Protesters try to stop opening of dump site

By Linda Welchnerrieder

Approximately 150 MSC students, faculty and Little Falls residents gathered at the Clove Road entrance of the college to protest the opening of the dump site on Monday, Tuesday, and Wednesday mornings.

The 7.9-acre Quarry, located on Carlisle Road, was scheduled to open for dumping on Monday, Sept. 19, but the opening has been delayed until the Department of Environmental Protection (DEP) discusses the dumping restrictions with engineers from the Carrino Contracting and Trucking Company. The DEP requires that Carrino install a clay liner to cover a portion of the Quarry's base, but opponents claim it is inadequate to prevent seepage into local water supplies.

Little Falls residents hung banners outside their homes in protest of the dump, and the crowd of opponents chanted "Dump the dump, dump Dickson." Jayne Rich, chief of campus police, said almost the entire campus police force was stationed at the site during the protest, but that the crowd was "very peaceful."

During Monday's protest, approximately 100 placard-waving township residents, led by Little Falls Mayor Carmen Gaita, marched through the campus to College Hall to meet with Dr. David W.D. Dickson, president of the college. Dickson addressed Gaita and the protestors, and announced that Governor Thomas Kean would not be at MSC Tuesday and could not visit the dump site at that time. Kean was scheduled to be on campus Tuesday for the college's 75th anniversary, but canceled his engagement to address the National Commission on Excellence in Education in Philadelphia.

Opponents of the dump protested again during the college's 75th anniversary celebration on Tuesday, despite Kean's absence. Gaita said he sent a petition with more than 6,000 signatures to Kean and phoned him numerous times about the situation. However, Kean spokesman Carl Golden said the administration cannot stop in and stop the dump from opening. The protests have attracted media coverage from New York television stations NBC, CBS and WNEW, as well as local newspapers. "I'm disappointed with Governor Kean," John Wieworka, a Little Falls resident, said. "As far as I know, Kean hasn't even answered any of our calls."

MSC accepted Carrino's bid to fill 7.9 acres of the Quarry in 1975. According to the contract between MSC and Carrino, Carrino may dump "household, commercial, industrial and institutional" waste in the landfill for 24 months, with a possible extension of up to 12 months. After their work is complete, Carrino has agreed to resurface the dump and construct an athletic field on the site at no cost to the college.

N.J. teachers vote yes to strike; walk-out is set for October 4

By John Connolly

The council of NJ State College Locals, MSC's faculty union, voted last week in favor of a statewide teachers' strike set for October 4.

The strike vote, which was taken because the union rejected the last proposal from the state Board of Higher Education. The result of the vote was 1532-312 and six abstentions.

The union, which has been without a contract since June 30, is opposed to a number of points in the state's proposal. First, they want a more adequate salary package. Also, they will only accept the proposed merit pay if it is over and above the increment pay they already receive.

Three other points they are not pleased with is a 45-day layoff notice period, no monies for tuition reimbursement, career development and other programs and a decrease in sabbatical leaves from 160 days to 100 per year.

"I'm disappointed with Governor Kean," John Wieworka, a Little Falls resident, said. "As far as I know, Kean hasn't even answered any of our calls."

MSC kicks off diamond jubilee; demonstrators attend celebration

By Lori Henry

MSC kicked off its 75th anniversary celebration this week with a conversation which was disrupted by protesters carrying signs and issuing petitions against the proposed dump in the Quarry on Carlisle Road. However, the campus police kept the protesters out of the amphitheater where the ceremony was held.

Dr. David W.D. Dickson, president of the college, hosted the two-hour convocation and said, "Although the protestors were there during the convocation, they did not disrupt the solemnity of the occasion."

Dr. John Brademas, president of New York University and a former U.S. congressman, was the guest speaker. Brademas said there is a growing concern about education in America today.

But contrary to Brademas' concern for better education, Joe Rygticki, a resident of Little Falls, said, "Dumping garbage on college grounds does not promote a healthy learning environment."

During a brief interlude which followed Brademas' speech, the college's concert band brass section, conducted by Don Butterfield, provided light entertainment. Following the intermission, Dr. Allen Morehead, an MSC alum, and Dr. Marie Kuhnen, professor of biology, spoke about their early years at MSC. They also commented on the changes that have developed since 1908 when MSC was founded. See 75th anniversary p.3

Little Falls residents claim microwave dishes are hazardous

By David Tomeo

The town council of Little Falls objects to the building of four new microwave dishes or antennae near Clove Road, claiming that the radiation associated with the microwave transmission is a potential health hazard. Little Falls requests that the project be moved to a new location, north of the Quarry near the softball fields. "We (MSC) signed a contract with Wold Communications, Inc., and gave our go-ahead for Wold to begin construction on the dishes," Jerome Quinn, director of institutional planning, said.

In return for use of the college's land, Wold Communications has agreed to pay MSC $48,000 per year, has created two student internships per term, has scheduled six yearly lectures on campus and has also tied the college's computers into their system for the benefit of MSC's students and faculty.

Because Little Falls' town council refused to give permission to build, Wold took the issue to Passaic County Court. After evaluating the situation, Judge John Dwyer said that Little Falls did not have a valid complaint. As long as Wold follows site plans and building codes approved by the township, construction could resume, according to Dwyer.

In response to Dwyer's ruling, Little Falls has asked Wold to move the dishes, which would be adjacent to the NJ Public Broadcasting's (NJPB) transmitting tower. According to Carmen Gaita, mayor of Little Falls, "This is a residential area, and the presence of the discs poses a potential health hazard.

Gaita said the possible harmful effects of radiation have only recently been brought to the attention of the public. "There has been no study on the long-term effects of radiation. We don't want Little Falls used as a testing ground," he said.

According to Quinn, construction has already begun, and if the project were moved, Wold would want compensation for the money spent on the Clove Road site. Presently, the administration is in the situation to determine whether such a move is profitable and advisable, Quinn said.

The area around Clove Road is attractive to communication companies for several reasons, Quinn said. Proximity to New York City, use of NJPB's tower and the natural bowl-shaped Quarry near Clove Road both easy and profitable. In addition to the NJPB tower, Spanish International Network received permission from both Little Falls and MSC in 1980 to build a ten-meter disc on the NJPB site. The Wold antennae, when built, will closely resemble the Spanish International disc.

"I can't see why we need more microwave dishes on campus. The college community can't be in the communications business. The radiation danger alone should prevent the building of any new dishes," Scott J. Jepson, a sophomore undeclared major, said.

In response to such concern, the college hired the services of Larry Will, engineer with National Public Broadcast, who concluded that the site was appropriate and that no danger existed. Bondon Associates, a private telecommunications firm, established a safe level of radiation for the area with which Wold has to comply.

In addition to the college's findings, Wold, Inc. had several experts testify before the Little Falls Planning Board that no health hazard will result from microwave transmission. "We feel that the Wold project has many educational values for the college," Quinn said, "and there are no adverse effects or dangers associated with the new dishes."

Incidents of plagiarism increase as students compete for grades

By Cathy Clarke

Plagiarism at MSC has become more apparent during the past spring and summer semesters, according to Dr. Edward C. Martin, associate dean of student affairs. Martin said there have been scattered incidents of plagiarism in the past, but recently the numbers increased.

Last spring, two seniors who had plagiarized term papers were denied graduation. One of the students directly plagiarized someone's thesis paper. The incidents went unpublicized at the time, but because more students have been found guilty since then, Martin said, "It is time to bring it to the attention of students so that they don't make the same mistakes."

Martin said there are many ways to plagiarize. Several students have utilized a company called Academic Research Corporation, which sells term papers. Those papers are easily identifiable because they all have the same format. Other students copy information from a book or a thesis paper, or do not document their sources. Some students who plagiarize do not know there is anything wrong with copying someone else's work.

Although no one is sure why plagiarism has only recently become a problem, Martin said it may be "the result of increased competition for grades combined with faculty turnover." He said it is possible that teachers have been too trusting of students in the past and didn't check their term paper sources. But with the new 2,500-word written requirement teachers are examining papers more carefully.

Dr. Michael Puglisi, associate dean of business administration, said students may plagiarize because they feel "they are inadequately prepared to write a paper, or because they put it off too long and then panic at the last minute."

Puglisi does not think plagiarism is a new problem, but one that has been hidden for a long time. He said, in the past, a solution was probably worked out between the teacher and student. "By publicizing it the student pays a high price, perhaps too high. When a student plagiarizes he is saying 'I need some help,' so we should help him and impose punishment at the same time," Puglisi said.

Presently, punishment for plagiarism varies according to the severity of the incident. A student may receive a zero for the particular work, an F for the course, or may be referred to the disciplinary board and dismissed from the college.

Housing shortage on campus is still a problem

By Shari Buechler

After three weeks of school, the number of students forced to triple-up in dorm rooms has been reduced from 200 to 129, according to Dr. Ruth Lugo-Alvare, assistant director of housing.

Last year, according to Dr. Raymond Stover, director of housing, there were less than 150 tripled rooms, most of which were returned to double occupancy by the fourth week of the semester.

This year, however, because there was an increase in the number of tripled rooms, along with a decrease in the number of no-show students, some of the rooms may not be detripled until December, depending upon the rate at which vacancies occur.

"Based on past experience," Stover said, "by next semester there should not be any tripled rooms on campus."

The detripling process is being handled by first moving residents from one room to another room within the same dorm. Then students may be transferred from one dorm to another dorm, according to Lugo-Alvarez. "The only way to speed up the process," she said, "is to build more dorms."

The housing office distributed "room request" forms on September 21st which offered residents the option of either being reassigned to a double room or remaining in the triple for the rest of the semester and receiving a $350 rebate.

"I am gratified with the number of students who have asked to remain living three in a room," Stover said. "Many of them like their roommates and are also looking forward to the rebate."
WORK FOR THE FASTEST GROWING AIRLINE IN THE INDUSTRY.

PEOPLEExpress is coming to campus in search of SOPHOMORES, JUNIORS, SENIORS, GRAD STUDENTS. START NOW AS A RESERVATION SALES ASSOCIATE. You'll be the first point of contact between PEOPLEExpress and our customers, providing accurate scheduling and price information—and selling seats for PEOPLEExpress flights.

You'll be based at NEWARK INTERNATIONAL AIRPORT and you will have a flexible work schedule that fits in with your classes.

THE JOB OFFERS ALL THIS:

- $5.00 an hour to start—with regularly scheduled raises
- UNLIMITED AIR PASSES ON PEOPLEExpress (Not only for you but spouses, too, after 30 days of employment)
- FREE PARKING AT THE AIRPORT

THE MINIMUM AND MAXIMUM HOURS YOU MAY WORK ARE:

- Minimum of 4 hours per day
- Minimum of 20 hours per week
- Maximum of 40 hours per week

TO QUALIFY, you must have a GPA of 2.5 or better, be currently enrolled, be articulate—and have a mature attitude and business-like appearance. Previous work experience is a must.

Equal Opportunity Employer M/F
By Jess Rothenberg
Governor Kean’s budget proposal and its impact on the college community highlights this month’s board of trustees meeting.

Kean’s policy requires a 10 percent across the board budget reduction and a new state employee attrition plan. According to Dr. Thomas Gasser, chairman of the budget committee of the Department of Higher Education (DHE), “Budget targets will be established below the budgeted appropriations for the current year,” thus establishing the board’s concern about the effect on the quality of education at MSC.

The board discussed possible program and enrollment cutbacks, teacher layoffs, and potential negative effects on the recruitment and retention of both minority faculty and students as a result of the new budget.

Dr. Ernest May, chairman of the board, said, “The board’s policy is to improve and maintain the quality of MSC and adequately instruct disadvantaged students. Less money for more people is impossible.”

According to May, the board’s concerns will be voiced in a report to the DHE’s budget committee which meets on Sept. 28. Also, the board will discuss their concerns at a meeting with T. Edward Hollander, chancellor of DHE, on Oct. 4 at 4:15 p.m. in Kops lounge, Russ Hall.

Also discussed at the meeting was the employee attrition program which mandates that the “replacement of no more than two out of every three employees leave state service.

In addition, the DHE’s budget recommends a 73 percent expenditure on salaries which is a four percent decrease and a 27 percent expenditure decrease in operations which is also a four percent decrease from last year.

“The reduction from 77 percent to 73 percent could mean considerable attrition of our staff, up to 40 positions could be vacated,” May said.

May also said, “Policies for this college should be set by the board of trustees, not by the governor of Trenton.”

The board took a census vote which passed unanimously by calling in a judicial review of the board’s rights versus the rights of the DHE in order to determine whether the board has the power to make important policy decisions.

Dr. Kathleen Wilkins, faculty representative, said the faculty and staff are working without a contract, and a vote to authorize a strike was taken and passed at all state colleges last week. October 4th is set for the strike vote.

Wilkins also expressed the disapp­pointment of the faculty at the ap­pointment of Dr. Rene Gimbrere to the post of Associate Vice President of Academic Affairs. Gimbrere had formerly served as assistant to the president of the college and as director of institutional research. Wilkins said, “This appointment has very serious consequences to equal opportunity and affirmative action at MSC.”

“Those losses have been totally ignored by the board,” Wilkins said.

At approximately 11:30 p.m. he ran out of the room in Gallery 1 was stolen.

He was later arrested when the police were unable to see the thief. Another theft occurred outside the office of the DHE, a former U.S. congressman,” said.

Dr. Kathleen Wilkins, faculty representative, noted a need for a new elected position of the faculty at the appointment of Dr. Rene Gimbrere to the post of Associate Vice President of Academic Affairs. Gimbrere had formerly served as assistant to the president of the college and as director of institutional research. Wilkins said, “This appointment has very serious consequences to equal opportunity and affirmative action at MSC.”

“I don’t know that we who teach must struggle.”

Some of Brademas’ observations in the field of education include:

— to restore undergraduate goals
— reaffirm the importance of liberal arts and restore course requirements in the humanities
— make a major effort to attract men and women to be teachers
— provide more opportunities for lifelong learning

According to Brademas, rapidly changing technology will also require people to learn new skills to function in society. In a fast-track, high-tech world, workers will be changing jobs as many as 4 to 6 times.

In concluding his address Brademas said, “Colleges and universities are crucial to our future. There is joy in learning, delight in discovering, and capture in the recognition of the truth. It is toward a knowledge of everything about life that we who teach must strive.”

Dr. John Brademas, president of NYU, addresses the administration, students and faculty during the 75th anniversary convocation.

NYU President notes renewed interest in education

By Beth Hanlmg
“There is a growing recognition on the part of the American people that a college education is essential to a secure economy and our national security,” Dr. John Brademas, president of New York University and a former U.S. congressman, said.

Brademas was a guest speaker at MSC’s 75th Diamond Jubilee Anniversary celebration. During the convocation ceremony held at the amphitheater this week, the educator was awarded his 25th honorary degree by MSC.

In his address, Brademas said, “Now, more than ever, we need colleges within our state. It is our duty to help create a strong economy that is highly trained and able to perform the tasks in a new era?” Brademas asked. A strong econ­omy would involve forging new partnerships with businesses, Brademas said.

Some of Brademas’ observations in the field of education include:

— to restore undergraduate goals
— reaffirm the importance of liberal arts and restore course requirements in the humanities
— make a major effort to attract men and women to be teachers
— provide more opportunities for lifelong learning

In concluding his address Brademas said, “Colleges and universities are crucial to our future. There is joy in learning, delight in discovering, and capture in the recognition of the truth. It is toward a knowledge of everything about life that we who teach must strive.”

On September 12 a robber entered an open room at Bohn Hall and stole a wallet. A person happened to be in the room at the time, but was unable to see the thief. Another theft was reported on September 11, also a night time incident at Freemen Hall. An unlocked room was entered and $22, a driver’s license, an MSC ID card, and a social security card were stolen.

Two unattended bikes were stolen outside the Clave Road Apartments on September 14. One of the stolen bikes was a Peugeot worth $300, while the other was a royal blue Sears Free Spirit worth $150. Also on September 14, $15 was left in the man’s room in Gallery 1 was stolen.

At 3 a.m. on September 14, a male was arrested for disorderly conduct. The suspect had a commotion with campus police officer at Bohn Hall for no apparent reason and was later released on $1,000 bail.

On September 15 a male was ar­rested for trespassing at Blanton Hall. At approximately 11:30 p.m. he ran out of the front desk without signing in. He was later arrested when the police arrived.

On September 16, an MSC student was arrested for trespassing on the campus. After he was found urinating on the kids of Webster Hall at approximately 12:45 a.m.

By Dan Johnson
After an investigation by the campus police, a suspect was arrested on warrant for a false alarm incident that took place at the Clave Road Apartments on September 11.

The suspect was traced to his house, where he was arrested on September 16. He was later set out on $1,000 bail and will have the case settled in court.

News Notes

Speech requirement waiver being offered

The department of speech and theater offers a speech waiver/evaluation examination twice a year. The purpose of the examination is to let students waive their speech requirement. However, the student will not receive the credits they would receive if they took the course, "Fundamentals of Speech."

The registration dates are September 26 through September 29, from 10 a.m. to 12 noon and 1 p.m. to 3 p.m. Evening students can register from 5:30 to 6:30 p.m. and 7:30 to 8:15 p.m. Registration will take place at the speech and theater department in Life Hall, Room 126.

There is a $10 registration fee.

According to Dr. Wayne Bond, chairman of the department, many students feel the examination is too hard or that no one ever passes. However, Bond said that in the past, 50 to 75 percent of those who have taken the exam pass. In the exam, students are basically asked to demonstrate their speaking ability.

If there are any questions concerning the waiver, please call the speech and theater department at 893-4217.

Winter session course offers visit to South America

Dr. Ana Ramalbo, of the Spanish/Italian department, is offering a three-credit course during the winter session called "Argentina Today."

The course deals with the historical and political background of Argentina, and visits Buenos Aires, Mar del Plata and Bariloche.

The total price of the trip, which does not include tuition and fees, is $1,500.

The course begins with an on campus seminar from January 3, 1984 to January 5, and departs for Argentina on the 7th, returning on the 21st.

For further information contact the Spanish/Italian department at 893-4285.

Economics department sponsors free film series

MSC's department of economics is sponsoring a free retrospective film series this fall, "The New Deal—50 Years After," to help celebrate the college's 75th anniversary. All films in the series will be presented in Russ Hall's Kops Lounge at 7:30 p.m., beginning Monday, Sept. 26.

The first film, "Our Daily Bread," (United Artists, 1934) directed by King Vidor, will be shown on Monday, Sept. 26. Panelists leading the discussion following the film will be Barbara Blumberg, of Pace University and the author of The New Deal and the Unemployed: The View from New York City (Bucknell University Press, 1979), and Dr. Harold Flint, of MSC's economic department.

Compiled by John Connolly and the office of public information.

NJ cutbacks jeopardize the future quality of higher education

Last week the Council of NJ State College Locals voted in favor of a statewide teachers' strike. It's a decision that has been in the making for a long time. It's a decision in favor of a statewide teachers' strike. It's a decision that had to be made.

New Jersey teachers have been unappreciated and underpaid for too long. Teachers are the backbone of education in any society. They are the ones who guide us from kindergarten to graduate school. They are the ones who ultimately produce business executives, doctors, lawyers, and sometimes Indian chiefs. Yet the teachers stand in the shadows, often less successful than some of their pupils. They often earn less than most of their graduated pupils.

Yes, it's true that teachers know what they're getting into when they apply for the job. They know that there's not much money in the profession. But they take the job because they are dedicated, and believe in the importance of their job.

Now the state is trying to take the few employment benefits they have away from them. The state wants to cut layoff notices from 195 days to 45 days and decrease sabbatical leaves from 160 to 100 days. In addition, the state is considering withholding over $6 million in increment pay increases and plans to use the money for merit raises. Such raises would be "awarded" to teachers at the discretion of the college presidents. A program like this would only promote friction and competition among faculty. It's almost as if the state were saying, "Now, boys and girls, if you get an A on your report card daddy will give you a raise in your allowance." But these are the days of higher education in New Jersey.

Students speak

By Patty Winters and Gary Gerber

Four U.S. Marines have been killed in their peace keeping task in Lebanon. Do you feel that the U.S. should be in Lebanon in any capacity?

Yes, the Marines should be there. The U.S. is supposed to defend all people if their human rights are being threatened.

Catherine Fontino Senior/political science

Tome, Lebanon is another Vietnam. I feel that the Marines should do their best without sacrificing our people and without leading up to another Vietnam era.

Robert Laws Senior/political science

I think that American forces should be in another country only to protect American interests, no one else's.

Ron Meyers Junior/psychology

The U.S. has no business stationing troops throughout the world as pseudo peacekeepers under the facade of peacekeepers when intentions lie else where.

Jim Longo Senior/history

We shouldn't have to worry about other countries. I think we should take care of our own people.

Susan Bleignier Sophomore/fine arts

No, I don't think the Marines should be there. We have done our share of work. When it comes to risking U.S. lives, Reagan should think twice.

Maryellen Lux Sophomore/business

Leadership weekend failed to lead

To the editor:

Upon returning home after attending the SGA Leadership Conference held two weekends ago at Stokes State Forest, I felt responsible to report on exactly what transpired during the short time I was there. First, the SGA Leadership Conference is held every year to introduce the executive board, cabinet members, Class I presidents, and all legislatures, both old and new, to each other and the proper workings of the SGA (through contracts, programming, parliamentary procedure etc.).

Now, with all that you would expect a crowd of 75 or so people eager to learn and fine tune their awareness on how to better their service to the student body. Wrong! The first evening, Friday, saw less than twenty people. In fact, at the conference's peak, Saturday, there were no more than 30. Next, you would think that Despina Katro, the SGA president would be able to conduct a dynamic, informative and intimate series of talks and workshops. Think again because this time it was harder speaking, she displayed no evidence suggesting her leadership qualities. Lynn Mesak, SGA vice president, however, was most impressive with the chores of speaking and organizing what she had to work with. Many lectures and workshops were disregarded because there was simply no one there to listen, and equally no one qualified to speak. There were only three Class I presidents out of 12 and only a handful of legislators.

But perhaps the most embarrassing display was in their socializing. Following a group dynamics session Friday evening nicely led by Frank Little and Lou Rombino from HRO, it was announced there was a dance at the Allied Fraternity house. Everyone was supposed to be there except the SGA. Everyone was disregarded because there was no one there. But was there not been so much commotion over who had the bottles of vodka and what kind of beer the garbage cans were full of. When I pressed the soda issue I was yelled at by an executive board member for being selfish because they wanted vodka and tonics but all that was there as a mixer was orange juice. In the long run it was not much the fact that there was hardly anyone there of the drinking age, or that alcohol is forbidden at Stokes regardless of age, or that the site was left a mess. What I view as inexcusable is that when I arrived at 6 a.m. the following morning, while everybody else slept, the fire had not been put out properly the night before. And at noon it was still thickly smoldering. This is when I left, realizing that negative student opinion against the SGA is sometimes very justified and that this entire conference could have been handled in three hours with more accomplished. But, a fun time was had by all.

Overnight parking wanted in Lot 13

To the editor:

Why can't I park my car in Lot 13 overnight when all the commuting students have gone home? Lot 13 is well lit and is in close proximity to Freeman Hall. As a resident of Freeman Hall, I believe that all residents possessing overnight decals should be allowed to park in Lot 13 for their personal safety and for the safety of their cars. MSC's parking lots have a reputation for auto vandalism and theft. As the MSC campus police department states, "The mission of our department is 'to protect and serve.' " If this statement is sincere, then Freeman Hall residents should be allowed to park in Lot 13 for their own safety and protection. The residents of Freeman Hall are concerned students and will petition this issue if necessary.

Nina F. Sloan Senior/office systems

Quarterly needs your submissions

To the editor:

I had thought that being editor-in-chief of Quarterly would give me a chance to get closer to the student body. After all, Quarterly is the campus literary magazine. Our purpose, as stated in the SGA calendar, is to "provide students with a means of creative expression in literature and the arts." The submission deadline for our first Fall '83 issue is September 27th, less than a week from today. As of this writing, we have received about 15 poems and no artwork.

We realize that the Quarterly can't appeal to everyone, but out of the 15,000 students at MSC, we'd like to think we can reach at least 10 percent. Still, anything you can submit to this magazine will do all the work, but we need student submissions to produce a quality magazine.

It should be emphasized that Quarterly is a student organization, and all MSC students are welcome to contribute anytime. It's been said that Quarterly is fighting a losing battle, and that a literary magazine is no longer of interest to students. We don't believe this is true. If you agree and would like to help us, our office can be found inside the offices of The Montclarion—Room 113A in the Student Center Annex.

Eddy Muscadin Editor-in-chief, Quarterly

Letter Policy: Letters to the editor must be typewritten and double spaced. The deadline for letters is 3 p.m. Monday before Thursday publication. Letters should be signed, but names will be withheld upon request. Letters must include student's year and major in order to be printed. The Montclarion reserves the right to edit all letters for reasons of style and brevity.

ACTS offers money and prizes

From rock to classical, RGB to Gospel, county to comic, and dance and variety, the American College Talent Showcase (ACTS, formerly known as the American College Talent Search) offers exciting opportunities to talented college students in every area of the performing arts! Participating students become eligible to perform for the most noted talent agencies, management companies, record companies, trade magazines, publishing companies, public relations firms and entertainment-oriented organizations. For students wishing to enter any field of the performing arts, ACTS offers the most efficient method of reaching the professional people in the business. Among those who sit on the three-judge selection board are such notables as Bob Hope, Chuck Mangione, Esther Williams, Ray Anthony, George Misa, Byron Allen, and actress Ally Sheedy. Entries are being accepted through February 24, 1984. The National Finals will take place on April 7, 1984. Campus organizations and faculty/staff members also have the opportunity to obtain scholarship money for their departments by becoming involved. For more information contact: ACTS, Box 3ACT, 646-4413.

Harvey Jett lacks saving grace

By Mark Breltinger

I've always been perplexed by the inability of present-day Christians to reach the non-Christians they want to reach, and I'm one of them. The extremely insular movement—ironic, considering their message of faith grows out of the teachings of a true visionary. And while their transcending is constant and often of considerable magnitude, it generally appears to have more to do with marketing with than with faith. The last few years have seen the production of comic books, records and hundreds of catchy slogans to promote Christianity. And now rock 'n' roll is moving to the forefront as a means of religious propaganda.

Let me clarify: one thing propaganda is not a dirty word, and neither is religion. I happen to believe in the love-thy-neighbor spirit that fuels modern Christian faith; I just get to feeling uncomfortable when the words JESUS, HEAVEN and HELL are walled-up all over it like cheap bumper stickers. It's not good propaganda. And when you're working with a medium as potential, powerful as rock 'n' roll, it had better be good propaganda, otherwise it comes off sounding thin and (no pun intended) uninspired.

This, unfortunately, was the case with Harvey Jett's free concert in the Student Center Lounge last Thursday night. It was one in a series of concerts sponsored by Chi Alpha Christian Fellowship, and the only thing that surprised me about it was that it was so loud. I expected an evening of fairly mellow folk/rock and a small dose of Christian preaching; what I saw was a loud, raucous number which was mercifully short. Again the trick is not to think of God's Judgment? Just when I expected the audience to start walking out, came the sermon. I'm amazed that Jett had the nerve to get up in front of a college crowd and speak on such timely topics as demonic possession and the Last Days, do Christians still believe in the Rapture? Do they really believe that the theory of evolution is a sin against God? Do they believe that a college education is irrelevant in the face of God's Judgment? Just when I expected the audience to start walking out, they began applauding in agreement. Amen, indeed.

Like I've said, its just not good propaganda. These uninspired Bible-quoters thought they had their message across. If they think the audience is still going to be impressed by a political conceit, they are in for a big surprise. This, unfortunately, was the case with Harvey Jett's free concert in the Student Center Lounge last Thursday night. No doubt about it, Asia was a stunning commercial success, and therein lies the rub.

The sin that Asia committed, however, was even greater: the band's lack of secret of their intentions to appeal to the widest range of listeners possible, and so they were damned by the critics. With the release of their second album, Utopia, it's easy see how tory is going to repeat itself. After one gets over the realization that this new record was made by a pop band, one can accept the fact that Asia does throw a pretty mean frisbee and can fashion a nice little basket.

One interesting facet about Asia's music is the equal play given to its critics. With the release of their second album, Utopia, it's easy see how tory is going to repeat itself. After one gets over the realization that this new record was made by a pop band, one can accept the fact that Asia does throw a pretty mean frisbee and can fashion a nice little basket.

ICE CREAM SUNDAES

This year the Student Intramural and Leisure Council and Intramural department are emphasizing TEAM COMPETITION in all major sports, special events and tournaments. The Montclair State Intramural Point System has been established for the stimulation of widespread participation in all phases of intramural activities, to offer an incentive beyond the immediate desire to excel in any particular activity, and to afford the intramural department more continuity programming. All points earned by a team, in any sport, count toward the final intramural league standings. Entry points are awarded in all activities and these are supplemented by additional points awarded for successful performance.

SILC and the intramural department are seeking new members, officials, and scorekeepers. Those interested should contact McKinley Boston at 893-4411, Frank Petrozzino at 893-7494, or the SILC Office at 893-5725.

ESSC Warriors crush Indians 32-14 for first MSC loss since 1982 season

By John Rivera

The Indians' undefeated 11-game stretch came to a halt last Saturday as Division II powerhouse Essex Stroudsburg State College ran and kicked their way to a 32-14 victory. After a scoreless first quarter where the MSC offense dominated but could not put points on the board, ESSC scored 16 points in the second quarter with running back/kicker Joey Pingatore scoring ten of his team's 16 points.

Pingatore, a senior from New Brunswick, NJ scored at 12:49 of the second quarter on a three-yard run, then kicked the extra point to make the score 7-0. Neither team could move the ball for the rest of the quarter until 1:48 remained, when Pingatore kicked a 43-yard field goal for a 10-0 lead. ESSC again could not get within scoring range and were forced to punt. With two seconds remaining in the first half, taillback Joel Walker scored from the one to give the Warriors a 16-0 lead at halftime.

In the third quarter, ESSC struck again when Walker scored from the Indian one. Although they missed the two-point conversion, the Warriors still held a commanding 22-0 lead. MSC abandoned their running game and coach Rick Ciancione was forced to go to the air which resulted in a turnover, leading to Pingatore record-breaking 10-yard field goal.

With the score at 25-0, the third quarter ended with MSC facing the impossible task of trying to put 25 points on the board.

Just 34 seconds into the fourth quarter, ESSC scored again when quarterback Jeff Diskin found end, Joe Novan for a 14-yard touchdown. After Pingatore added the extra point the score was 32-0.

Briggs, seeing his first action of the year, impressed the crowd with his passing and led the Indians to their first points of the night. Briggs remaining in the game, Briggs threw a 25-yard pass to wide receiver Mike Algero for the Indians' first touchdown. Briggs ran the two point conversion himself to make the score 32-8.

Late in the game, Briggs scored from the two, but the win was well out of reach and the Warriors had themselves a 32-14 victory.

Asked why his team was beaten by such a large margin, Ciancione said, ESSC was just the better team that day. In order for us to have had a chance, we had have had to play a perfect game.

Ciancione, who described the Warriors as an excellent team, looked to the four ESSC turnovers which all led to points for ESSC as a partial reason for the defeat. "We played well in the first and fourth quarters but had a difficult time in the second and third which resulted in 25 ESSC points," Ciancione said. Another problem was the large amounts of time the defensive squad spent on the field as well as being in very bad field position throughout the game.

Ciancione looks to Saturday's game against Kean College as a must-win situation. He adds that this is MSC's first conference game and the team must get on the winning track.

The game has special meaning since it will be the Fifth annual Pride Bowl played at Newark's School Stadium. Glencoe is happy with the people of Newark for inviting the Indians for the third consecutive year. "The concept of the game is very good. Raising funds for educational needs makes my team as well as myself happy to be back another year," Glencoe said.

Kick-off is at 1:30 p.m. in Newark School Stadium on Bloomfield Ave.

Baseball team sweeps double-header

The Indians swept both ends of a double-header against Bloomfield College last Saturday, led by the outstanding pitching of Greg Bachison and Lee Gentile, along with strong hitting from Paul Scheipelun.

The first game was an easy victory for the Indians, trouncing Bloomfield 11-0. MSC took a 5-0 lead by the second inning and picked up two runs in the fifth and four in the sixth. Bachison had a fine game, going three innings, striking out five, giving up only five hits and one run.

The Indians went on to win 6-2 in the second game, led by the outstanding pitching of Greg Bachison and Lee Gentile, along with strong hitting from Paul Scheipelun.

The Indians are undefeated so far this season, taking Bloomfield College in a double-header and Pace University, 10-5.

Field hockey down two games

By Chris Worthington

Despite a 3-1 lead in the first half, the women's field hockey team lost to Drew University last Thursday 4-3. The team also dropped a match to Southern Connecticut State University Saturday, making their record 0-3.

The Indians dominated the first half against Drew, with sophomore Jeannie Brown scoring twice. On one goal she was assisted by senior Mary Zoller, Lorraine Matticciello picked up the third goal for MSC and Drew's Kathy Link scored at the end of the period.

The Indians defense had trouble in the second half, Drew's Beth Cacossa scored twice, unassisted both times, tying MSC 3-3. In the last minute of play, Drew player Colleen Hewlett scored on a penalty shot.

MSC goalie Lisa Flynn was credited with 15 saves compared to Drew's Colleen Hewlett who gave up 17 shots on goal.

The Indians defense had trouble in the second half, Drew's Beth Cacossa scored twice, unassisted both times, tying MSC 3-3. In the last minute of play, Drew player Colleen Hewlett scored on a penalty shot.

MSC goalie Lisa Flynn was credited with 15 saves compared to Drew's Colleen Hewlett who gave up 17 shots on goal.

On Saturday, the field hockey team lost their away match against Southern Connecticut State University.

The first half was uneventful with neither team scoring. However, in the second half, SCS player Liz Casper scored, assisted by Michele Oastey. Exactly 20 minutes later, SCS scored again. Dawn Grice finally scored for the Indians at the 31 minute mark within assist by co-captain Joy Welling.
