HAWKINS STEPS DOWN AS TRUSTEE HEAD

W. Lincoln Hawkins has stepped down as chairman of the college Board of Trustees, citing a "work overload" as the reason for his decision.

Hawkins, chairman of the board since its inception in 1963, did not seek a sixth one-year term at last night's annual board elections.

The Montclarion went to press, it was learned that Gerald A. LeBoff, current vice-chairman, has been elected to chair the committee. He in turn, will be succeeded by Dr. Lawton Blanton, on Oct. 10.

In a resignation announced on Sept. 8, 62-year-old Hawkins stated that he decided not to run because of a "work overload he has been accumulating." Last year Hawkins was promoted to head of the Psychology Laboratories in Murray Hill.

Hawkins' new expanded duties did not leave him enough time for his duties as chairman, according to James Cottingham, executive assistant to the president.

Hawkins had planned to step down from his position last year, but stayed on at the request of former MSC president Thomas H. Richardson.

Hawkins explained that Richardson thought it might be "outstanding people, any one of whom can chair the board and do it well."

He described his chairmanship as an "extremely pleasant thing to do," as well as a "most challenging job." He "enjoyed working with the college family" and found his duties "stimulating."

Although he will no longer chair the board, Hawkins will remain on it as a full voting member.

Hawkins was one of the original nine trustees appointed by the state Board of Higher Education, with gubernatorial approval, in December, 1967. He was elected chairman in early 1969.

The primary function of the board is to make decisions on policy questions, Cottingham said. Last year the board exercised its single most important duty—the election of a replacement for Thomas H. Richardson as college president.

As board chairman, Hawkins not only chaired the trustees' monthly meetings, but also sat in on the meetings of its various committees. In addition, he attended monthly meetings of the Council of State Colleges (composed of the board chairman and presidents of the eight state colleges), Board of Higher Education meetings and all ceremonial activities at the college.

Although he was reimbursed for some expenses, Hawkins, like the other board members, received no pay for any of his duties.

SGA To Honor Jaffe

AS TRUSTEE HEAD

As a "fitting tribute to a man who dedicated his life to teaching and helping students," the SGA will arrange a "day of memorial" for Dr. Julian Jaffe, assistant history professor, who died suddenly on Sept. 10, said Dr. Irwin Gawley, vice-president of academic affairs.

In a unanimously approved bill in the college Board of Trustees that Dr. Jaffe "be considered for the title of "Outstanding People" for his decision."

Hawkins had planned to step down from his position last year, but stayed on at the request of former MSC president Thomas H. Richardson. Hawkins explained that Richardson thought it might be "outstanding people, any one of whom can chair the board and do it well."

He described his chairmanship as an "extremely pleasant thing to do," as well as a "most challenging job." He "enjoyed working with the college family" and found his duties "stimulating."

Although he will no longer chair the board, Hawkins will remain on it as a full voting member.

Hawkins was one of the original nine trustees appointed by the state Board of Higher Education, with gubernatorial approval, in December, 1967. He was elected chairman in early 1969.

The primary function of the board is to make decisions on policy questions, Cottingham said. Last year the board exercised its single most important duty—the election of a replacement for Thomas H. Richardson as college president.

On the campus, he was a member of the Bicentennial and the Book Store Committees and was active in the History Club and the Jewish Student Union. He also served on a committee which was planning a new course in psycho history.

Dr. Richard Barker, department chairman, commented, "Dr. Jaffe will be impossible to replace in the department because of his unique qualities and enthusiasm; he added a great deal to the department through his great scholarship and enthusiasm for teaching."

DR. W. LINCOLN HAWKINS — refused a sixth one-year term as chairman of the MSC Board of Trustees citing an increasing workload as the reason.

MSC Exceeds Frosh Quota

By Patricia Menonelli

Montclair State exceeded the national trend by meeting and accepting its projected student quotas for the 1973-74 school year. It was the only state college to do so.

According to Marshall Butler, registrar, 1950 freshmen were accepted. However, due to an unusually large number of students accepting the offers of admission, the freshman class will number about 2000. Transfer acceptances also ran higher than expected, with 800 acceptances, 200 more than the anticipated 650.

ALTHOUGH THE facilities are crowded, few problems were expected. President David W.O. Dickson expressed hope that students would register for a higher number of early and late classes in order to help alleviate any potential problems.

The over acceptances arise from normal admissions procedures, Butler explained that each year a set number of students are accepted as freshmen and transfers, with an assumption that a certain percentage will not register. Butler remarked that "the previous percentages were not very reliable this year."

Dickson does not believe that the college has overestimated its capacity. He said that both students and faculty will have to be willing to accept classes at odd hours. "We can no longer afford the luxury of all classes in the prime hours of 10 am to 2 pm," he said. He conceded that even with a greater distribution of students, things will still be rather crowded.

BUTLER SAID that most of the problems were caused by the need for more freshman classes. He also explained that several departments made inadequate programming adjustments.

Dr. Irwin Gawley, vice-president of academic affairs, said that many of the problems were caused by "odd times, adding new faculty, cancelling low enrollment classes and creating new course sections, especially on the freshman level. According to dean of students, Lawson Blanton, efforts were made to have qualified freshmen take courses other than the traditional and overcrowded freshman sections. Gawley also pointed out that many of the scheduling changes are dictated by the availability of rooms. He added that this situation will not be remedied until new classroom facilities become available.

STUDENTs STUDENTs EVERYWHERE — Registrar Marshall Butler explained that more students than expected decided to enter MSC, leaving the college to exceed its quota.

Inside Today's MONTCLARION

A feature article on newly elected Trustee Chairman Gerald LeBoff

— Page 3
By Carla Capizzi

Dr. David W.D. Dickson is still relatively new to Montclair State, but the recently appointed president already can view his role here—and MSC— with a critical eye. Issues such as student power, teacher and student unions and political demonstrations are familiar to him from his previous administrative experiences at Michigan State University, Federal City College in Washington, D.C. and the State University of New York at Stony Brook. However, Dickson has also quickly familiarized himself with MSC's own problems and issues.

HE FEELS that “long, hard effort” is “necessary” to work with the town of Little Falls to secure much-needed on-campus housing. Dickson is aware of the college’s past disputes with the town, but still hopes to work out a way to put housing “there, when we have the space.”

The President would also like to “clean up” what he describes as MSC’s “housekeeping problems” — image and errors with registration and record-keeping procedures. “We must clean up what he describes as MSC’s “housekeeping problems” — snags and ‘housekeeping problems’ — snags and make sure the services we provide are much-needed on-campus, housing. Dickson feels, the amount of involvement and work problems would vary from level to level. Student input, he comments, “works two ways.” Students have a say in college workings, but also get to see problems and issues from the college’s viewpoint.

Shutting out students from college matters, Dickson notes, would alienate them and could force the creation of a student union. The danger in such a union, he feels, is polarization of the campus. Dickson, a Harvard graduate, still retains the idea of a college as a community in itself, the presence of teacher and student unions could have a “spinal-tingling effect” on that community, he warns.

Dickson seems prepared for the “problems which, of necessity, will accompany his goals.” “I hope we can get more money, for expanded facilities and programs,” he speculates wistfully. Moreover, “whether we like it or not, we’re in a system.” MSC must relate with state autonomy, he notes, but he wants to “retain the integrity and individuality of MSC without having a ‘running battle with the state.” He is also confident that the college can “work with the AFT (American Federation of Teachers) without sacrificing competence and quality” in teaching.

DICKSON INTENDS to respect the college power—drawn from the college administration and would like to see student input on matters such as curriculum, facilities, teaching and disciplinary regulations. However, he points out, students are only one segment of the college population, and each individual group’s input should be based on its own “interest and competence” in a particular matter. Thus, while students should be involved in all levels, Dickson feels, the amount of involvement would vary from level to level.

A FAMILIAR SIGHT — MSC President David W.D. Dickson has come in contact with student problems and protests at other universities.

HE STRESSES, however, that the right of others to disagree goes “hand-in-hand with the right of expression, as does respect for individual rights. He indicated disapproval of actions or displays which would “deny normal activity to those who disagree politically.”

Over and above all other factors, Dickson considers a college’s main goal as the enrichment of the lives of those who attend it. “We have to search for truth, believe in reason, and learn to be as decent in human relations as we can.”

The MONTCLARION is a member of the New Jersey Collegiate Press Association and is a four time winner of the All-American rating in the Associated Collegiate Press Competition.

Parking Crisis Expected To Ease

By Barbara Mishall
The parking crisis is expected to ease in the next week, according to Keith Kaufman, director of security and safety.

Several factors are expected to contribute to a decrease in the number of cars coming on campus. Ticketing and towing will be restricted to cars that block traffic and obstruct safety, he said.

Kaufman stated that parking in the mall area and on the campus streets will be permitted when no other parking is available on campus. Ticketing and towing will be restricted to cars that block traffic and obstruct safety, he said.

Le Boff : Witness To Great MSC Growth

By Jo-Elten Scudese

The freshmen of 1973 have reduced are asked to contact SGA vice-president of the Student Center.

Le Boff has served on the Board of Trustees since its inception late in 1946. He was appointed by the NJ Board of Higher Education Act of 1966 which separated higher education from elementary and secondary education. A separate act called for the autonomy of the 6 state colleges which were to be co-ordinated by a chancellor (who also would serve as the executive of the Board of Education and sit in the Governor's cabinet), and 54 Trustees (54 members per state college). Le Boff served as a vice-chairman for the Board since 1969.

A VETERAN of World War II, Le Boff is married and the father of three children. He holds a Bachelor of Science degree from New York University's School of Commerce and has done postgraduate work at both the Columbia School of Business and the Stanford University School of Business. Le Boff's wife is a 1973 graduate of Fairleigh Dickinson University and has an education which she began in the 1940's which she interrupted in 1946 to serve in the armed forces.

Funds Sought For Jaffe Memorial

MSC's history department has set up a memorial fund in honor of Dr. Julian Jaffe, a department member for 22 meeting, again at Trenton State. The parking crisis is expected to ease in the next week, according to Keith Kaufman, director of security and safety.

Awards have been established to honor the memory of the late Dr. Julian Jaffe. The fund will provide for the annual award of either a scholarship or a grant, depending on the amount of contributions received.

Criteria for the recipient of the award have not yet been established. The fund's organizers intend it to be a "living memorial" to Dr. Jaffe.

LANDFILL operations in the quarry were suspended last week by the State Environmental Protection Agency (EPA). The decision was made as a result of complaints by the neighbors of the operation. Montclair State College has been among those cited by the EPA. The contractor, Carrino Contracting & Trucking Co., Belleville, has been ordered to "clear and restore the site to its previous condition or pay fines of over $300,000," Calabrese said.

Vincent Lind, the college's contract administrator, said that the case has been turned over to the state Attorney General for prosecution. It is expected that a court order will be obtained to remove whatever material has been placed in the quarry so that basic engineer permits, Calabrese said.

"However, Lind said that despite the local furor over the operation, no official complaint has yet crossed his desk. Lind also pointed out that a letter submitted by the engineering consultant of the landfill contractor contained additional information about the landfill operation and proposed several changes in it. He stressed that such information concerned possible future operations and would in no way affect the case presently before the Attorney General. Although there is no information available about the start of future operations, Lind said that "if all the design changes that have been submitted are implemented there would be no problems from the EPA's point of view."

"The landfill site is in the Little Falls section of the campus near the Clifton Hill Road entrance. The quarry is a sub-contract of the overall operation. Under the college's contract with Carrino, the entire operation will cease to exist in the college "nothing," according to Calabrese. Since Calabrese has been ordered to "clear and restore the site to its previous condition or pay fines of over $300,000," Calabrese said.

Mind Games: Opening 'Inner Doors'

By Susan Kelly

In August, Dell Publishing Company published a book entitled "Mind Games: The Guide to Inner Space" authored by Robert Masters and Jean Houston, directors of new York's Foundation for Mind Research. The games are a set of mental exercises whose purpose is to induce "altered states of consciousness without the use of drugs or mysticism," and will be conducted on campus this semester by Quarterly and Galumph, in the persons of Bruce Conforth and John Boonstra.

MIND GAMES, according to the authors, alter consciousness which expands the possibilities of the mind by giving access to new experiences. These experiences include increased sensory perception and accelerated mental processes.

Conforth, the editor of Quarterly, explained that he and Boonstra, co-editor of Galumph, have long been interested in the various methods of altering the consciousness of the mind. They will act as guides, following the manual authored by Masters and Houston, to the two groups of students and faculty that will be formed to conduct the games. The guide "helps the player to open inner doors" by inducing the trance state to their normal state of consciousness.

Conforth has studied under the president of the American Hypnotists Association in the induction of trance states. The Masters and Houston book cites the ability to communicate with the players as being an important qualification of the guide.

An example of the games is the first one in which music is played and the participant is instructed to become totally involved in the music, utilizing all of the senses.

Another game in the book of one player's experience when playing this game: "At the beginning, it was as though the music was melting, glowing, liquid substance - it was very cold...then I just felt as though it became a part of my blood as though I was just a sea of this music...and everything else was just a sea of color, every color under the sun,..."

There will be a meeting on Weds., Sept. 19 at 7 p.m. for all interested students and faculty. The meeting will be held in the Quarterly office on the fourth floor of the Student Center.

The games are arranged by the authors by books, each representing a different plane of depth. There are approximately seventy games and Conforth cautioned that the students must have time to play them all, as the maximum benefit will only be obtained if all of the games are played.

There will be several meetings before the games begin in order for the participants to get to know each other and for them to learn exactly "what they're getting into," Conforth said. When the games begin, they will be played on a weekly basis.

In the words of Masters and Houston: "Words are the means to the transformation of experiences; but the capacity to have the experiences belongs to the individual player and the new worlds must rise up from within to fill, for a while, the player's consciousness."

SGA Slates Fall Elections

SGA elections will be held at the end of the month. One seat is still available in the following department: anthropology, biology, business administration, chemistry, classics, English, fine arts, French, German/Slaw, home economics, industrial education and technology, math, music, philosophy and religion, physical education, physics/water sciences, psychology, sociology, Spanish/Italian, and speech and theater.

Education Values to Change

In last week's MONTCLARION, there were several debatable items in one article, "College: The Best Thing for You" by Gary Holton. To begin, Holton declares that "America's higher education...is operating in a vast spiritual void, having lost its sense of direction and purpose." He makes this question without even suggesting what its direction and purpose had been.

American higher education does have both a direction and purpose—both of which are disappointing to me, as an academic student. American colleges are predictably vocational in attitude. If school cannot get you a better job, higher house and more money—then what good is it? Liberal arts (for liberal arts' sake) is regarded as being (economically) libertine.

OBJECTIVES

Holton continues: "What for instance, are the institutional objectives of MSC?" The prime objective of any institution is its survival, all other goals being secondary, if an otherwise stigmatic institution, such as a college, must become a haven to secure students (economically), it will very willingly destroy itself.

Not only are "institutional objectives" insane, but "most" of them are self-serving, social duties. Here the reason of the times:"
The quantifying adjective is arguable; many, not most, students are becoming fearful of change. The academic community is an excellent half-way house of sorts. It is only those people who have become so anchored in the traditions of their present ways who become fearful of change.

EXPOSURE

Drifting, especially in an academic setting, can lead to a wider exposure to new ideas, new knowledge. One can get lost in academia, but one can also be found there, too.

"Granted, the better students...are frustrated by the unintellectual and froufrou atmosphere which pervades on campus.

There can be no denying the anti-intellectual attitude prevalent both within and without the academic institution—all of which results in the present parasitic and miasmic American academe. Yes, while upperclassmen have raked hard-earned credits from past experiences, there is no need for us to hasten the process by insulating students in the incoming freshman class. Before they have even extricated themselves from the bureaucratic red tape of the first week.

The quantifying adjective is arguable; many, not most, students are becoming fearful of change. The academic community is an excellent half-way house of sorts. It is only those people who have become so anchored in the traditions of their present ways who become fearful of change.

"Granted, the better students...are frustrated by the unintellectual and froufrou atmosphere which pervades on campus.

There can be no denying the anti-intellectual attitude prevalent both within and without the academic institution—all of which results in the present parasitic and miasmic American academe. Yes, while upperclassmen have raked hard-earned credits from past experiences, there is no need for us to hasten the process by insulating students in the incoming freshman class. Before they have even extricated themselves from the bureaucratic red tape of the first week.

ECONOMICS

So the end of constrictions, colleges will no longer be needed as political asylum from the Department of Justice. More important are the economic factors. Tuition rates are rising while the financial rewards (in terms of salary) of an advanced degree are decreasing. Logically, then, future students will be more interested in "pure" or "applied" studies than students of past decades.

One can learn political thought, and become focused on the point of view of "the better students...are frustrated by the unintellectual and froufrou atmosphere which pervades on campus.

There can be no denying the anti-intellectual attitude prevalent both within and without the academic institution—all of which results in the present parasitic and miasmic American academe. Yes, while upperclassmen have raked hard-earned credits from past experiences, there is no need for us to hasten the process by insulating students in the incoming freshman class. Before they have even extricated themselves from the bureaucratic red tape of the first week.

To the Editor: Students at MSC and at other colleges must have a clear understanding of the primary role involved in the negotiations between the state and the union representing college teachers. The primary role is that of the quality higher education in New Jersey. Your editorial of last week tended to divide teachers and students as if to indicate that our college education, can't succeed in our society.

Registration Unfair

To the Editor: It is my opinion that the registration procedure this year was grossly unfair and needlessly bloated. This event would not have occurred in any institution of higher learning. It was a disgrace to intellectualism, a moral hindrance, a poor example of the reputation of MSC and an outrage. It is my understanding that one or more of the computer malfunctioned. Any other organized institution would have taken steps to ensure an alternate solution. For example, the school should have employed another computer backup system so that the receipts and schedules would have reached us in time.

I would like to express my diproes with the entire process. The registration procedure was devised without student input and decisions were made without student conscience or concern. I would also mention the overwhelming incompetence of the administrative staff dealing with registration.

If such procedures occur in the future, I will take legal action and challenge this abomination.

Douglas Rey Marshack, '75

Vote for Byrne

To the Editor: I am writing this letter to ask all fellow MSC-students to vote on Nov. 6 for Brendan Byrne, the Democratic candidate for the office of Governor. I feel that Byrne is the most logical and responsible candidate because, firstly, his main opponent is Republican Charles Sandman, Jr. An article in this newspaper stated how the 15 members of the New Jersey Congressional delegation representing us in Washington voted on environmental bills. Our demands for improved environmental standards were rejected, whereas Byrne voted in favor of 13 bills out of 15. Of these 13 bills, Sandman voted against 12. In fact, Sandman has been the worst opponent for Byrne thus far. In my opinion, Byrne has done more for the environment than any of our other congressional representatives.

To me this is a fantastically bad record for the citizens of New Jersey who want their laws, salaries and greenlands preserved. If Sandman has not been environmentally minded in the past, as a southern New Jersey congressman, how can anyone be hopeful he will be any different if he becomes next governor?

Byrne has acted differently. If one has read the newspapers last May and June, one would know that Byrne helped convince Governor William Cahill to push the state's Senate and Assembly to vote in favor of three major environmental bills. Byrne has not been environmentally minded in the past.

Byrne will also do a fantastic job to clean up the corruption in our state's government. Already he has proven that he hates crime and will do everything in his power to stop it. While he was the Essex County Prosecutor, he was known to criminal leaders as "the man who couldn't be bought." We need an honest governor and Brendan Byrne is our man.

Prize-Winner Oliphant Continues as Feature

For the second consecutive year, the MONTCLARION will be featuring its readers' editorial cartoons by Pulitzer-Prize winner Pat Oliphant. The Australian-born cartoonist was awarded the Pulitzer Prize for editorial cartooning in 1976. He also received the top honor from Sigma Delta Chi, the professional journalism fraternity, in the same year.

HUMOR

"The basis of my cartoon is humor; there's no better weapon in satirical thought," Oliphant reports. "In those instances where a particularly glib subject might indicate a straightforward, the contrast that humor affords thrusts the message home with fresh impact.

Oliphant's work has been appearing since the middle of 1964 in his home newspaper, the Denver Post. His art work is syndicated to more than 100 other newspapers across the country.

COMPETITION

In 1958 Oliphant won one of the top prizes in London's "Great Challenge Editorial Cartooning Competition," an international contest which works world-wide than students of past decades.

AFT Needs Student Support

By Vince Pietropinto
Staff Writer

This WEEK'S QUESTION: The Bobby Riggs/Billie Jean King tennis match, scheduled for Sept. 20, has been billed as "the battle of the sexes." What is your opinion of this match and who do you think will win?

Stephan Saville, Business Administration, '75: "The match will be a great hit for tennis. I've never liked tennis, but I can't wait for this match to be televised. I'd never heard of Bobby Riggs before he started all this macho-cliché junk. My vote goes to Billie Jean King, but I'd like to see Riggs win for my own macho-character reasons."

Gail Goodstein, uncommitted: "Riggs is not playing to prove his
tennis abilities, he is playing to prove that women belong in the boath and not on the tennis courts. I disagree with the point he is trying to make and the way he is trying to make it. I hope and believe Billie Jean King will win."

Rosa Pellegrino, math, '76: "The match will draw a lot of attention, but it is the reason for it. I don't consider it a 'battle of the sexes,' for the main sport is not tennis but each and every man. Bobby Riggs will beat Billie Jean King in straight sets, Billie Jean King is best at what she's doing old."

Mehr Shaghayeghi, sociology, '74: "The match is a good idea because it will prove once and for all what a loud mouth and bag of wind Riggs really is. I predict a shocking victory for Ms. King."

Byrne has acted differently. If one has read the newspapers last May and June, one would know that Byrne helped convince Governor William Cahill to push the state's Senate and Assembly to vote on three major environmental bills. Byrne has not been environmentally minded in the past.

Byrne will also do a fantastic job to clean up the corruption in our state's government. Already he has proven that he hates crime and will do everything in his power to stop it. While he was the Essex County Prosecutor, he was known to criminal leaders as "the man who couldn't be bought." We need an honest governor and Brendan Byrne is our man.

With Quiet Wisdom

Last night, Dr. W. Lincoln Hawkins stepped down as the chairman of MSC's Board of Trustees, ending five successful years in that position. Hawkins, the board's chairman since its inception in 1967, has led the trustees through a time of great change for MSC. The trustees have been instrumental in the continuing change of the college from a teacher-oriented college to a multi-purpose liberal arts institution.

In a time when the state Board of Higher Education continuously attempts to fasten the mold of conformity on the state colleges, the trustees played an important role in the struggle to maintain the college's quality and individuality.

With his quiet wisdom and understanding, Hawkins has been a calming factor during many college crises. The college community owes him a debt of gratitude for a fine performance in a time of crisis. Hawkins, the board's chairman since its inception in 1967, has led the trustees through a time of great change for MSC. Quite A Loss

Dr. Julian Jaffe was a scholar. His works were published in finding intellectual digests and his book "Crusade Against Radicalism" was nominated for a Pulitzer Prize in history. With his quiet wisdom and understanding, Hawkins has been a calming factor during many college crises. The college community owes him a debt of gratitude for a fine performance in a time of crisis.

Steve Bogart

Sign - up Problem

Is MSC 'Horror'

Registration problems have become as much a part of MSC's campus life as apathy. Last week I watched 4,000 students obediently file into the Pamer gym in order to put together some kind of schedule. A job which in most colleges is relegated to the registrar's office. This is MSC's own holocaust, with the undergraduate refugees patiently accepting the horror of the Pamer chambers.

TheNazis, unfortunately, were much more efficient. Also, unfortunately, the registrar's office cannot lay any claim to said efficiency.

Meanwhile, back at the registrar's office, hundreds were trying to find out what had happened to their schedules. They never received one. Let(pregauss the students wait with the scurry over the cliff to the registrar's office. The real clinchers came after the last day of classes as a number of students finally got their schedules and to their dismay found them incomplete. Then it went down to the line for the gas chambers at Pamer.

Since I'm limiting this inorno to include only the registrar's faults, I won't even mention the ID torture that was going on in the basement of College Hall.

The MONTCLARION welcomes letters to the editor.
Letters should be typed and must be submitted to the MONTCLARION, fourth floor, Student Center, no later than 4 pm Friday before desired publication date. We reserve the right to edit letters for style and brevity.

SGA Needs Direction for Visible Results

If SGA is to be meaningful for us, we have to give it a direction where every accomplishment or achievement is readily visible. The goals we establish must be tangible if they are to mean anything to the organization. I would like to propose the direction and goals I believe SGA should move towards in this coming year. I have outlined five basic areas that SGA must enter if it is to be effective and gain your interest.

The first area is extending student services. At present SGA provides various services. The Class 1 organizations act as service branches of SGA. They have a responsibility to program events ranging from intramurals to theater. Outside this Class 1 organization, SGA makes available free legal aid, the Committee on Student Appeals Board, and the campus shuttle service.

The second area SGA must direct itself towards is of an ideological and moral character. I believe that SGA must increase its political awareness. SGA in the past has been very cautious to confront the social problems in our society. We as students must meet these issues. SGA, as the recognized government of the students, must skirt this responsibility.

Our third area SGA must commit itself to is of an ideological and moral character. I believe that SGA must increase its political awareness. SGA in the past has been very cautious to confront the social problems in our society. We as students must meet these issues. SGA, as the recognized government of the students, must skirt this responsibility.

'Butterflies Are Free'
Entertaining And Artistic

By Diane Bernardi
Playe's production of "Butterflies Are Free" opened to a nearly full house on Thursday, September 6. The light-hearted comedy by Leonard Gersten dealing with growth, freedom and the affairs of love was directed by Michael Z. Murphy and designed by Michael F. Callas. The plot involved a blind young man's struggle to prove himself capable of self-support and self-decision. His protagonist is, naturally enough, his mother, the domineering goose - but so not naturally, it is she who finally convinces him of his own strength of character. The story is sweetly spiced by a love affair that brings the matter into focus to both the mother and her son.

Arresting was evident in all aspects of production. The set design, though appearing widely cumbersome for such an intimate play, nevertheless caught much of New York City's less exclusive atmosphere, and proved workable as the play progressed.

By Joan Miketzuk
"Playing House," (Holt, Rinehart and Winston, 168 pages, $5.95; Frederick Wagman's first book, is not a novel. It's more the lyrical, poetic stream of consciousness of a woman who spends her life searching for a

fulfillment spelled out in chocolate pudding and avocados. The narrator, who is never identified, has an extraordinary love-hate relationship with her brother, likewise nameless. She has a sister who commits suicide, a

husband called Turtle who loves her but can't tolerate her, and a lover called the archer man. Her daughter is killed in an auto accident.

The PLOT itself is ordinary. It's the style of the book that is the

snatches of remembrance, in a streamlike structure that can kill the reader into a state of semi-hypnosis if one becomes totally absorbed in it. It is not long, however, until the song becomes a steady hum, droning away in the confused mind of the narrator, and not in the mind of the reader. There are some half-baked symbols sprinkled throughout: the swan at her mother's house, the chocolate she

ounces, the "thing" that lurks at her window and that isn't much.

Jill's director friend, provided a brief, colorful contrast scene, depicting a swoon of artsy New York scum in the true pseudo-theater freak fashion of the character.

Michael Z. Murphy was a laudable director of a difficult play and men many production obstacles admirably. The play was treated thematically and artistically, never forsaking the entertainment value. And entertainment was a decisive factor in this production's force.

Mary had a little car;
Its engine was a mess.
And everywhere she tried to go,
She got stuck in the mess. She needed service right away, And searched both near and far; And more, the price is right!

There's Smoke But No Fire

**Beatles To 'Come Together'?**

Since the breakup of the Beatles four years ago, the rumor machine has turned out a constant stream of stories about the possible reunification of the group. Until recently, these rumors have been denied by all concerned. However, now it seems that an announcement of the reunification of the Beatles for a concert tour is imminent. Sources close to the quartet have confirmed that negotiations have been carried out over the past few months and that an announcement will be made as soon as the loose ends are tied up, possibly within the next two weeks. Apple officials are careful to neither deny or confirm the reports but appear openly optimistic in answering the question.

If such a reunification does occur, as it appears it will, it could be the revitalizing force needed by rock which has been languishing in mediocrity since the demise of the Beatles four years ago. Rock has produced some excellent musicians in this time but has not produced a super-group/star to capture the imagination of the generation and act as a driving force behind the art. Hopefully the Beatles will be able to pick up where they left off.

**SMOOTH AND MELLOW**

With the release of their new single, "Muskrat Love," America once again proves why they have been compared to Crosby, Stills, Nash and Young. The soft, mellow sound of the song is a prime example of the way that America has mastered the CSN&Y brand of music. Unfortunately, many radio stations consider it too smooth and as a result much of the airplay has been on folk programs or middle-of-the-road AM stations.

**Garfunkel Returns**

Garfunkel to the charts which have recently dominated by his former partner Paul Simon.

**Garfunkel Returns**

After an absence from the music scene for several years, two former superstars have once again burst upon the charts with a new single, "All I Know." Performed by Art Garfunkel and written by Jim Webb, the song is reminiscent of the Simon and Garfunkel performance of "Bridge Over Troubled Water." Despite the similar orchestration, it should return Garfunkel to the charts which have been recently dominated by his former partner Paul Simon.

**Special Girls**

For an extended engagement. The Studio Playhouse will continue at the Studio Playhouse for an extended engagement. The acting is excellent and the story of Jean Brodie, as directed by Judith Strotz, is strong and thoughtful.

**Strong Cast Shines In 'Jean Brodie'**

by Hal Plain

The Studio Playhouse, 14 Alvin Place, Upper Montclair began its 1973-74 season with a fine production of "The Prime of Jean Brodie." The Studio Playhouse of Essex County is one of the best and most consistent community theater groups in this area and this, their one hundred and fifty-second production, will add to their fine reputation.

Ruth Frost portrays flair and verve Jean Brodie, the school teacher in her "prime" who tries to turn and direct her impressionable students. The character is well-drawn and sharply defined. Fost has a long list of acting credits but the Montclair State audience may best remember her as Eleanor of Aquitaine in the Summerston One production of "Lisa in the Winter." Jean Brodie, as directed by Judith Strotz, is strong and sure in the role of Miss MacKay, the principal of Jean's school.

Martin Paola as Mr. Perry and Jeannett Gould as Sister Helena deserve special mention as the "last link" for the main action of the play. This action takes place in the memory of Sister Helena, the author of a surprising book as she is being interviewed by a newspaper reporter. The two roles are beautifully drawn.

"The Prime of Miss Jean Brodie" will continue at the Studio Playhouse for an extended engagement. The acting is excellent and the story of Jean Brodie, as directed by Judith Strotz, is strong and thoughtful.

Autumn Nine Posts Split

"And when they were good, they were very, very good; but when they were bad, they were horrid..."

MSC's fall baseball squad has it all over the little girl "with the curl, right in the middle of her forehead."

LAST WEEKEND, the Indians were trounced twice by Seton Hall University, 11-4 and 9-5, before coming back, 3-2 and 7-3, against Lafayette on Sunday.

Coach Alex Tornillo attributed the debacles on Saturday to "poor pitching and poor defense."

"We had four errors in the first game and seven in the second," he remarked, as he ticked off statistics and individual performances without the aid of a scoresheet.

BUT ALL the pitching wasn't poor. Tornillo explained that Jim Rake allowed only one run in four innings Saturday until his leg tightened up. Rake played on Sunday at first base, but was unable to play in the second game because of the injury.

Tornillo cited second base as the most likely to need help, now that Bob Cosentino has graduated. The loss of Bill Collins on the mound hasn't helped matters too much either.

Steve O'Horo went the 10-inning route in the first game on Sunday and junior Joe Pataki stroked the game-winning single.

SOPHOMORE SOUTHPAW Dave Grunstra struck out nine in picking up the victory in the second Lafayette game.

The squad will play a 23-game schedule including nine doubleheaders. Home games are played at Clifton's Holster Park on Grove Street.

Tours of the Capitol, the White House, the FBI, Ford Theater and the National Art Gallery. Visits to the Smithsonian Institute and the Jefferson, Lincoln and Washington Memorials. The gym will be open for recreation on Monday through Thursday from 6-8 pm, and on Sunday from 2-6 pm. Gym one will be open all day Monday for student, faculty and staff recreation. A current valid MSC ID card must be presented in order to use the facility.

MSC ACCOLADES

Whitman was the holder of four MSC offensive football records, including most touchdowns in a season by an end, most passing yards in a season and most passes caught in a season and most passes caught in a career. Weiss was the winner of the NCAA college division 800 meter event and participated on the track and field country squads.

For further information contact the CINA office on the fourth floor of the Student Center or call 893-235.

By Hank Gola

Football is known to be a game where breaks sometimes mean more than statistics. But if improving passing, a solid ground game, and sure-footed kicking can produce wins, then the Montclair State eleven seems to be headed for a successful season.

The Indians open up the '73 campaign this Saturday at Kutztown State, and foes definite contenders in both the Eastern Football Conference and the New Jersey State College Conference.

HEAD COACH Clary Anderson, who takes a string of fifteen straight opening day victories into Saturday's game, should be able to guide the tribe to an improvement over last year's 6-4 ledger. That drift toward mediocrity was the poorest MSC mark since Anderson's arrival here in 1969.

MSC Grid Outlook Bright

If there is a cause for concern this season it will come from a possible lack of depth. Assistant coach McKinlay Brotton pointed out, "We have a lot of young bodies but our backups are lacking in game experience."

Already the Indians have been hit by injuries, particularly on defense where tackle John Dobson is lost for the season and Ed Ellis and Jim Beshaw are out indefinitely.

SAFETY BARRY Giblin suffered a minor concussion in a scrimmage against Nassau College, but he will be in the lineup against Kutztown. On offense, fullback Frank Ripley is listed as a doubtful performer with a fractured hand. If the injury list expands to include more key players, the Indians might be in for a rough season.

On the positive side is an offensive line that coach Don MacKay calls "experienced." The front line will be anchored by Tim Kelly, Mike McGaughran and Henry Sinatra, whom Boston feels will be the key to the line.

"Sinatra has the most experience of anyone on the line," explained Boston, "and everyone is confident in his leadership capabilities."

GREAT THINGS are also expected from quarterback Gary Acker and receivers Bob Haddad and Gary McGriff. Acker was part of the quarterback shuffle of last year, but MacKay said that he is "definitely the number one man."

MSC is also deep at the running back spots this season. Speedster Bob Hermann, whom MacKay terms a "super athlete," will attempt to better his 6.1 rushing average of last year. The senior halfback, who was selected to the weekly All-ECAC team for his 211-yard game against Jersey City, can explode from anywhere and will also be used on punt returns. Joining Hermann will be Franklin Walker, Ray Vander May, Fred Canav and Frank Ripley.

THE KICKING game will remain unchanged as long as Moses Lajterman remains healthy. This year Lajterman will have the added chore of punting, but MacKay isn't concerned about the dual role. "He's head and shoulders above everyone else," said MacKay. "His punts hang like a sand wedge and keep rolling when they hit the ground," he added.

Mo is as sure-footed as ever from placement, and has hit from as far out as sixty-one yards in practice. On defense, Rich Tyril has been moved from cornerback to weakside linebacker and will combine with safetyman Frank Bender to anchor that squad.

KUTZTOWN'S ATTACK remains a mystery with their weakness at quarterback. Last year, the tandem of John Duenez and Joe Hoelscher contributed nothing to the offense. This season, however, the Indians have a strong indication of who will take the helm. Head coach Don MacKay has announced that second-year sophomore Gary Acker will be the man.

KUTZTOWN'S DEFENSE should improve anticipation and adaptation as they adjust to their new mentor, Don MacKay. Defensive ends and tackles Tim Kelly and Mike Terry both earned All-ECAC honors last year. Tim Kelly is expected to lead the defense as he anchored a line that coach Don MacKay calls "experienced." The front line will be anchored by Tim Kelly, Mike McGaughran, and Henry Sinatra.

The Feeling here is that the Indians should climb into the top spot in the NJASC, partly because of the weakness of member schools and because of a schedule that allows MSC to play six out of its last seven games at home.

The absence of long trips on the day of the game will help down the stretch, especially against arch-rival Glassboro State. The Profs knocked MSC out of first place last year, and Sprague Field should provide the ideal setting for the rematch.

MSC is also deep at the running back spots this season. Speedster Bob Hermann, whom MacKay terms a "super athlete," will attempt to better his 6.1 rushing average of last year. The senior halfback, who was selected to the weekly All-ECAC team for his 211-yard game against Jersey City, can explode from anywhere and will also be used on punt returns. Joining Hermann will be Franklin Walker, Ray Vander May, Fred Canav and Frank Ripley.

THE KICKING game will remain unchanged as long as Moses Lajterman remains healthy. This year Lajterman will have the added chore of punting, but MacKay isn't concerned about the dual role. "He's head and shoulders above everyone else," said MacKay. "His punts hang like a sand wedge and keep rolling when they hit the ground," he added.

Mo is as sure-footed as ever from placement, and has hit from as far out as sixty-one yards in practice. On defense, Rich Tyril has been moved from cornerback to weakside linebacker and will combine with safetyman Frank Bender to anchor that squad.

KUTZTOWN'S ATTACK remains a mystery with their weakness at quarterback. Last year, the tandem of John Duenez and Joe Hoelscher contributed nothing to the offense. This season, however, the Indians have a strong indication of who will take the helm. Head coach Don MacKay has announced that second-year sophomore Gary Acker will be the man.

KUTZTOWN'S DEFENSE should improve anticipation and adaptation as they adjust to their new mentor, Don MacKay. Defensive ends and tackles Tim Kelly and Mike Terry both earned All-ECAC honors last year. Tim Kelly is expected to lead the defense as he anchored a line that coach Don MacKay calls "experienced." The front line will be anchored by Tim Kelly, Mike McGaughran, and Henry Sinatra.

The Feeling here is that the Indians should climb into the top spot in the NJASC, partly because of the weakness of member schools and because of a schedule that allows MSC to play six out of its last seven games at home.

The absence of long trips on the day of the game will help down the stretch, especially against arch-rival Glassboro State. The Profs knocked MSC out of first place last year, and Sprague Field should provide the ideal setting for the rematch.
