztown. The John Geordan Kutztown, Pa. The game revives an on-and-off rivalry with the Golden Bears which began in 1933. The last game was in 1961 when the Indians trounced Kutztown, 40-0.

Kutztown presents a rebuilding task for Coach Bob Kinderman because of 22 veterans lost thru graduation. Among those missing from the starting lineup are running back Phil Anthony, the third leading rusher in the Pennsylvania-Division II conference. Jeff Takacs, an ECAC selection at guard; defensive tackles Mike Zimmerman and Jeff Praz; and ends George Barton and Ken Blos.

WHILE THE loss of 22 starters could give the Indians an edge, returning lettermen are some cause for concern. Coming back to the gridiron are Pennsylvania All-East pass receivers John Gorman and Jeff Wise. All-conference center Rick Kleinert returns as does starting quarterback Tony Woytowich, who won the spot last year as a sophomore.

The Indians have to go some to top last year's squad which set 12 individual records and five team records enroute to the Knute Rockne Bowl Championship. But MSC has the nucleus of a fine defensive squad returning and if the offensive unit gets together, Kutztown will have a tough time of it tomorrow.

Last Saturday, MSC played in a scrimmage against Nassau Community College and won the contest, 10-3. According to Coach Clay Anderson, "Defense looked real good. They didn't cause any fumbles, they did very well."

**George's Boys**

**the Team to Beat**

Talk to the members of Montclair State's cross country team and they'll tell you that this is their year. Optimism reigns high among the harriers and the possibility of losing hasn't crossed their minds yet.

Coach Horn, entering his sixth year as head coach, has brought the good news from other EOF program.

Sophomore hopefuls include John Fischer, Allen Johnson and Roy Priyinger. Look for another running great in the form of Tim O'Donoghue, a freshman from Ireland.

**MSC Soccer Outlook**

There's something different about the soccer team this year. The mood of the team doesn't seem to be the same as in the two preceding years.

"I'm not as optimistic as I've always been," reluctantly admitted Montclair State's soccer coach Len Lucenko. "We lost too much to bounce back this year."

MSC's BOOTERS have lost the services of four-year all star John Schein and fullback John Schumias. Smith led the team to a 6-3-2 log with 10 goals last season. Smith ended his career on the Montclair State College's soccer all star John Miller. Miller, a two-year all state. According to Dr. Sidney Mintz of the Kiwanis Clubs of Clifton, Passaic, Wayne Montclair State has dominated 1968.
